Tobacco Products Corporation

NOTICE OF REDEMPTION of Entire Issue of Preferred Stock

To the Holders of the Preferred Stock of TOBACCO PRODUCTS CORPORATION:

NOTICE IS HEREBY GIVEN that Tobacco Products Corporation has called for redemption on **July 1, 1924** (the next dividend payment date) the entire amount of its outstanding Preferred Stock in accordance with the provision for such redemption set forth in its Certificate of Incorporation. The holders of such Preferred Stock are hereby notified to deliver their certificates for Preferred Stock, *properly endorsed in blank,* at the **Trust Department of the Guaranty Trust Company of New York, No. 140 Broadway, New York City,** on and after July 1, 1924, and that upon such surrender of their certificates, the holders will receive the sum of $120 per share in respect of each share held by them and so surrendered.

Dividend checks, covering the dividend of 1¾% due July 1, 1924, will be mailed as usual, this dividend being payable to stockholders of record on June 16, 1924.

By reason of this redemption, **no further dividends will be payable on such Preferred Stock after the said dividend due on July 1, 1924,** and the holders should, in their own interest, surrender their certificates in accordance with the call for redemption on July 1, 1924, or as soon thereafter as possible.

Dated, New York City, May 28, 1924.

Overcoming Security Sales Resistance

IMAGINE that Unattainable Paradise of Security Salesmen—100% Sales.

And now consider that Comparative one, attained yearly by the most successful Salesmen—the one which YOU can attain. It is a question of survival of the fittest. Are you sufficiently fit to attain it under varying market conditions and increasingly keen competition?

The only way to overcome sales resistance is to increase selling power. Get the right FACTS, *plus* a knowledge of how to best PRESENT these facts, and you get—*more sales.*

It would be strange indeed if, after 15 years of solving these problems for thousands of other men we could not help YOU as well. Your investigation will convince you that we can.

Just ask for Booklet 7615
Security Salesmanship—the Profession.

Babson Institute Babson Park, Mass.

Research and Investment Stability

IN any technical and continually growing business like that of the American Telephone and Telegraph Company, there is a tendency towards certain increased costs which can be held to a minimum by technical research and development. Increasing complexity is the natural result of increased demand and complexity in itself means greater expense. By new inventions and developments, and the establishment of improvements of many sorts, more economical processes have been employed and the value of the telephone service has been steadily increased without a corresponding increase in rates.

For this purpose the American Telephone and Telegraph Company maintains a department of research which is not paralleled by that of any other private enterprise, and which insures the stabilization of its business because each new need is met by a new development.

"The People's Messenger"

A. T. & T. pays $9 per year dividends. It can be bought in the open market to yield about 7%. Write for full information.

Closing The Books

Use the Date that Suits You Best

Habit is a wonderful saver of mental effort. But too close adherence to habit in business limits efficiency by shutting off initiative.

This is particularly true in the adherence of general business to the habit of following a fixed date for closing the so-called "fiscal" year.

The best date for closing the books and preparing financial statements for the "fiscal" year is when business is in its most liquid condition—when bank loans and other liabilities are lowest, accounts receivable reduced, and, especially, when the inventory is at a minimum.

The most logical date for closing *your* "fiscal" year is that time when *your* business is logically over for the twelve months—when stocks are lowest—when prices are normal—when selling is not being forced—when you are not buying heavily—when profits can be most accurately determined—when your accounting department is not working nights, or your bank is not burdened with December 31st reports. In other words, close *your* books when *your* business is most naturally through with the rush of *your* year, when proper time and attention can be given, and your public accountants can serve you best.

AMERICAN CAR AND FOUNDRY COMPANY

STOCKHOLDERS' MEETING

The stockholders of the American Car and Foundry Company are hereby notified that the regular annual meeting of the stockholders of said Company will be held at its offices, No. 243 Washington Street, Jersey City, New Jersey, June 26, 1924, at 12 o'clock noon, for the purpose of electing a board of Directors and transacting such other business as may be properly brought before the meeting.

H. C. WICK, Secretary.

PUBLIC SERVICE CORPORATION OF NEW JERSEY

MAY 26, 1924.

TO THE HOLDERS OF THE SECURITIES OF PUBLIC SERVICE CORPORATION OF NEW JERSEY:

The Board of Public Utility Commissioners of the State of New Jersey has approved the agreement for the merger of Public Service Electric Company, Public Service Gas Company and United Electric Company of New Jersey as the first step in the comprehensive Plan of Readjustment of certain securities of Public Service Corporation of New Jersey and of its controlled companies announced on March 13, 1924. The entire Plan of Readjustment was presented to the Board of Commissioners as the basis for the merger agreement thus approved by it.

The purpose of the Plan, as stated in the first announcement, is to enable the System to meet the requirements of service to the public, to strengthen and improve the position of the holders of its securities, and to provide an adequate means of procuring new capital for necessary extension and development.

The terms of the Plan as originally announced have been supplemented by making provision for a Sinking Fund for the purchase and eventual retirement of the Perpetual Interest Bearing Certificates as described below and the pledge of a 7% instead of a 6% Preferred Stock of the Public Service Electric and Gas Company as collateral therefor.

The Plan provides in brief for:

1. CONSOLIDATION OF ELECTRIC AND GAS COMPANIES.

The consolidation of Public Service Electric Company, Public Service Gas Company, United Electric Company of New Jersey and several smaller Companies, practically all of whose stocks are now owned by Public Service Corporation, into a new company to be known as Public Service Electric and Gas Company, all of whose common stock will be owned by Public Service Corporation.

2. PROVISION FOR PERPETUAL INTEREST BEARING CERTIFICATES.

The exchange of $19,736,800 Common Stock (limited to 5% dividends) of United Electric Company, now held by the Trustee as part security for the Public Service Perpetual Interest Bearing Certificates, for $19,736,800 7% Preferred Stock of Public Service Electric and Gas Company, as authorized in the Mortgage and Agreement of Pledge securing the Perpetual Interest Bearing Certificates. Additional amounts of Preferred Stock may be issued from time to time for proper corporate purposes. Public Service Corporation will agree to pay to the Trustee for the Perpetual Interest Bearing Certificates the sum of $197,368 annually as a Sinking Fund to be applied to the purchase of the Certificates at not more than 110%, the Certificates so purchased to be held alive for the benefit of the Sinking Fund and interest thereon added to the amount of the Fund pending their eventual retirement when all have been acquired. If Certificates cannot be purchased at or below 110%, the unexpended balance in the Sinking Fund can be returned to the Corporation.

3. EXCHANGE OF GENERAL MORTGAGE 5% BONDS FOR NEW 5½% BONDS.

An offer to the holders to exchange the $31,859,000 General Mortgage 5% Bonds of Public Service Corporation outstanding in the hands of the public for $31,859,000 First and Refunding Mortgage Bonds, 5½% Series due 1959, to be issued under a mortgage to be made by Public Service Electric and Gas Company, which will have a direct lien on the Company's owned property and leasehold estates, and will be in modern form, with appropriate refunding provisions and with conservative restrictions covering the issuance of bonds for acquisitions, additions and betterments. A Sinking Fund payment at the rate of $300,000 a year, payable $150,000, on January 1 and July 1, beginning January 1, 1925, will be provided for the acquisition by purchase or call of Bonds of the 5½% Series due 1959, at or below the call price, bonds so purchased to be held alive for the benefit of the Sinking Fund only, and their interest added to the amount of the Fund. This Sinking Fund should retire over $28,300,000 of the $31,859,000 Bonds by maturity.

4. REDEMPTION OF 20-YEAR SECURED 7% BONDS.

The redemption of the outstanding $9,598,000 Twenty-Year 7% Secured Gold Bonds of Public Service Corporation due December 1, 1941, in order that the $14,000,000 General Mortgage 5% Bonds of Public Service Corporation pledged as security therefor may be released and cancelled. Funds for this redemption to be provided by Public Service Corporation.

5. FURTHER CONSOLIDATIONS.

An offer to the stockholders of certain others of the leased gas and electric companies, of the opportunity to exchange their stocks for other securities, so that eventually these companies also may be consolidated with Public Service Electric and Gas Company. The holders of a large amount of these stocks have already expressed their desire to make this exchange. These consolidations are not an essential part of the Plan, however, as the leases in question extend in practically all cases for terms of approximately 900 years.

The holders of the General Mortgage 5% Bonds will forthwith be asked to deposit their bonds with depositories for the purpose of making the exchange. A notice to this effect will be at once addressed to such holders by Messrs. J. P. Morgan & Co. and Drexel & Co., who will act as such depositories. IF THIS EXCHANGE OFFER IS ACCEPTED BY THE GENERAL MORTGAGE BONDHOLDERS WITH SUBSTANTIAL UNANIMITY, STEPS TOWARD MAKING THE ENTIRE PLAN EFFECTIVE WILL BE TAKEN FORTHWITH.

Complete information concerning the plan may be obtained upon request to the Corporation or to Messrs. J. P. Morgan & Co. and Drexel & Co.

PUBLIC SERVICE CORPORATION OF NEW JERSEY

By THOMAS N. McCARTER, *President.*

PUBLIC SERVICE CORPORATION OF NEW JERSEY

NEWARK, NEW JERSEY

To the Holders of

PUBLIC SERVICE CORPORATION OF NEW JERSEY
GENERAL MORTGAGE 5% SINKING FUND GOLD BONDS:

The Board of Public Utility Commissioners of the State of New Jersey has approved the agreement for the merger of Public Service Electric Company, Public Service Gas Company and United Electric Company of New Jersey, as the first step in the comprehensive Plan of Readjustment of certain securities of Public Service Corporation of New Jersey and of its controlled companies, announced on March 13, 1924. The entire Plan of Readjustment was presented to the Board of Commissioners as the basis for the merger agreement thus approved by it. This initial merger will be followed, in a short time, by merger agreements with several smaller gas and electric companies. The new Company, to be known as "Public Service Electric and Gas Company," upon completion of the Plan will own or control substantially all the properties now constituting the electric and gas systems of Public Service Corporation of New Jersey.

Public Service Corporation of New Jersey now offers in exchange for the $31,859,000 of its General Mortgage 5% Bonds outstanding in the hands of the public $31,859,000 First and Refunding Mortgage Bonds, 5½% Series due 1959, to be issued under a mortgage to be made by Public Service Electric and Gas Company. The Plan also provides for the cancellation of the $14,000,000 General Mortgage 5% Bonds now owned by the Corporation and pledged under its 20-Year Secured 7% Gold Bonds.

The new First and Refunding Mortgage will have a direct lien on the Company's owned property and leasehold estates, and will be in modern form, with appropriate refunding provisions and with conservative restrictions covering the issuance of additional bonds. For a description of the property and the terms of the new bonds and mortgage, we refer to a letter addressed by us to Messrs. J. P. Morgan & Co. and Drexel & Co., under date of May 27, 1924, copies of which may be had on request to them.

The issuance of the new First and Refunding Mortgage Bonds and the consummation of the Plan of Readjustment is entirely dependent upon acceptance of this exchange offer by the General Mortgage Bondholders with substantial unanimity. The holders of large amounts of these bonds have already expressed their desire to make the exchange. General Mortgage Bondholders desiring to make the exchange should deposit their bonds at the offices of J. P. Morgan & Co., 23 Wall Street, New York, or Drexel & Co., 5th and Chestnut Streets, Philadelphia, on or before July 1, 1924. Upon such deposit, certificates of deposit will be issued, which will be exchangeable for the new First and Refunding Mortgage 5½% Bonds when, as, and if issued.

The Plan of Readjustment strengthens the financial structure of the Corporation and the position of the holders of its securities. This exchange will benefit the General Mortgage Bondholders inasmuch as they will receive bonds of better security and larger income return. General Mortgage Bondholders are asked to deposit their bonds as promptly as possible, and, as soon as a sufficient amount of bonds are deposited, the necessary steps will be taken forthwith to make the Plan effective.

This exchange is recommended to the General Mortgage Bondholders by the Corporation's bankers, Messrs. J. P. Morgan & Co. and Drexel & Co., who have developed the comprehensive Plan of Readjustment so as to meet conservative standards of security.

PUBLIC SERVICE CORPORATION OF NEW JERSEY

EXCHANGE OF

PUBLIC SERVICE CORPORATION OF NEW JERSEY

General Mortgage 5% Sinking Fund Gold Bonds

FOR

PUBLIC SERVICE ELECTRIC AND GAS COMPANY

First and Refunding Mortgage Gold Bonds

5½% Series due 1959

To the Holders of

PUBLIC SERVICE CORPORATION OF NEW JERSEY
GENERAL MORTGAGE 5% SINKING FUND GOLD BONDS:

We are today mailing to the known holders of Public Service Corporation of New Jersey General Mortgage 5% Sinking Fund Gold Bonds a notice of Public Service Corporation of New Jersey offering in exchange for the $31,859,000 General Mortgage 5% Bonds outstanding in the hands of the public, $31,859,000 First and Refunding Mortgage Bonds, 5½% Series due 1959, to be issued under a mortgage to be made by a proposed new Company, Public Service Electric and Gas Company.

We recommend to the holders of the General Mortgage 5% Bonds that they make this exchange, because in our opinion the security of their bonds will be greatly improved, in addition to which they will receive an increase of ½ of 1% in annual income. This Plan was initiated by us and has been developed under our supervision. In connection with the new 5½% Bonds, we refer to a letter addressed to us by Mr. Thomas N. McCarter, President of Public Service Corporation, copies of which may be had on request, which he summarizes as follows:—

SECURITY. The property securing the new bonds has been valued by Day & Zimmermann, Inc., Engineers, as of January 1, 1924, as follows:—

First mortgage property	over	$40,000,000
Direct mortgage property, subject to $21,718,825 underlying liens	over	48,000,000
Pledged securities (market value)		11,000,000
Equity in valuation of Leased Companies	over	60,000,000

NET EARNINGS over 2¼ times fixed charges, including rentals.

SINKING FUND should retire over $28,000,000 of the Bonds of the Series due 1959 by maturity.

The consummation of the Plan is entirely dependent upon acceptance of the exchange offer by the General Mortgage Bondholders with substantial unanimity. The holders of large amounts of these bonds have already expressed their desire to make the exchange. As time is an essential consideration, it has been found necessary to require bondholders to express their decision before the close of business on July 1, 1924, and to that end General Mortgage Bondholders who desire to make the exchange should deposit their bonds at either of our offices prior to that time.

Depositors will receive bearer certificates of deposit issued by the undersigned under the terms of a Deposit Agreement between the Public Service Corporation of New Jersey, the undersigned as depositaries, and the depositing bondholders, a copy of which agreement will be furnished on request. No expense of any kind is chargeable to depositors.

NEW ISSUE

$1,500,000

San Joaquin Light & Power Corporation

Unifying and Refunding Mortgage 6% Gold Bonds, Series "C"

Dated May 1, 1924 **Due May 1, 1954**

Principal and interest are payable at The Equitable Trust Company of New York, Trustee, and the semi-annual interest is payable May 1 and November 1 at the office of the Trustee, Wells Fargo Bank and Union Trust Company of San Francisco and the Union Bank and Trust Co. of Los Angeles, without deduction for Federal Normal Income Tax not exceeding 2%. Denominations $500 and $1,000. Callable as a whole or in part at 105 and accrued interest on any interest date upon thirty days' notice to May 1, 1934, and thereafter at a premium of ¼ of 1% for each year or unexpired fraction thereof.

THE EQUITABLE TRUST COMPANY OF NEW YORK, Trustee.

Tax Exempt in California

All outstanding bonds of the Corporation have been certified as legal investments for Savings Banks in the State of California and application has been made to have this issue so certified.

The following is a summary of the facts contained in a letter from the Vice-President:

The San Joaquin Light & Power Corporation was incorporated under the laws of California in July, 1910, as a consolidation of several public service companies which had been in successful operation in various sections of the San Joaquin Valley from as early as 1896. The Corporation conducts, without competition, a general lighting and power business in its territory extending into seven counties in Central California, approximately 200 miles in length by 80 miles in breadth. Included in the territory are some of the foremost inland cities and towns of California.

EARNINGS.

Years ended December 31.

	Gross Revenues.	Available for Interest and Depreciation.	Total Interest Charges (Net.)
1919	$3,292,963	$1,259,295	$745,784
1920	4,340,905	2,371,815	920,812
1921	5,595,112	3,242,870	1,612,175
1922	6,405,116	3,769,226	1,723,596
1923	6,898,353	4,082,107	1,689,046

The average annual net earnings available for interest and depreciation during the past ten years have been 2¼ times the average annual operating interest charges.

In the last three years the Corporation has increased its generating capacity to the extent of 117,000 horsepower; it has added 22,462 consumers, and it has increased its connected load by 114,828 horsepower.

These Bonds are a direct mortgage upon all the property of the Corporation now owned or hereafter acquired.

The equity for these Unifying and Refunding Mortgage Bonds, represented by junior securities of the Corporation, exceeds $16,800,000, measured by market quotations.

Further issuance of bonds under the Unifying and Refunding Mortgage is limited to a par amount not exceeding 75% of the cost of plant extensions and when net earnings for twelve months out of the preceding fifteen months shall have been not less than 1¾ times the total interest on all bonds of the Corporation outstanding and those for which certification has been requested.

New Issue May 26, 1924.

$2,000,000

The Ohio Power Company

6% Gold Debenture Bonds

NON-CALLABLE FOR 25 YEARS

Dated June 1, 1924 **Series due June 1, 2024**

This series not callable prior to June 1, 1949. On and after that date, and prior to June 1, 2019, callable as a whole or in part at the option of the company at any time upon 30 days' published notice, at 110 and accrued interest; thereafter at par and accrued interest. Coupon form of $1,000 denomination with provision for registration of principal. Principal and interest payable in New York City. Interest payable June 1 and December 1. The company agrees to pay interest without deduction of Federal Normal Income Tax up to 2%. Pennsylvania Four-Mill Tax refunded upon application made within six months after payment. The Seaboard National Bank of the City of New York, Trustee.

The following information is a summary of a letter to us from Mr. R. E. Breed, Chairman of the Board of Directors of the American Gas and Electric Company and President of The Ohio Power Company:

The Ohio Power Company owns and operates large electric power and light generating plants and distribution systems in important manufacturing and mining sections of Ohio. Its transmission and distribution lines amount to over 1,657 miles, serving communities having a total population in excess of 465,000, including in all 105 cities and towns, among which are Canton, Mount Vernon, Newark, Fremont, Lancaster, Bucyrus, Steubenville, East Liverpool, Lima, Tiffin, Fostoria and the Wheeling District west of the Ohio River.

These bonds are the direct obligation of The Ohio Power Company. As shown by its balance sheet of March 31, 1924, adjusted to give effect to the issue of these bonds, the net assets of the company after deduction of all liabilities other than capital stock, surplus and this issue were in excess of $10,000,000, which is equivalent to more than $5,000 per debenture bond. Mortgage debt outstanding aggregated $31,605,000, while plant account together with construction funds amounted to over $49,000,000.

Gross and net revenues have steadily increased. For the six years ended March 31, 1924, as shown below, gross earnings increased $6,389,197 or 167%. Net revenue after taxes, maintenance and depreciation charges as shown below, increased $2,880,714, or 239%.

Twelve Months Ended March 31	Gross Earnings	Total Net Revenue	Total Interest Charges
1919	$3,823,781	$1,200,769	$706,169
1920	4,676,079	1,936,923	876,753
1921	6,182,406	2,483,541	1,109,223
1922	6,785,269	3,248,193	1,409,278
1923	8,141,998	3,334,038	1,421,535
1924	10,212,978	4,081,483	1,915,386

Total Net Revenue for each of the last five years shown above was more than twice the total interest charges for the year. The American Gas & Electric Company owns the entire common stock of The Ohio Power Company.

We offer these bonds for delivery when, as and if issued and received by us, subject to the approval of our counsel, and to authorization by the Ohio Public Utilities Commission. Dillon, Read & Co. interim receipts or temporary bonds of the Company will be delivered on or about June 4, 1924.

Price 91 and Interest. To Yield about 6.60%

Further information is contained in our circular which may be had on request.

New Issue

$7,734,000

NEW ORLEANS, TEXAS & MEXICO RAILWAY COMPANY

("GULF COAST LINES")

First Mortgage Thirty-Year 5½% Gold Bonds

SERIES "A"

Dated April 1, 1924 — Due April 1, 1954

Interest payable April 1 and October 1

Redeemable in whole or in part on any interest date on or before April 1, 1944 at 105 and interest, the premium decreasing ½% for each year elapsed thereafter until maturity.

Interest to be payable without deduction for any Federal Income tax up to 2% per annum which the Company or the Trustee may be required to withhold. Pennsylvania Personal Property tax of four mills refundable. Coupon Bonds in denominations of $1,000, $500 and $100. Bonds in the denomination of $1,000 registerable as to principal. Total authorized issue limited to $50,000,000 and shall not at any time exceed three times the outstanding capital stock. To be presently issued $8,748,000 Series "A," of which not exceeding $1,014,000 are to be deposited under an equipment trust agreement in lieu of pledged First Mortgage Bonds due 1925.

For information regarding the Company and this issue of Bonds, we refer to a letter from Mr. J. S. Pyeatt, President (copy of which should be obtained from the undersigned), some of the items of which he has briefly summarized as follows:

SECURITY: The First Mortgage Bonds are to be secured in the opinion of counsel by direct first mortgage or by first lien through deposit of collateral (first mortgage bonds), on about 981 miles of railroad. Including $13,500,000 5% Income Bonds, the total funded debt to be presently outstanding in the hands of the public, exclusive of equipment notes, will be at the rate of $21,700 per mile of road owned. $13,500,000 First Mortgage Bonds are to be reserved to exchange or refund at any time an equal face amount of Income Bonds due October 1, 1935.

The First Mortgage Bonds will also be secured by a first lien on equipment having a book value of $7,606,700, subject as to part thereof as of May 1, 1924 to $2,578,903 Equipment Trust Notes including interest to maturity.

Consolidated balance sheet of December 31, 1923 shows net investment in road and equipment of Company and subsidiaries of $38,338,668. To this should be added the investment in road and equipment of the Houston & Brazos Valley Railway, recently acquired, and other separately operated properties.

PURPOSE: Proceeds of this issue of $7,734,000 First Mortgage 5½% Bonds are to be deposited, so far as necessary, with the Trustee under the old First Mortgage of the Company, to provide for $5,733,000 First Mortgage 6% Bonds due October 1, 1925, and to obtain the release of said First Mortgage; the balance of such proceeds are to be applied to reimburse in part the cost of acquisition of the securities of Houston & Brazos Valley Railway Company.

EARNINGS: For the seven years 1917 to 1923 inclusive, gross corporate income of the Company and its subsidiaries before deducting interest on funded debt averaged $2,322,083 per annum, equivalent to over twice the annual average interest charges on funded debt including interest on outstanding Income Bonds. For the year ended December 31, 1923, gross income before deducting interest on funded debt amounted to $3,406,456, or almost 3 times total interest charges on funded debt. Upon completion of present financing, maximum annual interest on funded debt, including Income Bonds and equipment notes, will be approximately $1,200,000.

For the three months ended March 31, 1924, gross operating revenue increased 25% and gross income available for interest increased 42% over the corresponding period in the previous year.

EQUITY: The $15,000,000 outstanding Capital Stock of the Company at present quotations represents an equity of about $16,500,000 junior to its funded debt. Dividends on the Capital Stock at the rate of 6% per annum were inaugurated in 1920 and were increased in March, 1923, to 7% per annum which is the present rate.

PROPERTY: The Company controls and operates a railway system of about 1,174 miles, including direct operating connections under contract, known as the "Gulf Coast Lines," extending from New Orleans via Baton Rouge and Houston to Brownsville, Texas, where direct connection is made with the National Railways of Mexico. It is practically a water level line and is the shortest rail route from New Orleans to the Mexican border. The system serves a rich agricultural, mineral and lumber territory in the States of Louisiana and Texas and handles a well diversified freight traffic which furnishes about 76% of gross operating revenue.

It is expected that application will be made in due course to list these bonds on the New York Stock Exchange.

Interim receipts or temporary bonds will be deliverable in the first instance. All offerings are made "when, as and if issued" and received by us and subject to approval of proceedings by our counsel.

Price 99 and interest to yield 5.57% to maturity

New Orleans, Texas & Mexico Railway Company First Mortgage 6% Gold Bonds due October 1, 1925, with all unmatured coupons attached, will be accepted on a 4½% yield basis, in payment of or in exchange for Bonds of this issue deliverable on confirmed allotments. This privilege is subject to withdrawal at any time.

All of the above Bonds having been subscribed for, this advertisement appears as a matter of record only.

$35,000,000

The Baltimore and Ohio Railroad Company

Refunding and General Mortgage 6% Bonds, Series "C"

Due December 1, 1995

Interest payable June 1 and December 1. Coupon bonds in denominations of $1,000 and $500 with privilege of registration as to principal and exchangeable for fully registered bonds. Registered and coupon bonds interchangeable under conditions provided in the mortgage.

The entire series, but not part thereof, redeemable at option of Company on June 1, 1934, or on any interest date thereafter at 107½% and accrued interest upon not less than ninety days' previous notice.

We are advised that these bonds are a legal investment for savings banks and life insurance companies in the State of New York.

For further information regarding the Company and this issue of Bonds, reference is made to a letter from Geo. M. Shriver, Esq., Senior Vice-President of The Baltimore and Ohio Railroad Company, copies of which may be obtained from the undersigned and from which the following is quoted:

"The purpose of the sale of these bonds is to provide part of the funds necessary for the refunding of the Company's obligations maturing in 1925, to reimburse the treasury for expenditures heretofore made for additions and betterments, and for other corporate purposes. It is estimated that about $20,000,000 will be available for refunding purposes.

The Refunding and General Mortgage Bonds will be secured by a lien, as hereinafter stated, on practically the entire system of railroads of The Baltimore and Ohio Railroad Company, comprising about 5,089 miles of first track, about 1,451 miles of second track and about 3,796 miles of other track, and upon the equipment of the Company, or its interest therein, having a present net value after depreciation, over equipment trust certificates outstanding, of over $94,000,000. The Refunding and General Mortgage also covers the passenger and freight terminals of the Company in Philadelphia, Baltimore, Pittsburgh, Cleveland and Chicago, and the freight terminals on Staten Island, N. Y., in Washington, Cincinnati, Toledo and East St. Louis, as well as the Company's one-half stock interest in the Washington Terminal Company, and its one-half ownership of the joint yards and terminal facilities at Washington. The mortgage will be a direct lien on about 2,289 miles of first track, 672 miles of second track and 1,820 miles of other track of the above-mentioned mileage, and a lien, through the deposit of bonds, and in most cases all, and in no case less than ninety-six per cent of the capital stock of each of the Companies owning the same, upon the remaining mileage. The Refunding and General Mortgage is subject to prior liens on various parts of the system aggregating $297,307,280 (before deducting maturing obligations to be refunded through the present issue) for the retirement of which Refunding and Genera Mortgage Bonds are reserved as hereinafter stated.

The Twenty-Year Four and One-Half Per Cent Convertible Gold Bonds of the Company, amounting to $63,250,000, in accordance with the terms thereof, are equally secured with the Refunding and General Mortgage Bonds by the Refunding and General Mortgage upon the properties covered thereby.

The total income of The Baltimore and Ohio Railroad Company for the year ended December 31, 1923, applicable to the payment of interest on its funded debt, rentals and other fixed charges amounted to $50,565,650, while interest, rentals, etc. (other than Federal Income Taxes), for the same period amounted to $25,743,-614. For 1924, even assuming a twenty per cent decrease in freight traffic compared with the preceding year, such total income is estimated at $42,800,000 as against interest and other charges, including interest on this issue of bonds, of $26,700,000.

For the five years ended December 31, 1923, the net income of the Company, after deducting dividends paid, was $30,528,000, of which $17,500,000 was applied to the retirement of funded debt and to additions and betterments to its properties. At December 31, 1923, the total corporate surplus of the Company aggregated $58,725,000.

The Baltimore and Ohio Railroad Company has outstanding $58,863,000 of Preferred Stock, paying dividends at the rate of 4% per annum, and $151,945,000 of Common Stock paying dividends at the rate of 5% per annum.

The authorized total issue of the bonds secured by the Refunding and General Mortgage is limited to an amount, which, together with all outstanding prior debts of the Railroad Company, after deducting therefrom the bonds reserved to retire prior debts at maturity, shall not exceed three times the then outstanding capital stock of the Railroad Company, with the additional limitation that when the aggregate amount of the bonds outstanding and those reserved to retire prior debts shall be $600,-000,000 no additional amount of bonds shall thereafter be issued (except the bonds so reserved to retire prior debts) without the further consent of the stockholders of the Railroad Company, and such additional bonds may be issued only to an amount not exceeding 80% of the cost of work done or property acquired.

Of the authorized amount of Refunding and General Mortgage Bonds there will be outstanding in the hands of the public after the present issue $60,000,000 of Series "A" 5% Bonds and $35,000,000 of Series "C" 6% Bonds. In addition there are pledged as part collateral for the Company's $35,000,000 Ten-Year 6% Secured Gold Bonds due 1929, and for $11,900,000 loans with the United States Government, due in part in 1930 and the balance in 1935, $8,000,000 Series "A" 5% Bonds and $24,250,000 Series "B" 6% Bonds. There are also pledged as security for an equipment loan maturing serially until 1935, $3,250,000 Series "B" 6% Bonds. Bonds are reserved, as stated in the mortgage, to retire $297,307,280 prior lien debts, including prior lien debts to be refunded through this issue. There are also reserved $63,-250,000 bonds to retire a like amount of the Company's Four and One-Half Per Cent Convertible Gold Bonds due in 1933. The remainder of the bonds are reserved under the restrictions stated in the mortgage for additions and betterments, new equipment, for the construction or acquisition, directly or indirectly, of additional properties and securities, and the refunding of prior debts thereon, and, to the extent of five per cent of certain prior debts, to assist in refunding.

Application will be made in due course to list these bonds on the New York Stock Exchange."

The undersigned will receive subscriptions for the above Bonds, Subject to Allotment, at 100% and Accrued Interest to Date of Delivery.

The undersigned reserve the right to close the subscription at any time without notice, to reject any application, to allot a smaller amount than applied for and to make allotments in their uncontrolled discretion.

The above bonds are offered if, when and as issued and received by the undersigned and subject to the approval by the Interstate Commerce Commission and any other public authorities that may be necessary of the issuance of the bonds and their sale to the undersigned and to the approval by their counsel of all legal proceedings in connection with the issuance thereof. Temporary bonds or interim receipts will be delivered against payment in New York funds for bonds allotted, which temporary bonds or interim receipts will be exchangeable for engraved bonds when prepared.

Kuhn, Loeb & Co. **Speyer & Co.** **The National City Company**

New York, May 29, 1924.

Subscriptions for the above Bonds having been received in excess of the amount offered, the subscription list has been closed, and this advertisement appears as a matter of record only.

As all of these Bonds have been sold, this advertisement appears only as a matter of record.

$20,000,000

The Cleveland, Cincinnati, Chicago & St. Louis Railway Co.

FORTY YEAR 5% REFUNDING AND IMPROVEMENT MORTGAGE GOLD BONDS, SERIES D

Dated July 1, 1923 — *Due July 1, 1963*

Bearing interest from January 1, 1924, payable January 1 and July 1 in New York City

Redeemable at the option of the Company, as a whole but not in part, on any interest date at 105% and accrued interest

Coupon bonds in denominations of $1,000, $500 and $100, $1,000 and $100 coupon bonds interchangeable. Fully registered bonds in denominations of $1,000, $5,000, $10,000 and $50,000. $1,000 and $500 coupon bonds registerable as to principal, and interchangeable with fully registered bonds.

The issuance of these Bonds has been authorized by the Interstate Commerce Commission.

GUARANTY TRUST COMPANY OF NEW YORK, CORPORATE TRUSTEE

Albert H. Harris, Esq., Chairman of the Finance Committee of the Board of Directors of the Company, has summarized for us as follows his letter to us describing these Bonds:

PROPERTY ***The Cleveland Cincinnati Chicago & St. Louis Railway Company (popularly known as the "Big Four") operates 2,217 miles of railway, comprising an important part of the New York Central system. The New York Central Railroad Company owns over 91% of the Company's Common Stock and over 84% of its 5% Preferred Stock.***

EARNINGS ***The Company's gross operating revenues, income available for charges, total charges and net income (after sinking fund deductions) during the past nine years have been as follows:***

Year ended Dec. 31	Gross Operating Revenues	Income Available for Charges	Total Charges	Net Income
1915	$38,364,087	$9,329,976	$5,952,922	$3,377,054
1916	46,678,240	13,979,322	5,676,587	8,302,735
1917	52,650,920	10,997,359	5,769,862	5,227,497
1918	71,403,970*	10,655,367	7,566,897‡	3,088,470
1919	73,856,456*	10,800,787	10,256,137‡	544,650
1920	88,862,078†	13,253,480	7,399,874‡	5,853,606
1921	79,793,593	11,510,117	8,617,385	2,892,732
1922	84,665,690	15,388,410	7,898,749	7,489,661
1923	94,941,444	19,299,598	7,723,413	11,576,185

**United States Railroad Administration.*
†U. S. Railroad Administration two months; Federal Guaranty period six months; Corporate period four months.
‡Including settlement by U. S. Railroad Administration for account of Company of net lap-over items applicable to period prior to January 1, 1918, as follows: in 1918, $1,616,343; in 1919, $3,580,184, and in 1920, $100,606.

During the nine years covered by the above table, the Company's income available for charges averaged more than 1.7 times total charges. The greater part of the proceeds of these Bonds will be used to pay indebtedness carrying a higher rate of interest.

CAPITAL EXPENDITURES ***In the past nine years, surplus earnings, after payment of all charges, aggregated $48,352,590, of which $8,107,002 was paid out as dividends, the balance of $40,245,588 being used for additions and betterments, new equipment and other corporate purposes.***

SECURITY ***The Refunding and Improvement Mortgage, dated June 27, 1919, covers as a direct lien 1,685 miles of railroad owned, the Company's interest in 328 miles of railroad operated under lease or contract, and 146 miles of trackage rights, the total comprising 2,159 miles of railroad. After giving effect to this financing, there will be outstanding in the hands of the public $41,052,600 and Fcs. 11,376,000 principal amount of bonds secured by this Mortgage, which, together with the outstanding amount of present prior lien debt (not to be increased), will be equivalent to about $67,200 per mile of owned railroad.***

EQUITY ***The Company has outstanding $9,998,500 Preferred Stock and $47,028,700 Common Stock, upon which dividends are being paid at the rate of 5% annually. The Company's income for 1923 applicable to dividends on its Common Stock was equivalent to over $23.50 per share.***

THE ABOVE BONDS ARE OFFERED FOR SUBSCRIPTION, SUBJECT TO ISSUE AS PLANNED AND TO APPROVAL BY COUNSEL, AT 94½% AND ACCRUED INTEREST FROM JANUARY 1, 1924, TO YIELD APPROXIMATELY 5.34%.

Subscription books will be opened at the office of J. P. Morgan & Co. at 10 o'clock A. M., Tuesday, May 27, 1924. The right is reserved to reject any and all applications, and also, in any case, to award a smaller amount than applied for. The amount due on allotments will be payable at the office of J. P. Morgan & Co., in New York funds to their order, on or about June 10, 1924, against delivery of temporary Bonds, exchangeable for definitive Bonds when received from the Company.

WILLIAM B. DANA COMPANY, Publishers,
Front, Pine and Depeyster Streets, New York.

Published every Saturday morning by WILLIAM B. DANA COMPANY. President and Editor, Jacob Seibert; Business Manager, William D. Riggs, Treasurer. William Dana Seibert; Secretary, Herbert D. Seibert. Addresses of all, Office of Co.

The Financial Situation.

Both Houses of Congress have, by overwhelming majorities, adopted the report of the conference committees on the Tax Revision measure, notwithstanding its many deplorable features, and the bill is now before President Coolidge, awaiting his action thereon. According to the news dispatches in the daily papers he is having the bill carefully examined with a view to determining whether under its provisions a sound financial state of the Treasury can be maintained. That, of course, is a highly important consideration, and if the operation of the proposed Act is to result in recurring deficiencies of revenue the Presidential veto will have to be interposed in any event. There are, however, other and still stronger reasons why Mr. Coolidge should signify his disapproval of the bill and withhold his signature.

In its course through the two Houses the bill has been so radically altered, and so many bad and unsound features have been grafted upon it, that Executive condemnation should without hesitation be visited upon it on that ground alone. These provisions were incorporated not out of any desire to devise a sane and sensible system of taxation, in perfect accord with Government fiscal requirements, but with the sole object of putting into effect doctrines of social reform wholly subversive of the liberty and freedom guaranteed the individual under the Federal Constitution. The provisions referred to are all aimed at the rich and have been inserted with the idea of bringing about a redistribution of wealth through the application of graded accumulative and progressive tax rates practically confiscatory in their operation. Such, for instance, is a 40% income tax coming on top of corporation taxes, Federal and State, aggregating in the neighborhood of 20%. Such, also, are inheritance or estate taxes running to a maximum of 40% and such, also, is the new tax on gifts running to the same maximum.

These are not taxes intended to produce revenue, but taxes designed to strip the favored classes of their possessions. They ought not to be incorporated in any law until the people themselves can have a chance to express their views upon them. It may be that the people of this country are in favor of schemes of social reform which shall reduce the rich and the poor to a common level, after the fashion practiced by Soviet Russia with such signal success during the last few years. If so, we shall all have to abide by their decision, for "Vox Populi, Vox Dei," but the people should first be given the opportunity to express their conclusion to that effect plainly and unmistakably. A veto by the President, put expressly on that ground, would give them the chance to do this and to do it quickly, since a Presidential election is impending and is only about five months off.

In that way the issue could be easily and quickly disposed of. Neither Congress nor the President should allow an irresponsible oligarchy to alter our Government, which is what such a scheme of social reform would involve, unless all doubt on that point is removed. Washington advices tell us that some of the President's advisers are counseling him against a veto, because they fear such a step would be unpopular and prejudice the chances of success of the political party to which the President belongs. On the contrary, it is our belief that with this as the issue, and the stand on it clearly expressed and maintained, both the President and his party would sweep the country from one end of the land to the other. At all events, the President owes it to himself and to the country that the people should be allowed to express their judgment on the question.

Practically since the results of the recent French elections became definitely known it has been assumed that Edouard Herriot, Mayor of Lyons, would be the next Premier of France, and this week the early cable dispatches from Paris took it for granted that there was no question about it. Thus the New York "Times" representative at that centre, in a cablegram under date of May 25, began by saying, "in an interview at Lyons to-day Edouard Herriot, who becomes Premier of France in ten days, said that the future foreign policy of France would be built around the League of Nations." It will be noted at once that the correspondent proceeded on the assumption that the identity of the next Premier had been fully established. He also said that, "while the leading purpose of the majority which would control the next French Chamber would be to bring

peace to the world through the League of Nations, M. Herriot emphasized that the new Government would not weaken in the fight to insure security for France against Germany and payment of reparations." Continuing to outline his policy, M. Herriot was reported to have said: "Our first job will be to settle the difficulties in the way of putting the experts' report into operation and after it is in operation we shall study the conditions under which evacuation of the Ruhr may take place." According to the "Times" representative, "he [Herriot] said that in an interview he had given to the Berlin 'Vorwaerts' he had made it perfectly plain that surrender of reparations would not be part of the policy of the new French Government. If the German Government moved to the Right the Nationalists of the Reich would undoubtedly make it more difficult for France to bring about a fair reparations settlement. Every display of German good faith would find an equal display on this side of the Rhine, but he hoped there was no idea in Germany that he could be duped." Asked for his opinion on Russian affairs, the future French Premier was quoted as saying: "I do not confound the Russian people nor the Russian Government with the Moscow International, whose political literature is stupid and puerile and does not impress me. In trying to re-establish relations with the Soviet Republic I shall not let myself be manoeuvred by agitation and shall not forget that small French investors have great interests in Russia." Regarding domestic finances, the "Times" correspondent said that "he announced that he would devote himself to putting the Government finances on a sure basis, not so much by increasing taxes as by forcing payment by those who have heretofore escaped paying their full due." In an attempt to outline the position in which the coming Premier would be placed politically when he assumed the duties of the new office the correspondent observed that "these declarations by the coming Premier support the general opinion that personally he would show himself of great moderation, and there is thought to be little doubt that he can hold his 137 Deputies in line. But that number of Deputies is only about one-fourth of the French Chamber, and to have a majority even of 25 or 30 M. Herriot must be sure of the support of 39 Republican Socialists headed by M. Painleve and the 108 Unified Socialists." Continuing, he said that "M. Painleve will readily subscribe to M. Herriot's program, but the Unified Socialists may sing another song. In their election program they asked for a capital levy and nationalization of industry. They are saying that if they give support to M. Herriot, either within or without the Cabinet, M. Herriot must agree to a series of minimum demands on their part."

The week had not progressed very far before it became apparent that all was not going smoothly in French politics. The Paris cable dispatches stated that the new groups would endeavor to put out both President Millerand and Marshal Foch. The New York "Herald-Tribune" representative cabled that "a fully developed plan, elaborated by the Left Wing political elements under inspiration of former Premier Briand, to oust President Millerand from his high office within a fortnight became known here to-day [May 23]. It is regarded as certain that only by fighting can the President now retain his post." The correspondent added that "the Left Wing plan for compassing the exit of Millerand is simple. It consists merely of a steadfast refusal on the part of all the Left Wing leaders to accept a mandate from him for formation of a Government. Both the Socialist and Radical Socialist parties, which are to hold congresses here between June 1 and June 3, are expected to adopt resolutions ordering their leaders to make such refusal." The Paris representative of "The Sun" declared the next day that "one of the first results of the new French Government will be the definite retirement of Marshal Foch, if, as is now intended, General Sarrail, early defender of Verdun, takes the War portfolio under Herriot." As the week progressed the movement to oust President Millerand appeared to gain strength. The Paris correspondent of the New York "Times" cabled Tuesday evening that "the fight of the Unified Socialists to force the resignation of President Millerand is fast assuming serious proportions. The Socialist leaders have now begun to plan a general strike throughout France if the President of the Republic does not yield. With the Communists the Unified Socialists control the organized labor of the country." Continuing to outline this situation he said: "Resolutions demanding that M. Millerand leave the Elysee have been passed by a large number of departmental organizations of the Unified Socialists, but the formal action which will control their Deputies will be taken at the National Conference, which opens in Paris on Sunday. While M. Herriot and the Radical Socialists have taken no position in the fight against M. Millerand, probably preferring not to make an issue of it at this time, the importance of the stand of the Unified Socialists comes from the fact that their 108 votes in the Chamber are essential to M. Herriot's majority. Without them he would have only one-third of the Chamber."

Naturally, there was much speculation in Paris as to whether Premier Poincare would give up active politics after his successor takes over the duties of the office. According to the earliest rumors, he intended to retire altogether. M. Poincare denied that this was his plan, in a speech that he delivered Monday before the General Council of the Meuse Department at Bar-le-Duc. It was characterized in Paris cable dispatches the next day as the Premier's "valedictory." The New York "Times" representative said that "he [Poincare] declared that it was far from his intention to quit politics. He was convinced that his policy was the only right one to pursue toward Germany, he said, and he would lead the Opposition to the coming Left Government, working to see the peril of German revenge kept ever fresh before France." Continuing his outline of the speech, the correspondent added: "The Premier said he did not consider the elections to be a repudiation of his foreign policy, which he stated he believed would not be changed. It was, he thought, the imperfection of the election law and discontent with the new taxes and high cost of living which gave a majority in the Chamber to the Left bloc. Now that the Left was to assume power, he did not believe in the coming of those disasters which are predicted in France just as they were predicted in England on the eve of Mr. MacDonald's becoming Prime Minister. He was in favor of giving M. Herriot a square deal and said unfair tactics would be unworthy of good Frenchmen." Commenting upon the speech, the "Times" representative said: "It is easy to read

in M. Poincare's speech the hope that he will once again become Premier of France. No one acquainted with French politics would say that was impossible. It may well be that M. Poincare's chances of again becoming Premier depend on Germany. Party lines are elastic in France. Most observers agree with M. Poincare that there is probability of trouble for the Left bloc and of a Centre bloc being formed. While as far as can be seen for the moment it would be M. Briand or M. Barthou who would lead such a Centre group, the conviction of France that Germany was again trying to avoid payment of reparations or actively preparing for a war of revenge would inevitably cause the country to turn toward the Right, and it is in such an eventuality that is seen the chance of M. Poincare's return to power before another Parliamentary election."

The publication on Wednesday evening of recent correspondence between Premier MacDonald of Great Britain and Premier Poincare of France was regarded as particularly significant, in view of the overthrow of the latter at the recent elections. The London correspondent of the New York "Herald-Tribune" observed that "the recent MacDonald-Poincare correspondence, issued to-night, shows that the British Premier, despite the victory of the Left in the recent French elections, is anxious to keep on good terms with M. Poincare in case there be a 'return from Elba' by that statesman. The number of bouquets cast by the British Premier in the direction of M. Poincare seems to indicate he realizes that the latter still has power with regard to any reparations settlement and that his consent is necessary to the carrying out of any plan." The New York "Times" representative in London said that "press comment on the MacDonald-Poincare correspondence agrees that the French Premier has shown a new tone of reasonableness in the expression of his views on the European situation. On the usefulness of the correspondence opinion is divided."

Predictions were made in Berlin cable advices as early as last Sunday that the session of the German Reichstag on the following Tuesday would mark the beginning of a "turbulent legislative period." No mention was made, however, of the probability of the Ministry, of which Chancellor Marx was the head, resigning. It did go out late Monday night. In a cablegram announcing the fact the Berlin representative of the New York "Times" said that "President Ebert accepted its resignation. The members of the Marx-Stresemann Cabinet are to continue, however, to discharge their duties for the present. In political circles the belief is freely expressed that the present Chancellor, Dr. Marx, has an excellent chance of being called upon to form the next Government." The Associated Press correspondent stated that "it is understood that Chancellor Marx will reconstruct his Ministry, making only a few changes. It is believed to be his intention to present his reconstituted Ministry to the Reichstag and make a declaration of policy, particularly with regard to the Dawes report, leaving it to the House to approve or reject it." In explanation of the Ministry's resignation, he added that, "previous to the Government's resignation conferences between the Government coalition parties and the Nationalists were fruitless, largely because the Nationalists persisted in pushing forward Admiral von Tirpitz as a candidate for Chancellor and making their acceptance of the Dawes report subject to such extreme conditions that the coalition refused even to answer Nationalist proposals."

It soon developed that the Nationalists could not form a Ministry. The Berlin correspondent of the Associated Press said in a dispatch on May 27 that "the Nationalists are believed to have eliminated themselves from serious consideration through their advocacy for the Chancellorship of Admiral von Tirpitz, notorious advocate of 'ruthless' U-boat warfare, and their refusal to accept the Dawes reparations report without reservations." It became known here through the same dispatch that "the President called the heads of the other parties, in pursuance of his constitutional task of finding a Chancellor capable of forming a Cabinet commanding the support of the Reichstag in succession to the Marx-Stresemann Cabinet, which resigned last night. He received Dr. Hergt, and after him in the order of party strength in the Reichstag the leaders of other parties with the exception of the Communists and the Extreme Nationalists." These conferences resulted in the President requesting former Chancellor Marx to undertake the formation of a new Cabinet, which task he assumed on May 28. It was reported at that time that "the recalled Chancellor will seek to enroll Nationalist representatives in the Government, but only on the basis of sworn allegiance to the republican Constitution and the legislative enactment of the Dawes report." According to one Berlin dispatch, "indications at the moment point to the acceptance of these conditions by the followers of Dr. Hergt and Admiral von Tirpitz. Dr. Marx, however, has not yet entered into any direct contract with the Nationalist spokesmen." Dispatches from Berlin Wednesday evening indicated that only slight progress had been made up to that time in the formation of a new Cabinet. The New York "Herald-Tribune" correspondent said that "this evening it appears probable that the Cabinet will be formed with the participation of the Nationalists, on whose inclusion Foreign Minister Stresemann's People's Party has insisted. Nationalist admission into the Ministry became possible when the leaders of that group agreed to vote unconditionally for the acceptance of the Dawes report. Their eleventh hour change is understood to be due to pressure by the powerful industrialists, who emphasized that rejection of the report would mean economic and financial collapse for Germany and would involve international complications."

The new Reichstag convened at 3.15 o'clock Tuesday afternoon, May 27. According to the Berlin correspondent of "The Sun" the Ministerial bench was empty, but "there was less disturbance than was expected." Apparently the foregoing was cabled before the session had been long under way. That evening the Berlin correspondent of the New York "Times" cabled that both the Communists and Nationalists made a big disturbance. He asserted that "history had been made in the big Reichstag building, before which stands a huge statue of Bismarck, symbol of old imperial Germany, when the knot of Communists struck German Parliamentary tradition the worst slap it had ever received." As to the numerical strength of the Communists, he said: "The Communists who in former Reichstags were a mere handful, to-day had a compact delegation occupying more than sixty seats at the extreme left of

the great Reichstag chamber, and they celebrated their increased strength by indulging throughout the proceedings in tumultuous misbehavior." He declared further that "from the very beginning of the session the Communists started in to make all the trouble they could. Among all the other factions only one member disputed with them the centre of the stage. That one was General Ludendorff. It had been freely prophesied that the ex-Commander of the German Imperial armies would not dare show his face at the Reichstag opening. But he did." The following seems to give a fair idea of the entire absence of order, the proceedings more closely resembling a celebration of a big athletic victory by college students than a session of the national legislative body of one of the largest and most important countries in the world: "Herr Back, a Socialist delegate, and the oldest Reichstag member—his age is 78—rang a bell signifying that the second Reichstag of the German Republic was in session for the first time. Immediately the Communists burst into derisive howls. They rang cow bells. They blew whistles. From the right of the hall angry hisses were flung back at them and cries of 'Throw them out.' The presiding officer finally restored quiet. Then an official started reading the roll call."

The Associated Press representative said that "the new Reichstag succeeded in its tumultuous session to-day in living up to expectations, and the party leaders frankly admit that conditions will grow worse once the new Parliament attempts to settle down to serious business." He added that "the Socialist Reichstag delegation broke the silence thus far observed by a declaration this afternoon solidly supporting the execution of the Dawes report provisions and demanding a more equitable distribution of the burdens arising therefrom. The Socialists are of the opinion that negotiations with the German Nationalists would seriously hurt Germany abroad." Commenting upon the opening session of the Reichstag the Vienna correspondent of the New York "Evening Post" in a cablegram Thursday evening said: "The new disease, which might be called Parliamentary insanity, which broke out in a violent form at the opening session of the German Reichstag, seems to be epidemic throughout Eastern Europe. Scenes rivaling those in Berlin have occurred in the Czechoslovak and Jugoslav Parliaments."

In various Berlin cable advices it has been stated that the Dawes plan would receive pretty general support except from the Nationalists. The Associated Press correspondent at Hamburg cabled on May 26 that "Dr. Hjalmar Schacht, President of the Reichsbank, addressing a meeting of the Hanseatic League, largely attended by German business men, declared the Dawes reparations report was the only basis for solution of Germany's economic problems." The correspondent of "The Sun" asserted that "German industry will support adoption of the Dawes Committee report regardless of the attitude of the new Reichstag and the future German Government, Dr. Herman Bucher, Chairman of the National League of German Industry, informed 'The Sun' correspondent in an exclusive statement to-day" (May 26). Continuing, the correspondent said: "Bucher, who is also his country's representative on the committee charged with applying the industrial provisions of the experts, declared that the recent insurgent movement among certain reactionary manufacturers who oppose the reparations plan cannot affect the attitude of the industrialists as a whole."

Italy's new Parliament was opened on May 24. In an interview the day before with a representative of the New York "Times" Premier Mussolini pointed out that it was "new in every sense." In reply to a question the Premier said that "the new Chamber is composed, as to a very large majority of its members, of men who are new to Parliamentary life. Many of them have come straight into Parliament without passing through the long, exhausting and sometimes corrupting career of local politics. In every sense, therefore, it is a new Chamber. We shall see whether it is good or bad." In explaining why he dissolved the preceding Parliament, the present Dictator of Italy said: "I could not collaborate with it without involving myself in a contradictory and equivocal situation. I told the Chamber that it was necessary to safeguard the essential principles of our public life, and I allowed it to vote regularly a grant of plenary powers and continue to perform its constitutional functions. But I could go no further. In the new Chamber, now that this discord between Parliament and the people has ceased, I hope to be able to carry out a work as intense as it will be cordial."

In describing the opening of Parliament, the "Times" representative said that, "with the brilliant ceremony which had fallen into disuse many years ago and which was revived by Premier Mussolini's express wish, the King to-day, on the ninth anniversary of Italy's entrance into the World War, inaugurated the 'Fascist Parliament.'" Continuing his account, the correspondent said: "The King's speech was a severe blow to the enemies of Fascism, who have been lately harping on the supposed differences between the King and Mussolini. Victor Emmanuel, in fact, not only spoke in the most laudatory terms of the accomplishments of the Mussolini Government but was especially emphatic in his approval of two things for which Mussolini is chiefly blamed by the opposition, namely the institution of the armed Fascist militia and what the opposition refers to as the 'suppression of personal liberty.' Among the reforms which the new Parliament will be called on to introduce, the King laid emphasis on the reform of the civil, commercial and mercantile code, and on the cession to private initiative of certain State-owned enterprises. Of great interest was the King's reference to the Government's labor policy. 'Firm supervision of all labor contracts,' he said, 'which would guarantee the stability of life of the workers and free them of fear for their future, and other legislative measures will open the way for notable economic and moral improvements in conditions of the working masses which shall thus be allowed to perform their civic duties with more discipline and more intensity. Employers of labor will understand the wisdom of a program which makes their direct agricultural and industrial collaborators an indispensable element of the greatness of Italy.' The King's statements in the field of foreign politics were also of great importance. After lauding Italy's treaty of friendship with Jugoslavia, her agreements with Russia and her acceptance of the Lausanne treaty, he continued: 'But the greatest treaty to-day is the reparations problem and the questions connected with it. Italy is ready to do anything in her power

to arrive at an equitable solution and to dissipate all impending dangers. Italy is ready to make heavy sacrifices in the interests of peace, provided her legitimate, fundamental rights are not attacked.' Italy, he said, must have a strong army because she cannot remain like a sheep among lions, nor can she run the risk of being surprised by events, but 'our strength will be used to pursue a foreign policy of peace and dignity and of defense of our interests.' Victor Emmanuel was most optimistic as to Italy's financial future and greatly praised not only the determination of the Mussolini Government, which has led to the present fiscal year closing with a balanced budget, but also the Italian taxpayers who cheerfully shouldered the extra burden of taxes. He promised that the heaviest taxation would soon be reduced but not in as great a measure as some would believe, as a considerable portion of any margin must be dedicated to decreasing the State's fluctuating debt. He expressed the opinion, however, that the budget would remain balanced without any deterioration in the State-owned public utilities." The correspondent added that "the whole ceremony of the inauguration of Parliament was one of the most spectacular sights imaginable."

According to a special Rome dispatch to the New York "Times" under date of May 27, "in a speech delivered on that day to the 372 Deputies constituting the Government majority in the new Italian Chamber, Premier Mussolini declared his intention of giving Parliament its last trial as a means of Government." In part he said: "Italy is just beginning her very last Parliamentary experiment. If it succeeds, all right; if it fails, Parliament will be suppressed and its place taken by other vehicles of Government." The dispatch stated also that "he immediately moderated this threat, however, by adding: 'We must, therefore, do everything in our power to govern along new lines and to strive to make the Italian Chamber a model of Parliamentary institutions. Revolutions often obtain results very different from those they at first intended. It is, therefore, possible that Fascismo, which began in opposition to Parliament, may lead to a new period of splendor in Parliament.'" Continuing, the Premier said: "It is a difficult experiment, but we must make it a success at all costs. This must be a Parliament and not the degenerate success of Parliament. The period of royal decrees is now over and it is for you to pass laws. Many important proposals will be laid before you. It is your duty to discuss them, improve them and either approve or reject them, as you see fit. This Legislature has before it a long period of work, as it will certainly last five years, and it must put Italy back on the road to greatness."

Through another dispatch from the Italian capital, also dated May 27, it became known here that "Alfredo Rocco, Fascist, on that day was elected President of the Italian Chamber, 338 votes for him and 127 blank votes having been cast. Tommaso Tittoni, former Minister of Foreign Affairs, was re-elected President of the Senate, having received 209 votes to 62 blank votes." It was added that "former Premier Salandra got only one vote for the presidency of the Chamber; Signor Sandroni, Catholic. one, and Giovanni Amendola, former Minister of War and of the Colonies, two votes. Former Premier Giolitti announced to friends that he had voted for Signor Rocco because he was a Ministerialist and had expressed great admiration for Premier Mussolini."

The Labor Cabinet of Great Britain has encountered fresh difficulties this week. Outlining its present position and what appeared to be immediately ahead, the London correspondent of "The Sun," in a cable message on May 24, said in part: "The Labor Premier is undoubtedly staking much on the success of his foreign policy and if there is eventually a succesful end to the negotiations with Russia, it will go a long way toward rehabilitating Labor's position, which on domestic questions has suffered decidedly. The ratification of the Anglo-American liquor treaty and the ending of the Newcastle consular dispute also will help. The popularity of the budget also is unquestioned and, apart from the progress made in handling foreign questions, is so far its most notable success, and is considered responsible for the Labor victory Thursday in the West Toxteth division of Liverpool, a constituency which has heretofore been Tory. The statements of MM. Herriot and Painleve have done much to encourage a belief in official quarters that a solution of the reparations problem is more likely now than at any time in the last three years. A feeling of the same sort has undoubtedly guarded the Liberal Party in its recent attitude toward the Labor Government." On the other hand, the Associated Press representative in the British capital said two days later that "the MacDonald Cabinet has decided that if the Government is defeated on any essential feature in the forthcoming debate on the housing bill it will immediately resign and appeal to the country, according to the Parliamentary correspondent of the Labor organ, the 'Daily Herald.'" Further outlining the troubles of the Labor Cabinet, the New York "Herald-Tribune" correspondent cabled the same evening that "the Government got into all sorts of tangles to-night on the second reading of the unemployment insurance bill in the House of Commons and only succeeded in extricating itself from the tangle by moving for cloture. The trouble arose over the clause authorizing insuring of children between the ages of 14 to 16 years, to which Liberals and many Laborites objected on the ground that such a provision would tend to take children out of the schools." He added that "Tom Shaw, Minister of Labor, who had charge of the bill, declined at first to accept the amendment striking out the clause, but finally agreed under pressure. He refused, however, to give any undertaking as to its substitute. It was generally agreed that to-night's exhibition was one of the worst the Labor Government has made in the direction of bad leadership."

The New York "Herald-Tribune" correspondent said that, "despite reports to-day that the Labor Government had decided to stand or fall on the result of Thursday night's debate on the unemployment question, persons in close touch with the situation do not believe that Mr. MacDonald's Ministry is in serious danger." He also cabled that "although such a staunch Liberal organ as the 'Manchester Guardian' admits that, while the Liberal Party does not want to turn the Government out, 'it is very hard to support it on this question,' it is pointed out here that the result of the Glasgow bye-election last week has been anything but inspiring to the Liberals, and that Asquith's party would have

everything to lose and little to gain by forcing another election." In an Associated Press cablegram from London Thursday evening, however, it was stated that "Prime Minister MacDonald, in a speech in Commons to-day indicated clearly that, if his Government were defeated to-night on the motion to reduce the salary of Minister of Labor Shaw, which has been made a test vote on the Government's policy toward relieving unemployment, it would go before the country in a general election."

The trend of affairs politically was illustrated also by the following: "A motion presenting a bill to nationalize all lands, minerals, rivers and streams was defeated in the House of Commons to-night by only twelve votes." The New York "Times" representative explained that 'it was a private member's bill, introduced by Ben Turner, Laborite, under the ten-minute rule of the House, and was not taken very seriously. The narrowness of the majority against it, however, created some excitement and brought home to Parliament some of the possibilities of the situation should Socialism be in power as well as in office." On the other hand, it became known that "the finance bill embodying the budget proposals passed its second reading without division in the House of Commons to-night [May 27], after an onslaught by Neville Chamberlain and other members of the Opposition, who attacked Chancellor Snowden's budget, particularly the repeal of the McKenna duties, and the Government's attitude toward imperial preference."

The policy of the Russian Soviet Government apparently has not changed in any particular. At any rate, the dispatches from Moscow have made it plain that there has been no change in the matter of offering concessions of one kind and another to foreign Governments and groups of interests, providing a large loan for Russia would be forthcoming in return. In a cablegram dated May 25 the Moscow representative of the Associated Press said: "In a notable speech, lasting four hours, at the annual convention of the Communist Party to-day, George Zinovieff, Chairman of the Executive Committee of the Third International, gave an exhaustive review of Russia's internal position and the existing international situation. He made many significant references to the Soviet Policy respecting Anglo-Russian negotiations, private trading, the new economic policy, the payment of international loans, the granting of concessions to foreigners and the numerical strength of the Communist Party. M. Zinovieff intimated that under certain conditions Russia was willing to pay part of her international obligations, provided she received a loan of 500,000,000 gold rubles at 6%." Continuing, M. Zinovieff expressed himself in part on the question of loans as follows: "Among the loans recently obtained by foreign countries, Japan's was the most favorable. She received half a billion gold rubles from the United States at 7%. Russia would agree to a similar loan if the interest were lower. The Soviet Republic possesses greater commercial and political stability than Japan because Japan has suffered from recent earthquakes. It must be borne in mind that, while we refuse to pay the old Czarist debts, we shall observe fully our obligations regarding our own debts." The correspondent added that, "speaking of Russia's relations with Germany, M. Zinovieff asserted that German capitalists were making their habitual mistake in postponing settlement of the recent Berlin raid episode. Germany must realize that Russia was not going to yield on this question, and Germany would be the only one to suffer by a cessation of commercial relations, as German needed Russia and her trade more than Russia needed Germany." Commenting on M. Zinovieff's speech, the Moscow correspondent of the New York "Evening Post" said that "the Russian Communist Congress has not got into its stride, having heard M. Zinovieff on the political situation at home and abroad and M. Stalin on the status of the party organization and several minor reports. There is no sign whatever yet of fireworks from the opposition and the Congress leaders profess to have the situation thoroughly in hand and to expect no trouble at any moment."

Leon Trotzky made an address on May 27 that caused considerable surprise, according to an Associated Press dispatch from Moscow on that date. It stated that, "contrary to expectations, War Minister Trotzky, in his address at yesterday's session of the Communist Party Convention, delivered what may be termed a message of peace and reconciliation. Instead of accentuating the controversy between himself and other leaders of the party on the question of internal party affairs, Trotzky, in a purposely vague speech, said all statements about his favoring sectional groupings within the party were false and asserted he fully agreed with the Central Committee, which considered such a move detrimental to the party unity." The War Minister was quoted in part as follows: "We are still faced with great difficulties and we shall all combine like soldiers to combat these difficulties. I hope I shall not be the last soldier in the Communist battle. I understand my duty at the present moment as a disciplined member of the party and I am as ready as every other member is to interpret these or other mistakes, but no one has the right to interpret these mistakes as aimed directly or indirectly against party unity and discipline."

It seems, however, that a day or two later he made a speech less conciliatory in tone. The Moscow correspondent of the New York "Times" cabled on May 28 that "last winter's controversy between Trotzky and the other Communist Party leaders was renewed at yesterday's session of the Congress, although in much milder terms than six months ago." He added that, "though greeted with applause at the beginning and end of his speech, Trotzky failed to carry his audience with him. Succeeding speakers assailed his defense."

In a special Moscow cablegram to the New York "Evening Post" it was claimed that "the threat to throw that portion of Russia's trade hitherto held by Germany to the United States and other countries, unless Germany quickly accepts the Russian terms for settlement of the Berlin Trade Mission controversy, is being made openly by the Soviet commercial authorities." In another dispatch from the same centre Thursday evening to the "Post" it was stated that Leonid Krassin, Commissar for Foreign Trade, in a report to the Communist Congress on the Russo-German controversy over the raid in Berlin on the Russian Trade Mission, laid down in the strongest terms Russia's insistence on extra-territorial privileges for commercial missions abroad. He declared this to be a basic and essential factor for

operating the Government's foreign trade monopoly."

No change has been noted in official discount rates at leading European centres from 10% in Berlin; 7% in Norway and Denmark; 6% in Paris; 5½% in Belgium and Sweden; 5% in Holland and Madrid, and 4% in London and Switzerland. In India, however, the Imperial Bank of India on Thursday reduced its official rate of discount from 8% to 7%. In London open market discounts continued firm, with short bills quoted at 3@3 1-16%, against 3⅛%, while three months' bills closed at 3 1-16@3⅛%, against 3 3-16@3¼% last week, the same as last week. Money on call was higher for a time, advancing to 2⅞%, but closed at 2⅝% on Thursday, as against 2¾% the previous week. In Paris and Switzerland the open market discount rate remains at 4½% and 3½%, respectively, unchanged.

An increase in its gold holdings was shown by the Bank of England in its statement for the week ended May 29, amounting to £3,391. This, however, was accompanied by a contraction in reserve of £1,210,000, the result of expansion in note circulation of £1,214,000. The proportion of reserve to liabilities was also reduced, having fallen to 18.49%, from 19.53% last week. In the corresponding week of 1923 the ratio stood at 19% and a year earlier at 18⅞%. These changes were, of course, incidental to the strain of preparing for June 1 interest and dividend payments. There were also important changes in the deposit items. Public deposits declined £2,877,000, while "other" deposits increased £3,028,000. Loans on Government securities expanded £262,000, and loans on other securities £1,117,000. The bank's gold holdings now are £128,184,802, as against £127,524.330 in 1923 and £128,881,000 the year before. Reserve totals £22,203,000. This compares with £22,723,835 last year and £24,615,149 in 1922. Note circulation stands at £125,733,000, in comparison with £124,550,495 and £122,715,800 one and two years ago, respectively, while loans aggregate £73,302,000, against £71,255,827 a year ago and £75,358,923 in 1922. No change has been made in the official discount rate from 4%, the level which has prevailed for some time past. Clearings through the London banks for the week totaled £752,382,000, which compares with £757,446,000 a week ago and £618,218,000 last year. We append herewith comparisons of the different items of the Bank of England returns for a series of years:

BANK OF ENGLAND'S COMPARATIVE STATEMENT.

	1924. *May 28.*	1923. *May 30.*	1922. *May 31.*	1921. *June 1.*	1920. *June 2.*
	£	£	£	£	£
Circulation	125,733,000	124,550,495	122,715,860	129,095,280	113,806,555
Public deposits	15,490,000	20,753,609	28,740,945	16,596,446	21,241,833
Other deposits	104,551,000	98,429,126	101,480,533	133,169,634	127,322,131
Gov't securities	42,333,000	42,967,480	47,997,913	68,556,122	66,618,283

Bank rate	4%	3%	4%	6½%	7%

Thursday being Ascension Day and a holiday in France, the Bank of France weekly statement was not issued on that day, and we are therefore without the usual figures.

Note circulation of the Imperial Bank of Germany took another violent plunge, this time downward, according to the figures revealed by the statement, issued as of May 15. Following a rise of more than nine quintillion marks the preceding week, a drop of no less than 22,932,174,000,000,000,000 marks is shown to have been brought about. Bills of exchange and checks increased 46,895,429,000,000,000,000 marks, holdings of Rentenbank notes increased 66,112,101,000,000,000,000 marks, Rentenmark bills and checks mounted up 19,000,932,000,000,000,000 marks, while deposits showed the stupendous expansion of 113,759,294,000,000,000,000 marks. Treasury and loan association notes increased 74,000,000,000,000,000 marks. Decreases occurred in advances, 5,878,560,000,000,000,000 marks; Rentenmark discounts and advances, 7,342,200,000,000,000,000 marks, and investments 19,534,889,000,000,000,000 marks. Liabilities resulting from discounted bills payable in Berlin were still unchanged, as also were Rentenbank loans. Other liabilities gained 23,354,703,000,000,000,000 marks. The bank's gold holdings expanded 21,000 marks to 441,851,000 marks. Outstanding note circulation aggregates 763,927,265,000,000,000,000 marks, in comparison with 7,112,782,000,000 marks last year and 141,522,000,000 marks in 1922.

The weekly statement of the Federal Reserve banks, issued on Thursday afternoon, showed a considerable reduction in gold holdings, accompanied by some increase in rediscounting operations. For the System the loss in gold was $20,300,000. Rediscounts of Government secured paper increased $14,900,000 and "all other" $1,000,000. Holdings of purchased bills increased $31,000,000. Earning assets expanded $54,700,000 and deposits $12,000,000. At New York changes were along the same general lines. Gold holdings decreased $30,000,000. Rediscounting of all classes of paper increased $4,300,000, while open market purchases mounted up $35,000,000 larger. Increases were also shown in earning assets and deposits, $42,600,000 and $8,400,000, respectively. Member bank reserve accounts showed a gain at New York of $6,300,000, but a decline of $5,000,000 for the banks as a group. The amount of Federal Reserve notes in circulation increased $4,700,000 for the System, although locally it was reduced $2,000,000. In consequence of the contraction in gold holdings and additions to deposits, reserve ratios were lowered. The twelve reporting banks reported a loss of 1%, to 82.7%. At New York the ratio fell 3.4%, to 88.1%.

Last Saturday's statement of New York Clearing House banks and trust companies was featured by a further substantial reduction in surplus reserve, the result partly of larger deposits and partly of a drawing down of reserves in the Federal Reserve Bank. In detail the report showed expansion in loans of $35,254,000. Net demand deposits were increased $22,161,000, to $3,961,514,000, which is exclusive of $20,145,000 in Government deposits, a decline in the latter item of $11,922,000. Time deposits remained almost stationary, losing $211,000, to $490,524,000. Cash in own vaults of members of the Federal Reserve Bank increased $1,698,000, to $45,700,000, but this is not counted as reserve. Reserves of State banks and trust companies in own vaults decreased $126,000, but the reserve kept in other depositories by State banks and trust companies increased $255,000. There was a reduction in the re-

serve of members at the Reserve Bank in the amount of $16,920,000, which coupled with the additions to deposits, served to bring about a loss in surplus reserve of $19,694,740, reducing excess reserves to $3,615,780, as against $23,310,520 held the week before. The figures here given for surplus are based on 13% reserves for member banks of the Federal Reserve System, but not including cash in own vaults to the amount of $45,700,000 held by these institutions on Saturday last.

There was an upturn to 4½% in call money at this centre at the beginning of the week, but it lasted only for a day, as the trend was distinctly downward from that time on. Thursday, the last day on which call loans were made, a quotation of 2¾% on the Stock Exchange was reported. The demand, even at that level, was only moderate. Time money was unchanged at 4@4¼%. It was regarded as particularly significant that call money should have declined so sharply during the days in which preparation for the June 1 disbursements was in progress. Speculative transactions in stocks were on such a small scale, and characterized as so largely professional, that the requirements for funds from that source were not an important factor. The commercial demand was somewhat less, because of a further slackening in various important lines of business. It was set forth in Washington dispatches on Thursday that the Treasury Department estimated that it would be necessary to sell only about $150,000,000 Certificates of Indebtedness in June to meet all requirements over tax receipts, and that the Government ought to get its money cheaper than when the last sale of short-term securities was made.

Referring to money rates in detail, call loans this week ranged between 2¾@4½%, as against a flat rate of 3% last week. Monday the high was 4½%, although renewals were negotiated at 3%, the low for the day. On Tuesday no loans were made above 4%; the renewal basis, however, advanced to 4%, with the low still at 3%. The range on Wednesday was 3@3½%, and 3½% the ruling rate. Increased ease developed on Thursday and this was accompanied by a decline to 3% in the maximum, with 2¾% the minimum and 3% the rate for renewals. Friday was a holiday (Memorial Day). For fixed date maturities distinct ease continues to prevail, owing to the marked plethora of available funds, and sixty and ninety day money remains at 3¾@4%, four and five months at 4%, and six months at 4@4¼%, the same as a week ago. Several of the large financial institutions came into the market this week as lenders, with but few borrowers. Not even preparations to meet the June 1 disbursements were able to advance rates or cause any noticeable stiffening in undertone.

Commercial paper was moderately active at the levels prevailing last week, namely 4@4¼% for four to six months choice names and 4¼@4½% for names not so well known. New England mill paper and the shorter choice names are still being dealt in at 4%. Country banks were the principal buyers.

Banks' and bankers' acceptances came in for a fairly large turnover, though the market was only intermittently active. A falling off was noted in the inquiry from both city and interior institutions. Brokers are now predicting a broader market after the turns of the month. The undertone was steady with quotations unchanged. For call loans against bankers' acceptances the posted rate of the American Acceptance Council, after ruling at 3% the greater part of the week, went back to 2¾%, the quotation ruling at the close of last week. The Acceptance Council makes the discount rates on prime bankers' acceptances eligible for purchase by the Federal Reserve banks 3⅛% bid and 3% asked for bills running 30, 60, 90 and 120 days and 3⅜% bid and 3⅛% asked for bills running 150 and 180 days. Open market quotations were as follows:

SPOT DELIVERY.

	90 Days.	60 Days.	30 Days.
Prime eligible bills	3⅛@3	3⅛@3	3⅛@3

FOR DELIVERY WITHIN THIRTY DAYS.

Eligible member banks	3⅛ bid
Eligible non-member banks	3⅛ bid

Announcement was made this week that it has been decided to reduce the discount rate of the Federal Reserve Bank of Cleveland from 4½% to 4%, effective June 1. This is the second Reserve Bank to make a reduction in its discount rate, the New York Federal Reserve Bank having taken the initial step a month ago. Further reference to the lowering of the rate by the Cleveland Bank is made in our items under the head of "Current Events and Discussions." The following is the schedule of rates now in effect for the various classes of paper at the different Reserve banks:

DISCOUNT RATES OF FEDERAL RESERVE BANKS IN EFFECT MAY 30 1924.

FEDERAL RESERVE BANK.	Paper Maturing— Within 90 Days. Com'rcial Agricul. & Livest'k Paper. n.e.s.	Within 90 Days. Secur. by U. S. Govt. Obligations.	Within 90 Days. Bankers' Acceptances.	Within 90 Days. Trade Acceptances.	After 90 Days, but Within 6 Months. Agricul.* and Livestock Paper.	After 6 but Within 9 Months. Agricul. and Livestock Paper.

* Including bankers' acceptances drawn for an agricultural purpose and secured by warehouse receipts, &c.
x Effective June 1.

Sterling exchange settled down into a rut this week with the smallest volume of business recorded in months. As a matter of fact, the market at times was so dull as to be at a complete standstill. In keeping with this, price movements were narrow and meaningless, covering a range of only about one cent until Thursday, when there was a decline of about three cents on attempts at foreign selling on a narrow market. At the opening demand bills ruled at 4 34¾; later there was a recession to 4 33½, followed subsequently by a slight rally, which carried the quotation back to 4 34 3-16, which in turn was followed by a slump to 4 30¾ at the close. The reasons for the dulness were, in a measure, twofold—uncertainty over the outcome of the political wrangles in Europe and the interruption of a holiday here. As previously pointed out in these columns, commercial requirements at this time are usually light, while the absence of speculative activity may be explained by the attitude of dealers who are adhering rigidly to their policy of "watchful waiting" and holding aloof pending action on the part of France's and Germany's new leaders regarding reparations. In banking circles it is not expected

that anything in the way of increased activity will materialize until the reconvening of the French Chamber early next week. Developments in this respect are likely to be closely watched by local authorities, since it is beginning to be regarded as somewhat doubtful whether or not the Dawes plan will go in operation at once, even after the induction of the newly elected French and German Governments into office. Neither of these political parties is believed to be strong enough to assemble a majority in favor of the plan just as it stands. It is, therefore, feared that further delays are in prospect, during which, of course, foreign trading will continue to languish. London sent lower cables the greater part of the time and the final range of quotations was at the lowest for the week. Japanese interests were said to be sellers of sterling at one time, while still another factor tending to lower sterling values was the Labor Government's housing bill, which is thought likely by some to cause complications both of a political and financial nature.

Referring to the day-to-day rates, sterling exchange on Saturday last was steady and practically unchanged; the range for demand was 4 34 3-16@ 4 34⅜, for cable transfers 4 34 7-16@4 34⅝, and for sixty days 4 31 15-16@4 32⅛; trading during most of the brief session was almost at a standstill. On Monday demand rates advanced to 4 34¼@ 4 34½, cable transfers 4 34½@4 34¾ and sixty days 4 32@4 32¼; very little business was transacted. Some slight irregularity developed on Tuesday and the result was a decline to 4 33½@4 34 3-16 for demand, 4 33¾@4 34 7-16 for cable transfers and 4 31¼@4 32 15-16 for sixty days. Wednesday further ease developed, and the range for demand was lowered to 4 32⅞@4 33¼, for cable transfers to 4 33¼@4 33½ and for sixty days to 4 30⅝@4 31; dulness continued to predominate. Pre-holiday inactivity pervaded the market on Thursday, and trading was reduced to a minimum, although attempts at foreign selling forced quotations, which were little better than nominal, down to 4 30¾@ 4 32⅝ for demand, 4 31@4 32⅞ for cable transfers and 4 28½@4 30⅜ for sixty days. Closing quotations on Thursday (Friday was a holiday—Memorial Day) were 4 28¾ for sixty days, 4 31 for demand and 4 31¼ for cable transfers. Commercial sight bills finished at 4 30⅞, sixty days at 4 28⅜, ninety days at 4 27⅛, documents for payment (sixty days) at 4 28⅝ and seven-day grain bills at 4 30⅜. Cotton and grain bills for payment closed at 4 30⅞.

The week's gold movement included $460,000 on the Aquitania and £554,500 on the Homeric, both from England.

Irregular weakness featured dealings in Continental exchange, and here also trading was of insignificant proportions. Even in French francs interest for the moment seems to have waned and movements in this currency were comparatively narrow until the end of the week, when a rush of foreign selling orders caused a sudden slump. Notwithstanding the unsettling nature of the week's foreign political developments, French checks opened and ruled between 5.40 and 5.45 up until Wednesday, when there was a decline to 5.34, followed later by a break of 15 points to 5.19¾ at the close. The early firmness was attributed in part to encouraging statements made by M. Herriot, France's prospective new Premier, regarding the policies to be adopted by him on budgetary reform and taxation when he assumes the Premiership—the two burning questions of the day in France. Later on, reports from Berlin at the opening of the German Reichstag were not regarded as favorable to early action on reparations and this exercised a dampening effect. Moreover, it was reported that the Bank of France was once more supporting francs, which had the effect of preventing the various speculative cliques from attempts to make capital out of the prevailing political uncertainties. The initial session of the Reichstag proved disappointing, since it gave little ground for hope of early or constructive measures looking to the carrying out of the terms of the Dawes plan. Marks, however, were not affected, and continued to rule nominally at 0.0000000000023½. Lire were in neglect, albeit firmly held. Belgian francs moved in sympathy with Paris currency, while the minor exchanges all ruled quiet, at close to the levels of the previous week, although sagging heavily in the final dealings. There seems to be little doubt that operators are biding their time, at least until over the holidays, preparations for which served to accentuate the general inertia. Thursday was a holiday in France, being Ascension Day, and Friday (yesterday) a holiday here, so that no broadening in activity is looked for until next week. Advices from Poland indicate that the new Polish exchange unit, the zloty, is gradually gaining acceptance at the banks. For the past two years nearly all remittances to Poland have been made in dollars in preference to Polish marks, but it is learned that two institutions have announced their intention of making remittance in the new unit, which has been in active circulation for several weeks past, and is to supercede marks completely after the first of June.

The London check rate on Paris finished at 81.70, against 81.00 a week ago. In New York sight bills on the French centre closed at 5.21¼, against 5.37½; cable transfers at 5.22¼, against 5.38½; commercial sight bills at 5.20¼, against 5.36½, and commercial sixty days at 5.15, against 5.31¼ a week earlier. Final quotations on Antwerp francs were 4.48 for checks and 4.49 for cable transfers, which compares with 4.62 and 4.63 on Friday of the preceding week. Reich(marks closed at0.0000000000023½ (unchanged). Austrian kronen have not been changed from 0.0014⅛. Italian lire finished the week at 4.38 for bankers' sight bills and 4.39 for cable transfers. A week ago the close was 4.41½ and 4.42½. Exchange on Czechoslovakia closed at 2.94, against 2.95¼; on Bucharest at 0.43¼, against 0.48½; on Poland at 19.75 zloty (unchanged), and on Finland at 2.51, against 2.51½ last week. Greek exchange finished at 1.88 for checks and 1.88½ for cable remittances, in comparison with 1.92 and 1.92½ the week before.

As to the former neutral exchanges very little change was noted in either direction. Guilders were steady, though closing lower. Swiss francs were a shade easier, and the same was true of the Scandinavians and Spanish pesetas. Trading was dull and narrow, with the aggregate turnover unusually small.

Bankers' sight on Amsterdam closed at 37.31, against 37.34½; cable transfers at 37.35, against 37.38½; commercial sight bills at 37.25, against 37.28½, and commercial sixty days at 36.89, against 36.91½ last week. Swiss francs finished at 17.64½ for bankers' sight bills and 17.65½ for cable transfers,

in comparison with 17.68½ and 17.69½ a week ago. Copenhagen checks closed at 16.78 and cable transfers at 16.82, against 16.85 and 16.89 last week. Checks on Sweden finished at 26.48 and cable transfers at 26.52, against 26.52, while checks on Norway closed at 13.72 and cable transfers at 13.76, against 13.88 and 13.92 a week ago. Spanish pesetas finished at 13.64 and cable transfers at 13.66, as compared with 13.68½ and 13.70½ the week previous.

With regard to South American quotations, a slightly firmer tendency was evident, but changes were confined to small fractions. The Argentine check rate closed at 32⅞ and cable transfers at 33, against 32.67 and 32.78 last week, while Brazilian milreis finished at 11 1-16 for checks and 11⅛ for cable remittances, against 10.70 and 10.75 a week earlier. Chilean exchange was easier, closing at 10.72, against 11.20, while Peru advanced to 4 17, then reacted and closed at 4 15, against 4 16 last week.

Far Eastern exchange was as follows: Hong Kong, 52¼@52½, against 52½@52¾; Shanghai 72¼@72½, against 72¾@73; Yokohama, 41¼@42½ (unchanged); Manila 49½@49¾ (unchanged); Singapore, 50¾@51 (unchanged); Bombay 30⅞@31⅛, (unchanged), and Calcutta, 31⅛@31⅜ (unchanged).

Pursuant to the requirements of Section 522 of the Tariff Act of 1922, the Federal Reserve Bank is now certifying daily to the Secretary of the Treasury the buying rate for cable transfers in the different countries of the world. We give below a record for the week just past:

FOREIGN EXCHANGE RATES CERTIFIED BY FEDERAL RESERVE BANKS TO TREASURY UNDER TARIFF ACT OF 1922, MAY 24 1924 TO MAY 29 1924, INCLUSIVE.

Country and Monetary Unit.	Noon Buying Rate for Cable Transfers in New York. Value in United States Money.

a Quotations for German reichsmarks have been: May 24, .000000000000229; May 26, .000000000000230; May 26, .000000000000231; May 28, .000000000000231; May 29, .000000000000231.

b Quotation for Polish marks on May 24 was .000000110.

* Commencing May 26 the new monetary unit of Poland (zloty—equivalent to 1,800,000 Polish marks) is quoted.

The New York Clearing House banks in their operations with interior banking institutions have gained $2,656,116 net in cash as a result of the currency movements for the week ended May 29. Their receipts from the interior have aggregated $3,659,116, while the shipments have reached $1,003,000, as per the following table:

CURRENCY RECEIPTS AND SHIPMENTS BY NEW YORK BANKING INSTITUTIONS.

Week ending May 29.	Into Banks.	Out of Banks.	Gain or Loss to banks.
Banks' interior movement	$3,659,116	$1,003,000	Gain $2,656,116

As the Sub-Treasury was taken over by the Federal Reserve Bank on Dec. 6 1920, it is no longer possible to show the effect of Government operations on the Clearing House institutions. The Federal Reserve Bank of New York was creditor at the Clearing House each day as follows:

DAILY CREDIT BALANCES OF NEW YORK FEDERAL RESERVE BANK AT CLEARING HOUSE.

Saturday, May 24.	Monday, May 26.	Tuesday, May 27.	Wednesd'y, May 28.	Thursday May 29.	Friday, May 30.	Aggregate for Week.
$	$	$	$	$	$	$
61,000,000	66,000,000	58,000,000	63,000,000	63,000,000	Holiday.	Cr. 311,000,000

Note.—The foregoing heavy credits reflect the huge mass of checks which come to the New York Reserve Bank from all parts of the country in the operation of the Federal Reserve System's par collection scheme. These large credit balances, however, reflect only a part of the Reserve Bank's operations with the Clearing House institutions, as only the items payable in New York City are represented in the daily balances. The large volume of checks on institutions located outside of New York are not accounted for in arriving at these balances, as such checks do not pass through the Clearing House but are deposited with the Federal Reserve Bank for collection for the account of the local Clearing House banks.

The following table indicates the amount of bullion in the principal European banks:

Banks of	May 30 1924.			May 31 1925.

a Gold holdings of the Bank of France this year are exclusive of £74,573,977 held abroad. b No recent figures. c New official figures. * On account of the observance of Ascension holiday in France we have been unable to obtain this week's figures of the Bank of France, and therefore are obliged to repeat last week's figures.

Playing at Politics While Reparations Halt—The French and German Situation.

From the point of view of those who earnestly hope for the speedy coming of a true international spirit in Europe, the political situation which has developed in France and Germany since the general elections a few weeks ago is occasion for some misgiving. Here are two nations in which, for the first time in their history, the general elections were dominated by the same issue, namely that of reparations. For the first time since the peace a plan of settlement, prepared by an able and impartial body of experts, was offered under which, it is generally believed, reparations could and would be paid and the economic recovery of Europe reasonably assured. The results of the elections, moreover, appeared upon examination to indicate a victory for the reparations program that had been submitted. Logically, then, with the main issue decided, the way was open to the new Governments, when they should be formed, to proceed with the inauguration of the plan and to set Europe forward upon the road into which it had long waited to be directed.

What has happened, on the contrary, in both countries, is an unexpected outbreak of partisan bickering and manoeuvring. The defeat of M. Poincare and the Bloc National in France apparently meant that the task of governing the country was to be devolved upon a coalition of the Left or radical parties, all of which had been severely critical of M. Poincare's policy and were supposed to be ready to give

their support to the Dawes plan of reparations settlement. Hardly were the results of the balloting known, however, than the victorious coalition showed signs of internal dissension. A violent attack upon President Millerand, based upon his alleged violation of constitutional propriety in favoring the Poincare forces in the election, has been accompanied by a threat on the part of the Unified Socialists to withhold their support from M. Herriot, who appears to be acceptable to the rest of the radical bloc except the Communists, in case he were to attempt to form a Ministry at President Millerand's request. As a radical coalition with the Unified Socialists left out could not command a majority in the Chamber of Deputies, the outlook for a Ministry in which the radical majority would unite has been appreciably dimmed, at the same time that the prospect of a Ministry representing the moderate parties of the Centre is clouded by the knowledge that the Unified Socialists and the Communists, if they joined hands, would probably have no difficulty in unseating it.

What has happened in France has been matched by equally unexpected happenings in Germany. The clamor of the extreme Nationalists, with their demand for a Government headed by the notorious reactionary Admiral von Tirpitz, together with fear of the Communists with their nearly sixty votes in the Reichstag, has had a demoralizing effect upon the other parties; and even the Socialists, who at last have come out for the Dawes report, have felt it necessary to qualify their endorsement by some vague phrases about a "more equitable distribution of the burdens" which the plan imposes. The resignation of the Marx Government following the election was a natural step under the circumstances, but although Chancellor Marx has again been asked to form a Ministry, the precise support upon which a new coalition Government may rely is not yet clear. The disorderly scenes which attended the opening session of the Reichstag appear, indeed, to have been provoked by the Communists, but the whole party situation is unstable, and the suggestion of a popular referendum on the Dawes plan adds a further element of controversy and possible delay.

We have not referred to these events in order to hold them up to special condemnation, for the political chaos which for months has prevailed at Washington is equally deplorable. It is inevitable that wherever party government exists party controversies shall be found, and that those who think themselves in the right shall struggle to make their views prevail. Nevertheless it is significant of the very moderate growth as yet of international mindedness that, just at a moment when an international issue of unprecedented magnitude and importance presents itself, the two nations most immediately concerned should have plunged with hectic zeal into the sea of party wrangling, apparently forgetting international welfare in the alluring but hazardous game of local political interests. Doubtless it is the way of politics everywhere, but it is not the way of good politics anywhere. The issues over which the parties quarrel will, of course, be adjusted, and the main problem will in due time probaby be attacked, but the memory of the disputes that have been ventilated at the world's expense will survive to vex the course of council and debate.

What has been happening in Parliamentary circles in France and Germany is the more regrettable because of its possible effect upon public opinion in this country. It is not, of course, an American concern whether M. Herriot or Herr Marx shall head the Government in France or Germany, or how the parties necessary to a coalition in either country shall group themselves, or what compromises shall be effected in order to bring the parties into line. It is for France alone to say whether or not its President has exceeded his constitutional powers and ought to resign; it is for Germany to decide whether the acceptance of the Dawes proposals should be submitted to a referendum or left to the decision of a Reichstag which the people have just elected. On the other hand, it is very much a concern of the United States, if American capital is to assist in the reparations settlement, that the new Governments in Germany and France shall give reasonable promise of stability, and that the success of a program in which many nations are interested shall not be jeopardized by mere party manoeuvring in any of them.

The point is worth emphasizing because of the peculiar form which the financial participation of the United States in the reparations program is expected to take. The Dawes report provides, among other things, for an external loan of approximately $200,000, and of this amount at least one-half, it has been openly suggested, ought to come from this country. The loan is peculiar in that, while it is to be made to the German Government and used to provide a part of the gold reserve of a new bank and to finance the payment of reparations in kind, no special security for the loan is apparently suggested, although we observe that John E. Barber, Vice-President of the First National Bank of Los Angeles, who acted as assistant to the Expert Committees (Henry M. Robinson, the President of which bank served as a member of both the Dawes and McKenna committees), in a speech at Los Angeles delivered at the World Traders' Dinner, held at the Rendezvous Cafe, said that the plan provides that such a loan "may be" a first claim on all German resources, prior even in its first charge to the reparations payments. On the face of the report the loan appears to be based upon confidence in the integral application of the reparations plan, and its administration in good faith by all the parties concerned. These are indispensable conditions in any event, whether there is special security or not, and given these conditions, the loan will doubtless be forthcoming, but will it be forthcoming with equal readiness and confidence if the political atmosphere in either Germany or France is one of apparent instability?

The moral is not far to seek. Internationalism in form is not the same thing as internationalism in fact, and the most elaborate setting forth of the one does not necessarily insure the practice of the other. True internationalism is the co-operative spirit applied to the relations between nations, but a co-operative spirit which manifests itself only in quiet times, when irritating situations are lacking, but which responds slowly and haltingly when grave issues have to be faced, is still immature. Evidently, if internationalism is ever to make its conquest of the world mind, those who believe in it and work for it must go on patiently adding line to line and precept to precept, educating the peoples in common understanding and good feeling, and exerting themselves to hold in check the nationalistic disorders that impede international enterprises. Unless co-operation is made easy and natural it may be made impossible.

It will be gratifying proof that real progress is being made in this direction if France and Germany, realizing that the recovery of Europe is of vastly more importance than party success, shall speedily find a way to turn their heated disputations into votes of confidence, and set themselves wholeheartedly to the great work of solving the reparations problem along the lines which the Dawes report has laid down. If they will do this there will be, we feel confident, no lack of effective American aid.

Congress, the Parties, and the People.

The resolutions passed by the Missouri and Kansas State Bankers Associations calling upon members to disregard party ties and vote for the good of the country at the coming election are in accord with the citizen's duty as already pointed out in these columns. Dr. Butler, in an interview, after a recent visit to the Middle West, confirms the thoughtful attitude of the business men of that section, and speaks in high praise of prominent papers, including the Kansas City "Star" and the St. Louis "Globe-Democrat," for editorials treating on the bonus and tax laws and the general work of Congress. The thought is worth repeating here that the coalition between the Democrats and Republican "radicals" in the Senate and the failure of old line Republicans to stand by the President in his bonus veto and in his desire to have Secretary Mellon's tax bill passed, certainly releases the party man from his usual strict allegiance to party. The St. Louis "Globe-Democrat" in the comments we quoted last week ends by saying: "Another such a Congress and we are lost!" This is putting the case rather strongly and yet the writer of the present article, after visiting several sections of the country, is prepared to testify that the low esteem in which Congress is held by the people generally has probably never been equaled in the lifetime of this generation.

To say that we have survived all the adverse circumstances in popular government so far is not warrant for the belief that there is no risk involved in allowing such conditions to continue. A distorted and enervated Government is in itself a peril. The foes within are more dangerous than those without. The preaching of a patriotism that is purely partisan is a detail we cannot continue to overlook. If we do, the time will sooner come when we shall be unable to extricate ourselves from political toils. That the Government now needs *men* more than ever it did is so apparent that he who fails to vote his convictions regardless of party fails to embrace the paramount opportunity. A suggestion has been advanced that, since the people are the Government, he who fails to vote should be compelled to do so by law, unless, of course, he furnishes a legal excuse. And there is meat for reflection in the suggestion. At any rate, the independent voter must be looked to at the present time to make his influence felt upon both the old parties. It is a difficult task, as we have said before, but there is yet time to give to the parties a new trend. The sum and substance of it all is that the common business of the country must be protected in its normal functioning; and the individual must be guarded in the exercise of his personal rights.

Our party system of government will be without value unless we can infuse into it a respect for constitutional principles rather than an indifferent feeling that the expediences of any particular time have the first call upon the attention of the voter. If we have gone far afield we must go back. What the coming platforms will be no man can now tell. But judging by the temper of the people candidates will be supported by the thoughtful that are temperate in opinion and strong in purpose to return the Government to its original form of three separate coordinate divisions, each adhering to its constitutionally delegated duties. President Coolidge has not unduly pressed upon Congress his opinions. President Harding held himself aloof from domination. Each sought to keep the Executive within its legitimate field. President Coolidge has made his formal statements as to the state of the nation as required. He has exercised the veto power with courage and wisdom. But has this Congress known any law but its own desire? Has it hesitated to "play politics" upon both sides of the Chamber? Has it demeaned itself with decorum in its "investigations"? Is it now the "greatest deliberative body on earth"? On the contrary, has it not been obsessed with the insane notion that laws alone are the necessity of the times, and the will of the Senate the only relief for domestic troubles?

We do not pretend to see into the future. We do not believe anyone can. What speculations in "Wall Street" indicate does not matter much. A people slow to wrath is a formidable one. What the man on "Main Street" will do in November is the important thing. And in the multiplicity of laws and "investigations," according to present reports, he is apt to seek relief in cessation. He is apt to ask for rest from trouble and troubling. He is apt to demand the reality in the old adage: "When in doubt do nothing." He is "fed up" on panaceas. He knows that "in the midst of alarms" from Congress he cannot plan for the future, can hardly conduct his present day business with hope of success. He feels that if he can have reduced taxation, and a simplified tax law he can understand he will at least "breathe easier." He wants fewer laws, and truer and better ones. He is not concerned with conditions in a remote section, or in a single industry or occupation, he craves a chance at his own business, uninterfered with, unimpeded, unchained. And he does not want Congress to subvert the Constitution by venturing to put into effect questionable schemes of social reform.

Alas, how is he to make his influence felt while the orators are busy campaigning? It is by no means easy. For one thing he must bring his study to bear on the character of candidates. What can this one or that one be expected to do in the turmoil and tempest of party politics? For another thing he must apply the party platforms to the recent record of parties. What will this party or that do when again the nation-savers are at work with their nostrums and incantations? Again, what is the record of the principal parties farther back? Which one has swerved most from the fundamentals of the ancient division, and in what direction? Which one now leans toward Socialism? which one, despite "a strong centralized Government" and so-called "Federalism" now seeks to preserve the States from the engulfing laws for the "control" of business that would in effect obliterate State lines, and reduce their inherent powers to those of subject provinces, and forever destroy the duality of government? Which one has shown most aptitude in coalescing with a political element that calls itself "progressive" because it denounces the "old" in favor of the

"new," however fantastic this may be? We believe the man in "Main Street" is thinking, and thinking hard, and we have faith in his integrity, his courage, his sober wisdom.

We are not endeavoring to prejudge his thought or to suggest a line of conduct. Both these old parties may repudiate this Congress and set their feet firmly on the ground of constitutional principles. There was, and is now, save for its obscuration, a fundamental difference and division between the two old parties. Men may conscientiously be "Democrats" or "Republicans" even now, even yet. But unless we are, as a people, in some way, freed from this scramble for votes, this mad rush for laws that will appeal politically to sections and industries, our future elections will grow more and more impotent to express the will of the people. So that, when men make to voters these gaudy and glaring promises of law-made prosperity; when they denounce the primal honesty of the thousands and thousands in office, falsely called "the Government"; when they charge desperate conditions "if the other party succeeds"; when they appeal to prejudice and indulge in calumny; when they proclaim themselves and their parties the only salvation; *then*, the voter must think hard—and choose deliberately.

Growth in Free Services by Banks.

Mortimer L. Schiff, of Kuhn, Loeb & Co., of this city, speaking to a group of bankers and business men at Omaha, Neb., recently, deprecated certain "methods" in modern banking "for securing new business," "which often spell departure from sound traditions and the best practice." He said with reference to these customs: "I know of a bank that maintains a public service department for the collection of subscriptions for charitable purposes and for the payment of customers' bills for household expense; of a trust company, which, whenever a baby is born to one of its depositors, opens an account in its name and deposits a dollar to its credit; of another, which, free of charge, obtains for customers passage for Europe, hotel reservations, theatre, and ball game tickets, etc.; of another, which maintains an information bureau and supplies, free of charge, complete credit information on individuals, firms and corporations in any part of the world; of a savings bank, that maintains a community hall and a community real estate exchange." Mr. Schiff then remarks: "There can be no such thing as 'free' service, for the operating cost must be met by someone, if not compensated for by him to whom it is rendered."

It has long been a feature of banking that the independent country bank performs many valuable services for the *customer* that do not bring to it any direct return and for which no charge is made. These services are, in many instances, of such a character that no other institution, no single person, could perform them equally as well, with or without charge. They are often of a confidential nature and serve to knit the customer closer to the bank. They are really a part of the work of a "dealer in credits," and we doubt not will continue as part of the general benefit a bank is to its customer. But they are in no sense spectacular. They are not food for advertising displays. In fact, the knowledge that a customer may go to his banker for these confidential services, or the fact that he has sought these aids, are both more secret than open, and do not belong to the proper methods of securing new business. If the banks in this behalf are to broadcast their willingness to become the pack-horses of the communities for the transaction of private business for customers they will soon lose in dignity and defeat the very service they alone are capable of performing.

In certain of these advertising methods, certain of these free-of-charge customs, we are getting very far away from the old-time feeling that the depositing of money in a bank is in the nature of a voluntarily imposed trust, and as such is not to be solicited save in a respectful and general way. That a customer sought too eagerly may come to ask favors not in consonance with "good banking" is not obsolete in theory though it may be coming to be in practice, is not to be forgotten. That a bank for its own good and that of its patrons may dismiss an undesirable customer argues against too strenuous efforts to build up business. And as to the cost of *free* services of a nature not in conformity with the business of banking, which has well defined limits, this, of course, must fall on all the profits earned from all the customers. There are reciprocal relations between banker and customer, as set forth clearly in a circular banks are giving out, and lately reproduced in the "Chronicle." One of the chief points made in this leaflet is that the customer owes it to the bank that he keep his own business in as safe and sound a condition as that he demands of his bank. Why, then, should the bank too eagerly seek a customer by these advertised gratuities before his character is tactfully ascertained?

Yet we cannot draw a hard and fast line in these matters of individual banking conduct. There are certain concessions that must be made to the changing customs in all lines of business. Department store advertising, for example, has grown, we doubt not, beyond the bounds that would be naturally set by the managers of these great emporiums. Banks are not without their local competitors. If the tendency is to overreach the proprieties in vaunting free services to the people it will in time reach its limit. Even now there is seen a counteracting influence in the adoption of a charge for "carrying an account" under fifty dollars, or under such other named minimum sum as may be thought necessary to reimburse the bank. The only line, we think, which reasonably can be drawn rests on the *nature* of the free service to be performed. If it is a personal service in no way growing out of a banking connection it should be discontinued. If it is a service which springs into being because of a banking relation, one that serves the customer without affecting the normal conduct of the bank, doubtless it will remain, and should do so according to the exigencies of the individual case.

We do not favor branch banking. One of the reasons is that these helpful confidential relations between banker and customer, resulting often in valuable helps to the latter, would soon become formal, hard and unsympathetic. Inflexible rules would hold the manager in leash, even if he did not come to show indifference to personal requests growing out of natural banking relations. But in the large things the relations between our present two forms of independent banks are becoming strained. This, together with the increasing rush of life and pressure of competition, is the primal cause of these changes we are witnessing. Occasionally, in some localities, there may be too many banks. But we do

not believe this is generally true. And where it is true time and necessary consolidations will secure a corrective. Banks as other businesses should not yield to this fever of getting rich in a few years—a fever that blinds the vision as to methods that at best are doubtful. In ways indispensable the bank cannot escape a large amount of free service.

The semi-public character of the bank requires of it a certain deference to the wishes of the public in matters of detail in administration. Thus free services may be expected to increase in the nature of things. But a general line of conduct should be observed which will preclude what may be termed offering premiums and prizes for new business. The large city institution may be more rigid in its exactions of the customer than is practical to the country bank. On the contrary, because of a larger clientele it *may* offer more in free services to the mass. But a warmth of interest on the part of the customer and a fidelity in patronage are best met in both cases by the intimate relation of theoretical trustee and beneficiary which is the foundation of all free service.

Applying Psychology to Increasing Human Efficiency.

In a recent book devoted to increasing human efficiency in business,* which has gone through several editions and is now issued new and enlarged, we have at the outset this fundamental proposition: that Psychology, which used to be devoted largely to ideas, now is concerned rather with a study of Attitudes, that is, the instinctive internal pose with which men turn toward persons or tasks.

This attitude is pleasurable, or the reverse. It awakens desire or arrests it. It is wholly within oneself, and it is instinctive in that it declares itself at the moment. It varies greatly in strength with its relation, and may be controlling. When it is favorable we are chiefly conscious of pleasure; and this instantly attaches to the person or the task before us.

This is the governing thought which pervades the book. It guides the judgment and modifies the estimate of every transaction. Is the attitude of the parties concerned attractive, unconsciously creating good-will, or not? Do they so approach the task; do they maintain it throughout? Is the result when reached such as to make the feeling permanent in them and in those who may be affected? It is a line of inquiry wholly scientific, for Psychology to-day has won that place, is attracting increased attention, and in its development and widening application announces this position, that the human problem is second to none in the business life and that primarily, pleasure in every form of self-conscious existence and in every impulse to action is a permanent factor. Men like to be pleased; and when conscious of this feeling, they have an impulse which gives energy to action and furnishes the ground of good-will toward others.

This fact of "attitude," which is universal, and determines the acceptability of men and of ideas, must be regarded if success in its higher and permanent forms is to be gained. Human efficiency is variable and responsive. The "other man" is always involved and is under the same law as ourselves. Psychology emphasizes the fact that individual differences in physical qualities are relatively small, while in acquired traits, or the higher human qualities, they are enormous, especially in response to motives of action. Whatever may be the motives which impel us to a desired action, they create an attitude. That attitude is the result of our past experience. We want it to be pleasurable; therefore we have continually to review those experiences, so as to retain as much as possible of such satisfaction as can be derived from them; and we hope to find similar conditions in the people with whom we have to deal. Efficiency, that is the best use of the opportunity, by both parties is at stake. Pleasure, in its larger sense, as a personal feeling of satisfaction and contentment, thus becomes a recognized factor in business. There is a hedonistic philosophy which would make pleasure in itself an object in life, but it has never been successful. Now, pleasure is visualized as a means to an end. Its presence is creative, its absence is destructive in all human relations.

Turning to business. In the higher walks we have this testimony. In October 1919 it was reported to the Society of Industrial Engineers that, in response to the question, "What are the most important factors in determining success or failure in engineering, replies from 1,500 gave the following: Character was 41%; Judgment, 17.5%; Efficiency, 14.5; Understanding Men, 14; Knowledge of fundamentals, 7; Technique, 6. Four engineering societies then took the matter up and received answers from 7,000 members to this effect: Character, 24%; Judgment, 19.5; Efficiency, 16.5; Understanding of men, 15; Knowledge of fundamentals, 15; Technique, 10. Appraise these qualities relatively as one may, it is abundantly evident that the attitude of the men possessing them in any controlling degree will be toward their work pleasurable. It is the attendant if not the condition of their success.

How about other men? What of the workman and the employee? What will secure better work, or larger production, with more interest and pride in the work, steady attendance, a brighter spirit, less fatigue, a new loyalty in them? Will increased pay do it or piece-work; or a bonus; or a share in profits? Can welfare work be counted on, with safety appliances, baths, social rooms, lectures, hygiene and the like, or possibly a share in the management? What is the attitude of the men toward any or all of these: and what is their view of your attitude in suggesting or introducing them? Is it done in your interest or in theirs? Is the object increased profits and larger dividends? Are you simply yielding to pressure? What is your motive anyway? Men do not do these things for nothing.

How is an attitude to be faced? How can it be changed? Evidently changes in any of the ways suggested will not in themselves suffice. Indeed, any or all of them may effect little. They may even induce further demands, as many a successful strike has done. At best they of themselves produce no change of attitude. That can only come with change of conviction as to yours. Time is an important element in that. Friendliness, personal interest, evidence of the real attitude of the employer, and those representing him, as one of good-will, one that will find satisfaction and pleasure in promoting a similar feeling in the employee can only gradually gain recognition. Conviction comes with experience of its reality and genuineness. As this dawns, all or any of

*Increasing Human Efficiency in Business, by Walter Dill Scott. Macmillan Co.

the attempts at better conditions become its expression, and are met with hearty co-operation. A new atmosphere is at once created, and a new situation. It is the condition held indispensable in education; it is not so clearly understood in business. Human nature is the same in all. In commerce and industry when it arises it is not only responsive, it becomes quickly creative. More and better work is done by the same men in shorter time, and with less fatigue. Of this there is abundant witness. Improved methods and better devices are suggested by employees, which had not been perceived. A sense of responsibility spreads. Every bettering of material conditions, in comfort, in safety, in health, in compensation, in personal relations, every increase in individual responsibility, helps to the dropping of careless habits, to the contentment of the better class of men and women, and to a loyalty attaching even to the traditions and good name of the business, which not infrequently carries it safely and sometimes prosperously through difficult times.

Of course situations differ and every concern has its own problems. Our author, from whom we have departed in following out this line of thought, devotes himself to discussing the details of all varieties of business, and may well be read by any who have problems to settle.

It comes at last to this: What is our own attitude? Are we in a teachable state of mind? Experience, however valuable, is wasted unless its lessons are learned and applied. Men on all sides are seeking theoretical training which will give understanding in the new conditions which surround us. They find themselves engulfed in their affairs; few have time or opportunity for the theoretical and scientific relations which are so necessary. Psychology becomes helpful as the interpreter of our experience. It treats attitude as being really the man and not due to fate. It opens up the vital and outreaching relations, and gives standing, as well, to the aims and ideals we may cherish.

We want for ourselves prosperity, and pleasure as its associate and product, and for the world, peace. We would have all who work for us, or with us, have the position in which each has the best possible opportunity to make the most of himself and not to fail of the interest which at every step of the way should mark his attitude towards his task and his fellowmen. In helping him to this, and in striving to maintain it for ourselves, we help to promote the prosperity and good-will which must underlie the peace of the world, if that is to be attained.

The New York Central Annual Report.

The annual report of the New York Central RR. for the year 1923 has been issued the present week, and it makes a really striking record of good results and of good management. The year was one of a large volume of business for the railroads and a favorable showing of income was therefore a foregone conclusion, but the extent of the improvement, as far as net results are concerned, was dependent upon the degree of efficiency with which the traffic was handled and moved. Both the income results and the traffic and mileage statistics tell a graphic story of the way the requirements of the situation were met in this respect. Efficiency was evidently the watchword in all departments of the service.

The company transported 133,335,063 tons of freight in 1923, as against 96,881,252 tons in 1922, and moved 25,264,970,620 tons one mile, against 19,361,613,726 tons. This is an increase in the one case of over 37% and in the other of over 30%, and yet this large addition to traffic was moved with an increase in freight train mileage of only a trifle over 20%, the number of miles run by the freight trains in the revenue service having been 26,229,072 in 1923, as against 21,829,168 in 1922. In other words, there was a large increase in the freight train load, the average number of tons of revenue freight hauled per train mile having been 862.15 in 1923, against 802.26 in 1922, and the average number of tons of all freight per train mile having been 956.83, against 880.44. The revenue per train mile was a trifle less than in the preceding year, having been $8 92 in 1923, as against $9 00 in 1922, but this was due to a decline in the rate received. The average revenue per ton per mile was only 1.035 cents in 1923, against 1.122 cents in 1922, and this decline in rate emphasizes the necessity that always exists for raising efficiency of operations.

As to the income returns, it is evident from the figures cited that the expansion in net income followed both from the increase in traffic and from good operating achievements. Railway operating revenues increased from $316,620,098 in 1922 to $365,175,188 in 1923, being a gain of $48,555,090, or somewhat over 15%. The railway operating expenses of the company increased only from $250,400,469 in 1922 to $278,602,021, the augmentation here being only a little over 11%, leaving therefore a gain in the net revenue from railway operations of $20,353,539, or over 30%, the amount of the net for 1923 standing at $86,573,167, as against $66,219,628 for 1922. These figures are stated before the deduction of the taxes, which increased during the year from $17,361,159 to $20,053,594. Equipment rents also increased, but profits from the separately operated properties and from dividend income from the controlled lines also increased, and very decidedly so. The final result is net income above all fixed charges in the amount of $45,339,426 for 1923, as against $20,635,186 for the calendar year 1922.

The $45,339,426 income for 1923 is equal to nearly 17% on the $268,323,375 stock outstanding Dec. 31 1923. The company last August raised the quarterly dividend from 1¼% to 1¾%—that is, from a basis of 5% per annum to 7%—and the figures now before us evidence the conservatism with which the management acted in raising the rate. As the higher rate was not in effect the whole year, the charge for dividends against the year's income is only 6½%, calling for $17,432,978; after deducting this sum and making some minor adjustments, there still remains a surplus on the year's operations in the imposing sum of $27,748,777, which was carried to the credit of profit and loss. Since the close of the year the stock of the company has been increased by $31,510,620 by the offer of this amount to stockholders of record on Jan. 2 1924, and it is obviously the proper course, wherever that is possible (as it is now in the case of the Central), to meet new capital requirements by the issue of stock rather than by additions to funded debt. The constant need of new capital in the case of our great railroads is a point that it would be superfluous to argue, but we may note in closing that in the case of the Central the "increases in property investment accounts" in 1923 aggregated $36,017,155.

The New Capital Flotations in April and the Four Months Since January 1

The appeals to the investment world in this country for new capital continue to run large, and during April, which is the month covered by our compilations to-day, the aggregate of the new issues brought out was of full average size, measured by recent standards, though not of the exceptional proportions of the totals reached in two other months in the past especially distinguished in that way. Our tabulations, as always, include the stock, bond and note issues by corporations and by States and municipalities, foreign and domestic, and also the Farm Loan issues. The grand aggregate of the offerings of new securities under these various heads during April the present year was $489,889,016. This compares with $365,030,818 in March, with $535,532,594 in February and $536,082,690 in January, with $397,403,198 last December, with $539,740,990 in November, with $390,106,577 in October, with $249,734,549 in September, with $224,867,650 in August, and with $197,467,011 in July, when the new offerings were the lightest of any month of any year since March 1919.

The aggregates of the new issues brought out were large under all the principal heads. Of late years April has always held a prominent place in the records as respects these new capital applications, and comparisons with the figures for this month in other years serve to emphasize the magnitude of this year's total. At $489,889,016 for April the present year the aggregate of the new capital flotations compares with $456,637,052 in April 1923, with $656,157,353 in April 1922, with $527,655,718 in April 1921, with $407,830,-

809 in April 1920, and with $319,916,001 in April 1919, which latter is the year following the armistice and is as far back as our figures go. The total for April 1924, it will be observed, falls well below that of $656,157,353 reached in April 1922, but it happens that in this last mentioned month the new flotations were with one exception the largest of any month of any year—barring only January 1923, when the new issues aggregated no less than $881,211,911. This latter, though, as explained by us on many previous occasions, stands in a class all by itself, the total having been swollen to exceptional proportions by the bringing out of several issues of unusual size—the Anaconda Copper Mining Co. alone by its financing having then added $150,000,000 to the total and Armour & Co. $110,000,000, with the result that January of that year broke all records for new capital flotations in the United States, the highest previous amount for any month of any year having been, as just stated, the $656,157,353 for April 1922.

We always undertake to differentiate between the issues that represent strictly new demands for capital and those that are for the purpose of retiring or taking up securities already outstanding and the importance of this distinction becomes apparent on the present occasion. For, only a small part of the issues brought out this year in April was for refunding purposes, while in April 1923 and April 1922 the refunding portion was exceptionally large. When account is taken of that fact the size of this year's capital flotations is still more strongly emphasized. In other words, the strictly new capital involved in April 1924 was $462,149,616, against only $353,125,652 in April 1923, $478,151,017 in April 1922, $304,847,718 in April 1921, $400,128,609 in April 1920 and $314,073,742 in April 1919. On that basis, it will be seen, even the April 1922 figure is not left far behind.

We have said that the aggreggate of the new issues had been large the present year under all the main heads. The total of the State and municipal issues, for example, is $129,048,416. The magnitude of the total in this instance is explained by the fact that New York State disposed of $45,000,000 4¼% Soldier Bonus bonds during the month and Illinois sold $10,000,000 4½% bonds for the same purpose.

Then, also, three large foreign Government loans were floated in this country during April. The aggregate was $76,000,000, and the issues were as follows: $40,000,000 Kingdom of the Netherlands (Holland) 30-year 6s, due 1954, offered at 98½, yielding about 6.10%; $30,000,000 Government of Switzerland 5½s, 1946, offered at 97½, to yield about 5.70%, and $6,000,000 City of Rotterdam (Holland) 40-year 6s, 1964, offered at 98, to yield about 6⅛%. Besides these, a small foreign Government loan was also offered during the month.

The corporate offerings made during April reached $275,705,600, and on analysis it appears that public utility issues this time predominate, with a total of $134,284,000, as compared with $86,681,600 for industrial corporations and $54,740,000 for railroads. The April total of public utility issues is well in excess of the $93,510,250 recorded in March and is larger than that of any month this year, the previous high total having been $133,532,000 for January. The industrial total of $86,681,600 for April shows a marked decline from the total of $137,225,407 for such issues in March and constitutes the lightest month during the current year. Railroad offerings of $54,740,000 for April were substantially larger than the total of $35,377,500 for March, but were less than in January and February.

The grand total of all corporate offerings in April, as already stated, was $275,705,600. Of this amount over 68%, or $188,559,600, comprised long-term offerings, $34,441,000 consisted of short-term obligations and the remainder, $52,705,000, was in the form of stock issues. The portion of corporate offerings used for refunding purposes in April amounted to $25,803,900, or slightly over 9% of the total. This compares with only $11,529,000 or less than 5% in March, $37,285,000, or 14% in February and $27,792,400, or 9% in January. Of the $25,803,900 devoted to refunding purposes in April, $6,896,000, consisted of new long-term issues sold to refund existing long-term issues; $9,479,677 was new long-term issues sold to refund short-term securities; $1,291,000 was new short terms to refund existing long-term debt; $8,137,223 consisted of stock issues sold to refund $7,915,000 long-term issues and $222,223 of short-term obligations.

The largest single corporate issue of the month was the $20,100,000 Pennsylvania RR. General Equip. Trust 5s, Series "B," 1925-39, offered on a 5.08% basis. Other important railroad issues were $17,640,000 Southern Pacific Co. Equip. Trust 5s, Series "G," 1925-39, offered on a 5.08% basis; $8,500,000 St. Louis-San Francisco Ry. Co. Prior Lien 5½s, Series "D," 1942, offered at 92, yielding about 6.25%, and $6,000,000 Wisconsin Central Ry. Co. 3-year 5½% Secured Notes, due March 15 1927, offered at 99¾, yielding about 5.60%. There were many moderately large public utility issues, the chief issues being as follows: $14,400,000 capital stock of Commonwealth Edison Co., offered to stockholders at par ($100); $12,500,000 Pacific Gas & Electric Co. 1st & Ref. Mtge. 5½s, "C," 1952, offered at 96, to yield about 5.78%; $8,500,000 Consumers Power Co. 1st Lien & Unifying Mtge. 5½s, 1954, offered at 95½, to yield about 5.82%, and $8,000,000 Birmingham (Ala.) Electric Co. 1st & Ref. Mtge. 6s, 1954, offered at 97½, to yield about 6.18%. Industrial issues of prominence included the following: $12,000,000 Hearst Publications, Inc., 1st (closed) Mtge. & Coll. Trust 6½s, 1926-36, offered at par; $10,000,000 Consolidation Coal Co. 7% Cumulative Preferred Stock, offered to common stockholders of company at par ($100), and $6,000,000 Remington Arms Co., Inc., 3-year 6s, due March 15 1927, offered at 98½, yielding about 6.50%.

Farm loan issues were on a small scale. The April business consisted of only four small offerings for a total of $4,300,000, the yield on these issues ranging from 4.35% to 4.87%.

The following is a complete summary of the new financing —corporate, State and city, foreign Government, as well as Farm Loan issues—for April and the four months ending with April, of the current calendar year. It will be observed that in the case of the corporate offerings we subdivide the figures so as to show the long-term and the short-term issues separately and we also separate common stock from preferred stock.

SUMMARY OF CORPORATE, FOREIGN GOVERNMENT, FARM LOAN AND MUNICIPAL FINANCING.

In the elaborate and comprehensive tables, which cover the whole of the two succeeding pages, we compare the foregoing figures for 1924 with the corresponding figures for the four years preceding, thus affording a five-year comparison. We also furnish a detailed analysis for the five years of the corporate offerings, showing separately the amounts for all the leading groups of corporations.

809 in April 1920, and with $319,916,001 in April 1919, which latter is the year following the armistice and is as far back as our figures go. The total for April 1924, it will be observed, falls well below that of $656,157,353 reached in April 1922, but it happens that in this last mentioned month the new flotations were with one exception the largest of any month of any year—barring only January 1923, when the new issues aggregated no less than $881,211,911. This latter, though, as explained by us on many previous occasions, stands in a class all by itself, the total having been swollen to exceptional proportions by the bringing out of several issues of unusual size—the Anaconda Copper Mining Co. alone by its financing having then added $150,000,000 to the total and Armour & Co. $110,000,000, with the result that January of that year broke all records for new capital flotations in the United States, the highest previous amount for any month of any year having been, as just stated, the $656,157,353 for April 1922.

We always undertake to differentiate between the issues that represent strictly new demands for capital and those that are for the purpose of retiring or taking up securities already outstanding and the importance of this distinction becomes apparent on the present occasion. For, only a small part of the issues brought out this year in April was for refunding purposes, while in April 1923 and April 1922 the refunding portion was exceptionally large. When account is taken of that fact the size of this year's capital flotations is still more strongly emphasized. In other words, the strictly new capital involved in April 1924 was $462,149,616, against only $353,125,652 in April 1923, $478,151,017 in April 1922, $304,847,718 in April 1921, $400,128,609 in April 1920 and $314,073,742 in April 1919. On that basis, it will be seen, even the April 1922 figure is not left far behind.

We have said that the aggreggate of the new issues had been large the present year under all the main heads. The total of the State and municipal issues, for example, is $129,048,416. The magnitude of the total in this instance is explained by the fact that New York State disposed of $45,000,000 4¼% Soldier Bonus bonds during the month and Illinois sold $10,000,000 4½% bonds for the same purpose.

Then, also, three large foreign Government loans were floated in this country during April. The aggregate was $76,000,000, and the issues were as follows: $40,000,000 Kingdom of the Netherlands (Holland) 30-year 6s, due 1954, offered at 98½, yielding about 6.10%; $30,000,000 Government of Switzerland 5½s, 1946, offered at 97½, to yield about 5.70%, and $6,000,000 City of Rotterdam (Holland) 40-year 6s, 1964, offered at 98, to yield about 6⅛%. Besides these, a small foreign Government loan was also offered during the month.

The corporate offerings made during April reached $275,705,600, and on analysis it appears that public utility issues this time predominate, with a total of $134,284,000, as compared with $86,681,600 for industrial corporations and $54,740,000 for railroads. The April total of public utility issues is well in excess of the $93,510,250 recorded in March and is larger than that of any month this year, the previous high total having been $133,532,000 for January. The industrial total of $86,681,600 for April shows a marked decline from the total of $137,225,407 for such issues in March and constitutes the lightest month during the current year. Railroad offerings of $54,740,000 for April were substantially larger than the total of $35,377,500 for March, but were less than in January and February.

The grand total of all corporate offerings in April, as already stated, was $275,705,600. Of this amount over 68%, or $188,559,600, comprised long-term offerings, $34,441,000 consisted of short-term obligations and the remainder, $52,705,000, was in the form of stock issues. The portion of corporate offerings used for refunding purposes in April amounted to $25,803,900, or slightly over 9% of the total. This compares with only $11,529,000 or less than 5% in March, $37,285,000, or 14% in February and $27,792,400, or 9% in January. Of the $25,803,900 devoted to refunding purposes in April, $6,896,000, consisted of new long-term issues sold to refund existing long-term issues; $9,479,677 was new long-term issues sold to refund short-term securities; $1,291,000 was new short terms to refund existing long-term debt; $8,137,223 consisted of stock issues sold to refund $7,915,000 long-term issues and $222,223 of short-term obligations.

The largest single corporate issue of the month was the $20,100,000 Pennsylvania RR. General Equip. Trust 5s, Series "B," 1925-39, offered on a 5.08% basis. Other important railroad issues were $17,640,000 Southern Pacific Co. Equip. Trust 5s, Series "G," 1925-39, offered on a 5.08% basis; $8,500,000 St. Louis-San Francisco Ry. Co. Prior Lien 5½s, Series "D," 1942, offered at 92, yielding about 6.25%, and $6,000,000 Wisconsin Central Ry. Co. 3-year 5½% Secured Notes, due March 15 1927, offered at 99¾, yielding about 5.60%. There were many moderately large public utility issues, the chief issues being as follows: $14,400,000 capital stock of Commonwealth Edison Co., offered to stockholders at par ($100); $12,500,000 Pacific Gas & Electric Co. 1st & Ref. Mtge. 5½s, "C," 1952, offered at 96, to yield about 5.78%; $8,500,000 Consumers Power Co. 1st Lien & Unifying Mtge. 5½s, 1954, offered at 95½, to yield about 5.82%, and $8,000,000 Birmingham (Ala.) Electric Co. 1st & Ref. Mtge. 6s, 1954, offered at 97½, to yield about 6.18%. Industrial issues of prominence included the following: $12,000,000 Hearst Publications, Inc., 1st (closed) Mtge. & Coll. Trust 6½s, 1926-36, offered at par; $10,000,000 Consolidation Coal Co. 7% Cumulative Preferred Stock, offered to common stockholders of company at par ($100), and $6,000,000 Remington Arms Co., Inc., 3-year 6s, due March 15 1927, offered at 98½, yielding about 6.50%.

Farm loan issues were on a small scale. The April business consisted of only four small offerings for a total of $4,300,000, the yield on these issues ranging from 4.35% to 4.87%.

The following is a complete summary of the new financing—corporate, State and city, foreign Government, as well as Farm Loan issues—for April and the four months ending with April, of the current calendar year. It will be observed that in the case of the corporate offerings we subdivide the figures so as to show the long-term and the short-term issues separately and we also separate common stock from preferred stock.

Indications of Business Activity

THE STATE OF TRADE—COMMERCIAL EPITOME.

Friday Night, May 30 1924.

General trade still suffered from cold wet weather East, West and South, though on Wednesday it cleared almost everywhere. And the tendency throughout the country seems to be towards warmer weath after an extraordinarily prolonged period of wet or cold or both. On Thursday the weather outlook became a little dubious again, however. With bad weather for merchants there has been lessened employment in some of the big industries, as in iron, steel, textiles and coal mining, with the inevitable decreased buying power of workers. Much spring trade is irretrievably lost. We now enter the summer season. It is hoped that with reduced consumers' supplies of general merchandise there will be before long a reawakening of business. Wholesale prices have declined noticeably, as is well known, within the last 60 days. Declines were particularly large in the iron and steel, coal and woolen industries. Factory employment declined 2% in April, owing chiefly to large reduction of forces at textile and clothing establishments. A strike of 50,000 garment workers threatens the New York clothing trade. It was hoped that it might be averted, but the latest development is that the manufacturers have decided to break off relations with the union. It is no time for labor to be arbitrary. A South Carolina cotton mill will resume work on Monday at full time, but at a reduction of 10% in wages, and other mills in that State are to do the same. Wages of carpet workers at Amsterdam, N. Y., and Boston, Mass., have been reduced. Also, those of shoe factory workers in New England, the decrease being 20%. Henry Ford, it is said, has asked for some retarding of deliveries of cotton cloth used in manufacturing cars. Some decrease is apparent in the production of automobiles. It would be strange if that branch of manufacturing did not suffer with others. Naturally, with less demand for merchandise there has been less use for money, and rates have recently been easy. The recent reduction in the discount rate by the New York Federal Reserve Bank from 4½ to 4% was, of course, a sign of diminished trade. And now the Cleveland Reserve Bank has also reduced its rediscount rate from 4½ to 4%.

Meanwhile the big industries, if anything, have been less active than recently. This was partly due to the national holiday. Most of the Exchanges are closed to-day, and all of them will be closed to-morrow with the exception of the New York Produce Exchange and the Chicago Board of trade. Lower prices prevail for Lumber. Cotton goods have sold rather more freely at Fall River, the sales this week reaching 55,000 pieces for the first time in many weeks. This is certainly gratifying, although it is far from being a normal trade. Sugar has rallied sharply, after touching a new low of 3 3-16c. for Cuba, and it is gratifying to notice that the refined product was selling yesterday on a larger scale. With the advent of warmer weather there is no doubt that the sugar refineries of the country will have a much better business, all the more so, perhaps, for the long delay in the opening of spring trade, due to backward weather. The planting of the corn crop is late. The wheat acreage will be larger in the Southwest, but smaller in most other parts of the belt. Kansas has had beneficial rains for wheat, but California still suffers from dry weather. Cotton is higher because of cold wet weather, a backward crop and the fear of a bad Government report on Monday, June 2, when there is some likelihood, it is believed, that the condition will be stated at something like 67 to 68%, against 71 a year ago and 72.8 as the ten-year average. Petroleum prices seem to have a downward tendency with crude oil production increasing. Bad weather restricts gasoline consumption. Wool has been quiet at the East and more or less depressed, but there are some reports to the effect that in the Far West there is quite a good business. While cotton has been advancing, raw silk has declined. Pig iron has declined in some parts of the country, but there are reports of a better business. Steel has been dull and more or less depressed. The minor metals have been rather steadier. In the automobile trade some are predicting higher prices for cars. The coal output has fallen off, with manufactures slow, a case of effect following a very plain cause.

Thus far there can be no doubt that retail trade has fallen below expectations. This deplorable fact is traceable largely to bad weather, but labor has less to spend because it has less general employment. The tendency of wages in this country, it is believed, is downward, but there are no signs as yet of a general reduction. The grain markets have as a rule not changed materially during the past week. Coffee has advanced noticeably, with the statistical position at least superficially strong, and at times Brazilian markets advancing. The stock market has been something of a damper, with its sluggish trading and equally sluggish fluctuations, evidencing, as merchants have been inclined to think, a certain indecision in the financial world as to the immediate outlook. The foreign exchanges have declined. Yet there is, after all, a latent belief that with the coming of better weather trade will improve. Production has been reduced, but consumption to all appearances has been proceeding at a rate that suggests that consumers' stocks are none too plentiful and may need replenishing before very long. Freight loadings of late have increased somewhat, although they are well below those of 1923. Meanwhile London is hopeful in regard to the outlook for a settlement of reparations. Things are quiet there, but it is said that there is a disposition to look for favorable political developments during June. German politics, after clouding over for a while, cleared. Chancellor Marx will form a new Cabinet. There is an effort to oust President Millerand of France and Prime Minister MacDonald of England is understood to have intimated that if defeated on Thursday night he would resign. But taking the world in general, it is evidently setting its face towards better times, despite political fluctuations of one kind or another. The trend of humanity is towards a return to a pre-war civilization or something better and it is very doubtful if anything can stop it.

It is hoped and believed that the state of politics, finance and trade in Europe will gradually improve. The prospective Premier of France seems disposed to adopt a conservative course, which means, probably, a more conciliatory one in the matter of a plan of reparations. And meanwhile, despite occasional perturbations, the currencies of Europe on the whole seem to be gradually progressing towards stabilization. There is an effort to balance budgets and make Governments going concerns on a sound, business-like basis. Inflation in Europe, it is hoped and believed, practically ended six months ago. It may perhaps be said that the real tendency of none of the European currencies is now downward. It is pointed out that the fluctuations in the Italian lira within the last two years have amounted to less than 10%. Russia, after what is said to have been an encouraging experience, is introducing the gold ruble. Poland, with hopeful prospects, is trying to maintain a gold reserve for its new currency and to balance its budget. The currency of Portugal has maintained a gratifying degree of steadiness for nearly six months, after declining for some years. In a year Greek drachmas have advanced 100%. Austria has suffered from a speculative craze, first in stocks and then in francs, from which it must recover in the usual way, but the Austrian international loan is secured by far more than ample customs and tobacco receipts and the krone has been pretty well stabilized. Credit inflation has to all appearances ceased. To be sure, with hardly an exception, the world's currencies are lower than they were a year ago. Portugal, Jugosalvia and Brazil, curiously enough, are about the only exceptions. A general return to the gold standard is not near at hand; it is probably remote; in some cases it may not be quite possible. England is in no hurry. But taking the outlook as a whole, it is considered by not a few encouraging. The worst is believed to be over. There is no denying that the tendency must be towards increased taxation in parts of Europe, notably in France, Germany and Austria. That is the unhappy legacy of war and its colossal destruction. It will take many years to make such gigantic losses good. The point is that in the opinion of some the corner seems to have been turned in Europe. The United States is willing within reasonable limits to lend its powerful aid to the work of rehabilitation. There seems no reason why world recuperation should not progress without serious interruption if the Dawes plan is adopted and its provisions

carried into effect in good faith and with reasonable promptness.

Curtailment of production in the United States has been persistent for some time past and is particularly noticeable, as already intimated, in iron, steel, coal and textiles, notably cotton. European competition no longer hits the iron trade; American prices are too low. But it has told in the cotton goods trade; Great Britain's goods have reached these shores in large quantities. And in the cotton manufacturing business special difficulties exist; Southern mills have been able from close proximity to the cotton fields and with the greater cheapness of labor to undersell New England. Labor in general is too high in this country. It is pointed out that once the Dawes plan is adopted and manufactures in Europe get an impetus from a revival of confidence, Europe will probably invade American markets on a larger and far more formidable scale than for many years past, favored by labor costs much below those prevailing in the United States. If labor does not meet the situation by intelligent acquiescence in reduced wages it will suffer by a lessened demand for its services. Labor is really in the same boat as the manufacturers. The decreased demand for mills' output coincides with a decreased demand for labor and the spread in New England and at the South of the three and four-day week, where the mills are not closed altogether.

At Fall River, Mass., 38 weavers who were employed on looms weaving marquisettes at the Flint mills, voted to strike last Monday because they were asked to operate eight looms instead of six, with no additional pay, which they claim would mean a reduction in wages of between 20 and 25%. At Fall River, Mass., on May 24 six mills, comprising the cotton division of the American Printing Co., closed down not to reopen until June 9. The mills have been running every other week for more than a month, after having been idle for nearly three months. Yet operatives in Fall River, whether truthfully or not, are said to be in favor of fighting a wage cut if it is proposed. Meanwhile welfare societies and labor unions are feeding the most destitute. Lower wages would mean work the whole week, and thus more pay. The Fall River mills now closed for an indefinite period are the American Linen, Arkwright, Chace, one of the Flint mills, Merchants Manufacturing, Mechanics Pocasset, Seaconnet, Stafford, Troy, Union and Weetamoe. In addition to high labor a serious drawback is repressive State legislation and excessive municipal taxation. It is difficult or impossible, it is stated, for the best equipped and most skillfully operated mills to make head against such handicaps. At South Hadley Falls, Mass., the Hadley mill, which had been idle for several weeks, resumed operations last Monday and will gradually extend them until the full force of employees is at work. At Clinton, Mass., 1,675 looms will begin full time at the Lancaster mill. This is an increase of 1,075 looms. At New Bedford curtailment in cotton mills is gradually increasing.

Boston wired: "Henry Ford is asking the manufacturers to delay somewhat their deliveries of cotton cloth for us in the upholstering of Ford cars. Last December the Detroit manufacturer placed, it seems, orders for some 10,000,000 yards of cotton cloth, a record order, which was understood to be based on a scheduled production of 10,000 cars daily. At the present time production is understood to be on the basis of about 7,500 cars a day. The maximum in the interim since the order was placed was some 8,000 cars. It is estimated that something like 75% of the goods purchased by the Ford Co. in December has been delivered. The gray goods mills also have had orders from the finishing plants in some instances to delay deliveries of the gray goods in turn."

At Manchester, N. H., large orders for flannel goods have kept certain departments of the Amoskeag plant running on full time. All departments of the Amoskeag mills closed Thursday night until Monday June 2, over Memorial Day and Saturday. New England is said to be looking to Texas for new cotton mill sites near cotton and cheaper labor. It is stated that there are now in Texas 20 cotton mills and a total of about 200,900 spindles. A much larger spindleage is predicted in the next few years. Georgia mills are operating at about 70 to 75% of normal daytime capacity.

At Greenville, S. C., on May 26 the American Spinning Co., with 60,000 spindles, announced resumption of full-time operation effective June 2, after having run on a 4-day week basis for several months. Five hundred operatives are affected. At the same time the company announced a 10% reduction in wages, to become effective June 2. It is reported that other mills will take the same action. At Lyman, S. C., the new $5,000,000 plant of the Pacific Mills began operations last Monday, which is several weeks ahead of its schedule. The bleachery will have a capacity of 1,500,000 yards a week. Starting on a small scale, production will be worked up to a maximum by July. Within two weeks the spinning and weaving of sheeting will get under way. The new plant will have 32,000 spindles. These were transferred from the Lawrence, Mass., property of the Pacific Mills. Both cotton mill and bleachery should be ready for capacity operation early in July.

Spartanburg, S. C. wired that the Union-Buffalo cotton mills at Union and Buffalo, S. C. would close down from May 28th until June 4th. At Thompsonville, Conn. on May 26th operations were resumed in part at the plant of the Bigelow-Hartford Carpet Co. which was closed a week ago on May 17th for an indefinite period owing, it was supposed, to the lack of orders. Operatives have been notified to appear for work in certain departments. The 4,000 operatives who were thrown out of work by the shutdown regard the part resumption as a hopeful sign. Wages have been cut 10 to 20%. Some 2,000 operatives were put to work in the Brussels moquet and administer departments. At Amsterdam, N. Y. on May 26th the tapestry department of the Sanford Carpet Mills which closed Monday May 19th when workers struck against a wage cut, was reopened when the yardmen, chauffeurs and cotton mill employes returned to their places under the prescribed wages. The mill owners announced setters and spinners of the axminister department who also walked out Monday, would be given more time before other employes would be permitted to take their places.

Boston wired that improvement in the New England shoe manufacturing industry is more pronounced following upon an average cut in wages approximating 20%. Two factories have been opened in Lynn-Daly's Golden Rule Shop toward which the employees have contributed more than $10,000, and the Frank T. Lynch Shoe Co., which makes high grade women's shoes, these two plants employing 200 at the start. In Haverhill also the situation is greatly improved. Some operatives have refused to work at the reduced wages, but there is little trouble on this account and no organized opposition.

Early in the week it was cold and raining in many parts of the United States, notably in this part of the country and at the South. Alabama had rains of 3½ to 4½ inches over Tuesday. Texas had copious rains. Later temperatures rose, though it was still too cool with 44 degrees at Milwaukee, 54 at Cincinnati and Cleveland, 48 at St. Paul, 50 at Buffalo and 52 at New York. It warmed up on the 28th with Chicago and Cincinnati up to 72 degrees, Milwaukee, Cleveland and New York 70, Baltimore 76, and Portland, Me., 58. Everywhere there was less rain or none. On Thursday it was warmer here in the morning, but later on rain again set in and the temperature dropped somewhat. It was still 66 at 3 p. m. Rains all over the country, however, were quite moderate with the exception of parts, it is said, of Texas, Oklahoma, Mississippi and Tennessee. It was up to 101 in Texas and 90 to 95 in various parts of the South. But the forecast was for showery and cooler weather all over the cotton belt. The indications to-night are for rains and cooler weather in this part of the country and also in New England. What the whole of the United States now needs is a period of dry, warm weather, not only for some of the crops but also for trade.

Decline in Business in Federal Reserve District of Philadelphia.

Further curtailment in production, less active distribution of goods, a decline in the number of employees at industrial establishments, and a decrease in wholesale commodity prices have been the outstanding features in the business situation of the Third Federal Reserve District of Philadelphia, during the last month, says the "Business Review" issued this week by the Federal Reserve Bank of Philadelphia, which continues:

The textile industries report a continuation of unsatisfactory business; orders are for small amounts and call for prompt shipment. Some manufacturers, especially those in the silk and wool industries, have curtailed operations rather than build up stocks. Recent declines in the quotations on carpets and rugs, following the auction in New York, have brought prices to a point at which certain carpet manufacturers assert they cannot manufacture at a profit, and consequently they have closed their mills. Building materials are selling fairly well, but not as well as they were a year ago, though the amount of construction work contemplated is still large. The estimated cost of building permits issued in 15 cities of the Third Federal Reserve District during April was higher than the total for March, although slightly lower than that for April 1923. The call for

most iron and steel products has been sluggish, and the production of steel ingots has been reduced sharply. Pig iron output during April, though smaller than in March, was, with that exception, larger than in any month since August 1923. Unfilled orders of the United States Steel Corporation declined again in April and were lower than at any time since February 1922. The leather market continues to be dull, and shoe manufacturers report slack business; but hides and skins have been selling actively in Chicago. Paper manufacturers also state that orders have declined, and that sales are smaller than they were a year ago.

Reports from various sections of the District indicate a favorable condition in most lines of agriculture. The cold weather during the first part of May has hindered the planting of some early crops, but the abundant rainfall has helped the grain crops, and fruit trees are said to be in excellent condition. The most unfavorable factor in the agricultural situation is the shortage of farm labor, which, though in better supply than it was a year ago, is still scarce.

Distribution of goods by manufacturers and wholesalers has been at a slower rate than during the early months of the year, as is indicated by the decline in freight car loadings and the falling off in wholesale trade. Of the eight wholesale lines reporting to this bank, all but two showed smaller sales in April than in March, and in only two were sales above those in April 1923. Retail trade, however, was heavier this April than last, but this is partly accounted for by the late Easter. A comparison of retail sales for both March and April with those of March and April 1923, which eliminates the effects of the late Easter, shows that sales this year were 3.8% larger than those of a year ago, and this in spite of unfavorable weather conditions. It is apparent, therefore, that purchasing by consumers is being well maintained.

Notwithstanding curtailment of operations in numerous factories, the number of wage earners employed at 1,033 industrial establishment in Pennsylvania, New Jersey and Delaware was only 1.1% smaller on April 15 than on March 15. Total wage payments during the same period declined 1.5%. The only marked shortage of labor now is in the agricultural industry. In the bituminous coal industry a considerable surplus exists because of the steady decline in operations during recent months.

Wholesale commodity prices, as measured by the index of the Bureau of Labor Statistics, fell from 150 in March to 148 in April, at which point the general level is almost 7% lower than it was in April 1923. The decline from March to April was largely due to the drop in the prices of foodstuffs and metals. Prices of farm products, on the other hand, increased, largely because of higher quotations on cattle, hogs, sheep, cotton, hay and potatoes.

No change of moment is apparent in the credit situation. Although the volume of commercial loans extended by reporting member banks in this District has decreased during recent weeks, it is still larger than it was a year ago. Interest rates continue to decline, and prime commercial paper is now selling at 4¼%, as compared with 4½% in the latter part of April.

Increase in Department Store Sales in Federal Reserve District of New York During April.

Department store sales in this district in April were 11% larger than a year previous, due largely to delayed Easter buying this year, according to an item which will appear in the June 1 issue of the "Monthly Review of Credit and Business Conditions" by the Federal Reserve Agent at New York. For the months of March and April combined sales were only 3% larger than last year, which is less than the usual year to year growth. The statement continues:

The increase in April sales over a year ago was largest in wearing apparel, which is most affected by the date of Easter. Only in furniture and home furnishings did sales for March and April exceed those of a year previous. Changes in sales in the major divisions of department store trade compared with a year ago are shown in the following table:

	Per Cent. Change in Sales over April 1923.	*Per Cent. Sales of Each Department to Sales of All Departments.*
Men's and boys' wear	+34.1	7.7
Women's and misses' ready-to-wear	+22.2	15.5
Women's ready-to-wear accessories	+18.7	17.0
Shoes	+18.7	3.9
Hosier;	+18.5	3.5
Home furnishings	+3.6	13.5
Woolen goods	+2.8	1.6
Furniture	+2.3	5.6
Cotton goods	—2.9	3.3
Silk goods	—.76	4.8
Miscellaneous	+11.8	23.6

Stocks of goods on hand May 1 were 5% higher than a year previous for the fourth consecutive month. The average sale in April was $2 93, as compared with $2 58 in March and $2 87 in April 1923.

Mail order sales were 10% higher than a year ago, whereas in March they were 7% lower. After allowing for the usual seasonal variation and price changes, mail order sales were above the computed trend for the first time since June 1923.

	Net Sales During April. (April 1923 Equals 100%.)					*Stock on Hand May 1. (May 1 1923 Equals 100%.)*				
	1920.	1921.	1922.	1923.	1924.	1920.	1921.	1922.	1923.	1924.

Decrease in Wholesale Trade in Federal Reserve District of New York During April.

The June 1 "Monthly Review of Credit and Business Conditions" by the Federal Reserve Agent at New York will say:

This bank's index for April of the sales of 163 wholesale dealers in 11 principal lines, corrected for seasonal variation and price changes, was for the second month 3% below normal, as determined by the trend of past years.

The chief increases in sales in April over corresponding figures for April last year occurred in women's coats and suits, and shoes. There were increases, however, also in the sales of men's clothing, silk goods, stationery and drugs, while sales of groceries were equal to those of the year previous. Hardware sales, on the other hand, after showing increases over the year previous for many months, were 4% below those of last April. Cotton goods sales continued slow, while lessened activity in metal working industries was reflected in a larger reduction in machine tool sales.

Comparisons between April sales for the past five years appear in the following table:

Commodity—	*Dollar Value of April Sales (April 1923 = 100%.)*				
	1920	1921	1922	1923	1924
Shoes	196	108	86	100	126
Drugs	87	83	87	100	112

Increase in Chain Store Sales in Federal Reserve District of New York During April.

The following item regarding chain store sales will appear in the June 1 issue of the "Monthly Review of Credit and Business Conditions" by the Federal Reserve Agent at New York:

Late Eastern buying was probably largely responsible for an increase of 2.4% in the sales of all types of chain stores in April, as compared with April a year ago, compared with a decrease of 2% in March. There was also a large increase in the sales per store of shoe, candy and ten-cent stores, but sales per store of groceries and drugs declined. Allowing for seasonal variations and price changes, this bank's index of chain store trade was 3% below the computed trend, compared with 4% below in March.

Chain store sales in April of each year from 1920 to 1924, expressed as percentages, of April 1923 are shown in the following table:

—Number of— Stores.	*—Dollar Value in Percentages—*							*Per Cen Change in Sales per Store*
Type of Store—	*April 1923*	*April 1924*	*April 1920*	*April 1921*	*April 1922*	*April 1923*	*April 1924*	*Apr.'23 to Apr.'24.*
Shoes	299	360	111	112	123	100	146	+21.3

Federal Reserve Board's Summary of Business Conditions in the United States—Decline in Factory Employment and Production of Basic Commodities.

"Factory employment and production of basic commodities declined in April, and there was a further recession in wholesale prices," the Federal Reserve Board states in its summary of general business and financial conditions throughout the Federal Reserve Districts, made public this week. The Board's statement continues:

Retail trade was larger than in March, chiefly because of Easter buying, and was at about the level of earlier months of the year. There was a decrease in the volume of borrowing for commercial purposes and further easing of money rates.

Production.

The Federal Reserve Board's index of production in basic industries, adjusted to allow for seasonal variations, declined 2% in April. Declines were particularly large in the iron and steel, coal, and woolen industries. Mill consumption of cotton, on the other hand, showed less than the usual seasonal reduction between March and April. Factory employment declined 2% in April, owing chiefly to large reduction of forces at textile and clothing establishments. Contract awards for new buildings reached a higher value than in March and were also larger than a year ago; value of building permits granted, however, declined and was smaller than in the corresponding month of 1923.

Department of Agriculture estimates on May 1 of the yield of winter wheat and rye are somewhat above the forecasts made in April. The acreage of winter wheat is estimated at 7% less than last year.

Trade.

Railroad shipments, which since the middle of March have been smaller than last year, were 3% less in April than a year ago. Shipments of coal were much below last year, while loadings of merchandise and miscellaneous freight were higher. Wholesale trade in April was in about the same volume as during the preceding month and as in April 1923. Sales of dry goods and hardware were smaller than a year ago, while sales of drugs and shoes showed some increases. Department store sales were considerably larger in April than in March, partly owing to the unusually late Easter; total sales for the two months were 2% greater than in the corresponding period of 1923. Merchandise stocks at department stores showed less than the usual seasonal increase in April, but were at a higher level than a year ago.

Prices.

Wholesale prices, according to the Bureau of Labor Statistics index, declined 1% during April and reached the lowest point since May 1922. Farm products, however, advanced 2% in April. Metals and foods showed substantial reductions; prices of clothing, fuel and chemicals also declined, while prices of building materials and house furnishings remained unchanged. During the first half of May quotations on cotton, wheat, flour and hogs increased, while prices of sugar, silk, wool, and metals declined.

Bank Credit.

During the five week period ending May 14, the volume of borrowing for commercial purposes at member banks in leading cities declined somewhat from the high level reached early in April. There were increases, however, in loans on stocks and bonds and in investments in securities; so that the total of all loans and investments at the middle of May was higher than a month previous, and in larger volume than at any time in more than three years.

Volume of borrowing by member banks at Federal Reserve banks declined further during the last week of April and in May, while holdings of securities bought in the open market increased slightly. Total earning assets declined to $795,000,000 on May 21, the lowest figure since the autumn of 1917.

Further easing of money conditions during the last week of April and the first three weeks of May was reflected in a continued rise of the prices of Government securities, in a reduction from 4½ to 4¼% in the rate for prime commercial paper, and a decline in the rate for bankers' acceptances from 4 to 3%. On May 1 the discount rate of the Federal Reserve Bank of New York was reduced from 4½ to 4%.

Chicago Federal Reserve Bank on Industrial Employment Conditions—A General Slowing Down.

Regarding industrial employment conditions, the "Monthly Business Conditions Report" of the Federal Reserve Bank of Chicago, to be issued June 1, will say:

There was a noticeable lack during April of the usual acceleration of activity within the manufacturing industries of the district. The reports indicate a slowing down in practically all industrial lines, but the curtailments are not large and outdoor work is amply able to absorb an extra supply of labor at this time. The situation is in strong contrast to conditions of a year ago when manufacturers were having difficulty in obtaining the necessary labor for their requirements and when there was a strong tendency toward making wage increases.

The returns received by the Illinois State Department of Labor, covering 300,000 industrial workers of that State, showed declines for April, amounting to 1.2% in men and 1.0% in earnings. For Wisconsin, as reported to its Industrial Commission by plants employing 83,000 men, the corresponding losses were 2.7% and 4.3%, respectively. In the States of Indiana, Iowa and Michigan, reports sent directly to this bank indicate a somewhat heavier curtailment, the average loss for approximately 30,000 men amounting to 3.7%. The combined figures for all of these States showed declines of 1.6% in men and 2.3% in the aggregate earnings.

Of the various industries represented in these returns, car construction furnishes the only noteworthy exception to the downward tendency. Stone, clay, and glass products also gained over the preceding month but the change was less pronounced. Metals and metal products as a whole showed a decrease of about 1% in both employment and earnings. The heaviest declines were experienced in the clothing and the leather industries.

EMPLOYMENT AND EARNINGS—SEVENTH FEDERAL RESERVE DISTRICT.

Industrial Group	*Number of Wage Earners Week Ended—* April 15.	March 15.	P. C. Change	*Total Earnings for Week Ended—* April 15.	March 15.	P. C. Change

Slight Increase in Crude Oil Production.

The weekly summary by the American Petroleum Institute shows an increase of 7,550 bbls. per day in the current crude oil production. The Institute estimates that the daily average gross crude oil production in the United States for the week ended May 24 was 1,980,200 bbls., as compared with 1,972,650 bbls. for the preceding week.

Compared with the corresponding week of 1923 the current production is smaller by 21,850 bbls. per day. The present daily average production east of the Rocky Mountains was 1,338,700 bbls., as compared with 1,332,950 bbls. the previous week, an increase of 5,750 bbls. California production was 641,500 bbls., as compared with 639,700 bbls., the previous week; Santa Fe Springs is reported at 70,000 bbls., against 72,000 bbls.; Long Beach at 170,000 bbls., against 169,000 bbls.; Huntington Beach at 49,000 bbls., against 50,000 bbls.; Torrance at 58,000 bbls., against 56,000 bbls., and Dominguez at 8,750 bbls., against 8,900 bbls. The following are estimates of daily average gross production for the weeks indicated:

DAILY AVERAGE PRODUCTION.

(In Barrels)—	*May* 24 '24.	*May* 17 '24.	*May* 10 '24.	*May* 26 '23.
Oklahoma	444,800	444,450	430,400	493,200
Kansas	71,850	70,950	69,950	82,500

California	641,500	639,700	643,900	710,000
Total	1,980,200	1,972,650	1,959,350	2,002,050

Decline in Earnings of Factory Workers in New York State During April.

Twenty-seven dollars and seventy cents was the average weekly pay of New York State factory workers in April. Industrial Commissioner Bernard L. Shientag of the State Labor Department, who made this statement, under date of May 26, remarked that this was a decline of 46 cents from the general average reported in March. "This reduction in actual weekly earnings," he said, "stands even after a decrease of over 3% in factory employment which meant that many part-time workers and a relatively large number of the less skilled employees were off the payrolls entirely." The statement issued by Mr. Shientag continues:

Payrolls in the manufacturing industries of this State were smaller in April than in any month since February 1923, although April is usually a peak month for many industries. By cutting down both the number of workers and their working time manufacturers have lowered their payrolls 5% as compared either with those of March or those of April a year ago. A consistent decline is noticeable in payrolls reported by the apparel and textile trades, men's and women's clothing, knit goods, silks, woolens and worsteds, carpets and leather. Declines of more than 10% also occurred in automobiles, hardware, glass, cutlery and tools and in stoves. The principal payroll increases came in brick yards and lumber mills.

April reports from the United States Bureau of Labor Statistics indicate a drop of about 2% in retail food prices. "This gradual drop in prices," said Commissioner Shientag, "will be of some help to workers whose earnings are now reduced, but it will appear rather small to those who are altogether unemployed because of the present decline in industry."

A year ago at this time this office was able to report that about 10% of the factory workers in the State had received increases in the basic wage rate in April. Increases granted this year affected less than 1% of the factory workers and almost all of those were in the building supply industries.

Returns from New York City indicate that the average earnings of women fell off more rapidly than those of men. This results from the seasonal trades in which most of the women here are engaged. The average for women in New York City in April was $19 76, as compared with $32 84 for men in the same district. The average was $15 09 for women in the up-State industries. Men up-State averaged $30 64 in April. It will be noticed that the difference between earnings up-State and in New York City is much greater in the case of women than it is of men.

Because of the large totals still reported from the machinery and electrical apparatus plants in the Capitol District and the instrument and optical goods factories in Rochester, payrolls in both of these areas were as large in April as they were a year ago. In Syracuse payrolls in the automobile plants fell off 20% in April, and this city now shows a loss as compared with the figures for a similar period last year.

The metal industries in Buffalo do not afford the favorable comparison with last year that is apparent in the Capitol District. Both the metal and the chemical plants show a loss compared with 1923 ranging from 8 to 10% of last year's payroll.

In Utica also a sharp drop in April payrolls brings the level somewhat below that of a year ago, but the comparison in the metal industry is not as unfavorable as in the textile industries where there is a difference of 10% between the two years. That Binghamton payrolls are low at this time is due principally to a considerable reduction in the shoe plants in that section.

The following tables are furnished by Mr. Shientag:

AVERAGE WEEKLY EARNINGS.

Industry—	*Total State* April 1924.	March 1924.	April 1923.	*Men* April 1924.	*Women* April 1924.
Stone, clay and glass products	$29 10	$28 82	$27 40	$31 50	$15 04

* Decrease of less than 0.05.

Railway Revenue Tonnage Increasing Again, but Continues Much Below that of 1923.

Cars loaded with revenue freight during the week which ended on May 17 totaled 913,407, according to reports filed on May 27 by the carriers with the Car Service Division of the American Railway Association. This was an increase of 4,220 cars compared with the preceding week, but a decrease of 78,912 cars under the corresponding week last year. Compared with the corresponding week in 1922, when freight shipments were somewhat reduced due to the miners' strike then in effect, it was an increase of 132,454 cars. Further comparisons are as follows:

Grain and grain products loading totaled 37,311 cars, a decrease under the week before of 4,174 cars but an increase of 3,509 cars over the same week in 1923. Compared with the same week in 1922, it was a decrease of 5,383 cars. In the Western districts alone, 21,875 cars were loaded, an increase of 2,522 cars over the corresponding week last year.

Live stock loading totaled 30,031 cars, a decrease of 2,323 cars under the week before and 676 cars under the same week last year, but 1,577 cars above the same week two years ago. Live stock loading in the Western districts amounted to 22,946 cars, an increase of 578 cars over the corresponding week last year.

Coal loading totaled 135,650 cars, 396 cars less than the preceding week and 45,969 cars under the corresponding week one year ago, but due to the miners' strike it was an increase of 54,194 cars over the same week in 1922.

Ore loading totaled 55,383 cars. While this was an increase of 10,160 cars over the preceding week, it was a decrease of 11,671 cars under the same week last year, but an increase of 38,752 cars over the corresponding week two years ago.

Loading of merchandise and less than carload-lot freight for the week of May 17 amounted to 247,355 cars, a decrease of 2,068 cars under the week before, but 2,632 cars above the same week last year and 4,002 cars above the same week two years ago.

Miscellaneous freight loading totaled 324,611 cars. While this was an increase of 2,448 cars over the week before, it was a decrease of 16,726 cars under the same week last year. Compared with the same week in 1922, it was an increase of 26,729 cars.

Forest products loading totaled 73,997 cars, 514 above the week before but 3,719 cars under the corresponding week in 1923. This was, however, an increase of 12,823 cars over the corresponding week in 1922.

Coke loading totaled 9,069 cars, 59 above the week before but 6,292 cars under last year and 240 cars under two years ago.

Compared by districts, increases over the week before in the total loading of all commodities were reported in the Eastern Southern, Northwestern, Central Western and Southwestern districts with decreases in the Allegheny and Pocahontas. The Southwestern district was the only one, however, to report increases over the corresponding period last year, but all districts reported increases over the corresponding period in 1922 except the Pocahontas.

Loading of revenue freight this year compared with the two previous years follows:

	1924.	1923.	1922.
Four weeks of January	3,362,136	3,373,965	2,785,119
Four weeks of February	3,617,432	3,361,590	3,027,886
Five weeks of March	4,607,706	4,581,176	4,088,132
Four weeks of April	3,499,210	3,764,266	2,863,416
Week ended May 3	914,040	961,617	747,200
Week ended May 10	909,187	974,741	767,094
Week ended May 17	913,407	992,319	780,953
Total	17,823,118	18,009,683	15,059,800

Crude Oil Market Unchanged—Few Gasoline Price Changes.

No important developments in the price of crude oil occurred during the current week and the gasoline market showed little change. It is expected that the reductions in price which have lately taken place will be cancelled as soon as the spring and summer demand for gasoline warrants such action.

Regarding the price cut by the Standard Oil Co. of Indiana, mentioned last week, page 2502, the Chicago "Journal of Commerce," on May 24, said:

The filling station price of gasoline in Chicago and immediate suburbs was reduced 1 cent to 19 cents a gallon May 23 by the Standard Oil Co. of Indiana. The tank wagon price was left at 18 cents, while the price for 100 gallon lots was reduced to 15¼ cents. The reduction was met at once by other oil companies.

The reduction is a result of a recent cut in quantity prices by smaller companies, seeking to increase their sales.

It is expected by the trade that the reductions will be replaced as soon as demand is stimulated by spring weather.

Recently the quotations made by various companies were:

Standard, station price, 20 cents; tankwagon price, 18 cents; Texas Co., station price, 19 cents; tank wagon price, 18 cents; Roxana Petroleum Corporation, station price, 19 cents; tank wagon price, 18 cents; Sinclair Refining Co., station price, 20 cents, tank wagon price, 18 cents.

All companies have had a quantity price of 16 cents for deliveries of 100 to 199 gallons and 15½ cents for deliveries of 200 gallons or more, except the Texas Co., which quoted 15¼ cents on any quantity sold from a tank wagon.

On May 24th the Northwestern Pennsylvania refiners reduced the price of motor gasoline ½ cent a gallon to 12½ cents.

The Standard Oil of New Jersey advanced tank wagon price of gasoline in Washington, D. C., from 19 cents to 21 cents on account of 2 cents gasoline tax which became effective May 23 through an act of Congress.

Decline in Steel Production Continues—Pig Iron Price Falls.

The month just ending has seen an uninterrupted decline in the rate of steel production and in the volume of new business going to the mills. In the past week, as in the week preceding, the falling off in output and in orders was much less pronounced than in the first half of the month; at the same time there is a lessening expectation of an early change in conditions, observes the "Iron Age" on May 29. The number of important producers of steel operating on a 50% basis is larger this week, and steel ingot production for May will be further reduced by general shut-downs for the May 30 holiday and on Saturday following, states the report of the "Age," which adds:

There is more general recognition of a downward trend in steel consumption that has been obscured thus far by the rapid readjustments at the mills. But shipments to consumers in March and April were at a notably high rate without causing undue accumulations in second hands, so that the continuance of production at close to the present rate seems better assured.

The announced policy of the leading interest in maintaining wages and the expressions from independent companies to the same effect are construed as favorable to the holding of prices at not far from to-day's level. Yet uncertainty as to prices is plainly limiting new buying, and the few changes of the past week have been downward.

The extreme concessions made on any unusual business is seen in the taking of the 3,500 tons of plates for 100 locomotives to be built at Richmond, Va., at less than 1.90c., Pittsburgh basis. The order went to the Central West. In the East some plates have gone at 2c., though Pittsburgh district mills commonly hold to 2.15c.

The Chesapeake & Ohio RR. is inquiring for 11,000 tons of plates, shapes and bars for 1,000 freight cars to be built for that road by the Newport News Shipbuilding & Dry Dock Co. Material for several thousand other cars ordered by the C. & O. was bought direct by the car builders from Chicago mills.

Structural steel awards have shown a marked falling off, the week's total being about 15,000 tons, while new work also amounts to 15,000 tons.

Sheet mill operations in May have averaged slightly over 50% and independent companies have done rather better in output than the Steel Corp. in the past two weeks.

A company having merchant blast furnaces in western Pennsylvania and on the Lake front reports sales of various grades of pig iron amounting to 90,000 tons; otherwise pig iron in nearly all centres is extremely quiet, with a tendency toward lower prices. Southern Ohio iron has declined $1, concessions are being made in eastern Pennsylvania and Northern iron is being sold at St. Louis on a basis of $22, Chicago.

Circumstantial reports of large sales of Buffalo iron to an important foundry interest have had wide currency, but are strangely without confirmation.

While wage reductions are not considered imminent at iron and steel works, some of the large independent coal and coke companies in the Connellsville district have announced lower wages in line with those lately put in effect at smaller operations. The Nov. 10 1917 scale is thus restored, the average cut being 33 1-3%. No reduction has been made as yet by the H. C. Frick Coke Co., the Steel Corporation's subsidiary. Acceptance of the lower wage is general, as work paying as much as mining and coke making is not easily obtainable.

New business in cast iron pipe is in lessening volume and prices are more flexible, concessions of $1 a ton being more common. Pipe makers say that even if but half the bond issues now proposed by municipalities result in purchases there would be a good scale of plant operations.

Several grades of scrap consumed in eastern Pennsylvania have advanced 50c. a ton or more in the past few days, due to slightly improved demand, but there is no disposition to generalize on this departure from the general price trend.

In Germany the Krupp plants are curtailing operations drastically. Some of the Thyssen blast furnaces have been shut down. The Phoenix Company has discharged its 12,000 employees, and the Dortmund Union is closing completely. Other producers contemplate like steps. French authorities, meanwhile, are moving to insure the maintenance of coke supplies to France and have commandeered surface fuel stocks.

Another drop in foundry pig iron brings the "Iron Age" pig iron composite price to $20 98, the lowest point in six months, and comparing with $28 79 one year ago.

Weakness in bars and beams has brought the "Iron Age" finished steel composite price to 2.624c. per lb., the lowest figure in more than 15 months. It was 2.789c. one year ago.

The usual composite price table appears as follows:

Composite Price, May 27 1924, Finished Steel, 2.624c. per Lb.

Based on prices of steel bars, beams, tank plates, plain wire, open-hearth rails, black pipe and black sheets, constituting 88% of the U. S. output	May 20 1924,	2.639c.
	April 29 1924,	2.653c.
	May 28 1923,	2.789c.
	10-year pre-war average	1.689c.

Composite Price, May 27 1924, Pig Iron, $20 98 per Gross Ton.

Based on average of basic and foundry irons, the basic being Valley quotation, the foundry an average of Chicago, Philadelphia and Birmingham	May 20 1924,	$21.04
	April 29 1924,	21.88
	May 28 1923,	28.79
	10-year pre-war average,	15.72

A more optimistic view of market conditions seems to be held by the "Iron Trade Review" of Cleveland, which on May 29 declared that developments in the past few days have crystallized the belief that the low point in iron and steel market activity either has been reached or is near at hand. Pig iron buying has been resumed on an encouraging basis, and while the revival of demand for finished steel is not pronounced, the volume and character of inquiries have produced an unmistakable improvement in sentiment. The "Review" adds further:

In spite of the fact most mills and furnaces are operating on what practically amounts to a jobbing basis, the rate of production is holding its own. The slight loss in ingot capacity reported in the Youngstown district is more than balanced by slight gains in Pittsburgh and Chicago steelworks. The average rate of steelmaking for the industry is still in excess of 60% of capacity.

The heavy buying of pig iron generally is interpreted as an indication that large consumers believe the bottom has been reached in pig iron prices. That this feeling also is shared in the finished steel market is evidenced by the resistance to further cutting reflected in current transactions. While shading is being done on some finished products, the tendency among many producers is to adhere more closely to the established prices. In the case of a number of mills it is doubtful whether outstanding low quotations will continue in force much longer.

Requirements for railroad bridges and construction work mark an otherwise inactive structural steel market. Inquiries for 1,300 tons for a bridge for the Central of New Jersey RR. and 1,000 tons for a Chesapeake & Ohio bridge are before fabricators. An award of 3,800 tons for a building for a Chicago printing company has been made. An Illinois builder has received a contract for 220 cars for the Florida East Coast RR. It is evident that car awards for May will fall considerably below the record of April. The Bethlehem Steel Co. has booked 50,000 boxes of tin plate for the Nippon Oil Co. of Japan.

"Iron Trade Review" composite of 14 leading iron and steel products this week again reflects the further concessions in the prices of pig iron, the figure being $41 14 as compared with $41 22 last week. The average for May is $41 38, which is in sharp contrast with the $47 52 level recorded in the corresponding month a year ago.

Iron buying has been resumed on a large scale, transactions during the past few days totaling well over 100,000 tons. The American Radiator Co. is reported to have purchased 60,000 tons, the United States Cast Iron Pipe Co. bought 25,000 tons, the American Brake Shoe & Foundry Co. 7,000 tons and the Ingersoll-Rand Co. 4,800 tons. Smaller sales mount up to a fair tonnage. The volume of inquiry is encouraging, numerous consumers being in the market for lots ranging from several hundred up to 5,000 tons. This buying has been attended by a further softening in iron prices. The range for Buffalo iron now is $19 50 to $20, and reductions of 50 cents have been made in quotations in some of the other markets. Most of the week's purchases have involved foundry iron, but inquiry on steelmaking grades has appeared in several markets. Consumers' stocks are low. In Buffalo only 11 blast furnaces are active. This is the lowest rate of operations in that district since the depression in 1922.

Interest in wages is centred on the negotiations with the Amalgamated Association of Iron, Steel and Tin Workers, who have demanded advances averaging 25%, and on the Connellsville coke region, where wage reductions amounting to from 20 to 33 1-3% put in effect by two cokemakers undoubtedly will be adopted by other producers between now and July 1. Imports of iron and steel products into the United States in April amounted to 50,994 tons, the highest monthly tonnage recorded since July 1923. Exports in April totaled 134,627 tons, as compared with 120,596 tons in March 1924 and 179,159 tons in April 1923. The sale of European products to American consumers continues, the French correspondent of "Iron Trade Review" reporting that the Pont-a-Mousson works has disposed of 3,000 tons of cast iron pipe to a New Jersey public service corporation. Several thousand tons of hematite iron have been sold to American buyers.

Strike of Structural Steel Workers Broken.

The strike of structural iron workers in New York City has been broken, as far as the employers are concerned, according to a statement on May 23 by R. B. Thomas, Executive Secretary of the Iron League of New York, with offices at 101 Park Ave. Mr. Thomas said that work on 60% of the buildings, which was suspended May 1, when the strike was called by the International Association of Bridge, Structural & Iron Workers, had now been resumed. He admitted, however, that it was proceeding with undermanned crews. Between 1,200 and 1,300 members of he union went on strike, according to Mr. Thomas, when their demands for a closed shop and for a wage increase of from $10 50 to $12 a day were rejected. Between 400 and 500 men were at work on May 23, Mr. Thomas said. About 30 came in during the day from Pittsburgh, Cleveland and Detroit. Those who are applying for jobs, he said, are both union and non-union workers. Mr. Thomas also said:

Many false stories are being circulated in the building trade to the effect that the Iron League is dealing with representatives of the union. We have not done so, nor have we any intention of doing so.

The strenuous and partly successful efforts of the iron workers to induce the engineers to violate their contract and bring about violations also of the contracts in other trades through sympathetic strikes, shows the typical attitude of the iron workers' union toward the obligation of a contract. This same union is at present on general strike in Newark and Jersey City in violation of solemnly executed trade agreements with employers.

Many of our old men are back at work. Hundreds have come in form other cities where men are plentiful.

Wage Increase Granted to Iron Workers by One Firm in Newark, N. J.

The structural iron workers, who went on strike May 1, halting construction of scores of buildings in New York and New Jersey, agreed to return to work on May 27 in a "treaty" negotiated between the Public Service Production Co. and Patrick Sweeney, representing the iron workers' union in Newark, N. J. A statement issued later by Nathan A. Carle, for Public Service, said that in view of the necessity for pushing to completion "certain vital projects," the wage demands of the iron workers—$12 per day—had been granted. The agreement between the union and the Public Service Production Co. marked the first break in the ranks of employers—the Iron League and General Contractors' Association. The principal reason for the agreement, Carle said, was that work on the construction of a super power plant on the Meadows at Kearny has been halted, though the plant has become a vital necessity to the operation of industry in northern New Jersey.

Manufactures and Shipments of Steel Barrels Both Increase in April—Unfilled Orders Slightly Larger.

The Department of Commerce on May 28 announced the following statistics on steel barrels, including production, shipments, unfilled orders, stocks, and number of establishments reporting, for April 1924, with comparative figures, by months, based on reports received from 29 establishments operating 34 plants. The number manufactured in April was 416,628, against 394,478 in March, 370,966 in February and 307,189 in January.

PRODUCTION, SHIPMENTS, STOCKS, AND UNFILLED ORDERS.

Month.	*Establishments Reporting*	*On hand First of Month.*	*Manufactured During Month*	*Shipped During Month.*	*On hand End of Month.*	*Unfilled Orders end of Month.*
	(*Number*)	(*Barrels*)	(*Barrels*)	(*Barrels*)	(*Barrels*)	(*Barrels*)
January	29	45,588	307,189	303,668	49,109	615,485
February	29	49,109	370,966	362,725	57,350	608,660
March	29	57,350	394,478	394,756	57,072	601,663
April	29	57,072	416,628	420,129	53,571	614,102

Steel Furniture Shipments.

The Department of Commerce on May 26 reported April shipments of steel furniture stock goods, based on reports received from 22 manufacturers. Shipments amounted to $1,658,610 in April as against $1,661,303 in March and $1,520,286 in April 1923. The following table gives comparative figures since the beginning of 1922:

	1922.	1923.	1924.
January	$983,834	$1,362,470	$1,592,338
February	967,125	1,307,173	1,605,409
March	1,087,228	1,709,206	1,661,303
April	1,058,382	1,520,286	1,658,610
May	1,056,735	1,506,072	---
June	1,015,463	1,401,950	---

October	1,227,447	1,365,600	---
November	1,204,310	1,339,425	---
December	1,376,152	1,455,836	---

Coke Workers Accept Wage Cut—Back to 1917 Scale.

After being out on strike two days following the reduction of 33 1-3% at Gray's Landing and Misterling Works, Pa., of the Consolidated Coke Co., the employees returned to work at the reduced wage. It was the first strike of the year

in the coke region because of a wage reduction, although various companies have made similar cuts. Decision to return brings back the 1917 wage scale. General reductions by other concerns of from 20 to 33 1-3% are expected.

Advance Report on Iron Foundry Operations in Federal Reserve District of Philadelphia for April 1924.

The Federal Reserve Bank of Philadelphia says:

In our second month's survey of the iron foundry industry in the Third Federal Reserve District we have received reports from 50 establishments. The accompanying table shows the totals for the months of March and April in the principal operating items for 37 identical establishments with a monthly capacity of 14,945 tons. Comparisons for a larger number of foundries will be shown in the next issue of "The Business Review."

It is interesting to note that in spite of the many indications of declining activity in other industries, the production of castings by reporting foundries showed a marked increase in April as compared with March. In the latter month the foundries were operating at only 44% of capacity but in April the rate advanced to 48%. Output of malleable castings fell off considerably, but production of grey iron castings for sale was 3.8% larger, and for further manufacture was 58.4% larger, than in the previous month.

The tonnage of castings shipped during the month and of unfilled orders on the books at the end of the month was also greater than in March, though the dollar value of these items was somewhat less. The average value of grey iron castings shipped during April, by 23 plants manufacturing this product exclusively, was $141 per ton, as compared with $144 per ton in March. The shipments and unfilled orders shown in the table include both malleable and grey iron castings.

Stocks of pig iron and scrap held by reporting foundries on the last day of April amounted to 10,700 tons, or sufficient for less than one month's operations at capacity. It is notable that raw stock on hand was nearly 12% less on that date than it was a month previous.

IRON FOUNDRY OPERATIONS THIRD FEDERAL RESERVE DISTRICT.

	March.	*April.*	*Change.*
Capacity of furnaces	14,945 tons	14,945 tons	----
Production of castings	6,503 tons	7,203 tons	+10.8%
Malleable iron	1,235 tons	824 tons	—33.3%
Grey iron	5,268 tons	6,379 tons	+21.1%
Jobbing	3,598 tons	3,734 tons	+3.8%
For further manufacture	1,670 tons	2,645 tons	+58.4%
Shipments of castings	3,969 tons	3,988 tons	+0.5%
Value of shipments	$574,045	$657,210	—2.5%
Unfilled orders	2,937 tons	3,075 tons	+2.9%
Value of unfilled orders	$581,962	$573,723	—1.4%
Raw stock	11,816 tons	10,700 tons	—9.4%
Pig iron	8,865 tons	7,806 tons	—11.9%
Scrap	2,951 tons	2,894 tons	—1.9%

Advance Report on Steel Foundry Operations in Philadelphia Federal Reserve District for April 1924.

Regarding its survey of steel foundry operations, the Federal Reserve Bank of Philadelphia, under date of May 26, says:

In our first month's survey of the steel foundry industry, returns were received from five important manufacturers in the Third Federal Reserve District. These returns, which cover operations for one month only, are shown in the accompanying table. In the future a similar tabulation will be published giving comparisons from month to month in the activity of identical plants.

The foundries included in the survey reported furnaces with a steel-making capacity of 4,150 tons per month. Production during the month amounted to 2,356 tons or 57% of the capacity output. Shipments were 2,189 tons, or 92% of the output. The average value of shipments was $216 per ton, and of unfilled orders, $165 per ton. Stocks of pig iron and scrap on April 30 amounted to 8,480 tons, or sufficient for slightly over two months' capacity operations.

STEEL FOUNDRY OPERATIONS THIRD FEDERAL RESERVE DISTRICT. APRIL 1924.

Capacity of steel furnaces	4,150 tons
Production of steel castings	2,356 tons
Shipments	2,189 tons
Value of shipments	$473,855
Unfilled orders	4,118 tons
Value of unfilled orders	$680,125
Raw stock—Pig iron	2,108 tons
Scrap	6,372 tons
Coke	596 tons

Federal Reserve Bank of Philadelphia.

Slight Improvement in Some Sections of Bituminous Market—Anthracite Demand is Fairly Active.

While the chief hopes of the bituminous market still lie in future developments, spotty indications of present improvement serve to cheer some sections of the trade, observes the current market review issued by the "Coal Trade Journal" on May 28. The trouble with these minor gains, however, continues the summary, is that they are generally offset by losses in other directions. The weather pickup in Middle Western bituminous demand, for example, has been robbed of its beneficial effects by a slump in fine coal. So, too, the advantage accruing to smokeless operators in advancing June contract figures on lump and egg vanishes when current quotations on spot slack are reviewed. Further extracts from the "Journal" are appended hereto:

Of the immediate developments to be placed on the credit side of the ledger, the gradual, if extremely modest, expansion in production the past fortnight is the most substantial. But even here the benefits are unevenly distributed, for union operators insist that the greater part of the increase has fallen to their nonunion competitors. And probably the most distressing feature of these recent increases is that they fail to reflect lake movement, which for the week ended at 7 a. m. May 19, totaled 572,762 tons. In other words, this movement has been offset by losses in other directions.

The price situation shows only minor changes with the passing weeks. Quotations for the week ended last Saturday, as compared with the preceding week, revealed changes in only 23.5% of the figures. Of these changes, 69.2% represented reductions ranging from 5 to 40c. and averaging 15.9c. per ton. The advances ranged from 5 to 30c. and averaged 17.1c. Western screenings and eastern slack suffered in the price changes and western Kentucky, despite a strike, found the going hard. The straight average minimum on the coals quoted below was $1 87; the average maximum, $2 20. A year ago the averages were $2 22 and $2 64, respectively.

Weekly anthracite production continues to be under the 1923 figures. Calendar year output to May 17 was almost 4,500,000 net tons less than the total for the corresponding period last year. The current rate of production, however, compares favorably with that of earlier years and market conditions surrounding the domestic sizes may be described as fairly active. Even pea seems to be in better shape, but the slow lake movement is undermining nut. No. 1 buckwheat is the laggard in the steam sizes.

Visible evidence of a revival is still lacking, declares the "Coal Age" weekly review of May 29. If the prophesied upturn bears any relation in size and strength to the so-called breathing spell preceding its inception it ought to be a sizable movement, for except during a labor disturbance the present period of depression surpasses anything of the kind in recent years in the coal trade. Save for a few temporary spurts due to cool weather the prolonged condition of dormance in the markets continues unabated, adds the "Coal Age," giving further facts which appear herewith:

Running time at the mines shows no appreciable improvement anywhere, production in the southern Ohio field—an extreme example—holding around 10% of capacity. Shipments to tidewater continue to shrink and the demand for lake tonnage is lagging considerably behind that of last year at this time. One of the few bright spots in the trade during April, the export movement at Baltimore, has practically faded out of the picture. May began auspiciously, but after the 2d there was a lapse of seven days before the next cargo cleared, and since the 12th the bottom of the export trade apparently has dropped out completely.

The Navy Department's call for bids on supplying 330,000 gross tons of steaming coal for ships and 438,600 tons of coal for navy yards and other shore stations brought out the keenest kind of competition. Nearly one hundred companies submitted tenders, most of them making offers on a number of schedules. The award of contracts, which is expected to take place this week, may provide the needed impetus to start the market in motion.

"Coal Age" index of spot prices of bituminous coal declined 3 points during the week ended May 26, registering 167, the corresponding price being $2 02. This compares with $2 05 at the close of each of the three preceding weeks.

Dumpings at Hampton Roads for all account during the week ended May 22 totaled 241,490 net tons, as compared with 261,732 tons dumped during the preceding week. Coal dumped at Lake Erie ports during the week ended May 24, according to the "Ore & Coal Exchange," were as follows: Cargo, 529,883 net tons; fuel, 35,478 tons. The totals for the previous week were 523,499 tons of cargo coal and 35,697 tons of fuel coal.

Intermittent labor troubles at large company operations have made it difficult for dealers to obtain as much company anthracite as they desire, with the result that the demand for independent coal is strong and prices are holding firm. The call for stove is still notably strong, playing its part in the activity for egg and chestnut. Production is picking up, and the market is expected to ease up somewhat.

Analysis of Imports and Exports of the United States for April.

The Department of Commerce at Washington on May 28 issued its analysis of the foreign trade of the United States for the month of April and the ten months ending with April. This statement enables one to see how much of the merchandise imports and exports for 1924 and 1923 consisted of crude materials, and how much of manufactures and in what state, and how much of foodstuffs and whether crude or partly or wholly manufactured. The following is the report in full:

Groups.	*Month of April.*				*Ten Months Ended April.*			
	1923.		1924.		1923.		1924.	
	Value.	*Per Ct.*	*Value.*	*Per Ct.*	*Value.*	*Per Ct.*	*Value.*	*Per Ct.*

Leather Gloves and Mittens Cut During April 1924.

The Department of Commerce, on May 28, published the following statistics on leather gloves and mittens cut during the month of April 1924, according to reports received from 233 factories, 12 of which were idle. Since the last report, 3 factories included in prior reports have gone out of business. The factories included in this statement produced 97% of the total value of leather gloves and mittens at the census of manufactures, 1921. A comparative summary for 231 identical factories is also given for March and April.

TABLE I.—QUANTITY CUT DURING APRIL (DOZENS OF PAIRS).

Kind.	Grand Total.	Men's and Boys'.			Women's and Children's.

Activity of Machinery in Wool Manufactures During the Month of April 1924—Declining Operations.

The Department of Commerce on May 28 issued its report on active and idle wool machinery for April 1924, based on reports received from 907 manufacturers, operating 1,086 mills. These *do not* include the data for the Glastonbury Knitting Co., Glastonbury, Conn.; Farnsworth Mills, Inc., Central Village, Conn.; Camden Woolen Co., Camden, Me.; Merrimack Woolen Corp., Lowell, Mass.; North Billerica Co., North Billerica, Mass.; Northboro Woolen Co., Northboro, Mass.; Amoskeag Mfg. Co., Manchester, N. H.; Faulkner & Colony Mfg. Co., Keene, N. H.; Gera Mills, Passaic, N. J.; Adler Underwear & Hosiery Mfg. Co., Cincinnati, Ohio; John and James Dobson, Inc., Philadelphia, Pa.; Sheble & Kemp, Philadelphia, Pa.; Davisville Woolen Co., Davisville, R. I., or Merrill Woolen Mills, Merrill, Wis. Of the total number of looms wider than 50-inch reed space, 42,555, or 71.0%, were in operation for some part of the month of April 1924, and 17,354 were idle throughout the month. The active machine-hours reported for wide looms for the month of April formed 65.7% of the single-shift capacity, as compared with 71.4% for the month of March 1924 and 89.5% for April 1923. Of the total number of looms of 50-inch reed space or less covered by the reports for April 1924, 13,490, or 79.2%, were in operation at some time during the month and 3,553 were idle throughout the month. The active machine-hours for these looms represented 52.5% of the single-shift capacity, as against 66.3% in the preceding month and 83.7% in April 1923. The number of carpet and rug looms reported for April 1924 was 9,375 of which 6,887 or 73.5%, were in operation for some part of the month, and 2,488 were idle throughout the month. The active machine-hours reported for these looms represented 64.3% of the single-shift capacity of the looms, as compared with 72.7% in March 1924 and 82.5% in April 1923. Further particulars are as follows:

Spinning Spindles.

Of the total number of woolen spindles reported in April 1924, 1,885,017, or 82.2%, were in operation for some part of the month and 407,187 were idle throughout the month. The active woolen-spindle hours reported for this month represented 88.3% of the single-shift capacity, as compared with 92% in March 1924 and with 102% in April 1923.

The number of worsted spindles in operation during April 1924 was 1,861,526, or 71.9% of the total, and the number idle was 729,153. The active worsted-spindle hours were equal to 67.1% of the single-shift capacity. In March 1924 the active worsted-spindle hours represented 73.5% of the capacity and in April 1923 109.5%.

Cards and Combs.

Of the total number of sets of cards reported for April 1924, 5,857, or 84.3%, were in operation at some time during the month, while 1,090 were idle throughout the month. The active machine-hours for cards were equal to 90.9% of the single-shift capacity in April 1924, 98.9% in March 1924 and 127.3% in April 1923.

Of the combs reported for April 1924, 2,023, or 76.6%, were in operation for some part of the month, and 619 were idle during the month. The active machine hours for this month were equal to, 7.7% of the single-shift capacity, as compared with 90.6% in March 1924 and 119.8% in April 1923.

Detailed Report.

The accompanying table gives the total number of machines in operation some time during the month of April 1924 the number of idle for the whole month, the number reported on single shift and on double shift, the active and idle machine or spindle hours, the percentages active and idle and comparative figures for March 1924 and April 1923.

REPORT OF ACTIVE AND IDLE WOOL MACHINERY FOR APRIL 1924, WITH COMPARATIVE FIGURES FOR MARCH 1924 AND APRIL 1923

Summary of Reports of 907 Manufacturers, Operating 1,086 Mills.

a Overtime was reported sufficient to offset all idle hours and leave an excess of 401,418 hours, or 27.3%.

b Overtime was reported sufficient to offset all idle hours and leave an excess of 102,492 hours or 19.8%.
(*c*) Overtime was reported sufficient to offset all idle hours and leave an excess of 9,696,295 hours or 2.0%.
(*d*) Overtime was reported sufficient to offset all idle hours and leave an excess of 50,045,287 hours or 9.5%.

Coal Production Decreases Slightly—Coke Gains.

The weekly report on the production of bituminous coal, anthracite coal and beehive coke issued by the Department of the Interior, through the Geological Survey May 24 1924, shows that as compared with the preceding week the production of soft coal during the week ended May 17 fell off 114,000 tons and that of anthracite 29,000 tons. Extracts from the report follow:

The production of soft coal failed to maintain the entire gain of the preceding week, and declined slightly in the week ended May 17. The total output, including mine fuel, local sales and coal coked at the mines, is estimated at 7,074,000 net tons, a decrease of 114,000 tons. The average daily rate of output remained close to the lowest level touched during the period for which such records exist, except, of course, during the strikes of 1919 and 1922.

There is evidence that coal consumption is less now than in the last quarter of 1923, when coal was being burned and exported at a rate of about 10,200,000 tons per week. It is not probable, however, that it has fallen to such a low level as has production, and it follows that consumers are using up their stocks.

Preliminary telegraphic reports of loadings on Monday and Tuesday of the present week (May 19-24) show that the total was 946 cars less than on the corresponding days of the week before. This indicates the possibility that there will be no great change in the total output for the week.

Estimated United States Production of Bituminous Coal (Net Tons), Including Coal Coked.

	1924 Week.	1924 Cal. Year to Date.	1923 Week.	1923 Cal. Year to Date. c
May 3	6,832,000	169,161,000	10,061,000	187,097,000
Daily average	1,139,000	1,603,000	1,677,000	1,771,000
May 10 a	7,125,000	176,286,000	10,175,000	197,272,000
Daily average	1,188,000	1,581,000	1,696,000	1,767,000
May 17 b	7,074,000	183,360,000	10,270,000	207,542,000
Daily average	1,179,000	1,561,000	1,712,000	1,764,000

a Revised since last report. b Subject to revision. c Minus one day's production in January to equalize number of days in the two years.

Production of soft coal during the first 118 working days of the calendar year 1924 was 183,360,000 net tons. In the six preceding years it was as follows:

Years of Activity.		*Years of Depression.*	
1918	210,251,000 net tons	1919	164,110,000 net tons
1920	201,763,000 net tons	1921	152,129,000 net tons
1923	207,542,000 net tons	1922	161,591,000 net tons

Thus it is seen that from the viewpoint of soft coal production 1924 is 15% ahead of the years of depression and 11% behind the average of the years of industrial activity.

ANTHRACITE.

There was but little change in the production of anthracite in the week ended May 17, and it is now estimated that the total output was 1,895,000 net tons, against 1,924,000 tons in the week before.

This figure includes allowances for mine fuel, sales to the local trade and the product of dredges and washeries. The present rate of anthracite production is approximately 7% less than it was a year ago, but it compares favorably with that in other recent years.

Estimated United States Production of Anthracite (Net Tons).

	1924 Week.	1924 Cal. Year to Date.	1923 Week.	1923 Cal. Year to Date.
May 3	1,616,000	31,249,000	2,021,000	35,615,000
May 10	1,924,000	33,173,000	1,903,000	37,518,000
May 17	1,895,000	35,068,000	2,045,000	39,563,000

BEEHIVE COKE.

After seven weeks of steady decline, the production of beehive coke recovered slightly in the week ended May 17. The total output in that week is now estimated at 182,000 net tons, as against 178,000 tons in the preceding week. The principal improvement occurred in Pennsylvania and Ohio, where the recent curtailment was greatest. Production in the Southern group of States decreased from 19,000 to 13,000 tons. According to the Connellsville "Courier," production in the Connellsville region continued to decline slowly, the total output being 119,200 tons.

Estimated Production of Beehive Coke (Net Tons).

	Week Ended May 17 1924.a	Week Ended May 10 1924.b	Week Ended May 19 1923.	1924 to Date.	1923 to Date.c
Pennsylvania and Ohio	143,000	133,000	333,000	4,202,000	6,078,000
West Virginia	10,000	9,000	23,000	283,000	457,000
Ala., Ky., Tenn. & Ga.	13,000	19,000	22,000	400,000	464,000
Virginia	7,000	7,000	17,000	173,000	324,000
Colorado & New Mexico	5,000	5,000	9,000	107,000	157,000
Washington & Utah	4,000	5,000	7,000	83,000	104,000
United States total	182,000	178,000	411,000	5,248,000	7,584,000
Daily average	30,000	36,000	69,000	44,000	63,000

a Subject to revision. b Revised from last report. c Less one day's production in New Year's week to equalize the number of days covered for the two years.

Savings Accounts and Deposits in Federal Reserve District of Chicago.

The following is from the "Monthly Review" of the Federal Reserve Bank of Chicago, to be issued June 1:

The decline of 0.3% in the amount of savings deposits from April 1 to May 1, as reported by 206 banks in this district, marked a reversal of the upward trend which had been in evidence the two preceding months. The decrease was a reflection of the declines of 0.9 and 0.5% in Illinois and Iowa, respectively, as the other three States showed increases of 0.2% in Michigan, 0.4% in Wisconsin, and 1.0% in Indiana. All of the five States continued to show increases over a year ago, the aggregate gain amounting to 6.8%; the largest growth was in Michigan where an average increase of 11.4% was reported. Comparison with the 1920 average showed a district increase of 20.7%, Michigan, Illinois, and Iowa showing the greatest gains.

In contrast with the decline in the amount of savings deposits, between April 1 and May 1, there was a gain of 0.1% in the number of savings accounts; Illinois and Iowa, however, showed declines of 0.2 and 0.4%, respectively, while gains were reported for the other three States. There was an increase of 0.7% in the aggregate number of accounts reported for the district on May 1 compared with a year ago, but comparison with the 1920 average showed a decline of 2.5%.

Included in this compilation are the last figures reported by one Illinois bank and by three Iowa banks which were closed before May 1.

Current Events and Discussions

The Week with the Federal Reserve Banks.

The consolidated statement of condition of the Federal Reserve banks on May 28, made public by the Federal Reserve Board, and which deals with the results for the twelve Federal Reserve banks combined, shows an increase of $54,700,000 in earning assets during the week, holdings of discounted bills having increased by $15,000,000, holdings of bills bought in open market by $31,100,000 and holdings of United States Government securities by $8,600,000. Federal Reserve note circulation increased by $4,700,000 and total deposits by $12,100,000, while cash reserves declined by $25,700,000.

The Federal Reserve Bank of Cleveland reports the largest increase, $8,700,000, in holdings of bills discounted. An increase of $4,300,000 is reported by New York, of $4,100,000 by Boston and of $3,200,000 by Chicago; while Richmond and Atlanta report decreases of $4,000,000 and $5,000,000, respectively. The remaining banks show relatively small changes in their holdings. Paper secured by United States Government obligations increased by $14,900,000 to $164,600,000. Of the latter amount $116,800,000 was secured by Liberty and other United States bonds, $43,900,000 by Treasury notes and $3,900,000 by Treasury certificates. After noting these facts, the Federal Reserve Board proceeds as follows:

The Federal Reserve Bank of New York reports an increase of $35,100,000 in acceptances purchased in open market and the Boston Bank an increase of $400,000. All of the other Reserve banks report reductions in their holdings, amounting in the aggregate to $4,400,000. Holdings of Treasury notes and of certificates of indebtedness increased by $4,000,000 and $6,700,000, respectively, while holdings of United States bonds declined by $2,100,000.

Increases in Federal Reserve note circulation of $8,300,000 at the Philadelphia Bank, of $5,700,000 at Cleveland and of $2,200,000 at Boston were partly offset by decreases at the remaining Reserve banks, amounting to $11,500,000. The largest decrease in Federal Reserve note circulation, $4,300,000, was reported by the Chicago Bank. Gold reserves declined by $20,400,000 during the week, decreases of $30,000,000 at the New York Bank, of $10,600,000 at the Chicago Bank and of an aggregate of $4,700,000 at three other banks being offset in part by increases totaling $25,000,000 at the seven remaining banks. Reserves other than gold and non-reserve cash declined by $5,400,000 and $4,900,000, respectively.

The statement in full, in comparison with the preceding week and with the corresponding date last year, will be found on subsequent pages, namely pages 2676 and 2677. A summary of changes in the principal assets and liabilities of the Reserve banks during the week and the year ending May 28 1924 follows:

	Increase (+) or Decrease (—) During Week.	During Year.
Total reserves	—$25,700,000	+$18,800,000
Gold reserves	—20,400,000	+9,100,000
Total earning assets	+54,700,000	—328,000,000
Bills discounted, total	+15,000,000	—301,400,000
Secured by U. S. Government obligations	+15,000,000	—207,000,000
Other bills discounted		—94,400,000
Bills bought in open market	+31,100,000	—171,100,000
U. S. Government securities, total	+8,600,000	+144,000,000
Bonds	—2,100,000	—9,600,000
Treasury notes	+4,000,000	+120,700,000
Certificates of indebtedness	+6,700,000	+32,900,000
Federal Reserve notes in circulation	+4,700,000	—359,100,000
Total deposits	+12,100,000	+45,900,000
Members' reserve deposits	—5,200,000	+62,000,000
Government deposits	+21,300,000	—1,000,000
Other deposits	—4,000,000	—15,100,000

The Week with the Member Banks of the Federal Reserve System.

Aggregate decreases of $106,000,000 in loans and investments, of $93,000,000 in net demand deposits and of $65,000,000 in Government deposits are shown in the Federal Reserve Board's weekly consolidated statement of condition on May 21 of 749 *member* banks in leading cities. It should be noted that the figures for these *member* banks are always a week behind those of the Reserve banks themselves. Total loans and discounts declined by $75,000,000, loans on corporate securities declined by $11,000,000 and "all other," largely commercial, loans and discounts declined by $76,000,000, while loans on United States Government securities increased by $12,000,000. Investments in United States Government securities and investments in other bonds, stocks and securities show reductions of $14,000,000 and $17,000,000, respectively.

Member banks in New York City show a reduction of $1,000,000 in loans and discounts, increases of $11,000,000

in loans on United States Government securities and of $10,000,000 in loans on corporate securities being more than offset by a reduction of $22,000,000 in "all other" loans and discounts. As against an increase of $6,000,000 in holdings of Liberty bonds, holdings of Treasury notes and certificates of indebtedness show a decrease of $7,000,000 and holdings of corporate stocks and bonds a decrease of $21,000,000. Further comment regarding the changes shown by these *member* banks is as follows:

Of the total decrease of $93,000,000 in net demand deposits, $24,000,000 was reported for banks in the New York district, $18,000,000 for banks in the Chicago district, $10,000,000 each for banks in the Atlanta and San Francisco districts, and smaller decreases in most of the other districts. Time deposits of all reporting banks increased by $12,000,000, mostly outside of New York City. United States Government deposits declined $65,000,000 for all reporting members, of which $16,000,000 was reported by the New York City banks.

Reserve balances of all reporting institutions increased by $3,000,000, while cash in vault decreased by $6,000,000. The New York City banks show an increase of $10,000,000 in reserve balances and a reduction of $1,000,000 in cash.

Borrowings of all reporting members from the Federal Reserve banks declined from $178,000,000 to $174,000,000, and like borrowings of the New York City members declined from $20,000,000 to $18,000,000.

On a subsequent page—that is, on page 2677—we give the figures in full contained in this latest weekly return of the *member* banks of the Reserve System. In the following is furnished a summary of the changes in the principal items as compared with a week ago and with last year:

	Increase (+) or Decrease (—) During Week.	During Year.
Loans and discounts, total	—$75,000,000	+$88,000,000
Secured by U. S. Government obligations	+12,000,000	—31,000,000
Secured by stocks and bonds	—11,000,000	+74,000,000
All other	—76,000,000	+45,000,000
Investments, total	—31,000,000	—46,000,000
United States bonds	—2,000,000	+93,000,000
United States Treasury notes	—10,000,000	—350,000,000
United States certificates of indebtedness	—2,000,000	—38,000,000
Other bonds, stocks and securities	—17,000,000	+249,000,000
Reserve balances with Federal Reserve banks	+3,000,000	+21,000,000
Cash in vault	—6,000,000	—6,000,000
Net demand deposits	—93,000,000	+187,000,000
Time deposits	+12,000,000	+329,000,000
Government deposits	—65,000,000	—164,000,000
Total accommodation at Fed. Res. banks	—4,000,000	—262,000,000

Banquet in Honor of H. M. Robinson, One of the Americans on Committee of Experts on German Reparations—Messages from Charles G. Dawes and Owen D. Young.

Henry M. Robinson, one of the three American representatives on the two committees of experts appointed by the Reparations Commission to present a solution of the German reparations question, was tendered a dinner at the Ambassador Hotel, Los Angeles, on May 17, by more than 1,100 officers, directors, executive board members and senior employes of The First National Bank of Los Angeles, the Pacific-Southwest Trust & Savings Bank and the First Securities Co., of which financial institutions Mr. Robinson is the President. Telegrams read at the dinner from General Charles G. Dawes and Owen D. Young, the two other representatives on the Committees of Experts, paid high tribute to Mr. Robinson. Gen. Dawes stated that the Los Angeles banker had the unique opportunity of serving on both committees and this "resulted in the impress of his personality in a large degree upon both reports." In addition to stating that Mr. Robinson was the only man "who had the honor to sit on both committees," the telegram from Mr. Young declared: "If there is anything in the Central Bank plan which is good or bad, you have present with you the man who is responsible."

The Central Bank referred to, embodied in the proposals of the experts, would be created to enable Germany to finance the reparations payments required under the Treaty of Versailles and to restore sound and stable money and a balanced governmental budget in that nation. To assure these results the experts proposed a new bank of issue with a capital of 400,000,000 gold marks ($100,000,000) which will act as government banker but which will be free from government control. This bank would issue new notes redeemable in gold and secured by a 33 1-3% gold reserve. This would eventually be the only paper money circulating in Germany, as the new bank would as rapidly as possible, absorb or retire the rentenmarks and other paper money now in circulation.

Officers and employes of The First National—Pacific-Southwest Banking Group from Fresno to El Centro were present at the banquet. J. M. Elliott, Dean of California bankers, and Chairman of the board of directors of the First National Bank, welcomed his associates and turned the meeting over to Charles F. Stern, Executive Vice-President of the First National—Pacific-Southwest Banks, who acted as toastmaster. The Dawes and Young telegram, addressed to John E. Barber, Vice-President of the First National, who served as "confidential assistant" to Mr. Robinson in Paris during the sessions of the committees of experts, were read. They are as follows:

I have heard from Mr. Hurley that a dinner is to be given Mr. Robinson. I wish I could be with you. Mr. Robinson had a unique opportunity of service on both the first and second committees of experts. His high ability and wide technical knowledge made his work simply invaluable and resulted in the impress of his personality in a large degree upon both reports. He was a great constructive force in a work which I believe will lead to a bettered condition of the world. I wish you would give him my best regards.

(Signed) CHARLES G. DAWES.

I wish it were possible for me to attend the dinner to Henry Robinson on Saturday evening. I should like to testify to my long-standing and ever-increasing admiration and affection for him. He was the only man who had the honor to sit on both committees. If there is anything in the Central Bank plan which is good or bad, you have present with you the man who is responsible. Please give him and his admiring friends my warmest regards.

(Signed) OWEN D. YOUNG.

Five minute addresses were made by former Senator Frank P. Flint on behalf of the directors of the First National and by George R. Kingdon, Assistant Cashier, for the employes of that institution; by Maynard McFie representing the directors of the Pacific-Southwest Bank and by A. H. Thomas, Assistant Cashier, for its employes. Dr. M. J. Sweeney, Vice-President of the Pacific-Southwest, and Managing director of the Redlands branch, spoke for the branches of the Pacific-Southwest Bank outside of Los Angeles. In concluding his address Senator Flint paid a glowing tribute to Mr. Robinson, saying:

What is there about this man that has so impressed the President of the United States and his advisers and those who are in daily association with him on this board of directors? First, a conscientious student of whatever he undertakes. He masters the problems. Inclined to be timid as to his own views, and only reached a conclusion after conference with his associates. Modest, rather inclined to give others credit where he is entitled to it. The ability to adjust himself to the views of others without friction. Readiness to give everyone associated with him credit for their part in any undertaking. Gentle as a child and firm as a rock when necessity requires it. These coupled with a great brain, a constructive genius, have led him to make his mark on our little family, the board of directors; the nation and the world.

The speakers brought out that Mr. Robinson, in addition to his service with the committees of experts and with the Council of National Defense during the early part of the World War, was also a member of the United States Shipping Board, and a member of the Supreme Economic Council at the Versailles Peace Conference. He was Chairman of the Bituminous Coal Commission which settled the strike in 1919; Chairman of the War Finance Corporation District embracing southern California and Arizona; and was a member of President Harding's Unemployment Committee. He is Vice-President of the United States Chamber of Commerce in charge of the western division.

Belgium 7½s, 1945, Called at 115—Sinking Fund Will Purchase $2,300,000 for Redemption June 1—Bonds Selected by Lot.

The following is from the "Wall Street Journal" of May 22:

Trustees of the sinking fund of Belgium 7½% bonds, due in 1945, have called $2,300,000 of this issue for payment June 1 1924 at 115. Bonds to be paid have already been called by lot and numbers are available at offices of J. P. Morgan & Co. and Guaranty Trust Co.

These bonds were originally offered in June 1920 in amount of $50,000,000 at 97¼. Sinking fund provides for annual redemptions of sufficient bonds to retire the entire amount at 115 by maturity. The bonds have shown special activity lately on the New York Stock Exchange and on Wednesday reached a new high for the year at 103¼.

The holder of the bonds always has a chance to cash in at 115 and if not retired until maturity those purchased at current prices would yield about 7.50%.

Belgium is so closely allied with France that it shares the fortunes of that country in reparations and while its bonds are selling relatively higher than French Government bonds they are swayed marketwise by the same impulses.

Warns Rentenmark Limit Is Reached—Schacht Advises Germans to Curtail Home Consumption and Increase Exports.

From the New York "Times" we take the following copyright cablegram from Berlin May 25:

Germany cannot issue any more rentenmarks, declared Dr. Schacht, President of the Reichsbank, in a speech at Hamburg to-day wherein he vigorously defended his drastic financial policy against recent attacks.

The Reichsbank, he said, had provided the German Government with 1,200,000,000 rentenmarks and had only 300,000,000 left as a final reserve, which must be kept to meet any new emergencies further development of the present grave financial crisis in Germany might bring.

The best way to improve Germany's financial condition, Dr. Schacht advised, was for Germans to curtail home consumption and increase exports. "Credit money such as the rentenmark is not real capital," he said.

He also stated that the slogan for the Germans should be "To own is nothing; to earn is everything."

Only through the drastic measures adopted by the Reichsbank, he said, had the rentenmark been kept up to its present value.

In conclusion, Dr. Schacht said that Germany's fight for stabilization had won admiration abroad, strengthening the desire there to end international hatred and return to peaceful international work and trade. He also expressed the hope that Germany would not be deprived forever of her colonies, which she needs as an export outlet.

His speech aroused great enthusiasm among the members of the important Hansa Industrial and Trade Association before whom he spoke.

Germany—Revenues and Debt—Revenues Now Running in Excess of Expenditures.

Owing to the growing interest in the prospective German loan proposed by the Dawes's Committee of Experts, the following statistics prepared by the foreign department of Moody's Investors' Service should prove of interest:

Revenues of the German Government amounted for the month of April o the current year to 452,080,000 marks (gold), as compared with 526,800,000 for March, 340,100,000 for February, 440,700,000 for January and 185,300,000 for the period Nov. 16 1923 to Dec. 31 1923. Thus, revenues for the 6½ months ended April 30 1924 aggregated 1,944,980,000 marks (gold), while receipts for the first four months of the current year totalled 1,759,680,000 marks (gold), equivalent to $419,803,840. Of the total, 1,619,510,000 marks (gold) represented income from taxes, customs and dues, 136,970,000 administration receipts and 3,200,000 the proceeds from the sale of the gold loan.

Expenditure in April totalled 396,120,000 marks (gold), as compared with 393,000,000 in March, 357,800,000 in February, 316,500,000 in January, and 812,400,000 in the period Nov. 16 to Dec. 31 1923. Expenditure for the 6½ month-period ended April 30 1924 amounted to 2,275,820,000 marks (gold), while expenditure for the first four months of the current year aggregated 1,463,420,000 marks (gold), equivalent to $348,293,960. Of the total, 854,090,000 represented administration expenditure, 608,360,000 assignments to States and communes, and 700,000 expenses in connection with the Peace Treaty. It must be added that expenditures, as given above, are exclusive of sums spent in connection with the repurchase of the gold loan. For the first four months of this year such repurchases aggregated 415,530,000 marks (gold).

From the above it will be noted that in the first four months of this year, Germany showed an excess of revenue over expenditure of 296,260,000 marks (gold), equivalent to $71,569,880. If we add expenses on account of repurchased bonds, there will be shown a deficit of $27,386,260. If we take into account, however, that the funded debt of the Reich has been reduced by this amount, the result of the first four months of 1924 is most encouraging.

At the beginning of this month, the total German debt, both funded and floating, but exclusive of the paper debt of some 75,000,000,000,000,000 so-called K and E Treasury Bills (equivalent at the current rate of exchange to less than $18,000), aggregated 1,924,150,000 marks (gold) equivalent to $457,947,700, as compared with 2,281,500,000 marks (gold) or $542,997,000 at the end of last year. Of the total, 665,970,000 represented funded debt, composed of Dollar Treasury notes, 210,000,000 marks and the 6% loans of 1932 and 1935, aggregating 455,970,000 marks. Floating debt totalled 1,258,180,000, including non-interest-bearing debt to Rentenbank, 200,000,000 marks; interest-bearing debt to Rentenbank, 900,000,000; and Treasury notes (in rentenmarks), 158,180,000.

Trade Agreements Between France and Italy, Between Italy and Czechoslovakia and Between Austria and Great Britain.

Premier Mussolini of Italy and M. Barrere, the French Ambassador, on May 22 exchanged ratifications of the French-Italian trade agreement, which becomes operative immediately. This is the first trade treaty Italy has concluded on the basis of her new customs tariff, it is stated, and it is regarded as of prime importance, France now being Italy's best customer. Premier Mussolini reached an agreement also with Foreign Minister Benes of Czechoslovakia on a treaty of friendship between Czechoslovakia and Italy. The treaty contains no economic clauses, though economic questins were also discussed by M. Benes and Signor Mussolini. It is understood that these will be the object of separate negotiations and will take the form of additions to the existing commercial treaties between Italy and Czechoslovakia. They will deal largely with special conventions to increase the traffic of the port of Trieste. An Anglo-Austrian commercial treaty providing most favored nation treatment on the part of both countries was signed on May 22 by Prime Minister MacDonald and Baron C. K. Frankenstein, Austrian Minister to Great Britain.

Seek to Retire Brazil Coffee Loan of 1922.

The following is from the New York "Journal of Commerce" of May 27:

Owing to the financial success of the coffee valorization scheme of the Brazilian Government, bankers for the Government here are preparing to retire as much as possible of the £8,910,600 of 7½% bonds of the coffee security loan of 1922 outstanding. The issue matures in 1952, and is not callable as a whole until 1932, although it may be purchased in the open market and called at par and accrued interest to the extent of 1% of the whole issue annually.

Dillon, Read & Co. state that the proceeds of the sale of coffee by the Government since 1922 have exceeded expectations, and that a large sum was at the disposal of the bankers for redeeming the bonds as it becomes possible.

Official Statement on Economic and Industrial Conditions in Denmark During April 1924.

The National Bank of Copenhagen and the statistical department of the Danish Government have issued the following statement on econonic and industrial conditions in Denmark during the month of April 1924:

During April and the first part of May the Danish krone, compared to sterling, improved from 25.95 kroner per pound to 25.78, which rate was quoted May 7. Simultaneously, the value of the krone increased compared to the American dollar, the rate being 6.05 kroner per dollar in the first part of April but 5.89 on the 7th of May.

This stabilization of the value of the Danish krone was partly a result of the newly established Exchange Central's efforts to prevent trading in foreign exchange for merely speculative purposes, partly to the Danish National Bank's and the other banks' restrictions in granting loans, and the hope that the Danish Government in different ways will co-operate in the stabilization and a slow improvement of the value of the krone. The National Bank during the month of April only increased its loans with 3.8 million kroner from 463.4 to 467.2 million kroner, and the four principal banks of Copenhagen only with 5 million kroner (from 1,596 to 1,601 million kroner), for the same period. During April 1923 the National Bank's loans were practically unchanged, while loans given by the four principal Copenhagen banks increased from 1,637 to 1,666 million kroner.

The circulation of National Bank notes increased during April from 463 to 476 million (ultimo April 1923: 476 million kroner).

The average rate of exchange on sterling in April was 26.10 kroner per pound, while for the dollar the average rate was 6.02 kroner.

The improvement in the value of the Danish krone also influenced the index figure for stock exchange quotations which continued to decline. The index figure 1924 being fixed at 100 for January, was during April 93.8 for shares and 95.9 for bonds, while in March the figures were 96.1 and 97.1. The average weekly transaction in April on the Copenhagen Exchange was for shares 3.5 million kroner, for bonds 4.0 million kroner. The wholesale price index decreased from 228 to 225 during April, mostly due to the improved value of the krone.

Denmark's foreign trade balance, compared to 1923, showed continued improvement. In March 1924 the imports totaled 195 million kroner, the exports 172 million kroner, import surplus 23 million kroner, against 31 million kroner in March 1923. In January, February and March the import surplus thus amounted to 42 million kroner compared to 102 million kroner in January, February and March 1923. 18 million kroners' worth of live stock, 38 million kroner of pork and meat products, 54 million kroner of butter, milk and cheese and 17 million of eggs and lards were exported from Denmark during March 1924. Taken as a whole, agricultural products were exported in increasing quantities during April 1924. The average weekly exports of butter were 2,444,600 kilograms (March, 2,288,200 kilograms), eggs 21,258,000 (March 16,018,000), of pork and pigs 4,246,300 kilograms (March 4,374,500 kilograms) and of live stock and meat products 1,291,600 kilograms (March 1,282,100 kilograms). The prices were, however, decreasing, partly due to the usual depreciation at this time of the year, partly to the decreased value of the sterling. The average weekly quotations were, in April, for butter 414 kroner per 1,000 kilogram (March 519 kroner), for pork 2.01 kroner (March 2.08) per kilogram, for eggs 1.80 kroner (March 2.10) per kilogram and for meat products 1.00 krone (March 0.98) per kilogram live weight.

The percentage of unemployment at the end of April 1924 was 9.3%, compared to 11.0% in April 1923 and thus showed a decided improvement. In the basic industries the unemployment amounted to 8.6%, against 11.8% in April 1923.

The Government's receipts of taxes on articles of consumption totaled in April 19.8 million kroner (of which 7.9 million kroner were custom receipts), compared to 19.7 million kroner in April 1923 (8.7 million kroner of which were custom receipts).

Sweden Shows Marked Increase in Industrial and Trade Activity in April as Result of Greater Foreign and Domestic Demand.

As a result of increased foreign and domestic buying, there was a marked increase in Swedish industrial and trade activity during April, says Consul W. A. Leonard in a cable from Stockholm. Although value figures are not yet available, both imports and exports will probably show very marked increases. With the exception of the iron and steel industry, all industries are reported as well occupied. The cablegram continues as follows:

The decline in unemployment which commenced in February and continued during March was maintained in April, the number out of work standing at 13,700 on April 1, compared with 15,900 on the first day of the preceding month.

The rise in wholesale prices continued during April, the index figure on May 1 standing at 156 as against 154 on April 1.

Foreign Trade During April Heavy.

By weight the leading imports during April showing increases over the preceding month were: wheat, 33,600 metric tons; mineral oils, 31,500; sugar, 5,510; iron and steel 23,710; cotton, 2,500; coal, 372,300 metric tons. The rise in the import of automobiles from 782 to 1,647 is an especially significant indication of the demand for automotive products in the Swedish market. The only important import showing a decrease was maize which declined from 4,800 to 2,160 metric tons.

Strikes Stop Norwegian Industry—Activity in All but a Few Lines Absent—Foreign Business Seriously Affected.

The efforts of the Government arbitrator to bring about a settlement of the labor disputes which have tied up Norwegian industry during the past two months have so far proved unsuccessful. Acting American Commercial Attache cables the Department of of Commerce. Activity in all but a few lines is absent and both foreign and domestic business has been seriously affected. Stocks which had heretofore been used to meet internal and external demands are becoming depleted and cancellations of many orders, particularly in the paper and pulp industries, are reported seriously retarded. The match and fish canning industries have not been involved in the labor difficulties and considerable activity in these branches is reported. The Attache also says:

New State and Municipal Loans Successfully Floated.

Despite the tightness in the money market, numerous loans were floated or authorized during the first two weeks in May. A fifty million crown State

loan bearing interest at 6½% was marketed at 101. In addition, the city of Bergen floated a loan of seven million crowns and the Christiania municipal government was finally successful in obtaining a loan of forty-four million crowns from the local bankers. It is also reported that the national government shortly plans to market another installment, amounting to 100 million crowns, of the 250 million crown loan authorized for the purpose of covering past budget deficits.

March Balance of Trade Heavily Adverse.

The effect of the continued labor disputes on industrial production is evidenced in the foreign trade returns for March which indicate exports of 69 million crowns as against 76.8 million crowns in February. During the same period it is estimated that imports rose from 100 million to 141 million crowns. Including re-exports of 1.7 million crowns, the March adverse balance amounted, therefore, to approximately 70 million crowns, exceeding by nearly 20 million crowns the estimated combined excess of imports over exports during the first two months of the year. According to estimates of the Norwegian Statistical Office, the adverse balance for the first quarter of 1924 was approximately 122 million crowns.

Comparative Figures of Condition of Canadian Banks.

In the following we compare the condition of the Canadian banks under the March 1924 statement, with the return for February 1924:

ASSETS.

	Mar. 31 1924.	*Feb.* 29 1924.
	$	$
Gold and subsidiary coin—		
In Canada	44,469,150	44,612,601

Austrian Government Bonds Ready for Delivery in Definitive Form.

J. P. Morgan & Co. announced last week that they were prepared to deliver on and after May 22 the Austrian Government guaranteed loan 1923-1943 7% sinking fund gold bonds dated June 1923 in definitive form in exchange for their outstanding interim receipts.

The Austrian Situation.

From the "Bache Review" of May 24 we take the following:

Austria has been passing through a crisis, due, however, not to currency inflation, because the krone appears to have been stabilized. The note inflation was stopped, but this was succeeded by a credit inflation and wild speculation on the Stock Exchange, in shares. This speculation was due to the fact that when the currency had been stabilized and the balancing of the budget undertaken (still making good progress), it was perceived that shares which were priced, in 1913, at the equivalent of $50 or $60, could be picked up for $1 or $2 or less. A great speculation in these shares started up. The Stock Exchange index rose, in six months, from 502 to 1479, and later, under the influence of foreign buyers coming into the market to join in the speculation, rose from 1,479 to 2,586. Shares which paid on the investment on the average not to exceed 1 to 2% per annum, were selling at enormously inflated prices.

At the beginning of 1924, the value of these shares began gradually to decrease. Unfortunately, however, Vienna had also started to speculate on the depreciation of the franc. "The Economist" says: "The commitments wre by no means too heavy for the market— if it had been otherwise sound. It was not. When the franc was stabilized, Stock Exchange values came down with a crash; in the course of time 68 banks had sprung up in Vienna, all speculating on the Exchange or bulling shares. In a few days they were drained of their resources. It was the declared policy of the big Viennese banks— which have not for a moment ceased to meet every demand upon them—that none of these distressed institutions should fail."

The Central European "Observer," quoted in Montagu & Co.'s "Review," says that the severe crisis through which Austria has been passing in the last few months, like that of 1873, has been brought about by the rapid fall of prices in the stock and share market.

"The present situation appears to be a reaction after the boom, which has been in existence for over a year, which raised the prices of Austrain stocks and shares far above the level of their actual value, and further, the present state of affairs may be regarded as a reaction after the issue of new shares at exaggerated prices during 1923, and this year to date. In 1923 new shares were issued to the amount of 4½ billion kronen, and in the first three months of 1924 to a total of 2 billions. It was frequently found even by the end of 1923 that the price of shares was such that they represented investments bearing no more than 1% interest. The prices began to decline, and Vienna speculation, finding itself, so to day, without occupation, threw itself blindly upon the French franc, on the assumption that the franc was about to suffer a catastrophe such as befell the German mark.

"When the franc was released from the clutches of the 'bears,' Vienna was the first to feel the consequences, and that in tragic form. The losses are estimated at millions of pounds sterling, and they produced a panic on the Vienna bourse, and accelerated the general downward movement of all securities. The situation soon became so serious that the Government was compelled to step in. With the participation of the Government a synducate was formed with a capital of 500 milliard kronen, and there was placed at their disposition, with the consent of the Commissioner General (League of Nations), also a sum of 200 milliard from the International League of Nations loan. The sundicate came to the rescue and succeeded in alleviating the situation by checking somewhat the fall of the market prices. Transactions in stocks and shares have declined to a minimum owing to lack of confidence and quotations continue to fall."

There exists, however, no doubt as to the absolute security of the Austrian international loan, the interest on which is many times covered by the revenue from customs and tobacco. According to the League of Nations report, the gross customs and tobacco receipts, which are assigned as securities to this international reconstruction loan, amounted in March to 300 milliard paper crowns— a decrease of 54 milliards as compared to the yield in January. Nevertheless, the monthly interest on the loan, which requires only 85 millard paper crowns, is therefore still covered more than three times. "The Economist" (London) says:

"The security of the krone also stands unimpaired, since under the present management inflation will be impossible, and the open and secret reserves of the Nationalbank can be trusted to withstand any strain likely to be expected in the future. The foreign speculator in Austria will, of course, have to take his risks. Given a gradual relief from the pressure of the customs barrier of the Succession States, the internal position of Austrian industry can be regarded as inherently sound. The relation between capital and labor has much improved of late, and many works report great increase in the efficiency of their workers. On the other hand, high taxes will have to be borne for a long time to come."

Suicides, Failures Mark Vienna Crisis—Many Stocks Decline to Third of Normal Value.

An Inter-Ocean cablegram from Vienna May 20, published in the New York "Journal of Commerce," had the following to say regarding the Austrian crisis:

The number of suicides and bankruptcies in this city has reached such a degree that all attempts at concealing the critical situation are in vain. Among the suicides and bankrupts are small bankers and merchants, and it is certain that these tragedies are due to the chronic, sickly condition of the Bourse, the depression of which has now reached its lowest point.

The depression on the Bourse has now lasted for more than a year. Many stocks, including sound industrial securities, have dropped to a third, some to a fifth, of their normal value. It is pointed out that some of the "newly rich" have lost the larger part of their fortune.

It is said that the Commissioner General of the League of Nations will shortly have to take up this critical situation from the viewpoint of the State's finances. It is certain that this year's taxes will bring in a smaller revenue than last year. There is danger that the Austrian Government will not be able to stabilize its budget within the time allowed it by the League of Nations.

While the Socialists in Parliament energetically demand the abolition of the position of Commissioner General directed by the League of Nations, it is probable that the office of Dr. Zimmermann, who fills the position, will be prolonged. The authority of Dr. Zimmermann is still unaltered, as is proved by the fact that he, a Hollander, has on his own initiative appointed another Hollander, Prof. Van Gyn, of the University of Leyden, as counselor of the National Bank in place of Snyder, the present Swiss counselor.

The repercussion of the Bourse crisis is also making itself felt in Budapest. According to Hungarian statistics, eighty bankers and Bourse commissioners have recently fled after committing embezzlement.

On the other hand, it must be emphasized that the big banks of Vienna have remained intact. The same may be said of the big industries, although these, owing to the great lack of money, are obliged to operate under grave conditions. Industry expects an increase in exports from the new tariff now in preparation.

Operations of the Credit Department of the Italian Postal Administration for First Quarter of 1924.

From R. Angelone, Commercial Attache of the Royal Italian Embassy at Washington, we have received the following regarding the movement of the credit operations of the credit department of the Italian Postal Administration during the first quarter of 1924:

Total deposits at the end of the year 1923			Lire	$3,713,842 80
New Deposits—	*No. of Transactions.*	*Amount.*		
Cash	991,846	Lire 275,331,495 75		
Checks	4,379	34,617,847 31		
Letters of credit	320	97,410 47		
Interest registered	2,586	791,436 94		
Totals	999,131	Lire 310,838,190 47		310,838,190 47
			Total Lire	394,552,033 27
Withdrawals—	*No. of Transactions.*	*Amount.*		
Sight drafts	4,580	Lire 265,483,823 85		
Letters of credit	22,995	288,907,762 92		
Checks	4,389	34,578,659 21		
Totals	31,964	Lire 323,486,422 13		323,486,422 13
Credit of depositors on March 31 1924			Total Lire	71,065,611 14

Variations in Number of Accounts.

Accounts of Dec. 31 1923	8,382
New accounts opened during first quarter of 1924	204
Total	8,585
Accounts closed during first quarter of 1924	69
Accounts on March 31 1924	8,517

Offering of Bonds of First Carolinas Joint Stock Land Bank.

On May 26 an issue of $1,500,000 5% bonds of the First Carolinas Joint Stock Land Bank (Columbia, S. C.), was offered by Harris, Forbes & Co., Halsey, Stuart & Co., Inc.,

and William R. Compton Company at 100 and interest, yielding 5%. The bonds, which are issued under the Federal Farm Loan Act, are dated April 1 1924, will mature April 1 1954 and are redeemable at par and interest on April 1 1934 or any interest date thereafter. Interest is payable semi-annually (April 1 and Oct. 1) and principal and interest are payable at the Chemical National Bank, New York City, or at the First Carolinas Joint Stock Land Bank, Columbia, S. C. The bonds, coupon and fully registerable and interchangeable, are in denomination of $1,000. They are exempt from Federal, State, municipal and local taxation and are acceptable as security for postal savings and other deposits of Government funds. It is announced that as of April 30 1924 the bank has a paid in capital and surplus of $550,000 and bonds outstanding amounting to $6,119,000. We take from the offering circular the following statement of the First Carolinas Joint Stock Land Bank (as officially reported April 30 1924):

Acres of real estate security loaned upon	334,534
Total amount loaned	$6,288,400 00
Appraised value of real estate security	16,366,858 00
Average appraised value per acre	$38 89
Average amount loaned per acre	18 79
Percentage of loans to appraised value of security	38.4%

The bank operates in North Carolina and South Carolina. Reference to an offering of capital stock of the bank was made in our issue of Feb. 23 1924, page 861.

Resolution of New York Stock Exchange Barring Members From Holding Moneys in Political Betting.

Members of the New York Stock Exchange are barred from receiving moneys offered as wagers in political election betting under the following resolution passed by the Governing Committee on May 14:

NEW YORK STOCK EXCHANGE.

At a meeting of the Governing Committee held May 14 1924, the following resolution was adopted:

"Resolved, That public announcement by a Stock Exchange firm or one of its members regarding moneys held by it for the purpose of betting on elections or on any other matters will be considered an act detrimental to the interest or welfare of the Exchange."

E. V. D. COX, *Secretary*.

According to the New York "Times," most of the wagers placed in the financial district have been handled by individuals or outside brokerage houses. Such houses and individuals include William L. Darnell & Co., J. S. Fried & Co., C. B. de Chadanes & Co. and Fred Schumm of Brooklyn. None of these firms or individuals, it is pointed out, is a member of the Exchange.

New York Curb Market Bars Members from Holding Moneys in Political Betting.

A resolution on the taking of election bets, similar to that of the New York Stock Exchange, was unanimously adopted as follows on May 28 by the Board of Governors of the New York Curb Market:

Resolved, That public announcement by a Curb Exchange firm or one of its members regarding moneys held by it for the purpose of betting on elections or on any other matters will be considered an act detrimental to the interest or welfare of the Exchange.

W. S. Silkworth, Former Head of Consolidated Stock Exchange, Indicted With Eight Others on Charges Growing Out of the Failure of the Brokerage Firm of Raynor, Nicholas & Truesdell.

William S. Silkworth, ex-President of the New York Consolidated Stock Exchange, was indicted by the Federal grand jury on Wednesday of this week (May 28) for alleged use of the mails to defraud investors in connection with the failure on April 29 1922 of the brokerage house of Raynor, Nicholas & Truesdell, formerly of 42 Broadway, this city. Eight others were named as defendants in the indictment. They are: Louis Gilbough, a member of the Board of Governors of the Consolidated Stock Exchange in 1922; De Witt C. Raynor, Blaine J. Nicholas and Earl H. Truesdell, members of the former firm of Raynor, Nicholas & Truesdell; C. Peter Ovens, formerly New York office manager of the firm; John H. McQuade, Edward A. McQuade and Francis X. Quillan, curb brokers. The indictment supersedes one returned in December last when all of those mentioned, with the exception of Mr. Silkworth and Mr. Gilbough, were indicted for alleged use of the mails to defraud. The new indictment, said the New York "Times" of May 29, like the former one charges the defendants with alleged use of the mails to defraud investors in stocks and bonds and states that money was taken from investors for the purchase of securities which were not purchased, or if they were purchased, were quickly sold and the proceeds used by the defendants, while the buyers were charged for services that were not rendered. That part of the indictment relating to Mr. Silkworth explains the part he is alleged to have played in deceiving the customers of the firm of Raynor, Nicholas & Truesdell by saying that in their behalf he would:

Falsely represent and pretend to the customers that they had purchased the stock and securities ordered by the customers and were holding them subject to the further orders of the customers and that he would aid them in procuring and furnishing false confirmations to the customers of the pretended purchases of stock and securities, and, further, that he, as President of the Consolidated Stock Exchange, would allow and permit said firm of Raynor, Nicholas & Truesdell and Louis Gilbough to continue to be and to act as members of the said Consolidated Exchange, and would obstruct and prevent the said Exchange from expelling Raynor, Nicholas & Truesdell and Louis Gilbough therefrom, and that he would conceal from the customers of the firm, who would seek information from the Exchange, the moral and financial responsibility of the firm, all of which were within his knowledge.

The indictment, which contains 15 counts, was brought on evidence, it is said, gathered by Post Office Inspector Frank Shea. In commenting on the indictments, Lawrence Tweedy President of the Consolidated Stock Exchange, is reported in the daily papers of Thursday as saying that the records of the Exchange in the case have been in the possession of the United States District Attorney since last fall, and the present officials of the Exchange have co-operated with the authorities in this and every other case since he assumed office as President. With regard to Mr. Gilbough he said:

Louis Gilbough is not a member of the Board of Governors at the present time. No charge has ever been lodged against him, and as far as the present officials of the Exchange are concerned, he was merely a floor broker for the bankrupt firm.

Mr. Silkworth and Mr. Gilbough were arraigned before Judge George English in the Federal Court on Thursday May 29, and admitted to bail. Mr. Silkworth's bail was set at $5,000 and that of Mr. Gilbough at $2,500. The expulsion of the firm of Raynor, Nicholas & Truesdell from the Consolidated Stock Exchange and its failure were reported in the "Chronicle" of May 6 1922, page 1963.

Treasury Buying Third Liberty 4¼ Issue—Has Taken in $337,000,000 This Year.

The following is from the New York "Journal of Commerce" of May 29:

It became known here yesterday that the Treasury Department has purchased $55,000,000 par value of Third 4¼% Liberty bonds in the open market this week and that the sinking fund for this issue has been exhausted, so that it has become necessary to dip into the general fund of the Department substantially. It is understood that the forthcoming issue of short term notes will be nearer $500,000,000 than the original expectation of $350,000,000, in order to provide funds to reimburse the Treasury for open market purchases.

So far this year the Treasury has purchased $337,000,000 par value of the Third 4¼ issue, accounting for the strength of the bonds, which crossed 101 early in the week for a new high record price. As the sinking fund of the issue only provides $297,000,000 the general fund has been dipped into. This fund, which generally amounts to $400,000,000, has been cut down to $217,000,000.

The new short term certificate issue of the Treasury is expected to be offered by the middle of the month. In the financial district it is believed that both six months and one year paper will be offered, the latter to yield about 3.75% and the former about 3.50%. Recent strength in the market for short term notes has been pronounced, so that the average yield level has fallen to well below 4%.

As the British Government generally leaves the Liberty bond market automatically when they cross par, recent marked strength in the Fourth 4¼s. has been the subject of some comment, it having appeared unlikely that only investment buying was behind the marked buoyancy of the bonds. The announcement that the Treasury was purchasing the issue was interpreted as indicating an expectation by officials that easy money conditions would continue to prevail.

Effect of Downward Trend of Business on Earnings of Federal Reserve Banks.

In the Federal Reserve Board's monthly summary of business conditions, which we give in another item in this issue, it is pointed out that total earning assets of the Federal Reserve banks declared on May 21 to $795,000,000, the lowest figure since the autumn of 1917. With regard thereto the Associated Press dispatches from Washington, May 27, said:

Federal Reserve Board statistics, made public to-day, disclose that the effect of the downward trend of business has been strongly felt by the Federal Reserve banks and that on the basis of present calculations, they may end this year with the lowest net earning in seven years.

The business recession apparent since the beginning of the year continued through April and early May and forced earning assets of the 12 reserve banks down to $795,000,000 on May 21, the lowest since the fall of 1917. This figure compares with earning assets of $1,177,000,000 on the same date last year and indicates clearly, in the opinion of officials, that the net earnings of the 12 banks will drop well below the $12,711,000 figure for 1923.

The drop in reserve bank earnings developed some discussion among reserve board officials, who declared that even now some of the reserve banks are not making expenses. The Government's franchise tax is based on the earnings of the 12 banks, so with some of them running short, the Treasury is likely to receive only a small revenue from the tax this year.

Should the earning assets of the reserve banks continue to fall, it was said, the banks would gain less than $9,579,607, which was their net profit in 1917. Net earnings for the other years from 1917 were: 1918, $52,516,310; 1919, $78,367,504; 1920, $149,294,774; 1921, $82,087,225; 1922, $16,497,756, and 1923, $12,711,235.

Confirmation By Senate of Nominations to Federal Farm Loan Board.

On May 22 the United States Senate confirmed the nomination of the following as members of the Federal Farm Loan Board: Lewis J. Pettijohn of Kansas; Elmer S. Landes of Ohio; Merton L. Corey of Nebraska, and Edward E. Jones, of Pennsylvania.

Senate Committee Orders Favorable Report on Bill Similar to McFadden Measure to Modernize National Bank Laws.

A bill, sponsored by Senator Pepper, similar to the House McFadden bill to modernize the national bank laws, was ordered favorably reported by the Senate Committee on Banking and Currency on May 27. A Washington dispatch to the New York "Journal of Commerce" May 27, said:

A sub-committee composed of Senators Pepper and Edge, Republicans, and Glass, Democrat, agreed to the bill with the recommendation that it be amended in certain particulars. It is not believed that this will affect the measure to any extent.

Chairman McFadden of the House Banking and Currency Committee has received assurances from the Rules Committee that a rule on his bill will be pressed at the first opportunity.

By securing Senatorial action first a great deal of time will be saved and there is more assurance then of the measure reaching the President for his signature at this session.

In our issue of May 3 (page 2129) we indicated that the McFadden bill had been favorably reported to the House, and the following week (page 2253) we gave the text of the bill.

Reduction in Discount Rate of Federal Reserve Bank of Cleveland.

Following the action taken by the Federal Reserve Bank of New York a month ago, in reducing its discount rate from 4½ to 4%, it was announced on May 27 that the Federal Reserve Bank of Cleveland had decided to similarly lower its discount rate from 4½ to 4%, effective June 1. It was stated in press dispatches from Washington May 29 that the Federal Reserve officials had granted the application of the Cleveland Reserve Bank on the belief of Cleveland bank officials that the reduction might increase loans by the banks and stimulate its earnings assets. From Washington advices to the New York "Journal of Commerce" of May 28 we quote the following:

Reduction of the rediscount rate of the Cleveland Federal Reserve Bank from 4½% to 4% was regarded here to-day as reflecting easy money conditions and the adjustment of the rate to market conditions. Other Reserve banks, as well as Cleveland, are expected to follow the lead of New York in adopting the 4% rate.

Some surprise is felt in official quarters here that the Boston and Philadelphia Reserve banks have not already lowered their rates to 4%, and the impression is that this action will be taken shortly. Conditions in thsoe two districts are regarded as virtually the same as in New York, and a parity of rates is predicted.

In view of the action of the Cleveland bank, it is thought that other Western districts will soon have the lower rate, as it is thought that money is easy throughout the country generally. Moreover, the earning assets of the Reserve system are at a low ebb and commercial borrowing is on the decline. Granting that a lower rate may not have the effect of stimulating business activity, there is a feeling that the 4% level will turn more of what business there is toward the Reserve banks.

The reduction in the discount rate of the Federal Reserve Bank of New York was referred to in our issue of May 3, page 2129.

Pierre Jay of Federal Reserve Bank of New York to Address Convention of National Association of Credit Men at Buffalo June 11.

Pierre Jay, Chairman and Federal Reserve Agent of the Federal Reserve Bank of New York, will explain how the System cuts down the expenses of doing business in an address to the 29th annual convention of the National Association of Credit Men at Buffalo on June 11. Mr. Jay will discuss the workings of the Federal Reserve System.

Canadian Credit Men to Meet with National Association of Credit Men in Buffalo June 10-13.

For the first time in the history of American and Canadian business, the organized credit men of the two countries will hold an annual convention together at Buffalo, June 10-13. President Thomas Learie, W. R. Johnston & Co., Ltd., Toronto, and General Manager Henry Detchon of the Canadian Credit Men's Trust Association, Ltd., have arranged to hold two days of their convention in conjunction with the 29th annual convention of the National Association of Credit Men. The joint meeting is called the "International Credit Congress of 1924," and is considered of such significance by President Coolidge that he has appointed Director Lord of the Bureau of the United States Budget to represent the Government at the convention. The spokesman of the Canadian credit men will be Senator Sir George E. Foster, former Minister of Trade and Commerce of the Dominion. President Learie in his message to the credit men of the United States, made public in New York May 28, says:

When the late President McKinley gave his last speech upon that memorable day in September 1901, at the Pan-American Exposition in Buffalo, he stated: 'Expositions are the timekeepers of progress.' If that is true—and it is—then conventions such as will be held by the credit men in the city of McKinley's death are the hands upon the face of the timekeepers.

Accordingly, we, who are members of an organization similar in many respects to that of your own and having for our objectives very largely the same ideals as yours, welcome the opportunity of being present at your convention, and hope to benefit therefrom.

Naturally, in a country such as Canada, where numbers are small and business has not achieved the magnitude of yours, we are fewer in number but none the less active in spirt and in desire to benefit and help the credit men, and to place upon as sound a basis as possible the foundation of successful business—credit.

The Canadian Credit Men's Trust Association, Ltd., organized in 1910, has some 1,200 members operating from the Atlantic to the Pacific oceans across the entire Dominion of Canada. Its activities extend to all matters of legislation affecting the interests of credit grantors. According to President Learie, its Adjustment Bureau business represents the largest institution of its kind in Canada; while its Clearing House Department which exchanges credit information has grown from small beginnings to being a most potent factor in respect of the determination of credit risks.

Death of John H. Rich, Chairman of the Federal Reserve Bank of Minneapolis.

John H. Rich, Chairman of the Board and Federal Reserve Agent of the Federal Reserve Bank of Minneapolis, died on May 20. Mr. Rich was stricken with pneumonia early in the year and several weeks ago had suffered a relapse. Before his appointment to the management of the Minneapolis Reserve Bank in 1914 Mr. Rich had been identified with both banking and business interests; he organized in the eighties the Pembina County Bank of Pembina, N. D., disposing of his interest therein in 1883, and returning to Red Wing, which had previously been his home, and became interested in the Red Wing Stoneware Co. As to his other interests, we quote the following from the Minneapolis "Journal":

Early in 1893 he opened the John H. Rich Sewer Pipe Works, which he operated successfully for 20 years, as founder and leader in development of the industry at Red Wing.

In 1901 the sewer pipe company was reorganized as the Red Wing Sewer Pipe Co., extending its works at Red Wing and later building a large plant at Hopkins. He retired from the other banking and business interests in Red Wing.

Bank President at Red Wing.

He was for 15 years President of the Goodhue County National Bank at Red Wing and was interested in other local enterprises. He was active in the early movement for the improvement of Minnesota highways, and was interested in the development of river transportation, holding a Government license as pilot and engineer on the Minnesota and St. Croix rivers. He was for 10 years a member of the State Board of Corrections and Charities, and served a term as Mayor of Red Wing.

He became interested in the Minneapolis Steel & Machinery Co. at its organization, and was a director and a heavy stockholder therein from 1904 until the time of his death.

Twelve years ago, as President of the Citizens' League of Minnesota, he issued at Red Wing a statement declaring that the Aldrich bill for banking and currency reform, then before Congress, "is a dead measure and cannot pass," because "neither the so-called Aldrich bill nor the report of the Monetary Commission are essential parts of the banking reform that the country requires." Then, and later, he insisted on a complete reform.

Many months later, sailing on the "Adriatic" for a tour of the world, Mr. Rich met the late J. Pierpont Morgan, Sr., and Senator Nelson Aldrich, father of the reform bill, aboard the steamer. Senator Aldrich told Mr. Rich that "you are the man who killed the bill. It was a very difficult thing for me to face, but I realized that every word you said was true."

Forecast Proved True.

Mr. Rich answered that "it is my opinion that when Congress finally enacts the bill for the reform of the obsolete banking laws it will embody every important point for which you have contended."

Long afterward, Mr. Rich would take from his library a much worn copy of the old Aldrich bill, to compare it with the Federal Reserve Act in its present form. Many of the provisions correspond.

He was invited to head the banking reform movement at a time when, according to Curtis L. Mosher, Assistant Federal Reserve Agent and Secretary of the Board for the Minneapolis bank, "bankers everywhere hoped for an evolution out of the clearing house experience of the country that would modernize American banking and make such clumsy expedients as emergency currency forever unnecessary." A committee of Northwest bankers asked Mr. Rich to lead their fight for a reform.

Reorganized Banking System.

So, in 1911, Mr. Rich began the greatest and hardest fight of a long and active career in banking and business. The organization he headed, of which Mr. Mosher was Secretary, stood for essential principles, every one of which is embodied in the Federal Reserve Act of to-day—for an actually elastic currency, for mobilization of banking reserves in times of stress, and for actual and available reserves at such times; for bringing all banks into closer co-operation.

"As a banker 47 years ago in the frontier country at St. Vincent and Pembina, Mr. Rich early laid the foundations of a thorough and sympathetic knowledge of this territory, its people and its requirements," Mr.

Mosher said to-day. "Throughout his long service as Chairman and Federal Reserve Agent at Minneapolis, his sympathies were first of all with agriculture and its problems, and his undeviating purpose was to make the Federal Reserve Bank in the fullest sense an instrument of service."

Mr. Rich was born near Lake Geneva, Wis., on Dec. 30 1856.

President Signs Immigration Bill Barring Japanese—Disapproves of Exclusion Provision.

In signing, on May 26, the immigration bill, President Coolidge, while indicating his approval of its main features expressed regret at the "impossibility of severing from it the exclusion provision which in the light of existing law affects especially the Japanese." "If the exclusion provision stood alone," said the President, "I should disapprove it without hesitation if sought in this way at this time." The President points out that "we have had for many years an understanding with Japan by which the Japanese Government has voluntarily undertaken to prevent the emigration of laborers to the United States," and he adds, "it would have been much better in my judgment and more effective in the actual control of immigration if we had continued to invite that co-operation which Japan was ready to give." "There is scarcely any ground for disagreement as to the result we want," says the President, "but this method of securing it is unnecessary and deplorable at this time." The passage of the bill by the House on April 12 was noted by us April 19, page 1856, and its adoption by the Senate late on April 18, was indicated in our issue of April 26, page 1994. In conference on May 7 (as was reported by us May 10, page 2259) it was decided to postpone from July 1 1924 until March 1 1925 the effective date of the Japanese exclusion provision, the action of the conferees, having, it is stated, resulted from the insistence of President Coolidge expressed at a White House conference. This change was, however, rejected by the House on May 9, and the bill was recommitted to conference with instructions to the House conferees to insist on the elimination of the amendment. As we stated in our issue of May 17 (page 2387), the conferees, faced by the apparently unalterable opposition of the House to any delay in the operation of the Japanese exclusion provisions, agreed on May 10 to restore the exclusion section effective July 1 1924. The bill carrying the provisions excluding Japanese and other Asiatics after July 1 and abrogating the gentlemen's agreement despite the desire of President Coolidge to make this the subject of negotiation with the Japanese Government, was adopted on May 15 by both the House and the Senate. The following is the statement made by President Coolidge with the signing of the bill on May 26:

In signing this bill, which in its main features I heartily approve, I regret the impossibility of severing from it the exclusion provision, which in the light of existing law affects especially the Japanese.

I gladly recognize that the enactment of this provision does not imply any change in our sentiment of admiration and cordial friendship for the Japanese people, a sentiment which has had and will continue to have abundant manifestation.

The bill rather expresses the determination of the Congress to exercise its prerogative in defining by legislation the control of immigration, instead of leaving it to international arrangements. It should be noted that the bill exempts from the exclusion provision Government officials, those coming to this country as tourists or temporarily for business or pleasure, those in transit, seamen, those already resident here and returning from temporary absences, professors, ministers of religion, students, and those who enter solely to carry on trade in pursuance of existing treaty provisions.

But we have had for many years an understanding with Japan by wihch the Japanese Government has voluntarily undertaken to prevent the emigration of laborers to the United States and in view of this historic relation and of the feeling which inspired it it would have been much better, in my judgment, and more effective in the actual control of immigration, if we had continued to invite that co-operation which Japan was ready to give and had thus avoided creating any ground for misapprehension by an unneccessary statutory enactment.

That course would not have derogated from the authority of the Congress to deal with the question in any exigency requiring its action. There is scarcely any ground for disagreement as to the result we want, but this method of securing it is unnecessary and deplorable at this time.

If the exclusion provision stood alone, I should disapprove it without hesitation, if sought in this way at this time. But this bill is a comprehensive measure dealing with the whole subject of immigration and setting up the necessary administrative machinery. The present quota act of 1921 will terminate on June 30 next. It is of great importance that a comprehensive measure should take its place and that the arrangements for its administration should be provided at once in order to avoid hardship and confusion.

I must therefore consider the bill as a whole and the imperative need of the country for legislation of this general character. For this reason the bill is approved.

As was noted in our issue of April 19 (page 1854), the provision in the bill designed to exclude the Japanese was the subject of protest by the Japanese Ambassador Masanao Hanihara, to Secretary of State Hughes on April 10. The latter's reply was published by us at the same time, and a week later (April 26, page 1993) we gave a further letter of the Ambassador to Secretary Hughes denying charges made in the Senate that the statement in his letter to the effect that "grave consequences" would follow with the enactment of the exclusion provision had implied a "veiled threat." Before deciding on his course of action on the bill President Coolidge had a study of the measure made by the Department of State and the Department of Labor. Following the passage of the bill Cyrus E. Woods resigned as Ambassador to Japan, and this week it was announced that Ambassador Hanihara would return to Japan to discuss with the Government heads the exclusion provisions of the bill. Both of these matters are referred to under separate heads in this issue of our paper. A statement by Ambassador Woods indicates that his resignation is prompted by illness in his family. It was announced on May 26 that among the steps to be taken by the Department of Labor to assure effective administration of the new law when it becomes operative on July 1 will be the redrafting of regulations governing national quotas. These quotas under the new Act amount to 2% of the number of nationals of the respective nations resident in the United States at the time of the 1890 census and will result in changing the greatest immigration from the countries of Southern Europe to the Nordic countries of Northern Europe. Under the present law immigration is restricted to 3% of the number of nationals under the 1910 census. About 160,000 aliens yearly, it is estimated, will be admitted under the new restrictions, as compared with 360,000 under the law at present in force. The various members of Congress who sought the adoption of the bill are said to have expressed their approval with the signing of the bill by President Coolidge. Representative Albert Johnson of Washington, Chairman of the House Immigration Committee, one of the strongest of the exclusion advocates, called at the White House after the bill was approved and was given the pen with which the President had signed the measure. Senator Hiram W. Johnson of California is quoted in the New York "Times" as saying:

It is a matter of congratulation and rejoicing that California finally prevails in the long struggle for the protection and preservation of its own. With the last chapter closed now, I apprehend neither difficulties nor dangers. We have done what was clearly our right, without intention of offense, and, giving no cause for offense, offense cannot justly be taken. California's cherished policy is now the nation's maturely determined policy. The victory, after so many attempted checks, gives us great pleasure and increased rejoicing.

Resignation of Cyrus E. Woods as United States Ambassador to Japan.

The resignation was announced at Tokio on May 18 of Cyrus E. Woods as United States Ambassador to Japan; it was made known in Washington dispatches May 20 that the resignation had been accepted. While a statement made by the Ambassador assigns family illness as the reason for his resignation the passage by Congress of the immigration bill with its Japanese exclusion provision is reported as having had a bearing on his decision. In Tokio cablegrams May 19 he was quoted as having said to the Associated Press:

Since the immigration question is virtually settled, and the crisis which it engendered ended, I feel that I am free to yield to family reasons, which make it imperative for me to resign my post in Japan.

The illness of Mrs. Marchand, my mother-in-law, renders essential the departure of myself and my family for America as soon as possible. I leave Japan with genuine regret, especially since it is necessary for me to give up my work here at a difficult and critical period in the history of the relations between Japan and my country.

We are entering a period of readjustment in which many factors in the intercourse between Japan and America are undergoing changes. I am not apprehensive of the nature of these changes in the long run.

I have found among the leaders of this empire, with whom I have been in close contact, and among whom I have found sagacious, far-sighted statesmen, a real desire to continue cordial friendship with America, and realization that co-operation between the two nations in maintaining peace in the Pacific and solving the great problems of the Far East is essential to the welfare of both.

I may say that I have found on the part of the officials of the Japanese Government, especially foreign Minister Matsui, an appreciation of the difficulty of my position and a willingness to relieve me of embarrassment.

I consider that in this crisis the Government and people of Japan have acted with dignity and self-restraint, which promises well, better, indeed, than might have been expected for the continuation of friendship between Japan and America.

From Washington, May 19, a dispatch published in the New York "Herald-Tribune" said:

The desire of Ambassador Woods at Tokio to relinquish his post is believed by officials here to be based wholly on personal considerations and to have no connection with pending immigration legislation in this country. Mr. Woods first expressed his wish to be relieved when he was in the United States some months ago, before the Japanese exclusion question came up in Congress. His resignation has not yet been formally submitted.

According to a copyright cablegram to the New York "Times" from Tokio, May 20, Baron Matsui, the Minister of Foreign Affairs, in a statement concerning the resignation of Ambassador Woods, recalls first of all the work of the

Ambassador after the earthquake, and then continues thus:

It is well known to our people that since the present immigration question of excluding Japanese came to a climax Ambassador Woods has exerted himself to relieve the situation as much as possible. It is therefore with deep regret that I receive news that he has decided to resign, and I trust my feeling will be shared by our people generally. I would like to ask him to withdraw his resignation and to remain among us for many years more, but his concern about his mother's health deters me. I presume the outcome of the Japanese exclusion question largely caused him to resign.

New Japanese Treaty Not to Be Sought.

Washington advices to the New York "Times" May 27 said:

The question of Japanese exclusion under the provision of the immigration bill which was signed yesterday by President Coolidge is a closed incident as far as the Administration is concerned, it was indicated at the White House to-day.

A spokesman for President Coolidge stated that the Department of State is not expected to take any further steps in the matter, and another high Administration official characterized as "without basis" a report that Secretary Hughes would undertake the negotiation of a new treaty with Japan which should supersede the objectionably phrased provisions excluding Japanese coolies from the United States.

Similarly, intimations that Secretary Hughes might resign, because of the enactment of the exclusion law in face of his vigorous protest, were denied on authority.

It can be stated that Secretary Hughes never recommended to President Coolidge that he veto the immigration bill because of objectionable features respecting the Japanese, and therefore, there has been no issue between the Secretary and the President which would cause the former's resignation.

It was believed that the President's statement accompanying the announcement of signature of the immigration bill was the best means of informing the Japanese Government and people of the attitude of the Administration. Officials feel now that the least said about the matter at this time the better.

Japanese Protest Against Exclusion Provision of Immigration Bill—Ambassador Hanihara to Return to Japan to Explain Situation.

Protest against the exclusion provision of the immigration bill signed by President Coolidge on May 26 was drawn up at an extraordinary session of the Japanese Diet on May 28, and cabled to Ambassador Hanihara at Washington. Resolutions adopted by leaders of the Diet May 28 disapprove of the exclusion clause "as a violation of the traditional cherished amity between Japan and America" and "strong resentment" is expressed at "this unjust action by Congress." The resolution recites that "we shall devote our efforts to the restoration as soon as possible of the old amity between Japan and America by the undoing of the wrong." The Associated Press cablegrams from Tokio May 28 gave the following account of the protest:

Deep regret that the United States has enacted the immigration bill, including a clause barring Japanese, is voiced in an official statement issued late to-day by the Foreign Office.

"The Japanese Government remains unshaken in its opposition to this discriminatory legislation against Japanese, and it has instructed the Japanese Ambassador at Washington to lodge a solemn protest with the United States Government on this occasion," concludes the communique.

The document describes the immigration bill and its effects on Japanese entering the United States, and adds:

"Since the introduction of the Johnson immigration bill, the base of the present Act, into the House (the American House of Representatives) last December the Japanese Government has frequently and earnestly called the attention of the United States Government to the Japanese exclusion provision. The Japanese Government therefore deeply regrets that this provision has been enacted in spite of its representations and vigorous and repeated efforts made by the President and Secretary of State of the United States to prevent the inclusion of the discriminatory provision in question."

The statement was issued late in the day, after an extraordinary Cabinet session had approved the form of a protest the framing of which was completed yesterday and after, too, Foreign Minister Matsui had asked and obtained the sanction of the Prince Regent to the forwarding of the document. The latter step is extraordinary and was interpreted as indicating the importance with which the matter is regarded here.

The protest was cabled to Ambassador Hanihara at Washington before the Foreign Office issued its statement. Afterward the Foreign Minister appealed to the Japanese press to exercise moderation and restraint in handling the exclusion matter.

The Foreign Office two days ago cabled Ambassador Hanihara permission to return to Japan as soon as Japan's protest against the exclusion provision of the immigration bill was finally dealt with.

This permission followed Hanihara's repeated requests for leave. It is understood that the Ambassador is likely to leave Washington within a fortnight. Officially, he is merely taking a vacation, but Foreign Office officials admit that there is no chance of his return to Washington. It would not be proper, they explain, to speak of resignation, since he is expected to remain in the foreign service. He is merely seeking a change of post.

Leaders in every party of both houses of the Japanese Diet at a special meeting to-day pledged themselves to work for the restoration of the "old amity" between the United States and Japan.

The resolutions adopted by the leaders expressed the belief that the exclusion clause, which applies to Japanese in the new American immigration law, did not represent the true spirit of the American people, and charged Congress with "attacking the friendly relations between the two countries."

The resolutions read:

"*Whereas*, The United States has enacted a general immigration bill clearly meant to discriminate against the Japanese;

"*Whereas*, The President of the United States in signing that immigration bill signified in plain words that he strongly disapproved of said clause as a violation of the traditional cherished amity between Japan and America, and that his forced approval of the Act, despite his expressed disapproval, was owing to the urgent national demand for the law as a whole; further,

"*Whereas*, The responsible press of America, together with the great body of informed opinion, both official and private, throughout the country has expressed repeatedly its unequivocal opposition, thus indicating the true American spirit; therefore, be it

"*Resolved*, That we members of both houses of the Diet here express our strong resentment at this unjust action by Congress, which alone we hold responsible for attacking the friendly relations between the two countries; and be it further

"*Resolved*, That we shall devote our efforts to the restoration as soon as possible of the old amity between Japan and America by the undoing of this wrong."

Washington Associated Press dispatches the same date (May 28) said:

Tokio advices had indicated that allegations of treaty violations are the basis of its protest. Such a communication is certain to receive most careful attention here, as Administration officials were careful throughout to keep Congress fully advised as to obligations resting upon the country which should be considered in dealing with exclusion.

No question of treaty violation was raised by the Administration in opposing the exclusion clause. The position taken by President Coolidge and his advisers throughout was that the legislative method of dealing with Japanese immigration was unnecessary and inexpedient; that it was likely to create resentment in Japan without any compensating advantage to be gained in this country.

The provision is not directed exclusively at Japan, but applies to all nations not eligible to American citizenship. The citizenship prohibition is not in the Immigration Act, but has stood on American statute books, so far as the Japanese are concerned, from the first, according to recent decision of the Supreme Court.

The protest probably will disclose again that there is complete harmony of opinion in Administration and Congressional circles with regard to the right of Congress to take the action it has. At no time in its history has the United States resigned in any degree its sovereign right to control immigration as a domestic matter outside the realm of diplomatic engagements or treaties.

Associated Press cablegrams from Tokio May 24 had reported that at a meeting that night of the leaders of every party in the Diet, including several former Cabinet Ministers and members of the nobility, a resolution was passed expressing regret at the adoption of the Japanese exclusion provision in the immigration bill passed at Washington. The resolution reads:

Whereas Completely disregarding the history and spirit of the gentlemen's agreement, which Japan announced her willingness to modify if the United States desired it, Congress has passed an immigration bill deeply injuring the national pride and susceptibilities,

Resolved, We, members of both houses of the Diet, record our profound sorrow that Congress by its action should have attacked so harshly the cordiality of relations between Japan and America;

Further Resolved That although public temper in Japan has remained calm, it might give away to feelings of natural resentment, and it shall be our policy to do everything we can to restrain an intemperate exhibition, and in this resolve we are supported by the hope that means may still be found to check the enactment of the bill into law.

Regarding the return of Ambassador Hanihara to Japan a wireless message (copyright) to the New York "Times" from Tokio May 27 said:

The Foreign Office has officially announced that Ambassador Hanihara will soon return to Japan. It is stated at the same time that the Government is not recalling the Ambassador, but is permitting him to return at his own request to explain to the Government the situation in regard to the immigration bill.

National Industrial Conference Board Finds that the Basis Used for Immigration Law Contains Many Defects.

Serious defects in the immigration bill passed by Congress and signed this week by President Coolidge are charged in a report on the measure's scientific aspects by the National Industrial Conference Board of 247 Park Avenue, and made public on May 27. The Board has had a staff of research experts analyzing immigration legislation and its scientific phases since the National Immigration Conference which it initiated last year. Their conclusions will be distributed to the thirty-odd industrial associations for which the Conference Board acts as research agency, and to the public generally. The report, which says that the nation's immigration problem is as far away from a solution as ever, pays particular attention to the work of Dr. H. H. Laughlin, of the eugenics record office of the Carnegie Institution, who was expert adviser to the Department of Labor and the House Committee which reported the preliminary immigration bill. Dr. Laughlin's conclusions summarized in his so-called "analysis of the metal and the dross in America's modern melting pot," are subjected to severe criticism by the Conference Board as unscientific and tending to distort the sound basis on which the eventual solution of the nation's immigration problem must be reached. The intimation is made that the methods adopted in trying to solve the immigration problem have turned the science of biology into a game of "heads we win, tails you lose," for the immigrant. Tracing the idea of immigration regulation in the United States back to 1819, the report charges that not only economic, but also political, social and even religious factors influenced recent immigration legislation. The three major sources of statistics available to the Government, in addition to Dr. Laughlin's work, are cited as the findings of the immigration commission of 14 years ago, the 13-year-old figures of the Census Bureau, and army records. All the available data were not used, the Board finds, and in commenting on this method of procedure, it says:

Only if the concepts, method and results of this basic investigation are sound can the country be assured that it has dealt and will deal with this vital problem in a scientific spirit, and not merely clothed its wishes and prejudices in a body of facts and scientific ideas improvised to justify its purposes. Honest bigotry is less to be condemned than scientific pretension.

The Laughlin inquiry, which is the basis used by Government agencies in furthering the whole official theory of immigration control, has produced results which are inconclusive for the following reasons:

The facts regarding defects found among institutional inmates cannot be regarded as representative of conditions among the general population or among the various racial groups in the United States, because:

The institutions studied for each type of defect did not represent the entire population and all national groups.

These institutions represent populations widely different in size and racial composition.

The practices and conditions affecting commitment to institutions vary widely among the States.

The number of inmates of institutions at a given time is no index of the frequency of occurrence of defects in the population served at the same period, and much less so for a period 11 years earlier, as in this investigation.

The inmates of institutions form a group widely different in age and sex composition from the total population, the foreign-born or any population group. These factors affecting the representativeness of the results were ignored in their interpretation.

Even though the facts regarding defects among institutional inmates in the United States were representative of conditions among the general population, their interpretation in terms of racial values rests upon certain theories relating to the permanency of individual defects, their transmission from one generation to another, their transmission in intermarriage, the fixity of racial characteristics, and the influence of social and economic environment, upon which scientists are not in substantial agreement, and which at this stage represent largely the personal opinion of the investigator or of the school to which he belongs.

It cannot be said, therefore, that the conclusions and recommendations advanced by Dr. Laughlin as the result of his investigation offer an adequate basis for scientific immigration policy.

"Once you assume," the report continues, "that the qualities appearing among the foreign-born immigrants admitted represent, through the operation of exclusive laws, the best qualities of foreign races, it is easy to make a case for the exclusion of normal individuals of certain foreign nationalities. In this way the science of biology is turned into a game of 'heads we win, tails you lose' for the immigrant."

United Neighborhood Houses of New York, Inc., in Letter to President Coolidge Protests Against Immigration Bill as Discriminatory.

Protest against the newly-enacted immigration bill on the ground that it was "unjustly discriminatory" was made in a letter addressed on May 24 to President Coolidge by the United Neighborhood Houses, Inc., through the latter's Executive Secretary, Emily S. Bernheim. As noted in another item the bill was signed by President Coolidge May 26. The following is the letter:

To the Hon. Calvin Coolidge, President of the United States,
Executive Mansion, Washington, D. C.:

My Dear Sir:—We beg to call your attention to the following resolution passed by the 48 settlements in the United Neighborhood Houses of New York, Inc.:

Whereas The United Neighborhood Houses of New York, Inc., is an association of 48 neighborhood and community houses serving upward of 250,000 of the population of New York City, and working chiefly among the foreign born sections of that population, and by reason of the nature of its service has an intimate knowledge of and a peculiar interest in the problem of the immigrant: and

Whereas This association believes that the able in body, the sound in mind and the high in purpose and ideal, emigrating from all nations, have made rich contributions to the social, cultural and economic life of America, and that any method of exclusion which is inconsistent with that fact is unfair, ungracious and at variance with wholesome American tradition; and,

Whereas Congress has passed measures arbitrarily limiting immigration to 2% of the number of the nationals residing here in 1890, a basis of restriction which (even assuming the desirability of limiting immigration) is entirely irrelevant to any proper test of admissibility, a basis which ignores that America's greatest economic and social development has occurred since 1890 and may, therefore, be fairly attributed, in part at least, to the type of immigration which has entered America since that date, and against which said measures discriminate; and

Whereas, Said measures are about to come before the President of the United States of America for his approval; now, therefore, be it

Resolved, That this association protests against the enactment of said measures as unjustly discriminatory, and intolerant in purpose and effect, unfounded upon any fair, useful or logical test for fitness for American citizenship, and unjust to race stocks which have proved pre-eminently loyal in peace time and in war, law abiding and productive; and be it further

Resolved That copies of these resolutions be forwarded to the President of the United States of America.

Respectfully yours,
(Signed) EMILY S. BERNHEIM, *Executive Secretary.*

Congress Approves Conference Report on Tax Revision Bill.

Congress completed its work on the tax revision bill this week, with the adoption by it of the conference report on the measure. The report was agreed to by the Senate on May 24 by a vote of 60 to 6, while the House on May 26 approved the report by a vote of 376 to 9. Following the action of the House the bill was sent to President Coolidge, the latter turning it over to Secretary of the Treasury Mellon for an expression of opinion before deciding upon his course of action. While Secretary Mellon has been reported as strongly opposed to the bill in its present form, reports from Washington late this week indicated that he was likely to offer opposition to its approval by the President. The compromise bill, which has been accepted by Congress had been agreed on by the conferees of the Senate and House on May 21 and formally presented to the Senate on May 23. The measure was made the subject of conference following the adoption by the Senate on May 10 of a bill, as amended by a coalition of insurgent Republicans and Radicals with the Democrats, this bill embodying the Simmons schedules of tax rates; details of its provisions were given in these columns May 17, page 2388. The bill, in the form in which it had passed the House on Feb. 29 (as indicated in our issue of March 1, page 959), carried the Longworth income tax proposals. The Mellon proposals embodied in the bill as originally drafted had been displaced in the House, sitting in Committee of the Whole on Feb. 19 by the Garner or Democratic proposals, but these had eventually been dropped by the House in accepting the Longworth proposals. Under the bill perfected in conference, and finally adopted by Congress the Simmons income tax schedules—normal and surtaxes—are retained; the bill provides for a normal tax rate of 2% upon the first $4,000 of net income; 4% upon the next $4,000 of net income, and 6% upon the amount of net income in excess of $8,000. This compares with the present rate of 4% on net incomes of $4,000 and 8% above that amount. Elsewhere we give in this issue a statement on the part of the managers of the House in explanation of the conference report, together with a statement thereon by Senator Smoot.

Reference to the conference's action on the bill was made in our issue of a week ago, page 2525. The 60 votes cast in the Senate on May 24, in favor of the adoption of the bill, came from 30 Republicans and 30 Democrats, while the 6 negative votes were those of 5 Republicans (Senators Brookhart, Ernst, Frazier, Moses and Norris) and one farmer-labor Senator—Johnson of Minnesota. The New York "Herald-Tribune" states:

Senators Moses and Ernst are Mellon plan supporters. Senators Norris, Brookhart and Frazier opposed the conference report because the publicity of tax returns and the Jones graduated corporation tax plan were eliminated by the conferees.

In the House on May 26 the 9 votes cast in opposition to the bill were those of Representatives Fenn, Connecticut; Hill, Maryland; McFadden, Pennsylvania; Merritt, Connecticut; Mills, New York; Moores, Indiana; Phillips, Pennsylvania; Tilson, Connecticut, and Wainwright, New York, all Republicans. The 376 votes registered in support of the conference report in the House were made up as follows: 187 Democrats, 186 Republicans and 3 Independents, viz. Representatives Berger, Kvale and Wefals. In the House on the 26th, before the adoption of the report, Chairman Green of the Ways and Means Committee said:

The American Congress, in answer to the charges that it was not willing to reduce taxation, will shortly present to the people of the United States a bill that will reduce taxes on individual and corporate incomes $232,000,000 and excite taxes $56,000,000 this calendar year, about $400,000,000 the next calendar year, and over $400,000,000 the following calendar year. In taking these figures, it should be kept in mind that the calendar year is different from the fiscal year.

We bring to the American people a bill which I believe—in fact, am satisfied—is more scientific than any other bill ever presented in the history of this country since we began the heavy taxation which has been made necessary by the war.

For the first time we have put estate taxes on a scientific basis, where every estate throughout the whole breadth of the country will pay the same tax on a like amount. We have made the income tax so light on the smaller taxpayers that no man who does not have an income greater than $10,000 has any reason to complain about the amount he pays to the Federal Government.

Representative Green also said:

The managers of the conferences on the part of the House come back to the House with great pleasure, reporting that they return this bill to the House substantially as it left it, the Senate having receded in the most important particulars. They also report to the House a bill which I can assure the country will not create a deficit. I hold in my hand the last estimate made by the Actuary of the Treasury with reference to the Treasury conditions under this bill in the fiscal year of 1925. This morning I talked with the Actuary of the Treasury over the telephone with reference to the balance remaining in the Treasury at the end of the fiscal year 1924—that is, the balance on June 30 next. The House will remember I told them a few days ago that there would be sufficient surplus for the fiscal year 1924 to pay the bonus twice over. The Actuary of the Treasury assures me this morning that I was well within the limits of accuracy so far as that part is concerned. This statement which I hold in my hand, coming from him, also shows that the surplus for the fiscal year 1925, without including the bonus, which can be taken care of out of the previous surplus, will be $138,000,000. It also shows—and I want to particularly call the attention of the House to this point—that the difference between the present bill as now returned to you and what is commonly denominated as the Mellon plan is only a comparatively small amount.

Twenty-two million dollars, of which $10,000,000 is in the individual income and corporation taxes and the balance in the excise taxes, from which the House will remember we took off more than did the original Mellon plan. This will bring into the Treasury $22,00,000 less than the Mellon plan.

One hundred and thirty-eight million dollars is the surplus in the fiscal year 1925, out of which one-half of the reduction is taken. The other one-half comes out of this fiscal year, 1924, and the statement I made that we would have sufficient to pay the bonus twice over out of the surplus for the year 1924 makes due allowance for the payment of the 25% reduction.

The Actuary's statement was submitted as follows:

ESTIMATED REVENUE, FISCAL YEAR 1925.
(Revenue Act of 1924 as agreed to in conference.)

Source.	*Mellon Plan.*	*Present Law.*	*Revenue Act of 1924.*
Customs	$500,000,000	$500,000,000	$500,000,000
Internal revenue:			
Individual income and corporation tax	$1,652,000,000	$1,900,000,000	$1,650,000,000
Miscellaneous taxes	824,000,000	925,000,000	814,000,000
Total internal revenue taxes	$2,486,000,000	$2,825,000,000	$2,464,000,000
Miscellaneous receipts	473,000,000	473,000,000	473,000,000
Total ordinary receipts	$3,459,000,000	$3,798,000,000	$3,437,000,000
Expenditures chargeable against ordinary receipts (Budget estimate of Dec. 3 1923, not including additional expenditures authorized or to be authorized since that date)	3,298,100,000	3,298,100,000	3,238,100,000
Excess of ordinary receipts over total expenditures chargeable against ordinary receipts	$160,900,000	$499,900,000	$138,900,000

To this surplus should be added whatever taxes are collected by the Department in excess of $200,000,000 on account of income and profits taxes for previous years.

Representative Mills of New York (Republican), who criticized the provisions governing the Board of Tax Appeals and the publicity of tax returns, had the following to say in part regarding the latter:

The ridiculous provision which the conferees have agreed to with reference to the publication of the name of every income taxpayer, together with the amount of his tax, needs no comment. There is not a man on this floor, there is not a man anywhere, who can suggest how the publication of the amount of the tax paid by an individual will facilitate the collection of the tax. I wish some of the conferees would explain to the House how the publication of that information can be of any conceivable public benefit. Everyone knows that the sole purpose it can serve is to satisfy the curiosity of individuals as to what taxes their neighbors are paying. It is an invasion of privacy unjustified by any public good. It is impossible to justify it, and I think that you gentlemen, if you vote for this conference report, will find it mighty difficult to go home to your districts and explain to the income taxpayers, whom you represent, why you voted to post their names, together with the tax paid.

From the "Congressional Record" we take the following statement by Senator Walsh of Massachusetts on important changes in the existing law which will be effected by the bill:

1. The bill contains a provision for a reduction of 25% in the tax payable in 1924 on the incomes of 1923.

2. The tax upon corporations remains as under the present law; to wit, a flat tax of 12½% upon the net income of corporations. The present capital stock tax is retained.

3. The rates of the estate tax which in the existing law range from 4% of the amount of the net estate not in excess of $50,000 to 25% of the amount by which the net estate exceeds $10,000,000 have been altered to range from 1% of the net estate and in excess of $50,000, to 40% of the amount by which the net estate exceeds $10,000,000.

4. For the calendar year 1924 and each calendar year thereafter a tax is imposed upon transfers by gifts of any property whether made directly or indirectly. The rate of the gift tax ranges from 1% of the amount of taxable gifts not in excess of $50,000 to 40% of the amount of which the net estate exceeds $10,000,000.

5. The existing law provides for a normal tax upon the first $4,000 of net income of 4%, and upon the remainder of the net income of 8%. The bill provides for a normal tax rate of (1) 2% upon the first $4,000 of net income; (2) 4% upon the next $4,000 of net income; and (3) 6% upon the amount of net income in excess of the amounts taxed under (1) and (2).

6. The surtax rates are reduced so as to begin at 1% on the net income from $10,000 to $14,000; and reach a maximum of 40% of the amount of the net income in excess of $500,000. The existing law provides for surtaxes beginning at 1% upon the net income between $6,000 and $10,000, and reaching a maximum of 50% of the amount by which the net income exceeds $200,000.

7. In the case of an individual, the tax is to be credited with 25% of the amount of the tax which would be payable if his earned net income constituted his entire net income, but not in excess of 25% of his normal tax. Earned income is defined as wages, salaries, professional fees, and other amounts received as compensation for personal services actually rendered, including in the case of a taxpayer engaged in a trade or business in which both personal services and capital are material income-producing factors, a reasonable allowance as compensation for personal services, not in excess of 20% of the taxpayer's share of the net proceeds of the trade or business. It is provided that net incomes of $5,000 and less shall be considered as earned, and that at least $5,000 of net incomes in excess of that amount shall be considered as earned. It is further provided that the amount of the net income shall not be considered to be in excess of $10,000.

8. It is provided that the amount by which the tax is reduced on account of losses from the sale of capital assets shall not exceed 12½% of the loss. There is no such limit in the present law.

9. The principle contained in the Revenue Act of 1918 that liquidating dividends constitute a sale of the stock instead of a distribution of earnings has been restored. This puts liquidating dividends within the capital gains section of the bill and recognizes the real effect of such dividends.

10. The section with reference to reorganization of corporations has been rewritten to eliminate existing uncertainties in the present Act and to include other usual forms of corporate reorganization in aid of business, such as the splitting of one corporation into two or more corporations.

11. Provisions have been inserted to prevent the use of the reorganization section to escape proper taxation by increasing the basis for depreciation or depletion, or by increasing the basis of gain or loss from the sale of assets transferred in connection with the reorganization, or by distributing as capital gains what are, in effect, dividends out of earnings.

12. The deduction for discovery depletion is limited to 50% of the net income from the property depleted.

13. In the case of a trust where the trustee has the discretion to distribute the income or not the income is taxed to the beneficiary if distributed and to the trustee if not distributed.

14. Where the grantor of a trust reserves the right to change the trust in favor of himself the income of the trust is taxed to the grantor.

15. The tax under Section 220 which seeks to penalize corporate forms used to avoid imposition of the surtaxes on the stockholders is now based on all of the income of the corporation which will be taxed in the hands of an individual. The rate of tax has been changed from 25% to 50% in the bill as reported.

16. The application of the present law requiring income for a fractional part of a year to be placed on an annual basis is restricted to cases where a return is made for part of a year as the result of voluntary act of the taxpayer in making a change in his taxable year.

17. A Board of Tax Appeals, the members to be appointed by the President with the advice and consent of the Senate, is created to hear appeals from the assessment of additional income and estate taxes. The board will sit locally in the various judicial circuits throughout the country. The cases of both the Government and the taxpayer will be presented before the board, and the practice will be similar to that before the Inter-State Commerce Commission. Upon a decision in favor of the Government the additional tax can be assessed by the Commissioner of Internal Revenue, and the taxpayer is left to his remedy in the courts for a recovery of the tax If the decision is in favor of the taxpayer, the commissioner may not assess the tax, but is left to his remedy in the courts in a suit to collect it. In any court proceedings the findings of the board shall be taken as prima facie evidence of the facts contained therein.

18. The tax on telephone and telegraph messages is repealed.

19. Title VI of the existing law imposing a tax on beverages and the constituent parts thereof is repealed.

20. The excise tax upon automobiles and trucks is retained with this modification: Chassis of trucks sold for less than $1,000 are exempt. Under the present law there is no exemption. The tax on tires, inner tubes, parts, and accessories sold to any person other than manufacturer is reduced from 5 to 2½%.

21. The tax imposed upon admissions by Title VIII of the existing law is changed to apply only to admissions in excess of 50 cents.

22. The taxes imposed upon candy, knives, dirks, livery and hunting garments, and yachts, by paragraphs (6), (8), (9), (12), (13), and (14) of Section 900 of Title IX are repealed.

23. The taxes imposed upon carpets, trunks, valises, purses, lighting fixtures, and fans by Section 904 of Title IX are repealed.

24. A tax of 10% is imposed upon sales by manufacturer of mah jong and similar tile sets.

25. The tax upon the sale of jewelry has been amended so that it will not apply to articles used for religious purposes or to articles sold for an amount not in excess of $30.

26. The taxes imposed upon proprietors of theatres, circuses, and other public exhibitions by paragraphs (5), (6), and (7) of Section 1001 are repealed.

27. Brokers exclusively engaged in negotiating purchases and sales of produce and merchandise are exempted from the occupational tax of $50 imposed upon brokers.

28. The tax imposed upon sales of produce by paragraph (4) of Schedule A of Title XI (stamp taxes) is reduced from 2 cents per $100 to 1 cent.

29. The stamp tax of 2 cents for each $100 imposed upon drafts, checks, and promissory notes is repealed.

30. Publicity—

(a) It is provided that returns shall be open to the Ways and Means Committee and the Finance Committee and provision is made for the publication of the amount of tax paid by each taxpayer.

(b) It is provided that all hearings in contested cases before the Board of Tax Appeals shall be open to the public, and that all evidence before the board and the record of the board should be open to public inspection.

Conference Report on Tax Revision Bill.

Details of the action of Congress this week in passing the tax revision bill as agreed on in conference are given elsewhere in this issue, and we take occasion here to give the explanation made by the managers of the House regarding the action of the conferees of the Senate and House in adjusting the differing provisions of the bills as they came from the two branches of Congress.

STATEMENT.

The managers on the part of the House, at the conference on the disagreeing votes of the two Houses on the amendments of the Senate to the bill (H. R. 6715) to reduce and equalize taxation, to provide revenue, and for other purposes, submit the following written statement in explanation of the effect of the action agreed upon by the conferees and recommended in the accompanying conference report.

On amendment No. 1: The House bill provided that corporate earnings or profits accumulated or increase in value of property accrued before March 1 1913, may be distributed exempt from tax after the earnings and profits accumulated after Feb. 28 1913, have been distributed. The Senate amendments adds to the list of tax-free distributions "capital paid in" before March 1 1913; and the Senate recedes.

On amendment No. 2: The House bill provided that the gain from a liquidating dividend, to the extent of the earnings and profits accumulated by the corporation since March 1 1913, should be treated as a dividend and subject to the surtax rates. The Senate amendment strikes out this provision, with the result that a liquidating dividend is to be treated as a sale of stock and taxable as a gain from the sale of property; and the House recedes.

On amendment No. 3: This amendment makes a clerical change; and the House recedes.

On amendment No. 4: This amendment provides that there shall be included within the provisions of subdivision (d) of section 201 amounts distributed by corporations out of depletion reserves based upon the discovery value of mines. As contained in the House bill the provision includes distributions made out of depletion and depreciation reserves based upon the cost of the property depreciated or depleted, but, under the House bill, distributions out of depletion reserves based upon discovery value are treated as ordinary dividends. The Senate amendment applies only to depletion reserves based upon the discovery value of mines; and the House recedes.

On amendment No. 5: This amendment is to clarify the wording of the House bill; and the House recedes.

On amendment No. 6: The House bill provided that certain expenditures "properly chargeable" with respect to property should be taken into consideration in determining gain or loss. The Senate amendment limits such expenditures to those "previously allowed;" and the House recedes.

On amendment No. 7: This amendment allows the exchange of common stock in a corporation for other common stock in the same corporation and of preferred stock in a corporation for other preferred stock in the same corporation, even though the exchange is not made in connection with the reorganization of the corporation; and the House recedes.

On amendment No. 8: This amendment makes a clerical change; and the House recedes.

On amendments Nos. 9, 10 and 11: These amendments are designed to clarify the provisions of the House bill and to show clearly that the types of transactions described in paragraphs (7) and (8) of subdivision (a) of section 204 are not within the provisions of paragraph (6) and are not subject to rules laid down therein, even though the particular transaction, because of the date of its occurrence or for some other reason, may not be within the provisions of paragraphs (7) or (8); and the House recedes.

On amendment No. 12: The House bill provided that where a person transfers assets to a corporation after Dec. 31 1920, in exchange for stock of the corporation in such a manner that no gain or loss to the transferor is recognized or that only a part of the gain or loss to the transferor is recognized, the basis of the assets in the hands of the corporation shall be the same as it would have been in the hands of the transferor, adjustment being made for any gain or loss recognized to the transferor upon the exchange. The Senate amendment strikes out this provision. The House recedes with an amendment restoring the language of the House bill but omitting the phrase "notwithstanding the provisions of paragraph (6) of this subdivision," for the reasons explained in connection with amendment No. 9.

On amendments Nos. 13, 14 and 15: These amendments make changes in the numbering of the paragraphs; and the Senate recedes.

On amendment No. 16: This amendment provides that in determining the fair market value of stock in a corporation as of March 1 1913, due regard shall be given to the fair market value of the assets of the corporation as of that date; and the House recedes.

On amendment No. 17: This amendment makes a clerical change; and the House recedes.

On amendment No. 18: Subdivision (c) of section 204 of the House bill provided the basis upon which depletion, exhaustion, wear and tear, and obsolescence are to be allowed in respect of any property. The Senate amendment adds a sentence to the effect that discoveries, upon which depletion is based in certain cases, shall include minerals discovered or proven in an existing mine or mining tract by the taxpayer after Feb. 28 1913, not included in any prior valuation; and the Senate recedes.

On amendments Nos. 19, 21, 22, 23, 25, 26, 27, 28, 30, 31, 32, 33, 34, 35, 36 and 69: The House bill provided that in the case of any taxpayer (other than a corporation) who for any taxable year sustains a capital net loss, there shall be levied, collected, and paid in lieu of the taxes imposed by sections 210 and 211 a tax determined as follows: A partial tax shall first be computed upon the ordinary net income at the rates and in the manner provided in sections 210 and 211, and the total tax shall be this amount minus 12½% of the capital net loss; but in no case shall the tax so computed be less than the tax imposed by sections 210 and 211 computed without regard to the provisions of this section. Senate amendment No. 30 struck out this provision and the other amendments struck out other provisions of the bill with reference to capital losses. The Senate recedes on amendment No. 30, which necessitates the restoration of all the provisions of the House bill with reference to capital losses, and consequently the Senate recedes with reference to the other amendments.

On amendment No. 20: This amendment makes a clerical change necessitated by the action of the conferees upon amendment No. 54; and the House recedes.

On amendments Nos. 21, 22 and 23: The effect of these amendments and the action of the conferees thereon has been explained in connection with amendment No. 19.

On amendment No. 24: This amendment makes a clerical change; and the House recedes.

On amendments Nos. 25, 26, 27 and 28: The effect ot these amendments and the action of the conferees thereon has been explained in connection with amendment No. 19.

On amendment No. 29: The House bill provided that there should not be included within the term "capital assets" stock received as a stock dividend by the taxpayer, or by the donor if the taxpayer acquired the stock by gift. The Senate amendment strikes out this provision; and the House recedes.

On amendments Nos. 30, 31, 32, 33, 34, 35 and 36: The effect of these amendments and the action of the conferees thereon has been explained in connection with amendment No. 19.

On amendment No. 37: This amendment makes clerical changes; and the House recedes.

On amendment No. 38: The House bill limited the amount which might be considered as earned net income to $20,000. The Senate amendment changes this amount to $10,000; and the House recedes.

On amendment No. 39: The House bill provided for a credit against the income tax of an individual of 25% of an amount bearing the same relation to the total amount of the tax as the amount of the earned net income.ears to the total amount of the net income. The Senate amendment provides for the. rediting against the tax of 25% of the amount of tax which would be payable by the taxpayer on.z total ordinary net income equal in amount to his earned net income. The House recedes with clerical amendments and with an amendment limiting the amount of the credit to 25% of the normal tax of the taxpayer.

On amendment No. 40: This amendment makes a clerical change in the lettering of the subdivision; and the House recedes.

On amendment No. 41: The House bill provided for a normal tax at the rate of 6% except that in the case of the first $4,000 the tax was at the rate of 2%, and upon the next $4,000 the tax was at the rate of 5%. The Senate amendment provides that the tax upon the second $4,000 shall be at the rate of 4%; and the House recedes with an amendment making clerical changes.

On amendment No. 42: The House bill provided for surtax rates ranging from 1½% of the amount by which the net income exceeds $10,000 and does not exceed $12,000, to 37½% of the amount by which the net income exceeds $200,000. The Senate amendment provides for surtax rates ranging from 1% of the net income in excess of $10,000 and not in excess of $14,000, to 40% of the net income in excess of $500,000; and the House recedes.

On amendment No. 43: The House bill provided that items of gross income should be considered to be received in the taxable year in which they are unqualifiedly made subject to the demands of the taxpayer. This provision was designed to require dividends, bond interests, and salaries such as drawing accounts, to be included in income when subject to demand by the taxpayer even though not actually received in cash by him. Since this is the rule which is and should be followed in such cases in the absence of the statutory provision, the Senate amendment strikes out the provision; and the House recedes.

On amendment No. 44: The House bill provided that whenever any State, Territory, political subdivision, or the District of Columbia, prior to Sept. 8 1916, entered in good faith into a contract with any person, the object and purpose of which is to acquire, construct, operate, or maintain a public utility, the tax pon the income from the operation of such public utility shall be collected and paid in the manner and at the rates prescribed in this title, but there shall be refunded to such State, Territory, political subdivision, or the District of Columbia, a part of such tax equal to the amount by which the share of income from the operation of such public utility accruing to such State, Territory, political subdivision thereof, or the District of Columbia, was reduced by the imposition of such tax. The Senate amendment provides that in the case of such a contract no tax shall be levied under the provisions of this title upon the income derived from the operation of such public utility, so far as the payment thereof will impose a loss or burden upon such State, Territory, District of Columbia, or political subdivision; but that the provision is not intended and shall not be construed to confer upon such person any financial gain or exemption or to relieve such person from the payment of the tax as provided for in this title, upon the part or portion of such income to which such person is entitled under such contract. The House recedes, with an amendment providing that: (1) If by the terms of such contract the tax imposed by this title is to be paid out of the proceeds from the operation of such public utility, prior to any division of such proceeds between the person and the State, Territory, political subdivision, or the District of Columbia, and if, but for the imposition of the tax imposed by this title, a part of such proceeds for the taxable year would accrue directly to or for the use of such State, Territory, political subdivision, or the District of Columbia, then a tax upon the net income from the operation of such public utility shall be levied, assessed, collected, and paid in the manner and at the rates prescribed in this title, but there shall be refunded to such State, Territory, political subdivision, or the District of Columbia (under rules and regulations to be prescribed by the commissioner with the approval of the Secretary), an amount which bears the same relation to the amount of the tax as the amount which (but for the imposition of the tax imposed by this title) would have accrued directly to or for the use of such State, Territory, political subdivision, or the District of Columbia, bears to the amount of the net income from the operation of such public utility for such taxable year; and (2) if by the terms of such contract no part of the proceeds from the operation of the public utility for the taxable year would, irrespective of the tax imposed by this title, accrue directly to or for the use of such State, Territory, political subdivision, or the District of Columbia, then the tax upon the net income of such person from the operation of such public utility shall be levied, assessed, collected, and paid in the manner and at the rates prescribed in this title.

On amendment No. 45: This paragraph of the House bill exempts from gross income certain amounts received as compensation or allowances under the War Risk Insurance and Vocational Rehabilitation Acts. The amendment adds to the list of these Acts "World War Veterans' Act, 1924," under which certain compensation and allowances will be paid in the future; and the House recedes.

On amendment No. 46: The Senate amendment adds to the items enumerated as exempt from taxation a State pension for services rendered by the beneficiary or another for which the State is paying a pesion; and the House recedes.

On amendment No. 47: The House bill provided that there shall be allowed as deductions in computing net income of an individual all interest paid or accrued within the taxable year on indebtedness. The State amendment added to this provision "except on indebtedness incurred or continued for the purpose of evading the payment of taxes and also except indebtedness incurred or continued to purchase or carry obligations or securities (other than obligations of the United States issued after Sept. 24 1917, and originally subscribed for by the taxpayer) the interest upon which is wholly exempt from taxation under this title;". The House, in view of the action of the conferees on amendment No. 54, recedes, with an amendment which restores the language of the existing law, striking out of the provision added by the Senate amendment the words "incurred or continued for the purpose of evading the payment of taxes and also except indebtedness."

On amendments Nos. 48 and 80: The Senate amendments add a provision to the effect that taxes or assessments levied to pay the cost of construction or maintenance of works to protect property from damage or destruction by floods, or annual or periodical taxes assessed against construction or repair of levees or drainage improvements, may be deducted in computing net income; and the Senate recedes.

On amendment No. 49: The Senate amendment adds religious, charitable, scientific, literary, or educational trusts to the list of organizations contributions to which are deductible in computing net income under the Act; and the House recedes.

On amendment No. 50: This amendment makes a clerical change; and the House recedes.

On amendment No. 51: This amendment allows the deduction of contributions to a fraternal society, order, or association, operating under the lodge system, or community chest, but only if such contributions or gifts are to be used exclusively for religious, charitable, scientific, literary, or educational purposes, or for the prevention of cruelty to children or animals. The House recedes with an amendment striking out the words "or community chest."

On amendment No. 52: The House bill limits to 15% of the taxpayer's net income the amount which he can deduct, in computing net income, for contributions to charity. The Senate amendment provides that this limitation shall not apply if the taxpayer has in each of the 10 preceding years, as well as the year in question, contributed an amount equal to or exceeding 90% of his income for each such year to the organizations and for the purposes specified in this paragraph; and the House recedes.

On amendment No. 53: The Senate amendment adds two paragraphs to subdivision (a) of section 214, which sets forth the deductions allowed in computing net income, which paragraphs make special provision for computing net income and deductions in the case of lands managed for the production of crops of timber; and the Senate recedes.

On amendment No. 54: The House bill provided that the deduction for interest paid on indebtedness (except indebtedness incurred in connection with the trade or business of the taxpayer) and the deduction for nonbusines losses should be allowed as deductions in computing net income only, if and to the extent that the sum of these amounts exceeds the income of hte taxpayer from tax-exempt securities. The Senate amendment strikes out this provision; and the House recedes.

On amendment No. 55: The House bill provided a personal exemption in the case of a single person of $1,000, or in the case of the head of a family or a married person living with husband or wife, of $2,500, unless the net income is in excess of $5,000, in which case the personal exemption shall be $2,000. The Senate amendment provides a personal exemption in the case of a single person of $1,000, or in the case of the head of a family or a married person living with husband or wife, of $2,500; and the House recedes.

On amendment No. 56: The House bill retained the provisions of the existing law to the effect that the personal exemption and the credit for dependents should be determined by the status of the taxpayer on the last day of the period for which the return of income is made. The Senate amendment provides that in case the status of the taxpayer changes during his taxable year personal exemption should be prorated according to the number of months during which the taxpayer occupied each status. The House recedes with a clerical amendment made necessary by the action taken on amendment No. 55.

On amendments Nos. 57, 58 and 59: These amendments make clerical changes; and the House recedes.

On amendment No. 60: This amendment excepts from the general provisions of the subdivision, which provides the general method of taxing the incomes of estates and trusts, subdivisions (g) and (h) of section 219, which provide a method for taxing the incomes of estates and trusts in specific cases; and the House recedes.

On amendment No. 61: The Senate amendment provides for the deduction in computing the net income of a trust of any part of the gross income which, pursuant to the terms of the will or deed creating the trust, is paid by the trustee or permanently set aside for the prevention of cruelty to children or animals, or for a pubic cemetery not operated for profit. The House recedes with an amendment making clerical changes.

On amendment No. 62: The House bill provided that where the grantor of a trust reserves the power to revoke the trust the income of the trust shall be included in computing the net income of the grantor. The Senate amendment provides for the taxation to the grantor of the income of a trust, if he, either alone or in conjunction with any person, has the power during the taxable year to revoke the trust. The House recedes with an amendment providing for the taxation to the grantor of the income of a trust if the grantor, either alone or in conjunction with any person not a beneficiary of the trust, has the power during the taxable year to revoke the trust.

On amendment No. 63: The House bill provided that where any part of the income of a trust may, in the discretion of any person, including the grantor of the trust, be distributed to the grantor or be held or accumulated for future distribution to him, or where any part of the income of the trust is or may be applied to the payment of premiums upon policies of insurance on the life of the grantor, whether payable to his estate or otherwise, such part of the income of the trust should be included in computing the net income of the grantor. The Senate amendment provides that where any part of the income of a trust may, in the discretion of the grantor of the trust, either alone or in conjunction with any person, be distributed to the grantor or held or accumulated for future distribution to him, or applied to the payment of premiums upon policies of insurance on his life, except policies payable to benevolent organizations specified in section 214 (a) (10), the income shall be included in computing the net income of the grantor. The House recedes with an amendment limiting the application of the subdivision to cases where the income of the trust may, in the discretion of the grantor of the trust, either alone or in conjunction with any person not a beneficiary of the trust, be distributed to the grantor, accumulated for future distribution to him, or so used in the payment of premiums upon policies of insurance on his life.

On amendment No. 64: The House bill provided that if any corporation is formed or availed of for the purpose of preventing the imposition of surtaxes upon its shareholders by permitting its gains and profits to accumulate instead of being distributed, there should be levied, collected, and paid for each taxable year upon the net income of such corporation a tax equal to 25% of the amount of the earnings in addition to the tax imposed by section 230. The Senate amendment changes the rate of the tax from 25 to 50%; and the House recedes.

On amendment No. 65: The House bill provided that if all the shareholders of a corporation formed or availed of for the purpose of preventing the imposition of the surtax upon its shareholders should agree thereto, the commissioner might, in lieu of all income taxes imposed upon the corporation for the taxable year, tax the shareholders of such corporation upon their distributive shares in the net income of the corporation for the taxable year in the same manner as provided in subdivision (a) of section 218 in the case of members of a partnership. The Senate amendment strikes out this provision; and the House recedes.

On amendments Nos. 66, 67 and 68: These amendments make clerical changes; and the House recedes.

On amendment No. 69: The effect of this amendment and the action of the conferees thereon has been explained in connection with amendment No. 19.

On amendment No. 70: The House bill provided that partnership and fiduciary returns on which no tax is shown to be due should be filed with the commissioner. The Senate amendment strikes out this provision, thereby restoring the subdivision to the form in which it appears in the existing law; and the House recedes.

On amendment No. 71: The Senate amendment provides that the shareholders of any corporation may, if they all agree thereto, elect to be taxed in the same manner as the members of a partnership, and, in any such case, the corporation shall be exempt from tax; and the Senate recedes.

On amendment No. 72: The House provided for a tax of 12½% upon the net income of every corporation in excess of the credits provided in sections 236 and 263. The Senate amendment strikes out this provision and inserts in lieu thereof provisions for a normal tax upon the net income of every corporation of 9%, and for surtaxes upon the amount of its surtax net income, as therein defined, based upon the relation between the undistributed net income and the surtax net income; and the Senate recedes.

On amendment No. 73: This amendment makes a clerical change; and the House recedes.

On amendment No. 74: This amendment makes a clerical change; and the House recedes.

On amendment No. 75: The House bill provided that local associations of employees, the membership of which is limited to employees of a designated person or persons in a particular municipaltiy and the net earnings of which are devoted exclusively to charitable, educational, or recreational purposes, whether or not for the benefit of the members and their families, should be exempt from income taxation. The Senate amendment strikes out the words "whether or not for the benefit of the members and their families;" and the House recedes.

On amendment Nos. 76 and 79: The House bill provided for the exemption of benevolent mutual life insurance associations not operated for profit, whose business is purely local and wholly for the benefit of its members. Senate amendment No. 79 strikes out this provision, but amendment No. 76 provides for the exemption of mutual life insurance companies if 85% or more of the income consists of amounts collected from members for the sole purpose of meeting losses and expenses. The Senate recedes on amendment No. 76, and the House recedes on amendment No. 79, with an amendment providing for the exemption of benevolent life insurance associations of a purely local character, if 85% or more of the income consists of amounts collected from members for the sole purpose of meeting losses and expenses.

On amendment No. 77: The Senate amendment provides for the exemption under certain conditions of casualty or fire reciprocal or interinsurance exchanges; and the Senate recedes.

On amendment No. 78: The House bill provided for the exemption of certain specified mutual companies if substantially all the income consists of amounts collected from members for the sole purpose of meeting losses and expenses; the Senate amendment provides for the exemption of such organizations if 85% or more of the income consists of such amounts; and the House recedes.

On amendment No. 79: The effect of this amendment and the action of the conferees thereon has been explained in connection with amendment No. 76.

On amendment No. 80: The effect of this amendment and the action of the conferees thereon has been explained in connection with amendment No. 48.

On amendments Nos. 81, 82 and 83: These amendments make certain changes carrying out the action of the Senate in making amendment No. 72; and, in accordance with the action of the conferees on amendment No. 72, the Senate recedes.

On amendment No. 84: This amendment makes a clerical change; and the House recedes.

On amendments Nos. 85 and 86: The House bill provided that two or more corporations shall be deemed to be affiliated if one corporation owns at least 85% of the voting stock of the other, or if at least 85% of the voting stock of two or more corporations is owned by the same interests. The Senate amendment changes these percentages to 95; and the House recedes.

On amendment No. 87: The House bill provided that the commissioner shall consolidate the gains of related trades and businesses in certain cases. The Senate amendment provides that the commissioner may, and at the request of the taxpayer shall, consolidate the accounts in certain specified cases; and the House recedes.

On amendments Nos. 88 and 91: The House bill provides that there shall be levied, collected, and paid for each taxable year upon the net income of certain specified insurance companies a specified tax, in lieu of the tax imposed by sections 230 and 800. The Senate amendments strike out the words "taxes imposed by sections 230 and 800," and insert in lieu thereof "tax imposed by section 230;" and the House recedes with amendments restoring the language of the House bill with clerical amendments.

On amendments Nos. 89 and 92: The House bill provided for a tax upon certain insurance companies of "the same percentage of its net income as is imposed upon other corporations by section 230." The Senate amendment changes the language of the House bill to provide for a tax at the rate of 12½%; and the Senate recedes.

On amendments Nos. 90 and 93: The House bill provided for a tax upon certain foreign insurance companies of "the same percentage of its net income from sources within the United States as is imposed upon the net income of other corporations by section 230." The Senate amendment provides that the tax shall be at the rate of 12½%; and the Senate recedes.

On amendments Nos. 91, 92 and 93: The effects of these amendments and the action of the conferees thereon has been explained in connection with amendments Nos. 88, 89 and 90, respectively.

On amendment No. 94: This amendment makes a clerical change; and the House recedes.

On amendment No. 95: This amendment makes a clerical change; and the Senate recedes.

On amendment No. 96: The House bill provided that returns upon which the tax has been determined shall be open to inspection only upon order of the President and under rules and regulations prescribed by the Secretary and approved by the President; with special provisions for the inspection of returns by, and the furnishing of information to, the Committee on Ways and Means of the House of Representatives, the Committee on Finance of the Senate, a special committee of the Senate or House, the proper officers of any State, and bona fide shareholders of record of a corporation. The Senate amendment strikes out these provisions and in lieu thereof provides that returns upon which the tax has been determined by the commissioner shall constitute public records and shall be open to examination and inspection as other public records under the same rules and regulations as may govern the examination of public documents generally; and that all claims for abatement or refund of taxes, including decisions, shall likewise be subject to inspection under similar rules. The House recedes with amendments restoring the provisions of the House bill with clerical changes, and with an amendment providing that there shall be available for public inspection in the collectors' offices, in addition to the names and addresses of income taxpayers, the amounts of income taxes paid by such taxpayers.

On amendments Nos. 97 and 98: These amendments make clerical changes; and the House recedes.

On amendments Nos. 99, 102, 103, 107, 125, 138, 139, 160 and 247: The House bill provided that the rate of interest upon amounts the payment of which has been extended, upon deficiencies, and upon credits and refunds, should be 5%. The Senate amendment changes the rate to 6%; and the House recedes.

On amendment No. 100: This amendment makes a clerical change; and the House recedes.

On amendment No. 101: The House bill provided in subdivision (b) of section 274 that if the Board of Tax Appeals determines that there is a deficiency, the amount so determined shall be assessed and shall be paid upon notice and demand from the collector. The Senate amendment strikes out subdivision (b) and inserts in lieu thereof provisions to the effect that if the board determines that there is a deficiency, the amount so determined shall be assessed and the taxpayer shall be notified of the assessment; that within 30 days after the mailing of such notice, the taxpayer may file with the commissioner a written statement showing the amount of the deficiency, if any, admitted by him to be due, and the amount of tax so admitted shall be paid upon notice and demand from the collector; that if the deficiency determined by the board is in excess of the amount so admitted by the taxpayer, the amount of such excess may be collected only by a civil suit brought in the name of the United States in the district court. The House recedes, with an amendment restoring the provisions of the House bill, and providing that if the board determines that there is a deficiency the amount so determined shall be assessed and shall be paid upon notice and demand from the collector; that no part of the amount determined as a deficiency by the commissioner but disallowed by the board shall be assessed, but a proceeding in court may be begun without assessment for the collection of any part of the amount so disallowed; and that the court shall include in its judgment interest upon the amount thereof at the rate of 6% per annum, from the date prescribed for the payment of the tax to the date of judgment.

The Senate amendment alters the provisions of subdivisions (c) and (d) of section 274 to correspond with the changes made in subdivision (b). By the action of the conferees the provisions of subdivisions (c) and (d) of the House bill are restored without change.

On amendments Nos. 102 and 103: The effect of these amendments, and the action of the conferees thereon, has been explained in connection with amendment No. 99.

On amendment Nos. 104 and 105: These amendments make clerical changes; and the House recedes.

On amendment No. 106: The Senate amendment adds a specific provision for interest at the rate of 1% a month upon deficiencies prorated to

unpaid installments of the tax which are not paid when due; and the House recedes.

On amendment No. 107: The effect of this amendment and the action of the conferees thereon has been explained in connection with amendment No. 99.

On amendments Nos. 108 and 109: The Senate amendments add a provision requiring suit for the collection of income taxes on the income of a decedent received during his lifetime to be brought within one year after written request therefor filed after the return is made, by the representative of the estate; and the House recedes.

On amendments Nos. 110, 154 and 230: The Senate amendments provide that a proceeding in court for the collection of the tax may be begun without assessment at any time if a false or fraudulent return is made with intent to evade the tax or if no return is filed. The House recedes with clerical amendments.

On amendment No. 111: The Senate amendment provides that a deficiency attributable to a change in a deduction tentatively allowed under section 214(a) (9) or section 234(a) (8) of the Revenue Act of 1918 or the Revenue Act of 1921 may be collected by a proceeding in court, begun without assessment, at any time. The House recedes with a clerical amendment.

On amendments Nos. 112, 155 and 231: The House bill authorized the collection at any time by distraint or by a proceeding in court of a tax assessed within the prescribed period. The Senate amendment placed a limitation of six years after the assessment of the tax upon proceedings in court and distraint for its collection; and the House recedes on amendments Nos. 112 and 231 and recedes on amendment No. 155 with an amendment making a clerical change.

On amendments Nos. 113 and 232: The Senate amendment rewords these subdivisions in order to make it clear that the section does not extend to assessments, distraints, or proceedings already barred by the existing law, or to assessments, distraints, or proceedings already made or begun under the existing law before the enactment of this Act; and the House recedes.

On amendment No. 114: The House bill provided that if a jeopardy assessment has been made under subdivision (d) of section 274, the taxpayer may file with the collector a claim for the abatement of such deficiency, subject to specified requirements. The Senate amendment strikes out subdivisions (a), (b) and (c), of section 279, and part of subdivision (d), so that the section as amended would read: "No claim in abatement shall be filed in respect of any assessment made after the enactment of this Act in respect of any income, war-profits, or excess-profits tax." The House recedes with an amendment restoring the provisions of the House bill but changing the interest rate upon the amount of the claim denied and upon delinquent amounts in the case of estates of incompetent, deceased,or insolvent persons, from 5% per annum to 6%.

On amendments Nos. 115 and 116: These amendments make clerical changes; and the House recedes.

On amendment No. 117: The Senate amendment rewords subdivision (b) of section 281, in order to restrict the amount of a credit or refund to the portion of the tax paid during the four years immediately preceding the filing of a claim therefor. The House recedes with an amendment providing that if no claim was filed the amount of the credit or refund shall not exceed the portion of the tax paid during the four years immediately preceding the allowance of the credit or refund.

On amendment No. 118: The House bill provided that where any provision of any income tax act, or its application to any person or circumstances has been held by the Supreme Court of the United States to be invalid, any amount of income, war-profits or excess-profits tax illegally collected pursuant to such provision shall be credited or refunded if a claim therefor is filed by the taxpayer within four years after the decision, notwithstanding the period of limitation provided in subdivision (b) has expired. The Senate amdnement strikes out this provision; and the House recedes.

On amendment No. 119: This amendment makes a clerical change; and the House recedes.

On amendment No. 120: The Senate amendment provides that if the taxpayer has (1) within five years from the time his return for 1917 was due filed a waiver of his right to have the taxes due for that year determined and assessed within five years after his return was filed, or if he has (2) filed such a waiver on or before June 15 1924, in respect to the taxes due for 1918, a credit or refund may be allowed if claim therefor is filed on or before April 1 1925, or within four years after the tax was paid; and the House recedes.

On amendment No. 121: The House bill provided for the allowance of a claim in respect of a tax for the taxable year 1919 if such claim is filed within five years from the date the return was due. The Senate amendment provides for similar treatment of claims in respect of a tax for the taxable year 1920; and the House recedes.

On amendment No. 122: The House bill provided for an estate tax. The Senate amendment strikes out sections 300 to 304, inclusive, of the House bill, providing for the estate tax, and inserts in lieu thereof provisions for an inheritance tax. The House recedes with an amendment restoring the provisions of the House bill with the following changes in addition to clerical changes: In section 300, in the definition of the term "executor," the House bill provided: "if there is no executor or administrator, any person in actual or constructive possession of any property of the decedent;" this clause is amended to read: "if there is no executor or administrator appointed, qualified, and acting within the United States, then any person in actual or constructive possession of any property of the decedent." The provision of the House bill with reference to that part of the gross estate made up of property held by the decedent as a joint tenant or as a tenant by the entirety has been reworded for purposes of clarity. There has been added to the provision for the deduction of bequests, legacies, devises, or transfers for certain benevolent purposes in paragraph (3) of subdivision (a), and in paragraph (3) of subdivision (b), of section 303, a provision permitting the deduction of bequests, legacies, devises, or transfers to fraternal beneficiary societies operating under the lodge system for use for specified benevolent purposes. An additional sentence has been added to these paragraphs to provide that the amount deductible under such paragraphs on account of bequests, legacies, devises, or transfers for the specified benevolent purposes shall be the net amount distributable for such purposes after estate, legacy, or inheritance taxes imposed in respect thereof have been deducted therefrom.

On amendment No. 123: This amendment makes a change in the numbering of the section; and the Senate recedes.

On amendment No. 124: This amendment makes a clerical change; and the House recedes.

On amendment No. 125: The effect of this amendment and the action of the conferees thereon has been explained in connection with amendment No. 99.

On amendment No. 126: The Senate amendment provides that the time for the payment of the estate tax imposed by the Revenue Act of 1921 may be extended for not to exceed five years; and the House recedes.

On amendment No. 127: The Senate amendment provides that each person shall be liable to the executor for the inheritance taxes upon transfers to such person. In view of the action of the conferees upon amendment No. 122, the Senate recedes.

On amendments Nos. 128 and 129: These amendments make clerical changes in the numbering of the sections; and the Senate recedes.

On amendments Nos. 130 and 131: These amendments make clerical changes; and the House recedes.

On amendment No. 132: This amendment makes a clerical change in the numbering of the section; and the Senate recedes.

On amendments Nos. 133 and 134: These amendments make clerical changes; and the House recedes.

On amendment No. 135: This amendment makes a clerical change, and also changes the rate of interest from 5% to 6%; and the House recedes.

On amendments Nos. 136 and 137: These amendments make clerical changes in the numbering of the sections; and the Senate recedes.

On amendments Nos. 138 and 139: The effect of these amendments and the action of the conferees thereon has been explained in connection with amendment No. 99.

On amendment No. 140: The Senate amendment changes the word "estate" to "inheritance;" and the Senate recedes.

On amendment No. 141: This amendment makes a clerical change in the numbering of the section; and the Senate recedes.

On amendment No. 142: This amendment makes a clerical change; and the House recedes.

On amendments Nos. 143, 144, 145, 146, 147, 148, 149 and 150: These amendments make clerical changes; and the Senate recedes.

On amendment No. 151: This amendment makes a clerical change; and the House recedes.

On amendment No. 152: This amendment makes a clerical change; and the House recedes with a further clerical amendment.

On amendment No. 153: This amendment makes a clerical change in the numbering of the section; and the Senate recedes.

On amendments Nos. 154 and 155: The effect of these amdnements and the action of the conferees thereon is explained in connection with amendments Nos. 110 and 112.

On amendment No. 156: The Senate amendment provides that this section shall not affect (1) the assessment or collection of a tax in case such assessment, distraint, or proceeding for collection was barred at the time of the enactment of this Act, or (2) any assessment made or distraint or proceeding begun before the enactment of this Act; and the House recedes.

On amendments Nos. 157, 158 and 159: These amendments make clerical changes in the numbering of the sections; and the Senate recedes.

On amendment No. 160: The effect of this amendment and the action of the conferees thereon has been explained under amendment No. 99.

On amendments Nos. 161, 162, 163 and 164: These amendments make clerical changes; and the Senate recedes.

On amendment No. 165: Subdivision (c) of section 313 of the House bill provides for the preservation of the lien for estate taxes upon the assets of the estate, except as to such part as has passed into the hands of bona fide purchasers for value. The Senate amendment is a revision of this subdivision of section 313 of the House bill to provide further that if any part of the gross estate passes to a bona fide purchaser for value, the lien shall attach to the consideration received from such purchaser by the beneficiary of the estate; and the House recedes.

On amendment No. 166: This amendment makes a clerical change; and the Senate recedes.

On amendment No. 167: The Senate amendment strikes out subdivision (b) of section 314 of the House bill with reference to the collection of the estate tax. In view of the action of the conferees on amendment No. 122 the Senate recedes.

On amendments Nos. 168 and 169: These amendments make clerical changes; and the Senate recedes.

On amendment No. 170: This amendment makes a clerical change; and the House recedes.

On amendments Nos. 171 and 172: These amendments make clerical changes; and the Senate recedes.

On amendment No. 173: This amendment makes a clerical change; and the House recedes.

On amendment No. 174: This amendment makes a clerical change; and the Senate recedes.

On amendment No. 175: This amendment makes a clerical change; and the House recedes.

On amendment No. 176: This amendment makes a clerical change; and the Senate recedes.

On amendments Nos. 177 and 178: These amendments make clerical changes; and the House recedes.

On amendment No. 179: The Senate amendment strikes out the provisions of the House bill with reference to the gift tax and inserts in lieu thereof other provisions for a gift tax at different rates and with different exemptions. The House recedes with amendments restoring the provisions of the House bill contained in sections 319 to 324, inclusive, with the following changes in addition to certain clerical changes:

(1) The provisions of section 321 allowing the deduction of certain contributions have been revised in order to enumerate specifically and not by reference the type of organizations gifts to which are deductible, and in addition to provide for the deduction of gifts made by certain specified benevolent institutions for religious, charitable, scientific, educational or literary purposes.

(2) Provision is made for the exemption from the gift tax of any property given away within the taxable year which was received by the donor by gift or by inheritance within the preceding five years and on which a gift or estate tax was paid.

(3) Section 323 is changed to provide that a return for purposes of the gift tax shall be made by any person whose taxable gifts during the calendar year exceed $50,000.

On amendment No. 180: The Senate amendment amends section 3392 of the Revised Statutes to provide that cigars may be put up in packages containing three and seven cigars, as well as in the other numbers already specified in that section; and the House recedes.

On amendment No. 181: This amendment makes a clerical change; and the Senate recedes.

On amendment No. 182: The Senate amendment adds a proviso requiring tobacco growers' co-operative associations to keep available records of all purchases and sales of tobacco, such records to be open to inspection by the agents of the Government; and the House recedes.

On amendments Nos. 183 and 184: These amendments make clerical changes; and the Senate recedes.

On amendment No. 185: The Senate amendment provides that the excise taxes upon sales by the manufacturer imposed by section 600 shall take effect on and after the expiration of 30 days after the enactment of this Act; and the House recedes.

On amendment No. 186: In section 600(1) of the House bill the tax upon the sale of automobile trucks or wagons was limited to trucks and wagons the selling price of the chassis of which is in excess of $1,000. The

Senate amendment makes clerical changes and adds a provision exempting from the tax truck and wagon bodies selling for an amount not in excess of $200. The Senate amendment also eliminates the tax on automobile parts and accessories. The House recedes, with an amendment restoring parts and accessories to the list of articles subject to tax.

On amendment No. 187: The House bill imposed a tax upon the sale of automatic slot-device vending machines of 5%, and a tax of 10% upon the sale of automatic slot-device weighing machines. The Senate amendment strikes out this provision and inserts a tax of 10% upon coin-operated devices, coin-operated machines and devices and machines operated by any substitute for a coin, and also a tax of 10% on mah-jongg and similar tile sets and component parts thereof. The House recedes with an amendment making the rate of tax 5% upon the coin-operated devices, &c.

On amendment No. 188: The Senate amendment strikes out the provisions of the House bill imposing a tax upon sales, by any persons other than the artist, of paintings, statuary, art porcelains and bronzes; and the Senate recedes.

On amendments Nos. 189, 190 and 191: These amendments make clerical changes in the numbering of the sections; and the Senate recedes.

On amendments Nos. 192 and 195: The House bill exempts eyeglasses and spectacles from the jewelry tax imposed by section 604. Amendment No. 192 strikes out this exemption, and amendment No. 195 exempts eyeglasses and spectacles sold or leased for an amount not in excess of $30; and the Senate recedes on both these amendments.

On amendment No. 193: The Senate amendment adds to the articles exempted from the tax imposed on jewelry under subdivision (a) of section 604 of the House bill articles used for religious purposes; and the House recedes.

On amendment No. 194: The House bill provided that the jewelry tax imposed by subdivision (a) of section 604 should not apply to articles sold or leased for an amount not in excess of $40. The Senate amendment changes this amount to $25; and the House recedes with an amendment changing the amount to $30.

On amendment No. 195: The effect of this amendment and the action of the conferees thereon has been explained in connection with amendment No. 192.

On amendments Nos. 196 and 197: These amendments make clerical changes in the numbering of the sections; and the Senate recedes.

On amendment No. 198: The Senate amendment strikes out the provisions of the House bill imposing a capital stock tax; and the Senate recedes.

On amendment No. 199: This amendment makes a clerical change; and the Senate recedes.

On amendment No. 200: The Senate amendment alters the occupational tax imposed upon brokers in two respects: (1) Brokers exclusively engaged in negotiating purchases or sales of produce or merchandise are exempted from the $50 tax imposed upon other brokers; and the tax in respect to membership in a stock or produce exchange or board of trade is amended to provide that if the seat or membership in such exchange or board has an average value of from $2,000 to $5,000, the tax shall be $100; if the average value is $5,000 to $10,000, the tax shall be $150; if the value is in excess of $10,000, the tax shall be $250; and the House recedes.

On amendment No. 201: The House bill reduced the occupational tax upon proprietors of bowling alleys and billiard rooms from $10 to $5 for each alley or table. The Senate amendment restores the tax to $10; and the House recedes.

On amendment No. 202: The Senate amendment strikes out the provision inserted by the House for the prorating of certain taxes on brokers, which prorating is already provided for by the Revised Statutes; and the House recedes.

On amendment No. 203: This amendment makes a clerical change; and the Senate recedes.

On amendment No. 204: This amendment makes a clerical change; and the House recedes.

On amendments Nos. 205, 206, 207, 208, 209 and 210: These amendments make clerical changes; and the Senate recedes.

On amendment No. 211: The Senate amendment provides that the stamp tax upon packs of playing cards shall take effect upon the approval of this Act. Under the House bill this stamp tax would take effect on and after the expiration of 30 days after the enactment of this Act; and the Senate recedes.

On amendment No. 212: The House bill provided for a Board of Tax Appeals, to be composed of from 7 to 28 members, appointed by the President with the advice and consent of the Senate. The Senate amendment is a revision of subdivisions (a) and (b) of section 900 of the House bill, with the following changes in addition to clerical changes: Instead of a board varying in number from 7 to 28 in the discretion of the President, the Senate amendment provides for a board of 28 members for two years and of 7 members after the expiration of two years. In lieu of the provision of the House bill that no member of the board shall be permitted for two years after ceasing to be a member to practice before the board or the Treasury Department, or to be connected with any firm so practicing, the Senate amendment provides that no member of the board shall be permitted to practice before the board or any official of the Bureau of Internal Revenue for two years after leaving office. The House recedes with an amendment making clerical changes and providing that no member of the board appointed for a term beginning after the expiration of two years after the enactment of this Act shall be permitted to practice before the board or any official of the Bureau of Internal Revenue for a period of two years after leaving office.

On amendments Nos. 213 and 214: These amendments make clerical changes; and the House recedes.

On amendment No. 215: This amendment makes a clerical change in the numbering of the section; and the Senate recedes.

On amendment No. 216: The House bill provided that the opinions of the board other than findings of fact should not be in writing unless the Chairman so orders. The Senate amendment provides that the hearings before the board shall be open to the public, that the proceedings of the board shall be in accordance with such rules of evidence and procedure as the board may prescribe, that the testimony taken at the hearings shall be reduced to writing, that the board shall make a report in writing of its findings of fact and its opinion and decision in each case, that such report and all evidence received by the board shall be public records open to the inspection of the public, and shall be published at the Government Printing Office and sold in the same manner as other public documents. The House recedes with an amendment limiting the cases in which the oral testimony shall be reduced to writing and in which the board shall write an opinion to those cases in which the amount of tax in controversy exceeds $10,000.

On amendment No. 217: This amendment empowers the board to require the answer in writing under oath to any question of fact submitted, provides for the reduction to writing of depositions taken, and makes the usual provision for fees and mileage allowances for witnesses; and the House recedes.

On amendment No. 218: This amendment makes a clerical change; and the House recedes.

On amendment No. 219: This amendment reduces the allowance for traveling expenses in the case of employees of the board from $7, as provided in the House bill, to $4; provides for the classification in accordance with the classification Act of 1923 of employees of the board, and prescribes that the expenditures of the board shall be paid upon the presentation of itemized vouchers therefor, signed by the Chairman of the board, out of any moneys appropriated for the collection of internal-revenue taxes and allotted to the board, or out of any moneys specifically appropriated for the purposes of the board. In addition, it provides that the board shall be an independent agency in the executive branch of the Government. The House recedes.

On amendment No. 220: The House bill provided that the rules and regulations prescribed by the commissioner, with the approval of the Secretary, for the enforcement of this Act should not enlarge or modify any provisions of this Act and of any other law, and all such rules and regulations, and all amendments thereto, should be annually reported to Congress. The Senate amendment strikes out this provision, and the House recedes.

On amendment No. 221: The Senate amendment inserts a specific provision that oaths required by the provisions of this Act may be administered by any officer authorized to administer oaths for general purposes under laws of the jurisdiction wherein such oath is administered; and the House recedes.

On amendment No. 222: This amendment makes a clerical change; and the Senate recedes.

On amendments Nos. 223 and 224: The House bill provided, as does the existing law, that if the commissioner and the taxpayer should agree in writing that a determination and an assessment in any case should be final the case should not be reopened or the determination or assessment set aside in the absence of fraud, malfeasance or misrepresentation of fact. The Senate amendments provide that if after a determination and assessment the taxpayer has paid the tax or penalty or accepted the abatement, credit or refund without protest, then the case should not be reopened or the determination or assessment set aside in the absence of fraud, malfeasance or misrepresentation of fact; and the Senate recedes.

On amendment No. 225: The Senate amendment provides that if any part of an excise tax has been refunded to the taxpayer by the Government, such refund not being required by a decision of a court of competent jurisdiction, and if the articles the sale of which was taxed have passed from the possession of the taxpayer, the taxpayer should not again be assessed or taxed, or if he has been reassessed and taxed, the amount of the tax should be abated or refunded; and the Senate recedes.

On amendment No. 226: The House bill provides that the decision of the commissioner upon the merits of a claim under the internal revenue laws shall not, except as provided in section 900, be subject to review by any other administrative officer or employee or agent of the United States. The Senate adds the words "or accounting" after the word "administrative"; and the House recedes.

On amendment No. 227: This amendment makes a clerical change; and the House recedes.

On amendment No. 228: The Senate amendment provides that where, at the time of the sale or lease of an article, there was an existing ruling, regulation or Treasury decision, holding that the article or its lease or sale was not taxable, and if the manufacturer, purchaser or importer parted with possession, relying upon such ruling, regulation or decision, then no excise tax shall later be collected; and the House recedes with clerical amendments.

On amendment No. 229: This amendment makes clerical changes in the numbering of the sections; and the Senate recedes.

On amendment No. 230: The effect of this amendment and the action of the conferees thereon has been explained in connection with amendment No. 110.

On amendment No. 231: The effect of this amendment and the action of the conferees thereon has been explained in connection with amendment No. 112.

On amendment No. 232: The effect of this amendment and the action of the conferees thereon has been explained in connection with amendment No. 113.

On amendment No. 233: This amendment makes a clerical change; and the House recedes.

On amendment No. 234: The Senate amendment provides that in the case of offenses involving the defrauding of or attempting to defraud the United States the period of limitation shall be six years, except as to acts, offenses or transactions barred by law at the time of the enactment of this Act; and the House recedes.

On amendments Nos. 235, 236, 237, 238 and 239: These amendments make clerical changes; and the House recedes.

On amendment No. 240: This amendment provides for the exemption from the income tax imposed by the revenue Act of 1916, the revenue Act of 1917, the revenue Act of 1918 and the revenue Act of 1921 of farmers' or other mutual hail, cyclone or fire insurance companies (if otherwise exempt under the provisions of such Acts), whether or not such organizations are of a purely local character. The House recedes with an amendment making clerical changes.

On amendment No. 241: The House bill repeals section 3225 of the Revised Statutes. The Senate amendment makes it clear that this repeal shall be retroactive to all revenue Acts since 1916; and the House recedes.

On amendment No. 242: The Senate amendment provides a complete system of penalties in lieu of those contained in section 1017 of the House bill. Subdivisions (a) and (b) correspond to subdivision (a) of this section of the House bill with the following changes: The pantity provided in subdivision (a) of the Senate amendment applies to a willful failure to comply with the requirements of the law therein set forth; in the House bill the penalty applied to a willful refusal. Willful failure to collect, account for and pay over any tax imposed by the Act, or a willful attempt to evade such tax, is made a felony, with a fine of not over $10,000 or imprisonment for not over five years, or both, instead of a misdemeanor, as in the House bill. A willful attempt to defeat the tax or the payment thereof has been added to the list of offenses specified in subdivision (b). Subdivision (c), which was not contained in the House bill, provides a penalty for the offense of aiding in the preparation, presentation, procurement, counseling or advising of a false or fraudulent return, affidavit, claim or document authorized or required by the internal revenue laws. The House recedes.

On amendments Nos. 243, 244 and 245: Subdivision (d) of section 1017 as amended by the Senate corresponds to subdivision (b) of section 1017 of the House bill, except that, as in subdivision (a), the penalty attaches to a willful failure to perform the required acts rather than to a willful refusal, and a willful attempt to evade or defeat the tax or its payment has been specifically added to the list of offenses. The House recedes.

On amendment No. 246: This amendment makes a clerical change; and the House recedes.

On amendment No. 247: The effect of this amendment and the action of the conferees thereon has been explained under amendment No. 99.

On amendment No. 248: This amendment makes a clerical change; and the House recedes.

On amendment No. 249: The Senate amendment changes section 3207 of the Revised Statutes, to afford to a holder of a lien prior in time to that of the United States for taxes a method of procedure for clearing the title to the property by giving notice to the commissioner and by undertaking prescribed procedure in court; and the House recedes.

On amendment No. 250: The Senate amendment provides that sums offered in compromise under section 3229 of the Revised Statutes and section 35 of Title II of the national prohibition Act, sums offered for the purchase of real estate under section 3208 of the Revised Statutes and surplus proceeds in any distraint sales shall be deposited with the Treasurer of the United States in a special deposit account. If the offer in compromise or offer for the purchase of real estate is accepted, the amount so accepted shall be transferred from the special deposit account into the Treasury of the United States as internal revenue collections; if such offers are rejected, the amount of the offer shall be refunded to its maker. The House recedes with an amendment making clerical changes.

On amendments Nos. 251 and 252: The House bill provided that section 900 of the revenue Act of 1921 should be repealed, effective upon the enactment of this Act. The Senate amendments provide that section 900 shall be repealed, effective on the expiration of 30 days after the enactment of this Act; and the House recedes.

On amendments Nos. 253 and 254: The Senate amendment provides that the stamp tax on playing cards imposed by the existing law shall be repealed upon the enactment of this Act. The House bill provides that this tax as well as the other stamp taxes shall be repealed, effective on the expiration of 30 days after the enactment of this Act; and the Senate recedes.

On amendment No. 255: The Senate amendment provides that the legislative drafting service shall hereafter be known as the office of the legislative counsel; that the positions of the two legislative counsel shall be allocated by the President of the Senate and the Speaker of the House under the schedules of the classification Act, and that the legislative counsel shall have the privilege of free transmission of official mail; and the House recedes.

On amendment No. 256: The Senate amendment provides that the salary of the Government Actuary, so long as the position is held by the present incumbent, shall be at the rate of $7,500 a year; and the House recedes.

On amendment No. 257: The Senate amendment strikes out a section of the House bill providing specifically for an allowance for subsistance for officers and employees of the Bureau of Internal Revenue, while traveling on official business, in an amount not to exceed $7 per day; and the House recedes.

On amendments Nos. 258 and 259: These amendments make clerical changes in the numbering of the sections; and the House recedes.

On amendment No. 260: This amendment provides for a reduction of the postal rates in the case of the portion of publications devoted to advertisements; and the Senate recedes.

W. R. GREEN, W. C. HAWLEY,
ALLEN T. TREADWAY, JNO. N. GARNER,
J. W. COLLIER,

Managers on the part of the House.

In a statement to the Senate on May 24 regarding the action of the conferees Senator Smoot said:

There were six material matters on which the bill as amended by the Senate differed from the bill as passed by the House: the normal tax, the surtax, the exemptions, the corporation tax, the provisions as to publicity of returns and the estate tax.

(1) The House bill provided for a normal tax on the income of individual at the rate of 6%, except that the rate on the first $4,000 was at the rate of 2% and on the next $4,000 rate of 5%. The Senate amended this provision to provide for a normal tax at the rate of 2% on the first $4,000, 4% on the next $4,000 and 6% on the remainder. On this amendment the House recedes.

(2) The House bill provides for a surtax on the net income of individuals ranging from 1½% on the net income in excess of $10,000, but not in excess of $12,000, to 37½% of the net income in excess of $200,000. The Senate amended this section to provide for a surtax ranging from 1% of the net income in excess of $10,000, but not in excess of $14,000, to 40% of the net income in excess of $500,000. On this amendment the House recedes.

(3) The House bill provided for a personal exemption in the case of a married man and in the case of the head of a family of $2,500 if the net income of the individual was less than $5,000 and of $2,000 if the net income of the individual was in excess of $5,000. The Senate amendment provided for an exemption of $2,500 irrespective of the amount of the net income of the taxpayer. On this amendment the House recedes.

(4) The House bill provided a tax on the income of corporations at the rate of 12½% and provided in addition for a capital stock tax on corporations of $1 00 for each $1,000 of the fair average value of the capital stock. The Senate amendment repealed the capital stock tax, reduced the normal tax on corporations to 9%, and provided for a graduated tax on the undistributed net income of corporations ranging from ¼ of 1% to 40% of such undistributed net income. On this amendment the Senate recedes.

(5) The House bill provided that the income tax returns should be open to inspection only upon order of the President and under rules and regulations prescribed by the Secretary and approved by the President, with special provisions for the inspection of returns by, and the furnishing of information to the Committee on Ways and Means of the House of Representatives, the Committee on Finance of the Senate, a special committee of the Senate or House, the proper officers of any State and the bona-fide shareholders of record of a corporation. The Senate amendment provides that returns upon which the tax has been determined by the commissioner shall constitute public records and shall be open to examination and inspection as other public records. On this point the House recedes with an amendment restoring the provisions of the House bill with certain clerical changes and providing in addition that the commissioner shall have prepared and made available to public inspectionin the office of the collector in each internal revenue district and in such other places as he may determine lists containing the name and post office address of each person making an income tax return in such district, together with the amount of tax paid by such person.

(6) The House bill provided for an estate tax ranging from 1% of the estate in excess of $50,000, but not in excess of $100,000, to 40% of the amount of the estate in excess of $10,000,000. The Senate amendment provides for an inheritance tax ranging in the case of a direct heir from 1% to 36% of the amount of the inheritance in excess of $5,000,000 in the the case of collateral heir from 1% to 45% of the inheritance in excess of $5,000,000. On this amendment the House recedes with an amendment restoring the proviions of the House bill with certain clerical and unimportant technical changes.

The House bill provided that the amount by which the tax was reduced on account of capital loss should not exceed 12½% of the loss. The Senate struck out this provision of the House bill, with the result that capital losses the same as other losses would be allowed in full as deductions. On this amendment the Senate recedes and the provisions of the House bill are restored.

The House bill limited the amount which might be considered as earned income to $20,000. The Senate amendment reduced this amount to $10,000. On this amendment the House receded.

The House bill provided for a credit against the income tax of an individual of 25% of the amount which bears the same relation to the total amount of the tax as the amount of the earned net income bears to the total amount of the net income. The Senate amendment provides for the crediting against the tax of 25% of the amount of the tax which would be payable by the taxpayer on a total ordinary net income equal in amount to his earned net income, the effect of the Senate amendment being to consider the earned income as that income in the lower brackets in the case of a wealthy taxpayer, thus placing the taxpayer with a large income upon the same grounds in this respect as the taxpayer with a small income. On this amendment the House recedes with certain clerical changes.

The House bill provided that the deduction for interest paid on indebtedness—except indebtedness incurred in connection with the trade or business of the taxpayer—and the deduction for non-business losses should be be allowed as deductions in computing net income only if and to the extent that the sum of these amounts exceeds the income of the taxpayer from tax-exempt securities. The Senate amended the bill, striking out this provision on the ground that it was indirectly taxing the income from tax-exempt securities. On this amendment the House recedes.

The House bill provided that if any corporation is formed or availed of for the purpose of preventing the imposition of surtaxes upon its shareholders by permitting its gains and profits to accumulate instead of being distributed there should be assessed against such corporation a penalty of 25%. The Senate amendment increased this penalty to 50%. On this amendment the House recedes.

The House bill provided that in case of an additional assessment of income, war profits, excess profits or estate taxes the taxpayer could appeal to the Board of Tax Appeals, but that in the event of an adverse decision by the Board the taxpayer should sue in the courts for its recovery. The Senate amended this to require that the Government, in the event that the taxpayer did not acquiesce in the decision of the Board, could collect the tax only by suit. On this amendment the Senate receded.

The House bill exempted from the tax upon the sale of automobile trucks or wagons those the selling price of the chassis of which is less than $1,000. The Senate added to this provision another provision exempting from the tax truck and wagon bodies selling for an amount not in excess of $200. On this amendment the House receded.

The House bill reduced the tax on automobile parts and accessories from 5% to 2½%. The Senate amendment struck out this tax entirely. The Senate recedes.

The House bill, as does the present law, imposed a tax upon certain sales of paintings, statuary, art porcelains and bronzes. The Senate struck out this tax. On this amendment the Senate recedes.

The Senate inserted by amendment a provision in the House bill providing that the hearings before the Board of Tax Appeals shall be open to the public, that the testimony taken at the hearings shall be reduced to writing, that the Board shall make a report in writing of its findings of fact and its opinion and decision in each case, that such report and all evidence received by the Board shall be public records open to the inspection of the public, and shall be published at the Government Printing Office and sold in the same manner as other public documents. On this amendment the House recedes with an amendment limiting the cases in which the oral testimony shall be reduced to writing and in which the Board shall write an opinion, to those cases in which the amount of tax in controversy exceeds $10,000.

The Senate amended the House bill to provide that if any part of an excise tax has been refunded to the taxpayer by the Government such refund not being required by a decision of a court of competent jurisdiction, and if the articles the sale of which was taxed have passed from the possession of the taxpayer, the taxpayer should not again be assessed or taxed, or if he has been reassessed and taxed, the amount of the tax should be abated or refunded. The Senate recedes.

The Senate inserted by amendment a section providing for the exemption from the income tax imposed by the Revenue Act of 1916, the Revenue Act of 1917, the Revenue Act of 1918 and the Revenue Act of 1921, of farmers' or other mutual hail, cyclone or fire insurance companies (if otherwise exempt under the provisions of such Acts), whether or not such organizations are of a purely local character. The House recedes with an amendment making clerical changes.

The Senate inserted by amendment a provision for a reduction of the postal rates in the case of the portion of publications devoted to advertisements. On this amendment the Senate recedes.

The remainder of the amendments were clerical, technical and comparatively unimportant.

Senator Smoot added:

I have had the Government Actuary make an estimate of the revenue that will be derived from the bill when in operation as compared with the expenditures of the Government based upon the recommendations of the Budget.

Senator Smoot continued:

I may add that there has been confusion in the public mind as to the figures that have been published in this respect, and this only: Some figures have been published and have appeared in the press of the country, and I will say also have been used on the floor of the Senate by me and other members of the committee, applying sometimes to the fiscal year and at other times to the calendar year; and, of course, there is considerable difference in the amount of revenue that would be shown under those conditions.

For instance, for the fiscal year 1924 all of the revenue will be derived from the rates of the existing law; but the fiscal year 1925 begins on July 1 1924 and ends on June 30 1925; so the fiscal year 1925 will be the first full fiscal year in which the revenues derived from the pending bill, if it becomes a law, will be collected.

I have here the estimates for the calendar years 1923, 1924 and 1925; but, as we make our appropriations for fiscal years instead of calendar years, in order that there may be no confusion in the minds of the public or in reading the "Record" on the part of those who do not carefully note that there is that difference, it seems to me the only thing to do is for us us to confine ourselves to the fiscal year.

As to further comments by Senator Smoot, we quote the following from the Congressional Record:

Mr. Simmons. Mr. President, does not the Senator from Utah think it would be well for him to state that the income taxesfor the year 1923-24 will be conducted under the present law, and that the payments upon

those incomes that are due after June 1 will be transferred to the fiscal year 1924-25?

Mr. Smoot. Yes; I think my statement before would be fairly construed in that way, but I am glad the Senator has made it perfectly plain.

Take the fiscal year 1924: The individual and corporation income tax is $1,899,000,000; the miscellaneous tax, $989,000,000. The total for the Internal Revenue Bureau—because they collect these taxes directly—would be, for that year, $2,838,000,000. The miscellaneous receipts—and I shall not take the time to name from what source they come, but they are all the miscellaneous receipts, special taxes, stamp taxes, and all other forms of taxes outside of the incomes of individuals and corporations—amount to $541,100,000; or, in other words, the total ordinary receipts for the year 1924—that is, the year ending June 30 1924—will be $3,929,100,000. The expenditures chargeable against ordinary receipts, according to the estimate of Dec. 9 1923—and that was the last estimate which was given—are $3,565,000,000, which would leave an excess of ordinary receipts over expenditures chargeable against ordinary receipts of $364,060,000.

Senators, if they have followed this matter very closely, will remember that in the Secretary's report dated Dec. 31 1923 it was estimated that there would be a surplus of $329,000,000 instead of $364,060,000.

That increase in the surplus is largely made up in this way: It was given out generally and agreed to, not only by the Treasury Department but, I believe, by both Houses of Congress, that we would reduce the income taxes for the fiscal year 1924 25%. The House passed that bill, but the Senate did not act upon it before March 15, the date when the first payment of taxes became due. After this bill was reported to the Senate the Treasury Department, at the reques of a number of Senators, I am informed, desired to ascertain what effect that proposed 25% reduction had upon the first payment of the taxes that fell due on March 15 1924.

The examination is not complete yet, but it has gone far enough to demonstrate the fact that many of the taxpayers paid three-fourths of the tax, feeling quite certain that the payment of three-fourths of the tax on March 15 would in reality represent payment in full for the year. In other words, every year there are many taxpayers who pay all of their tax on March 15, so as not to be bothered about sending payments on June 15, Sept. 15, and Dec. 15; and the partial examination which has already been made shows that this year many of them sent 75% of the amount of the tax, with the hope, of course, that the 25% reduction for the fiscal year 1924 would take effect before the next payment became due in June, or any of the following payments. That, of course, increased the amount of surplus on hand at this particular time.

Text of Soldier Bonus Bill Adopted by Congress Over Veto of President Coolidge.

We are giving herewith the text of the so-called Soldier Bonus Bill—"the bill to provide adjusted compensation for veterans of the World War," as placed on the statute books last week. Details of the Congressional action on the bill, which had been vetoed by President Coolidge on May 15, but which the House and Senate passed over the Presidential veto, were given in our issue of a week ago, page 2522. The President's veto message appeared in these columns May 17, page 2384. The following is the bill as enacted into law:

[H. R. 7959. Sixty-eighth Congress of the United States of America; at the first session, begun and held at the City of Washington on Monday, the third day of December, 1923.

An Act to provide adjusted compensation for veterans of the World War, and for other purposes.

Be it enacted by the Senate and House of Representatives of the United States of America in Congress assembled,

Title I.—Definitions.

Section 1. This Act may be cited as the "World War Adjusted Compensation Act."

Sec. 2. As used in this Act—

(a) The term "veteran" includes any individual, a member of the military or naval forces of the United States at any time after April 5 1917 and before November 12 1918; but does not include (1) any individual at any time during such period or thereafter separated from such forces under other than honorable conditions; (2) any conscientious objector who performed no military duty whatever or refused to wear the uniform, or (3) any alien at any time during such period or thereafter discharged from the military or naval forces on account of his alienage;

(b) The term 'oversea service" means service on shore in Europe or Asia, exclusive of China, Japan, and the Philippine Islands; and service afloat, not on receiving ships; including in either case the period from the date of embarkation for such service to the date of disembarkation on return from such service, both dates inclusive;

(c) The term "home service" means all service not oversea service;

(d) The term "adjusted service credit" means the amount of the credit computed under the provisions of Title II; and

(e) The term "person" includes a partnership, corporation, or association, as well as an individual.

Title II.—Adjusted Service Credit.

Sec. 201. The amount of adjusted service credit shall be computed by allowing the following sums for each day of active service, in excess of sixty days, in the military or naval forces of the United States after April 5 1917 and before July 1 1919, as shown by the service or other record of the veteran: $1 25 for each day of oversea service and $1 for each day of home service; but the amount of the credit of a veteran who performed no oversea service shall not exceed $500, and the amount of the credit of a veteran who performed any oversea service shall not exceed $625.

Sec. 202. In computing the adjusted service credit no allowance shall be made to—

(a) Any commissioned officer above the grade of captain in the Army or Marine Corps, lieutenant in the Navy, first lieutenant or first lieutenant of engineers in the Coast Guard, or passed assistant surgeon in the Public Health Service, or having the pay and allowances, if not the rank, of any officer superior in rank to any of such grades—in each case for the period of service as such;

(b) Any individual holding a permanent or provisional commission or permanent or acting warrant in any branch of the military or naval forces, or (while holding such commission or warrant) serving under a temporary commission in a higher grade—in each case for the period of service under such commission or warrant or in such higher grade after the accrual of the right to pay thereunder. This subdivision shall not apply to any noncommissioned officer;

(c) Any civilian officer or employee of any branch of the military or naval forces, contract surgeon, cadet of the United States Military Academy, midshipman, cadet or cadet engineer of the Coast Guard, member of the Reserve Officers' Training Corps, member of the Students' Army Training Corps (except an enlisted man detailed thereto), Philippine Scout, member of the Philippine Guard, member of the Philippine Constabulary, member of the National Guard of Hawaii, member of the insular force of the Navy, member of the Samoan native guard and band of the Navy, or Indian Scout—in each case for the period of service as such;

(d) Any individual entering the military or naval forces after November 11 1918—for any period after such entrance;

(e) Any commissioned or warrant officer performing home service not with troops and receiving commutation of quarters or of subsistence—for the period of such service;

(f) Any member of the Public Health Service—for any period during which he was not detailed for duty with the Army or Navy;

(g) Any individual granted a farm or industrial furlough—for the period of such furlough;

(h) Any individual detailed for work on roads or other construction or repair work—for the period during which his pay was equalized to conform to the compensation paid to civilian employees in the same or like employment, pursuant to the provisions of Section 9 of the Act entitled "An Act making appropriations for the service of the Post Office Department for the fiscal year ending June 30 1920, and for other purposes," approved February 28 1919; or,

(i) Any individual who was discharged or otherwise released from the draft—for the period of service terminating with such discharge or release.

Sec. 203. (a) The periods referred to in subdivision (e) of section 202 may be included in the case of any individual if and to the extent that the Secretary of War and the Secretary of the Navy jointly find that such service subjected such individual to exceptional hazard. A full statement of all action under this subdivision shall be included in the reports of the Secretary of War and the Secretary of the Navy required by section 307.

(b) In computing the credit to any veteran under this title effect shall be given to all subdivisions of section 202 which are applicable.

(c) If part of the service is oversea service and part is home service, the home service shall first be used in computing the sixty days' period referred to in section 201.

(d) For the purpose of computing the sixty days' period referred to in section 201, any period of service after April 5 1917 and before July 1 1919 in the military or naval forces in any capacity may be included, notwithstanding allowance of credit for such period, or a part thereof, is prohibited under the provisions of section 202, except that the periods referred to in subdivisions (b), (c) and (d) of that section shall not be included.

(e) For the purposes of section 201, in the case of members of the National Guard or of the National Guard Reserve called into service by the proclamation of the President dated July 3 1917, the time of service between the date of call into the service as specified in such proclamation and August 5 1917, both dates inclusive, shall be deemed to be active service in the military or naval forces of the United States.

Title III.—General Provisions.

Benefits Granted Veterans.

Sec. 301. Each veteran shall be entitled:

(1) To receive "adjusted service pay" as provided in Title IV, if the amount of his adjusted service credit is $50 or less;

(2) To receive an "adjusted service certificate" as provided in Title V, if the amount of his adjusted service credit is more than $50.

Application by Veteran.

Sec. 302. (a) A veteran may receive the benefits to which he is entitled by filing an application claiming the benefits of this Act with the Secretary of War, if he is serving in, or his last service was with, the military forces; or with the Secretary of the Navy, if he is serving in, or his last service was with, the naval forces.

(b) Such application shall be made on or before January 1 1928, and if not made on or before such date shall be held void.

(c) An application shall be made (1) personally by the veteran, or (2) in case physical or mental incapacity prevents the making of a personal application, then by such representative of the veteran and in such manner as the Secretary of War and the Secretary of the Navy shall jointly by regulation prescribe. An application made by a representative other than one authorized by any such regulation shall be held void.

(d) The Secretary of War and the Secretary of the Navy shall jointly make any regulations necessary to the efficient administration of the provisions of this section.

Transmittal of Application.

Sec. 303. (a) As soon as practicable after the receipt of a valid application the Secretary of War or the Secretary of the Navy, as the case may be, shall transmit to the Director of the United States Veterans' Bureau (hereinafter in this Act referred to as the "Director") the application and a certificate setting forth—

(1) That the applicant is a veteran;

(2) His name and address;

(3) The date and place of his birth; and

(4) The amount of his adjusted service credit together with the facts of record department upon which such above conclusions are based.

(b) Upon receipt of such certificate the Director shall proceed to extend to the veteran the benefits provided for in Title IV or V.

Publicity.

Sec. 304. (a) The Director shall, as soon as practicable after the enactment of this Act, prepare and publish a pamphlet or pamphlets containing a digest and explanation of the provisions of this Act; and shall from time to time thereafter prepare and publish such additional or supplementary information as may be found necessary.

(b) The publications provided for in subdivision (a) shall be distributed in such manner as the Director may determine to be most effective to inform veterans and their dependents of their rights under this Act.

Statistics.

Sec. 305. Immediately upon the enactment of this Act the Secretary of War and the Secretary of the Navy shall ascertain the individuals who are veterans as defined in Section 2, and, as to each veteran, the number of days of oversea service and of home service, as defined in Section 2, for which he is entitled to receive adjusted service credit, and their findings shall not be subject to review by the General Accounting Office, and payments made by disbursing officers of the United States Veterans' Bureau made in accordance with such findings shall be passed to their credit.

Administrative Regulations.

Sec. 306. Any officer charged with any function under this Act shall make such regulations, not inconsistent with this Act, as may be necessary to the efficient administration of such function.

Reports.

Sec. 307. Any officer charged with the administration of any part of this Act shall make a full report to Congress on the first Monday of December of each year as to his administration thereof.

Exemption from Attachment and Taxation.

Sec. 308. No sum payable under this Act to a veteran or his dependents, or to his estate, or to any beneficiary named under Title V, no adjusted service certificate, and no proceeds of any loan made on such certificate, shall be subject to attachment, levy, or seizure under any legal or equitable process, or to national or State taxation.

Unlawful Fees.

Sec. 309. Any person who charges or collects, or attempts to charge or collect, either directly or indirectly, any fee or other compensation for assisting in any manner a veteran or his dependents in obtaining any of the benefits, privileges, or loans to which he is entitled under the provisions of this Act shall, upon conviction thereof, be subject to a fine of not more than $500, or imprisonment for not more than one year, or both.

Title IV.—Adjusted Service Pay.

Sec. 401. There shall be paid to each veteran by the Director (as soon as practicable after receipt of an application in accordance with the provisions of Section 302, but not before March 1 1925), in addition to any other amounts due such veteran in pursuance of law, the amount of his adjusted service credit, if, and only if, such credit is not more than $50.

Sec. 402. No right to adjusted service pay under the provisions of this title shall be assignable or serve as security for any loan. Any assignment or loan made in violation of the provisions of this section shall be held void. Except as provided in Title VI, the Director shall not pay the amount of adjusted service pay to any person other than the veteran or such representative of the veteran as he shall by regulation prescribe.

Title V.—Adjusted Service Certificates.

Sec. 501. The Director, upon certification from the Secretary of War or the Secretary of the Navy, as provided in Section 303, is hereby directed to issue without cost to the veteran designated therein a non-participating adjusted service certificate (hereinafter in this title referred to as a "certificate") of a face value equal to the amount in dollars of 20-year endowment insurance that the amount of his adjusted service credit increased by 25% would purchase, at his age on his birthday nearest the date of the certificate, if applied as a net single premium, calculated in accordance with accepted actuarial principles and based upon the American Experience Table of Mortality and interest at 4% per annum, compounded annually. The certificate shall be dated, and all rights conferred under the provisions of this title shall take effect, as of the first day of the month in which the application is filed, but in no case before Jan. 1 1925. The veteran shall name the beneficiary of the certificate and may from time to time, with the approval of the Director, change such beneficiary. The amount of the face value of the certificate (except as provided in subdivisions (c), (d), (e) and (f) of Section 502) shall be payable out of the fund created by Section 505 (1) to the veteran twenty years after the date of the certificate; or (2) upon the death of the veteran prior to the expiration of such twenty-year period, to the beneficiary named; except that if such beneficiary dies before the veteran and no new beneficiary is named, or if the beneficiary in the first instance has not yet been named, the amount of the face value of the certificate shall be paid to the estate of the veteran. If the veteran dies after making application under Section 302, but before Jan. 1 1925, then the amount of the face value of the certificate shall be paid in the same manner as if his death had occurred after Jan. 1 1925.

Loan Privileges.

Sec. 502. (a) A loan may be made to a veteran upon his adjusted service certificate only in accordance with the provisions of this section.

(b) Any national bank, or any bank or trust company incorporated under the laws of any State, Territory, possession, or the District of Columbia (hereinafter in this section called "bank"), is authorized, after the expiration of two years after the date of the certificate, to loan to any veteran upon his promissory note secured by his adjusted service certificate (with or without the consent of the beneficiary thereof) any amount not in excess of the loan basis (as defined in subdivision (g) of this section) of the certificate. The rate of interest charged upon the loan by the bank shall not exceed, by more than 2% per annum, the rate charged at the date of the loan for the discount of ninety-day commercial paper under section 13 of the Federal Reserve Act by the Federal Reserve bank for the Federal Reserve district in which the bank is located. Any bank holding a note for a loan under this section secured by a certificate (whether the bank originally making the loan or a bank to which the note and certificate have been transferred) may sell the note to, or discount or rediscount it with, any bank authorized to make a loan to a veteran under this section and transfer the certificate to such bank. Upon the endorsement of any bank, which shall be deemed a waiver of demand, notice, and protest by such bank as to its own endorsement exclusively, and subject to regulations to be prescribed by the Federal Reserve Board, any such note secured by a certificate and held by a bank shall be eligible for discount or rediscount by the Federal Reserve bank for the Federal Reserve district in which the bank is located. Such note shall be eligible for discount or rediscount whether or not the bank offering the note for discount or rediscount is a member of the Federal Reserve System and whether or not it acquired the note in the first instance from the veteran or acquired it by transfer upon the endorsement of any other bank. Such note shall not be eligible for discount or rediscount unless it has at the time of discount or rediscount a maturity not in excess of nine months exclusive of days of grace. The rate of interest charged by the Federal Reserve bank shall be the same as that charged by it for the discount or rediscount of ninety-day notes drawn for commercial purposes. The Federal Reserve Board is authorized to permit, or on the affirmative vote of at least five members of the Federal Reserve Board to require, a Federal Reserve bank to rediscount, for any other Federal Reserve bank, notes secured by a certificate. The rate of interest for such rediscounts shall be fixed by the Federal Reserve Board. In case the note is sold, discounted, or rediscounted the bank making the transfer shall promptly notify the veteran by mail at his last known post-office address.

(c) If the veteran does not pay the principal and interest of the loan upon its maturity, the bank holding the note and certificate may, at any time after maturity of the loan but not before the expiration of six months after the loan was made, present them to the Director. The Director may, in his discretion, accept the certificate and note, cancel the note (but not the certificate), and pay the bank, in full satisfaction of its claim, the amount of the unpaid principal due it, and the unpaid interest accrued, at the rate fixed in the note, up to the date of the check issued to the bank. The Director shall restore to the veteran, at any time prior to its maturity, any certificate so accepted, upon receipt from him of an amount equal to the sum of (1) the amount paid by the United States to the bank in cancellation of his note, plus (2) interest on such amount from the time of such payment to the date of such receipt, at 6 per centum per annum, compounded annually.

(d) If the veteran fails to redeem his certificate from the Director before its maturity, or before the death of the veteran, the Director shall deduct from the face value of the certificate (as determined in section 501) an amount equal to the sum of (1) the amount paid by the United States to the bank on account of the note of the veteran, plus (2) interest on such amount from the time of such payment to the date of maturity of the certificate or of the death of the veteran, at the rate of 6 per centum per annum, compounded annually, and shall pay the remainder in accordance with the provisions of section 501.

(e) If the veteran dies beofre the maturity of the loan, the amount of the unpaid principal and the unpaid interest accrued up to the date of his death shall be immediately due and payable. In such case, or if the veteran dies on the day the loan matures or within six months thereafter, the bank holding the note and certificate shall, upon notice of the death, present them to the Director, who shall thereupon cancel the note (but not the certificate) and pay to the bank, in full satisfaction of its claim, the amount of the unpaid principal and unpaid interest, at the rate fixed in the note, accrued up to the date of the check issued to the bank; except that if, prior to the payment, the bank is notified of the death by the Director and fails to present the certificate and note to the Director within fifteen days after the notice, such interest shall be only up to the fifteenth day after such notice. The Director shall deduct the amount so paid from the face value (as determined under section 501) of the certificate and pay the remainder in accordance with the provisions of section 501.

(f) If the veteran has not died before the maturity of the certificate, and has failed to pay his note to the bank or the Federal reserve bank holding the note and certificate, such bank shall, at the maturity of the certificate, present the note and certificate to the Director, who shall thereupon cancel the not (but not the certificate) and pay to the bank, in full satisfaction of its claim, the amount of the unpaid principal and unpaid interest, at the rate fixed in the note, accrued up to the date of the maturity of the certificate. The Director shall deduct the amount so paid from the face value (as determined in section 501) of the certificate and pay the remainder in accordance with the provisions of section 501.

(g) The loan basis of any certificate at any time shall, for the purpose of this section, be an amount which is not in excess of 90 per centum of the reserve value of the certificate on the last day of the current certificate year. The reserve value of a certificate on the last day of any certificate year shall be the full reserve required on such certificate, based on an annual level net premium for twenty years and calculated in accordance with the American Experience Table of Mortality and interest at 4 per centum per annum, compounded annually.

(h) No payment upon any note shall be made under this section by the Director to any bank, unless the note when presented to him is accompanied by an affidavit made by an officer of the bank which made the loan, before a notary public or other officer designated for the purpose by regulation of the Director, and stating that such bank has not charged or collected, or attempted to charge or collect, directly or indirectly, any fee or other compensation (except interest as authorized by this section) in respect of any loan made under this section by the bank to a veteran. Any bank which, or director, officer, or employee thereof who, does so charge, collect, or attempt to charge or collect any such fee or compensation, shall be liable to the veteran for a penalty of $100, to be recovered in a civil suit brought by the veteran. The Director shall upon request of any bank or veteran furnish a blank form for such affidavit.

Sec. 503. No certificate issued or right conferred under the provisions of this title shall, except as provided in section 502, be negotiable or assignable or serve as security for a loan. Any negotiation, assignment, or loan made in violation of any provision of this section shall be held void.

Sec. 504. Any certificate issued under the provisions of this title shall have printed upon its face the conditions and terms upon which it is issued and to which it is subject, including loan values under section 502.

Adjusted Service Certificate Fund.

Sec. 505. There is hereby created a fund in the Treasury of the United States to be known as "The Adjusted Service Certificate Fund," hereinafter in this title called "fund." There is hereby authorized to be appropriated for each calendar year (beginning with the calendar year 1925 and ending with the calendar year 1946) an amount sufficient as an annual premium to provide for the payment of the face value of each adjusted service certificate in twenty years from its date or on the prior death of the veteran, such amount to be determined in accordance with accepted actuarial principles and based upon the American Experience Table of Mortality and interest at 4 per centum, compounded annually. The amounts so appropriated shall be set aside in the fund on the first day of the calendar year for which appropriated. The appropriation for the calendar year 1925 shall not be in excess of $100,000,000.

Sec. 506. The Secretary of the Treasury is authorized to invest and reinvest the moneys in the fund, or any part thereof, in interest-bearing obligations of the United States and to sell such obligations of the United States for the purposes of the fund. The interest on and the proceeds from the sale of any such obligations shall become a part of the fund.

Sec. 507. All amounts in the fund shall be available for payment, by the Director, of adjusted service certificates upon their maturity or the prior death of the veteran, and for payments under section 502 to banks on account of notes of veterans.

Title VI.—Payments to Veteran's Dependents.

Order of Preference.

Sec. 601. (a) If the veteran has died before making application under section 302, or, if entitled to receive adjusted service pay, has died after making application but before he has received payment under Title IV, then the amount of his adjusted service credit shall (as soon as practicable after receipt of an application in accordance with the provisions of section 604, but not before March 1 1925) be paid to his dependents, in the following order of preference:

(1) To the widow or widower if unmarried;

(2) If no unmarried widow or widower, then to the children, share and share alike;

(3) If no unmarried widow or widower, or children, then to the mother;

(4) If no unmarried widow or widower, children, or mother, then to the father.

(b) For the purposes of this section payments made under paragraph (2) of subdivision (g) of Section 301 of the War Risk Insurance Act shall not be considered payments made by the United States on account of the death of the veteran.

Dependency.

Sec. 602. (a) No payment shall be made to any individual under this title unless at the time of the death of the veteran such individual was dependent.

(b) For the purposes of this section:

(1) A child of the veteran shall be presumed to have been dependent upon him at the time of his death if at such time such child was under 18 years of age.

(2) The widow or widower shall be presumed to have been dependent upon the veteran upon showing by them, respectively, the marital cohabitation; the father and mother, respectively, shall submit under oath a statement of the dependency, to be filed with the application.

Payment in Installments.

Sec. 603. The payments authorized by Section 601 shall be made in ten equal quarterly installments, unless the total amount of the payment is less than $50, in which case it shall be paid on the first installment date. No payments under the provisions of this title shall be made to the heirs or legal representatives of any dependents entitled thereto who die before receiving all the installment payments, but the remainder of such payments shall be made to the dependent or dependents in the next order of preference under Section 601. All payments under this title shall be made by the Director.

Application by Dependent.

Sec. 604. (a) A dependent may receive the benefits to which he is entitled under this title by filing an application therefor with the Secretary of War, if the last service of the veteran was with the military forces, or with the Secretary of the Navy, if his last service was with the naval forces.

(b) Applications for such benefits, whether vested or contingent, shall be made by the dependents of the veteran on or before Jan. 1 1928; except that in case of the death of the veteran during the six months immediately preceding such date the application shall be made at any time within six months after the death of the veteran. Payments under this title shall be made only to dependents who have made application in accordance with the provisions of this subdivision.

(c) An application shall be made (1) personally by the dependent, or (2) in case physical or mental incapacity prevents the making of a personal application, then by such representative of the dependent and in such manner as the Secretary of War and the Secretary of the Navy shall jointly by regulation prescribe. An application made by a representative other than one authorized by any such regulation shall be held void.

(d) The Secretary of War and the Secretary of the Navy shall jointly make any regulations necessary to the efficient administration of the provisions of this section.

Transmittal of Application.

Sec. 605. (a) As soon as practicable after the receipt of a valid application the Secretary of War or the Secretary of the Navy, as the case may be, shall transmit to the Director the application and a certificate setting forth—

(1) The name and address of the applicant;

(2) That the individual upon whom the applicant bases his claim to payment was a veteran;

(3) The name of such veteran and the date and place of his birth; and

(4) The amount of the adjusted service credit of the veteran, together with the facts of record in the department upon which such above conclusions are based.

(b) Upon such receipt of such certificate the Director shall proceed to extend to the applicant the benefits provided in this title if the Director finds that the applicant is the dependent entitled thereto.

Assignments.

Sec. 606. No right to payment under the provisions of this title shall be assignable or serve as security for any loan. Any assignment or loan made in violation of the provisions of this section shall be held void. The Director shall not make any payments under this title to any person other than the dependent or such representative of the dependent as the Director shall by regulation prescribe.

Definitions.

Sec. 607. As used in this Act—

(a) The term "dependent" means a widow, widower, child, father, or mother;

(b) The term "child" includes (1) a legitimate child; (2) a child legally adopted; (3) a stepchild, if a member of the veteran's household; (4) an illegitimate child, but, as to the father only, if acknowledged in writing signed by him, or if he has been judicially ordered or decreed to contribute to such child's support, or has been judicially decreed to be the putative father of such child; and

(c) The terms "father" and "mother" include stepfathers and stepmothers, fathers and mothers through adoption, and persons who have, for a period of not less than one year, stood in loco parentis to the veteran at any time prior to the beginning of his service.

Title VII.—Miscellaneous Provisions.

Sec. 701. The officers having charge of the administration of any of the provisions of this Act are authorized to appoint such officers, employees, and agents in the District of Columbia and elsewhere, and to make such expenditures for rent, furniture, office equipment, printing, bindings, telegrams, telephone, law books, books of reference, stationery, motor-propelled vehicles or trucks used for official purposes, traveling expenses and per diem in lieu of subsistence at not exceeding $4 for officers, agents, and other employees, for the purchase of reports and materials for publications, and for other contingent and miscellaneous expenses, as may be necessary efficiently to execute the purposes of this Act and as may be provided for by the Congress from time to time. All such appointments shall be made subject to the civil service laws. In all appointments under this section preference shall, so far as practicable, be given to veterans.

For the administration of the provisions of this Act, the President may except from the operation of Section 4c of the Act entitled "An Act for making further and more effectual provision for the national defense, and for other purposes," approved June 3 1916, as amended, or of any Act amendatory thereof or supplemental thereto, not more than seven officers of the Army.

Sec. 702. Whoever knowingly makes any false or fraudulent statement of a material fact in any application, certificate, or document made under the provisions of Title III, IV, or VI, or of any regulation made under any such title, shall, upon conviction thereof, be fined not more than $1,000, or imprisoned not more than five years, or both.

Sec. 703. The Secretary of War, the Secretary of the Navy, and the Director shall severally submit in the manner provided by law estimates of the amounts necessary to be expended in carrying out such provisions of this Act as each is charged with administering, and there is hereby authorized to be appropriated amounts sufficient to defray such expenditures. The Director shall also submit estimates for appropriations for the fund created by Section 505.

Secretary Wilbur's Report to the House on Condition of United States Navy—Statement of Assistant Secretary Roosevelt to Chairman Butler of House Naval Committee.

Considerable interest has been aroused in recent weeks concerning the naval strength of the United States as a result of articles published by W. B. Shearer, a naval expert, alleging deficiencies and weakness in our naval establishment. Admission by Curtis D. Wilbur, Secretary of the Navy, that the United States ranks second among naval powers, with a ratio for Great Britain, the United States and Japan, respectively, of 5-4-3, instead of a ratio of 5-5-3, as contemplated by the Treaty on the Limitation of Armaments, was contained in a letter forwarded by him to the House Naval Affairs Committee on May 22 in reply to a resolution, offered by Representative Britten, directing the Secretary to furnish data relative to the strength of the Navy. In stating, however, that the present fighting strength in ships of Great Britain, America and Japan would appear to be 5-4-3, Secretary Wilbur said that this ratio does not take into consideration strategically located and well-equipped naval bases, "which add greatly to the sea power of the nation, nor does it take into consideration the relative strength of various merchant marines."

Secretary Wilbur incorporated in his letter tables showing that other powers had larger building programs in contemplation than the United States. Great Britain was building or had authorized the construction of nine cruisers, Japan 12, France 5, and the United States 2. Great Britain is building or has authorized the construction of four destroyers, Japan 27 and France 24. Japan is building 37 submarines, France 23, the United States 11 and Great Britain 6. Great Britain is building 3 aircraft carriers, the United States and Japan 2 each and France 1. Great Britain is building two battleships, a concession made in the Armament Treaty to balance the Colorado and West Virginia, which were completed after the conference. To equal British tonnage in the matter of cruisers the United States needed twenty-two vessels, Secretary Wilbur said. He directed attention to the recommendation of the department that it be authorized to build eight modern scout cruisers.

Secretary Wilbur conceded that, in cruiser strength, the United States ranked third after England and Japan with a ratio of 5-3-1. The Secretary stated that the Navy Department had not included destroyers in its building program, "for we are far ahead in destroyers, though we lack destroyer leaders." Secretary Wilbur made it clear that in the matter of submarines the United States was not as strong as appeared on paper. He informed the committee that 50% "of all of our submarines are out of commission.'

Steps to restore the 5-5-3 ratio, contemplated by the three-power naval treaty, were taken by members of the House Naval Affairs Committee on May 23 following the report from Secretary Wilbur that the actual ratio is about 5-4-3, with the United States represented by the 4. By unanimous vote the committee decided to present the report to the House and to hold hearings on it without delay. Representative Vinson of Georgia, ranking Democrat on the committee, requested Rear-Admiral Latimer, Judge-Advocate-General of the Navy, to prepare an amendment to the $150,000,000 Naval Construction Bill in order to provide two additional airplane carriers. This would give the United States the same number that Great Britain has, with a slight advantage to this country because of the later type of the vessels. Secretary Wilbur's reply to the question contained in House Resolution No. 286, directing the Navy Department to furnish data on the country's naval strength, was addressed to Chairman Butler of the House Naval Committee. It was as follows:

NAVY DEPARTMENT.

Washington, May 21 1924.

My Dear Mr. Chairman:—Referring to your letter of May 6 1924, there is forwarded herewith the reply of this Department to the questions brought up in House resolution 286, of May 5 1924.

Question 1—Is it a fact that as a fighting unit the American Navy is to-day in third place among the navies of the world?

Answer—No. Plans have been prepared for the complete modernization of our battleships, as recommended in the annual report of the Secretary of the Navy, to cost $30,000,000. Authority for modernization of the six coal burning battleships has been requested of the present Congress.

The Department asked authority of the present Congress to build eight 10,000-ton light cruisers, also for funds to build three mine-laying submarines. As to the last sentence, it is difficult to definitely state our exact strength due to the varying ratios in the different types. A fair approximation may be obtained by study of the ratios for the various types in Paragraph 3.

A fair comparison of the present fighting strength in ships of Great Britain, America and Japan would appear to be 5-4-3. This ratio does not take into consideration strategically located and well equipped naval bases which add greatly to the sea power of a nation, nor does it take into consideration the relative strength of the various merchant marines.

The navy is in good shape with the exception of the above designated deficiencies, which should be remedied. The morale of the personnel, both commissioned and enlisted, is high. The appropriations furnished by Congress are being applied in such manner as to obtain the very best results.

Declares Equality in Aviation.

Question 2—Is it a fact that America leads the world in the theory and science of aviation and yet trails Great Britain, France and Japan in aviation preparedness for national defense?

Answer—America is on an equality with Great Britain and France in theory and science of aviation.

The United States is equal or ahead of any nation in the number of planes suitable for use in naval aviation, but is behind Great Britain in plane carriers. This will give a 5-4-3 ratio when the two plane carriers now under construction are completed.

The United States has done more operating of aircraft with the fleet than any other country, and, while the number of aircraft is far from adequate, the present state of efficiency of naval aviation is believed to be as high as that in any navy.

Question 3—Is it a fact that the navy has less than three months' supply of fuel oil in reserve storage and that other powers signatory to the Washington Treaty have from one to three years' reserve storage?

Answer—The amount of fuel oils in reserve storage on March 31 1924 would supply the fleet at the 1923 peace consumption rate for three and one-tenth months. The amount of fuel oil in current use tankage on same date would supply the fleet at the same rate of consumption for a period of three and two-tenths months.

The total oil on hand, March 31 1924, would supply the navy for six and three-tenths months at the present rate of consumption. The total supply on hand on March 31 1924, however, is less than 10% of the requirements for the navy for one year under war conditions. Exact information as to the fuel oil reserves of other powers can not be obtained. It is not believed that any nation has as much as a three-year reserve.

Plans for Oil Storage.

Question 4—What steps are necessary for an adequate reserve storage of fuel oil?

Answer—The approved policy of the Navy Department requires the provision of 48,059,200 barrels reserve storage for fuel oil and other petroleum products located at various strategic points. Of this there is now constructed tankage for 4,162,389 barrels.

To construct the remaining tankage (43,896,811 barrels) would take $71,955,000. If funds were made available it could be constructed over a number of years to take care of royalty oil as produced, where oil can not be kept in the ground in our oil reserves.

Question 5—Is it a fact that Great Britain's 22 first-line battleships have superior speed, greater radius of action, better torpedo and aircraft attack protection and longer gun range facilities than have our 18 first-line ships?

Answer—See Navy Department's letter 3809-959 : 283 of May 8 1924 to the Chairman of the Committee on Naval Affairs of the House of Representatives.

It should be noted in addition that the radius of action of the United States battleship force and the British battleship force do not differ materially. In the newer ships the United States ships are believed to have an advantage, while in some older vessels the British are believed to have an advantage.

Program for Modernizing Fleet.

Question 6—What reconditioning and alteration is necessary in order to put all battleships at their highest efficiency, and where was each ship stationed on May 1 1924?

Answer—(a) The modernization of the New York, Texas, Florida, Utah, Arkansas and Wyoming as previously recommended to Congress, comprising the provision of additional deck, torpedo and mine plane protection and conversion to oil burning, as provided for in H. R. 8687. These ships should also have some increased elevation of guns.

(b) The modernization of the New Mexico, Mississippi, Idaho, Pennsylvania, Arizona, Nevada and Oklahoma, including increasing angle of elevation of guns and additional torpedo protection.

(c) Various repairs and changes to the majority of ships, which can be made from the current appropriations when sufficient funds are made available.

The location and status of each ship on May 1 1924 is indicated below:

Arkansas	New York Yard, fitting out for midshipman cruise.
Wyoming	New York Yard, fitting out for midshipman cruise.
New York	Norfolk Yard, fitting out for midshipman cruise.
Texas	Norfolk Yard, fitting out for midshipman cruise.
Florida	North River, New York.
Utah	Tangier Sound.
California	San Pedro, target practice.
New Mexico	San Pedro, target practice.
Pennsylvania	San Pedro, target practice.
Nevada	San Pedro, target practice.
Arizona	San Pedro, target practice.
Idaho	San Pedro, target practice.
Mississippi	San Pedro, target practice.
Maryland	San Pedro, target practice.
Tennessee	San Pedro, target practice.
Oklahoma	Bremerton, annual overhaul.
Colorado	New York Yard, fitting out.
West Virginia	New York Yard, fitting out.

Radio Equipment Obsolete.

Question 7—Is additional radio equipment necessary on ships, and if so, where and in what order should it be installed?

Answer—Additional radio equipment is necessary on certain ships of the fleet as replacements for obsolete equipment and to comply with communication requirements for modern warfare.

This modernization includes:

(1) Replacement of spark transmitters and arc transmitters with vacuum tube transmitters. This reduces interference, increases range and permits of more economic operation. This has been partially accomplished in battleships.

(2) Provide for simultaneous transmission and reception by radio, by separating receivers and transmitters. This is necessary in order to permit rapidity in fire control and manoeuvring signals without impairing communications regarding orders and information.

(3) Replace present obsolete receiving equipment with modern receivers. Modern receivers are essential in order to permit operation on several channels of communication without interference.

(4) The substitution of mechanical operation for manual operation in order to economize on personnel and in order to reduce the time now used for signals. Modern equipment should be installed in the following order:

1. Flagships.
2. Battleships.
3. Destroyers.
4. Cruisers.
5. Submarines.
6. Patrol vessels.
7. Auxiliaries.

The modernization plan above indicated has been prepared for some time and work thereon is proceeding as rapidly as appropriations permit. It is hoped that future appropriations may make it possible to work more rapidly.

Construction Programs Compared.

Question 8—How does the American new construction program compare with that of other first class powers?

Answer—

Battleships.

Country—	Under construction or authorized.	Date on which treaty allowed first replacement of old battleships.
Great Britain *a*	2	1925
United States	0	1934
Japan	0	1934
France	0	1930

a These were agreed upon to balance the Colorado and the West Virginia, which were completed after the conference.

Cruisers Building or Authorized.

Country—	Number.	Tons.	Country—	Number.	Tons.
Great Britain	9*b*	84,600	Japan	12	90,680
United States	2	15,000	France	5	44,000

b Includes five provided in navy estimates, 1924-1925.

No Destroyers Needed.

The United States requires twenty-two to equal Great Britain in tonnage. The Navy Department is asking Congress this session for authority to build eight, as provided in H. R. 8687.

Destroyers Building or Authorized.

Country—	Number.	Tons.	Country—	Number.	Tons.
Great Britain	4	*c*6,200	Japan	27	36,800
United States	0	0	France	24	39,600

c Two flotilla leaders and destroyers, latter in navy estimates 1924-25.

None asked for in United States Navy program, for we are far ahead in destroyers, though we lack destroyer leaders.

Submarines Building or Authorized.

Country—	Number.	Tons.	Country—	Number.	Tons.
Great Britain	6	6,070	Japan	37	41,165
United States	11	*d*13,519	France	23	20,100

d Six additional to these eleven were authorized in 1916, but construction held in abeyance; no appropriations.

The Navy Department is asking Congress for funds to construct three mine-laying submarines of the six submarines already authorized. The appropriation bill as approved in conference carries the funds to commence one mine-laying submarine.

Aircraft Carriers Building or Authorized.

Country—	Number.	Tons.	Country—	Number.	Tons.
Great Britain	3	56,300	Japan	2	54,900
United States	2	66,000	France	1	24,830

Navy Department completing the two authorized above.

River Gunboats.

The United States Navy program includes six small gunboats to replace old vessels in Chinese rivers; three were approved by the budget; the Navy is asking Congress this session for six in all. Japan completed four river gunboats in 1923.

Question 9—What auxiliary ships are necessary for a proper rounding out of the Battle Fleet?

Answer—The Department assumes that this question refers to non-combatant auxiliaries. The approved policy of the Navy Department requires the construction of non-combatant auxiliaries enumerated in the table below to round out the fleet and to thoroughly prepare it to defend United States possessions:

Distilling ships, 2.	Destroyer tenders, 2.	Submarine tenders, 3.
Fleet repair ships, 3.		Aircraft tender, 1.
Mine layers, first line, 10.		Mine sweepers, 20.

A number of these could be taken over from the Merchant Marine and fitted out.

Question 10—Are American ships deficient in anti-aircraft batteries and machine guns?

Answer—American ships are not deficient in anti-aircraft batteries and machine guns when compared with the vessels of other navies. Improvement in these batteries is necessary. Considerable experimentation is going forward with this end in view. It is not desirable to replace the present batteries until a more satisfactory type of gun is developed. The problem is difficult and requires time and funds for development work.

Lists Reductions on Estimates.

Question 11—Have Congressional appropriations been in accord with Navy Department and Budget Commission recommendations, and if not, wherein has Congress failed?

Answer—The Navy Department's estimates, as submitted to the budget, have each year been considerably larger than the funds allowed by the budget. Therefore, the Congressional appropriations are not in accord with the Navy Department's recommendations. The Congressional appropriations have, however, been substantially in accord with the recommendations of the budget. There are certain minor reductions which Congress has made from the budget figures, which need not be detailed.

The important reductions for 1924 are:

Naval reserve force	$400,000
Engineering	325,000
Construction and repair	200,000
Ordnance and ordnance stores	479,000
Torpedoes and appliances	550,000
Fuel and transportation	500,000
Total, 1924	$2,454,000

The important reductions for 1925 are:

Bill in conference—probable reductions.	
Improvements to channel and harbor, Pearl Harbor	$400,000
Relocating dry dock Dewey at Cavite	330,000
Two barrack buildings at San Diego, Calif.	150,000
Elimination of provisions for beginning work on three submarines.	
Torpedoes and appliances	350,000
Total, 1925	$1,330,000

Question 12.—Is it a fact that airplane carriers authorized in July 1922, are not 50% completed and that at their present rate of construction will not be completed until 1928?

Answer.—The various steps in the building of airplane carriers authorized in July 1922, are listed as follows:

	Keel laid for original battle cruiser design.	Auth. for alteration & complet'n as airplane carrier.	Present per cent of completion.	Probable date of completion.
Lexington	Jan. 1921	July 1922	47.6	July 1926
Saratoga	Sept. 1920	July 1922	44.6	July 1926

Submarines Lack Battle Speed.

Question 13.—What steps are necessary for the promotion of proper naval aircraft to support the battle fleet?

Answer.—Increase appropriation for naval aviation in order to keep up with the rapid and progressive development of this arm of the service and to insure the fleet being fully supplied with the most modern types of this important weapon.

Question 14.—Is it a fact that we have not a single submarine capable of manoeuvring with the fleet, and, further, that our submarines are obsolete before their construction is completed?

Answer.—We have no submarines capable of manoeuvring with the fleet at battle speed nor at the usual fleet-cruising speed under all conditions of sea and weather. We have nearly completed the V-1, 2 and 3, which will be able to keep up with the fleet. Our submarines, for the purpose for which they are designed, are not obsolete before their construction is completed.

With the exception of the T class, they were not designed for maneuvering with the fleet and, within the limits of the purpose for which they were designed, are reasonably efficient and reliable.

Question 15.—Is it a fact that submarine engines do not compare in efficiency with those manufactured in Europe?

Answer.—The Bureau of Engineering is now building submarine engines that are identical with the best now manufactured in Europe. Four of our submarines are equipped with these engines. In all remaining submarines the engines are not equal to the best present European manufacture. In general, however, our submarines compare favorably with the corresponding units in the other navies.

Question 16.—Is it a fact that we have but three fleet submarines in the Navy (built in 1920 and 1921), and that they already are out of commission?

Answer—Yes. This class (three ships, the T boats above referred to) was designed in 1914 and finished in 1920-21. They have proved to be satisfactory. As the tendem-type engine has failed to give the performance expected, they are out of commission. As stated in the answer to Question 14 of this paper, we have, however, three building which will keep up with the fleet.

Submarines Under Construction.

Question 17—Is it a fact that three fleet submarines authorized six years ago are but 60% completed, and at present rate of construction in a Government yard will not be commissioned until 1928?

Answer—The steps in the building of these three fleet submarines are listed as follows:

	41	42	43
Authorized	July 1918	July 1918	July 1918
Keel laid	Oct. 1921	Oct. 1921	Nov. 1921
Percentage of completion (May 10 1924)	71.5	58.8	51.4
Probable date of completion	Jan. 1925	July 1925	Dec. 1925

At the time the construction of these vessels was authorized, the Navy Department was engaged in the building of a large number of smaller submarines, which were urgently needed for war service, and it was considered inadvisable to divert building facilities to the construction of vessels which could probably not be completed in time to be of use in war.

After the signing of the armistice the Navy Department decided to defer the preparation of the plans for these vessels until such time as full information could be obtained relative to the designs of British and German submarines and their experience in war.

Question 18—What is the present condition of each of our submarines and where were they stationed on May 1 1924?

Answer—H. K. and N Classes—19 submarines. General reliability excellent; would be very useful in time of war for training purposes and for coast patrol. Out of commission to furnish personnel for S boats.

L class—eight submarines. Four of these recently re-engined with satisfactory engines. The other four not considered sufficiently reliable to meet the latest requirements of coastwise work and will probably be sold. Out of commission to furnish personnel for S boats.

O and R Classes—43 submarines. Thirty of these are satisfactory and their reliability excellent, both surface and submerged. The other 13, while not so good, are creditable enough to be retained in commission. Two of these have recently had damages to their hulls, which will require extensive repairs to place them in commission.

These submarines are of great military value to the United States in defense of outlying stations and are assigned to the Canal Zone and Pearl Harbor.

S Class—50 submarines. These vessels were designed for important operations of a general nature, similar to the U-110 class, are practically 1,000 tons, with a radius of 4,000 miles. These boats were authorized in 1916. The last will be completed this year, and all will then be in commission.

Forty-one are in fair to good condition. The material condition of nine is such as to require extensive repair to put in good condition. They were built with a 7-inch crank-shaft, which was not satisfactory, and the contractors substituted 8-inch shafts, which had originally been planned for the boats by the department. The Bureau of Engineering expects that the new crank-shaft will eliminate further crank-shaft trouble. Thus far they have been satisfactory.

T Class—3 submarines, designed in 1914 and finished in 1920 and 1921; were not satisfactory as the tandem type of engine has failed to give the performance expected; out of commission; unsatisfactory.

V Class—3 submarines. These boats now under construction, 50 to 70% completed.

Location May 1 1924.

H-2, 3, 4, 5, 6, 7, 8, 9 (8), submarine base, Hampton Roads, Va., out of commission.
K-1, 2, 3, 4, 5, 6, 7, 8 (8), out of commission.
L-2, 3, 5, 6, 7, 8, 9, 11 (8), out of commission.
N-1, 2, 3 (3), New London, Conn.
O-1, 2, 3, 4, 5, 6, 7, 8, 9, 10 (10), Coco Solo, Canal Zone.
O-11, 12, 13, 14, 15, 16 (6), Philadelphia Yard, being decommissioned.
R-1, 2, 3, 4, 5, 6, 7, 8, 10, 11, 12, 13, 14, 15, 16, 17, 18, 19, 20, Pearl Harbor.
R-9, en route Pearl Harbor from Canal Zone.
R-21, 25, Philadelphia Yard, being decommissioned.
R-24, Portsmouth Yard, New Hampshire.
R-23, 26, 27, Coco Solo, Canal Zone.
R-22, New London, Conn.
S-1, 3, New London, Conn.
S-2, 4, 6, 7, 8, 9, 14, 15, 16, 17, Cavite, P. I. (with Asiatic fleet).
S-10, 11, 12, 13, 21, 23, 24, 25, 26, 27, 28, New York.
S-18, New London, Conn.
S-19, 20, Portsmouth Yard, N. H.
S-22, 29 (building), New London S. and E. Co., Groton, Conn.
S-30, 31, 32, 33, 34, 35, 36, 40, San Diego.
S-37, 38, 39, 41, Mare Island.
S-42, 43 (building), New London, S. and E. Co., Groton, Conn.
S-44, 45, 46, 47 (building), Electric Boat Co., Quincy, Mass.
S-48, Portsmouth Yard, N. H.
S-49, en route New London to New York.
S-50, Portsmouth Yard, N. H.
S-51, New York.
T-1, 2, 3, Hampton Roads, Va. (out of commission).
V-1, 2, 3 (building), Navy Yard, Portsmouth, N. H.

Question 19—Is the United States in third place in submarine strength?

Answer—See statement in paragraph 3 concerning submarines in the department's letter 3809-959-283 of May 8 1924, to the Chairman of the Committee on Naval ffairs.

In submarines, built and building, 485 tons and over, the tonnage ratio is:
Great Britain.....4.7 United States.....7.6 Japan 7.3

Would Develop Diesel Engine.

Question 20—What steps are necessary to insure the construction of submarines that will function in accordance with specification requirements?

Answer—Continue present effort to develop an improved Diesel engine which will meet latest submarine requirements, and continue progressive tests with the fleet. A type engine is now being tested at the Navy Yard, New York.

Question 21.—Is it a fact that the United States ranks third in the number of light cruisers in commission.

A: Yes. See paragraphs 3 and 11 of the Department's letter, 3809-959-283 of April 29 1924, to the Chairman of the Committee on Naval Affairs, House of Representatives.

Cruisers.

Cruisers built, building or authorized since 1912 compared in ratio of the number of cruisers:
Great Britain.....5|United States.....1|Japan.....3
And compared in tonnage ratio:
Great Britain.....5|United States.....1.5|Japan.....3

Needs in Light Cruiser Class—Light Cruisers.

Ships necessary to build to bring up to 5–5–3 ratio in displacement tonnage, in addition to ships now built, building, or appropriated for:

United States	A21	C210,000	B22
Great Britain	None	None	None
Japan	None	None	None

A. 10,000 tons; B, on basis of present Japanese tonnage; C, on basis of British tonnage, including 5 new ones in 1925 British estimates.

This table shows that at the present date (April 8 1924) we require twenty-one 10,000-ton cruisers to obtain a 5–5–3 ratio with Japan, and need twenty-two 10,000-ton cruisers to obtain an equality, or 5–5 ratio, with England (on tonnage basis).

As these ships would be larger and more modern than the majority of the corresponding units in the British and Japanese navies this would give us a preponderance in cruiser strength, if all were completed as of to-day.

All nations, however, have cruiser-building programs, and this nation should map out a program for the future, with the end outlined above in view.

Question 22.—Are destroyer tenders in bad repair?

Answer.—In general, no. The Denebola, because of state of repair, and as conversion to tender, was not entirely completed, has been withdrawn from service in order to commission the new Dobbin. The Melville (battle fleet) at next overhaul will be fitted with new furnace burners, otherwise good repair. The Altair (battle fleet) conversion to tender nearly completed, good repair. The Rigel (battle fleet), destroyer base tender, good repair. The Bridgeport (scouting fleet) will eventually be relieved by the new Whitney; is a coal burner; good repair. The Black Hawk (Asiatic fleet), good repair.

Note.—All destroyer tenders now in commission are too slow, but compare favorably with those of the other great naval powers.

Lack Torpedoes, Not Mines.

Question No. 23.—Is a proper surplus of mines and torpedoes being maintained?

Answer.—A proper surplus of mines of the most modern type is now maintained. The surplus of torpedoes prescribed by the General Board is not maintained. The Navy Department has approximately 80% of the number of torpedoes required and effort has been made for several years to fill existing deficiencies, but appropriations for this purpose have been insufficient to permit the reserve supply to be built up to the amount required by the plans of the general board.

Question 24.—How many additional mine sweepers are necessary?

Answer.—The Department's approved policy would require twenty additional mine sweepers, which would be met in time of war by taking over and fitting out ocean-going tugs.

Question 25.—Is America in third place in the matter of naval bases in the Pacific?

Answer.—In the western Pacific, yes, in third place. In the eastern Pacific, no; in first place.

Question 26.—What is the most important naval base requirement?

Answer.—The most important base requirement on shore is the completion of the Pearl Harbor base development project.

Question 27.—Have recent fleet manoeuvres indicated that our ships are properly manned with an enlisted personnel of 86,000?

Answer.—It has not been practicable to keep in commission the desired number of vessels of required types, because of an insufficient allowed personnel. It is for this reason that we have laid up so many destroyers which could be profitably engaged in fleet manoeuvres. The ships in commission can be manned with only 90 to 95% of their required complements.

Sincerely yours,
CURTIS D. WILBUR, *Secretary.*

HON. THOMAS S. BUTLER, *Chairman, Committee on Naval Affairs, House of Representatives.*

Secretary Wilbur, who recently made an official visit to the Naval Academy, issued a statement on May 2 at Annapolis in regard to the naval strength of the United States, in which he said:

To the layman who is not conversant with naval affairs the various reports that have been seen in the daily papers in the last few days might indicate an alarming condition in our fleet. A month or so previous to the beginning of the winter manoeuvres technical experts in the Navy Department drew up a great many questions for the fleet to answer resultant upon these manoeuvres, the idea being that the Department desired to know the weaknesses of the fleet in all particulars in order that action might be taken to place the fleet in as near perfect condition as practicable.

The result was that the Commander-in-Chief's report, which has been referred to and remarked on by the papers, was a resume of the answers to the questions to the fleet.

When one considers that this report covered all the types of vessels, including aircraft, in our service and the many vessels in each type, the significance given to the report should be accepted with moderation.

The Department was well aware of many of the faults contained in this report and has been trying for some time to improve the condition as the appropriations warrant it. Congress is fully aware of these shortcomings in our service, which were not brought about by any indifference on the part of the Department, but through lessons learned since the World War.

The submarine is not as fully developed as the Department desires and the weaknesses in our own service hold good in many others, and everything

has been done and is being done to improve this war weapon. The submarine used in the fleet this year was not designed to cruise with the battle fleet, but as our navy has not a fleet submarine these submarines were forced to that duty, and it was well known by the Department previous to the winter manoeuvres that it would not stand up equal to a fleet design.

A report on the condition of the United States Navy was previously made to Chairman Butler of the House Naval Affairs Committee on May 10 by Lieutenant-Colonel Theodore Roosevelt, as Acting Secretary of the Navy.

Colonel Roosevelt's report was in reply to criticisms on the condition of our navy, published in the "New York Times" on April 28 by W. D. Shearer. The Acting Secretary of the Navy admitted that much of Mr. Shearer's criticism—probably half of it—was well founded, and the report urged that Congress should provide appropriations to restore the fleet to parity with that of Great Britain and give it the lead over Japan agreed upon. Mr. Shearer's article asserted that the present relative strength of the British, Japanese and American navies was "5-3-1, with our navy one." Answering this statement, Colonel Roosevelt's report said:

As to the last sentence, it is difficult to definitely state our exact strength due to the varying ratio in the different types. A fair approximation may be obtained by study of the ratio of the various types in paragraph 3. A fair comparison of the present fighting strength in ships of Great Britain, America and Japan would appear to be 5-4-3.

This ratio does not take into consideration strategically located and well-equipped naval bases which add greatly to the sea power of a nation, nor does it take into consideration the relative strength of the various merchant marines.

The navy is in good shape, with the exception of the above-designated deficiencies, which should be remedied. The morale of the personnel, both commissioned and enlisted, is high. The appropriations furnished by Congress are being applied in such a manner as to obtain the very best results.

W. D. Shearer, iin a reply to Assistant Secretary of the Navy Roosevelt, made a vigorous defense of his charge that the present naval ratio of England, Japan and the United States is 5-3-1, with the United States at the small end. Incidentally he asserted that Japan had bought the German plans for a 45,000-ton submarine and that Japan to-day had the greatest building program of any navy in the world. Mr. Shearer said, according to the "New York Times," that well-organized pacifist propaganda had brought about the weakening of the navy and that the propaganda would be exposed in the hearings at Washington. This propaganda, he asserted, also had succeeded in crippling the Naval Academy. After giving specifications to show how the United States Navy was outspeeded and outranged by the Japanese and British, he said: "The United States battleships can never force battle or withdraw from battle. We must stand and fight. And without equal or superior gun range, we would be annihilated and never register one hit."

Figures submitted to the House on May 24 by Representative Fred H. Britten of Illinois, a Republican member of the Committee on Naval Affairs, indicate that Great Britain has expended a far larger amount for the development of its navy since the adoption of the Washington treaty in 1921-22 than has been authorized on this account by the United States. Mr. Britten's figures also show that Japan's expenditure for naval purposes have sharply declined since the adoption of the treaty by the Washington conference. Washington dispatch with reference to the matter said:

The figures, which were obtained in official quarters, tend to show that Great Britain is rapidly increasing its appropriations for the aviation department of the Royal Navy. In 1923, according to Mr. Britten's statement, the British naval budget provided for an expenditure of more than $388,000,000. The amount authorized on naval account dropped to approximately $310,000,000 in 1924, and it is estimated that a little more than $350,000,000 will be available for His Majesty's navy in 1925. Appropriations for naval air service in Great Britain were $50,000,000 in 1923, $60,000,000 in 1924 and $73.500,000 for 1925.

Japan's expenditures for naval purposes in 1923 were a little more than 397,000,000 yen ($200,000,000); in 1924, 278,000,000 yen, and for 1925 a little in excess of 238,000,000 yen.

Total appropriations authorized for the American navy in the three years under consideration were as follows:

1923------$284,000,000|1924------$320,000,000|1925------$288,000,000

Last year Congress appropriated $14,000,000 for the Naval Air Service, as compared with a little more than $15,000,000 this year.

House Passes Naval Bill Designed to Restore 5-5-3 Ratio.

The House on May 28 passed a bill designed to bring the American Navy up to the 5-5-3 ratio fixed by the Washington arms conference. The vote was 166 to 138. As sent to the Senate the measure would authorize construction of eight scout cruisers, six river gunboats and extensive improvements to six battleships at a total estimated cost of $111,000,000. Approval was given a provision for the expenditure of $18,360,000 for converting to oil burners six coal-burning battleships and affording them additional protection against submarine and aircraft. By a vote of 74 to 54 the House rejected an amendment to the naval construction bill to authorize an appropriation of $6,500,000 to elevate guns of thirteen battleships. An amendment by Representative Montagu, Democrat, Virginia, to authorize the President to suspend the building program, should another naval limitations conference be held, was accepted.

Interest in British House of Commons in American Navy Program.

According to an Associated Press dispatch from London, May 28, British interest in the proposals for improving the American Navy came to the surface amid a miscellaneous asking and answering of questions in the House of Commons on that day, but when the discussion warmed up to a point where mention was made of "the naval competition between Great Britain and the United States," the Speaker silenced further talk on the subject by saying it was not the proper time to debate it. Regarding this incident, press dispatches said:

William Wedgwood Benn, Liberal, asked Premier MacDonald whether, in fact, it did not appear that the naval competition between the two countries was proceeding. In reply the Prime Minister said:

"I do not think it is a fact. If I had any evidence that it were I should take steps at once to try to avoid it."

Mr. Benn then asked if Representative Thomas S. Butler of Pennsylvania had not alleged before the Congressional Naval Committee in connection with his declaration that it was necessary to spend $150,000,000, including the construction of eight cruisers, in order to bring up the American Navy to equal strength with the British navy, that the American naval forces were inferior.

Mr. MacDonald said that he had heard such speeches in the House of Commons and had read such speeches which had been delivered before Congress.

Commander Joseph M. Kenworthy then asked: "Is there not all the more reason why we should take steps?"

It was at this point that the Speaker intervened and declared that the time was not propitious for a debate on the question.

The discussion was begun by Commander Kenworthy, who asked the Premier whether he had seen Representative Butler's statement, and whether in view of this Mr. MacDonald would retard the building of the five additional cruisers until the possibility of a further conference on armaments had been carefully examined.

The Prime Minister said the American proposal had been made Feb. 2 while Great Britain's intention to proceed with the five cruisers had been announced Feb. 21. Regarding a further conference on armaments, he said nothing to add to the statement he made May 7.

Judge Gary on Movement During War to Federalize Steel Industry.

Judge Elbert H. Gary, in addressing as President the American Iron and Steel Institute at its annual banquet in New York a week ago (May 23), dealt with the mobilization of the military forces and facilities of the country at the time of our entry in the World War, and in particular with the movement "to mobilize the iron and steel industry of the United States in co-operating with the Council of National Defense in supplying and utilizing the iron and steel necessary for war purposes up to the full limit of production capacity." In the course of his remarks Judge Gary said:

At one of the meetings in Washington, probably during the fall of 1917 or the early part of 1918, it was stated by Mr. Willard, the then acting Chairman of the War Industries Board, that the Government was seriously considering the advisability of taking over control and management of the iron and steel industry as a guaranty of full production and distribution. This provoked expressions of surprise and objection, whereupon Mr. Willard, for his Board, promised that before action should be decided upon, the steel committee would be given a full hearing. Subsequently the steel committee received notice to appear before the War Industries Board in Washington. . . . The committee appeared and a somewhat lengthy discussion took place. Several members of the Board argued in favor, and members of the steel committee against. The Chairman, with earnestness and considerable feeling, though with no show of anger, spoke at length. Perhaps the same is true of other members of the committee. After referring, considerably in detail, to what the steel industry under existing management had done and was doing towards supplying steel for the military necessities of the United States and its associates, the argument of the Chairman of the committee closed with substantially these words: "If you think, under Government management, better service will be rendered and you believe you can legally do it, you may undertake to forcibly secure the management of the steel business. You will never do it with the consent or approval of the owners of these properties, and you will be held responsible, morally at least."

Mr. Baruch at this time was Chairman of the Board, and through Mr. Brookings, who had never advocated the proposed procedure, the Board then took the matter to the President, who, after reading the proceedings written up, decided to let the matter rest temporarily at least. The subject was never again broached to the steel committee. It has been reported that the Secretary of the Treasury had urged the President to take over the steel industry, though the steel committee does not claim to have knowledge of this action on the part of the Secretary. It is believed that the War Industries Board or the Council of National Defense did not originate or advocate the proposed Governmental management. That the President was urged by some one and was partly committed to the scheme, and that the War Industries Board was honestly advocating the course suggested under instructions from the President, there can be little doubt. Imagine what would have been the consequences if the steel business had been taken over.

A statement by Mr. Baruch, calling in question some of Judge Gary's statements, is referred to in another item in this issue. Herewith we give Judge Gary's address:

Soon after the United States entered the war, Mr. Bernard Baruch, by appointment and at the direction of the Council of National Defense, called upon the President of the American Iron and Steel Institute and requested

him to act as Chairman and to organize a committee of iron and steel masters to represent and to mobilize the iron and steel industry of the United States in co-operating with the Council of National Defense in supplying and utilizing the iron and steel necessary for war purposes up to the full limit of productive capacity. This request was fortified by letters from the Secretary of War and the Secretary of the Navy.

Besides, Mr. Baruch wrote:

"I have just communicated by telephone with Hon. Newton D. Baker, Secretary of War, and President of the Council of National Defense, who has requested me to ask you to serve as Chairman of a Committee on Steel and Steel Products, which he trusts you will accept. We would be glad to have you select among your associates such committees or committeemen as you deem wise." . . .

And again:

"I am in receipt of your letter notifying me of the appointment of your committee. I think the country is particularly fortunate in having men of the character and ability of yourself and your associates.

"I presume that, being men of wisdom, you realize of what great importance your committee is, and also what grave responsbilities rest upon it and upon each and every member of it. Should the crisis, which I believe is now upon us, come to a head, it is to your industry and the men running it that the country will have to rely, as much as, if not more than, any other, for its protection and defense."

Secretary Daniels wrote:

"I beg to acknowledge receipt with thanks your favor of the 29th inst., advising me of the committee you have selected on steel and steel products. . . . Also a letter to Mr. Baruch giving the names of the committee selected by you as President of the American Iron & Steel Institute, on Steel and Steel Products. I am sure that a committee composed of such men can render most valuable aid to both arms of the service. I am very glad to note that the spirit manifested by the members of the committee was loyal and liberal."

The Secretary of War wrote:

"I have just received your letter of March 30th, informing me that, at a meeting of the Committee of Steel Manufacturers, certain base prices were agreed upon as reasonable. I note that a copy of that letter has been sent to the Secretary of the Navy and one to Mr. Baruch.

"Please permit me to thank you and your associates for the patriotic and liberal consideration given to this most important subject."

In accordance with the request from the Council of National Defense through Mr. Baruch the committee was immediately organized, established sub-committees, commenced active operations, met frequently and remained in office until after the armistice was signed. At first it was designated as a part of the Council of National Defense, but a little later, because of legal questions which were raised, the committee was dissolved, and, at the instance of the Government, its members were promptly organized into a new, independent committee representing only the iron and steel industry of the country.

The members of this committee you know. Their activities, in general, were reported to the Institute at its regular meetings, as will appear by reference to the addresses of the President, printed in the yearly volumes.

How much hard work was done by the general committee and by sub-committees need not be detailed. A large part of the hard work was performed by the committee on distribution, composed of James A. Farrell, E. A. S. Clarke and J. A. Topping, and their skill, patience, fairness and success are deserving of the highest praise and most generous commendation.

The general committee on steel assumed full charge of the activities of the iron and steel industry relating to war production and intercourse with the different departments of Government. Meetings of the general committee throughout the war were frequent and generally held at the office of the President, Mr. Clarke acting as Secretary. But the most important, delicate and involved work of the general committee related to the meetings of this committee from time to time with the leading members of the entire industry engaged in the production of raw, semi-finished and finished materials and transportation of the same, and with the representatives of the Government at Washington. At the beginning, one Governmental representative or more would visit the committee in New York for the discussion of prices or other matters; this practice was to some, but not large, extent followed throughout the war. Later the general committee was called to Washington to meet and discuss various questions with the Secretary of War and the Secretary of the Navy and others.

Still later, the War Industries Board was organized by and for the Government, and its meetings were held in Washington. This Board had charge for the Government of many questions, including allocations, productions, distributions and especially, because most important, the fixing of selling prices for commodities included. It was this Board with whom the general committee of the steel interests usually had contact, discussion and arrangement concerning the steel sold to the Government. In the earlier months there were different men at short priods acting as Chairman of the War Industries Board, all good men, but finally Mr. Baruch became permanent Chairman of the Board, with Mr. Robert S. Brookings, permanent Chairman of the Price Fixing Committee, and Mr. J. Leonard Replogle, Director of Steel Supply. There were other sub-committees, but not so active concerning the steel business. The number on the War Industries Board was large and their names are well known. They were able, fair and conscientious. From the viewpoint of the steel industry, Mr. Brookings was the most conspicuous. He was Chairman of the committee with whom the steel committee had the most discussion, and, so far as some members of this committee are concerned, the greatest differences at the beginning of the hearings. He had able associates on his committee, but he had a decided advantage over most of them. He had had a wide and valuable experience in business management. He was a very hard worker and, between the meetings with the steel committee, he would become thoroughly familiar with the affairs of the steel men. With the aid of the Federal Trade Commission, in examining and reporting on the books of the producers, he learned the actual costs of production and delivery. Besides, he was an able, intelligent, learned man, President of a college, shrewd, clear, forceful and convincing in expression of his views. He was an entire stranger to the members of the steel committee when they first met him in connection with the War Industries Board, but they soon learned to know him and to respect his conclusions. It is only fair to say that, after a long experience with the War Industries Board, all in all the steel committee could not, nor had any inclination to, challenge the wisdom, fairness and intentions of this Board from Mr. Baruch down. We did not always agree with them. Quite the contrary. Some of us thought at the time some decisions were wrong and unjust, but considering everything, we now believe they were justified in their conclusions.

Prices on all iron and steel commodities were fixed about every three months. Notice of the meetings of the Board were sent to the steel committee in advance. Then, as some of you will remember, came the necessity for consultation, discussion and, finally, decision. The Chairman of the steel committee would send notices to representatives of the entire iron and steel industry for a meeting at a time and place designated. The attendances were large and the discussions were protracted. As a rule, larger selling prices for the three months to follow were urged by many steel men in attendance and good reasons were given; higher costs of production, higher wage rates and transportation rates, higher taxes, additional wear and tear on machinery, much larger prices offered for use in construction outside of military purposes, foreign and domestic, inability on the part of many to furnish material up to the allotments, etc., etc. Much patience had to be exercised by everyone. For purposes of the record, reference will later be made to the attitude assumed by the general committee on steel.

The general committee stood for what its members believed was fair, no more and no less. At some meetings of the entire industry there were many manufacturers who seemed to think the steel committee was not reasonable in respect to giving advice, particularly towards producers whose costs were high. In several such cases certain members of the steel committee purchased from the complaining producer and personally paid for his or its commodity at prices materially larger than the Government prices.

As a result of these frequent representative steel meetings, it is believed that, without exception, it was, before final adjournment of each meeting, unanimously resolved that the whole subject matter be submitted with full power to the general committee. This was not only creditable, it was astonishing, for the arguments in favor of prices lower than some that were demanded were made by members of this general steel committee. Among the arguments advanced by those who advocated the lower prices, the most telling and convincing related to patriotism, love of country and duty. Not a man in the whole steel industry who attended these meetings ever did or ever could ignore or resist the influence of appeals to his spirit of loyalty. Looking back to these meetings of excitement, sometimes of apparent temper, deep-seated and well-expressed sentimnts of dissatisfaction and injured feelings, allow your President to say that the grandest and most satisfying experiences in his life were to see large numbers of steel magnates stand upon their feet again and again as an expression of assent to resolutions in favor of subordinating personal interest to the public weal. All credit and honor to these men.

But the difficulties surrounding the steel committee were not ended with the adjournments of the large meetings of the steel industrials. The subject matter was referred with power to the committee for action, and composing this committee were ten members. They were hardly ever entirely in accord at the beginning. There were many discussions and occasionally wide differences. Often decisions were not reached in time to meet the Industries Board in Washington, as notified, and further time to consider and report was asked and granted. More than once, the general committee, without having agreed, met the Industries Board, and different schedules were presented and discussed. In such cases the War Industries Board had to adjust the existing differences. Having said this much, only for the purpose of hinting at the difficulties which perplexed the steel committee, it is proper to say that there is no good ground for finding fault with any member of the committee. All were fair, well-intentioned and intelligent. Perhaps eevryone was right from his own viewpoint. There was never any ill-feeling among the members of the general committee. The Chairman has reason to be grateful for the splendid assistance rendered by every other mmber of the committee.

Nor did the members of the War Industries Board always agree at the start, judging by their remarks and discussions. They had their troubles. However, at the end of every hearing, after much discussion, wide differences, consideration of what seemed insurmountable obstacles, both sides, the War Industries Board and the general steel committee, unanimously agreed upon prices for three months, and the President approved and published the prices fixed. This also was largely influenced by a spirit of patriotism.

As to profits based on these prices, they were nil in some cases, small in many cases, substantial in other cases and liberal in a few. This was because the only practical and legal thing to do was to fix one price for each commodity, and as no two producers had exactly the same costs, these difficulties were overcome, so far as practicable, by discriminations concerning allotments, by accommodating so far as possible the higher cost mills, and by assumption of certain burdens by those who were better able financially to carry them, and by purchases, as already mentioned.

The iron and steel industry would not like to go through another war, but if it became necessary, would again offer its services and its facilities in defense of home and country. Indeed, by resolution of the Institute, lately adopted, it is pledged to do this.

What did the iron and steel industry do or furnish to the United States Government and its associates for military purposes during the late war?

A single industrial concern of this country during the war furnished for the military necessities of the United States and associates in the war, finished steel aggregating approximately 18,500,000 tons, valued at $1,400,000,000. It purchased Government Liberty and Victory Loan issues amounting to about $112,000,000; expended for extensions to producing plants and other property in order to enable it to meet the demands for steel and proprietary products a total of about $350,000,000. We rightly assume that other business concerns engaged in the same line of industry together supplied steel to relatively the same extent and made proportionate expenditures and investments; and therefore there was furnished by the industry as a whole at least 35,000,000 tons of steel of a value of $2,600,000,000, and an outlay for expenditures and investments of $750,000,000 or more.

Besides this, without any demand or request from the Government or from the workmen, it increased the wage rates from time to time, commencing with an average daily earnings per employee of about $2 85 in 1914, until they amounted to an average of $6 20 in December 1918, an increase of 116%.

It furnished to the Government, without charge or recompense, large numbers of experts in various lines of the nation's military activities.

It extended its capacity to produce finished steel products by about 10,000,000 tons, in many cases for works that could not be utilized in times of peace and therefore were nearly a total loss.

It never refused nor neglected to honor any requisition of the Government for any expenditure deemed essential to carrying on the war.

It expended for experimentation millions of dollars in order to assist the Government in its endeavor to perfect its facilities for military defense.

It never failed to make deliveries of steel or finished products demanded for war purposes and, on the contrary, met every demand, and without any delay that was injurious to the Government or materially interfered with its war program.

In every respect it gave its unlimited, unqualified support to the Government and its associates in their military campaigns up to the full measure of the capacity which it possessed at the beginning or could secure by prompt and efficient effort and expenditure.

And everything it did was done cheerfully and promptly.

At one of the meetings in Washington, probably during the fall of 1917 or the early part of 1918, it was stated by Mr. Willard, the then acting Chairman of the War Industries Board, that the Government was seriously considering the desirability of taking over the control and management of the total iron and steel industry of the United States as a guaranty of full production and distribution. This provoked expressions of surprise and objection, whereupon Mr. Willard, for his Board, promised that before action of this kind should be decided upon, the steel committee would be duly notified and given a full hearing. Subsequently the steel committee received notice to appear before the War Industries Board in Washington,

at a time fixed in the notice, for consideration and decision of the subject of taking over the iron and steel business, as previously suggested. The committee appeared and a somewhat lengthy discussion took place. Several members of the Board argued in favor, and members of the steel committee against. The Chairman, with earnestness and considerable feeling, though with no show of anger, spoke at length. Perhaps the same is true of other members of the committee. After referring, considerably in detail, to what the steel industry, under existing management, had done and was doing towards supplying steel for the military necessities of the United States and its associates, the argument of the Chairman of the committee closed with substantially these words: "If you think, under Government management, better service will be rendered and you believe you can legelly do it, you may undertake to forcibly secure the management of the steel businss. You will never do it with the consent or approval of the owners of these properties and you will be held responsible, morally at least." Mr. Baruch at this time was Chairman of the Board and through Mr. Brookings, who had never advocated the proposed procedure, the Board then took the matter to the President, who, after reading the proceedings written up, decided to let the matter rest temporarily at least. The subject was never again broached to the steel committee. It has been reported that the Secretary of the Treasury had urged the President to take over the steel industry, though the steel committee does not claim to have knowledge of this action on the part of the Secretary. It is believed that the War Industries Board or the Council of National Defense did not originate or advocate the proposed Governmental management. That the President was urged by some one and was partly committed to the scheme, and that the War Industries Board was honestly advocating the course suggested under instructions from the President, there can be little doubt. Imagine what would have been the consequences if the steel business had been taken over. It is believed this, together with certain labor questions (not including rates of compensation), were the only serious matters concerning which the steel industry was opposed to requests made by any Governmental agency during the war.

As typical of the attitude of the steel industry during the war, excerpts from contemporaneous printed records are appended hereto.

Annual Meeting American Iron and Steel Institute, May 25 1917. Taken from address by the President:

"At last war was forced upon us. The President was compelled to conclude that we were intentionally attacked, that the honor and integrity of our country could no longer be maintained unless the gage of battle was accepted; and in this decision he was supported by the whole country. His clear, powerful, convincing and eloquent statement of the case and impeachment of the enemy will stand out in history as one of the greatest official declarations and also as fully justified by the existing facts and circumstances. . . .

"The task which confronts the country is not confined to the army and navy, although they will be entitled to the larger part of the credit and glory if we succeed. They offer their bodies as a sacrifice, and they must have the undivided, unqualified support of all outside their ranks. The time, money and prayers of all civilians must be given for the soldiers. They bear the brunt; they are the shield for our safety. All of us are fighting in self-defense. This is our land and the flag is ours. The administrators of the country, from President Wilson down, are no more interested than each of us. Life would not be worth living if our flag were to be permanently furled; if our country were subjugated by an alien enemy, especially such a one as we now defend ourselves against.

"The pecuniary burdens to be imposed upon us will be very great. We knew in advance such would be the case. We must pay the enormous cost of mobilizing, equipping, supplying and moving our own armies; and we must advance money and provide supplies to our Allies in accordance with their necessities and our resources. We could not decline if we were disposed, for they are now fighting our battles and we are, with them, under the whole burden. We must never falter nor retrace our steps. Wherever or whenever the end is we must press forward with all our strength, might, minds and souls. The more vigorously we proceed within the limits of intelligence, the sooner will the end be reached."

Semi-annual meeting of American Iron and Steel Institute, Oct. 26 1917. From address of the President:

"If the members of the Iron and Steel Institute agree with what has been said thus far, as from a long and intimate acquaintanceship I believe they do, then it is easy to determine and to follow the lines of duty. We occupy a position of the highest importance in the present war. Our country and its allies in the international conflict are in need of every pound of steel that can be produced in this country and which can be used for war purposes. To insure this supply, every furnace and mill having relation to the subject must, without interruption, produce to the fullest capacity and subject to the control of the Government through its lawfully constituted agencies. No excuse for neglect, delay or interruption will or can be accepted by the Government. The Administration desires and intends to pay fair and reasonable compensation, sufficient to maintain existing wage rates, salaries of officials and extensions necessary for war purposes. Up to the present time we have no reason to complain of the attitude and action of the Government, although we may have been disappointed in some respects. It is up to us to prove our continued loyalty to the Government; but, more than that, our loyalty to ourselves in the performance of duty. Even though there should be dissatisfaction concerning prices or the details relating to production or distribution of tonnage, still production and deliveries must continue without interruption or diminution, leaving any question at issue to be settled at a later date. So long as the attitude of those in control of governmental affairs towards producers remains as it is at present, it must be our effort, as it will be our pleasure, to do our part unselfishly, wholeheartedly and assiduously-

"If our country is defeated in the pending military conflict your property and business and mine will be of little value. We will have retraced our national steps a century and a half. The wealth of the country would be seized and retained as prize money by other nations. We have been forced into the war and we are compelled to fight in defense of our persons, our property and our sacred honor. There is no escape. We are in the war to the end, however costly and bitter No man, no country was ever engaged in a more righteous cause or a more compulsory defense. If we do not do everything practicable to uphold the hands of the President and to add to the success of the defense against the foreign aggressor we are less than men; we are weaklings; we are poltroons. I believed for a long time we could and would be kept out of the war, but it was impossible. The President delayed as long as he consistently could. We must now fight with every weapon within our reach. We must liberally subscribe to the Liberty Loans. We must cheerfully pay our taxes, and, of still greater importance, we must furnish steel in larger and still larger quantities."

Stockholders' Annual Meeting, United States Steel Corporation, April 15 1918. From remarks of the Chairman:

"And at the present time, gentlemen, our works are largely turned over to the service of the Government of the United States. It might not look well for me to give you figures or to tell you in detail what we are doing, but I should be very glad to have you inquire of any Department in Washington with whom we are doing business as to how we are serving the Government at this time. And I would like to have you ask whether or not we are of real benefit to the Government of the United States in this time of crisis. You can get the facts and figures. If you will ask the Secretary of the Navy, the Secretary of War, the head of the Shipping Board, the Chief of the War Industries Board, the Fuel Commissioner, the Food Commissioner, any one of those departments in Washington with whom we are in daily contact, you can get the facts, and I have no hesitation in referring you to them for testimony as to what we are doing.

"Now, our expenditures have been very large. One of the gentlemen asked a question which brought out this idea. We are spending something like thirteen or fourteen million dollars a month on improvements, mostly for war purposes. The Government of the United States never comes to our corporation with a request that we increase our capacity for steel in any particular line which is absolutely necessary for the military purposes of the Government, without our commencing immediately to make the extensions required, and that notwithstanding the cost of extensions at this time is two or two and a half times the normal."

General Steel Meeting, April 26 1918. From remarks of the Chairman:

"Gentlemen, this is an important meeting. It is a patriotic meeting. The steelmakers are called together to consider very important matters, at a time and under conditions which are somewhat critical. We have come together to counsel with one another. It is unnecessary to emphasize the fact that the Allies engaged in the Battle of All Ages are calling upon this country for all the help that can be given. The Allies themselves are doing everything possible to provide the essentials for war purposes, but they are still lacking in the quantities necessary. And this country is, therefore, called upon to furnish more and more steel and more and more men and supplies of all kinds that are requisite under the conditions which obtain on the battle lines. They need more men, more food, more munitions of war, more guns, and various other things, and ships to carry them across the seas when needed. And all these things must be provided at the very earliest moment. The furnishing of necessary supplies promptly means the saving of millions of lives. So far as I am personally concerned, while I have great hopes for the future and a feeling of grim determination to win this war, yet I have a feeling of fear for catastrophes, a fear for results that we cannot recover from. And that arises not from the fact that we have not enough men or money or materials, but rather from the fact that there is danger that these will not be provided as promptly as they might be and as appears to be absolutely necessary if we are to do everything we ought to do and that we can do.

"I feel it is not necessary in talking to Americans to deal in language of patriotism or duty. Many of your boys and your relatives and your friends are already on the battle lines or on their way to those places, and more and more will be called and are going. And the more diligent we are in the performance of our duty the less will be the number that are called upon to make the supreme sacrifice which war, and war alone, asks of the people, of the country.

"Gentlemen, we are here to-day to consider whether or not we can do more in providing the requisites for winning the war. We have a general committee representing the iron and steel industry, which means you, and that has a subcommittee of distribution and other subcommittees; and all have been very diligent in attending meetings, in ascertaining facts and figures, in securing data as to capacity and as to shipments, and generally in regard to the details of the business of different lines of manufacture. We all recognize that one of the first essentials is steel, that it is almost as important as food; that the soldier can do nothing without steel, and that nothing can be taken to the soldiers except by the use of steel. And we have been endeavoring to ascertain what more if anything could be done, what negligence if any there has been with respect to the performance of duty up to the full measure by any of the manufacturers. We believe that more can be done.

"When the Committee ascertains that the total capacity of the country is being used for the benefit of the military, and that it is insufficient, then we are willing to increase capacity. But that requires a good deal of time. The building of a mill or a furnace occupies too much time, except as a last resort in the endeavor to furnish supplies. It is obvious that every furnace, every mill, every facility for production must be used for the purpose of carrying on the war. And in this connection that war's necessities must always be at the top and in front, that non-essentials must be dominated by military necessities, non-essentials of all kinds and in every particular must be subservient. If the mills need more pig iron, pig iron must not be utilized for non-essentials until the military necessities are fully supplied. And the same is true of ore; and the same is true from the pig iron down to the finished product which the Government needs. The question of making money, while always important and necessary for the nation, is of no importance when compared to the immediate necessities of the Government for the production and delivery of the things which it demands and finds necessary for military purposes.

"Therefore our whole business must be managed in such a way as to secure the best results for the Government, even though at times at the expense of production in some lines less essential and the making of money for the owners' property. . . . .

"And so, gentlemen, we have called you together to-day, not for the purpose of attempting to lecture, not for the purpose of telling you what your duty is—because you know that—but rather for the purpose of expressing in a few words the situation as we see it, and with the expectation that to-day we shall hear from you representative men who are in control of these lines of manufacture so necessary, an expression of what you thin in regard to the situation, which expression . . . should amount to a pledge all of us must give, that we will devote our works, our time and our money, as requested by the United States Government, to aid in this time of extremity. . . .

"Gentlemen, it is our work. These needs are our needs. This is our Government. We are asking for this steel for ourselves, for the protection of ourselves and our boys and our friends and our business. We cannot agree to the proposition of Mr. Replogle, although it was only stating literally the situation, that the Government is on one side of the table and we are on the other. We have got just as much responsibility and just as much duty concerning this whole thing as anyone, and we are not doing something because we are required to do it; it is our business and our duty, and we must not neglect anything, because we are protecting ourselves. But I think this already has been emphasized. I am very much pleased with some of the remarks made here to-day. I thought Mr. Verity's speech was very strong. He put the situation from the standpoint of duty and patriotism which rested upon each of us as individuals. I think the action of everyone here to-day makes a record that we all of us ought to be proud of.

"During the time I have been connected with the steel industry, during the period it has been my pleasure to be closely associated with steel men, from time to time I have been proud of their attitude, their fairness, the feeling of justice, the disposition to co-operate and help one another, to serve one another, and to serve the public, and to serve the country, and to serve every interest that depends upon their action. And to-day we see another exhibition of the bigness of the men who control the steel industry. There is not any room left for criticism.

"Some one remarked that the steel men generally had been more patriotic and more prompt in their service than other lines of industry sometimes. To-day we are setting an example, we are establishing standards of propriety and right and justice and patriotism; and this influence spreads, others hear of it, and you may be certain—at least, I am certain from the information that I have received from time to time—that Mr. Replogle is not slow in presenting your interests, and not only that, your disposition, your efforts in favor of the Government, to whomsoever he meets who is interested in our affairs and business under his charge. That is bound to spread. And, gentlemen, we have done something to-day we may be proud of, provided we live up to our pledge."

After discussion, the following pledge was offered for consideration and decision by those present:

"For myself, my corporation or my firm, I pledge the prompt production and delivery of the largest possible quantity of material in our departments that is or shall be required by the United States Government for the necessities of itself and its allies, and agree that all other lines of our business shall be subordinated to this pledge, and all this in accordance with the request of the War Industries Board."

After many addresses in favor of the pledge proposed by the Chairman, it was unanimously accepted and agreed to.

Annual Meeting of American Iron and Steel Institute, May 31 1918. From address of the President:

"The steel industry is doing much to assist in this war. The American Iron and Steel Institute has been carrying on a very large work. It is in close communication with the Governmental officials day by day. It is a means for securing and distributing information to the Government officials. It is the agency upon which the Government depends very largely for assistance in carrying on many of the activities essential to the war.

"Some of you know and some of you do not know that the staff of the Institute has been very largely increased, that the office room has been extended, and that Mr. McCleary and his faithful associates and assistants are devoting long hours in securing and furnishing to the Government such aid as it needs and calls for. The Institute under this management is a credit to all of us, and it is of real value to the Government—to the general public. It has approached the position which eight years ago we all hoped it might in the course of time reach. We may well be proud of the fact that we decided to form this Institute, and that we have so faithfully stood by it.

"The general committee, appointed by the directors of the Institute, have been doing valiant service. They have been devoting a great deal of time; they are giving all the affairs submitted to their charge, by direction of the Secretary of War, the Secretary of the Navy and the War Industries Board, their best thought and their energies in an endeavor to serve the Government faithfully and at the same time to protect the interests of the whole steel fraternity of this country. In referring to these matter

ntend to exclude myself. It is a matter of gratification and it should be of peculiar pride to all the members of the Institute that they have such a general committee, well disposed, well trained, and well fitted to carry on this very great work.

"And the subcommittees have all been rendering splendid service. You are familiar with the different committees. Some of you are not acquainted with their work in detail, and you would be surprised to know, perhaps, that many of these gentlemen also work from early in the morning until late in the evening; and they are laboring with very great satisfaction to all who know what they are doing and who are depending upon them. It has been a source of pride to me when I have noted results. Too much praise cannot be given to them for their willingness, patriotism, and at the same time their loyalty to the industry. I am quite sure that all the manufacturers ought to be very well satisfied with what is being done for them by a comparatively few individuals."

B. M. Baruch Disputes Judge Gary's Statements Regarding Movement to Federalize Steel Industry During War—Judge Gary's Answer.

Allegations that Judge Gary's address before the American Iron and Steel Institute on May 23 regarding the movement to Federalize the steel industry during the war "is full of inaccuracies," is made by Bernard M. Baruch, formerly Chairman of the War Industries Board, in a statement made public May 25. Mr. Baruch disputes Judge Gary's statement in the matter, and declares that "so far as Mr. McAdoo is concerned, there is no basis whatever for Judge Gary's intimation that the Federalization suggestion came from him" [Secretary McAdoo]. "It arose," says Mr. Baruch, "as a result of a general demand, affecting all industries, and predicated upon just such difficulties as the Government had with Judge Gary and those whom he represented at the beginning of the price-fixing era." According to Mr. Baruch, "the steel representatives, led by Judge Gary, stood out for a higher price than that fixed in the War Industries Board schedule"; "in the course of the various discussions," Mr. Baruch says, "I had told Judge Gary that my personal disposition was to have the Government take over the steel industry or any other industry that did not adopt a co-operating attitude on prices and regulations." "The steel industry," says Mr. Baruch, "having accepted the price schedules and regulations of the War Industries Board, and being in satisfactory co-operation on that basis, I opposed any further steps along this line." A reply has been made to Mr. Baruch's statement by Judge Gary, who says that his address before the Institute (which we give in another item) "was respectful, not controversial, and was accurate." Mr. Baruch's statement follows:

I regret that the remarks of Judge Gary, before the American Iron and Steel Institute last night, bring to public attention unnecessarily a very unpleasant incident of the war in connection with that part of the steel industry for which he was the spokesman. I regret also that his statement contains many inaccuracies which the record controverts.

In brief, Judge Gary is quoted as saying that, on the supposed instigation of William G. McAdoo, the War Industries Board proposed "in the fall of 1917 or the spring of 1918," to take over the steel industry; that the War Industries Board was notified by the steel industry that it might do this by force, but never with the consent of the industry; that Robert S. Brookings, a member of the Board, reported the situation to President Wilson; and that Mr. Wilson then decided to let the matter rest.

Here are the facts as I know them:

Almost immediately after the declaration of war, at the request of the President, I met representatives of the steel companies in the office of Elbert H. Gary, 71 Broadway, New York City, more particularly in reference to the price of ship plates, which they fixed at 4¼ cents a pound, assuring me they knew that would be satisfactory to the Government. I urged them not to insist upon that price because it was too high and unfair in the circumstances. They could not see my point, although later in the evening I again met Judge Gary and made the same request, to which I got the same reply. I laid this information before the President and Mr. Denman, then Chairman of the Shipping Board. At this period I was Chairman of the Raw Materials Section of the Council of National Defense, and was acting in that capacity.

Following a conference at Washington in July, which both Judge Gary and I attended, it was decided to await the conclusion of an inquiry into prices of steel which the Federal Trade Commission was making. This brought about a meeting on Sept. 21 on the subject. Previously the War Industries Board had passed a resolution declaring that "if the steel interests should not be willing to give their full co-operation because of the prices fixed, the War Industries Board would take the necessary steps to take over the steel plants." This was the first official intimation of the "Federalization" to which Judge Gary refers vaguely as having come "in the fall of 1917 or the spring of 1918."

Based on his familiarity with conditions in the steel industry, and on the conclusions of the Federal Trade Commission inquiry, Mr. J. Leonard Replogle, Director of Steel for the War Industries Board, together with Alex. Legge and L. L. Summers, also of the Board, had prepared a schedule of prices for the guidance of the Board prior to the meeting on Sept. 21. This schedule fixed the price of steel plates at 3 cents a pound, the necessity for this having been demonstrated by the fact that a few days previously a very large tonnage of steel plates was sold by one of the steel companies to one of the associated governments at 14 cents a pound, a hitherto unheard of price.

This schedule, as prepared by Mr. Replogle and adopted by the War Industries Board (of which Judge Robert S. Lovett was then Acting Chairman), at a joint meeting of the War Industries Board and representatives of the steel industry, was submitted Sept. 21 1918. At an all-day meeting the steel representatives, led by Judge Gary, stood out for a higher price than that fixed in the War Industries Board schedule. After adjournment Judge Gary suggested to me privately that we ought to get together on price. This we did that very night, but the price was practically that fixed in Mr. Replogle's schedule.

The temper of the Board had been shown by the resolution it adopted prior to the meeting of Sept. 21. In the course of various discussions I had told Judge Gary that my personal disposition was to have the Government take over the steel industry or any other industry that did not adopt a co-operating attitude on prices and regulations, and I had every authority for understanding that the Government would do this. While we had excellent co-operation on the part of the steel industry as a unit, there were some individuals in it who could not at first entirely subordinate commercialism to war needs, and the President informed me if the war program was being delayed, or if it could be accelerated by putting any industry entirely under Government control, this would be done. I did not think this necessary at that time, and in this position I was supported by Mr. Replogle and all of my associates.

The only other time the subject of Federalization was discussed in my recollection was at a meeting of the "War Cabinet" in Washington in the summer of 1918, subsequent to the conference in September 1917. This was a general discussion of taking over all industries by the Government. On this occasion the steel industry, like all other industries, having accepted the price schedules and regulations of the War Industries Board, and being in satisfactory co-operation on that basis, I opposed any further steps along this line. By this time I had become Chairman of the War Industries Board. I must say for the steel industry and Judge Gary that, after having finally been induced to co-operate, they did it generously and thoroughly.

To say the least Judge Gary's recital of the situation is full of inaccuracies. If he, as he says, desires the matter to be one of "permanent record," it is extraordinary that he is not even informed as to the exact dates of the incidents he discusses. He does not remember, he says, whether they occurred in the fall of 1917 or the spring of 1918—not a very satisfactory basis for a permanent record. And he cites what he himself admits to be a mere "report" about the supposed instigation of Mr. McAdoo. My relation of the facts is taken from the official records and is based on conversations which Judge Gary and I had on the subject.

So far as Mr. McAdoo is concerned, there is no basis whatever for Judge Gary's intimation that the Federalization suggestion came from him. It arose as a result of a general demand, affecting all industries and predicated upon just such difficulties as the Government had with Judge Gary and those whom he represented at the beginning of the price-fixing era. I came to the conclusion then, and have since been strengthened in the belief, that in times of such emergency as war it is necessary and right to conscript men, money and materials for the national service. Call this what you will—Federalization or nationalization—it does not mean permanent Government operation of industry, as Judge Gary's account would indicate that it means, but it does mean a temporary complete direction of industry, requiring every unit of the nation to do its share of the public service when public safety is threatened.

I should never have alluded to this matter if Judge Gary had not done so. But if we are to have a permanent record, let it be an accurate one.

Judge Gary's answer to the above, under date of May 26, follows:

The public will probably not be interested in what I might say concerning Mr. Baruch's statement, published on yesterday, referring to my recent address before the Iron and Steel Institute. It seems apparent that Mr. Baruch had not read my address in full. It was respectful, not controversial, and was accurate.

The steel industry was loyal, energetic and efficient concerning the supply of steel for military purposes throughout the war. At first some of the members of the fraternity demanded prices that others believed were too high, and this was true at the beginning of conferences generally; but after careful and painstaking consideration the differences were always adjusted.

The first meeting of the General Committee with the War Industries Board took place when Judge Lovett was Chairman. After a day's session without arriving at an agreement, the War Industries Board adjourned, but, as Mr. Baruch states, I asked the Board to remain in an adjoining room for a short time, and later in private conference, at which I remember Judge Lovett was present and also Mr. Legge, who was very efficient and helpful, we agreed upon the price of $3 25 (I think) for plate and also upon other prices, all of which were later approved by the President.

As I remember, our committee next met the Board when Mr. Scott was Chairman. We then agreed upon prices after considerable discussion and some disagreements at first.

About three months later probably, we met the Board when Mr. Willard was Chairman, and then agreed upon prices for the next three months. At that meeting Mr. Willard suggested that there had been considered the propriety of the Government taking over the steel industry, and he made the promise that the steel men would be given previous notice of any further consideration of the subject.

Still later the Chairman of the General Steel Committee received notice to appear in Washington to discuss the subject of taking over the steel industry by the Government, as I described in my address, and with the result mentioned. I cannot now fix the exact dates of these meetings, but perhaps I can get them from the Secretary of the Committee, who is away at present, though I do not consider them at all important.

The steel industry had been co-operating, satisfactorily to both sides apparently, with the War Industries Board for many months before the question of taking over the industry was brought up for consideration and determination, as I have described. If there had been previous discussions in Washington with reference to this subject, the steel men were not present nor informed.

If anything was said in my address concerning this matter or any other which offended any one, I very much regret it. As to whether or not the Secretary of the Treasury suggested it, it was expressly disclaimed there was any knowledge on the subject, and positively asserted there was only a report in circulation to that effect. If he cares anything about it, he will probably deny that he made the suggestion. If so, he will find no one in the steel industry to dispute him. I feel very certain if he had made the suggestion, based on any information received, he would not be ashamed of it. It would, of course, have been a great calamity if the steel industry had been actually taken over by the Government.

(From testimony in a Congressional examination of Robert S. Brookings, in Washington, March 13 1924.)

(Mr. Brookings): . . . "I think I can say modestly that I had during the war, because I had the cost sheets of every industry in the country before me, a great deal of experience. I had the cost sheets of every one of the steel companies, from the least efficient to the United States Steel Corporation, the most efficient, and they were enormously interesting to a man who cares for that sort of thing, and my life's training, of course, had been entirely in that direction."

"I would send these proclamations over to the President promptly, and they would be signed and come back by messenger. Of course, he could not go into the detail of all of these. Once in a while, he would send for me, and on one occasion he did send for me and asked me to come over to the White House to see him about an important matter. I went to him and he said, "It has been stated that it would probably facilitate our stabilizing of steel values and getting production, if we could take over the steel interests, as we have taken over the railroads." I said, 'Mr. President, how much time have you for me to attempt to introduce you to the steel industry?' He said, 'Whatever time you need, sir.' I said, 'The steel industry is taking itself over; it will do anything in the world we want them to do. I have shown the Steel Corporation that their profits are running up very large, and I said to them, 'I want you to agree with us, after we have taken 80% of these profits, or whatever the percentage is for tax

purposes, you still have more left than I think you ought to have for distribution in dividends, and I want you to agree, after taking your dividends, to turn the balance into the increased capacity for anything that the Government needs. (Mr. Brookings later on states that the Steel Corporation's answer was 'all right'.)."

(From "Army and Navy Register," March 29 1924.)

"Taking the U. S. Steel Corporation as an example of loyal and practical helpfulness, divorced from selfish aggrandizement and exploitation, it is found that, at the very beginning of the World War, that corporation, from the President down, unfailingly applied its efforts toward aiding this Government and its allies. When the United States finally declared war on Germany, President Gary made it known to War and Navy Department officials, as well as the numerous governmental activities developed to expedite production of war material, that the U. S. Steel Corporation stood ready to answer any demand, once it was expressed."

Southeast Shippers' Regional Advisory Board to Meet in Atlanta June 10.

A call was issued on May 23 for the first annual meeting of the Southeast Shippers' Regional Advisory Board, which will be held on June 10 at the Hotel Ansley in Atlanta, Ga. The meeting, which will be attended by hundreds of shippers and representatives of the railroads from throughout the South, will continue all day, closing with a banquet at the Hotel Ansley at night, at which the principal speaker will be James A. Emery of Washington, General Counsel of the National Association of Manufacturers, who will discuss "Economic Questions and Political Answers." A. G. T. Moore of New Orleans, Traffic Manager of the Southern Pine Association and Chairman of the Southeast Regional Advisory Board, will preside as toastmaster at the banquet. In addition to Mr. Emery, other speakers will be F. W. Shealy, Chairman of the South Carolina Railroad Commission, who will discuss the relationship of the State Commissions to the Advisory Boards; Lincoln Green, Assistant to the President of the Southern Railway, and M. J. Gormley, Chairman of the Car Service Division of the American Railway Association. Officers of the Southeast Board plan to make the banquet an annual affair with men of national prominence as the principal speakers.

In its announcement regarding the meeting the Car Service Division of the American Railway Association says:

The Southeast Shippers' Regional Advisory Board was organized one year ago for the purpose of bringing about a better understanding of the mutual problems of the shippers and carriers and is one of nine similar boards that have been organized throughout the United States with the exception of the Pacific Coast, where a Board will be organized within a few months.

At the meeting in Atlanta of the Southeast Board on June 10, plans for meeting the usual increase in the demand for transportation which always comes in the fall of the year will be discussed and reports will be received from the various commodity committees of the Board to show what the transportation needs of the various industries located in the South will be within the next few months.

Final completion of the organization of the Southeast Board and its various commodity committees has just been accomplished within the last few weeks and an announcement as to this will be made at the meeting. Included in the reorganization, the Board has selected B. B. Cheek of Atlanta, Ga., Traffic Manager of the Georgia Cotton Growers' Association as Chairman of the Cotton Committee; J. G. Carlisle of Macon, Ga., Manager of the Georgia Peach Growers' Exchange, as Chairman of the Fruits and Vegetables Committee, and A. B. Adams, of Chattanooga, Tenn., General Manager of the Key James Brick Co., as Chairman of the Heavy Clay Products Committee. In addition, a new committee has just been organized to represent the textile industry of the South, with G. W. Forrester of the North Carolina Cotton Manufacturers' Association, located in Atlanta, as Chairman.

Shippers' Regional Advisory Board for Wisconsin and Neighboring Territory.

At a meeting held in Chicago on March 26 for the purpose of bringing about a better understanding between the shippers and the railroads, of their mutual transportation problems, the organization was undertaken of a Shippers' Regional Advisory Board for the territory representing practically all of Wisconsin, all of the States of Iowa and Illinois and the western half of Indiana. According to the Chicago "Journal of Commerce" of March 28, organization was effected under the designation "Midwest Regional Advisory Board," and the following executive officers were named:

General Chairman, Robert C. Ross, General Traffic Manager, Joseph T. Ryerson & Son, Chicago; Alternate General Chairman, John T. Bowlus, Transportation Department, Milwaukee Chamber of Commerce; General Secretary, Robert Hula, Chicago Association of Commerce; Executive Committee: Banking, A. F. Dawson, President, First National Bank, Davenport, Iowa; agriculture, Charles E. Hearst, Iowa Farm Bureau Federation, Des Moines, Iowa; S. H. Thompson, Illinois Agricultural Association, Chicago; Livestock, George V. Stewart, Secretary, Milwaukee Livestock Exchange; Regulator, J. W. M'Cardle, Chairman, Indiana Public Service Commission, Indianapolis; Frank L. Smith, Chairman, Illinois Commerce Commission, Springfield; Lewis Gette, Chairman, Wisconsin Railroad Commission, Madison; Fred P. Woodruff, Chairman, Board of Railroad Commissioners, Des Moines, Iowa; Publicity, M. R. Myers, editor, Co-operative Journal, Chicago; R. I. Pierce, Traffic Manager, Terre Haute Chamber of Commerce; W. E. Long, Traffic Manager, Manufacturers' Association, Sterling, Ill.; Coal, Fred Harwood, Traffic Manager, Crane Co., Chicago; Industry, J. A. Brough, Traffic Manager, Crane Co., Chicago; A. R. Ebi, Traffic Manager, Deere & Co., Moline.

The American Railway Association, at whose instance the meeting was held, in an announcement on March 26, stated that invitations had been sent to more than 3,500 shippers, representing virtually every commodity produced in the four States. Among the shippers asked to attend are those for agricultural and dairy products, fruits, vegetables, furniture, fertilizer, agricultural implements, grocer and food products, hardware, hides, leather, iron, steel, ice, lumber and forest products, building materials, machinery, petroleum and petroleum products, paper and pulp, paints, varnish, oils, sugar, sand, gravel, crushed stone, salt, soap, textiles, automobile and automobile parts, acids, chemicals and cement. The association's announcement also said:

In addition invitations have also been sent to the various public utilities in those States and to several hundred farm advisers as well as farmer organizations of various kinds, such as the Iowa Farmers' Union, the Illinois Agricultural Association, the Farmers' Produce & Exchange Co., Withee, Wis.; Farmers' Produce Co., Chippewa, Wis., the Iowa, Wisconsin, Illinois and Indiana Farm Bureau federations, asking them to be represented. The members of the various State Public Utilities Commissions located in the States named have also been asked to be present.

The Chicago board will be the ninth similar board to be organized in various parts of the country since early in 1923. Those already organized follow: Central Western Regional Advisory Board, with headquarters at Omaha; the Great Lakes Regional Advisory Board, with headquarters at Toledo; the Middle Atlantic States Regional Advisory Board, with headquarters at New York; the Northwestern Regional Advisory Board, with headquarters at Minneapolis; the Ohio Valley Regional Board, with headquarters at Cincinnati; the Southeastern Regional Advisory Board, with headquarters at Montgomery, Ala.; the Southwest Regional Advisory Board, with headquarters at Dallas, Texas, and the Trans-Missouri-Kansas Regional Advisory Board, with headquarters at Kansas City. Similar boards will be organized shortly in Pittsburgh, Pa., and Boston.

The Regional Advisory Board is a voluntary organization of all branches of the public in the territory under the jurisdiction of each board and is composed entirely of shippers. All officers and members of the committees are shippers, and no railroad is represented on the regional board. Committees of railroad officers, however, are appointed by the carriers traversing each territory to negotiate upon call with the various committee of the board and with the board itself when necessary to promote informal settlement of all questions directly affecting shippers and carriers. All meetings of the board are open to the public.

The Regional Advisory Board is a "service" organization and there are no restrictions on what may be considered by the board of its committees if they come within these limitations. The boards, however, do not deal with rates. Summarized, the purposes of the regional advisory boards follow:

1. To form a common meeting ground between shippers, local railroad and the carriers as a whole as represented by the Car Service Division, for the better mutual understanding of local and general transportation requirements, and to analyze transportation needs in each territory, and to assist in anticipating car requirements.

2. To study production, markets, distribution and trade channels of the commodities local to each district with a view of effecting improvements in trade practices when related to transportation, and promoting a more even distribution of commodities where practicable.

3. To promote car and operating efficiency in connection with maximum loading and in the proper handling of cars by shippers and railroads.

4. To secure a proper understanding by the railroads of the transportation needs of shippers, that their regulations may fit shippers' requirements, and, contrary, to secure understanding by the shippers and their co-operation in carrying out necessary rules governing car handling and car distribution.

5. To acquaint shippers and railroads in each section of the country of the seasonal requirements in their section, in order to promote intelligent co-operation in the handling of equipment between the different districts of the country.

6. To adjust informally car difficulties which may arise in each local territory between the carrier and shipper.

7. To give the shipping public a direct voice in the activities of the Car Service Division on all matters of mutual concern.

Losses by Fire in United States During 1922 Reach $506,541,001—"Matches-Smoking" Tops List.

According to the report covering 1922 issued by the Actuarial Bureau of the National Board of Fire Underwriters, $506,541,001 was the sum of destruction by burning in the United States, this comparing with $289,535,050 in 1917 and $206,438,900 in 1912. The 1922 figure, says the Board's February bulletin, represents actual destruction of $405,232,801, as tabulated day by day, with the customary added allowance of 25% to embrace unreported and uninsured losses, bringing up the total to precisely $506,541,001. "It is a showing unmatched thus far," continues the Board, "by any country in the world." The Board says further:

Of the known originating causes which combined to establish this unique and shameful fire record, a study of the tabulation reveals *Matches—Smoking* with an ascribed loss of $25,775,951, as first in importance. This factor—malefactor, rather, led by seven millions of dollars its nearest rival in culpability, *Defective Chimneys and Flues*, which stood responsible for $18,550,433 damage. Then followed in order *Stoves, Furnaces, Boilers and Their Pipes*, with $16,676,784; *Spontaneous Combustion*, with $14,594,799, and *Electricity* (misused), with $11,918,572 loss.

Among the several interesting revelations made by the tabulation, not the least significant is the increase, exceeding 35%, in the 1922 over 1921 total for *Fireworks, Fire Crackers, etc.* It is to be hoped, of course, that this does not denote a permanent renunciation by the public of the policy of safe and sane celebrations of the Fourth towards which, until recent years, it has shown a growing tendency.

Boston Clearing House Association Adopts New Policy Affecting Payment of Interest on Small Accounts.

Under a newly adopted ruling of the Boston Clearing House Association, effective June 1, accounts of $500 or less will draw no interest and accounts of $300 or less will be subject to a service charge of $1 monthly. The first $500 of an

account of less than $10,000 will draw no interest. The following is the regulation:

Regulation No. 7 as Amended May 14 1924, to Be Effective June 1 1924—First Charges to Be Made July 1 1924.

Section 1. No member or associate member of this Association shall agree to pay, or shall pay, directly or indirectly, on any net and available credit balance payable on demand or within thirty days or on any certificate of deposit so payable by its terms issued to or for the account of any bank, trust company or other institution conducting a banking business, or their savings departments, a private bank or bankers located in the United States or Dominion of Canada, interest at a rate in excess of 1% per annum when the then ninety days discount rate for commercial paper at the Federal Reserve Bank of Boston is 2% or less, and an additional one-fourth of 1% for every one-half of 1% that such discount rate of the Federal Reserve Bank of Boston shall exceed 2%, except that the maximum rate paid, or agreed to be paid, on any such credit balance or certificate of deposit shall not in any case be higher than 2¼% per annum; provided, however, that this rule shall not apply to deposits to the credit of a mutual savings bank or a co-operative bank or building and loan association when purely mutual and without capital stock, and that on credit balances of or certificates of deposit issued to such mutual savings banks, co-operative banks or building and loan associations, interest shall not be allowed at a higher rate than 3% per annum; and provided further, that nothing herein shall apply to deposits to the credit of banks and trust companies when such deposits are specifically designated as trusts or agencies and accrue solely to the benefit of beneficiaries under deeds of trust or formal agency agreements.

The following schedule shows the maximum rates which may be paid in accordance with this regulation:

When the 90-day rate for Commercial Paper at the Federal Reserve Bank, Boston, is—	*The Maximum Rate to be paid on the above accounts shall be—*
2 % or over, but less than 2½%	1%
2½% or over, but less than 3 %	1¼%
3 % or over, but less than 3½%	1½%
3½% or over, but less than 4 %	1¾%
4 % or over, but less than 4½%	2%
4½% or over.	Not exceeding 2¼%

Sec. 2. In the calculation of interest allowed upon every deposit account subject to check and payable upon demand, the average monthly collected balance of which is less than $10,000, and excepting savings deposits and deposit accounts of the Government of the United States, the Commonwealth of Massachusetts, or the City of Boston, there shall be deducted from the aggregate daily balances for the month an amount of $500 for each day, as a portion of such account free from the payment of interest by the member bank.

Sec. 3. Every deposit account subject to check and payable upon demand, excepting savings deposits and deposit accounts of the Government of the United States, Commonwealth of Massachusetts, or the City of Boston, the average monthly collected balance of which is less than $300 in any month, shall be charged not less than $1 as compensation for services rendered by the member bank in handling the account during such month. Any account against which no checks have been drawn during the month shall be exempt from the charge. In applying this regulation every account shall be treated upon its own basis, and must not be combined with any other account under any condition.

Section 4. The Clearing House Committee upon ascertaining to the satisfaction of a majority of its members that a member or associate member has violated any of the provisions of these rules shall report their findings to the Association and if approved by a vote of the majority of the members of the Association, the offending member or associate member shall be fined $1,000. On the second offense such member or associate member may be suspended from the privileges of the Clearing House Association, and shall be subject to expulsion from the Clearing House Association, and the Association may proceed to act as provided in Article III, Section 6 of the Constitution.

Ruling Affecting the Handling of Transactions of Odd Lot Specialists During Their Absence From Floor of Boston Stock Exchange.

George A. Rich, Secretary of the Boston Stock Exchange, announces the following amendment to the constitution of the Exchange:

BOSTON STOCK EXCHANGE.
Secretary's Office.

Boston, May 16 1924.

The Governing Committee, by a majority vote of its existing members, in accordance with Article XXXIV of the Constitution, has amended Article XXIX, Section 2, of the Constitution by adding to the sub-division (c) the following paragraph:

"Odd-lot specialists, during their temporary absence from the Exchange, may make such arrangements with other members for handling their floor transactions as may be acceptable to the two parties and to the Committee on Commissions."

In accordance with the first paragraph of Article XXXIV, this amendment will stand as the law of the Exchange if not disapproved within one week by written protest of fifteen members.

GEORGE A. RICH, *Secretary.*

Western Maryland Railroad Workers Reject Wage Counter Proposal.

The four railroad brotherhoods of the Western Maryland Railroad, in session at Hagerstown on May 28, unanimously rejected the counter-proposal of President Maxwell C. Byers to the demand of the men for a 12½% wage increase. He agreed to the increase, but only on condition that they submit to a revision of the brotherhood rules. Such revision, the men declared would not only have eliminated the rise but would have cut off 5 or 6% of the wage now being paid.

United States Chamber of Commerce Declares Agriculture Needs No New Recognition from Other Fields —Other Declarations of Chamber.

In its declarations adopted at its recent annual meeting in Cleveland the Chamber of Commerce of the United States asserted that "agriculture needs no new recognition from other fields of economic activity in the United States." Opposition was expressed by the Chamber to "any proposal for buying, selling, manufacturing, or other handling of agricultural products by Government agencies," the Chamber contending that "means should be found to improve the efficiency of the methods of marketing at the disposal of agriculture, and every other measure founded on the principles which will tend to stability should be provided." The Chamber reiterated its support of the International Court of Justice and urged the Senate "to signify its consent to the proposal which has been made by the Executive." The Chamber likewise endorsd the experts' reports on German reparations, and declared its stand on immigration, taxation, the soldier bonus, etc. The following are its declarations adopted May 8:

International Economic Restoration.

The annual meeting joins with the recent action of the International Chamber of Commerce in declaring that the plans submitted by the two Committees of Experts to the Reparations Commission on April 9 provide a basis for a permanent settlement of the problem of reparations, and furthermore offer a real prospect of providing practical measures for the removal of obstacles which hitherto have appeared insurmountable. We also agree with the International Chamber of Commerce that the reports of the experts offer opportunity for immediate action which business men believe so necessary for an improvement in world conditions, and that the plans furthermore open the way for a final and comprehensvie agreement in regard to those other problems which are connected with the settlement of reparations.

We unhesitatingly express ourselves in accord with the underlying sentiments and essential principles which the plans set forth. We also extend assurance that so far as an American business organization may find opportunity for usefulness in supporting the plans of the experts, the Chamber of Commerce of the United States will lend its assistance to the full extent of its power.

We desire also to support cordially the proposal for a general international conference to deal with economic questions and the further limitation of armament when the experts' plans just accepted by the Reparations Commission have been in operation for such a period that steps for a further conference may be taken with confidence of success.

World Court.

The Chamber reiterates its position in support of the International Court of Justice and urges the Senate of the United States to signify its consent to the proposal which has been made by the Executive. The Chamber believes that the Court, being permanent, composed of judges dealing with legal controversies, assuring continuity in the further development of international law, is thoroughly sound in principle. The Court is essentially judicial, acts only through trained judges; a country adhering to it incurs no obligation to enforce its decrees and does not even incur any obligation to submit its own controversies except to the extent that it may see fit at the time the controversy arises. The Chamber regards the Court as a going concern of great value in the promotion of orderly international processes, and believes the Court would be of far greater value in these respects if given the moral support of the United States; believes that any effort to scrap the Court and make a new one would, even if successful, work no substantial improvement, and would, as a matter of fact, involve delay and disappointment and the unwarranted withholding of the needed moral support of this country.

Turkish-American Treaty.

To safeguard American commercial, educational, religious and philanthropic interests in Turkey it is essential that our relations with that country be regularized without delay. The Lausanne Treaty has been endorsed by leading representatives of these interests. It secures to us the same rights as all other countries and is such a treaty as would be negotiated with any other sovereign State. While it is not as satisfactory a treaty as might have been secured under other conditions, it is wholly consistent with American principles of the "open door" and the territorial and political integrity of sovereign States. This Chamber therefore urges the prompt ratification of this treaty.

Japanese-American Relations.

That we heartily support the efforts of our President and State Department in co-operation with Congress to deal with exclusion of those ineligible to citizenship on a basis of friendly negotiation. We believe that our agreements and treaty obligations with Japan should be scrupulously observed, and that proper notice or conference should be had before these should be changed or abrogated. We see no necessity in meeting inevitable problems, of dealing harshly or in a hostile spirit with a nation with whom we are on such a friendly basis and therefore heartily commend present efforts to bring about the most amicable understanding.

Immigration.

Immigration legislation has received the attention from the Chamber which its great importance warrants. It has been considered at annual meetings and it has been earnestly studied by a committee of the Chamber. In accordance with recommendations of this committee, which have been placed before the membership, we believe that the quota provisions of the law should be based upon the census of 1910 and that the present extension of these provisiins should be for a period not exceeding five years. At the sam time there should be inserted a provision for making the quota flexible, through increase above or decrease below the base figure within stated limits, in order that immigration may more nearly accord with our own conditions. At the same time there should be a means for testing in practice the possibility of selection of immigrants before they sail in accordance with their desirability and the likelihood of their advantage in coming to the United States. For the purpose of advising increases or decreases in quotas and for devising and supervising the test of selective immigration there should be an Immigration Commission. Upon this Commission should also be imposed the task of making studies which will enable it to recommend, at the expiration of the period for extension of the quota law which we propose, the legislation which should then be enacted.

Present amendments should also reduce the hardships upon immigrants and make administration more effective. Wives or husbands and unmarried minor children of resident citizens should be allowed to enter without being counted in the quota. One-tenth rather than one-fifth of the quota should be admissible in a month. Prospective immigrants should be required to apply to consular officers for immigration certificates, filling out appropriate questionnaires and presenting their files of identification papers. In such ways much can be accomplished to make administration of our law comport with American standards.

Agricultural Conditions.

Agriculture needs no new recognition from other fields of economic activity in the United States. It has had an outstanding place in the development of our country, and to-day occupies a position in our economic life

which in its importance has grown with the extension of other forms of activity, and all other branches of American industry and commerce, however remote from agriculture, have vital interest in the welfare of agriculture.

Misfortune has come to some forms of agriculture by reason in part of conditions to which all business activity is subject, and in part to the hazards to which agriculture is peculiarly exposed. This situation has demanded the co-operation of business interests and we are gratified that material aid has thus been extended. We pledge the Chamber of Commerce of the United States to support other measures which are calculated to enable branches of agriculture which are distressed to improve their opportunity for the success which each field of American economic activity wishes for all others. To that end means should be found to improve the efficiency of the methods of marketing at the disposal of agriculture, and every other measure founded on the principles which will tend to stability should be provided. Any proposal for buying, selling, manufacturing or other handling of agricultural products by Government agencies, however, whether under the pretense of the exertion of price influences or otherwise, we oppose as contrary to the principles for which the Chamber has stood with respect to other fields of activity and as sure to result disastrously for agriculture itself and thus bring great detriment to all branches of industry and commerce.

Supreme Court.

We oppose every attempt toward depriving the United States Supreme Court of its function to determine the validity of Congressional action threatening the rights of person or property guaranteed by the Constitution. We condemn the proposal to require more than a majority vote of the court to declare unconstitutional any Act of Congress.

Soldiers' Bonus.

The generous care of the disabled veterans is the sacred duty of our Government, but a bonus of any sort for able-bodied veterans removes one of the chief virtues of democracy.

The National Chamber's continued opposition to the bonus principle is not simply because it will endanger permanent tax reduction but because it undermines the confidence as well as the moral fibre of our people to see great sums levied by taxes on all the citizens to give as a premium to able-bodied young men who served their country in a time of peril.

The Chamber's position in opposition to a bonus, in cash or other form, has been unmistakably declared through referendum. That position has been accurately and authoritatively stated by our President, Julius H. Barnes, in a letter addressed to the President of the United States.

Taxation.

During war, revenues are of so paramount importance that the burdens of taxation have to be borne regardless of economic consequences. Since 1918 such a period has passed, with taxes levied at rates producing surpluses over the amounts needed, that revision of taxation should now proceed with a view to restoring conditions for economic advancement. For that purpose income taxes should be reduced according to principles which will increase the capital available for productive enterprise and commerce. Constitutional amendment should permit non-discriminatory taxation reciprocally between the Federal Government and the States on income derived from future issues of securities made by public authority. War excise taxes confined to particular businesses should be repealed.

Administration of Federal taxes should immediately be improved. To that end a board of tax appeals should be created in the Treasury Department independent of the Bureau of Internal Revenue, and under such conditions of salary and otherwise as will make it possible to obtain the services of men of the highest ability. Duties now imposed upon the Commissioner of Internal Revenue solely for the purpose of policing violation of the prohibition laws should be transferred elsewhere, that the Commissioner's attention may be devoted to administration of taxes. In the staff of the Bureau such conditions of merit, salary and permanency in tenure for competent men should be established as will result in an efficient organization and reduce turn-over of responsible employees. Administration should be decentralized as rapidly and as far as possible, with reports to Congress each year upon the progress made. Portions of the staff at Washington should be concentrated in one building. Information should be given to taxpayers respecting all ruling that affect their rights, favorably or adversely. There should be provision for the filing of tentative returns on the present due date, with a right to file final returns within three months.

Congress should appoint a joint committee with members from each House and representatives of the public, to make a thorough study of Federal taxes, simplification of the law for income taxes, and improvement in administration.

Income Tax Returns.

Fairness to citizens who act in perfect good faith should characterize such legislation as the income tax laws under which all details of business transactions must be disclosed to administrative officials. The returns now filed for the Federal income tax are available as evidence in the event there is allegation before any proper tribunal that there has been violation of the laws levying the tax. Against the proposal made by the Senate, that income ax returns should be made public records, and against other proposals that returns should be available to committees of Congress to publish as they may wish, we protest for the reason that these proposals violate the good faith which the Government owes to its citizens, to protect them in their private affairs.

Economy in Government.

The rapidly increasing cost of Government, Federal, State and local, is a heavy burden on business. To the end that the enterprise of the business man and the thrift of the wage earner may be encouraged and not penalized, the United States Chamber of Commerce urges that unnecessary interference with and supervision of business and industry by Federal and State Governments, necessitating large and uneconomic expenditures with no commensurate benefit to the people, should be avoided. The budget system, which has already produced striking benefits as used by the Federal and many State and local Governments, should be adopted by all State and local Governments, in order that the citizen may know in what manner, in what amounts, and for what purposes his taxes are expended. The earnest attention of the local Chambers of Commerce is called to the enormous increase in State and local expenditures which in the aggregate now exceed those of the Federal Government. There is imperative necessity for economy in all Government activities—Federal, State and local—in order to preserve and foster the spirit of free business enterprise and thrift.

Special Insurance Taxes.

Special State taxes now levied on policyholders through insurance companies should not be considered as a source of general revenue but should be reduced to the total in each State which will adequately support such State's departmental supervision, and a uniform principle of taxing the holders of insurance should be adopted throughout the States.

Import and Erport Traffic.

We strongly advocate the indefinite postponement by Congress of the effective date of the application of Section 28 of the Merchant Marine Act of 1920. The announcement of the intention to make this provision immediately effective has created grave problems which are disturbing and hazardous to American producing, manufacturing and commercial interests.

Trade Associations.

The Chamber of Commerce of the United States by Referendum No. 41 approved the functions of trade associations in proper dissemination of statistics of industry as in the interest both of business and of the public, and not constituting a restraint of trade. The Chamber urges upon the Government departments concerned that all possible steps be taken to secure action eliminating the obstacles or uncertainties which interfere with the most effective carrying out of this trade association function.

Industrial Relations.

The Chamber's position taken through referendum in 1920 is in favor of the open shop—i. e. employment without discrimination against or in favor of men on account of membership in labor organizations. We desire to reaffirm the declaration of 1920, that the right of open-shop operation, that is the right of employer and employee to enter into and determine the conditions of employment relations with each other, is an essential part of the individual right of contract possessed by each of the parties.

Railroad Labor Bill.

The important principles of the Transportation Act of 1920 should be continued without change until there has been further experience. This is the declaration of the Chamber in a referendum which closed only two days ago. The vote was so overwhelming that it leaves no room for doubt respecting the position of business organizations.

The labor provisions of the Transportation Act contain important principles for continuation of which the Chamber has so emphatically declared. Abrogation of these provisions and violation of their principles is proposed by a bill which is now pending before the House of Representatives and whirh is known as the Howell-Barkley bill. This bill would eliminate representation of the public as a party in interest in the determination of controversies between railroads and their employees, threatening interruption of traffic; would do away with the requirement for public investigation of such controversies; would tend to force all railroad employees, regardless of their individual wishes, into particular labor organizations and establish closed-shop conditions on railroads by law; would greatly increase the expense to the public, and would offer no new or effective guarantee to the public against interruption of railroad service by strikes.

Workmen's Compensation.

Although the Chamber has gone on record as disapproving monopolistic State compensation insurance, it records its approval of the principle of workmen's compensation in legislation for industrial accidents.

An address at the meeting by Secretary of Commerce Hoover was referred to in these columns May 17, page 2388.

ITEMS ABOUT BANKS, TRUST COMPANIES, ETC.

The Board of Governors of the New York Stock Exchange voted on May 28 to grant the petition, signed by about 600 of the members, to close the Exchange to-day (Saturday) in addition to yesterday (Memorial Day). As a result a three-day holiday will be observed by the Exchange—the first triple holiday since Dec. 23 1922. While a majority of the members favored to-day's holiday, it is stated that opposition had been voiced by large commission houses maintaining private wires to the larger cities of the country. It is pointed out in the New York "Times" that maintenance of these wires is an expensive proposition and commission houses argue that extra holidays result in a big loss in business. The New York Cotton Exchange will likewise remain closed to-day in addition to yesterday, as will also the Consolidated Stock Exchange and the New York Curb Market.

Eduard Beit von Speyer, of the Frankfort banking house of Lazard Speyer-Ellissen, who has been on a six weeks' visit to New York with his brother-in-law, James Speyer, sailed for home on the "Deutschland" on May 29.

At a special meeting this week of the board of directors of the Central Mercantile Bank, located at Fifth Avenue and 14th Street, the following, representing large interests in this city, were added to the board:

John S. Burke, First Vice-Prseident of B. Altman & Co.
Donald Hearn Cowl, Vice-President of James A. Hearn & Son.
A. Milton Napier, President of Tide Water Building Co.
John H. Love, director and Treasurer of the Merchants' Association.
Frederick W. Longfellow, Hawkins, Delafield & Longfellow.
Louis Stewart, for years prominently identified in the dry goods business.
James C. Kennedy, Jr., Treasurer of the Forham Co.
Joseph Brown, Vice-President.
Leo L. Doblin, President of Leo L. Doblin Co., commission merchants.
Joseph C. Brownstone, President of J. C. Brownstone & Co.
C. Stanley Mitchell, President.
David M. Knott, President of Knott Hotels.
Louis Stewart Jr., Vice-President.
Henry Pollak, President of Henry Pollak, Inc.

Other directors who have recently become members of the board are: William J. Knott, George M. Fowles, Joseph M. Schwartz, S. R. Smith, M. L. Willets, J. A. Dilliard, Wm. Ullman, Alfred A. Richardson, Henry Kelly Jr., J. Irving Walsh. Recently the Central Mercantile Bank was bought by a group of prominent merchants, headed by C. Stanley Mitchell, who is President of the bank, and the capital has been increased to $1,500,000 and the surplus to $800,000. Reference to this was made by us last week, page 2536. Since the new management has come into the bank three

weeks ago, the deposits are said to have about doubled. Joseph Brown, formerly Vice-President of the Chatham & Phenix National Bank, has recently become a Vice-President, and Louis Stewart Jr. has been elected a Vice-President.

C. Stanley Mitchell, the new President of the Central Mercantile Bank, was given a testimonial dinner Wednesday evening, May 28, in the grand ball room of the Waldorf-Astoria Hotel by his business friends and associates. Mr. Mitchell, as previously stated, accepted the presidency of the Central Mercantile Bank after serving for ten years with the Chatham & Phenix National Bank.

The Chemical National Bank of New York announces the organization of the Chemical Safe Deposit Co. for the operation of safe deposit boxes at the bank's new uptown office at Madison Avenue and 46th Street, which opens Monday, June 2. The officers are; Percy H. Johnson, President; Edwin S. Schenck, Vice-President, and Frederic S. Allen, Secretary. The directors are: Percy H. Johnston, Edwin S. Schenck, Frank K. Houston, Wilbur F. Crook and Frederic S. Allen. The safe deposit company has been formed with a capital of $100,000 and surplus of $20,000.

Maynard C. Ivison and John I. Brooks Jr. have been appointed Assistant Managers of the bond department of the Mechanics & Metals National Bank of New York.

Nathan S. Jonas, President of the Manufacturers Trust Company of New York, announces the promotion of Frederick H. Huber to the position of Assistant Secretary at the Eighth Avenue, corner of 34th Street, New York, office of the company.

The directors of the Second National Bank of Boston have elected to the board Henry B. Day, a partner in R. L. Day & Co. Mr. Day succeeds Matthew C. Bush, Pesident of American International Corporation, New York, who resigns as a director of the bank.

Arthur S. Littlefield, President of the Rockland National Bank, Rockland, Me., and a well-known local attorney, died in Washington, D. C., on May 15 after an illness of several months. At the time of his death he was on his way home from Florida, where he had gone to recuperate. Mr. Littlefield, who was 60 years of age, was born in Vinal Haven, Me., and was graduated from Bates College in the class of 1887 and from Columbia University Law School two years later. He was admitted to the Maine bar in 1899 and served as a Representative to the Maine Legislature from Rockland in 1903 and 1905.

The National Bank of Rochester opened for business in its new bank building at State and Corinthian streets on Monday morning, May 26. Hundrds of persons visited the banking house throughout the day to congratulate the officers and inspect the new quarters and deposits aggregating nearly $350,000 were received. Flowers in great quantities were sent to mark the occasion by other banks, business houses and individuals in Rochester. The formation of the National Bank of Rochester by the union of the National Bank of Commerce and the Traders National Bank of Rochester was noted in the "Chronicle" of May 24, page 2537.

The firm of Vitale Casciano & Son, private bankers, at 20 Cutler Street, Newark, failed to open for business on Saturday morning, May 24. Several hundred depositors stormed the doors. News that the bank had failed spread rapidly through the Italian district and by noon it was necessary to call out the police reserves to quell the disturbance. On Saturday night Judge Runyon of the Federal District Court at the request of Anthony Finelli, an attorney of Newark representing a group of the depositors, appointed Frederick A. Rizzolo receiver for the firm under a bond of $10,000, and on Monday (May 26) an involuntary petition in bankruptcy was filed against the company, alleging liabilities of $100,000. Casciano and his son are said to have disappeared. The New Jersey State Banking Department states that the concern was operating without a banking license, an application for a license having been refused, and that the Department had been unaware that Casciano was conducting a bank in Newark.

A special press dispatch to the Indianapolis "News" on May 21 stated that the Comptroller of the Currency had approved the absorption of the National City Bank of Indianapolis by the Fletcher American National Bank of that city. The assets of the National City Bank, according to the "News," were taken over by the Fletcher American National Bank several weeks previously.

The formal opening of the handsome new home of the Meyer-Kiser Bank at 128 East Washington Street, Indianapolis, which was under construction for more than a year and a half, took place on April 26. The occasion was marked by a reception held by the bank's officers from 10 a. m. to 9.30 p. m., at which music was furnished by an orchestra and souvenirs distributed. The building, which cost, including the furnishings of the bank, $1,400,000, has a frontage on Washington Street of 43 feet and a depth of 195 feet. The bank occupies the ground floor, mezzanine floor, basement and sub-basement, the remaining ten floors of the building being given over to offices. The main banking room extends from the front of the building to the back, unbroken by partitions save for those of the Tellers' cages and offices along the sides. The floor is of Tennessee marble, the wall paneling and railings of French tavernalle marble and the doors and fixtures of bronze. The banking quarters throughout contain every facilitity for the transaction of a modern banking business. The Meyer-Kiser Bank had its inception in a small "real estate, insurance, loans and investments" business begun on Dec. 1 1895, in one room in the Indiana Trust Building, Indianapolis, with no capital save "character, grit, industry and integrity," by Sol Meyer and Sol Keiser, cousins, now President and Vice-President, respectively, of the Meyer-Kiser Bank. In 1906 the Meyer-Kiser Bank was organized with a capital of $25,000; ten years later (1916) the capital was increased to $50,000, and to-day the institution has combined capital, surplus and undivided profits of $600,000 and total resources of more than $5,000,000. On May 1 1920 the Meyer-Kiser Corporation was organized with a paid-in capital of $1,000,000 preferred and $500,000 common stock, confining its operations strictly to automobile financing. The quarters of the corporation are on the mezzanine floor of the new building.

A. F. Mitchell has resigned as a Vice-President of the Toledo Trust Co. of Toledo, according to the Toledo "Blade" of May 23. For many years Mr. Mitchell was associated with the Northern National Bank of Toledo, which was recently merged with the Toledo Trust Co. Mr. Mitchell joined the Northern National Bank as a correspondence clerk and worked up through the various stages to a Vice-Presidency, the position he held at the time the institution was consolidated with the Toledo Trust Co. The "Blade" reported Mr. Mitchell as saying in regard to his resignation: "I have been on the job so many years, I am going to take at least a two months' rest in the East. But I am not going to retire from active business. Upon my return I again will enter business."

Another small Minnesota bank, the State Bank of Pine Island, with deposits approximating $750,000 at the time of its last statement, was closed on May 24 because of "frozen" assets.

With regard to the affairs of the defunct Scandinavian-American Bank of Seattle, which failed on June 30 1921, the following special press dispatch on May 16 to the Portland "Oregonian" from its Puget Sound Bureau, was printed in that paper on May 17:

After resting for several years under the burden of blame for the collapse of the Scandinavian-American Bank of Seattle, J. E. Chilberg, ex-President of the bank, has been accorded some measure of exoneration by John P. Duke, State Supervisor of Banking. Loans that led to the bank's embarrassment are now ascribed by Mr. Duke to Mr. Chilberg's "excessive patriotism" and his efforts to aid in the upbuilding of Seattle.

Supervisor Duke has just announced that the depositors in the bank, which closed its doors June 30 1921, will receive in all not less than 85% of their money. Even when they have been reimbursed to this extent, a considerable amount of assets will remain subject to further negotiations, and still more money may eventually be paid the depositors. The State Banking Department is getting much credit for this achievement in financial circles, inasmuch as the Department did not take charge of the bank and close its doors until after a group of Seattle bankers had refused to take over the bank's assets at 58% of their face value.

But for the encouragement given by the Scandinavian-American Bank to Seattle shipbuilders during the war, there would have been no loss, according to a statement made by Mr. Duke on the eve of his retirement from the State Banking Department June 1 to become a Vice-President of the Dexter Horton National Bank of Seattle. Recalling the days of J. E. Chilberg's leadership in the civic and commercial affairs of Seattle; his years of service as President of the Alaska-Yukon-Pacific Exposition and of the Seattle Chamber of Commerce, and his successful efforts in inducing large investments in Seattle building and industry, Mr. Duke added: "Undoubtedly

Mr. Chilberg was carried away by his excessive patriotism and his well-known interest in Seattle as a community builder, and gave too liberal support to this class of loans. Remembering the war-time cry for shipbuilding, Mr. Chilberg's course is not hard to understand."

Reference was made to the failure of the Scandinavian-American Bank in these columns in the "Chronicle" of July 9 1921, and to its affairs in several subsequent issues.

The Los Angeles "Times" of May 16 stated that A. P. Giannini, President of the Bank of Italy (head office San Francisco), had announced on the preceding day the consolidation of the Long Beach National Bank, Long Beach, Cal., and its two agencies, with his organization, through an exchange of shares. The "Times" in this regard went on to say:

Leo M. Meeker, President of the Long Beach National, becomes a Vice-President of the Bank of Italy in charge of the Long Beach branches and Chairman of the Board at the Los Angeles headquarters. He succeeds to the latter position through the recent death of W. A. Bonynge Sr.

The Long Beach National has total resources of about $7,000,000, and has attained the position of an "Honor Roll" bank, having a surplus earned equal to its capital stock. John S. Dutton, Assistant Vice-President, and Julian R. Davis, Manager, will continue in these capacities.

The Bank of Italy already has two branches operating in Long Beach and one in North Long Beach, which will now function under the direction of Vice-President Meeker.

Mr. Meeker began his banking career in Southern California with the organization of the First National Bank of Garden Grove. He acquired the First National Bank of El Monte and the First National Bank of Puente by purchase, and about three years ago the Exchange National Bank of Long Beach, changing the name to the Long Beach National. He is also President of the First National Bank of Riverside.

On May 19 the Comptroller of the Currency approved the application for a national bank charter made by E. W. Wilson and associates of San Francisco. The new bank, which will be capitalized at $2,000,000, will be known as the Pacific National Bank. Mr. Wilson, it is understood, will be President. According to the San Francisco "Chronicle" of May 10 the following directors have been chosen for the new institution: E. W. Wilson, T. E. Bibbins, President Pacific States Electric Co.; George H. Eberhard, President of the George H. Eberhard Co.; J. A. Heineberg, Treasurer Pacific Orient Co.; J. W. Mason, President Western Pipe & Steel Co.; Samuel Meyer, investments; I. O. Rhoades, President California Prune & Apricot Growers' Association; Charles H. Sooy, attorney; Russell J. Wilson, representative Philippine Sugar Central Agency.

The 18th annual report of the Sterling Bank of Canada (head office Toronto) for the fiscal year ended April 30, was submitted to the shareholders at their annual meeting on May 21. Net earnings for the twelve months, exclusive of the usual fixed charges, were $215,151. This with the addition of $36,178, representing the balance to profit and loss brought forward from the preceding year, made the sum of $251,329 available for distribution, which was appropriated as follows: $98,798 to cover dividends at the rate of 8% per annum; $100,000 transferred to contingent account for reduction in bank premises account, depreciation of assets, etc., and $31,190 to pay taxes, leaving a balance of $21,340 to be carried forward to next year's profit and loss account. Total assets were given as $21,405,865; total deposits as $14,482,118 (of which $10,875,686 were interest-bearing deposits), and current loans outstanding as $5,723,-989. The bank has a paid-in capital of $1,235,000 and a rest fund of $500,000. G. T. Somers is President and A. H. Walker, General Manager.

The semi-annual statement of the Bank of Montreal, covering the six months ending April 30, shows net profits for the period (after deducting charges of management, and making full provision for all bad and doubtful debts) of $2,190,235. This amount, added to the balance of $659,582 brought forward at the end of the last fiscal year (Oct. 31 1923) made the sum of $2,849,817 available for distribution, which has been allocated as follows: $1,635,000 to pay two quarterly dividends at the rate of 12% per annum and $236,-250 to take care of Dominion Government taxes, leaving a balance of $978,567 to be carried forward to the next half year's profit and loss account. Total assets are shown in the statement at $679,934,065, of which $394,814,162 are liquid assets, or 64.48% of the bank's liabilities to the public, and comparing with liquid assets of $361,803,184 at the same date in 1923. The principal items going to make up the liquid assets are gold and silver coin, $17,624,482; Dominion notes, $63,006,538; call and short loans in Great Britain and United States, $121,663,408; Dominion and Provincial Government securities, $73,173,009; Canadian municipal securities and British, foreign and Colonial public securities other than Canadian, $45,912,961, and checks on other banks, $23,-077,527. The outstanding feature of the report is the large increase in interest-bearing deposits. These stand at $467,-749,594, as against $413,363,158 on April 30 last year, an increase of more than $54,000,000 during the fiscal year and an increase of about $47,000,000 since Oct. 31 1923. Total current loans and discounts are given in the statement at $215,242,154.

According to a cablegram to the New York News Bureau from the Central News, London, May 24, the Union Discount Co. of London purposes to increase its capital from £2,000,-000 to £2,500,000, by the issue of 50,000 new £10 shares.

Announcement was made in the London "Financial News" of May 3 that owing to the death of the Earl of Jersey, arrangements had been made, with the approval of the Treasury, for the taking over by Messrs. Glyn, Mills, Currie, Holt & Co. of London of the business of the old banking firm of Messrs. Child & Co. The firm of Child & Co. was established before 1600. In its statement of July 5 1923 it showed a paid-up capital of £500,000, with a reserve fund of £91,442 and total assets of £3,308,555. On Jan. 14 1885 the private banking business of Glyn, Mills, Currie & Co. was converted into a company with unlimited liability. On Jan. 1 1923 the firm of Holt & Co. was acquired and the name of the organization changed to Glyn, Mills, Currie, Holt & Co. In its statement as of Dec. 31 1923 the company showed a paid-up capital of £1,060,000; reserve fund, £530,000 and total resources of £31,270,622.

COURSE OF BANK CLEARINGS.

Bank clearings the present week will show a falling off as compared with a year ago. Preliminary figures compiled by us, based upon telegraphic advices from the chief cities of the country, indicate that for the week ending to-day (Saturday, May 31) aggregate bank exchanges for all the cities of the United States from which it is possible to obtain weekly returns will register a decrease of 9.3% from the corresponding week last year. The total stands at $6,415,110,-337, against $7,075,142,092 for the same week in 1923. At this centre there is a loss of 10.5%. In many cities May 30 (Memorial Day) is observed as a holiday, therefore the comparisons are made on a four-day basis in both years for these places. Our comparative summary for the week is as follows:

Clearings—Returns by Telegraph. Week ending May 31.	1924.	1923.	*Per Cent.*
New York	$2,820,000,000	$3,157,946,904	—10.5
Chicago	367,280,020	492,175,803	—25.4
Philadelphia	311,000,000	321,000,000	—3.1
Boston	217,000,000	262,000,000	—17.2
Kansas City	*106,000,000	110,834,656	—4.4
St. Louis	a	a	a
San Francisco	98,700,000	109,100,000	—9.5
Los Angeles	86,435,000	70,107,000	+23.3
Pittsburgh	97,319,945	*93,000,000	+4.6
Detroit	83,397,455	93,503,369	—10.8
Cleveland	61,650,362	75,987,337	—18.9
Baltimore	62,919,956	69,074,204	—8.9
New Orleans	*45,000,000	41,077,136	+9.8
Twelve cities, five days	$4,356,702,738	$4,895,806,409	—11.0
Other cities, five days	775,385,532	764,307,265	+1.4
Total all cities, five days	$5,132,088,270	$5,660,113,674	—9.3
All cities, one day	1,283,022,067	1,415,028,418	—9.3
Total all cities for week	$6,415,110,337	$7,075,142,092	—9.3

a Will not report clearings. * Estimated.

Complete and exact details for the week covered by the foregoing will appear in our issue of next week. We cannot furnish them to-day, inasmuch as the week ends to-day (Saturday), and the Saturday figures will not be available until noon to-day. Accordingly, in the above the last day of the week has in all cases had to be estimated.

In the elaborate detailed statement, however, which we present further below, we are able to give final and complete results *for the week previous*—the week ended May 24. For that week there is an increase of 5.1%, the 1924 aggregate of the clearings being $7,839,564,908 and the 1923 aggregate $7,461,608,038. Outside of New York City, however, the increase is only 0.3%, the bank exchanges at this centre showing a gain of 9.1%. We group the cities now according to the Federal Reserve districts in which they are located, and from this it appears that in the New York Reserve District (including this city) the totals are larger by 8.9% and in the Philadelphia Reserve District by 0.9%, while in the Boston

Reserve District there is a loss of 0.8%. In the Richmond Reserve District there is an improvement of 6.9%, in the Atlanta Reserve District of 11.7%, and in the Dallas Reserve District of 13.9%. In the Cleveland Reserve District there is a decrease of 8.4%, in the Minneapolis Reserve District of 12.2% and in the Kansas City Reserve District of 9.3%. In the Chicago Reserve District there is a gain of 2.1%, in the St. Louis Reserve District of 12.0%, and in the San Francisco Reserve District of 3.6%.

In the following we furnish a summary by Federal Reserve districts:

SUMMARY OF BANK CLEARINGS.

Week ending May 24 1924.	1924.	1923.	Inc. or Dec.	1922.	1921.
Federal Reserve Districts.	$	$	%	$	$

THE WEEK ON THE NEW YORK STOCK EXCHANGE.

Railroad shares have been the feature of the stock market this week, notwithstanding the unfavorable earnings reports being rendered by so many of the roads for the month of April. Aside from the interest manifested in these properties the market has been without notable feature. Price movements in the early part of the week turned briskly upward, but subsequently the market lost much of the gain. Trading has been on a very moderate scale, and at times business on the Exchange has been practically at a standstill. The market opened firm on Saturday and steadily advanced throughout the short session. Railroad issues displayed a marked upward tendency. Attention was focused particularly on Delaware & Hudson, which advanced briskly to 115¾ and recorded a new high for the year. Price movements were again upward on Monday, most of the attention being directed toward the railroad issues. Delaware & Hudson led the advance with a net rise of 2½ points to 117 and Pere Marquette went forward to a new high level at 50⅜. In the industrials list, United States Cast Iron Pipe & Foundry sold up three points to 90. On Tuesday the market sagged quite generally, though at times trading was practically at a standstill. The downward reaction was due in part to the unfavorable reports of railway earnings for April. Another factor in the downward movement was the increased pressure against Mil. & St. Paul com. and pref. which forced these issues close to the lowest level of the year. In the last hour there was a rally and International Paper com. rose nearly 3 points to 43⅞, registering a new high for the year. Pre-holiday dulness prevailed in the market on Wednesday, trading throughout the day being unusually light. The trend of prices was generally downward, although some advances occurred, particularly in the railroad group. Chesapeake & Ohio was unusually strong, advancing one point to over 80. Substantial increases were recorded by Pere Marquette, and several others of this group. Little or no overnight change was apparent as the market resumed its session on Thursday. Railroad issues were unsettled, Norfolk & Western declining to 119½, a loss of more than seven points from its high of the week. The Board of Governors of the New York Stock Exchange at their meeting on Wednesday voted favorably on the request for an extra holiday on Saturday. As a result the Exchange will not again open for business until Monday.

THE CURB MARKET.

Trading in the Curb Market continues extremely dull, the volume of business having fallen to the smallest of the year. Price changes were narrow. Oil stocks were easier. Illinois Pipe Line after advance of two points to 139, sold down to 135, ex-dividend, but recovered to 138 finally. Northern Pipe Line declined from 88½ to 85½. Ohio Oil lost about one and one-half points to 60½. Prairie Oil & Gas was down some ten points to 213, the close to-day being at 216. Solar Refining sold down from 194 to 185, ex-dividend. Standard Oil (Indiana) after an advance from 57⅛ to 58, eased off to 56⅜, the close to-day being at 57. Standard Oil (Kentucky) fell from 108½ to 106½. Standard Oil (Nebraska) weakened from 241 to 236 with the final transaction at 238. Swan & Finch receded from 45 to 42. Vacuum Oil weakened from 62½ to 60⅝, the latter ex-dividend. Gulf Oil of Pennsylvania sank from 60¼ to 58½ and closed to-day at 59¼. A feature in the industrial list was the strength in Hudson & Manhattan stocks, the common advancing from 15½ to 18⅜. Hudson Companies preferred improved from 29½ to 31½. Dubilier Condenser & Radio sold up from 33¼ to 35¼, the close to-day being at 34. Durant Motors rose from 14¼ to 17 and reacted finally to 15½. Glen Alden Coal was down from 99 to 93½, the latter ex-dividend. The close to-day was at 94, ex-dividend. National Tea old stock weakened at first from 400 to 397, then recovered to 412. The new stock fell from 162¾ to 158, but recovered to 166.

A complete record of Curb Market transactions for the week will be found on page 2690.

THE ENGLISH GOLD AND SILVER MARKETS.

We reprint the following from the weekly circular of Samuel Montagu & Co. of London, written under date of May 7 1924:

GOLD.

The Bank of England gold reserve against its note issue on the 30th ult. amounted to £126,293,715, as compared with £126,291,545 on the previous Wednesday. The larger proportion of the fair amount of gold available this week has been taken for the East. Gold valued at $5,350,000 has arrived in New York—$3,500,000 from London and $1,850,000 from Germany.

CURRENCY.

It is reported officially that the following amounts of coin were minted in France during 1923: 13,222,267.10 francs in nickel coins of 20, 10 and 5 centimes, and 287,850,274.50 francs in aluminum-bronze coins of 2 francs, 1 franc, and 50 centimes, the latter issue being intended to replace emergency notes issued by the Chambers of Commerce. The total value of the bronze-aluminum coins is thus brought up to 589,465,469 francs and, the issue of these coins being on the basis of about 22 millions per month, a total nominal value of 850,000,000 francs will be available by Jan. 1 1925, provided mintage continues at the same rate. That is to say, about twice the quantity of silver change actually in circulation before the war. The authorities consider that the issue of bronze-aluminum coins should not be pursued beyond what is strictly necessary, in view of the State obligation to reimburse these counters when circumstances allow of the issue again of silver coin, and a desire is expressed that a maximum figure should now be fixed for the total issue of these tokens. As for the nickel coins, their mintage continues on the basis of about 13 to 14 million francs a year; hence by the end of 1924 a total quantity of about 180,000,000 francs should be available, which is double the quantity in existence before the war. It appears, therefore, that the situation will be the same in regard to pre-war silver currency and copper currency, the quantity of substitutionary coins above mentioned is likely to be double the pre-war nominal circulation. There have been no issues of gold or silver coins in France during 1923.

SILVER.

The market has been disposed to be quiet. Most of the support has come from bear covering on Eastern account. Fresh purchases for India or China are not practicable owing to the prices being so much above parity with both quarters. America has sold almost daily, but supplies from elsewhere are scanty. The undertone, notwithstanding want of animation on the part of buyers, is fairly good.

From the Indian currency returns detailed below it will be observed that the silver reserves on the 30th ult. show a further reduction. The amount of 7,749 lacs of rupees represents 42.7% of the note circulation—18,133 lacs of rupees. This holding is the lowest since Oct. 31 last, when an absolute high record of 9,902 lacs of rupees was returned, equivalent to 54.7% of the note circulation on that date—18,082 lacs. The total metallic holdings (silver and gold combined) represented 68.2% on the earlier date and 55% on the later date, of the note circulation on the respective dates. Though the silver reserves have fallen proportionately to such an extent during the past five months, very much greater reductions must take place before the possibility of coinage purchases by the Indian Government need enter into consideration.

The silver quotations to-day for cash and two months delivery are respectively 5-16d. and 3-16d. above those fixed a week ago.

We have also received this week the circular written under date of May 14 1924:

GOLD.

The Bank of England gold reserve against its note issue on the 7th inst. amounted to £126,345,760, as compared with £126,293,715 on the previous Wednesday.

The Indian Bazaars have taken a large share of the moderate amount of gold offering in the market this week.

Gold valued at £4,080,000 has been received in New York from London.

The Transvaal gold output for April 1924 amounted to 768,923 fine ounces, as compared with 795,671 fine ounces for March 1924 and 743,651 fine ounces for April 1923.

The United Kingdom imports and exports of gold during the month of April were as follows:

	Imports.	*Exports.*
Netherlands	£27,957	------
Belgium	------	£4,100
France	300	2,762
Spain and Canaries	2,919	------
Egypt	------	14,000
West Africa	140,197	2,575
United States of America	2,837	4,307,715
Central America and West Indies	1,045	------
Various South American countries	260	------
Rhodesia	191,917	------
Transvaal	4,411,478	------
British India	------	782,139
Straits Settlements	------	12,347
Other countries	9,651	217,606
Total	£4,788,561	£5,343,244

SILVER.

After the steady advance of prices during the last week or so there has been a healthy reaction. This is but natural considering that on the whole there is really an absence of competition. Only the recurrence at intervals of bear covering contends at the present time with the inquiry for the Continent, as China and India do not figure as buyers. Moderate selling takes place occasionally from China. It has not been difficult at the higher level of prices to obtain silver from America, but even if the market continues mainly of a "one-horse" character, the undertone is likely to keep good and should competition from India or China set in, rising rates can be expected. A feature of the week has been considerable Continental sales, which, however, found a ready market.

The China correspondent of the "Capital," Calcutta, thus dealt with the movements of silver coin in Manchuria and Mongolia:

"The demand for silver dollars in Manchuria is still to a certain extent unsatisfied, silver dollars at the present time going to a great extent to Manchuria and Dairen. In this connection it is interesting to note that the Japanese yen notes have superseded Russian ruble notes in Manchuria, which prior to 1919 were current in North Manchuria. For instance, the Bank of Chosen notes in North Manchuria at the end of last year were estimated to be nearly 100,000,000 yen. It is stated that Chinese bankers in Tientsin are objecting to the transport of silver specie to Urga, the capital of Mongolia, and also have protested against the levying of the 20% tax by the Russian authorities on imported and exported goods from Urga. In the long petition that they have sent to the Peking Government the bankers pointed out that some 3,000,000 dollars are exported every year from Kalgan to Urga, thus creating a diminution in silver stocks not only in Tientsin but also in Peking. It is contended that this is eventually finding its way to Russia. It would be interesting to note how an exported quantity of 3,000,000 dollars could have such a serious effect on the monetary markets of North China as the Tientsin merchants try to picture. . . .

"Just how much of this silver goes into Russia proper for hoarding it is difficult to state, but reliable dispatches from the Consular bodies at Kalgan seem to lean to the view that most of it is used legitimately and in the financing of trade. The Mongolians, no doubt, are addicted to hoarding silver currency, but in this respect they are certainly not unique, for the people of China are similarly given to hoarding silver, a very pronounced feature in many interior parts."

Philadelphia Banks.—The Philadelphia Clearing House return for the week ending May 24, with comparative figures for the two weeks preceding, is given below. Reserve requirements for members of the Federal Reserve System are 10% on demand deposits and 3% on time deposits, all to be kept with the Federal Reserve Bank. "Cash in vaults" is not a part of legal reserve. For trust companies not members of the Federal Reserve System the reserve required is 10% on demand deposits and includes "Reserve with legal depositaries" and "Cash in vaults."

—The New York Trust Co. has been appointed registrar of the Laclede Gas & Electric Co. common stock of no par value.

Weekly Return of the Federal Reserve Board.

The following is the return issued by the Federal Reserve Board Thursday afternoon, May 29, and showing the condition of the twelve Reserve Banks at the close of business on Wednesday. In the first table we present the results for the system as a whole in comparison with the figures for the seven preceding weeks and with those of the corresponding week last year. The second table shows the resources and liabilities separately for each of the twelve banks. The Federal Reserve Agents' Accounts (third table following) gives details regarding transactions in Federal Reserve notes between the Comptroller and Reserve Agents and between the latter and Federal Reserve banks. *The Reserve Board's comment upon the returns for the latest week appears on page 2639, being the first item in our department of "Current Events and Discussions."*

Weekly Return for the Member Banks of the Federal Reserve System.

Following is the weekly statement issued by the Federal Reserve Board, giving the principal items of the resources the liabilities of the 749 member banks from which weekly returns are obtained. These figures are always a week behind those for the Reserve Banks themselves. Definitions of the different items in the statement were given in the statement of Oct. 18 1917, published in the "Chronicle" of Dec. 29 1917, page 2639. *The comment of the Reserve Board upon the figures for the latest week appears in our Department of "Current Events and Discussions," on page* 2639.

Quotations for U. S. Treas. Ctfs. of Indebtedness, &c. —*See page* 2562.

Foreign Exchange.—Sterling ruled dull and nominal with rates, however, tending strongly downward the latter part of the week. Dulness also prevailed in the Continental exchanges, and rates moved aimlessly without important alteration one way or the other.

To-day's (Friday's) actual rates for sterling exchange were 4 28½@ 4 30¾ for sixty days, 4 30¼@4 32⅝ for cheques and 4 31@4 32⅛ for cables. Commercial on banks, sight 4 30⅝@4 32½, sixty days 4 28⅛@ 4 30, ninety days 4 26⅞@4 28¾, and documents for payment (sixty days) 4 28⅜@4 30¼. Cotton for payment 4 30⅝@4 32½, and grain for payment 4 30⅜@4 32½.

To-day's (Friday's) actual rates for Paris bankers' francs were 5.13½@ 5.30¼ for long and 5.18¾@5.35¼ for short. Germany bankers' marks are not yet quoted for long and short bills. Amsterdam bankers' guilders were 36.88@36.97 for long and 37.24@37.33 for short.

Exchanges at Paris on London 81.70 francs; week's range 80.20 francs high and 81.70 francs low.

The range for foreign exchange for the week follows:

Sterling Actual—	Sixty Days.	Cheques.	Cables.
High for the week	4 32	4 34¼	4 34½
Low for the week	4 28½	4 30¾	4 31
Paris Bankers' Francs—			
High for the week	5.38¾	5.45	5.46
Low for the week	5.13½	5.19¾	5.20¾
Germany Bankers' Marks—			
High for the week	----	0.000000000023½	0.000000000023½
Low for the week	----	0.000000000023½	0.000000000023½
Amsterdam Bankers' Guilders—			
High for the week	37.03	37.45	37.49
Low for the week	36.88	37.30	37.34

Domestic Exchange.—Chicago, par. St. Louis, 15@25c. per $1,000 discount. Boston, par. San Francisco, par. Montreal, $17 50 per $1,000 discount. Cincinnati, par.

New York Curb Market.—Below is a record of the transactions in the New York Curb Market from May 24 to May 29 (Friday, May 30, holiday), both inclusive, as compiled from the official lists. As noted in our issue of July 2 1921, the New York Curb Market Association on June 27 1921 transferred its activities from the Broad Street curb to its new building on Trinity Place, and the Association is now issuing an official sheet which forms the basis of the compilations below.

FINANCIAL REPORTS

Annual, &c., Reports.—The following is an index to all annual and other reports of steam railroads, street railways and miscellaneous companies published since and including April 26 1924.

This index, which is given monthly, does *not* include reports in to-day's "Chronicle."

Bold face figures indicate reports published at length.

The New York Central Railroad Company.

(Annual Report—Year Ended Dec. 31 1923.)

The report is cited at considerable length, together with the corporate income account statement, comparative balance sheet, &c., under "Reports and Documents" on subsequent pages. President Alfred H. Smith (now deceased) further said in substance:

Revenues, Tonnage and Passengers.—The total operating revenues were $365,175,188, an increase of $48,555,090.

Freight revenue was $235,652,033, an increase of $37,671,515. Revenue tonnage exceeded that of 1922 by 32,555,935 tons. 71% of this increase was in coal, coke and iron ore.

Passenger revenue was $85,931,139, an increase of $6,094,001. There were carried 55,210,449 passengers, an increase of 1,795,954. Of this increase 278,836 were interline and 1,612,226 were commutation, partly offset by a decrease of 95,108 in local passengers.

The increase in commutation passengers reflects the growth of suburban communities. The decrease in local passengers is attributable to more extensive use of the automobile and to motor bus competition.

The increase in mail revenue, $532,925, and the increase in express revenue, $1,048,544, reflect the greater volume of such traffic.

Revenue from switching and demurrage increased $1,304,007, following the heavier tonnage of freight.

Incidental and other transportation revenues increased $1,904,099. A substantial portion of this increase was due to the greater volume of traffic handled over the coal and ore docks at Ashtabula and Buffalo.

Operating Expenses.—Operating expenses were as follows:

	Amount.	Increase.
Maintenance of way and structures	$42,058,356	$7,181,989
Maintenance of equipment	92,523,861	9,530,904
Traffic	3,488,483	dec.147,707
Transportation	127,554,451	10,616,283
Miscellaneous operations	3,989,538	378,609
General	9,063,746	681,491
Transportation for investment—Credit	76,415	dec.40,017
Total	$278,602,021	$28,201,551

The increase in expense for maintenance of way and structures is due in large measure to favorable weather conditions during the season for track work and to a larger supply of available labor, which enabled the company to engage in a more comprehensive roadway program than in the previous year, and in part to substantial wage increases. An increase in cost of removing snow, ice and sand of $482,655 is principally due to snow removal after the storm of January.

In the maintenance of equipment group, repairs to locomotives increased $8,012,857, due to more intensive use incident to handling the larger volume of business and to the program for putting motive power into the most efficient condition. The increase of approximately $2,000,000 in freight-train car depreciation was largely caused by adjustment in 1923 of charges for the Federal control and guaranty periods in connection with equipment renewals in those periods, by which adjustment charges to capital account were increased and under which the higher rate of depreciation applicable under the company's practice to equipment acquired since Jan. 1 1918 was accrued upon the rebuilt units.

The decrease in traffic expenses is largely due to the unusual outlay in 1922 for tariffs in connection with rate changes in that year.

The increase in transportation expenses is principally due to greater volume of traffic. If there be eliminated, for purposes of comparison, large credit adjustments in 1923 in accruals for loss and damage to freight, the ratio of the total expenses of this group to operating revenues dec. 1.5%.

Railway Tax Accruals.—The increase in railway tax accruals was $2,692,434, reflecting provision for larger income tax payments incident to the increase in net income.

Equipment and Joint Facility Rents.—Net debit to equipment rents increased $2,892,957, the outstanding item being hire of freight-train cars, due to the greater mileage of refrigerator and other private cars on the line and to increase in traffic generally.

Non-Operating Income.—Non-operating income increased $6,266,031. Profit from separately operated properties was $1,939,715 more than for 1922, of which $1,872,456 was from the Pittsburgh McKeesport & Youghiogheny RR. and $67,259 from the Boston & Albany RR.

The company received $4,154,552 more dividend income than in the previous year, of which $2,824,054 represents increased dividends from the Michigan Central RR., $142,172 increased dividends from Cleveland Cincinnati Chicago & St. Louis Ry., and $510,161 dividends on the common stock of the New York State Railways.

Deductions from Gross Income.—There was a decrease in deductions from gross income of $3,311,941.

Net Income before Dividends, &c.—The net income of the company was $45,339,427, an increase of $24,704,241.

Dividends.—Effective with the quarterly payment on Aug. 1 1923, the rate of dividend was increased from a 5% to a 7% annual basis. Dividends declared and charged against net income of the year amounted to $17,432,978, being 6½%.

Net Corporate Income.—After charges for dividends aggregating $17,432,978, and other appropriations amounting to $157,671, there remained a surplus of $27,748,775, which was carried to the credit of profit and loss.

Property Investment Accounts.—Increases in the property investment accounts for the year were as follows: Road, $13,824,558; equipment, $18,702,537; miscellaneous physical property (decrease), $60,479; improvements on leased railway property, $3,550,539; total, $36,017,155.

Capital Stock.—Outstanding capital stock was increased during the year by the issue of $255,460 in exchange for preferred and common stock of Cleveland Cincinnati Chicago & St. Louis Ry. and by the issue of $86,000 in exchange for $87,000 of company's 20-year 6% convertible debentures of 1915, and $3,300 in cash, under the conversion privilege contained in the debenture agreement. The capital stock in the hands of the public as of Dec. 31 1923 amounted to $268,323,375.

On Dec. 12 1923 the board authorized, subject to the approval of the I.-S. C. Commission the issue of additional capital stock to an amount not exceeding $31,510,620, and the offer of such stock to stockholders of record on Jan. 2 1924, or their assigns, for subscription at par to the extent of 10% of their respective holdings, subject to decrease in such percentage, should the amount of stock outstanding on that date be, by reason of conversion into stock of the company's 6% convertible debenture bonds, in excess of $315,106,203. The offer was announced in the President's circular letter to stockholders, dated Dec. 12 1923. The proposed issue was approved by the I.-S. C. Commission on Dec. 31 1923.

Stockholders.—The total number of stockholders at Dec. 31 1923 was 34,946, as compared with 34,319 on Dec. 31 1922 and 25,042 on Dec. 31 1915.

Changes in Funded Debt.—There was a net increase in the total funded debt during 1923 of $7,023,202, bringing the total on Dec. 31 1923 to $769,979,488.

Industrial Development.—During the year 310 new industries were located on this company's lines, traffic from which, it is estimated, will amount to about 110,000 carloads per annum.

Fifty-seven industries already established upon these lines increased their private siding facilities or leased additional property from the company, due to extension of the plants. It is estimated that these enlargements will result in additional traffic, amounting to approximately 32,500 carloads per annum.

Hudson River Connecting RR.—Castleton Cut-Off.—The Hudson River Connecting RR. project, consisting of a high level line connecting the West Shore RR. with the Boston & Albany RR. and the Hudson division of the New York Central RR. at a location about 10 miles south of Albany, is a system improvement since in providing a route for heavy through freight traffic around Albany it will increase the capacity of the entire system to handle freight to and from the seaboard. Not only will the project effect a saving of about 4¼ miles in distance, avoid 130 ft. in rise and fall and long steep grades at the crossing of the Hudson Valley at Albany, and obviate drawbridge delays at the river, but the concentration of traffic lines at one point will produce a sufficient volume of business moving from the Niagara River frontier and possibly beyond, destined for Albany gateway distribution, to permit full train loading to the point of concentration, thus eliminating intermediate classifications with attendant economy in time and expense.

The bridge, including the viaduct approaches on both sides of the river, will be a little more than a mile in length. The bridge proper will consist of two main spans, 600 ft. and 400 ft. in length, and will have a clear height of 135 ft. above the river.

A gravity freight classification yard, to have a capacity ultimately of 11,000 cars, is being constructed at Selkirk. At this yard will be two modern engine houses, one for the accommodation of Mohawk Division locomotives and the other for Boston and Albany, West Shore and Hudson Division power, a large mechanical coaling plant, with adequate water storage, and other facilities. There will also be an artificial ice plant for the icing of refrigerator cars.

The project will require the construction of about 28 miles of new line. Twenty-one highway grade crossings will be replaced by 15 crossings with separated grades.

The first stage of the work, that involving the connection between the West Shore RR. and the Boston & Albany RR., including the river bridge, and the portion of the Selkirk yard necessary for the handling of the business of those lines, is expected to be in service in the latter part of 1924. At the end of 1923 the steel viaduct approaches on both shores of the river were practically finished, the masonry piers for the river spans were completed, the superstructure for the 400 ft. span was in place and work upon the 600 ft. span had begun. The grading of the yard and of the roadbed for the West Shore and Boston & Albany connection and the highway bridges were nearing completion. The engine houses were about 80% completed and the coaling plant and other auxiliary facilities were well under way.

The connection with the Hudson Division, which is the second stage of the work, was well started at the end of the year and should be open for traffic in 1925.

The entire project was a little more than one-half completed at the end of 1923. To that time the New York Central had advanced $9,910,000 for the work.

Western Transit Co.—This company, the entire capital stock of which was owned by the Central, formerly operated a fleet of boats on the Great Lakes. By reason of the provisions of the Federal Panama Canal Act the company sold all of its floating equipment in March 1916, and has not conducted transportation business since that time. The charter of the Western Transit Co. expired on Dec. 1 1923, and its affairs are being settled by its directors as trustees, pursuant to the New York statutes. Its remaining assets, after payment of debts and expenses, will be transferred to the Central, as sole stockholder. On Dec. 31 1923 the books of the Western Transit Co. showed an excess of assets over debts of $1,828,168.

Reduction of Capital Stock of Wells Fargo & Co.—Under authority of the stockholders of Wells Fargo & Co., on Feb. 6, the capital stock of that company was reduced from $24,000,000 to $12,000,000, the par value of each share having been reduced from $100 to $50 by the payment from capital assets of $50 in cash for each share. The 7,500 shares of Wells Fargo & Co. stock owned by this company were received from the American Express Co. as a dividend; therefore, the amount realized on the Wells Fargo & Co. shares, $375,000, was credited to the ledger value of this company's holdings of the American Express Co.'s stock.

Opening of Northbound Driveway around Easterly Side of Grand Central Terminal.—The congestion of traffic on the streets within the Grand Central Terminal zone has resulted in a proposal by the city authorities that the present elevated roadway extending from the viaduct in Park Ave. at 42d St. around the westerly side of the Terminal building to 45th St. be raised at the northerly end and extended over 45th St. to Park Ave. and thence on that avenue to 46th St., reaching that point at grade, and that a corresponding elevated driveway be constructed around the easterly side of the Terminal building from Park Ave. and 42d St. to 46th St. at Park Ave.; Vanderbilt Ave. to be extended from 45th to 47th St.

The plan further contemplates the closing of Park Ave. between 45th and 46th streets, except for the elevated driveways for the passage of vehicular traffic and sidewalks for pedestrians at the present grade of the avenue, and the conveyance of this part of the avenue by the city to the company in exchange for the new easements required by the city, thus permitting construction by the company of a building (through which the proposed driveways will pass) bounded by 45th and 46th streets, former Depew Place, and Vanderbilt Ave. extended.

Negotiations looking to these improvements resulted during the year in the passage of enabling legislation. The plans and profiles and the form of agreements between the city and the company for the doing of the work by the latter have been substantially agreed upon with the Borough President and are ready for action by the Railroad Boards and by the Board of Estimate and Apportionment.

West Side Improvement—New York City.—The improvement of the company's line on the west side of Manhattan and of the freight stations and facilities on that line has been under consideration for many years. The important freight stations—Manhattanville, 60th St., 33d St. and St. John's Park—do not meet present-day requirements. It will not be possible to modernize these stations until some agreement shall have been reached with the public authorities under which the use of streets and avenues at grade will be discontinued and electric operation extended to this part of the road. The elimination of grade crossings on this line is one of the few important problems of this kind remaining on the company's lines East. Since operation by electricity has become practicable, it is desirable that this line be operated by electricity as a motive power.

After long negotiations with the City authorities under a Special Act passed in 1911, an agreement was substantially reached; but, owing to opposition which resulted in hostile legislation in 1917 amending the Act of 1911, the agreement was not consummated. It is perhaps just as well for the company that it was not, because it would have been impossible, on account of war and its incident conditions, to have carried out the improvement at that time.

At the session of the Legislature in 1923 an Act was passed making it unlawful for any railroad operating within the limits of Greater New York to operate after Jan. 1 1926 within the limits of the city, with any motive power except electricity, to be generated, transmitted and used in a manner to be approved by the P. S. Commission, which was also directed to prescribe the various facilities required for electric operation. The company has applied to that Commission for its action under this statute.

The Transit Commission, which is the New York City Commission, has jurisdiction with respect to the elimination of grade crossings on this line. At the same time the company presented a petition to that Commission for the elimination of all grade crossings, some 106 in number.

Since the presentation of these two applications, hearings, practically joint by the two commissions, have been held and the company has put in the principal part of its evidence bearing on the two questions of grade crossing elimination and electrification and the hearings have been postponed until January 1924.

Automatic Train Control.—The I.-S. C. Commission on June 22 1922 made an order requiring the installation of automatic train control upon a division of each of 49 railroads, among which were this company and the Boston & Albany RR. The order required that a division for such installation must be selected by Jan. 1 1923, and that the installation must be completed by Jan. 1 1925. The Train Control Committee of Signal Engineers, which had been studying the matter for many years on behalf of this company and its affiliated lines, recommended that the Mohawk Division and the division between Albany and Springfield, upon the Boston & Albany RR., should be selected, and prepared specifications and invitations for bids for the installation. These invitations were sent out on Nov. 28 1923, but the time for receiving and opening bids did not expire until after the close of the year.

Consolidation of Railways.—The Transportation Act, 1920, provided that the I.-S. C. Commission should prepare a plan for the consolidation of the railways of the continental United States into a limited number of systems. In September 1921, the Commission announced a tentative plan which provided for the establishment of a maximum of nineteen systems. The tentative plan for System No. 1—New York Central System—provided that it should include the existing New York Central Lines with the exception of the Toledo & Ohio Central, the Kanawha & Michigan and the Zanesville & Western, and should also include the Rutland RR. and the Western Maryland Ry. The plan also provided in the alternative that the Boston & Maine, the Maine Central and the Bangor & Aroostook might be assigned to the New York Central System, or that they might be assigned to a separate New England System, or to a New England-Great Lakes System.

The hearings before the Commission on this tentative plan, so far as the Eastern carriers were concerned, began on May 16 1923. At that time the management of the New York Central Lines appeared and advocated the consolidation of the existing system including the Ohio Central Lines,

expressed a willingness to accept the inclusion of the Rutland RR. and the Western Maryland Ry., made no recommendation as to the Boston & Maine, the Maine Central and the Bangor & Aroostook, and advocated the inclusion in the system of the Central RR. of New Jersey and the Catawissa branch of the Philadelphia & Reading Ry., which forms a connecting link between the western terminus of the Central RR. of New Jersey at Haucks and the southeastern terminus of the New York Central RR. at Newberry Junction. In the tentative plan of the Commission the Central RR. of New Jersey and the Philadelphia & Reading Ry. are assigned in their entirety to System No. 3—Baltimore & Ohio System.

The principal reasons assigned by the management of the New York Central Lines for the acquisition of the Central RR. of New Jersey and the Catawissa Branch of the Philadelphia & Reading Ry. were: (1) that it would afford the system an opportunity to develop an additional trunk line between Ashtabula and New York, which would provide for a portion of the increasing business now converging upon the main line of the New York Central RR. at Buffalo and the Niagara Frontier; (2) that it would provide a short line for the transportation of bituminous coal from the Clearfield region of Pennsylvania to N. Y. City, and would afford the New York Central facilities for the transhipment of this traffic in New York harbor, the New York Central now having no such facilities and being dependent upon those of the Central RR. of New Jersey; (3) that it would bring the New York Central into the anthracite coal fields as an originating carrier and improve the public service in that respect, since the New York Central, although one of the largest distributors of anthracite coal, is not now an originating carrier of that commodity; (4) that the New York Central System would, for various reasons, have greater economic incentive to develop the facilities of the Central RR. of New Jersey than would the Baltimore & Ohio Systems; (5) that the assignment of the Central RR. of New Jersey to the New York Central System would be consistent with the decision of the U. S. Supreme Court in the Reading case, separating the Philadelphia & Reading Ry. and the Central RR. of New Jersey, and that no other assignment of the Central RR. of New Jersey would harmonize with that decision.

These proposals were opposed by the management of the Baltimore & Ohio System, which advocated the tentative plan of the Commission, and were also opposed, as was the tentative plan, by the management of the Philadelphia & Reading Ry., which advocated a separate consolidation of the Philadelphia & Reading Ry., the Central RR. of New Jersey, the Lehigh & New England RR. and the Lehigh & Hudson River Ry. The taking of testimony in the consolidation proceeding was concluded by the Commission in December 1923. No decision has yet been announced by the Commission.

OPERATING STATISTICS FOR CALENDAR YEARS.

Boston & Albany Railroad.

(Report for the Year Ended Dec. 31 1923.)

The report of the New York Central RR. (see above) shows the following results:

The operating revenues for 1923, compared with 1922, increased $4,145,878, or 12.7%.

Freight revenue increased $3,155,392, or 17.6%. Revenue freight increased 2,592,082 tons. The average number of tons of revenue freight per train miles in 1923 was 394.33, as against 353.08 in 1922, an increase of 11.7%. Total average train load, including company freight, amounted to 418.75 tons in 1923, as against 373.61 in 1922, an increase of 45.14 tons, or 12.1%.

Passenger revenue increased $558,370 91, or 5.2%; revenue passengers carried increased 195,820, or 1.4%.

Rail operating expenses (exclusive of equipment retirements and depreciation) increased $3,420,692, equal to 13.8%. Operating expenses, including equipment retirements and depreciation, increased $3,451,534, or 13.6%. Expenses for maintenance of way increased $1,172,938; maintenance of equipment expenses increased $1,083,532 and transportation expenses increased $1,130,530.

Western Pacific Railroad.

(8th Annual Report—Year Ended Dec. 31 1923.)

President Charles M. Levey, San Francisco, May 1, wrote in substance:

Results.—Revenue of $10,513,455 from freight traffic shows an increase of $1,036,867, or 10.94%, compared with previous year. The increase is attributable to increased transportation of fruit and other perishables and products of forests and mines. The rail movement of manufactured products from the East continues to show decrease, due to water competition via the Panama Canal. Freight revenue per ton mile 1.01c., as compared with 1.04c. in 1922. Revenue ton miles show an increase of 14.87%.

Revenue from passenger traffic was $2,424,229, being $274,051, or 12.75% in excess of previous year. Tourist travel to California was exceptionally good, with indications of a further increase during the year 1924.

Passenger train revenue per mile of road shows increase of $313 92, or 11.33%. Passenger train revenue per train mile $2 07, as compared with $1 90 for 1922.

Taxes.—Railway tax accruals for the year amounted to 6.73% of the operating revenues compared with 7.70% for the year 1922. This decrease in ratio is due to increased volume of traffic rather than any changes in manner or rates of assessment.

Funded Debt.—March 1 1923 $5,600,000 5½% Equip. Trust Ctfs., $375,000 of which mature serially on March 1 each year from 1924 to 1937 inclusive and $350,000 on March 1 1938 were issued and sold at 97¼ and int. (V. 116, p. 823). The purpose of this issue was to provide funds sufficient to cover 80% of the cost of 2,000 refrigerator cars, 100 automobile cars, 100 logging cars, 20 baggage cars, 20 coaches, 8 dining cars and 6 Mikado heavy-type locomotives. All this equipment except the 20 baggage cars was received and placed in service during the year.

Road and Equipment.—Road and equipment charges during the year aggregate $8,088,827, divided $1,255,497 for road and $6,833,329 for equip.

Agreements with Southern Pacific Co. and Allied Corporations.—At the time when the Southern Pacific Co. applied to the I.-S. C. Commission in 1922 for permission to lease the Central Pacific System, the Western Pacific RR. appeared in the proceeding and requested that in the event the lease be authorized the Commission's order be made conditional upon the establishment of through rates and divisions between the Western Pacific and the Southern Pacific lines to and from points in southern California and Oregon. The through rates and divisions theretofore in force extended only to points in California north of Tehachapi and points south of the Oregon-California line. Negotiations ensued between the officers of the respective companies and as a consequence an agreement in principle was reached early in 1923, which is set forth in the decision of the I.-S. C. Commission dated Feb. 6 1923 authorizing the lease of the Central Pacific to the Southern Pacific. Negotiations looking to definitive agreements continued during the year 1923 and were concluded by the execution of formal contracts under date of Feb. 28 1924. The effect of these contracts, particularly as concerns the Western Pacific, may be summarized as follows:

Double Track Agreement.—This agreement between the Southern Pacific Co., the Central Pacific RR. and the Western Pacific RR. is to extend over a period of 50 years. It grants to each railroad line the use of the track of the other from a point in Nevada known as Alazon, near Wells, to Weso, near Winnemucca, a distance of 183 miles. This arrangement will require immediately large expenditures by the Western Pacific within the double-track territory. Incidentally, considerable expenditures for the exclusive benefit of the Western Pacific will be made at the same time. As to such part of the expenditures to be made as the Western Pacific is not required to make for its own benefit, irrespective of the new agreement, the Southern Pacific, at the option of the Western Pacific, will advance the capital so required at an interest rate of 5½% per annum and will pay to the Western Pacific amounts equal to the interest on such expenditures at 5½% until the Western Pacific shall have increased its relative use of the double track —as compared with the basis assumed in the agreement (W. P., 25%; S. P., 75%)—after which the Western Pacific will absorb a proportion of this interest corresponding with such increased relative use.

The maintenance of both tracks will be borne by the two companies upon a wheelage basis. The provisions of the agreement as to rental and absorption of interest charge on the expenditures mentioned are based upon a sliding scale, as the relative traffic of the two railroads varies. The Western Pacific in the first instance will receive by way of rental approximately $175,000 per annum more than it pays to the Southern Pacific. It is estimated, moreover, that in addition to this, savings due to joint operation will amount approximately to $180,000 per annum. The direct pecuniary advantage of this agreement will, however, decrease as the Western Pacific's traffic in the paired track territory increases in relation to that of the Southern Pacific. As joint use of tracks under this agreement will not commence until Aug. 1 1924, with the result that increased earnings thereunder for the year 1924 will be those of the succeeding portion of such year only, and as during the same year substantial expenditures chargeable to operating expenses must be made by the company within the double-track territory, the benefit of this contract to the company will not be reflected in the accounts for such year.

Extension of Territory Served, &c.—Under present conditions no through rates or divisions between the Southern Pacific and the Western Pacific are in force north of the Oregon-California border. An agreement has been arrived at by which the Western Pacific will handle for the Southern Pacific over the Western Pacific's low-grade line between Chico, Calif., and Weso, Nev., a freight traffic equal to one-half of both the east and west bound transcontinental Oregon business of the Southern Pacific, exclusive of livestock and perishables. The rate per car for the bridge haul thus provided for is fixed for the present at $60, the contract containing provisions for adjustments in the event of substantial changes in rates, costs, &c. This agreement assures to the Western Pacific an east and west bound haul of the equivalent of one-half the Southern Pacific low-grade business of Oregon at a return comparable with that from low-grade transcontinental business of the same class originating on the Western Pacific. In the opinion of the officers of the company, this arrangement will help to balance the traffic of the Western Pacific, as well as to increase the amount and density thereof. This agreement is to endure for the period of 10 years and if not renewed through rates to Oregon will be established.

Southern California.—Through rates and divisions to southern California points have been put into effect, thus opening to the Western Pacific the territory south of Tehachapi and eastward to and including Banning.

Sacramento Northern.—The Sacramento Northern RR., approximately 99% of the bonds and stock of which are owned by the Western Pacific RR. Corp., is the owner of an isolated line, 15.55 miles in length, known as the Suisun branch, serving the territory from Vacaville to Willota and producing high-grade traffic in perishable fruits. Heretofore the business originating on this line has not been available to the Western Pacific and could become available only through the extension (at a very substantial cost) of the Sacramento Northern main line from Woodland to Vacaville. It has been agreed that business originating on this isolated line shall be handled for the Sacramento Northern by the Southern Pacific, as a bridge, from Suisun to Sacramento and there delivered to the Sacramento Northern or the Western Pacific for local or transcontinental movement, at a charge of $20 per car for the bridge service. This arrangement for bridge service also includes west bound traffic from the Western Pacific and Sacramento Northern at Sacramento to the Suisun branch.

Agreement with Respect to Refrigerator Car Supply.—While no definite arrangement was made at the time of the decision of the I.-S. C. Commission with regard to refrigerator car business, the Southern Pacific and the Western Pacific then agreed to co-operate in an endeavor to reach an arrangement for the service of the Western Pacific's perishable freight business by the Pacific Fruit Express, a car company owned jointly by the Southern Pacific and the Union Pacific. Such an arrangement has now been made. By the terms of an agreement between the Pacific Fruit Express and the Western Pacific, the Western Pacific turns over and leases to the Pacific Fruit Express 2,000 refrigerator cars already owned by the former, and has agreed to turn over and lease 775 additional refrigerator cars which it has purchased. The Pacific Fruit Express on its part agrees that as long as the contract shall remain in force it will pay to the Western Pacific annually an amount equal to 5 1-3% of the cost of the cars, which will be applied by the Western Pacific to the amortization of such cost, and 6% upon the unamortized portion of such cost; also, that if the contract shall remain in force for more than 15 years it will pay thereafter a reduced but reasonable rental for the cars. The Pacific Fruit Express agrees to make available refrigerator cars, without discrimination, to shippers desiring to ship by the lines of the Western Pacific or the Southern Pacific. The agreement provides that the Western Pacific will supply and lease upon the same terms a share of the additional cars required as business increases. This agreement is terminable by either party on one year's notice, but will endure at all events until May 1 1926.

Colorado & Southern Railway Co.

(*25th Annual Report—Year Ended Dec.* 31 1923.)

This company is controlled by the Chicago Burlington & Quincy RR. by ownership of $23,657,500 of the $31,000,000 Common stock, and the corporate income statement for the years 1921 to 1923, taken from the report of the company, was given in "Chronicle" of May 10, p. 2303.

President Hale Holden, Chicago, Jan. 2, said in substance:

Capitalization.—On Dec. 31 1923 the capital stock outstanding in the hands of the public was $48,010,552.

Dividends.—Dividends paid and charged to income for the year were: June 30 1923, 2% on $8,500,000 1st Pref. stock, $170,000; Dec. 31 1923, 2% on $8,500,000 1st Pref. stock, $170,000; Dec. 31 1923, 4% on $8,500,000 2d Pref. stock, $340,000; total $680,000.

Funded Debt.—There was a net decrease of $360,900 in the funded debt during the year. On Dec. 31 1923 the funded debt outstanding in the hands of the public was $60,094,400.

Operations.—There was a net decrease of $468,543 (1.93%) in operating revenue during the year. The decrease in freight revenue ($321,858) was due principally to higher rates in effect during the first half of 1922, a decrease of 10% having been made effective July 1 1922, applying to practically all commodities. Also, during the period July to October, there were serious interruptions in service on the northern line of the C. & S. as well as on the lines of its principal northern connecting carriers due to flood conditions. This caused the diversion of a large amount of traffic which ordinarily would be handled by C. & S. Lines. On other portions of this system, substantial increases were made in freight revenues due to an increase volume of business handled.

The slight decrease in passenger revenues ($22,894) is due to loss of traffic on account of the flood conditions recited above, competition by automobile travel and, in the southern territory, to decreased activity in the oil fields served by these lines.

The decrease in mail revenue ($9,620) is due principally to the change in the method of handling side mail service at the larger stations, such service now being performed by contractors under agreement with the Government. This general decrease was partially offset by increase in emergency service and in regular service.

The decrease in express revenue ($86,505) is due to the payment in 1922 of adjusted proportions of amounts earned by the express company in years prior thereto, also to general decline in volume of traffic offered for shipment via express.

The increase in switching revenue ($84,141) is due to increased switching at Fort Collins of equipment for oil wells, at Leadville account increased activity at mines, at Denver of northern Colorado mines coal and slack to industries in Denver and at Amarillo to U. S. Zinc Co. smelter on one of the system lines.

Increase in other transportation revenues ($6,717) is due principally to increased Pullman car earnings.

Decrease in revenues from incidental operations ($118,525) is due principally to decrease in dining car receipts, also from hotels and restaurants. There was also a considerable decrease in joint facility—credits.

Expenditures.—There was an increase of $142,605 (0.77%) in operating expenses during 1923. This slight increase is due almost entirely to increased maintenance of equipment. Owing to the shopmen's strike during the last half of 1922 leaving the equipment in a more or less inpaired condition, also because of a concerted movement on the part of all carriers, a heavier maintenance of equipment program was carried on during the year 1923 to bring the equipment up to a high percentage condition. Also, during the year there were unusual flood conditions, however, notwithstanding, there were substantial decreases in other than maintenance of equipment expenses due to increased economies and efficiency.

The operating ratio was 78.37% as compared with 76.28% in 1922 and 72.80% in 1921.

Capital Expenditures.—There were during the year net expenditures of $577,620 chargeable to capital account as follows: For road, $740,079; for equipment, Cr. $163,433; for general, $974.

Valuation.—The work under the Federal Valuation Act of March 1 1913 was continued during the year, with reduced forces. The total expenditures by these companies on account of valuation to Dec. 31 1923 were $730,827. Tentative valuation reports have not as yet been rendered.

Toledo & Ohio Central Railway.

(*Report for the Year Ended Dec.* 31 1923.)

The lines of the Toledo & Ohio Central Ry. and its subsidiaries, viz.: Zanesville & Western Ry., Kanawha & Michigan Ry. and Kanawha & West Virginia RR., were leased as of Jan. 1 1922 to the New York Central RR. (V. 115, p. 544). The operation of these lines for 1922 and 1923, now known as the Ohio Central Lines, are contained in the annual report of the New York Central RR., which shows the following results:

x Exclusive of $12,292,000 bonds in escrow with Central Union Trust Co., New York, withdrawable only against future improvements upon Northwestern Elevated Main Line. No interest is payable on these bonds while in escrow.—V. 118, p. 2437.

New Orleans Texas & Mexico Ry. (Gulf Coast Lines).

(8th Annual Report—Year Ending Dec. 31 1923.)

President J. S. Pyeatt says in substance:

Guaranty.—Settlement for the guaranty period operation, March 1 to Aug. 31 1920, was, upon approval of the board of directors, made during October 1923. Company received as a result of such settlement a balance of $309,019. There had previously been advanced by the I.-S. C. Commission the sum of $500,000, making the total amount received from the Government for the guaranty period operation $809,019.

Financial.—Upon authority of the board of directors there was disposed of during the year $170,000 St. Louis-San Francisco Ry. Co. 1st Pref. stock for $77,352 cash.

There was a net decrease in funded debt during year ending Dec. 31 1923 of $683,276.

Additions and Betterments.—The net additions and betterments to property during the year amounted to $616,695.

Federal Valuation.—Tentative valuation by the I.-S. C. Commission which, it was expected, would be completed during 1923, has not yet been announced.

Taxes.—The increase in charges on account of taxes for the year amounted to $214,427, made up as follows: State, county and municipal, $26,357; Federal income, $187,284; Federal capital stock, $787.

General.—The entire territory served by the lines has prospered during the past year, resulting in unusual activity in colonization of undeveloped land south of Houston, particularly in the Rio Grande Valley and in the dry farming territory north in Kleberg, Nueces and San Patricio counties. The Rio Grande Valley is beginning to produce in volume citrus fruit of superior quality. There are at present approximately 25,000 acres of growing trees which is being increased at the average rate of 10% each year. Within three years, if conditions continue favorably, there should be produced in the Rio Grande Valley approximately 1,000 cars of citrus fruit, increasing each year until maximum development of the territory is reached.

Agreement has been practically concluded with the Houston Navigation District, under which the Gulf Coast Lines, associated with other railroads of Houston, will operate the Navigation District Terminal serving the port facilities and industries now located on each side of the channel, with the exception of those local to railroads now occupying and serving that territory. This will insure equal and neutral service to and from the port facilities and the channel industries for all roads without undue burden to any.

The Houston Belt & Terminal Ry., of which your lines own 50%, was authorized to sell 38.87 acres of land located on the Turning Basin for $174,939, which, under its mortgage, could only be used for additions and betterments to Houston Belt & Terminal Ry. property. Practically the entire amount was expended during the year to reimburse the treasury for additions and betterment expenditures previously made and for needed improvements, completed and partially completed during the year 1923.

Note.—The plant and investment account has been adjusted in conformity with appraisals, credit being given to consolidated reserve.—V. 118, p. 1525.

United Shoe Machinery Corporation.

(*Annual Report—Year Ended Feb.* 29 1924.)

President E. P. Brown, Paterson, N. J., May 23, wrote in substance:

The company reiterates the greeting extended on the 25th anniversary of the organization.

In 1899 the company was operating 4 factories, all manufacturing shoe machinery. The corporation to-day, either directly or through its affiliated companies, is operating 66 factories. Nine of these are engaged in making shoe machinery and tanning machinery. The other factories are devoted to making a large and ever-increasing variety of articles used in shoe manufacture—such as eyelets, nails, tacks lasts, brushes, dies, cutters and other findings and accessories. The floor area required to-day approximates 6,000,000 sq. ft. as against 300,000 sq. ft. in 1899. While our administrative offices are in Boston, we have branches and agencies in practically all shoe manufacturing centres.

In 1899 there were 4,809 stockholders as compared with 19,389 to-day, including in this number 4,584 employees in the corporation and subsidiary companies who have subscribed for stock under the "employees stock plan."

During the year the corporation offered to the members of its organization an opportunity to purchase stock of the corporation on a weekly or monthly installment basis. Something over 4,000 employees of the corporation and of the domestic subsidiary companies entirely owned by the corporation or in which the corporation has controlling interest availed themselves of this opportunity.

During the year progress has been made in merging with the corporation various of our subsidiary companies. Other of the subsidiary companies will be consolidated as rapidly as conditions will permit.

The new leasing system which went into effect Oct. 1 1922 in respect to certain machines and Jan. 1 1923 in respect to others has been further developed during the year. Certain readjustments became effective July 1 1923, and others at various dates within this period. We have not, therefore, had an entire year's business on the readjusted basis and the full effect of the change is not yet definitely known. We are, however, having the hearty co-operation of the trade, and we anticipate that the new system will be satisfactory to our customers.

Conditions in the shoe manufacturing industry, on which the corporation is dependent for its income, have been uneven and unsatisfactory in certain localities. Government reports, however, indicate that the total number of shoes of all kinds manufactured in the United States during the year 1923 was approximately 30,000,000 pairs in excess of those produced during the year 1922. Our own figures for 1923 indicate a volume in excess of the production for the preceding year and further establish the fact that the growth was not confined to any particular type of shoe but was general, including a satisfactory increase in the Goodyear welt shoe.

During the year the foreign business done by the corporation through its affiliated and subsidiary companies and agencies has been, as heretofore, materially affected by violent fluctuations in exchange as well as by the price of raw materials and labor. Especially is this true in the Central European countries and in France. However, an improvement has been made under the adverse conditions existing.

As has been recently announced in the press the joint commission which is considering and passing on American claims against the Government of Germany has made an award in respect to certain claims filed by the corporation. The award establishes the liability but does not make provision for its payment.

Philadelphia & Reading Coal & Iron Corp. & Subsid's.

(*Annual Report—Year Ending Dec.* 31 1923.)

Philadelphia & Reading Coal & Iron Corp.—Pursuant to decree of U. S. District Court, filed June 28 1923, providing for the segregation of Reading Co., et al., Philadelphia & Reading Coal & Iron Corp., organized in Delaware, was incorporated Dec. 19 1923 with the following as incorporators: William J. Richards, Robert J. Montgomery, William H. MacEwan.

The total number of shares of Capital stock authorized, and which may be issued by the corporation is 1,400,000 shares without nominal or par value.

Philadelphia & Reading Coal & Iron Corp., the new corporation specifically provided for in decree of the U. S. District Court, filed June 28 1923, approving the plan for the segregation of Reading Co., et al., thereupon, by bill of sale dated Dec. 28 1923, acquired from Reading Co., all its right, title and interest in and to the stock of the Philadelphia & Reading Coal & Iron Co. for the consideration of $5,600,000 and its agreement to issue its 1,400,000 no par shares to the stockholders of the Reading Co. in the manner provided in the decree; the substantial provisions of this decree in this regard being that the new coal corporation should receive $5,600,000 for its shares, or at the rate of $4 a share, and that no such share should be issued to any one who, at the time, was an owner of any stock of the Reading Co.

Philadelphia & Reading Coal & Iron Corp., commencing business Dec. 19 1923, as stated above, shows appended hereto, a consolidated balance sheet of Dec. 31 1923, and a summary of consolidated income and profit and loss for the year so ended, which include the financial condition and the operations of the Philadelphia & Reading Coal & Iron Co. and its subsidiaries.

Philadelphia & Reading Coal & Iron Co.

The final decree in the segregation proceedings involving Reading Co. and Philadelphia & Reading Coal & Iron Co., was handed down by the U. S. District Court for the Eastern District of Pennsylvania on June 28 1923.

General Mortgage.—The decree provided that the joint and several liability of Reading Co. and Philadelphia & Reading Coal & Iron Co. under the General Mtge. dated Jan. 5 1897, be severed and that the several liability of Philadelphia & Reading Coal & Iron Co. on the principal amount of General Mtge. bonds outstanding on Nov. 30 1922, be found and decreed to be one-third thereof. Thus the liability of Philadelphia & Reading Coal & Iron Co. in respect of the principal of said Gen. Mtge. bonds was decreed as of Nov. 30 1922, to be $31,542,333 1-3, and the lien of the Gen. Mtge. upon the Philadelphia & Reading Coal & Iron Co.'s property limited to the principal sum of $31,542,333 1-3.

The effect of the decree of the Court in respect of the liability of the Philadelphia & Reading Coal & Iron Co. under the Gen. Mtge. dated Jan. 5 1897, is reflected on the consolidated balance sheet of the corporation below.

Refunding Mortgage 5% Sinking Fund Mortgage.—The decree further provided for the execution of a new mortgage which should constitute a lien subject to the Gen. Mtge. upon all the coal property and equipment, &c., of the Philadelphia & Reading Coal & Iron Co. The new mortgage is to provide for a new issue of bonds limited to the aggregate principal amount of $31,542,333 1-3 which are to be issuable only on the surrender of Gen. Mtge. bonds. The said bonds are to bear interest at the rate of 5% per annum and mature Jan. 1 1973.

Pursuant to the decree of the U. S. District Court, filed June 28 1923, the Philadelphia & Reading Coal & Iron Co., effected the settlement with Reading Co., provided for in Sec. 13 of the said decree and, on Dec. 28 1923, paid that company in cash and current assets the sum of $10,000,000, and executed with that company a mutual release of all claims and liabilities as between these companies.

In further pursuance of this decree, the Philadelphia & Reading Coal & Iron Co. entered into and executed with Reading Co. the following agreements:

"Agreement dated Dec. 28 1923, by which the Philadelphia & Reading Coal & Iron Co. assumed the Sinking Fund obligations, as contained in the Gen. Mtge. dated Jan. 5 1897, by which it is provided that a sum equal to 5 cents per ton on all coal mined by the Philadelphia & Reading Coal & Iron Co. in the next preceding year shall be paid to the trustee to be used for the purchase and cancellation of Gen. Mtge. bonds. Said Gen. Mtge. bonds so purchased and canceled are to be those which constitute only the obligations of the Philadelphia & Reading Coal & Iron Co.

"Bill of sale and agreement dated Dec. 28 1923, by which the Philadelphia & Reading Coal & Iron Co. acquires from Reading Co. for the sum of $8,000,000, all its right, title and interest in and to the shares of Capital stock of Reading Iron Co., the stock of Reading Iron Co. remaining subject to the lien of the Gen. Mtge. of Reading Co. and the Philadelphia & Reading Coal & Iron Co., dated Jan. 5 1897, but as security, however, for the obligations thereunder of the Philadelphia & Reading Coal & Iron Co."

Production, &c.—The total production of anthracite coal from lands owned, leased and controlled by the Philadelphia & Reading Coal & Iron Co. of 1923 was 11,488,513 tons, compared with 6,924,284 tons mined during the previous year. During the year the company mined 10,222,202 tons and sold 9,835,474 tons as compared with 6,100,869 tons mined and 7,398,974 tons sold the previous year.

The low tonnage of 1922, both as to production and sales, is attributable to the strike of the workmen which prevailed from April 1 to Sept. 11, inclusive, of that year.

Wages, &c.—The agreement with the United Mine Workers of America covering wages and working conditions expired Aug. 31 1923. Pending the negotiations of a new agreement, the operations of the company were suspended from Sept. 1 to 18, inclusive, by reason of a strike of the employees. A new agreement was entered into which extended the working conditions operative under the agreement that had expired, for a further period of 2 years or until Aug. 31 1925 and in addition provided for an increase of 10% in the wage and contract rates covered by previous agreement.

Sinking Fund 4% bonds, 1892-1932, $780,000; First Mtge. bonds of subsidiary coal companies, $50,000. d Due to Reading Co. for purchase of capital stock of Phila. & Reading Coal & Iron Co.—V. 118, p. 1784.

United States Realty & Improvement Co.

(20th Annual Report—Year Ended April 30 1924.)

Pres. James Baird, New York, May 22, wrote in subst.:

The companies whose accounts are included in the consolidated statements are as follows: United States Realty & Improvement Co., George A. Fuller Co., Trinity Buildings Corp. of New York, Plaza Operating Co.

Income for Year.—The gross income for the year amounted to $4,491,315 and, after deducting general and corporate expenses and making provision for Federal and State taxes—$1,019,232—and for interest on your company's 5% Debenture bonds including those not presented for redemption during the year—$106,513—there remained a net income of $3,365,569. After deducting dividends of 7% on the $8,081,400 outstanding Preferred stock—$565,698—there remained a balance of $2,799,872, equal to 17.32% on the outstanding Common stock of $16,162,800, as compared with $3,335,691 last year. The present outstanding 7% Preferred stock—$8,081,400—was not issued until April 30 1923; therefore no deduction from earnings was made last year for Preferred stock dividends when computing rate earned on the Common stock.

Income from Real Estate & Securities.—The net income for the year derived from investments in real estate and securities amounted to $3,075,449, as compared with $2,591,294 for the preceding year, an increase of $484,156. Regular dividends on the Plaza Operating Co. Preferred and Common stock were included last year. This year, due to consolidation, the entire earnings of the Plaza Operating Co. are included with the exception of dividends declared and paid and proportionate share of the earnings due minority stockholders.

Financial Position.—During the year company purchased and cancelled $954,000 Debenture bonds maturing July 1 1924, reducing the amount outstanding from $2,848,000 to $1,894,000, and at April 30 had cash on hand and in banks, including $300,000 United States Treasury certificates, amounting to $3,329,888.

The mortgages on company's real estate were decreased during the year by $400,500 and now amount to $19,965,000, or less than 43% of the original cost, of which $6,025,500 is represented by an issue of 5½% bonds of Trinity Buildings Corp. of New York, due June 1 1939, secured by first mortgage on Trinity and United States Realty buildings, and $8,877,000 secured by mortgages on the Plaza Hotel, $8,000,000 becoming due May 1 1936, and $877,000 Aug. 1 1931. The balance of mortgages covering company's property as regards maturities presents no financing problems.

During the year company purchased additional stock in the Plaza Operating Co., owning and operating the Plaza Hotel, N. Y. City, and company now holds 79.9% of the outstanding stock.

Surplus & Reserves.—The balance of accumulated earnings to April 30 1924 now amounts to $9,686,199, of which there is still reserved for possible losses or depreciation in value of capital assets $5,065,839, leaving $4,620,361 as surplus available as working capital. Nothing has been taken to account for appreciation in value of any of company's capital assets.

Subway Contracts.—Material progress has been made on the claims against the city of New York in connection with the construction by company of its subway contracts, and it is hoped that a satisfactory conclusion will soon be reached.

George A. Fuller Co.—A summary of the business of the George A. Fuller Co. for the year ended April 30 1924 was given in V. 118, p. 2584.

The unfinished business on the company's books is on a sound, conservative basis and indicates the usual average profit.

There is a very large amount of building of the more desirable type to be executed in the near future and the company hopes and expects to secure its usual share of it.

The usual comparative income account was given in V. 118, p. 2584.

CONSOLIDATED BALANCE SHEET APRIL 30.

Note.—Loans on mortgages, deducted from real estate, 5½% bonds of Trinity Buildings Corporation of New York due June 1 1939 secured by First Mtge. on Trinity and U. S. Realty buildings, $7,000,000; less reduction by sinking fund retirement, $974,500; leaving $6,025,500 mortgages on Plaza Hotel, $8,877,000; other mortgages on real estate, $50,62,500; making total loans on mortgages, $19,965,000.

a Real estate and buildings at cost less reserve for depreciation of buildings and equipment thereon, $44,248,089; less mortgages thereon, $19,965,000. b Building plant, equipment, materials, &c., $2,395,842, less depreciation thereon, $891,000.—V. 118, p. 2584.

GENERAL INVESTMENT NEWS.

RAILROADS, INCLUDING ELECTRIC ROADS.

The following news in brief form touches the high points in the railroad and electric railway world during the week just past, together with a summary of the items of greatest interest which were published in full detail in last week's "Chronicle" either under "Editorial Comment" or "Current Events and Discussions."

Modification of Working Rules to Accompany Texas & Pacific Ry.'s Wag Increase.—New wage increases amounting to 6½% for all yardmen and trainmen, retroactive to May 1, agreed upon at a conference of railway managers and union officials at Chicago, April 8, will take effect at same time new working rules now under advisement are decided upon. "Dallas (Texas) News" May 20.

Buffalo Rochester & Pittsburgh Ry. Settles Differences With Engineers and Firemen.—The impending strike of engineers, firemen and enginemen on the B. R. & P. was settled May 28. The terms were not made public. New York "Evening Post" May 29, p. 1.

Havana Railways Tied Up by Strike.—All service on Havana Central Electric Lines ceases. Florida East Coast Ferry Co. suspends operation of ferry boats connecting with the road. Sugar centrals which have not completed their grinding protest against strike to no avail. "New York News Bureau Assn." May 29.

Western Maryland Employees Reject Offer Made by President Byers.—Men demand 12½% increase. Road offers the increase if certain revisions are made in "Big Four brotherhood" rules. Men declare revisions suggested would nullify work of 50 years to bring about present working conditions. Baltimore "Sun" May 29.

Pullman Surcharge of 50% Abolished by the U. S. Senate.—Estimated loss to the roads is $32,000,000 to $35,000,000 per annum. Purpose of surcharge was to compensate carriers for additional space occupied and greater weight involved in operation of the sleeping and parlor cars. "Wall Street Journal" May 29, p. 5.

Authorized Statistics.—The Car Service Division of the American Railway Association reports the following:

Car Surplus.—Surplus freight cars in good repair and immediately available for service on May 14 totaled 319,106, a decrease of 5,673 cars under the number reported on May 7, at which time there were 324,779. Of the total number, 167,102 were surplus coal cars in good repair, a decrease of 13,786 under the number reported on May 7, while surplus box cars in good repair totaled 112,648, an increase of 6,381 within the same period. Surplus refrigerator cars on May 14 totaled 13,462, an increase of 706 cars over May 7, while surplus stock cars totaled 17,870, an increase of 992 within the same period.

Car Shortage.—Practically no car shortage is being reported.

Matters Covered in "Chronicle" May 24.—(a) Congressional orders to the I.-S. C. Commission, p. 2493. (b) U. S. Senate passes Gooding bill affecting long and short haul provisions of the Inter-State Commerce Act, p. 2534. (c) New York Trust Co. says Gooding bill would defeat efforts of railroads to obtain transcontinental traffic, p. 2534. (d) Railroads said to be planning reduction in working week as traffic falls off, p. 2535. (e) Statement by conference committee of managers regarding recent unsuccessful wage negotiations of 90 Western railroads with engineers and firemen, p. 2535. (f) Congressman Huddleston (Alabama) would reduce railroad rates to 1920 level, bringing disaster to carriers; reductions already made, p. 2535.

American Electric Power Co.—*New Interests Seek Control.*

Negotiations for the acquisition of the company have been practically closed, according to a Philadelphia dispatch, which further states:

The price to be paid for the Common stock under the agreement reached, subject to legalities, &c., is $62 50 a share for all the Common stock that may be deposited under the offer. Payment is to be made within about a month. The purchasers may resell some of the trolley properties to other holding companies. At $62 50 a share the aggregate price provided all the 189,200 shares were turned in would be $11,825,000.

President Van Horn Ely is credited in a Philadelphia dispatch, May 29, with stating that the American Gas & El. Co. and Appalachian Power Co. have agreed to buy the Common shares of American Electric Power Co. at $62 50 a share provided that within 15 days certain representations by the vendors are verified to the satisfaction of the purchasers and not less than 75% of the Common stock is deposited for delivery against payment. It is expected one or more additional interests will participate with American Gas & Electric and Appalachian Power in this purchase.

Mr. Ely is further credited with stating that the Electric Bond & Share Co. is not involved and quotes S. Z. Mitchell, its President, as saying it has no interest in Appalachian Power and less than 3% interest in the stock of American Gas & Electric Co.—V. 118, p. 2571.

Atlanta & Birmingham & Atlantic Ry.—*Protective Committee.*—

F. J. Lisman has been elected a member of the protective committee representing the 1st Mtge. 5% bondholders of the Atlantic & Birmingham Railway.—V. 117, p. 1235.

Atlantic Coast Electric Ry.—*Merger.*—

The New Jersey P. U. Commission has approved the merger of the Seashore Electric Ry. with the Atlantic Coast Electric Ry. The application was made by the Eastern New Jersey Power Co. (see that company in V. 118, p. 1017).—V. 118, p. 1909.

Atlantic Coast Line RR.—*No Stock Dividend.*—

Chairman Henry Walters is quoted in substance: "So far as I know there will be no stock dividend either this year or next. I am opposed to such a dividend, but, after all, that is a matter for the directors. We were able to declare an extra dividend on the Common stock because the Louisville & Nashville RR. increased its dividend (see V. 118, p. 2437).

"The Atlantic Coast Line extra was not declared out of increased operating revenues, but it was declared out of increased earnings from A. C. L. investments. The larger return to Atlantic Coast Line stockholders depends on whether our earnings increase. The outlook for traffic is not particularly good for the last half of the year. With us, July, August and September are generally dead spots because during that time we have little traffic moving. The first half of the year is always much better for

us and last year we made more than 40% of our net operating revenue during the first 4 months and this year we will probably increase the percentage." See also V. 118, p. 2436.

Baltimore & Ohio RR.—*Bonds Sold.*—Kuhn, Loeb & Co., Speyer & Co. and the National City Co. have sol (subject to the approval of the I.-S. C. Commission) at 100 and int. $35,000,000 Ref. & Gen. Mtge. 6% bonds, Series "C," due Dec. 1 1995.

Interest payable J. & D. Denom. $1,000 and $500 c*&r*. The entire series, but not part thereof, red. on June 1 1934 or on any int. date thereafter at 107½% and int. upon not less than 90 days previous notice. Bonds are a legal investment for savings banks and life insurance companies in the State of New York.

Listing.—Application will be made in due course to list these bonds on the New York Stock Exchange.

Data from Letter of George M. Shriver, Senior V.-Pres., Balto., May 28.

Purpose.—To provide part of the funds necessary for the refunding of the company's obligations maturing in 1925, to reimburse the treasury for expenditures heretofore made for additions and betterments, and for other corporate purposes. It is estimated that about $20,000,000 will be available for refunding purposes.

Security.—The Ref. & Gen. Mtge. bonds will be secured by a lien on practically the entire system of railroads of the B. & O. R. R. comprising about 5,089 miles of first track, about 1,451 miles of second track and about 3,796 miles of other track, and upon the equipment of the company, or its interest therein, having a present net value after depreciation, over Equipment Trust certificates outstanding, of over $94,000,000. The mortgage also covers the passenger and freight terminals of the company in Philadelphia, Baltimore, Pittsburgh, Cleveland and Chicago, and the freight terminals on Staten Island, N. Y., in Washington, Cincinnati, Toledo and East St. Louis, as well as the company's one-half stock interest in the Washington Terminal Co. and its one-half ownership of the joint yards and terminal facilities at Washington.

The mortgage will be a direct lien on about 2,289 miles of first track, 672 miles of second track and 1,820 miles of other track of the above mentioned mileage, and a lien, through the deposit of bonds, and in most cases all, and in no case less than 96% of the capital stock of each of the companies owning the same, upon the remaining mileage. The mortgage is subject to prior liens on various parts of the system aggregating $297,307,280 (before deducting maturing obligations to be refunded through the present issue) for the retirement of which Ref. & Gen. Mtge. bonds are reserved.

The 20-Year 4½% Convertible gold bonds, amounting to $63,250,000, are equally secured with the Ref. & Gen. Mtge. bonds by the Ref. & Gen. Mtge. upon the properties covered thereby.

Earnings.—The total income of the B. & O. RR. for 1923, applicable to the payment of interest on its funded debt, rentals and other fixed charges amounted to $50,565,650, while interest, rentals, &c. (other than Federal income taxes), for the same period amounted to $25,743,614. For 1924, even assuming a 20% decrease in freight traffic compared with the preceding year, such total income is estimated at $42,800,000, as against int. and other charges, incl. int. on this issue of bonds, of $26,700,000.

For the five years ended Dec. 31 1923 the net income of the company, after deducting dividends paid, was $30,528,000, of which $17,500,000 was applied to the retirement of funded debt and to additions and betterments to its properties. At Dec. 31 1923 the total corporate surplus aggregated $58,725,000.

Stock.—Company has outstanding $58,863,000 of Pref. stock, paying dividends at the rate of 4% per annum, and $151,945,000 of Common stock paying dividends at the rate of 5% per annum.

Ref. & Gen. Mtge.—Authorized amount limited to an amount which, together with all outstanding prior debts of the company, after deducting therefrom the bonds reserved to retire prior debts at maturity, shall not exceed three times the then outstanding capital stock of the company, with the additional limitation that when the aggregate amount of the bonds outstanding and those reserved to retire prior debts shall be $600,000,000 no additional amount of bonds shall thereafter be issued (except the bonds so reserved to retire prior debts) without the further consent of the stockholders, and such additional bonds may be issued only to an amount not exceeding 80% of the cost of work done or property acquired.

Of the authorized amount there will be outstanding in the hands of the public after the present issue $60,000,000 of Series "A" 5% bonds and $35,000,000 of Series "C" 6% bonds. In addition there are pledged as part collateral for the $35,000,000 10-Year 6% Secured gold bonds due 1929, and for $11,900,000 loans with the U. S. Govt., due in part in 1930 and the balance in 1935, $8,000,000 Series "A" 5% bonds and $24,250,000 Series "B" 6% bonds. There are also pledged as security for an equipment loan maturing serially until 1935, $3,250,000 Series "B" 6% bonds.

Bonds are reserved, as stated in the mortgage, to retire $297,307,280 prior lien debts, including prior lien debts to be refunded through this issue. There are also reserved $63,250,000 bonds to retire a like amount of 4½% Convertible gold bonds due in 1933. The remainder of the bonds are reserved under certain restrictions for additions and betterments, new equipment, for the construction or acquisition, directly or indirectly, of additional properties and securities, and the refunding of prior debts thereon, and, to the extent of 5% of certain prior debts, to assist in refunding.—V. 118, p. 2434, 1770.

Carolina & Yadkin River Ry.—*Successor Company.*—See High Point Thomasville & Denton RR.—V. 116, p. 2515.

Chicago & North Western Ry.—*New Officers.*—Marvin Hughitt Jr. has resigned as Vice-President in charge of operations and has been appointed Executive Vice-President, a newly created position. Frank Walter, former General Manager, succeeds as Operating Vice-President and William Walliser has been made Vice-President in charge of personnel, also a new office. F. H. Hammill succeeds Mr. Walter as General Manager.—V. 118, p. 2563.

Cleveland Cincinnati Chicago & St. Louis Ry.—*Bonds Sold.*—J. P. Morgan & Co., First National Bank, National City Co. and Guaranty Co. of New York, have sold, at 94½ and interest (from Jan. 1 1924), to yield about 5.34% $20,000,000 40-Year 5% Refunding & Improvement Mtge., Gold Bonds, Series D.

Dated July 1 1923. Due July 1 1963. Interest payable J. & J. in N. Y. City. Redeemable as a whole only on any interest date at 105 and interest. Denom. c* $1,000, $500 and $100, and r* $1,000, $5,000, $10,000 and $50,000. Guaranty Trust Co. of New York, trustee.

Issuance.—Authorized by the Inter-State Commerce Commission.

Data from Letter of Albert H. Harris, Chairman of Finance Comm.

Company.—Popularly known as the "Big Four," operates 2,217 miles of railway, of which 1,685 are owned and 532 are operated under lease or contract, and in addition has 191 miles of trackage rights over other railroads. Company's lines serve a highly productive section of the country, reaching the resources and large traffic centres of the Middle West, and comprise an important part of the New York Central System. The New York Central RR. owns over 91% of the company's Common stock and over 84% of its 5% Preferred stock.

Earnings Years Ended December 31.

1923	94,941,444	19,299,598	7,723,413	11,576,185

x U. S. Railroad Administration. y U. S. Railroad Administration, two months; Federal guaranty period six months; corporate period four months. z Including settlement by U. S. Railroad Administration for account of company of net lap-over items applicable to period prior to Jan. 1 1918, as follows: in 1918, $1,616,343; in 1919, $3,580,184; and in 1920, $100,606.

Capital Expenditures.—In the past nine years surplus earnings, after payment of all charges, aggregated $48,352,590, of which $8,107,002 was paid out as dividends, the balance of $40,245,588 being used for additions and betterments, new equipment and other corporate purposes. The capital expenditures made on the company's property during this period have contributed largely to making possible the more efficient handling of an increasing volume of traffic. A comparison of freight traffic statistics of 1923 with those of 1914 follows:

	1923.	1914.	Increase
Ton miles of revenue freight per mile of road	3,350,171	1,869,744	79.2%
Average freight train loan (tons)	970	571	69.8%
Average freight car loan (tons)	30.6	23.3	31.3%

Security.—Covers as a direct lien 1,685 miles of railroad owned, the company's interest in 328 miles of railroad operated under lease or contract, and 146 miles of trackage rights, the total comprising 2,159 miles of railroad. After giving effect to this financing, there will be outstanding $41,052,600 and 11,376,000 francs of bonds secured by this mortgage which, together with the outstanding amount of present prior lien debt (not to be increased), will be equivalent to about $67,200 per mile of owned railroad. Approximately 542 miles, or over one-third, of the main line owned, is double-tracked, and the total trackage owned, including yards and sidings, amounts to 3,414 miles.

Equity.—Company has outstanding $9,998,500 5% Preferred stock and $47,028,700 Common stock, upon which dividends are being paid at the rate of 5% cnnually. Company's income for 1923 applicable to dividends on its Common stock was equivalent to over $23 50 per share.

Purpose.—The greater part of the proceeds of the sale of these bonds will be used to pay indebtedness carrying a higher rate of interest.

The New York Stock Exchange has admitted to the list the above bonds "when issued."—V. 118, p. 2178, 2041.

Chicago Rapid Transit Co.—*Stock for Customers.*—The company is offering $1,000,000 Series A Prior Preferred stock to employes at $90 a share on payment of $5 down and $5 a month. This is part of a $5,000,000 issue recently approved by the Illinois Commerce Commission. The Commission has also approved the issuance of $7,500,000 1st & Ref. Mtge. bonds, the proceed to be used to retire $8,000,000 South Side Elevated bonds maturing July 1 1924. Of the proceeds from the new stock $3,000,000 will be used to pay for the work of increasing platform lengths to acquire 100 new cars, &c. It is also planned to use not more than $2,000,000 from the new issue of stock to refund existing interets bearing obligations.—V. 118, p. 2437, 906.

Community Traction Co., Toledo, O.—*Stock Offered.*—The company is offering at par $101,090 8% Cum. Pref. stock. The proceeds will be used to pay for extensions, &c.—V. 118, p. 663.

Connecticut Valley Street Ry.—*Sale.*—The citizens of Greenfield and Montague, Mass., on May 24 voted in favor of the purchase of the street railway system between Turners Falls and Greenfield, Mass. The towns of Greenfield and Montague will take over the road about July 1.—V. 118, p. 1772.

Denver & Interurban RR.—*Report.*—See Colorado & Southern Ry. under "Financial Reports" above.—V. 113, p. 292.

Denver & Rio Grande Western RR.—*To Pay Interest.*—U. S. District Judge Symes at Denver has authorized receiver Thomas H. Beacon to pay $208,375 interest due June 1 on the Denver & Rio Grande RR. Impt. Mtge. 5% bonds. This will take care of all interest payments up to July 1, when $1,129,895 interest will be due on Denver & Rio Grande 1st Mtge. Consol. 4s and the Rio Grande Western 1st Mtge. 4s.—V. 118, p. 1905.

Des Moines City Ry.—*Increases Wages.*—An increase of 5 cents an hour was granted the employees by a board of arbitration. This increases the maximum hourly wage to 59 cents, retroactive to March 1.—V. 118, p. 201.

Dry Dock, East Broadway & Battery RR.—*Abandoned.*—The stockholders will vote June 4 on abandoning the portion of the route of the company on First Ave. between 14th St. and 34th St., New York City. This road is included in the Third Ave. Ry. System.—V. 107, p. 1192.

Eastern Wisconsin Electric Co.—*Stock Increased.*—The company, it is understood, has increased its authorized capital stock rom $7,000,000 ($2,000,000 Common and $5,000,000 Preferred) to $15,000,000, to consist of $7,500,000 Common and $7,500,000 Preferred stock.—V. 118, p. 2041.

Elgin, Joliet & Eastern Ry.—*Report.*—

Calendar Years—	1923.	1922.	1921.
Total operating revenue	$27,539,297	$21,483,415	$19,334,942

Equip. and joint facility rents (deb.)	2,330,527	1,478,736	1,418,387
Net operating income	$5,410,338	$5,152,091	$3,370,349
Non-operating income	372,464	322,722	1,470,297
Gross income	$5,782,802	$5,474,813	$4,840,646
Interest, rents, &c	3,190,626	3,808,961	3,579,869
Net income	$2,592,176	$1,665,852	$1,260,777

—V. 117, p. 670.

Federal Light & Traction Co.—*Listing—Earnings.*—The New York Stock Exchange has authorized the listing of $3,734,100 6% Cum. Pref. stock, par $100 (auth. $5,500,000), and 57,326 shares of Common stock without par value (auth. 85,000 shares), with authority to add $43,000 Pref. stock on official notice of issuance as stock dividends; with further authority to add not exceeding 20,174 shares of Common stock upon the conversion of the requisite amount of 30-Year Convertible Debenture gold bonds, Series "A," 7%.

The company reports for the 2 months ended Feb. 29 1924, gross earnings of $1,042,584; operating expenses (not incl. Federal income taxes), $587,089; Federal income and profits taxes (est.), $20,000; net earnings from operation, $435,494.—V. 118, p. 2303, 1392.

Fort Wayne & Northwestern Ry.—*Sale.*—The property of the company was sold at approximately $20,000 for each mile of track to the Indiana Service Corp. About $1,850,000 of the Fort Wayne company's stock is outstanding, together with $359,000 in 5% bonds.

The company operates an interurban line from Kendallville, Ind., to Fort Wayne and Waterloo, Ind., and furnishes light and power to towns and cities along the line.

The Indiana Service Corp., it is said, proposes to issue $859,000 bonds in connection with the above acquisition.—V. 118, p. 311.

Fort Worth & Denver City Ry.—*Report.*—See Colorado & Southern Ry. under "Financial Reports" above.—V. 115, p. 436.

Forty-second Street, Manhattan & St. Nicholas Avenue Ry.—*Abandonment.*—The stockholders will vote June 4 on abandoning the portion of the route of the company on First Ave., between 34th St. and 42d St., in N. Y. City. The company is included in the Third Ave. Ry. System.—V. 107, p. 1192.

Georgia RR. & Banking Co.—*Dividend Decreased.*—The directors have declared a quarterly dividend of 2½% payable July 15 to holders of record July 1. This reduces the annual dividend rate from 12 to 10%. For official statement to stockholders see V. 118, p. 2572.

Great Northern Ry.—*Equipment Issue.*—The company has asked the I.-S. C. Commission for authority to issue and assume liability and obligation in respect of $4,400,000 5% Equip. Trust Certificates to be sold at not less than 97% and dividends, proceeds to be used for rebuilding 3,000 refrigerator cars and for purchase of other additions of equipment.—V. 118, p. 2572, 2431.

High Point Thomasville & Denton RR.—*Acquisition.*—The I.-S. C. Commission on May 20 issued a certificate authorizing the company to acquire and operate a line of railroad extending from a connection with the Winston-Salem Southbound RR. at High Rock in a northeasterly direction to a connection with Southern Ry. at High Point;

a distance of about 36 miles, all in Guilford, Randolph and Davidson counties, No. Caro.

The railroad to be acquired was formerly owned by the Carolina & Yadkin River Ry. and was operated in inter-State commerce by a receiver. The line was bought at a receiver's sale by organizers of the new company. The agreed consideration to be paid therefor is $125,000, of which $50,000 has been paid. About $110,000 has been expended in repairing the railroad and purchasing equipment. The new company was incorporated in North Carolina on July 28 1923, with authority to acquire and operate the railroad in question. It proposes to finance the cost of acquisition and the rehabilitation of the railroad by the issue of $250,000 capital stock, by borrowing temporarily $125,000, and later making a deed of trust to secure a loan of $170,000, out of which the loan of $125,000 is to be paid, and by borrowing $30,000 additional on the applicant's note. The proceeds of these loans are to be used to pay the balance of the purchase price.

The tentative valuation of the properties to be acquired as of June 30 1915 was $766,538.

Illinois Central RR.—*Proposed Improvements.*—

President C. H. Markham says in substance: Including the $14,729,500 expended in the first four months this year, the company will spend approximately $32,000,000 in improvements during 1924. Completion of some of the projects and the receipt of some of the equipment authorized last year have been extended into the current year. In addition, we have started some new improvement work. The last of the equipment ordered last year has recently been received and no additional orders have been placed. Among the more important improvements started this year are the enlargement of terminal facilities at East St. Louis, construction of 40-miles of second main track in the St. Louis district, track elevation through the City of Jackson, Miss.; improved mechanical facilities at Dubuque, Iowa, and the construction of new freight and passenger facilities at Baton Rouge, La.—V. 118, p. 2572, 1902.

New Orleans Texas & Mexico Ry.—*Bonds Sold.*—

Blair & Co., Inc., and W. A. Harriman & Co., Inc., have sold at 99 and int., to yield 5.57%, $7,734,000 1st Mtge. 30-Year 5½% Gold bonds, Series "A."

Dated April 1 1924. Due April 1 1954. Int. payable A. & O. without deduction for any Federal income tax up to 2% per annum which the company or the trustee may be required to withold. Pennsylvania four-mills tax refunded. Red., all or part, on any int. date on or before April 1 1944 at 105 and int., the premium decreasing ½% for each year elapsed thereafter until maturity. Denom. $1,000, $500 and $100c*.

Data from Letter of Pres. J. S. Pyeatt, Houston, Tex., May 27.

Security.—Secured by direct first mortgage or by first lien through deposit of collateral (first mortgage bonds) on about 981 miles of railroad. Including $13,500,000 5% Income bonds, the total funded debt to be presently outstanding in the hands of the public, exclusive of equipment notes, will be at the rate of $21,700 per mile of road owned. $13,500,000 1st Mtge. bonds are to be reserved to exchange or refund at any time an equal face amount of Income bonds due Oct. 1 1935 (see below).

The 1st Mtge. bonds will also be secured by a first lien on equipment having a book value of $7,606,700, subject as to part thereof as of May 1, 1924 to $2,578,903 Equip. Trust notes including interest to maturity.

Purpose.—Proceeds of $7,734,000 1st Mtge. 5½% bonds are to be deposited, so far as necessary, with the trustee under the old first mortgage of the company, to provide for $5,733,000 1st Mtge. 6s due Oct. 1 1925, and to obtain the release of the first mortgage; the balance of such proceeds are to be applied to reimburse in part the cost of acquisition of the securities of Houston & Brazos Valley Ry.

Earnings.—For the seven years 1917 to 1923 incl., gross corporate income (incl. subsidiaries) before deducting interest on funded debt averaged $2,322,083 per annum, equivalent to over twice the annual average interest charges on funded debt including interest on outstanding Income bonds. For 1923 gross income before deducting interest on funded debt amounted to $3,406,456, or almost three times total interest charges on funded debt. Upon completion of present financing, maximum annual interest on funded debt, including income bonds and equipment notes, will be approximately $1,200,000.

For the three months ended March 31 1924 gross operating revenue increased 25% and gross income available for interest increased 42% over the corresponding period in the previous year.

Property.—Company controls and operates a railway system of about 1,174 miles, including direct operating connections under contract, known as the "Gulf Coast Lines," extending from New Orleans via Baton Rouge and Houston to Brownsville, Texas, where direct connection is made with the National Rys. of Mexico. It is practically a water-level line and is the shortest rail route from New Orleans to the Mexican border. The system serves a rich agricultural, mineral and lumber territory in the States of Louisiana and Texas and handles a well-diversified freight traffic which furnishes about 76% of gross operating revenue.

Capitalization after this Financing—	*Authorized.*	*Outstanding.*
1st Mtge. bonds, Ser. A, 5½% (present issue)	$50,000,000	x$7,734,000
Income bonds, 5% non-cumul., due Oct. 1 1935	25,000,000	y13,500,000
Capital stock	15,000,000	15,000,000
Equipment Trust notes	------	2,578,903

x In addition not exceeding $1,014,000 1st Mtge. bonds will be pledged to secure Equip. notes in lieu of pledged 1st Mtge. 6% bonds due 1925. y An equal face amount of 1st Mtge. bonds is reserved to exchange or refund at any time the outstanding Income bonds. The Income bonds are not secured by mortgage lien but the indenture under which they were issued provides that so long as they remain outstanding, the company will not create any mortgage indebtedness in excess of $15,000,000 secured upon properties subject to the lien of its first mortgage dated March 1 1916 unless effective provision be made in the mortgage securing such excess that all the Income bonds then outstanding shall be secured under such mortgage on a parity with any bonds issued thereunder. The new mortgage will provide that no additional Income bonds may be issued.

Bonds Authorized by the Inter-State Commerce Commission.—

The I.-S. C. Commission on May 23 authorized the company to issue $8,748,000 1st Mtge. 5½% bonds, Series "A," and $13,500,000 1st Mtge. 5% bonds, Series "B"; $7,734,000 of the Series "A" bonds to be sold at not less than 94½ and int. and $1,014,000 of Series "A" bonds to be exchanged for and pledged in lieu of certain old 1st Mtge. bonds; said Series "B" bonds to be exchanged, par for par, for a like amount of 5% Non-Cumulative Income bonds.

The report of the Commission says in part:

There are issued and outstanding, under the 1st Mtge. dated March 1 1916, $5,733,000 1st Mtge. 6s; $948,500 are pledged in connection with a loan for the procurement of equipment and $260,000 are held by the applicant, making a total of $6,941,500 1st Mtge. 6s. This issue of bonds will mature Oct. 1 1925. There are also outstanding in the hands of the public $13,500,000 5% Non-Cumulative Income bonds dated March 1 1916, which bonds will mature Oct. 1 1935.

The applicant proposes to make a new first mortgage to the Irving Bank-Columbia Trust Co. under date of April 1 1924, which will authorize a total issue of $50,000,000 of new bonds, with the further limitation not to exceed at any one time three times the then outstanding capital stock. Under the mortgage, bonds may be issued in series bearing such dates, rates of interest, &c., as may be determined by the directors. Pursuant to such provision, Series "A" bonds have been created. They will be dated April 1 1924 and will bear int. at the rate of 5½% per annum, payable semi-annually, and will mature April 1 1954. At the applicant's option, this series will be red., all or part, on any int. date on or before April 1 1944, at 105 and int., the premium decreasing ½% for each year thereafter. There have also been created Series "B" bonds having like date and maturity as the Series "A" bonds. They will bear int. at the rate of 5% per annum and be redeemable, all or part, on any int. date at par and int.

The applicant proposes to issue $8,748,000 of new First Mtge. 5½% bonds, Series "A," for the following purposes:

To be pledged in lieu of $948,500 of old bonds	$1,014,000
To be sold to retire $5,733,000 of old bonds, with interest to maturity, now held by the public	6,734,000
To provide part of the purchase price for the securities of Houston & Brazos Valley Ry	1,000,000

The applicant will exchange $1,014,000 of new bonds with the pledgees of the $948,500 of old bonds and proposes to sell the remaining $7,734,000 of Series "A" bonds. It is represented that no contract has yet been made for their sale, but they will be sold at not less than 94½ and int. On that basis the annual cost to the applicant will be approximately 5¾%.

So much of the proceeds of the Series "A" bonds as may be necessary to pay off the old bonds in the hands of the public will be deposited with the trustee of the old first mortgage. It is expected to offer to the holders of the old bonds the right to receive payment prior to maturity and also to purchase some of these bonds at their market price. It is not contemplated, however, to exercise the right of redeeming the old bonds at the redemption rate of 105 and interest.

The indenture of March 1 1916, under which the Income bonds were issued, provides that so long as any of the Income bonds are outstanding the applicant will not create any mortgage indebtedness in excess of $15,000,000 at any one time outstanding unless the old income bonds then outstanding and unpaid be secured under such mortgage or deed of trust on a parity with the other bonds secured thereby. The proposed first mortgage will secure the outstanding Income bonds, but the interest thereon is to be payable as expressed in the indenture under which issued and as stated in the face of the bonds.

The interest on the Income bonds is non-cumulative, but the applicant has earned and paid the interest thereon for a number of years past. It therefore seems that these bonds may be considered as being upon an estab

lished interest-paying basis, and that the exchange for bonds carrying a fixed demand for interest will not increase the applicant's interest payments. The applicant wishes to simplify its financial structure and therefore proposes to issue, from time to time, not exceeding $13,500,000 of new 1st Mtge. 5% bonds, Series "B," to be exchanged at par for a like amount of Income bonds. When the proposed financing has been completed, all the applicant's funded debt will be represented by the new 1st Mtge. bonds maturing April 1 1954, $8,748,000 thereof bearing interest at 5½% per annum instead of 6%, the rate now borne by the old 1st Mtge. bonds, and the remainder bearing the same rate of interest as the existing Income bonds.—V. 118, p. 2565, 2573.

New York Central RR.—*Venner Brings Suit to Prevent Sale of Equipment Trust Certificates.*—

The syndicate headed by J. P. Morgan & Co., which last week sold $25,050,000 New York Central Lines Equip. Trust certificates, the initial instalment of a $45,630,000 issue, have been served with a notice by C. H. Venner, calling attention to a suit he has filed in the U. S. District Court at Cleveland to prevent the "Big Four" railroad from entering into a joint equipment trust agreement.

A letter containing a part of the complaint was sent to each of the members of the syndicate, which included J. P. Morgan & Co., the First National Bank, the National City Co., the Guaranty Co. and Harris, Forbes & Co. It was signed by the New York Central Securities Corp. of which Mr. Venner is Vice-President, and read:

"You are put upon notice that any action which you jointly or severally may take in respect of said equipment trust agreement and lease, and the issue or sale of said equipment trust certificates, will be taken at your peril."

Portions of the complaint are cited, alleging "illegal domination and control of the "Big Four" railroad by the New York Central in violation of Federal anti-Trust Acts."

The complaint, according to Mr. Venner, alleges that through its unlawful control of the "Big Four," the New York Central had caused that railroad to enter into a joint equipment trust agreement with the New York Central, the Michigan Central and the Cincinnati Northern Co., under which the "Big Four" with the others guarantees payment of $45,630,000 Equip. Trust certificates to provide equipment for the four railroads. As the "Big Four" is to receive but 26 2-3% of the whole equipment, the New York Central Securities Corp. maintains that the "Big Four" should be held responsible for only about $12,068,000.

The Cleveland "Plain Dealer" of May 24 says regarding the suit: The suit, which charges that the New York Central control of "Big Four" stock and directorate violates the anti-trust laws, asks an injunction against the agreement to issue the certificates on the ground that the "Big Four" will get only $12,000,000 worth of rolling stock and will be forced to pay $33,462,000.

The plaintiff is the New York Central Securities Corp. of Dover, Del., Clarence H. Venner, Pres., which sets forth that it is the holder of preferred stock and asserts that the suit is brought in the name of any other minority stockholders who wish to join it.

The New York Central Securities Corp. petition charges:

That the New York Central and "Big Four" lines are in large part parallel and naturally competing and that freight and other traffic is being diverted wherever possible to the New York Central, to the detriment of minority stockholders of the "Big Four."

That a settled policy of the New York Central and of the "Big Four" because of an interlocking directorate is that "we are not after dollars from the "Big Four," but after tons of freight for the New York Central."

That the Sherman and State anti-trust laws are being violated by the control.

The suit asks dissolution of New York Central control of the "Big Four;" appointment of a receiver to handle the business while the stock held by the New York Central is being disposed of to persons unconnected with the N. Y. C.; a restraining order against continuance of control and voting of "Big Four" stock by the New York Central, and a restraining order against issuance of the joint equipment certificates.—V. 118, p. 2179, 1911.

New York Railways.—*Sale of Property.*—

As a step in the reorganization of the company, the property of the company and its subsidiaries is advertised for sale at the New York County Court House on July 7. The sale will be conducted by Nathaniel A. Elsberg, Special Master.

Among the parcels to be sold are the franchises and railroads of the South Ferry RR., the Lexington Avenue & Pavonia Ferry RR., the Central Crosstown Ry., the Chambers & Grand Street Ferry RR., the Metropolitan Crosstown Ry., the Metropolitan Street Ry. and the Columbus & Ninth Avenue Ry. In addition there are a number of parcels of real estate, including those at Lexington Avenue and 99th Street, the Lexington Building at 25th Street and 3rd Avenue, 53rd Street and 10th Avenue, 53rd Street and 9th Avenue and Lenox Avenue and 146th Street. (For further information regarding sale see advertisement in New York "Times" May 26, p. 30-31). See plan in V. 118, p. 2438.

Norfolk & Western Ry.—*Definitive Equip. Trusts Ready.*

The National Bank of Commerce of New York is prepared to deliver definitive 4½% Equipment Trust gold certificates, Series of 1924, in exchange for temporary receipts. (For offering see V. 118, p. 1268.)—V. 118, p. 2439.

Northern Pacific Ry.—*Land Grant Inquiry Order.*—

Congressional investigation of land grants to the company was authorized in a House resolution adopted May 21 by the Senate. The inquiry was recommended by Secretaries Work and Wallace, who asked also that there be a provision to hold up final adjustments of the grants until after the investigation had been concluded. Under the resolution as it was adopted by the House, adjustment would be withheld until March 4 1927, but after hearing officials of the railroad company the Senate fixed the date at March 4 1925.—V. 118, p. 1912, 1774, 1764.

Paris-Lyons-Mediterranean RR.—*Earnings.*—

Revenues for 1923 amounted to francs 1,955,969,794, as compared with francs 1,806,047,139 in 1922, an increase of about 8.3%, according to information received by the Foreign Department of Moody's Investors Service. Operating expenses for 1923, amounting to francs 1,672,551,064, compare with 1,598,605,983 in 1922, an increase of 4.4% [Not a decrease as previously reported.]. The operating ratio for 1923 was 85.51% against 88.51% for 1922, 103.69% for 1921 and 115.84% for 1920. After deduction of debt service and other charges, there was a deficit for the past year of francs 187,609,800, as compared with about 244,000,000 in 1922, a reduction of over 23%. The deficit in 1921 aggregated about francs 406,000,000.—V. 118, p. 2573.

Pennsylvania RR.—*Number of Stockholders.*—

The number of stockholders on May 1 1924 totaled 145,277, an increase of 6,165 compared with May 1 1923. The average holdings on May 1 1924 were 68.73 shares, a decrease of 3.05. The foreign holdings were 3.78, an increase of 0.11% over a year ago.—V. 118, p. 2180, 2042.

Pere Marquette Ry.—*Executive Committee Increased.*—

Guy W. Currier of Boston, a director, has been elected a member of the executive committee, increasing that body from 8 to 9 members.—V. 118, p. 2432.

Public Service Corp. of N. J.—*Merger of Electric and Gas Subsidiaries Approved—Exchange of Bonds, &c.*—The holders of the securities of the corporation are notified that the New Jersey P. U. Commission has approved the agreement for the merger of Public Service Electric Co., Public Service Gas Co. and United Electric Co. of N. J. as the first step in the comprehensive plan of readjustment of certain securities of Public Service Corp. and of its controlled companies announced on March 13 1924. The entire plan of readjustment was presented to the Board of Commissioners as the basis for the merger agreement thus approved by it.

The purpose of the plan, as stated in the first announcement (V. 118, p. 1268) is to enable the system to meet the requirements of service to the public, to strengthen and improve the position of the holders of its securities, and to provide an adequate means of procuring new capital for necessary extension and development.

The terms of the plan as originally announced have been supplemented by making provision for a sinking fund for the purchase and eventual retirement of the Perpetual Interest-Bearing Certificates and the pledge of a 7% instead of a 6% Preferred stock of the Public Service Electric & Gas Co. as collateral therefor.

The plan, briefly stated by Pres. Thos. N. McCarter, provides:

Consolidation of Electric and Gas Companies.—The consolidation of Public Service Electric Co., Public Service Gas Co., United Electric Co. of N. J., and several smaller companies, practically all of whose stocks are now owned by Public Service Corp., into a new company to be known as *Public Service Electric & Gas Co.*, all of whose Common stock will be owned by Public Service Corp.

Provision for Perpetual Interest-Bearing Certificates.—The exchange of $19,736,800 Common stock (limited to 5% dividends) of United Electric Co., now held by the trustee as part security for the Public Service Perpetual Interest-Bearing certificates, for $19,736,800 7% Pref. stock of Public Service Electric & Gas Co., as authorized in the mortgage and agreement of pledge securing the Perpetual Interest-Bearing certificates. Additional amounts of Preferred stock may be issued from time to time for proper corporate purposes. Public Service Corp. will agree to pay to the trustee for the Perpetual Interest-Bearing certificates the sum of $197,368 annually as a sinking fund to be applied to the purchase of the certificates at not more than 110%, the certificates so purchased to be held alive for the benefit of the sinking fund and interest thereon added to the amount of the fund pending their eventual retirement when all have been acquired. If certificates cannot be purchased at or below 110, the unexpended balance in the sinking fund can be returned to the corporation.

Exchange of General Mortgage 5% Bonds for New 5½% Bonds.—An offer to the holders to exchange the $31,859,000 General Mortgage 5% bonds of Public Service Corp. outstanding in the hands of the public for $31,859,000 1st & Ref. Mtge. bonds, 5½% Series due 1959, to be issued under a mortgage to be made by Public Service Electric & Gas Co., which will have a direct lien on the company's owned property and leasehold estates, and will be in modern form, with appropriate refunding provisions and with conservative restrictions covering the issuance of bonds for acquisitions, additions and betterments.

A sinking fund payment at the rate of $300,000 a year (payable $150,000 J. & J.), beginning Jan. 1 1925, will be provided for the acquisition by purchase or call of bonds of the 5½% Series due 1959, at or below the call price, bonds so purchased to be held alive for the benefit of the sinking fund only, and their interest added to the amount of the fund. This sinking fund should retire over $28,300,000 of the $31,859,000 bonds by maturity.

Redemption of 20-Year Secured 7% Bonds.—The redemption of the outstanding $9,598,000 20-Year 7% Secured Gold bonds of Public Service Corp., due Dec. 1 1941, in order that the $14,000,000 Gen. Mtge. 5% bonds of Public Service Corp. pledged as security therefor may be released and canceled. Funds for this redemption to be provided by Public Service Corp.

Further Consolidations.—An offer to the stockholders of certain others of the leased gas and electric companies of the opportunity to exchange their stocks for other securities, so that eventually these companies also may be consolidated with Public Service Electric & Gas Co. The holders of a large amount of these stocks have already expressed their desire to make this exchange. These consolidations are not an essential part of the plan, however, as the leases in question extend in practically all cases for terms of approximately 900 years.

Exchange of Gen. Mtge. 5s—Deposits Asked.—J. P. Morgan & Co., New York, and Drexel & Co., Phila., in a notice to holders of the $31,859,000 Gen. Mtge. 5% Sinking Fund Gold bonds request the holders thereof to deposit same for exchange into $31,859,000 1st & Ref. Mtge. bonds, 5½% series due 1959 of the Public Service Electric & Gas Co. No expense of any kind is chargeable to depositors.

The bankers recommend to the holders of the General Mortgage 5% bonds that they make this exchange, because in their opinion the security of their bonds will be greatly improved, in addition to which they will receive an increase of ½ of 1% in annual income. This plan, the bankers state, was initiated by them and has been developed under their supervision.

The consummation of the plan is entirely dependent upon acceptance of the exchange offer by the General Mortgage bondholders with substantial unanimity. The holders of large amounts of these bonds have already expressed their desire to make the exchange. As time is an essential consideration, it has been found necessary to require oondholders to express their decision before the close of business on July 1 1924, and to that end General Mortgage bondholders who desire to make the exchange should deposit their bonds at either of the offices of J. P. Morgan & Co., New York, or Drexel & Co., Phila., prior to that date.

Data from Letter of Pres. Thos. N. McCarter, Newark, N. J., May 27.

Public Service Electric & Gas Co.—Will own or control substantially all of the properties now constituting the electric and gas systems of the Public Service Corp. of N. J. It will be one of the largest companies of its kind in the world, serving with electricity and gas a rapidly growing population in New Jersey estimated at over 2,600,000, or over 80% of the population of the State. The territory served includes the larger cities and more populous sections of the State.

The company's *electric system* will include 14 generating stations with an aggregated rated capacity of over 480,000 h. p., 1,029 miles of transmission lines and 24,866 miles of distribution wire serving over 426,000 electric customers. Its *gas system* will include 10 generating plants with an aggregate capacity of 77,700,000 cubic feet daily and 3,467 mailes of mains serving over 609,000 gas customers.

Valuation.—The property of the company and its leased companies (not including any of that leased from the Public Service Electric Power Co. or the electrical property leased from Public Service Ry.) is valued by Day & Zimmermann, Inc., engineers, as of Jan. 1 1924 at over $245,000,000. Against this valuation the total funded indebtedness of the company, including these bonds, plus such leased companies' stocks and bonds (closed issues) on which rentals must be paid to the public, aggregate $134,128,684, or less than 55% of the above valuation.

Capitalization of Public Service Electric & Gas Co. upon Completion of Plan.

Common stock, no par value (all owned by Pub. Serv. Corp.)	x$64,250,000
7% Preferred stock (par $100)	y20,000,000
1st & Ref. Mtge. Gold bonds, 5½% Series due 1959 (to be issued in exchange for an equal principal amount of General Mortgage 5% bonds of Public Service Corp.)	31,859,000
Divisional underlying bonds (closed) (of which $17,934,500 bear interest at 4%)	19,331,500
Other miscellaneous obligations	2,387,325

x 6,425,000 shares representing a cash investment at the rate of $10 per share, issued for the stock of Public Service Electric Co. and Public Service Gas Co. Additional Common stock will be issued for the stock of the several smaller companies to be merged, whose stock is now owned by Public Service Corp. of New Jersey.

y $19,736,800 to be deposited with trustee as security for Perpetual Interest-Bearing certificates.

First & Refunding Mortgage Gold Bonds.—Will be secured by lien upon all the mortgageable property of the company now owned or hereafter acquired: (*a*) By first mortgage on a modern steam generating station near Newark with 250,000 h. p. installed capacity, and on other property, all valued by Day & Zimmermann at over $40,000,000, and by pledge with the trustee of underlying bonds and stocks with a value of over $6,000,000 and of bonds of affiliated companies with a value of over $5,000,000, based on present market quotations. Total of these values is over $51,000,000 for the property on which these $31,859,000 bonds will be secured by first lien.

(*b*) By direct mortgage, subject to $21,718,825 underlying liens (closed issues) held by the public, on electric property of the company serving without competition 65 municipalities with a total population of over 1,400,000, including Newark, Jersey City, Elizabeth and Hoboken, and on certain gas property, all valued by Day & Zimmermann at over $48,000,000.

(*c*) By mortgage on leasehold estates in electric and gas companies serving without competition 189 municipalities, including the gas companies

serving Newark, Jersey City and Hoboken, and the electric and gas companies serving Paterson, Trenton, Camden, Passaic and New Brunswick, all valued by Day & Zimmermann at over $152,000,000.

These leased companies have outstanding in the hands of the public stocks and bonds (closed issues) aggregating $80,550,859, or less than 53% of the above valuation, leaving a balance of over $60,000,000 to indicate the value of the company's equity in these leasehold estates.

(d) By mortgage on other valuable leasehold estates, including the lease of the Public Service Electric Power Co. and the lease of certain electrical property of Public Service Ry. The leasehold estates extend in practically all cases approximately 900 years.

Sinking Fund.—A sinking fund of $300,000 a year will be provided for the bonds of the 5½% Series due 1959, to be paid to the trustee semi-annually and to be applied to the acquisition of bonds of this series by purchase or call, the bonds so acquired to be held alive in the sinking fund and the interest added to the amount of the fund. By operation of this sinking fund over $28,000,000 of the $31,859,000 5½% bonds of the series due 1959 should be retired by maturity.

Earnings of the Company, if This Reorganization Had Been in Effect.

	1922.	1923.
Gross revenue	$51,338,775	$56,513,089
Operating expenses, taxes and amortization	36,385,847	39,306,384
Net earnings	$14,952,928	$17,206,705
Rentals of leased companies, &c., charges		$4,822,551
Annual int. on Pub. Serv. El. & Gas Co. bonded debt, incl. $31,859,000 1st & Ref. Mtge. 5½s		2,615,085
Balance		$9,769,069

Of the net operating revenue approximately 59% is derived from the electric business and 41% from the gas business.

Terms of Series Due 1959.—Interest on the bonds of the 5½% Series due 1959 will be payable A. & O. 1 at office of Fidelity Union Trust Co., Newark, N. J., trustee, or J. P. Morgan & Co., New York, or Drexel & Co., Philadelphia. Red. all or part, and for the sinking fund, at 105 and int. on any int. date on not less than 8 weeks' notice. Denom.: c* $1,000 and $500, and r* $1,000 and authorized multiples. Company will agree to pay interest without deduction for Federal income taxes not exceeding 2% per annum, and to refund Penn. 4-mills tax, Conn. 4-mills tax, Maryland securities tax not exceeding 4½ mills per annum, and the Mass. income tax not exceeding 6% per ann. on income derived from the bonds.

Listing.—Application will be made to list these bonds on the New York Stock Exchange.—V. 118, p. 2180, 2043.

Public Service Ry. (N. J.).—*Sale of Terminal—Rates.*—

The New Jersey P. U. Commission has approved the sale of the Public Service Terminal in Newark to the Public Service Corp. on the application of the Public Service Ry. The purchase price, it is said, was $7,500,000, of which $2,500,000 was cash, the balance, $5,000,000, being covered by a mortgage.

Judge Rellstab on May 17 filed with the Clerk of the U. S. District Court a memorandum handing down a final decree in the injunction proceedings of the Public Service Ry. Co. against the New Jersey P. U. Commission, declaring confiscatory and illegal the valuations placed by the Commission on the railway company's properties, and that the rate orders based on those valuations are correspondingly illegal. The decree enjoins the Commission from fixing the railway company's passenger rates, pending an experiment now being made on the company's lines of the zoning system of fares.

Judge Rellstab's final decree upholds a previous decision of the Federal District Court declaring that the Commission's valuation of the company's property was far below the true values. As a result of the decree the present rate of passenger fares will continue in effect.

Under the modified decision of the Federal Court, as returned by Judge Rellstab last September, the company received authorization to charge a 5-cent fare within the city limits of larger cities of the State, and a 10-cent fare, without transfers, for rides beyond the limits of the cities. This arrangement was definitely established May 17 with the filing of Judge Rellstab's final decree.

The injunction proceedings against the Commission were based on the contention of the company that a fare of 7 cents, with 2 cents for a transfer, ordered by the Commission, was confiscatory and should be set aside.

The 5-cent city limit fare prevails in Newark, New Brunswick, Elizabeth and Camden, N. J.—V. 118, p. 2439.

Public Service Transportation Co.—*Stock Authorized.*—

The New Jersey P. U. Commission has approved the issuance of 500,000 shares of the capital stock of the company. The stock will be of no par value and will be sold for $10 a share, giving the company approximately $5,000,000 of capital for development of its jitney business. The company is a subsidiary of the Public Service Corporation.

Puget Sound Power & Light Co.—*Seizure Enjoined.*—

A Seattle dispatch states that the attention of the Pacific Northwest financial and business circles is centred on the efforts of Seattle and King County officials to compel the Puget Sound Power & Light Co., a Stone & Webster corporation, to pay the State, county, school and city taxes levied in 1919 on the street railway system of Seattle, which the company sold to the city on April 1 of that year. On May 23 the Sheriff seized approximately $2,000,000 worth of company's property and posted notice of sale at auction on June 10. The company, however, promptly obtained an injunction forbidding the municipality from touching the property in any way until the case has been decided by the courts.—V. 118, p. 2043, 1774.

Quebec Ry., Light, Heat & Power Co., Ltd.—*Interest.*

The coupons representing interest on the Quebec-Jacques Cartier Electric Co. 1st Ref. Mtge. 5% 30-Year gold bonds for the half-year ending June 1 1924 (at the rate of 5% per annum) will be paid upon presentation to the Bank of the Manhattan Co., 40 Wall St., N. Y. City.—V. 118, p. 1666, 204.

San Diego Electric Ry.—*Balance Sheet Dec.* 31 1923.—

Assets—		*Liabilities*—	
Road & equipment	$5,375,063	Capital stock	$1,350,000

—V. 117, p. 2771.

San Joaquin Light & Power Co.—*Bonds Sold.*—Peirce, Fair & Co., Blyth, Witter & Co., E. H. Rollins & Sons and Banks, Huntley & Co. have sold at 99½ and int., yielding over 6%, $1,500,000 Unifying & Ref. Mtge. 6% Gold bonds, Series "C."

Dated May 1 1924. Due May 1 1954. Interest payable M. & N. at Equitable Trust Co., New York, trustee, Wells Fargo Bank & Union Trust Co. of San Francisco, and the Union Bank & Trust Co. of Los Angeles, without deduction for Federal normal income tax not exceeding 2%. Denom. $500 and $1,000. Callable all or part at 105 and int. on any int. date upon 30 days' notice to May 1 1934, and thereafter at a premium of ¼ of 1% for each year or unexpired fraction thereof. Tax-exempt in California. All outstanding bonds of the corporation have been certified as legal investments for savings banks in California and application has been made to have this issue so certified.

Company.—Incorp. in California in July 1910 as a consolidation of several public service companies which had been in successful operation in various sections of the San Joaquin Valley from as early as 1896. Corporation conducts, without competition, a general lighting and power business in its territory extending into 7 counties in central California, approximately 200 miles in length by 80 miles in breadth. Included in the territory are some of the foremost inland cities and towns of California. In the last three years corporation has increased its generating capacity to the extent of 117,000 h. p.; it has added 22,462 consumers, and it has increased its connected load by 114,828 h. p.

Earnings Years Ended December 31.

	Gross Revenues.	Available for Int. & Depreciation.	Total Interest Charges (Net).
1919	$3,292,963	$1,259,295	$745,784
1920	4,340,905	2,371,815	920,812
1921	5,595,112	3,242,870	1,612,175
1922	6,405,116	3,769,226	1,723,596
1923	6,898,353	4,082,107	1,689,046

The average annual net earnings available for interest and depreciation during the past ten years have been 2¼ times the average annual operating interest charges.

Security.—Bonds are a direct mortgage upon all the property of the corporation now owned or hereafter acquired.

The equity for these Unifying & Refunding Mortgage bonds, represented by junior securities of the corporation, exceeds $16,800,000, measured by market quotations.

Further issuance of bonds under the Unifying & Refunding Mortgage is limited to a par amount not exceeding 75% of the cost of plant extensions and when net earnings for 12 months out of the preceding 15 months shall have been not less than 1¾ times the total interest on all bonds of the corporation outstanding and those for which certification has been requested. —V. 118, p. 2180, 2043.

St. Louis-San Francisco Ry.—*Lease Approved.*—

The stockholders have approved the leasing of the Kansas City Clinton & Springfield Ry., which extends from Springfield to Kansas City, Mo. —V. 118, p. 2430, 2306.

St. Louis Southwestern Ry.—*Equip. Tr. Ctys. Ready.*—

The National Bank of Commerce of New York is prepared to deliver permanent Equipment Trust 5½% gold certificates, dated March 1 1924, in exchange for temporary certificates. (For offering see V. 118, p. 1136.) —V. 118, p. 2174.

St. Paul Union Depot Co.—*Bonds Sold.*—J. P. Morgan & Co., Kuhn, Loeb & Co., First National Bank, National City Co. and Dillon, Read & Co. have placed privately at 98½ and int. $2,500,000 1st & Ref. Mtge. 5% bonds, Series "A," due 1972.—V. 117, p. 2543.

Seashore Electric Ry.—*Merger.*—

See Atlantic Coast Electric Ry. above.—V. 118, p. 1013.

Springfield Street Ry.—*Earnings.*—

Calendar Years—	1923.	1922.	1921.	1920.	1919.
Net earnings	$289,074	$451,754	$264,766	$437,664	$246,281

—V. 118, p. 312.

Texas Electric Ry.—*Fare Increase Sought.*—

The company has petitioned the City Commission of Waco, Tex., for authority to increase the fare in Waco from 5 to 7 cents with 4 tickets for 25 cents. See also V. 118, p. 2043.

Texas & Pacific Ry.—*Officers.*—

The executive officers of the company are: William H. Williams, of New York, Chairman of the board; J. L. Lancaster, of Dallas, President; Finley J. Shepard, Kingdon Gould and O. B. Huntsman, all of New York, Vice-Presidents; J. B. Payne, of Dallas, Vice-President in charge of traffic; J. A. Somerville, of Dallas, Vice-President in charge of the operating department; C. W. Veitch, of New York, Secretary & Treasurer; T. J. Freeman, of New Orleans, general solicitor.—V. 118, p. 2439.

Tide Water Power Co.—*Earnings.*—

Three Months to March 31—	1924.	1923.	*Increase.*
Gross earnings	$494,930	$444,228	$50,702
Net earnings	247,574	220,906	26,668

In the Wilmington district a section of the railway track not now in use has been leased to the Atlantic Coast Line for a period of years at a monthly rental of $150. The city of Faison, served by the transmission line, has turned over its local distribution system to this company, granting a 20-year franchise, a 10-year street lighting contract and has ordered 22 additional street lights. A branch line has been extended from Warsaw to Kenansville, a distance of approximately 8 miles, and over 60 customers have already been added. The American Agricultural Chemical Co. has contracted for all the power to operate its Wilmington fertilizer mill with a connecting load in excess of 500 h.p.—V. 118, p. 2431.

Trinity & Brazos Valley Ry.—*Report.*—

See Colorado & Southern Ry. under "Financial Reports" above.—V. 114, p. 628.

United Gas & Electric Corporation.—*Dividend.*—

The directors have declared the regular quarterly dividend of 1¼% on the Preferred stock, payable July 1 to holders of record June 16.

Upon presentation and surrender of their respective shares of old 1st Pref. stock or scrip certificates issued for fractional shares of Preferred stock, after the close of business on June 16, there shall be paid the quarterly dividend upon the full shares of Preferred stock, issuable to them on such surrender and exchange, together with dividends thereon at the rate of 5% per annum for the period from July 20 1923 to April 1 1924.—V. 118, p. 2180.

United Light & Power Co. (& Subs.).—*Earnings.*—

12 *Months Ended March* 31—	1924.	1923.
Gross earnings (all sources)	$12,589,257	$12,152,961
Oper. exp. (incl. maint., gen. & income taxes)	$8,161,144	$8,212,192
Int. & Pref. div. charges, sub. companies	532,827	797,595
Security charges, United Light & Power Co	1,665,205	1,118,507
Class "A" Preferred dividends	619,407	606,947
Class "B" Preferred dividends	272,522	187,468
Surplus earnings available for depreciation, amortization and Common stock dividends	$1,338,153	$1,230,252

—V. 118, p. 2574.

United Rys. & Electric Co. of Balt.—*Fares Increased.*—

The Maryland P. S. Commission has authorized the company to increase ts cash fare from 7 to 8 cents, with two tickets for 15 cents. The order becomes effective June 1 and expires April 30 1925.—V. 118, p. 2181.

INDUSTRIAL AND MISCELLANEOUS.

The following brief items touch the most important developments in the industrial world during the past week, together with a summary of similar news published in full detail in last week's "Chronicle."

Steel and Iron Production, Prices, &c.

The review of market conditions by the trade journals formerly given under this heading appears to-day on a preceding page under "Indications of Business Activity."

Coal Productioh, Prices, &c.

The United States Geological Survey's report on coal production, together with the detailed statements by the "Coal Trade Journal" and the "Coal Age," regarding market conditions, heretofore appearing in this column, will be found to-day on a preceding page under the heading "Indications of Business Activity."

Oil Production, Prices, &c.

The statistics regarding gross crude oil production in the United States compiled by the American Petroleum Institute and formerly appearing under the above heading, will be found to-day on a preceding page.

Prices, Wages and Other Trade Matters.

Refined Sugar Prices.—May 24 Warner cut price to 7c., McCahan to 7c. (but list price remained at 7.40c.), Pennsylvania to 7c., American to 7c. On May 26 the following companies made further reductions to 6.80c.: American, Pennsylvania, Federal, National, Warner, Revere and McCahan, while Arbuckle's price was 6.85c. per lb. On May 28 Federal reduced price to 6.70c. in bulk bags and 6.75c. assorted.

Carpet Co. Reopens Plant.—According to estimate of the workers, about 40% of the 4,000 employees of the Bigelow-Hartford Carpet Co. at Thompsonville, Conn., returned to work May 26, following a shutdown of the entire plant, which began on May 17. Most of those who went to work were employed in the Brussels and Axminster departments. Officials declined to make any statement as to future plans. "Boston Financial News" May 28.

Carpet Manufacturers Reopen Plant under Old Wage Scale.—The tapestry department of the Sanford Carpet Mills at Amsterdam, N. Y., which closed last week after workers quit in protest against a wage cut, has reopened under the old wage conditions. "New York News Bureau Association" May 27.

Iron Workers' Strike Over.—Demands for $12 per day refused but "between 400 and 500 men are at work," declared R. B. Thomas, Executive Secretary of the "Iron League" of New York. "Times" May 24, p. 21.

Building Trades Council of Greater New York voted to support the iron workers' strike for $12 per day. Representative of the strikers says union "has won a sweeping victory" through independent settlement with 280 firms. Mr. Thomas, of the "Iron League," contradicts, saying only one or two firms have signed up with the union. "Times" May 28, p. 27.

Garment Strike Probable.—30,000 workers to walk out of 5,000 shops on June 1. The demands of the workers are these: A minimum wage of $50 or $55 a week, 40 hours of work each week and assurances of 40 weeks of work a year. Now they receive no stipulated weekly salary, work 44 hours a week and from 25 to 35 weeks a year. The manufacturers belonging to the Cloak, Suit and Skirt Mfrs.' Assn. refuse to grant demands and to arbitrate. Independent manufacturers hope to reach agreement. Both the manufacturers' association and the unions refuse to give ground; so both sides are reconciled to the probability of a strike when the present agreements expire on June 1. "The Sun" May 27, p. 21.

"*Panama Canal Record*" reports that in 1923 1,432 individual commercial vessels, representing 20 nationalities, passed through the canal. The number of transits per individual ship varied from 1 to 32, the 1,432 vessels making a total of 5,037 transits, or an average of 3.52 transits per vessel. Vessels of United States registry led both in number of individual ships and in the aggregate of transits, though not in frequency of transit of individual ships; while representing 37% of the individual vessels passing through the canal, they made up 57% of the total transits.

Largest year's commercial traffic: Vessels, 5,037, calendar year 1923; Panama Canal net tonnage, 24,737,437, calendar year 1923; tolls, $22,966,838 18, calendar year 1923; cargo, 25,160,545 tons, in the same year. The terms "commercial traffic" is used to include all vessels subject to the payment of tolls, exclusive of small craft under 20 tons; it excludes public vessels of the United States, Panama and Colombia, which are allowed free transit. The canal has been most severely tested when it has been necessary to lock through the Atlantic or Pacific Fleet of the U. S. Navy, the "Record" explains, and at the same time handle the current commercial business. The best records for combined traffic, including both commercial and Navy vessels, have been: Forty-three vessels in two days in Jan. 1921; 38 vessels in one day, on Feb. 15 1923, and 122 vessels in three days, Jan. 16-18 1924. "New York Times" May 25, Sec. 2, p. 151

Matters Covered in "Chronicle" May 24.—(a) Judge Gary on business conditions; conditions in Washington not satisfactory, p. 2498. (b) Falling off in employment revealed by National Industrial Conference Board's latest researches, p. 2499. (c) Slowing up of automobile production, p. 2500. (d) Size of retail business, p. 2506. (e) Clothing prices rise steadily; 14% higher than in 1922 and 76% above 10 years ago, p. 2506. (f) Mass selling the problem alike of agriculture and manufacture, p. 2507. (g) Cloak and suit manufacturers reject union demands for shorter hours and higher pay; strike in prospect for June 1, p. 2507. (h) High wages menace union coal fields; closing of Illinois and Indiana mines unavoidable unless workers accept reductions, p. 2508. (i) Mexican Government purchases 51 locomotives from Baldwin Locomotive Works; S. M. Vauclain obtains contract for 50 oil burners and 1 electric locomotive, p. 2516. (j) Members of Toronto banking and brokerage house of Aemilius Jarvis & Co., Ltd., placed under arrest for alleged conspiracy in connection with Ontario Government bond sale disclosures, p. 2517. (k) J. T. Goad & Co., Ltd., Toronto, purchase securities and records of Aemilius Jarvis & Co., p. 2517.

Abbotts Alderney Dairies, Inc.—*Listing.*—

The Philadelphia Stock Exchange has authorized the listing of $1,469,400 (auth. $5,000,000) 7% Participating Cumulative First Pref. stock (par $100)

Earnings for the Year Ended Dec. 31 1923.

Net sales, $10,215,371; cost of sales, $6,628,025; gross profit	$3,587,346
Delivery and selling expenses, $2,678,788; administrative and general expenses, $301,006	2,979,794
Net profit	$607,552
Miscellaneous charges (net)	22,127
Federal and State income taxes (estimated)	76,000
Net income	$509,425

Dividends on the First Pref. stock, now 7% Partic. Cumul. 1st Pref. stock, have been paid since the organization at the rate of 7% per annum.

Dividends on the 2d Pref. stock have been paid since the date of organization of the company at the rate of 7% per annum. A dividend of $3 per share on the Common stock was paid Dec. 16 1922 (at that time the issued Common stock was 10,000 shares of no par value). A dividend of $1 per share on the Common stock (which is now 50,000 shares without par value) was paid Dec. 13 1923.

Balance Sheet as at Dec. 31 1923.

Assets—		*Liabilities*—	
Cash	$549,133	Accounts payable	$511,209
Accounts and notes receivable, less reserve, &c	204,584	Federal and State taxes (est.)	76,000
Due from officers and empl'ees	10,984	Other accrued liabilities	42,649

Cash for red. of Pref. stock	2,144	Surplus	478,142
Plant & equip., less reserve	2,704,361		
Good-will	155,854	Total (each side)	$4,332,463

x Represented by 50,000 shares of no par value.—V. 118, p. 2181.

Amalgamated Sugar Co.—*Accum. Pref. Dividends.*—

The dividend of 5% declared last week on the Pref. stock is payable Aug. 1. This payment represents 3% in payment of all back dividends and the usual quarterly dividend of 2%. See also V. 118, p. 2575.

M. A. Browning has been elected a director to succeed the late Mathew S. Browning.—V. 118, p. 2575.

American Beet Sugar Co.—*Production—New Directors.*

President R. Walter Leigh says in substance: "Production during the 1921-1925 season will be about the same as last year when 742,580 bags of sugar were made. The company had far less rain than was expected in California which will result in a decrease from 80,000 to 100,000 bags due to decline of 5,000 acres of which 4,000 acres were killed by drought. Production of Rockyford and Grand Island will make up for the loss at Oxnard. About one-third of the carry-over of 318,000 bags of sugar has been sold and the remainder will be marketed gradually."

Eberhard L. Lueder, of New York, and Thomas H. Devine, of Pueblo, Colo., have been elected directors.—V. 118, p. 2440.

American Gas & Electric Co.—*Suit Dismissed.*—

An investigation of the books of the Middle West Gas & Electric Co. of Maine, asked for in a peremptory mandamus, was denied May 21 by Supreme Court Justice Ford. The mandamus was sought by Stanley L. Smith and Harrison McFaddin, who have started a stockholders' suit to stop the sale of the stock of Hardin-Wyandot Lighting Co. to the American Gas & Electric Co. Justice Ford decided that Elliott C. Smith, Sec. of the Middle West, has acceded to the demand for an inspection as far as he is required under the by-laws of the Maine corporation when he allowed them to see the "stock book, stock transfer ledger and all books representing transfers and present stock holdings," as sought for in the petition of the plaintiffs.

A copy of a contract attached to the papers shows the proposed sale contemplates the exchange of $350,000 Common stock of Hardin-Wyandot for $62,500 cash and $200,000 Preferred of the American and $63,000 Hardin-Wyandot Preferred for the same amount of American Preferred. —V. 118, p. 2307.

American Rolling Mill Co.—*Declares 50% Stock Dividend, Payable in Ten Annual Installments of 5% Each—Earnings.*—

The directors have declared a 50% stock dividend on the Common stock, payable in ten annual installments of 5% each. The dividend of 5% declared for the current year is payable July 15 to stockholders of record July 1.

The directors also declared a cash dividend of 50 cents a share on the Common stock, payable July 15 to holders of record June 30, and the regular quarterly dividend of 1¾% on the Preferred stock, payable July 1 to holders of record June 15. See also V. 118, p. 2440.

Results for Quarter Ended March 31 1924.

Oper. profit, $1,028,431; other income, $119,121; gross income,	$1,147,552
Interest, $148,947; Federal taxes, $111,238	260,185
Net income	$887,367
Dividends	607,000
Surplus	$280,367

—V. 118, p. 1777, 2440.

American Telephone & Telegraph Co.—*May Link Phones Here With England.*—A statement issued by the company says:

"Following a demonstration in Jan. 1923 made by the officials of the A. T. & T. Co. and the Radio Corp. of America, in co-operation, in which radio telephone speech was transmitted for two hours from New York to London, the British Post Office appointed a committee to investigate transatlantic telephony. This committee has recently recommended that the British Post Office establish a 200 k. w. radio telephone plant at their new radio station at Rugby, England. The committee recommends that this plant be of a type similar to that which has been used by the A. T. & T. Co. and the Radio Corp. in the experiments which they have been carrying on for the last 18 months in transmitting speech across the Atlantic.

"If this work is carried out, it is the expectation that under favorable atmospheric conditions during the winter months it will be possible to connect telephone subscribers in the United States to telephone subscribers in London, and in this way permit them to talk to each other as they do over ordinary telephone circuits. In doing this the subscribers at each end would be connected to their respective radio stations by the wire telephone lines.

"Atmospheric conditions, however, vary tremendously from winter to summer, and during the different hours of each day. To determine the effect of such atmospheric changes, the engineers of the A. T. & T. Co. in co-operation with the Radio Corp. have been transmitting speech weekly from America to England, and have been measuring static interference and the strength of signals received from a number of British telegraph stations. The British Post Office, to co-operate in this work, erected a special form of receiving antenna, and, pending the erection of a telephone transmitting station, have been carrying out careful measurements of the energy which they receive under various conditions from the telephone transmitting station in America, and also from certain telegraph stations.

"The tests which will be possible when the British transmitting station is completed will form another important step in the work which has been carried on for many years in the development of radio telephony across the Atlantic Ocean.

"The tests which have already been carried out and the additional tests which will be made if the new British station is erected will give information as to the practicability of establishing transatlantic telephone service, the best operating methods to be employed, the attitude of the public toward such a service, and many other factors necessary to be determined before the opening of any regular commercial service could be undertaken. The difficulties of the technical problems to be overcome are well indicated by the fact that atmospheric conditions often change so greatly that the amount of power required at one time to give audible speech in England may be 10,000 times as great as that required a few hours before.

"Briefly, the news from London indicates that preparations are well under way for transmission from London to New York, and that when completed two-way talking, at least experimentally, will be possible. It will be remembered that transmission from New York to London was successfully accomplished in Jan. 1923, the answers from London being telegraphed by cable."—V. 118, p. 2575, 2440.

American Water Works & Electric Co., Inc.—*Guaranty.*

See Terre Haute Water Works Corp. below.—V. 118, p. 2576.

American Woolen Co.—*New Officer.*—

Cornelius A. Wood has been elected Second Vice-President, succeeding George L. Shepley.—V. 118, p. 1130.

Arkansas-Missouri Power Co.—*Proposed Acquisitions.*

The company has applied to the Missouri P. S. Commission for authority to issue $664,000 bonds, the proceeds to be used to acquire the electric properties at Caruthersville, Kennett and Hayti, Mo. The company, it is stated, also contemplates taking over the properties at Cardwell, Campbell, Clarkson, Senath, Bragg City, Pascola, Steele, Holland and Cooter, Mo. —V. 118, p. 2182, 1914.

Arkansas Natural Gas Co. (& Sub.).—*Earnings.*—

—V. 118, p. 1395.

Baldwin Locomotive Works.—*To Increase Produc., &c.*

Pres. Samuel M. Vauclain on May 23 stated that on June 1 the production capacity of the plant will be increased from 35% to 40%, or 45%, and on July 1, it is expected, to 50% capacity. The company has orders on hand aggregating over $11,000,000, it is said.

The Mexican Government has completed a contract for the purchase of 51 locomotives from the Baldwin Locomotive Works. About $2,000,000 is involved in the deal. Fifty of the locomotives will be of the modern oil-burning type, intedned for heavy traffic, and the other will be electric. (See "Chronicle" of May 24, page 2516.)—V. 118, p. 910, 902.

Bassick-Alemite Co.—*No Extra Dividend.*—

The directors have declared the regular quarterly dividend of 50c. a share on the outstanding Common stock, no par value, payable July 1 to holders of record June 20. On Jan. 1 and April 1 last the company paid extra dividends of 25 cents per share, in addition to the usual quarterly of 50 cents.—V. 118, p. 2183, 1395.

Beaver Products Co., Inc.—*Bonds Called.*—

Certain 1st & Ref. Mtge. 20-Year 7½% Sinking Fund Gold bonds dated July 1 1922 (V. 114, p. 2828) aggregating $100,000 have been called for payment July 1 at 110 and int. at the Central Trust Co. of Illinois, trustee, 125 West Monroe St., Chicago, Ill.—V. 118, p. 2441.

Blackstone Valley Gas & Electric Co.—*Increase, &c.*—

The stockholders on May 26 increased the authorized Common stock from $5,197,500 to $6,496,850, par $50. The 25,987 new shares will be offered to stockholders of record May 29 at par in the proportion of one new share for each four shares now held.

A petition is now pending before the General Assembly of the State of Rhode Island asking permission to issue bonds and other obligations to an amount not exceeding $16,000,000, and stock to an amount not exceeding $16,000,000.—V. 118, p. 2441.

Borden Co.—*Common Stock Increased—Rights, &c.*—

The stockholders on May 28 increased the authorized Common stock from $22,500,000 to $35,000,000. Of the increase it is intended to issue at present $2,886,800 Common stock to stockholders at par. The present capital consists of $7,500,000 Preferred and $21,368,100 Common. The increase in the Common will bring the outstanding Common to $24,254,900.

It is proposed to put the Common stock on a quarterly dividend basis subsequent to the payment of the next semi-annual dividend of $4 a share, which, it is expected, will be paid on Aug. 15. For rights, &c., see V. 118, p. 2308.

Canadian Paperboard Co., Ltd.—*Bonds Offered.*—

Johnston & Ward, Montreal, are offering at 98 and int., to yield 7¼%, $200,000 1st Mtge. 7% Sinking Fund Gold bonds dated April 1 1922, due April 1 1937. A circular shows:

Interest payable at any branch of the Standard Bank in Canada. Denominations, $1,000, $500 and $100 c*. Red. on 3 months' notice for sinking fund purposes at 105 and int. Chartered Trust & Executor Co., trustee.

Capitalization—	*Authorized.*	*Outstand'g.*
Common stock	$5,000,000	$2,100,500
7% First Mtge. Sinking Fund Gold bonds	1,500,000	770,000

Company.—Is the largest manufacturer in Canada of all varieties of paperboard, the business originally being established over 35 years ago. Company operates 3 modern board mills, situated at Frankford and Campbellford, Ont., and at Montreal, equipped to turn out daily 125 tons of paperboard. In conjunction with the board mill at Frankford, a modern pulp mill is in operation, equipped to produce 20 tons per day groundwood pulp.

Earnings.—Earnings available for bond interest for past six years have averaged $145,352, and for 1923 were $191,000, or over 3 times interest requirements on all bonds, including this issue.

Earnings for 9 months ending Mar. 31 1924 amounted to $141,278.

Purpose.—Proceeds will be used to pay off current bank debt incurred through expenditures on capital account, for the building of additional storage sheds at Campbellford and Frankford, and for the utilization of the company's existing water powers.

Sinking Fund.—There is provided an annual sinking fund beginning Mar. 15 1924 whereby $30,000 will be invested annually in the bonds of the company, either by purchase in the open market or by call at 105 and int. All such bonds purchased will be canceled and no other bonds issued in their place.—V. 116, p. 2260.

Chanslor & Lyon Co., San Francisco.—*Bonds Offered.*—

Geo. H. Burr, Conrad & Broom and Hunter, Dulin & Co., San Francisco, are offering at prices ranging from 98 and int. to 100.45 and int. $350,000 1st (Closed) Mtge. 6½% Serial Gold bonds. A circular shows:

Dated May 1 1924, due serially May 1 1925-1935, inclusive. Interest payable M. & N. at Wells Fargo Bank & Union Trust Co., San Francisco, trustee, without deduction for the normal Federal income tax not in excess of 2%. Denom. $1,000 and $500 c*. Red. all or part at any time upon 30 days' notice at a premium of ½ of 1% for each year or fraction thereof of the unexpired term of the bond.

Company.—Founded in 1904. Is the largest concern in the world acting exclusively as jobbers of automotive equipment. It has 8 branches on the Pacific Coast with offices located in San Francisco, Los Angeles, Oakland, Fresno, California; Seattle, Tacoma, Spokane, Washington, and Portland, Oregon.

Purpose.—Proceeds are to be used to acquire the Los Angeles property and extinguish mortgages now outstanding against the San Francisco and Seattle properties.

Earnings.—For 1923 company had net earnings, after taxes, equal to over 11½ times the maximum interest charges on these bonds, while the average annual net earnings, after taxes, for the past 7 years have been over 8½ times such interest. Dividends at the rate of 7% are being paid on $1,444,000 of Preferred stock.

Capitalization Outstanding After This Financing.

Dana Warp Mills, Westbrook, Me.—*Obituary.*—

Woodbury K. Dana, founder of the Dana Warp Mills, and for nearly sixty years their active head, died on Sunday, May 18.

Defiance (O.) Gas & Electric Co.—*Sale.*—

See Toledo Edison Co. below.—V. 115, p. 1104.

Detroit Edison Co.—*Listing.*—

The New York Stock Exchange has authorized the listing on or after June 2 of $11,151,300 (authorized $85,000,000) additional Capital stock, par $100 each, upon official notice of issuance and sale and payment in full, making the total amount applied for to date $68,888,800.

This additional stock was offered to the stockholders for subscription at par to an amount equal to 25% of their holdings on May 5 1924.—V. 118, p. 2047, 1916.

Dominion Engineering Works, Ltd.—*To Reorganize.*—

A circular letter has been sent to shareholders announcing that the directors have approved by-laws providing for the reorganization of the company and that a special general meeting of shareholders will shortly be called for the purpose of approving these by-laws. The form of reorganization recommended is stated in the circular letter as follows:

To form a new company of the same name with an authorized capital of $2,500,000 (par $100), all Common. The present company to sell out its undertaking as a going concern to such new company for the consideration of $2,000,000, payable by the issue and allotment of 20,000 fully-paid and non-assessable Common shares of the par value of $100 each. The new company to assume all contracts and obligations of every kind of the present company exclusive of liability to its shareholders. The present company would then be wound up and 20,000 shares ($2,000,000) constituting the purchase price of its undertaking will be distributed to its Preferred shareholders on the basis of one Common share of the new company for each 2 Preferred shares of the present company held by them.

The new company will undertake not to create any shares ranking in priority to its Common shares unless previously authorized by a vote of the holders of 75% of the then outstanding Common shares. To provide additional working capital, the new company will offer to its shareholders rateable 4,000 Common shares ($400,000) at par on the basis of one share for each five held by them in the capital stock of the new company.—V. 112, p. 1148.

Dubilier Condenser & Radio Corp.—*Earnings.*—

Income Account for the Year Ended Dec. 31 1923.

Net sales, $724,672; cost of sales, $265,477; gross profit	$459,195
Operating costs	296,623
Net operating profit	$162,572
Other income	5,071
Total income before taxes, depreciation, &c	$167,643

—V. 118, p. 2047.

East Butte Copper Mining Co.—*Suit Transferred.*—

The suit against the Davis-Daly Copper Co. has been transferred to the U. S. District Court. The suit is for $500,000 as damages resulting from the alleged failure of the Davis-Daly company to ship all its copper output to the East Butte company for smelting under an alleged 5-year contract with that provision.—V. 118, p. 2443.

Eaton Axle & Spring Co.—*Dividends Decreased.*—

A quarterly dividend of 40c. per share has been declared on the outstanding capital stock, no par value, payable July 1 to holders of record June 15. Dividends were inaugurated on July 1 1923 by the payment of 65c. per share; this rate was paid quarterly to April 1 1924 inclusive.

Earnings during the past three months, it is stated, were approximately twice the 40c. dividend requirement, but in view of uncertain conditions of general business, the directors adopted a conservative policy.—V. 118, p. 2048.

(Otto) Eisenlohr & Bros.—*Annual Report.*—

Results for Year Ending Dec. 31 1923.

Gross profit from operations	$1,466,399
Selling expenses, $781,841; adm. & gen. exp., $237,070; total	1,018,912
Miscellaneous charges, less miscellaneous income	14,881
Federal income tax, estimated	54,100
Net profit	$378,506

—V. 118, p. 2048, 1916.

El Dorado Refining Co.—*Outlook for Reorganization, &c.*

The protective committee for the holders of the 5-year 7% Sinking Fund gold notes (see below) states that the committee feels that the results for the first 4 months of 1924 have very substantially improved the position of the company and give promise of the possibility of a reorganization along lines that will be to the advantage of the noteholders. Pending the working out of such reorganization, the committee has suggested to the company the propriety of funding the overdue notes into a short-term bond issue secured by mortgage on the fixed property of the company and by lien on the equity of the company in its tank cars so far as that can be legally accomplished. It is proposed to fund the overdue interest on the notes up to Jan. 15 1924, from which date the new mortgage bonds will bear interest, payable semi-annually. As part of the plan, it is expected the company will cancel the $24,000 of notes now held in its treasury, thereby reducing the principal amount of the new bond issue to $676,000. To date $508,000 notes have been deposited with the committee.

In view of certain provisions in the indenture under which the notes were issued against the placing of mortgages on the property of the company, the committee is advised that it will require substantially the unanimous approval of noteholders to accomplish the above plan, which the committee deems very strongly in the interest of the noteholders.

Noteholders who have not already deposited their notes with the committee are now requested to do so with the proviso that if the mortgage is not given by the company within 60 days from May 23 1924 the notes will be returned to the owners without expense to them. Notes so deposited should be sent at once to Pennsylvania Co. for Insurances on Lives & Granting Annuities, 517 Chestnut St., Philadelphia, Pa., so that the committee can proceed with the consummation of the plan.

[In May 1919 Imbrie & Co. offered $1,000,000 5-year 7% Sinking Fund notes dated Jan. 15 1919. The bankers' circular then stated that the company was organized to acquire as a going concern the business of the Kansas company of like name owning an oil refinery at El Dorado, Kan. Company has outstanding $500,000 8% Pref. stock and $2,000,000 Common stock.]

Condensed Comparative Balance Sheet (Excl. Property Acct. & Note Issue).

Current Assets—	*Apr.30'24, 4 Mos.*	*Nov.30'23, 11 Mos.*	*Current Liabilities*—	*Apr.30'24, 4 Mos.*	*Nov.30'23, 11 Mos.*

Deduct subsidiary minority interest and interest charges of non-mortgagor companies	233,233
Balance available for bond interest and reserves	$3,891,964

—V. 118, p. 1525.

Fairbanks, Morse & Co.—*Listing.*—

The New York Stock Exchange has authorized the listing of 368,977 shares of Common stock without par value, with authority to add 6,023 shares on official notice of issuance and payment in full, making the total amount authorized to be listed 375,000 shares.—V. 118, p. 2443, 2048.

Foundation Company.—*Listing.*—

The New York Stock Exchange has authorized the listing of 6,250 additional shares of Common stock without par value (authorized 75,000 shares), upon official notice of issuance thereof in exchange for outstanding Cumulative Convertible $7 Preferred stock, making the total amount applied for 65,000 shares of Common stock.—V. 118, p. 2310, 2443.

General Gas & Electric Corp.—*Initial Dividend.*—

The directors have declared an initial quarterly dividend of $1 75 a share on the Preferred "B" stock and the regular quarterly dividend of $2 a share on the Cumul. Preferred "A" stock, both payable July 1 to holders of record June 14.—V. 118, p. 2186.

General Leather Co.—*Merger.*—

See Reynolds Spring Co. below.—V. 118, p. 2186.

General Motors Corp.—*Two Plants Offered for Sale.*—

The corporation is planning to dispose of two plants at Bloomfield, N. J., neither of which has ever been used by the company. The plants for sale are two of four which were acquired from the International Arms & Fuse Co. several years ago, while W. C. Durant was President of the General Motors Corp.

Plant 1 is a 1-story and basement saw-tooth building, containing 98,400 sq. ft. of floor space. This plant and 6 acres of ground will be sold separately or as a unit. Plant 2 consists of a 1-story daylight saw-tooth building, containing 143,000 sq. ft., a 1-story storage building containing 20,000 sq. ft. and a 1-story heavy brick building containing 11,250 sq. ft. Fourteen acres of ground are also included in the offering of plant 2.—V. 118, p. 2443, 2310.

Giant Portland Cement Co.—*Pref. Div. of 3½%.*—

A dividend of 3½% (on account of unpaid accumulated dividends) has been declared on the Preferred stock, payable June 16 to holders of record May 31. A like amount was paid on the Preferred stock on Dec. 15 last.—V. 118, p. 2579.

x Including net receipts from sugar and molasses, rents and miscellaneous profits.—V. 118, p. 2445.

Hingham (Mass.) Water Co.—*Bonds Authorized.*—

The Massachusetts Dept. of Public Utilities has authorized the company to issue $100,000 5½% 20-year bonds.—V. 116, p. 2263.

Holly Sugar Corp.—*Complaint.*—

Three complaints have been issued by the Federal Trade Commission. The respondents are: Holly Sugar Co., Denver Colo.; Southern California Sugar Co. and Santa Ana Sugar Co., both of Santa Ana, Calif., and the Alameda Sugar Co. of San Francisco, and S. W. Sinsheimer and E. A. Carlton. The companies are all engaged in the manufacture of beet sugar.

The first complaint names the Holly Sugar Corp. only as respondent, and alleges that the company acquired all of the stock or share capital of the Southern California Sugar Co., the major portion of the stock of the Santa Ana Sugar Co. and approximately 16,000 shares of the stock of the Alameda Sugar Co., which has a total outstanding stock of 60,000 shares. The complaint states that the acquisition of the stock of the three companies by the Holly Sugar Corp. is a violation of Section 7 of the Clayton Act, and results in the lessening of competition in sugar between the four cos.

The second complaint names the Holly Sugar Corp., the Southern California Sugar Co. and E. A. Carlton. The allegation therein is that E. A. Carlton violates Section 8 of the Clayton Act in that he is the President and a director of the Holly Sugar Corp. and at the same time is a director of the Southern California Sugar Co. The complaint states that respondent Carlton is ineligible to act at the same time as director in both corporations, according to the section of the Clayton Act which provides that "no person at the same time shall be a director in any two or more corporations, any one of which has capital, surplus and undivided profits aggregating more than $1,000,000, engaged in whole or in part in commerce."

The third complaint names the four beet sugar manufacturers and S. W. Sinsheimer, and the allegation also deals with violation of Section 8 of the Clayton Act in that respondent Sinsheimer is Vice-President and General Manager and a director of the Holly Sugar Corp., and at the same time is a director in the Southern California Sugar Co., the Santa Ana Sugar Co. and the Alameda Sugar Co.—V. 118, p. 2579, 2311.

Hunt Brothers Packing Co.—*Balance Sheet Dec.* 31 1923.

—V. 113, p. 1257.

International Silver Co.—*Accumulated Pref. Dividend.*—

The directors have declared a dividend of ¼ of 1% on account of deferred cumulative dividends and the regular quarterly dividend of 1¾% on the Preferred stock, both payable July 1 to holders of record June 14. Like amounts were paid in April, July, Oct. 1923, and in Jan. and April last. —V. 118, p. 2580.

Iron Products Corp.—*Exchange Offer Extended—Earns.*—

See Universal Pipe & Radiator Co. below.—V. 118, p. 2445.

Laclede Gas & Elec. Co.—*Trustee—Transfer Agent, &c.*

The Guaranty Trust Co. of New York has been appointed trustee of an authorized issue of not exceeding $20,000,000 Collateral Trust Gold bonds, dated April 15 1924. The Guaranty Trust Co. also has been appointed transfer agent for 200,000 shares of Common stock.

Charles A. Monroe has been elected Chairman of the board.—V. 118, p. 2580.

Lawrence (Mass.) Gas Co.—*Prices Reduced.*—

The Mass. Dept. of Public Utilities has ordered that the price of gas and electricity sold by the company be reduced 5 cents and 1 cent, respectively, so that the net maximum price for gas will be $1 35 per 1,000 cu. ft. and for electricity 10 cents per k.w.h. The company last year reduced the price of gas 5 cents and electricity ½ of 1 cent.—V. 117, p. 1784.

Lever Bros. Co., Ltd., London.—*New Financing.*—

The company, according to London cables, proposes to issue at par £5,000,000 7% Cum. Preference shares to stockholders in the approximate proportion of 10% of their present holdings, with a minimum allotment ten shares.—V. 118, p. 2050.

—V. 116, p. 2521.

McQuay-Norris Manufacturing Co.—*Annual Report.*—

President Wm. K. Norris says in substance: "While the year of 1923 was not the greatest year in the history of the company it was, nevertheless, a most satisfactory year, and in many particulars the most satisfactory year the company has ever experienced. At the close of 1923, namely, Dec. 31 1923, the equity behind the 100,000 shares of no par value common stock was $1,820,277. These figures are after the regular quarterly dividend of 50 cents per share were paid. During 1923, company charged to operations a net depreciation of $142,757.

"The development work during 1923 was unusually heavy, because in acquiring the Victor Bearings Co., which was re-incorporated under the name of the McQuay-Norris Bearings Co., it was necessary to completely overhaul all machines and dies and to scrap thousands of bearings that were made by the predecessor company and which were not of the McQuay-Norris standard. Likewise, all expenses connected with the reorganization of the company, such as incorporation fees, attorneys' fees, accountants' fees and listing fees on the Chicago and St. Louis exchanges, were also charged off in 1923. A great deal of this cost might properly have been capitalized but the directors merely followed past practices and charged against current operations every conceivable item that did not show as a 100% asset."

Consolidated General Balance Sheet Dec. 31 1923 (*Including Subsidiary Cos.*).

North Atlantic Oyster Farms, Inc.—*Dividend No.* 2.—

The directors have declared a quarterly dividend (No. 2) of 25 cents per share on the class "A" stock (par $40), payable June 1 to holders of record May 20. An initial dividend of 25 cents per share was paid on this issue on March 1 last. The dividends on the class "A" stock are cumulative at the rate of 5% ($2) per annum. See also V. 118, p. 2189.

Northeastern Iowa Power Co.—*Notes Offered.*—Priester, Quail & Cundy, Inc., Davenport, Iowa, are offering at 100 and int. $200,000 6% Serial Gold Notes. A circular shows:

Dated May 1 1924, due $100,000 May 1 1925 and $100,000 May 1 1926. Denom. $1,000 and $500. Interest payable M. & N. at American Trust Co., Davenport, Iowa. Red. at any time on 30 days' notice at 100½ and int.

Company.—Does an exclusive electric light and power business and furnishes electricity in about 48 communities in Winneshiek, Clayton, Fayette, Buchanan, Delaware, Bremer and Chickasaw counties, all located in northeastern Iowa. Principal communities served are Independence, Sumner, West Union, Clermont, Fayette, Hawkeye, &c. Company operates 4 hydro-electric power plants and 1 auxiliary steam station. It owns 2 undeveloped water power sites and has long-term reciprocal contracts for the purchase and sale of electric current with other nearby utilities. Company has just purchased the property of the Calmar Electric Co., which serves Calmar, Spillville, Fort Atkinson, Protovin and Ridgeway.

Company also owns all the Common stock of the Consumers Power Co. of Osage, Ia., which latter company has recently acquired the property of the Peoples Power Co. of Readlyn. Consumers Power Co. now serves 21 communities in Chickasaw, Howard, Mitchell and Bremer counties, in Iowa, and Mower County, Minn.

Company nad its subsidiary supplies electric current in about 70 communities in one of the best agricultural sections of Iowa. Population of territory served is approximately 100,000.

Purpose.—To pay a part of the purchase price of the Calmar Electric Co. and for the stock of the Consumers Power Co. of Osage, Ia.

Ohio Power Co.—*Bonds Sold.*—Dillon, Read & Co. and Lee, Higginson & Co. have sold at 91 and int., to yield about 6.60%, $2,000,000 6% Gold Debenture bonds, non-callable for 25 years.

Dated June 1 1924. Series due June 1 2024. This series not callable prior to June 1 1949. On and after that date, and prior to June 1 2019, callable all or part at any time upon 30 days' notice at 110 and int., thereafter at par and int. Denom. $1,000c*. Interest payable J. & D. in N. Y. City, without deduction of Federal normal income tax up to 2%. The Seaboard National Bank of the City of New York, trustee.

Data From Letter of R. E. Breed, President of the Company.

Company.—Owns and operates large electric power and light generating plants and distribution systems in important manufacturing and mining sections of Ohio. Its transmission and distribution lines amount to over 1,657 miles, serving communities having a total population in excess of 465,000, including in all 105 cities and towns, among which are Canton, Mount Vernon, Newark, Fremont, Lancaster, Bucyrus, Steubenville, East Liverpool, Lima, Tiffin, Fostoria and the Wheeling district west of the Ohio River.

Assets.—As shown by its balance sheet of Mar. 31 1924, adjusted to give effect to the issue of these bonds, the net assets of the company, after deduction of all liabilities other than capital stock, surplus and this issue, were in excess of $10,000,000, which is equivalent to more than $5,000 per debenture bond. Mortgage debt outstanding aggregated $31,605,000, while plant account together with construction funds amounted to over $49,000,000.

Statement of Earnings 12 Months Ended March 31.

Penn Central Light & Power Co.—*Extra Dividends.*—

Extra dividends of 10 cents per share have been declared on the Common and Preferred stocks, in addition to the quarterly dividend of 37½ cents per share on the Common and $1 per share on the Preferred stock, all payable July 1 to holders of record June 10. Like amounts were paid April 1 last. —V. 118, p. 1146.

Penn Seaboard Steel Corp.—*Sale of Holdings in Penn Steel Castings Co. Proposed—Listing—Earnings.*—

The stockholders will vote June 2 on authorizing the sale of the entire issued and outstanding Capital stock of *Penn Steel Castings Co.*, a Delaware corporation, consisting of 5,000 shares of Preferred stock, par $100 each, and 10,000 shares of Common stock, par value, for such consideration and upon such terms as the directors of the corporation shall approve.

President J. B. Warren in a letter to the stockholders on May 21 said: "In June 1923 operations were resumed at the New Castle plant. This plant is located at New Castle, Del., with tide water and rail facilities. The plant consists of 6 open hearth furnaces, a 34-inch electrically driven blooming mill, and all necessary appurtenances to make this a complete unit for the manufacture of open hearth steel blooms and billets. The results from operations at this plant have been quite satisfactory, and the directors recommend that the activities of the corporation should be concentrated on the products of this plant, viz.: blooms, billets and products therefrom. It is also considered desirable that finishing mills be installed at this plant.

"In order to carry out this plan successfully, the working capital position of the corporation must be improved, and to accomplish this the directors recommend that the corporation sell for cash its holdings of stock in the *Penn Steel Castings Co.*, which company manufactures steel castings exclusely, and has no direct connection with the products manufactured at the New Castle plant. The proceeds from the sale of these securities will strengthen materially the corporation's financial and manufacturing position."

The New York Stock Exchange has authorized the listing of additional voting trust certificates (extended to June 26 1926) for 300,000 shares of Capital Stock, no par value, on official notice of issuance for stock deposited under the voting trust agreement as hereinafter more fully set forth, making the total amount applied for 1,500,000 shares.

The 300,000 shares of stock have been sold for cash, and the proceeds are to be used to reimburse the corporation for expenditures made in reducing its outstanding indebtedness and to provide additional working capital.

Pennsylvania Water & Power Co.—*New Power Plant.*—

Interests reported to be identified with the company have formed a new company with a capitalization of $3,500,000 for the purpose of building a new power plant at Holtwood, Pa. The new plant which will be allied with the Pennsylvania Water & Power Co., and the Consolidated Gas, Electric Light & Power Co. of Baltimore, will adjoin that of the first-named company and will go into operation early in the spring of 1925. It will have an ultimate capacity of 100,000 kilowatts, although the initial installation will be only 20,000 kilowatts. Contracts for two units of 10,000 kilowatts each were awarded in New York and work will begin at once.

The new company, which will be incorporated under the laws of Pennsylvania, will be managed by the same interests which direct the Pennsylvania Water & Power Co. J. E. Aldred & Co. of New York will finance the company. It is understood that the Pennsylvania Water & Power Co. will build another plant in the near future on the Susquehanna River some distance above its present site. This will be a hydro-electric plant. When the plans are completely developed the Pennsylvania Water & Power Co. will have a combined capacity of nearly 400,000 kilowatts, making it one of the largest electric power companies in the East.—V. 118, p. 2190.

Peoples Gas Light & Coke Co.—*New Officers.*—

The officers of the company are: Samuel Insull, Pres.; George F. Mitchell (formerly Treas.), Asst. to the Pres. and V.-Pres. in charge of finance; John H. Eustace, V.-Pres. in charge of operation; Bernard J. Mullaney, V.-Pres. in charge of public and industrial relations; Theodore V. Purcell (formerly Sec.), V.-Pres. in charge of sales; William A. Sauer (formerly Comp.), V.-Pres. in charge of accounts; Albert L. Tossell (formerly Asst. Treas.), Sec. & Asst. Treas.; William R. Weldon (formerly Asst. Treas.), Treas.; William I. Coble, Comp.; William C. Langston, Aud.; Robert Blair, Asst. Treas.

Charles A. Monroe resigned as Vice-President and director to become Chairman of the Board of the Laclede Gas & Electric Co. of St. Louis.—V. 118, p. 916.

Plainfield (N. J.) Union Water Co.—*Valuation, &c.*—

The New Jersey P. U. Commission in a decision filed May 24 fixed $3,336,919 as a fair value of the property of the company for rate-making purposes, and concluded that a return of approximately $250,000 is just and reasonable, subject to the provision that the service rendered by it shall be adequate and proper. The proposed increased rates filed on Nov. 19 last by the company were found unjust and unreasonable.—V. 97, p. 55.

President William R. Todd died May 22.—V. 116, p. 2523.

Radio Corp. of America.—*Initial Preferred Dividend.*—

The directors have declared an initial dividend of 3½% (to cover dividends for the first two quarters of 1924) on the "A" Pref. stock, payable July 1 to holders of record June 6. See also V. 118, p. 2315, 2570.

Realty Associates, Brooklyn, N. Y.—*Initial Dividend.*—

The directors have declared out of the earnings for the first six months of the fiscal year the semi-annual dividend of 3% on the 1st Pref. stock, payable July 15 to holders of record July 5. This is the first dividend to be paid on this stock since the change in structure and increase in capitalization in April 1923. (See V. 116, p. 1906, 2523.) See also V. 118, p. 1676.

Reynolds Spring Co.—*To Increase Stock—Acquisition of General Leather Co.*—

The stockholders will vote June 26 on authorizing an increase in the authorized Common stock from 200,000 shares (no par value) to 500,000 shares (no par value) for the purpose of acquiring the General Leather Co.

Pres. Wiley R. Reynolds, in a letter to stockholders, says that 210,548 shares of the no par Reynolds stock will be the full purchase price of the entire common capital stock of the General Leather Co. No cash will be involved.

In connection with the transaction Pres. Reynolds' letter says: "The management and the directors are sure that the combined companies will show a materially increased earning power per share, due to: (1) decreased overhead, both in the administrative and manufacturing departments; (2) that the sales expense of the combined companies will be very materially decreased for the reason that the customers of the two companies are almost identical. It is the opinion of the management that most of the departments of the combined business could be handled by approximately one-half the number of people that is required to operate them as two separate units."

Discussing his company's business, Pres. J. J. Smith, of the General Leather Co., in a statement which is included in the letter to Reynolds' stockholders, says:

"Our company has recently completed a five-year contract with the General Motors, and beginning Jan. 1 1924, we entered into a new contract with the General Motors, running for three years, under the terms of which we have the preferential right of supplying, on a competitive basis, of at least 75% of the General Motors Corp. requirements for upholstering leather.

"We expect by the end of this year that at least 50% of our output will be automobile leather and the other 50% for other purposes, as we are constantly increasing our outlets for leather away from the automobile business." [For further details of General Leather Co. see V. 118, p. 2186.]

Combined Balance Sheet (General Leather Co. March 29 and Reynolds Spring March 31).

Royal Dutch (Petroleum) Co.—*Final Dividend.*—

The Equitable Trust Co. of N. Y. has received the following cable from the Royal Dutch Co. in Holland:

"The board of Royal Dutch has decided to propose a general meeting of shareholders to declare for 1923 a total dividend of 25%, of which 10% was paid in January. At the same time the board decided to meet the wish of many shareholders in order to facilitate paying up new capital, pay as an exception the 10% interim dividend for 1924 in July instead of January next."

Further announcement as to the rate of dividend and date of payment will be given by the Equitable Trust Co. of N. Y. at a later date.—V. 118, p. 1403.

St. Cloud (Minn.) Public Service Co.—*Rate Decision.*—

The company on May 26 lost its appeal in the U. S. Supreme Court to obtain increased rates for fuel gas. The Supreme Court held that a contract limiting these rates between the City of St. Cloud, Minn., and the company was binding and valid and that no relief could be given on the contract rate the company had agreed to, even though they may subsequently prove to be confiscatory. The Federal Court for the District of Minneaots, held the contract valid, and this decision was affirmed by the Supreme Court.—V. 115, p. 1542.

Seattle Chamber of Commerce & Commercial Club.—

Bonds Offered.—Carstens & Earles, Inc. and John E. Price & Co., Seattle, are offering at par and int., $200,000 6½% 1st (Closed) Mtge. Leasehold Serial Gold bonds. A circular shows:

Dated April 1 1924. Due semi-annually April 1 1926 to April 1 1929. Int. payable A. & O. at Seattle National Bank, Seattle, Wash., trustee. Borrower agrees to pay the normal Federal income tax up to 2%. Denom. $1,000, $500 and $100c*. Red., all or part, on any int. date after two years upon 60 days' notice, at 101 and interest.

The Seattle Chamber of Commerce and Commercial Club is a non-profit corporation organized to promote the welfare of Seattle, Alaska and the Pacific Northwest. Its membership is composed of the leading citizens and business houses of the City of Seattle, by whom it is supported and maintained.

The Seattle Chamber of Commerce was first organized in 1889, was merged with the Commercial Club in 1917, at which time it was incorporated, and now has a membership in excess of approximately 3,000. The present quarters have become inadequate and the members have decided to construct a building of their own which will be suited to their needs.

The building will be a four-story and basement, "Class A" reinforced steel and concrete structure, the exterior to be finished in brick and stone. There will be store rooms on Third Ave. and Columbia St., the balance of the building to be for the use of the Seattle Chamber of Commerce and Commercial Club, providing an auditorium, dining room, committee rooms, exhibit rooms and offices. The foundation will be sufficient to carry an additional story.

Seneca Copper Corp.—*Receivers' Certificates.*—

Federal Judge Sessions at Grand Rapids, Mich., has signed an order authorizing the issuance and sale of $150,000 receiver's certificates. This same action has already been taken by Federal Judge Hand of New York, it being necessary to have the sanction of both courts.—V. 118, p. 2316.

Shell Transport & Trading Co., Ltd.—*Dividend.*—

Dispatches from London state that the company has declared a dividend of 2s. 6d. a share on the Ordinary shares, free of British income tax, payable July 5. An interim dividend of 2s. was paid Jan. 5 last on the Ordinary shares.—V. 118, p. 212.

The earnings statement for the quarter ended March 31 1924, compared with the same period of 1923, was given in the "Chronicle" of May 24. Due to a typographical error, the statement was reported as covering the quarter ended Dec. 31. See V. 118, p. 2584.

Standard Plate Glass Corp.—*Listing.*—

The New York Stock Exchange has authorized the listing on or before June 1 of $1,000,000 7% Cumul. Pref. Stock (authorized $6,000,000), par $100, on official notice of issuance, in exchange for the outstanding stock of Watson Paint & Glass Co., Inc., with authority to add $500,000 Preferred Stock, on official notice of issuance on payment in full, in connection with the acquisition of several small paint and glass jobbing house concerns, making the total amount applied for not exceeding $5,625,000 Pref. Stock.

The purpose of the additional issue of 10,000 shares of stock is to acquire $300,000 outstanding Common stock (par $100) of Watson Paint & Glass Co., Inc. The holders of the stock of the Watson Co. have deposited their certificates of stock with the Bank of Pittsburgh, N. A., as depositary, against which deposit receipts have been issued entitling the holders thereof to 10 shares of the 7% Cumul. Pref. Stock of the Corporation in exchange for every three shares of stock of the Watson Co. so deposited, said exchange to be effective on or before June 1 1924.—V. 118, p. 2449, 2317.

Swedish Match Co.—*Stock Offered, &c.*—

Barclays Bank, Ltd., of London, recently received on behalf of Higginson & Co., London, applications for the purchase from them of 271,500 "B" shares of 100 Swedish crowns each, at £7 4s. per share, payable £1 per share on application, £2 13s. 6d. on May 14 and £3 10s. 6d. on July 1 1924. The "B" shares will, as from Jan. 1 1925, rank *pari passu* with the existing "A" shares in all respects other than voting. The proceeds of the shares will be used for the erection of factories in India and for extensions and the acquisition of additional interests in Europe and other countries.

Holders of "A" shares, Nos. 720,501 to 899,000, were invited by Higginson & Co., London, to apply for 178,500 "B" shares of 100 kronen each in the proportion of one new "B" share for each "A" share held. These shares were offered at £7 1s. per share, payable in London, £3 10s. 6d. per share on application (on or before May 28, and £3 10s. 6d. on July 1 1924—(London "Stock Exchange Weekly Official Intelligence").

The following is taken from the London "Statist" of May 3:

Year.	*Income* Kr.	*Expenses* Kr.	*Written off Shares* Kr.	*Net Income* Kr.	—*Dividend*— Kr.	%	*Carried Forward* Kr.

—V. 118, p. 2191.

Terre Haute (Ind.) Water Works Corp.—*Guaranteed Bonds Sold.*—P. W. Chapman & Co., Inc., Halsey, Stuart & Co., Inc., New York and Chicago, and M. H. Payson & Co., Portland, Me., have sold at 97 and int., to yield about 6¼%, $1,600,000 1st Mtge. 6% Gold bonds, Series "A." Principal and interested guaranteed by American Water Works & Electric Co., Inc.

Dated June 1 1924. Due June 1 1949. Int. payable J. & D. at the office or agency of the corporation in N. Y. City without deduction for that portion of any normal Federal income tax not in excess of 2%. Denom. $1,000, $500 and $100c*. Pennsylvania and Connecticut four-mills tax, Maryland 4½-mills tax and Massachusetts income tax not to exceed 6% refunded. Red., all or part, upon four weeks' notice, to and incl. June 1 1934 at 105 and int.; thereafter to and incl. June 1 1939 at 102 and int.; thereafter to and incl. June 1 1944 at 101 and int.; and thereafter and until maturity at 100 and int. In the event the City of Terre Haute purchases the property, the bonds may, at the election of the corporation, be declared due and payable at 100 and int.

Issuance.—Approved by the Public Service Commission of Indiana.

Data from Letter of J. C. Adams, President of the Corporation.

Company.—Was recently incorporated as a subsidiary of the American Water Works & Electric Co., Inc., to acquire the properties of the Terre Haute Water Works Co., which has served the City of Terre Haute, Ind., and vicinity since 1873. Corporation supplies water for domestic and public use without competition to a population of about 70,000.

The source of the corporations' water supply is the Wabash River. The pumping capacity is over 22,000,000 gallons per day, with present requirements of 6,000,000 gallons per day. The corporation at the present time supplies 10,071 consumers through distribution mains, which total over 109 miles.

Capitalization—	*Authorized.*	*Issued.*
1st Mtge. 6% Gold bonds, Series "A" (this issue)	x	$1,600,000
7% Preferred stock	$1,000,000	325,000
Common stock (no par value)	1,000,000	661,000

x The mortgage securing these bonds provides that additional bonds may be issued thereunder for not in excess of 80% of the cost or fair value, whichever is the lower, of permanent improvements, extensions, &c., to the property, provided annual net earnings have been at least 1¾ times the annual interest charges on all bonds outstanding under the mortgage and those to be issued.

Security.—Secured by a first mortgage on the entire physical property of the corporation, consisting of real estate, water mains, pumping stations and other appurtenant equipment. The value of the property, on May 20 1924, as fixed by the P. S. Commission of Indiana, was $2,586,000.

Earnings—Year Ended Dec. 31 1923.

Gross revenue	$350,496
Operating expenses, maintenance and taxes	169,251
Net earnings	$181,245
Ann. int. on corporation's entire funded debt (this issue)	96,000

Purchase by the City.—Under the laws of the State of Indiana, the City of Terre Haute has the right to purchase the properties upon establishing the necessity for such purchase and by paying therefor the then value of such properties as the same may be determined by the P. S. Commission.

Purpose.—Proceeds will be used for the purpose of partially reimbursing the corporation for expenditures made in acquiring the properties of the Terre Haute Water Works Co. and for other corporate purposes.

Control.—Corporation is controlled through ownership of its entire Common stock by the American Water Works & Electric Co., Inc.—V. 118, p. 2584.

Thompson-Starrett Co., N. Y.—*Dividend of $6.*—

The company has declared a dividend of $6 a share on the Common stock, payable July 1 to holders of record June 20. Distributions of $4 per share were made on July 2 1923 and July 1 1922.—V. 116, p. 2648.

Tobacco Products Corp.—*To Redeem Entire Issue of Preferred Stock.*—

The corporation has called for redemption July 1 the entire amount of its outstanding Preferred stock. Payment will be made at the Guaranty Trust Co., 140 Broadway, N. Y. City, at 120 and divs.

The directors have declared the 46th quarterly dividend of 1¾% on the Preferred stock, payable July 1 to holders of record June 16.—V. 118, p. 1925.

Transcontinental Oil Co.—*Earnings.*—

The company reports for quarter ended March 31 1924: Gross income of $2,899,499, operating costs, $2,532,173; expenses and interest, $493,990; net loss, before depreciation and depletion, $126,663.—V. 118, p. 2317.

United Drug Co., Boston.—*Sales.*—

Gross sales in the first 4 months of 1924 were approximately $22,803,000, against $21,434,000 in the corresponding period of 1923.—V. 118, p. 2450.

United Electric Co. of N. J.—*Merger.*—

See Public Service Corp. of N. J. under "Railroads" above.—V. 118, p. 1281.

Universal Pipe & Radiator Co.—*Listing.*—

The New York Stock Exchange has authorized the listing of $4,469,600 7% Cumul. Pref. Stock, par $100 (authorized, $9,000,000) and 88,764 shares of Common Stock, without par value (authorized 180,000 shares) which are issued and outstanding in the hands of the public, with authority to add $3,950,200 Pref. Stock and 72,951 shares of Common Stock, on official notice of issuance in exchange for stock of Iron Products Corp. and Central Foundry Co., making the total amounts applied for $8,419,800 of Pref. Stock and 161,715 shares of Common Stock.

The Universal Pipe & Radiator Co. was organized April 2 1923 in Maryland, per plan in V. 116, p. 1655. Under this plan Common Stock of Iron Products Corp. was exchangeable for stock of Universal Pipe & Radiator Co. on the basis of one share of Common Stock of Iron Products Corp. for one share of Common Stock plus ½ share of Pref. Stock of Universal Pipe & Radiator Co.

Preferred Stock of Iron Products Corp. was exchangeable for stock of Universal Pipe & Radiator Co. on one or the other of the following bases of exchange: (*a*) (1) share of Pref. Stock of Iron Products Corp. for 5-6 of a share of Pref. Stock and 1 2-3 shares of Common Stock of Universal, with a cash adjustment of accrued dividends to the date of exchange; or (*b*) 1 share of Pref. Stock of Iron Products Corp. for 1 3-20 shares of Pref. Stock, and 1 share of Common Stock of Universal Pipe & Radiator Co., with a cash adjustment of accrued dividends to the date of exchange.

First Pref. Stock of Central Foundry Co., at the option of the holders thereof, was exchangeable for stock of Universal Pipe & Radiator Co. on one or the other of the following bases of exchange: (*a*) 1 share of First Pref. Stock of Central Foundry Co. for 5-6 of a share of Pref. stock and 1 2-3 shares of Common Stock of Universal Pipe & Radiator Co., with a cash adjustment of accrued dividends to the date of exchange; or (*b*) 1 share of First Pref. stock of Central Foundry Co. for 1 3-20 shares of Pref. Stock and 1 share of Common Stock of Universal Pipe & Radiator Co., with a cash adjustment of accrued dividends to the date of exchange.

Ordinary Pref. Stock of Central Foundry Co. was exchangeable for stock of Universal Pipe & Radiator Co. on the basis of one share of Ordinary Pref. Stock for one share of Common Stock, plus ½ share of Pref. Stock of Universal Pipe & Radiator Co.

Common Stock of Central Foundry Co. was exchangeable for stock of Universal Pipe & Radiator Co. on the basis of one share of Common Stock of Central for ½ share of Common Stock plus ¼ share of Pref. Stock of Universal Pipe & Radiator Co.

In accordance with the above offer of exchange of stocks, Universal Pipe & Radiator Co. has issued $4,469,600 Pref. Stock (including scrip) and 88,764 shares of Common Stock (including scrip) for $3,800 First Pref. Stock, $142,400 Ordinary Pref. Stock and $29,100 Common Stock of Central Foundry Co. and $62,800 8% Cumul. Pref. Stock and 86,404 shares of Common Stock of Iron Products Corp.

To enable the officers of Universal Pipe & Radiator Co. to execute the plan to make the company eventually an operating company, the stockholders on May 12 1924 approved the issuance of 39,502 additional shares of Pref. and 72,951 additional shares of Common Stock, now authorized but unissued, in exchange for all or any part of 9,245 shares of Pref. and 54,450 shares of Common Stock of Iron Products Corp. and 312 shares of First Pref., 1,980 shares of Ordinary Pref. and 1,176 shares of Common Stock of Central Foundry Co. on the identical bases of exchange that were offered under the original plan as amended.

The offer will remain open for a period of thirty days and thereafter for such further period as the Universal company may determine.

Consolidated Income Account (Iron Products Corp.) 3 Mos. End. Mar. 31 1924.

Total earnings after deducting cost of operations, including repairs and maintenance and upkeep, expenses of sales and general offices, doubtful accounts and adjustments of inventories	$391,481
Less: Provision for interest, taxes, depreciation, depletion, &c.	119,017
Dividends paid on Preferred Stock	19,746
Balance, surplus	$252,718
Surplus Jan. 1 1924	2,021,348
Total surplus	$2,274,066
Dividend on Common Stock declared payable April 15 1924	211,269
Surplus as at March 31 1924	$2,062,797

—V. 118, p. 2318.

Webster (Mass.) Mills.—*Definitive Notes Ready.*—

Brown Brothers & Co. announce that definitive 10-Year 6½% Gold notes of 1923 will be exchanged for temporary certificates at the Chase National Bank of New York. For offering of notes see V.117, p. 2334, 2554.

Westinghouse Elec. & Mfg. Co.—*Equipment Order.*—

A contract for more than $1,000,000 has just been awarded by the Carnegie Steel Co. to the Westinghouse company for electric equipment for the new structural steel mill now being erected in the Homestead group.—V. 118, p. 2567.

White Eagle Oil & Refining Co.—*Sales.*—

Sales in April totaled 12,231,000 gallons, valued at $1,267,967. This compares with 11,590,000 gallons in April 1923, valued at $1,152,715.—V. 118, p. 2079.

(F. W.) Woolworth Co.—*Listing.*—

The New York Stock Exchange has authorized the listing on or after May 28 of $65,000,000 (authorized $100,000,000) Common stock, par $25, each on official notice of issuance in exchange for outstanding shares of Common stock, par $100 each, on the basis of 4 shares of new stock for one share of the old Common stock.—V. 118, p. 2592.

Youghiogheny Hydro-Electric Corp. (Md.).—*Bonds Offered.*—

Harris, Forbes & Co. and E. H. Rollins & Sons are offering at 95 and int., to yield 6.40%, $2,750,000 1st Mtge. Gold bonds, 6% series, due 1949.

Dated April 1 1924. Due April 1 1949. Int. payable A. & O. without deduction for any Federal income tax not exceeding 2%. Pennsylvania four-mills tax, Maryland security tax not exceeding 4½ mills, Connecticut personal property tax not exceeding four mills per $1 per annum, and Massachusetts income tax on interest not exceeding 6% of such interest per annum, refunded. Callable, all or part, on the first day of any month on 60 days' notice at 107½ and int. through April 1 1929, thereafter at a premium decreasing ¼ point each year. Denom. $1,000 and $500c*&r First National Bank, New York, trustee.

Issuance.—Authorized by the Maryland P. S. Commission.

Data from Letter of F. T. Hepburn, President of the Corporation.

Company.—Is constructing a power plant on the Youghiogheny River which will have an initial installed capacity of 24,000 h.p., under a head of 437 ft., and which is expected to be ready for operation in the fall of 1925. This plant is in Maryland, 15 miles from the Pennsylvania State line and the southern terminus of the transmission system of the Penn Public Service Corp., which with subsidiary and affiliated companies, owns and operates an extensive power system, generally known as Penn Public System, serving approximately one-sixth of the total area of Pennsylvania.

Power Contract.—Penn Public Service Corp., which with subsidiaries has gross earnings of over $7,600,000, has contracted for the use of the entire generating capacity now being installed by the Youghiogheny corporation, under a contract extending beyond the maturity of these bonds and providing for payments, commencing when the initial or Deep Creek development is placed in commercial operation, conservatively estimated to produce, annually, net earnings well in excess of twice the annual interest on these bonds.

Security.—Bonds will be secured by a direct first mortgage on the entire physical property of the Youghiogheny Hydro-Electric Corp. The project as planned by the corporation includes the development of three additional power sites on the Youghiogheny River and its tributaries, and according to present plans, the completed project will have an aggregate generating capacity of 150,000 h.p. including the initial development.

Capitalization—	*Authorized.*	*Issued.*
Common stock	$7,000,000	$2,524,600
Preferred stock, 7% cumulative	8,000,000	None
7% Convertible notes, due 1929	2,500,000	x2,500,000
1st Mtge. 6s, due 1949 (this issue)	a	2,750,000

a Additional bonds may be issued only under the conservative restrictions of the mortgage. x Convertible at the option of the corporation, after completion of Deep Creek development, into 7% Pref. stock at par.

Control.—The $2,524,600 Common stock is all owned by the Pennsylvania Electric Corp., which also owns 97% of the Common stock of Penn Public Service Corp. and all of the Common stock of its affiliated companies, with one exception, where it owns 74% of the Common stock.

Guaranty of Completion.—Funds sufficient in accordance with the carefully checked estimates of cost, to provide for the completion of the Deep Creek development (including interest during construction) will be deposited with the trustee. The Pennsylvania Electric Corp. will, however, guarantee to provide any additional funds necessary for this purpose, taking securities junior to these bonds in payment therefor.

Consol. Earnings of Penn Public Service Corp. & Subs.—Year end. Mar. 31 '24

Gross earnings	$7,637,136
Net after operating expenses, maintenance and taxes	3,685,680
Annual fixed charges	1,759,796
Balance	$1,925,884

—V. 118, p. 1787.

Youngstown Sheet & Tube Co.—*Earnings, &c.*—

Net earnings in April aggregated $1,161,276, not including operations of several minor subsidiaries.

President Campbell says in substance: "Last week we booked more orders for sheets than in the previous three weeks. In other finished lines, however, fresh business is still lagging and shipments exceed incoming orders. We not only earned the proportionate share of our dividends in April but, together with the surplus from the first quarter, we earned enough in the first 4 months of the year to cover three dividends on Common stock and still have a surplus."—V. 118, p. 2318.

CURRENT NOTICE.

—C. E. Denison & Co., the well known investment bond house of Boston, retire from active business under this name on June 1. They have long been known as active dealers in United States municipal and public utility bonds of conservative character. On and after June 2, Charles E. Denison will be associated with Bonbright & Co., Inc., with offices in New York, Boston, Chicago and elsewhere, and located at their Boston office, 55 Congress Street; telephone, Main 7800.

—Operating results for 1923 of the Chicago Surface Lines, Peoples Gas Light & Coke Co., Illinois Bell Telephone Co., the Elevated System and Commonwealth Edison Co. are reported in a condensed bulletin issued by Wm. Hughes Clarke, Chicago, with some essential particulars of the principal mortgage bond issues. The major items of the income accounts are conveniently exhibited to facilitate comparisons. Copies may be had on application.

—Guaranty Trust Co. of New York has been appointed trustee under Laclede Gas & Electric Co. indenture dated as of April 15 1924, securing an authorized issue of not exceeding $20,000,000 par value collateral trust gold bonds. The Guaranty Trust Co. also has been appointed transfer agent for 200,000 shares of common stock of the Laclede Gas & Electric Co., having no nominal or par value.

—The firm of Cooke & Bennett, of this city, has been dissolved by mutual consent. Mr. Cooke has become associated with Morgan, Livermore & Co. and Mr. Bennett will continue in business with headquarters at J. M. Byrne & Co.

—Frank D. Van Nostrand & Co. announce that Maxwell B. Smith has become associated with them as manager of their trading department, assisted by Wm. T. Brown, who will specialize in Public Utility bonds and stocks.

—A new edition of "International Investments," a pamphlet, giving descriptions of issues of strong credit foreign governments, municipalities and corporations has been prepared for distribution by Brown Brothers & Co.

—R. J. Watrous, formerly with the Pacific Coast securities department of McDonnell & Co., has become associated with Berg, Eyre & Kerr in their unlisted securities department.

—Dean, Onativia & Co., members of the New York Stock Exchange, have issued circulars on the stocks of The Marland Oil Co., and American Hide & Leather Co. Copies will be sent free on request.

—Brown Brothers & Co. announce that the definitive bonds for the Webster Mills 6½s 1933 will be exchanged for the temporary certificates at the Chase National Bank.

Reports and Documents.

PUBLISHED AS ADVERTISEMENTS

THE NEW YORK CENTRAL RAILROAD COMPANY

REPORT OF THE BOARD OF DIRECTORS TO THE STOCKHOLDERS—FOR THE YEAR ENDED DEC. 31 1923.

To the Stockholders of
The New York Central Railroad Company:

The Board of Directors herewith submits its report for the year ended December 31 1923, with statements showing the income account and the financial condition of the company.

INCREASED TONNAGE.

During the year the company moved 132,576,120 tons of revenue freight, an increase over 1922 of 35,882,964 tons. Excluding the Ohio Central Lines, which were operated independently prior to 1922, the revenue tonnage of 1923 was substantially as great as that of 1918, the heaviest previous year. Of the increase in tonnage in 1923 over 1922, 52.46% was in bituminous coal. This increase was due in some part to the sub-normal movement in 1922 caused by the coal strike but principally to co-operation of industries and dealers in stocking their coal requirements in advance of the usual seasonal rush, as a result of which there was practically no shortage of open-top cars at any time during the year. A similar improved condition obtained in the case of cement and other commodities. There was no necessity during the year for the issue of any general embargoes restricting the free movement of traffic.

INCOME ACCOUNT FOR THE YEAR.

The final results of operation of the Boston & Albany Railroad and of the Ohio Central Lines for 1922 and 1923 are included in this summary under separately operated properties—Profit, or separately operated properties—Loss, as the case may be. Separate statistics for these properties are appended to this report.

	Year Ended Dec. 31 1923. 5,699.73 miles operated	*Year Ended Dec. 31 1922. 5,710.08 miles operated*	*Increase (+) or Decrease (—). 10.35 miles*

LOANS AND BILLS PAYABLE.

In addition to the funded debt, there was outstanding on December 31 1923 a 5% demand note evidencing loan from J. P. Morgan & Company of $3,000,000, the short term indebtedness of $12,513,000 shown in the annual report for 1922 having been liquidated.

NEW YORK CENTRAL LINES EQUIPMENT TRUST OF 1923.

This trust was created by agreement dated June 1 1923, to which The New York Central Railroad Company, The Michigan Central Railroad Company and The Cleveland Cincinnati Chicago and St. Louis Railway Company are parties. Under the trust $17,340,000 of 5% equipment trust certificates maturing in equal annual installments of $1,156,000 over a period of fifteen years were issued, representing approximately 75% of the cost of the equipment leased by the Trustee to the railroad companies. The equipment allotted to this company under the trust, estimated to cost $9,275,299 03, consists of 50 coaches, 15 passenger and baggage cars, 30 motor passenger cars, 14 baggage cars, 75 milk cars, 2,000 hopper cars and 8 switching locomotives. The certificates are pro-rated among the railroad companies in proportion to the cost of the equipment allotted to each, this company's share being $6,930,000.

GUARANTY OF ADDITIONAL BONDS OF THE CLEVELAND UNION TERMINALS COMPANY.

During the year The Cleveland Union Terminals Company created a new series of its first mortgage bonds, known as Series B, consisting of 50-year 5% bonds. The issue of $15,000,000 of this series of bonds was authorized in 1923, of which $5,000,000, jointly and severally guaranteed by this company and the other proprietors of the Terminal Company under guaranty agreement dated July 17 1923 were issued and sold during the year.

READING RIGHTS.

The capital stock of Reading Company is $140,000,000, divided into 2,800,000 shares of a par value of $50 each, of which this company owns 603,650 shares, which are carried on its books at cost—$21,840,724 75. Pursuant to the decree of the Federal Court directing the segregation of Reading Company's assets, that company will distribute so-called "Reading rights" to its stockholders (of record on December 17 1923), one right for each share of stock. These rights pertain to the stock of Philadelphia and Reading Coal and Iron Corporation, a Delaware company formed under the court's decree, to which Reading Company will transfer the stock of Philadelphia and Reading Coal and Iron Company, to which last mentioned company Reading Company will transfer the stock of Reading Iron Company. Each two Reading rights will entitle the holder to subscribe for a Certificate of Interest in one share of stock of the Coal and Iron Corporation at $4 per share, such certificates being exchangeable for the stock itself upon the making of an affidavit by the proposed holder of the stock to the effect, in substance, that he is not a stockholder of Reading Company. The Coal and Iron Corporation's capital stock will consist of 1,400,000 shares, without nominal or par value. This company, as a stockholder of Reading Company, will receive 603,650 Reading rights. In accordance with a resolution adopted by the Board of Directors on December 12 1923 the company has offered to its stockholders the right to purchase Reading rights from it at $3 per right in the proportion of one right to every five shares of stock held of record on January 2 1924. The announcement of this offer was included in the circular letter, dated December 12 1923, relating to the offer to stockholders of additional capital stock.

FINAL SETTLEMENT WITH RAILROAD ADMINISTRATION.

Agreement was reached with the Director-General of Railroads under which the company paid to the United States Railroad Administration $23,000,000 in full settlement for itself (including the Boston and Albany and the Lake Erie and Pittsburg) and the other companies included in its contract—the Toledo and Ohio Central, the Kanawha & Michigan, the Kanawha and West Virginia and the Zanesville and Western—of balance due for the Federal control period. The $23,000,000 payable to the Railroad Administration was distributed among the several companies as follows:

Net amount payable:		
New York Central (including B. & A.)	$21,347,039 14	
Toledo & Ohio Central	877,412 41	
Kanawha & Michigan	676,362 91	
Kanawha & West Virginia	162,696 49	
		$23,063,510 95
Net amount receivable:		
Zanesville & Western	$3,092 00	
Lake Erie & Pittsburg	60,418 95	
		63,510 95
Net total		$23,000,000 00

The amount of $21,347,039 14, above shown as net amount payable by this company, is the final balance agreed upon in general settlement after taking into account the various debits and credits arising under the contract and payments

COMPARATIVE CONDENSED GENERAL BALANCE SHEET, DECEMBER 31 1923 AND 1922.

theretofore made by each party to the other. The total amount of compensation which accrued in the company's favor for the use of its owned and leased lines during the period of Federal control was $123,266,853 15. Prior to the final settlement there had been paid to the company from time to time on account of compensation and as cash advances $125,779,919 75 and the company had paid to the Director-General $26,500,000 on account of additions and betterments. The total amount expended by the Director-General for additions and betterments upon the company's owned and leased lines was $50,791,279 35, including $4,614,-144 15 representing initial cash payment upon allocated equipment included in an equipment trust. The company provided for $28,437,154 31 of these improvements through the sale of its bonds.

GUARANTY PERIOD SETTLEMENT.

During the year the Inter-State Commerce Commission determined the amount due to the company by the United States Government for the so-called Guaranty Period, March 1 to August 31 1920, under the provisions of Section 209 of the Transportation Act, 1920, to be $25,282,637 82. Of this amount $20,000,000 had been paid on account prior to 1923, leaving a balance of $5,282,637 82, which was received during the year in full settlement.

ACQUISITION OF CAPITAL STOCK OF THE CLEVELAND CINCINNATI CHICAGO AND ST. LOUIS RAILWAY COMPANY.

The company acquired during the year, under its offer of December 14 1921, 2,181 shares of preferred stock of The Cleveland Cincinnati Chicago and St. Louis Railway Company, in exchange for which it issued a like number of shares of its own stock (par value $218,100), and 467 shares of common stock of that company, in exchange for which it issued 373.6 shares of its own stock (par value $37,360). At the end of the year the company held 84.55% of the preferred, 91.31 of the common and 90.12% of the total outstanding capital stock of The Cleveland Cincinnati Chicago and St. Louis Railway Company.

ACQUISITION OF CAPITAL STOCK OF THE MICHIGAN CENTRAL RAILROAD COMPANY.

The company acquired during the year 3,272 shares of capital stock of The Michigan Central Railroad Company at $350 per share, making its holdings on December 31 1923 177,647 shares of a par value of $17,764,700, or 94.81% of the total outstanding.

ACQUISITION OF CAPITAL STOCK OF THE MAHONING COAL RAILROAD COMPANY.

The company acquired during the year 988 shares of the preferred stock of The Mahoning Coal Railroad Company at $50 per share, making a total of 8,978 shares of preferred stock held by it. The proportion of preferred stock now held by the company is 67.87%, of common stock 59.64%, and of the total stock outstanding 62.16%.

ACQUISITION OF CAPITAL STOCK OF THE TRESTLE REALTY CORPORATION.

The capital stock of The Trestle Realty Corporation, owner of approximately one-third of a mile of track, a dock and certain real estate in Buffalo, was formerly owned, 1,510 shares by this company, 1,354 shares by the Fall Brook Coal Company and 2,011 shares by the Reading Company. During the year the company purchased 927½ shares at a cost of $51,375 55, and the Reading Company 426½ shares of the stock formerly held by the Fall Brook Coal Company. In February 1923 the capital stock of the Trestle Realty Corporation was increased from 4,875 shares to 5,000 shares, and in connection with the increase, this company and the Reading Company each acquired an additional 62½ shares at par, so that the investment of The New York Central Railroad Company and Reading Company in The Trestle Realty Corporation now stands at 2,500 shares each, of a par value of $100 per share.

ACQUISITION OF CAPITAL STOCK OF THE FORT WAYNE UNION RAILWAY COMPANY.

For the purpose of reaching the motor truck plant of the International Harvester Company and to open the territory in and about Fort Wayne for industrial development, the Fort Wayne Union Railway Company has been incorporated with an authorized capital stock of 3,000 shares of $100 par value, a total of $300,000. This company, the Pennsylvania Railroad Company, Wabash Railway Company and The New York Chicago and St. Louis Railway Company each acquired 200 shares, or $20,000 par value, of the capital stock of the Fort Wayne Union Railway Company. The remaining $220,000 of stock will be issued from time to time by the Fort Wawne Union Railway Company in such amounts and upon such terms and conditions as shall be unanimously authorized by the Board of Directors of the company or by agreement of the proprietor companies.

Appreciative acknowledgment is made to officers and employees of their loyal and efficient co-operation and service.

For the Board of Directors,

ALFRED H. SMITH, *President.*

PACIFIC OIL COMPANY

THIRD ANNUAL REPORT—YEAR ENDED DECEMBER 31 1923.

REPORT OF THE BOARD OF DIRECTORS.

To the Stockholders of the Pacific Oil Company:

Your Directors submit herewith the annual report of the Pacific Oil Company for the year ended December 31 1923.

The books and accounts of your Company have been audited by Price, Waterhouse & Company, a public accounting firm of the highest repute, who certified to the correctness of the General Balance Sheet, the Income Account, and a statement of the Profit and Loss Account, showing a net profit for the year of $8,938,111 27 (equivalent to $2 55 per share of stock of your Company issued and outstanding), as reproduced below.

Dividends on the capital stock of your Company were declared during the year, payable as follows:

(No. 5) $1 00 per share, paid July 20 1923	$3,500,000 00
(No. 6) $1 00 per share, paid Jan. 21 1924	3,500,000 00
	$7,000,000 00

EARNINGS.

The decrease in gross earnings is due principally to reduction in market price of oil. During the first half of the year 1922 the base field price for crude oil (of gravity ranging from 14 degrees to 17.9 degrees Baume) at the wells was $1 10 per barrel, whereas, during the last half of the year 1922, and during the entire year 1923, the base field price was $0 60 per barrel. During the early part of the year 1921 this base field price was $1 60 per barrel.

The reduction to the 60c. base field price was the result of further large increase in the production in the Southern California oil fields. The production for the State of California during the year 1922 showed an increase of 21.65% over that for the year 1921. The production during the year 1923 in turn showed an increase of 88.88% over that of 1922.

During this period of overproduction, your management deemed it wise to restrict your Company's production of oil to a greater extent even than during the year 1922, calling upon stored oil to meet its market needs; always, however, guarding its properties against depletion by adjoining owners.

OPERATING EXPENSES.

The increase in operating expenses is due, chiefly, to increase in oil transportation expenses, occasioned by the increase in the use, relatively, of pipe lines owned by the Pacific Oil Company, the Associated Oil Company and the Southern Pacific Company, with expenses divided according to use.

ADDITIONAL INVESTMENTS.

During the year your Company acquired an interest in a number of additional oil leases in Texas. No drilling on the Texas leases has been undertaken to date. It also acquired a number of leases in Southern California, on one of which a test well is being drilled. In a number of other leases in Southern California, your Company acquired an interest jointly with Associated Oil Company. On one of the latter leases, three wells are being drilled. A well was started in Alaska, during 1922, for joint account of the Pacific Oil Company and Associated Oil Company, but due to adverse market conditions work thereon was suspended during the latter part of 1923, to be continued this year.

Your Company acquired 433,900 shares (par value $1 00 per share) of the $1,000,000 par value, outstanding capital stock of the Miley-Keek Oil Company, which operates on valuable holdings in Southern California, and has a very substantial production of light crude oil. The remaining outstanding shares of capital stock are owned by the Associated Oil Company.

During the year, the Associated Supply Company acquired 4,005,439 barrels of fuel oil, in addition to the 541,465 barrels on hand at the beginning of the year. The Pacific Oil Company has a beneficial one-half interest therein as stockholder of the Associated Supply Company, the latter company being

owned one-half by your Company and the other one-half by Associated Oil Company.

The Associated Oil Company authorized an increase of $20,000,000, par value, in its capital stock, from $40,000,000 to $60,000,000 par value; and it also changed the par value per share of its stock from $100 00 to $25 00. During September 1923 the Associated Oil Company issued $10,000,000, par value, of this authorized additional capital stock, offering to its shareholders the right to subscribe, pro rata, to same, at par. Your Company acquired the proportion to which it was entitled by virtue of its ownership in the outstanding stock issue, and also to facilitate the offer of the above mentioned additional stock to stockholders, acquired, at par, 9771.06 shares, of $25 00 par value, Associated Oil Company stock, aggregate par value, $244,276 50, which had been reacquired by the latter company, years ago, after its issuance. Your Company also acquired, through operation of its agreement underwriting the entire $10,000,000 additional issue above mentioned, a number of shares not subscribed to by other shareholders of Associated Oil Company; and, in addition, purchased certain other shares in the open market. Incident to the issue by Associated Oil Company in December 1923 of $6,000,000 additional of its capital stock in exchange for the properties and assets of Amalgamated Oil Company, and to the disincorporation of the latter Company, additional shares of Associated Oil Company were acquired by this Company; so that its holdings aggregate 1,229,564.42 shares, par value $25 00 each, total par value $30,739,110 50, of the capital stock of Associated Oil Company, equivalent to 54.89% of the aggregate $56,000,000, par value, issued and outstanding, or substantially 58% of $52,999,400 balance of stck in hands of public after deducting $3,000,600 stock now in Associated Oil Company's Treasury.

OIL WELLS AND FIELD IMPROVEMENTS.

There were 595 wells in operation on December 31 1923; 13 new wells were being drilled and 14 wells were being redrilled on that date. Chiefly due to curtailment of production activities, 364 wells were inoperative on December 31 1923.

During the year, your Company expended in construction of field improvements, principally new wells, $3,171,050 22. Of this amount, $1,451,407 27 were charged to investment account, and $1,719,642 95 to income. In addition $350,000 were charged to operations as a provision against the cost of producing light oil to pay, at a future date, for fuel oil acquired from other companies.

PRODUCTION.

The total production for the year 1923 amounted to 9,604,591 barrels, compared with 12,838,466 barrels for the year 1922. The decrease is due to the shut-down of a number of wells, some of which are heavy fuel oil producers, and some light crude oil producers; this policy having been adopted incident to the increasingly large over-production of crude oil in the Southern California fields. Detail of production is as follows:

Field—		1923.	1922.	*Decrease.*
Coalinga	Barrels	760,723	1,322,142	561,419
Kern River	"	386,306	412,227	25,921
McKittrick	"	366,149	370,528	4,379
Sunset	"	8,091,413	10,733,569	2,642,156
Total	Barrels	9,604,591	12,838,466	3,233,875

The production of your Company is chiefly light oil having considerable value for refinery purposes, which is sold to other companies, payment being received in fuel oil, which in turn is disposed of to Southern Pacific Company and others. In these exchanges your Company earns a premium, also received in fuel oil.

SALES.

Fuel oil sales during the year 1923 totaled 19,506,506 barrels, against 16,250,002 during the year 1922, an increase of 3,256,504 barrels. The increase was due chiefly to the additional requirements of the Southern Pacific Company.

Oil on hand as of December 31 1923 amounted to 2,201,219 barrels, of which amount, however, 460,584 barrels had been received from other companies in advance on exchanges of our light oil for their fuel oil. Net storage, therefore, amounted to 1,740,635 barrels, compared with 3,332,563 barrels on hand as of December 31 1922, reflecting a decrease of 1,591,928 barrels. This decrease is due to decrease in production. This is offset by your Company's interest in oil owned by the Associated Supply Company, already mentioned.

In addition to foregoing, there were on hand as of December 31 1923 58,682 barrels of tops.

OTHER OPERATIONS.

During November and December of the year 1923 your Company transported some of its refinable crude oil to Associated Oil Company's refinery located on San Francisco Bay, where the oil was put through a refining process. The manufactured tops (58,682 barrels) were stored for future profitable disposition. These operations have been extended into the year 1924 and will be carried on as long as deemed advisable.

GENERAL.

The demand for both crude and fuel oil is increasing, and the production from the new fields in Southern California has passed its peak. The base field price has increased from 60c. to $1 00 per barrel since January 1 1924. Although your Company's holdings are situated almost entirely in the San Joaquin Valley, it is also interested in some Southern California leases, already referred to in this report. More materially, however, is your Company interested in Southern California through its ownership of stock of the Associated Oil Company, which in turn also owns major interests in subsidiary companies operating in those fields.

Your Company, as of December 31 1923, owned interests in affiliated enterprises as shown in the following schedule:

Affiliated Companies.	*Par Value per Share.*	*Capitalization.* *Authorized.*	*Capitalization.* *Outstanding.*	*Owned by Pacific Oil Company.*
Associated Oil Co.	$25 00	60,000,000 00	a56,000,000 00	30,739,110 50
Associated Pipe Line Co.	100 00	10,500,000 00	b10,500,000 00	3,500,000 00
Associated Supply Co.	100 00	500,000 00	c500,000 00	250,000 00
Miley-Keck Oil Co.	1 00	2,000,000 00	d1,000,000 00	433,900 00

Note.—*a* $3,000,600 00 of this amount is in Treasury of Associated Oil Company; therefore only $52,999,400 00 of outstanding stock of the latter Company take dividends from its treasury. *b* Associated Oil Co. owns 33 1-3% of outstanding capital stock. *c* Associated Oil Co. owns 50% of outstanding capital stock. *d* Associated Oil Co. owns 56.61% of outstanding capital stock.

By order of the Board of Directors,

PAUL SHOUP, *President.*

May 8 1924.

COMMERCIAL EPITOME

[The introductory remarks formerly appearing here will now be found in an earlier part of the paper immediately following the editorial matter, in a department headed "INDICATIONS OF BUSINESS ACTIVITY."

Friday Night, May 30 1924.

COFFEE on the spot was in fair demand at times with firm offers from Brazil scarce. There was on the other hand no great pressure to buy. No. 7 Rio at one time was 14¼ to 14⅜c.; No. 4 Santos 18½ to 19½c.; fair to good Cucuta 20 to 20¾c.; Bogota 23½ to 24½c.; Medellin 24½ to 25¼c. On Monday early firm offers included Santos 4s.-5s. at 16.45 to 17½c. in contrast with 16 to 16.35c. last week; Rio 7s. at 13.45c. to 13.70c., against 13 to 13.30c. last week; Victoria 7s.-8s. at 12.40 against 12.35c. Rio 7s., July, 13.55c., August 13.40c.; Santos 2s.-3s. May-June 18.20c.; 3s.-6s. 16.75c. Mild coffee has not sold readily. Importations are liberal and stocks are increasing though they are still much smaller than a year ago. Later Rio 7s. were quoted at 14⅜ to 14½c. and Santos 4s. at 18½ to 19c. Medellins were quoted 23¾c. in first hands. On Thursday No. 7 Rio was quiet at 14⅜ to 14½c.; No. 4 Santos 18½ to 19¼c. A Santos cable said that holders were anxious to sell and that one offer was at a decline of ¾c., i. e., 4s. at 17c.

Futures advanced on the 26th inst. some 30 to 40 points with sales of 24,000 bags. Rio was 150 to 200 reis higher. Santos rose 125 to 675 reis. Rio exchange on London was 5-32d. higher at 6 1-16d. and the dollar rate 110 reis lower at 9 $100. Santos cabled: "The decline in exchange caused an acceptance of all reasonable offers. The week closed more confident regarding milreis prices, which seem at bottom and upwards, possibly very low stuff excepted. Shorts commenced buying. Holders of desirable grades are reluctant sellers. More coffee business would stiffen exchange." It is pointed out here that at about this time in 1923 future months were at a discount as everybody looked ahead for a big Santos crop. Things are different to-day. The Brazilian crop is expected to be small. Even with the Santos carry-over it will, it is urged, hardly measure up to the prospective consumption. Prices for all months are below replacement costs. The situation, it is contended, being anomalous cannot last. As each month delivery time approaches it is likely to do as it has done for some time past; or that is, advance. Europe as well as the United States has recently bought sparingly; in fact for three months past Europe has bought from hand to mouth, not caring to buy as it did at one time of the lower grades and rain-damaged Santos. American importers are very cautious, fearing the effect of the plethora of low grades of Santos in the present crop. The United States does not want them. Europe may relieve this situation when it re-enters the markets. The annual report of the Brazilian Warrant Co. says the 4,500,000 bags of valorization coffee which hung over the market a year ago has been sold; also it is recalled that a year ago a large amount of Santos coffee had been sold for future shipment. Sales of this kind thus far have been almost negligible. That means just so much prospective buying. It may conceivably be large. Some think the turn in coffee is not far off, if it has not yet begun. Some believe it has. Deliveries of Brazil coffee in the United States for the three weeks of May were 390,000 bags, against 320,600 in April and 393,100 in May a year ago. On the 27th inst. prices advanced with the Brazilian cables higher. A Brazilian banker cabled: "After first month picking, owing to poor outturn in weight, we can assure you that the Santos crop of 1924-25 will not reach 6,000,000 bags. My personal opinion is that it will be lower. The present crop, including stocks on farms and railroads, will not be over 14,500,000 bags." On Thursday prices for futures declined on pre-holiday liquidation. The Exchange will be closed to-day and also to-morrow. No public cables were received from Brazil, there being a holiday there. For the week there is a net rise of 41 points. At one time the advance was some 61 to 65 points.

July ----- 12.76@ ----	December 11.66@11.67
March ----- 11.41@nom	

SUGAR.—Cuban raws fell to a new low of 3 3-16c. with more business. Early in the week trade was quiet at 3½c. with 3⅛c. the best bid even for later June shipment. Some 40,000 bags of Porto Rico sold at 5.15c. or 3⅜c. Refined was quiet and lower at 6.90c., later 6.80c. In the United Kingdom prices bid were lower on San Domingo, a small lot selling at 18s. 6d. or equal to about 3.34c. f. o. b. Cuba. Cuban was offered at 19s. 3d. American granulated was 25s. 9d. or 4.65c. f. a. s. New York against 26s. 6d. late last week. On the 27th inst. raw prices fell to new record lows. Some 1,000 tons of Philippines due about the middle of June sold at 4.99c., equal to 3 7-32c. for Cuba. Later Porto Rico sold still lower at 4.96c. or equal to 3 3-16c. for Cuba. On Tuesday the trading in futures was estimated at 94,200 tons and prices closed 6 to 8 points higher regardless of the drop in raws to a new low and the marking down of refined to 6.80c. in an unresponsive market. Porto Rico sold at 3 3-16c. for 40,000 bags loading June 9th taken by an operator. British refined fell 1s. with raws 18s. 6d. the same as on the previous day. At times the trading in futures have been large though not so large as the total transactions in futures on the 23rd inst., the largest ever known; that is 133,350 tons or 30,000 tons in excess of the previous record of 103,350 tons of March 1923. One refinery sold at 6.95c. in bags and 7c. in bbls.

Wall Street has made, it is said, some fairly heavy investment purchases of September and December sugar on the idea that sugar is selling below the cost of production. Later at the decline refiners bought more freely. At around 3¼c. level for raws from 125,000 to 150,000 bags were taken from the market by them on the 27th inst., and for the first time for several weeks sellers found no difficulty in selling. In view of the heavy decline and of the fact that sugars are at the lowest point seen for a long time, some were inclined to look for a rally. Sugar is 50% lower than a year ago while a crop hardly 10% in excess of last year's final outturn is estimated for this year. It is contended in some quarters that the pendulum has swung downward too violently and that warmer weather conditions may easily lead refiners to buy on a much larger scale. Some recall that in the spring of 1923 the normal trade buying for summer needs was greatly delayed and this in conjunction with the Government interference with the sugar business left refiners with large supplies in a dull market. Just now a somewhat analogous situation some think exists. The trade has held off; it is not well supplied. A sharp demand is needed to relieve the situation. Until it comes refiners may not continue to buy raws very freely whether their stocks of raw are down to a low stage or not. Cuba will have to bide its time. Fortunately for the planter he did the same as in 1923. He sold freely early in the year at the higher prices. They are in all the better position financially for having again pursued these wise tactics. It is contended that there is now no necessity for the great bulk of the planters to push their sugars on the market.

It is believed that the actual consumption is about normal, although buying ahead has been curtailed by cold, unseasonable weather. Some think this year's fruit crops will be large, as, after all, contrary to the usual experience, there was no killing frost in the early spring. That fact might greatly help to increase home consumption. Some contend, too, that most of the raw sugars that have come on the market during the period of low prices have come from small producers. Rumors were current at one time that what remains is being quietly bought up in Cuba. Some argue that even if the Cuban crop turns out to be the unprecedented total of 4,075,000 tons, the decline from 5⅝ to 3 3-16c. within a period of a few months has largely if not entirely discounted the apparent oversupply of the world's available sugar. On Wednesday prices rallied to 3½c. for Cuba c. & f., a rise of 5-16c. from the low. Out-of-town refiners bought. Cuban raw in the United Kingdom was 18s. to 18s. 6d. Some reports declared that European beet crops were looking well. Receipts at Cuban ports for the week were 52,155 tons, against 102,343 last week, 58,783 last year and 80,253 in 1922; exports, 69,721 tons, against 100,355 last week, 83,151 last year and 97,505 in 1922; stock, 942,918 tons, against 960,484 last week, 708,909 last year and 1,043,420 in 1922. Centrals grinding totaled 35, against 53 last week, 11 last year and 51 two years ago. Of the exports United States Atlantic ports received 54,288 tons, New Orleans 7,197, Savannah 5,125 and Europe 3,111 tons. Havana cabled: "Rain continues."

A London correspondent writes to the "Federal Reporter": "The deficiency in importations of refined from your side during April has been as in the last few months, fully compensated by supplies from the Continent, chiefly from Holland, which probably means Germany under another

name. Importations from our special sources of supply do not vary materially from last year, the excess being from Cuba and San Domingo. The falling off in consumption is largely due to the budget, but the expected increase of demand after that event is not yet very apparent. Our stock is now clearly ample to carry us to the new crop sugars. The effect of these stocks combined with the dulness with you, is depressing and the market was only saved from a decided decline by the extensive covering of shorts, who seem content to accept their large profits. Trade demand is as slow as ever."

Havana cabled that a total of 141 sugar mills had completed grinding, their total output being reported at 20,659,161 bags. This compared with the Himely estimate for these mills of 19,447,000 bags. It is now said that Himely has increased his estimate to 4,050,000 tons as compared with his previous estimate of 3,985,000 tons. It looks like a record crop, perhaps 4,100,000 tons.

The "Louisiana Planter" said: "Showers again occurred in the sugar district during the week and in some localities there was a moderately heavy rainfall. The weather, while showing some improvement over the previous weeks, still continues too cool for the rapid growth of the cane. Warm weather, especially warm nights, are essential for the rapid growth which is now a necessity in order to make a fair crop. The cane continues decidedly backward and stands spotted. The stubble is reported not very promising in many localities. Field work is well in advance and the ground is in excellent condition. Favorable weather, which is now long overdue, would greatly aid the development of the crop." Beetroot sowings in Germany, it is said, will increase only 4.54%, as compared with a previously estimated increase of 20%. On Thursday futures showed practically no net change. They ended 3 points lower to 2 points higher. For the week there was a rise of 1 to 5 points. On Thursday the sales of futures were estimated at 38,500 tons. Spot Cuba and Porto Rico was sold at 3½c., with a moderate business only on the eve of the holiday. But the tone was better. Refiners were disposed to bid 3½c. for later June shipments with 3⅝c. asked at the close. An interesting point was that refined was in better demand, at 6.70 to 6.75c. British cables reported larger sales of nearby part cargoes of Cuba at 18s. 9d., as against 17s. 9d., the best bid the day before.

Spot unofficial	3½c	September	3.76@	March	3.26@
July	3.62@3.63	December	3.51@3.52		

LARD on the spot was steady in the forepart of the week though trade at best was only moderate. Prime western 10.90 to 11c.; refined Continent 11.50c.; South America 12.25c.; Brazil 13.25c. Futures were steady with a fair demand to cover and some support was forthcoming from spot holders. Chicago looked for receipts of 165,000 hogs this week. Bulls were a bit mystified by the sluggishness of the market and cottonseed oil traders were inclined to go slow as long as lard was so dull even though the cotton statistics are bullish and the crop outlook uncertain. Later in the week trade was dull and prices depressed. They went to a new low in company with lower prices for hogs, lower cables and good receipts. At the same time export trade was still dull. On Thursday prices showed practically no change. For the week there is a net decline of 5 points.

PORK quiet; mess, $27. nom.; family, $27; short clears, $22 to $26. Beef steady; mess, $16 to 17; packet, $17 to $18; family, $21 to $23; extra India mess, $33 to $35 nom.; No. 1 canned corned beef, $2 35; No. 2, $4; 6 lbs., $15; pickled tongues, $55 to $65 nom. per bbl. Cut meats steady but quiet; pickled hams, 10 to 24 lbs., 13¾ to 16½c.; pickled bellies, 6 to 12 lbs., 10½ to 11c. Butter, creamery, lower grades to high scoring, 33 to 40c. Cheese, flats, 18 to 25c. Eggs, fresh gathered trade to extras, 23 to 29½c.

OILS.—Linseed has been steady but business is small. There is quite a large movement against old contracts, but consumers are purchasing very sparingly. Paint and linoleum manufacturers are inquiring more freely. Spot car lots May-June, 94c.; tanks, 88c.; less than car lots, 97c.; less than 5 bbls., 99c. Cocoanut oil, Ceylon, bbls., 9½c. Corn, crude, tanks, mills, 8⅛c.; edible, 100 lbs., 12¼c. Olive, $1 25@$1 30. Cod, domestic, 61@63c.; Newfoundland, 63@65c. Lard, prime, 13½c.; extra strained, New York, 12c. Spirits of turpentine, 87c. Rosin, $5 65@$7 75. Cottonseed oil sales to-day, including switches, 5,100 P. Crude S. E. 800 bid. Prices closed as follows:

Spot	c 9.80@9.90	August	c 9.85@9.95	November	c 8.87@9.95
June	9.80@9.90	September	9.96@9.97	December	8.79@8.89
July	9.79@9.81	October	9.53@9.56	January	8.75@8.90

PETROLEUM.—Gasoline demand, though better than recently, is not up to expectations. Stocks are accumulating and many in the trade look for a further reduction in prices. Refiners are offering more freely. The foreign demand has been almost at a standstill. Kerosene has been dull at 14c. in tank wagons. There has been a fair inquiry for bunker oil but actual business is small. Gas oil has been quiet. Stocks of lubricating oil are large and there is more pressure to sell. Pennsylvania, 600 s.r. in barrels New York was available at 28c. and Western 600 s.r. cylinder stock at 17c. New York prices: Gasoline, cases, cargo lots, 28.15c.; U. S. Navy specifications, 14c. Naphtha, cargo lots, 15.25c.; 63-66 deg., 17c.; 66-68 deg., 18.50c. Kerosene in cargo lots, cases, 16.90c. Petroleum, refined, tank wagon to store, 14c. Motor gasoline, steel barrels, 20c. Tulsa, Okla., wired May 25: "Oklahoma operators are evidently restricting drilling activities to necessary wells, the operations during the week showing a total of only 78 wells. Production in the new Cromwell pool of Seminole County is expected to mount rapidly with the completion of several wells on hand. The Burbank field continues to disappoint purchasers of the $1,000,000 acreage. Several recent completions have started with small flows, shots being required in most instaces." Tulsa, Okla, wired: "Rumors of a possible gasoline tank wagon reduction by the Standard Oil Co. of Indiana add to the current pessimism."

RUBBER declined early in the week with London. Business was done in spot and May smoked ribbed sheets at 18¾ to 18⅞c. and in first latex crepe with New Jersey tire manufacturer at 19⅛c. Manufacturers on the whole have been pretty good buyers recently of spot and nearby rubber, but are not taking very much for distant delivery. Smoked ribbed sheets, June, was quoted at 18¾c.; July, 19c.; July-Sept., 19¼c.; Oct.-Dec., 19¾c. First latex crepe, June, 19¼c.; July, 19½c.; July-Sept., 19¾c.; Oct.-Dec., 20¼c. Late in the week the market was quiet. Spot was firmer at 19c. for smoked ribbed sheets, owing to their scarcity for immediate delivery. May and June smoked ribbed sheets were quoted at 19c., with July at 19⅛, July-Sept. at 19¼c. and Oct.-Dec., 19¾c.

HIDES have been quiet and more or less unsettled. Bogota 18½ to 20c.; Orinoco 16½ to 17c.; country 7½ to 10c.; packer 8 to 15c.; including native steers at 12 to 12½c.; city spreads 14½ to 15c.; butt 12c.; bulls 8c.; frigorifico steers 11 to 15c.; cows 11½c. River Plate reported sales of 4,000 La Blanca steers at $38⅜, or 14⅛c. c.&f. Later the River Plate reported sales of 4,000 La Plata frigorifico steers at $37, or 13½c. c.&f.

OCEAN FREIGHTS were quiet in the North Atlantic, but River Plate business at one time was good. In general there was no urgent demand for tonnage, though recent business in grain room was fair. The tendency of rates has recently on the whole been downward. The supply of tonnage, it is true, has not been over large; the trouble is that the demand has not been either.

CHARTERS included grain from Montreal to United Kingdom, 4s. 1½d.; from Montreal to Greece, 22c. June; from Montreal to Mediterranean, 19c. June; petroleum from Beaumont to Antwerp, 50s. June; from North Atlantic to Marseilles, 44s. June-July; from North Atlantic to Rouen, 42s. 6d. July; sugar from Santo Domingo to the United Kingdom, 25s. 6d. June; sulphur from Sabine to Sweden, $5 June; sugar from Cuba to United Kingdom or Continent, 22s. 9d. prompt; sugar from Santo Domingo to the United Kingdom or Continent, 25s. early June; coal from Hampton Roads to River Plate, $3 80 a ton June; steamer West Indies trade, $1 25. There was a report of an order for 40,000 to 50,000 tons of coal for shipment within two months from this side to Alexandria at around $3 75.

COAL has been rather firmer on soft coal but quiet. Boston wired that offerings of high grade low volatile West Virginia coal at $5 50 a gross ton on cars Boston recently made had been withdrawn and for Pool 1 run of mine $5 75 was asked on cars, Boston. Pittsburgh reported a revival of business in Connellsville with a three-months contract, 10,000 to 12,000 tons a month of furnace coke for a Shenango Valley furnace beginning in June supposedly at something like $3 50. Generally the present quarter is quoted at $4 25 made early in the year. Wage cuts, it is said, are to be made. Coal consumption is smaller than in the last quarter of 1923. Then it was being used up at the rate of about 10,200,000 tons a week. The Geological Survey says that consumption has fallen off as much as production. Consumers are using up their stocks.

TOBACCO has shown little life, so far as American tobacco is concerned. New Sumatra has attracted some attention and a fair business is reported. After so prolonged an abstention from active buying, it is believed that manufacturers stocks of tobacco are, to put it mildly, anything but burdensome. Some think they are actually small. It is said that sales of cigars are gradually increasing. That is taken by some to mean that before very long buyers will have to re-enter the market for supplies on no inconsiderable scale. In Havana, tobacco trading is not expected to show much activity for a month or two. In North Carolina loans to farmer members of the Tobacco Co-operation Association will soon exceed $1,000,000 through the newly formed Agricultural Credit Corporation.

COPPER has been in fair demand and steady at 12¾ to 12⅞c. for electrolytic. English buyers have been purchasng more freely at 12¾c. aside ship New York. Large agencies are said to have sold considerable copper. An encouraging feature is the way the market has taken these sales.

However, the belief is prevalent that if these agencies continue to sell at present prices it will in the long run depress prices. Inquiries on the other hand are said to have been quite large. Some think a rally is due. On Saturday one producer was reported to have sold 2,000,000 lbs. Wonderment is expressed that prices keep at so low a level in the face of the statistical position and large sales thus far this year. The output in this country in the first three months of 1924, it is said, was only 316,000 tons, against 965,000 for the whole of 1923. Deliveries for the there month period were 352,000 tons, in contrast with 1,025,000 tons for all of 1923. That would suggest a production in the United States at the rate of 1,264,000 tons for 1924, against 965,000 for 1923. But on the other hand, deliveries are at the rate of 1,408,000 tons this year, against 1,025,000 for all of 1923, or 383,000 tons more than in 1922. Moreover, recent estimates put the surplus stocks on hand on April 30 at only 220,000,000 lbs., against about 310,000,000 on Jan. 1 1924. That looks like the best statistical exhibit, according to some, since the close of the war, Nov. 11 1918. Of course the trouble in the copper trade was that it got on a war basis of production in 1914-1918 and held it too long after the return of peace. The same thing has happened in some other industries.

TIN advanced in sympathy with a rise in London. Business here has been rather quiet, however. A bullish factor was the report that the Malay States Government has stopped selling its quota of tin at the lower prices, recently prevailing. Spot 41⅛c.

LEAD has been in better demand and prices are about steady. The leading producer continues to quote 7c., New York; outside is 6.90 to 7c.; East St. Louis, 6.65 to 6.70c. London was higher early in the week. Spot lead rose £1 5s. there on Monday and futures 5s. to £27 15s. The next day some of this advance was lost.

ZINC advanced both here and in London. Spot New York 6.12½ to 6.17½c.; East St. Louis 5.77½ to 5.82½c. But zinc is selling below cost of production and what is needed at the present time is a reduction in tri-State output of ore.

STEEL has shown less depression, though the feeling is still more or less disturbed and some would not be surprised to see a further if temporary decline. Still others are inclined to believe that the turn of the tide is not far off. The decline has been protracted. So has the dullness of trade in most directions. Some large concerns are working on only a 50% basis. The steel ingot output will naturally be reduced by shutdowns for wo days, as Memorial Day this year comes on Friday. Sooner or later buyers must return. They will find the statistical position stronger what with reduced output and delayed buying. Within the past week finished steel has sold a trifle more readily. It is true that plates have been sold recently on a worth-while tonnage at something under 1.90c. Pittsburgh basis by the Middle West. And in the East they have been quoted at 2c., though some Pittsburgh quotations are still 2.15c. Railroads are in the market for a fair quantity of plates, shapes and bars. The composite price of bars and beams is now about 2.62c. per pound, the lowest since the early part of 1923. Pittsburgh reports a more hopeful tone, though the steel ingot output is less than 60%. Finished steel and production and shipments are running somewhat higher. Billet rolled rails have sold there at $1 to $2 per ton below the nominal prices, but in general the quotation is 2c. Standard spikes, on the other hand, have sold at 2.90c., with tie plates at 2.50 to 2.55c. For standard track bolts, it is reported the price has been shaded to 3.75c. The strike of structural iron workers is said to be practically over, on 60% of the building which was suspended on May 1.

PIG IRON has latterly been reported rather more steady at $22 to $23 for eastern Pennsylvania and $22 at Buffalo, where, it is said, $21 50 was refused. One furnace in eastern Pennsylvania has blown in again. The question arises whether that is a straw showing which way the wind is blowing or will begin to blow before long. Birmingham quotes $21 to $22 with sales of small lots. Recent sales of various grades of pig iron by western Pennsylvania and Lake front interests have been, it is stated, some 90,000 tons. In most parts of the country, however, trade is still quiet. Southern Ohio declined $1 and at one time sales of eastern Pennsylvania and norther iron were said to have been made at St. Louis on the basis of $22 Chicago. But rumors of large sales of Buffalo iron have not been confirmed. The composite price of iron is down a shade to below $21, showing a decline within twelve months of some $7 80. The increased sale of pig iron encourages some to believe that the decline is at or near its culmination. Pittsburgh wired on May 27 that the Sharpsville Furnace Co. will blow in all its blast furnaces next week. The company consumes about 12,000 tons of coke monthly.

WOOL has been dull and weak. At the West there has been some business, but here and at the East the market has been slow. At the West 40 to 42c. was said to be the average prices paid for the bulk of Western wools. Now and then small lots are sold at somewhat higher prices. Here nominal prices include Ohio and Pennsylvania fine delaine, 54 to 55c.; XX, 51 to 52c.; ½ blood, 54 to 55c.; ⅜ blood, 53 to 55c.; ¼ blood, 50 to 52c.; Territory, clean basis, fine staple, $1 33 to $1 35; medium, French combing, $1 30 to $1 32; medium, clothing, $1 32 to $1 25; ½ blood, staple, $1 23 to $1 25; ⅜ blood, $1 08 to $1 10; ¼ blood, 92 to 94c.; Texas, clean basis, fine, 12 months, $1 32 to $1 33; 10 months, $1 18 to $1 22; 6 to 8 months, $1 05 to $1 08. Mohair was reported steady in Boston, though the demand was moderate. The rail and water shipments of wool from Boston from Jan. 1 1924 to May 22 1924, inclusive, were 76,641,000 lbs., against 64,806,000 lbs. for the same period last year. The receipts from Jan. 1 to May 22, inclusive, were 127,017,100 lbs., against 277,975,500 lbs. for the same period last year." Domestic, Ohio and Pennsylvania (Boston) delaine, unwashed, 52c.; ½ blood combing, 52 to 53c.; ⅜ blood combing, 48 to 50c. Michigan and New York fleeces: Delaine, unwashed, 48 to 49c.; ½ blood unwashed, 48 to 50c.; ⅜ blood unwashed, 47 to 48c.; ¼ blood unwashed, 45 to 46c.

The Department of Agriculture at Washington has prepared a set of proposed international wool grades and shipped them abroad for the approval of the British Wool Federation. The grades are a correlation of the American grades and a set of sample grades representing the composite ideas of the English trade as to a diameter of fibre of the average Bradford quality, based on the English count system. Refinements of the present official American grades have been made to complete the correlation. American grade fine is subdivided into 64s, 70s and 80s; ½ blood into 58s and 60s; ⅜ blood equals 56s; ¼ blood has been subdivided into 48s and 50s; low ¼ blood into 44s and 46s; common equals 40s and braid equals 36s. Adoption of the international standards will relate only to trading between the United States and Great Britain, but it is proposed later to make similar arrangements with other countries with a view of establishing a universal standard applicable in wool trading all over the world.

COTTON

Friday Night, May 30 1924.

THE MOVEMENT OF THE CROP, as indicated by our telegrams from the South to-night, is given below. For the week ending this evening the total receipts have reached 49,129 bales, against 50,868 bales last week and 52,395 bales the previous week, making the total receipts since the 1st of August 1923, 6,421,608 bales, against 5,521,738 bales for the same period of 1922-23, showing an increase since Aug. 1 1923 of 889,870 bales.

NOTE.—*Exports to Canada.*—It has never been our practice to include in the above table exports of cotton to Canada, the reason being that virtually all the cotton destined to the Dominion comes overland and it is impossible to get returns concerning the same from week to week, while reports from the customs districts on the Canadian border are always very slow in coming to hand. In view, however, of the numerous inquiries we are receiving regarding the matter, we will say that for the month of April the exports to the Dominion the present season have been 10,746 bales. In the corresponding month of the preceding season the exports were 19,133 bales.

For the nine months ending April 30 1924 there were 130,773 bales exported, as against 169,614 bales for the corresponding nine months in 1922-23.

In addition to above exports, our telegrams to-night also give us the following amounts of cotton on shipboard, not cleared, at the ports named.

May 30 at—	On Shipboard, Not Cleared for—						Leaving Stock.

* Estimated.

Speculation in cotton for future delivery was active early in the week at higher prices, owing to rains, cold, bad crop reports, fear of an unfavorable crop report by the Government on June 2, and finally, on large covering. Trading was the largest for weeks past. Veterans recall that a June 2 report below the ten-year average is rarely the herald of a satisfactory yield. The ten-year average for June 2 this year is 72.8. Private reports thus far issued have in general ranged from 66.1 to 67.5. The crop estimates have ranged from 11,107,000 to 12,500,000 bales, but $12,500,000 was estimated in only one instance, that of the Memphis "Commercial-Appeal." Otherwise, the average would be 11,300,000, against 10,081,000 last year, 9,761,000 two years ago and 7,953,000 in 1921. A yield of 12,000,000 to 12,500,000 bales is badly needed, and one of 13,000,000 would be just so much the better. But weevil is reported in three counties of Alabama, i. e. Henry, Barbour and Houston. Cut worms are said to have done damage in Texas. With the exception of some sections in Mississippi and Alabama it seems there has been too much rain. On the other hand, some are planting considerably more land, hoping to beat the weevil in this way.

Meantime among the things ahead taken for granted is that the carry-over on July 31 will be very small. Mills have sold some, perhaps considerable, of their raw cotton. It paid better to sell it at a good premium than to sell goods at a discount that hurt. But mills will later on have just so much more to buy, especially if it should turn out, as some begin to suspect, that the American cotton goods industry has turned the corner for better times. That point is bound to be reached if it has not been reached already. Goods prices, it is felt, discount a big crop. Some goods are, it is said, higher now in Europe than in the United States. Of late Worth Street has been rather more active, with prices rather steadier. A big mail order house in Chicago, it is said, will report an exceptionally large business for the month of May. Trade has been held back largely by bad weather, which cannot last always. At times Manchester has reported a better demand for cloths, while yarns were firm. A lockout at Oldham has been averted for at least a week, and it may be that before that time has expired the trouble in regard to wages in one of the mills there may be settled. The curtailment on this side cannot fail to work to the advantage of the mills in the end.

Meanwhile there has been considerable buying of October and other months, owing to the bad crop news. At times there has been something almost like a cloudburst in Texas and Alabama. In Alabama on Tuesday rainfalls were reported of 3½ to 4½ inches. Alabama and Mississippi had tornadoes. Texas on Monday had rains of 1 to 3 inches, in many parts of the State, especially in the northeastern. The crop in many parts of the belt is said to be two weeks late, and in some three or four weeks late. What the cotton country needs now is a somewhat protracted period of hot weather with little, if any, rain. Weeds and grass are complained of here and there. Continuous rains, of course, tend to propagate the boll weevil. In any case the start of the crop is late. The plant loses that advantage in its contest with the weevil and other pests. At the same time the conditions have not been the best in the world for the use of calcium arsenate, which it is often complained, is washed off the plant by continuous heavy rains. It is significant that the trade in arsenate is reported quiet, with the tendency of prices downward. Naturally it will not do to dogmatize about the size of the crop at the end of May. It is really made in July and August. But on the whole it has been a wet May. That is supposed to be a bad thing, especially in parts of the belt. Meantime the Giles condition report puts the condition at 67.6%, against 71% a year ago (Government figures), 69.6 in 1922, 66 in 1921, 62.4 in 1920, 75.6 in 1919, 82.3 in 1918, 69.5 in 1917, 77.5 in 1916, 80 in 1915 and 74.3 in 1914, or a ten-year average of 72.8%. The National Ginners' Association stated the condition at 67.2%. Texas is put at 65 to 69, against 77 last year, 61 two years ago and a ten-year average of 72. Georgia is given as 64 to 69 in various reports, against 65 last year, 71 in 1922 and 72 as the ten-year average. Some of the reports vary widely. But they are practically a unit in declaring the crop condition to be regrettably low.

But on the other hand, as the three-day holiday period drew near there was considerable profit-taking, not only here, but also at New Orleans and Liverpool. New York closed on Thursday night not to reopen until Monday, June 2, the day on which the Bureau report will be issued. There had recently been a sharp advance. Many deemed it advisable to liquidate. A number of large houses here did so. Besides, the temperature showed a tendency to rise, from being in the 40's and 50's at 8 a. m., they were in many cases in the 70's at that hour on the 27th inst. This fact was the subject of general comment. Also, it is recognized that a period of hot weather might easily put a very different face on the crop outlook. As far as New York is concerned, both New Orleans and Liverpool exchanges were in session today and will be to-morrow, while on both days the New York Exchange had arranged to close. It seemed a matter of prudence, therefore, to clear the decks, lest something should happen in the interim and cotton prices in Liverpool and New Orleans take a sharp turn either upward or downward. Of late, too, some of the acreage estimates were rather higher than they were recently, when they were in some cases only 3½ to 4% larger than that of last year. This week some of them had been 5.5 to 5.7%. And there is no doubt that the South as a whole will make a determined effort to raise as large a crop as possible. At times Liverpool has been selling here as well as Wall Street and local interests. Spot houses have also sold. Not a few who bought October early in the week were sellers of July. Recently July was at a premium of nearly 400 points over October. But on the 26th inst. it was down to 280 and ended at 285 points. To be sure, it closed on the 27th inst. at 302 points, but even so, it is still far below the maximum premium quoted a short time ago. Many refuse to trade in July. The situation in that month is more or less acute. But most people prefer to deal in the new crop months. Meantime it is a weather market. That means, of course, that it is a very uncertain market, uncertain as the weather vane. It is felt that a period of very favorable weather would have a distinctly depressing effect on prices. A certain amount of trade in goods has been irreparably lost because of the cold wet spring all over the country. Some believe, too, that unemployment accounts in a measure for the reduced buying. Curtailment of output has prevailed in some of the biggest industries of the country. Theoretically, at least, this has affected the buying power of workers.

On Wednesday a large Wall Street operator was credited with selling out some 50,000 to 60,000 bales, mostly October, owing to the fact that the weekly Government report, though in many respects bad, was on the whole better than expected, especially in the southern part of the belt. Some reasoned that there had been an exaggeration of bad conditions and that possibly the Government report on Monday next which everybody had been assuming would be bad, might not turn out to be quite so bad as expected. On the 28th inst. a number of private reports were issued putting the condition at 65.5 to 67.5. The average of 12 reports is 67, or 4 points under the Government report of a year ago, and 5.8 under the ten-year average for May 25.

On Thursday prices were irregular, but ended slightly higher for the day in an evening up market. Liverpool was weaker than expected and the weather was more favorable in Texas in this respect, at least, that temperatures were higher. They were also higher in other parts of the belt. But heavy rains were reported in some parts of the central and southwestern sections of the belt. Moreover, the forecast was for showery and cooler weather in most sections. Fall River's sales for the week are estimated at 55,000 pieces of print cloths. This is a distinct improvement, though far below normal trade. Worth Street of late has been steadier with rather more business. But Manchester complains of dulness of business and unsatisfactory bids for cloths. Everybody is now awaiting the Government report, which will be received here at noon on Monday, June 2.

The general expectation is for a condition of something like 67 to 67.5. Prices show an advance for the week of 35 points on July and 40 to 50 points on other months. Spot cotton closed at 32.65c. for middling, an advance for the week of 30 points.

As stated above, the New Orleans Cotton Exchange was open to-day (Friday) and the result of the dealings there was an advance to substantially higher levels. The spot price rose from 30.88 cents to 31.05, and future options advanced 21@28 points.

The official quotation for middling upland cotton in the New York market each day for the past week has been:

May 24 to May 30—	Sat.	Mon.	Tues.	Wed.	Thurs.	Fri.
Middling upland	32.70	32.85	32.65	32.55	32.65	Hol.

NEW YORK QUOTATIONS FOR 32 YEARS.

The quotations for middling upland at New York on May 29 for each of the past 32 years have been as follows:

1924	32.65c.	1916	12.90c.	1908	11.40c.	1900	9.12c.
1923	28.60c.	1915	9.60c.	1907	12.50c.	1899	6.25c.
1922	21.50c.	1914	13.75c.	1906	11.70c.	1898	6.56c.
1921	13.15c.	1913	11.80c.	1905	8.70c.	1897	6.62c.
1920	40.00c.	1912	11.50c.	1904	13.20c.	1896	8.00c.
1919	33.15c.	1911	15.80c.	1903	11.70c.	1895	7.38c.
1918	30.10c.	1910	15.30c.	1902	9.50c.	1894	7.25c.
1917	21.85c.	1909	11.40c.	1901	8.25c.	1893	7.62c.

MARKET AND SALES AT NEW YORK.

The total sales of cotton on the spot each day during the week at New York are indicated in the following statement. For the convenience of the reader we also add columns which show at a glance how the market for spot and futures closed on same days.

	Spot Market Closed.	*Futures Market Closed.*	*SALES.*		
			Spot.	*Contr't.*	*Total.*
Saturday	Steady, 35 pts. adv.	Steady	----	----	----
Monday	Steady, 15 pts. adv.	Barely steady	----	8,700	8,700
Tuesday	Quiet, 20 pts. dec.	Steady	----	1,200	1,200
Wednesday	Quiet, 10 pts. dec.	Steady	----	5,700	5,700
Thursday	Steady, 10 pts. adv.	Barely steady		14,600	14,600
Friday	HOLI	DAY			
Total			----	30,200	30,200

THE VISIBLE SUPPLY OF COTTON to-night, as made up by cable and telegraph, is as follows. Foreign stocks, as well as the afloat, are this week's returns, and consequently all foreign figures are brought down to Thursday evening. But to make the total the complete figures for to-night (Friday), we add the item of exports from the United States, including in it the exports of Friday only.

May 30—	1924.	1923.	1922.	1921.
Stock at Liverpool ..... bales	597,000	592,000	863,000	1,010,000
Stock at London	------	1,000	1,000	2,000
Stock at Manchester	72,000	60,000	56,000	91,000

OVERLAND MOVEMENT FOR THE WEEK AND SINCE AUG. 1.—We give below a statement showing the overland movement for the week and since Aug. 1, as made up from telegraphic reports Friday night. The results for the week and since Aug. 1 in the last two years are as follows:

	——1923–24——		——1922–23——	
May 30—	*Week.*	*Since Aug. 1.*	*Week.*	*Since Aug. 1.*
Shipped—				
Via St. Louis	1,434	570,379	2,655	678,842
Via Mounds, &c	3,060	190,520	1,020	229,208
Via Rock Island	323	20,984	58	7,726
Via Louisville	52	25,433	212	54,253
Via Virginia points	3,026	187,343	3,167	161,123
Via other routes, &c	12,877	414,776	13,591	419,892
Total gross overland	20,772	1,409,435	20,703	1,551,044
Deduct Shipments—				
Overland to N. Y., Boston, &c	2,358	81,257	3,332	102,984
Between interior towns	491	24,506	659	25,169
Inland, &c., from South	4,535	602,501	5,815	462,596
Total to be deducted	7,384	708,264	9,806	590,749
Leaving total net overland*	13,388	701,171	10,897	960,295

* Including movement by rail to Canada.

The foregoing shows the week's net overland movement this year has been 13,388 bales, against 10,897 bales for the week last year, and that for the season to date the aggregate net overland exhibits a decrease from a year ago of 259,124 bales.

In Sight and Spinners' Takings.	1923-24 Week.	1923-24 Since Aug. 1.	1922-23 Week.	1922-23 Since Aug. 1.
Receipts at ports to May 30	49,129	6,421,608	28,322	5,521,738
Net overland to May 30	13,388	701,171	10,897	960,295
Southern consumption to May 30	92,000	3,575,000	95,000	3,646,000

A. NORDEN & CO.'S ESTIMATE OF 1924 COTTON CONDITION AND ACREAGE.—On May 28 1924 A. Norden & Co. made public their report covering the condition of the growing crop, and the acreage planted to cotton. The average indicated percentage condition for the United States is 66.2. The indicated increase in acreage for the season 1924-1925 is 3.3. The report states that "the general outlook is about equal to that of last year. Stands are much worse, but fields are much cleaner. Complaints are general of continued cold rainy weather." Details follow:

	Acreage 1923-24.	Average Percentage Increase.	Average Percentage Decrease.	Indicated Acreage 1924-25.
North Carolina	1,704,000	5	--	1,789,200
South Carolina	2,049,000	6	--	2,171,940
Georgia	3,927,000	3	--	4,044,810
Alabama	3,312,000	2	--	3,378,240
Mississippi	3,353,000	--	3	3,252,410
Louisiana	1,316,000	3	--	1,355,480
Texas, North		6	--	
" Central	14,077,000	5	--	*14,780,850
" South		3	--	
Oklahoma	3,357,000	6	--	3,558,420
Arkansas	3,025,000	--	6	2,843,500
Tennessee	1,193,000	--	3	1,157,210
Sundries	974,000	27	--	1,236,980
Total	38,287,000	3.3	--	39,569,040

* Average increase Texas 5%.

The following table will show the progress of planting operations, stands and condition of fields, with comparisons for the last four years:

	Percentage of Crop.			Stands.			Condition of Fields.		
	Planted.	Up.	Chop'd Out.	Good.	Fair.	Bad.	Clean.	Slightly Grassy.	Very Grassy.
North Carolina	95	72	14	2	10	6	8	9	1
South Carolina	95	78	35	--	15	13	6	21	1
Georgia	94	79	40	1	28	8	20	16	1
Alabama	96	67	28	2	9	8	11	8	--
Mississippi	97	74	32	--	16	13	13	16	--
Louisiana	97	87	61	5	9	6	9	9	2
Texas, North	90	64	17	3	11	7	12	8	1
" Central	90	63	13	2	16	13	5	23	3
" South	81	68	18	1	7	12	1	9	10
Oklahoma	84	40	1	--	8	9	7	8	2
Arkansas	94	59	13	--	11	19	13	16	1
Tennessee	69	30	6	1	2	9	6	6	--
Total	90	65	23	17	142	123	111	149	22
Reduced to percentage	90	65	23	6	50	44	39	53	8
1923-24	92	75	27	25	56	19	21	62	17
1922-23	90	76	35	30	58	12	9	63	28
1921-22	92	72	25	12	53	35	35	55	10
1920-21	77	57	20	12	58	30	15	53	32

The present outlook, as it appears to our correspondents, regardless of what may happen later, is shown by the following table, to which we add the usual estimate of the condition in percentage, with the same comparisons:

	Present Outlook.									P. C. Condition.
	Brilliant.	Excellent.	Very Good.	Good.	Fair.	Rather Poor.	Poor.	Very Poor.	Disastrous.	
North Caro.	--	--	2	1	8	5	1	1	--	72

SOUTHERN PRODUCTS CO.'S ESTIMATE OF 1924 COTTON CONDITION.—On May 27 1924 the Southern Products Co. of this city received a telegram from its Dallas office which estimates the cotton crop condition at 65.5. The message follows:

Under average date May 22 our correspondents report weather past thirty days generally unfavorable for cotton. Low temperatures retarded germination and growth over most of belt with frost damage in northern areas and considerable destruction by hail in central and southern districts, but rainfall more favorable than during the same period last year, though many counties in each State complain too much moisture, except in the northwestern area, where slight deficiency exists. Some complaint of grassy fields but average state of cultivation fairly good, except where cloddy fields resulted from plowing wet soil. Some of extreme southern counties report cotton beginning to bloom. Average stand of cotton about fair but much of improved seed was lost and fields replanted with seed obtained from oil mills and other sources handling common seed. While there is less complaint of insects in east belt than last year boll weevil are more prevalent in extreme southern portion of west belt and the damage by cut-worms and grass-hoppers extends over a greater area of Texas than in 1923. Condition of belt, 65.5. By States: Tennessee 58, Georgia and Florida 60, South Carolina and Arkansas 62, Mississippi 64, Oklahoma 66, Texas, Alabama and Missouri 67, Louisiana and Virginia 70, North Carolina 72, California 85 and Arizona 88.

SOUTHERN PRODUCTS CO.

WEATHER REPORTS BY TELEGRAPH.—Reports to us by telegraph from the South this evening denote the rain has fallen in almost all sections of the cotton belt, and in many instances precipitation was heavy. In the more southern parts of the belt cotton made very good progress, but growth in other parts was retarded somewhat by the cool nights. Temperatures were somewhat higher than during the preceding week.

Galveston, Tex.—Cotton has made very good progress in the central and southern portions of the State, but only fair progress in the north due to the cool nights. There has been slight insect damage and army worms have been appearing in the extreme south. Stands of cotton are irregular, with planting and replanting still progressing from the south central counties northward.

Mobile, Ala.—The weather has been more favorable. There have been moderate rains in the interior which have promoted the growth of cotton. Cultivation is well up and the condition of cotton is improving.

The following statement we have also received by telegraph, showing the height of rivers at the points named at 8 a. m. of the dates given:

		May 30 1924. Feet.	June 1 1923. Feet.
New Orleans	Above zero of gauge.	10.3	13.4
Memphis	Above zero of guage.	27.3	23.9
Nashville	Above zero of gauge.	20.3	19.3
Shreveport	Above zero of gauge.	13.8	23.2
Vicksburg	Above zero of gauge.	33.5	40.9

THE AMERICAN COTTON ASSOCIATION REPORT ON COTTON CROP OF 1924-25.—The American Cotton Association on May 28 1924 issued its first cotton crop report for 1924. The report is brought down to May 23. The average indicated percentage condition for the United States is 64.9. Report by States follows:

	% of Normal.		% of Normal.
Virginia	70	Texas	66
North Carolina	68	Arkansas	60
South Carolina	61	Tennessee	60
Georgia	66	Oklahoma	60
Florida	80	Missouri	65
Alabama	68	California, upper	90
Mississippi	65	Arizona and all others	88
Louisiana	67	U. S. average	64.9

In its summary the report also says:

Forecast of production or any estimate on production at this season of the year is of but slight practical value. Assuming a planted acreage of 38,500,000 acres and applying the estimated May condition of 64.9%, a crop of 10,867,000 bales would be indicated.

Weevil Infestation.—All the infested cotton States report a light infestation of weevil to date. This would forecast the usual heavy infestation later on according to seasonal conditions or whether the growers generally will actively apply person control methods.

Labor Shortage.—Except in the States of Florida, Virginia, Oklahoma and Missouri, all of the cotton belt States, report a shortage of labor. This is especially pronounced in the Carolinas, Georgia, Alabama, Mississippi and Arkansas.

Late Planting.—The average number of days late in planting is 16. Widespread complaint is made of unsatisfactory stands and necessity for replanting in all sections of the belt.

Fertilizers.—All of the principal cotton States show an increase in the use of commercial fertilizers especially in such States as Texas, Oklahoma, Arkansas and Tennessee where fertilizers have been only partially used heretofore.

Crop Outlook.—With such extended replanting, unsatisfactory stands caused by the plants dying from cold nights, and excessive moisture in the soil the crop as a whole presents a bad start. Too much moisture in the soil checks the tap root and abnormally enlarges the lateral feeding roots. A similar condition occurred in 1921 and finally resulted in the smallest crop grown in 25 years. What is most needed now is clear, warm weather, so the crop can be worked and the plants begin a normal growth toward fruitage.

RECEIPTS FROM THE PLANTATIONS.—The following table indicates the actual movement each week from the plantations. The figures do not include overland receipts nor Southern consumption; they are simply a statement of the weekly movement from the plantations of that part of the crop which finally reaches the market through the outports.

Week ending	Receipts at Ports.			Stocks at Interior Towns.			Receipts from Plantations

30	49,129	28,322	113,448	355,744	447,224	715,192	32,320	5,568	46,444

The above statement shows: (1) That the total receipts from the plantations since Aug. 1 1923 are 6,446,052 bales; in 1922-23 were 5,107,154 bales, and in 1921-22 were 5,108,971 bales. (2) That although the receipts at the outports the past week were 49,129 bales, the actual movement from plantations was 32,320 bales, stocks at interior towns having decreased 16,509 bales during the week. Last year receipts from the plantations for the week were 5,568 bales and for 1922 they were 46,444 bales.

WORLD'S SUPPLY AND TAKINGS OF COTTON.—The following brief but comprehensive statement indicates at a glance the world's supply of cotton for the week and since Aug. 1 for the last two seasons, from all sources from which statistics are obtainable; also the takings, or amounts gone out of sight, for the like period.

Cotton Takings. Week and Season.	1923-24.		1922-23.	
	Week.	Season.	Week.	Season.
Visible supply May 23	3,128,568	-------	3,091,573	-------
Visible supply Aug. 1	-------	2,024,671	-------	3,760,450
American in sight to May 30	137,708	11,014,900	111,465	10,780,551
Bombay receipts to May 29	43,000	3,135,000	58,000	3,273,000
Other India shipm'ts to May 29	3,000	576,000	1,000	294,550
Alexandria receipts to May 28	5,000	1,269,000	1,000	1,326,800
Other supply to May 28 *b	12,000	371,000	10,000	339,000
Total supply	3,329,276	18,390,571	3,273,038	19,774,351
Deduct—				
Visible supply May 30	3,110,135	3,110,135	2,967,114	2,967,114
Total takings to May 30 *a*	219,141	15,280,436	305,924	16,807,237
Of which American	133,141	10,327,436	214,924	11,312,687
Of which other	86,000	4,953,000	91,000	5,494,550

* Embraces receipts in Europe from Brazil, Smyrna, West Indies, &c.
a This total embraces since Aug. 1 the total estimated consumption by Southern mills, 3,575,000 bales in 1923-24 and 3,646,000 bales in 1922-23—takings not being available—and the aggregate amounts taken by Northern and foreign spinners, 11,765,436 bales in 1923-24 and 13,161,237 bales in 1922-23, of which 6,752,436 bales and 7,666,687 bales American
b Estimated.

INDIA COTTON MOVEMENT FROM ALL PORTS.—The receipts of India cotton at Bombay and the shipments from all India ports for the week and for the season from Aug. 1, as cabled, for three years, have been as follows:

May 30. Receipts at—	1923-24.		1922-23.		1921-22.	
	Week.	Since Aug. 1.	Week.	Since Aug. 1.	Week.	Since Aug. 1.
Bombay	43,000	3,135,000	58,000	3,273,000	85,000	3,058,000

Exports from	For the Week.				Since August 1.			
	Great Britain.	Continent.	Japan & China.	Total.	Great Britain.	Continent.	Japan & China.	Total.
Bombay—								
1923-24	2,000	4,000	31,000	37,000	144,000	839,000	1,399,000	2,382,000
1922-23	----	17,000	38,000	55,000	114,000	579,500	1,820,500	2,514,000
1921-22	1,000	3,000	20,000	24,000	31,000	414,000	1,529,000	1,974,000
Other India—								
1923-24	2,000	1,000	----	3,000	125,000	451,000	-------	576,000
1922-23	----	1,000	----	1,000	65,000	229,550	-------	294,550
1921-22	----	7,000	----	7,000	10,000	176,000	18,000	204,000
Total all—								
1923-24	4,000	5,000	31,000	40,000	269,000	1,290,000	1,399,000	2,958,000
1922-23	----	18,000	38,000	56,000	179,000	809,050	1,820,500	2,808,550
1921-22	1,000	10,000	20,000	31,000	41,000	590,000	1,547,000	2,178,000

According to the foregoing, Bombay appears to show a decrease compared with last year in the week's receipts of 15,000 bales. Exports from all India ports record a decrease of 16,000 bales during the week, and since Aug. 1 show an increase of 149,450 bales.

ALEXANDRIA RECEIPTS AND SHIPMENTS.

Alexandria, Egypt, May 29.	1923-24.		1922-23.		1921-22.	
Receipts (cantars)—						
This week	25,000		4,000		40,000	
Since Aug. 1	6,349,493		6,644,236		5,108,098	
Exports (bales)—	Week.	Since Aug. 1.	Week.	Since Aug. 1.	Week.	Since Aug. 1.
To Liverpool	----	202,434	2,750	222,158	9,000	156,609
To Manchester, &c	5,000	197,225	----	161,717	5,000	130,627
To Continent and India	6,000	346,131	4,150	292,579	5,500	201,252
To America	----	106,576	1,750	206,838	3,250	161,285
Total exports	11,000	852,366	8,650	883,292	22,750	649,773

Note.—A cantar is 99 lbs. Egyptian bales weigh about 750 lbs.
This statement shows that the receipts for the week ending May 29 were 25,000 cantars and the foreign shipments 11,000 bales.

MANCHESTER MARKET.—Our report received by cable to-night from Manchester states that the market in both cloths and yarns is steady. Manufacturers are generally complaining. We give prices to-day below and leave below and leave those for previous weeks of this and last year for comparison:

BREADSTUFFS

Friday Night, May 30 1924.

Flour has been firmly held. Some mills at one time asked an advance of 10c., owing to the recent rise in cash wheat at mill centres. But trade has kept to its old sluggish pace, though old prices were rather more freely bid. Buyers were not quite so indifferent, though not enough concerned to buy freely at the asking prices. The jobbing trade in high protein flour was fairly active at times. The trade even increased somewhat in some cases. But there has been no radical change for the better. Foreign business was dull, not excepting that in Canadian flour. A fair business in durum clears was reported for recent shipment to Mediterranean ports, sales reaching, it is said, some 10,000 to 15,000 barrels. Minneapolis reported sales of 50,000 bushels of No. 2 Northern elevator wheat on the 27th inst. to Eastern mills. Low grade flour, it seems, is being offered from Australia and Argentina below an American basis in Europe and the demand for Canadian flour there is smaller. The stocks at the terminals here were reported by the leading railroads on the 28th inst., as 986 cars, compared with 1,005 last week and 1,286 a year ago.

Wheat fluctuated within narrow limits, now a little higher and then reacting. An absence of decisive motor power in moving prices was apparent. On the 27th Chicago closed ½ to ¾c. lower and Winnipeg fell ½ to 1⅛c. The drouth in parts of the winter wheat States was broken, especially in the Southwest. Further showers were predicted. Profit-taking was a feature. The United Kingdom was said to be for the time being overbought. The English cables have made but a sluggish response to American rallies. Chicago, if not Winnipeg, showed a rather heavy long account. Export trading was small, or at best only moderate, i. e. 300,000 to 400,000 bushels of Manitoba daily, with a little durum. On the other hand, further rains were needed. Commission houses bought rather freely on declines. Kansas in particular at one time needed more rain. France canceled moderate purchases, as francs on the 27th inst. fell 10 points. But Germany was inquiring for Manitoba. There were rumors of a little business in Gulf wheat for export. Interior receipts were moderate. Stocks continued to fall off in the United States. The Canadian and bonded visible supply within a week decreased over 5,000,000 bushels. The East Indian crop was estimated at 99,000,000 bushels, against 109,000,000 bushels last year. European crop news was in the main no better. The Canadian wheat area was estimated by a prominent authority at 20,080,000 acres, against 21,765,000 last year, a decrease of 1,700,000 acres. The American visible supply decreased last week 2,078,000, against 2,918,000 in the same week last year, and is now down to 44,666,000, against 34,191,000 a year ago. Importing countries have taken a large quantity of Canadian wheat. And apart from this, freight room has recently been engaged, it is said, for about 120,000 bushels of new crop hard wheat at the Gulf for August shipment. Winnipeg on Monday was 106⅝ to 108⅝ on May, closing at 107¾, against 107⅛ on Saturday; July 106¾ to 108¾, closing at 108¼, against 107½ on Saturday. Exporters within a week are believed to have bought at Winnipeg 11,000,000 bushels of futures. On the 25th inst. the temperatures were cold. It was down to 20 degrees in North Dakota, with frost or freezing predicted in the northern and central Plain States. The crop was making very slow progress, owing to continued cold weather. No rain fell in the Canadian Northwest and there were fears of a drouth. The Santa Fe crop report said: "Rain is needed in Texas, Oklahoma and Kansas to help the winter wheat crop. In Kansas there has been a loss of two to three points in condition due to dry weather, Hessian fly and chinch bugs. Most damage is in north central section." B. W. Snow said: "Last year the Pacific Coast harvested a big wheat crop, and it was mainly this surplus that prevented this country from being on a domestic basis early in the season. The three States last season produced 75,000,000 bushels of winter wheat; drouth has already practically destroyed the California crop this year, the May 1 promise being only 4,000,000 bushels, against 16,000,000 last year. The drouth has now widened so as to include wheat fields in Oregon and Washington, where the crop prospect has suffered seriously since May 1. The Pacific Coast winter wheat crop at best can hardly exceed two-thirds of last year's harvest." Chicago wired: "A local house bought 20,000 bushels of new crop wheat in Oklahoma over night on basis of 4c. over Chicago July f. o. b. Gulf. This is the first purchase of new wheat to be hedged here this season." Thursday's decline in Chicago was in contrast with the firm tone at Winnipeg and the steadiness at Liverpool. The interior movement was moderate. World's stocks continued to decrease noticeably. Bradstreet's world's visible fell off nearly 19,000,000 bushels for the week. But rains were reported all over the State of Kansas, effectually breaking the drouth. California wires, on the other hand, reported that drouth continued and wheat prospect there was dismal. India exported only 136,000 bushels this week, but is expected to export 650,000 next week. Export sales in all positions were estimated at 200,000 to 250,000 bushels of Manitoba. Chicago reported some small purchases of new winter wheat from the country for August shipment and reported a fair milling demand. About 250,000 bushels were charted to Buffalo at 1¾c. Deliveries on May contracts were 302,000 bushels. Broomhall's foreign crop summary said: "In Western Europe the new crops are generally backward, but are now growing well in the centre and in the Balkans. Good rains have fallen lately in many parts and prospects are improving. In Poland winter killing amounted to 10 to 15% is now confirmed; spring sowings are very late this year. In Italy the crops are now generally favorable. In Spain prospects are maintained. In Russia there are continued complaints of deterioration in wheat. Seeding of spring grains was progressing rapidly in the middle of May. The Ukraine is still dry. In Australia good rains have fallen and acreage reports are now much better. In Argentina the weather has been favorable and seeding in the north is ending. In India the wheat surplus this year is estimated at only 24,000,000 bushels. In Rumania recent rains have improved conditions. In Jugoslavia a full harvest is expected this season. In Bulgaria timely rains have saved serious loss. In North Africa the weather is very unfavorable and some damage from drouth has been done in Tunis. In France the new wheat crop is making good progress. In Belgium the season is backward, but no crop damage is reported." On Thursday prices advanced ¼ to ½c. net on covering on the eve of the holidays. Liverpool, however, was ½ to 5d. lower, owing to larger exports for the week from the Danube. They amounted to 658,000 bushels. They may be the herald of still larger shipments. India shipped only 136,000 bushels; Argentina, 4,625,000. At Winnipeg May closed on Thursday at 106⅞c. and July at 107½c. Chicago prices for the week show little net change, i. e. ⅛ to ¼c. decline on May and July, with September unchanged.

Indian corn has declined with less demand from shorts, better weather and larger receipts. The deliveries on the 28th inst. were stated at 350,000 bushels. Prices closed ¾ to 1c. lower on that day. The technical position was weakened by the recent liquidation for short account. Chicago on Wednesday received 623,000 bushels. Cash prices fell 1 to 1½c. Illinois reports seem to forecast a noteworthy run of receipts after the end of planting, although those from Iowa, it was said, would not be important. At one time, too, corn was higher with an active demand for distant months. Covering of shorts early in the week was large, mostly, it was understood for prominent Eastern interests. The weather then was only fairly good and receipts not heavy. It is true that consignment notices increased somewhat and

that cash prices lagged behind futures, with the demand sluggish. But for a time the strength of wheat was clearly reflected in a stronger tone in corn. Besides, the falling off in the visible supply last week was 2,214,000 bushels, which for a time was not without its effect. Later on, however, when wheat declined, corn followed, especially as covering fell off. The American visible supply decreased last week 2,214,000 bushels, against 3,038,000 bushels in the same week last year. It is now 13,252,000 bushels, against 9,394,000 a year ago. Late last week Duluth cleared 400,000 bushels for Chicago and two more boats are to load grain for Chicago. On the 24th inst. trading was light and prices fell a fraction, May leading the decline. Sales of 260,000 bushels were made to go to store. Country consignments and offerings were largely increasing. At the same time the progress in planting and replanting was slow. The Eastern demand was poor. The cash situation at one time was regarded by many as rather bad, offsetting the cold weather. On Thursday prices opened weaker, with less demand from shorts and rather larger offerings, but became stronger later and advanced on unfavorable crop reports. The season is backward and germination slow. For the week, however, there is a net decline of ⅛ to ⅜c. on May, while September is up ⅜c.

Oats prices kept within narrow fluctuations, like those of other grain. Liquidation of May was something of a feature. The cash demand as a rule was small and prices rather weak at one time. Yet the American visible supply decreased last week 1,604,000 bushels, against 1,648,000 a year ago. It is now down to 7,300,000 bushels, against 14,485,000 a year ago. Nebraska reported a fair demand from the South. The weather was generally good. Crop complaints were rare. On the other hand there is the small visible supply. It is expected to decrease further this week. Oats on Wednesday declined, but on the whole stood up very well, so well, in fact, as to excite some comment. One explanation was that stocks are only 7,300,000 bushels. Another was that some of the crop reports were not favorable.

In Winnipeg May oats on Monday were 39⅞ to 40⅛c., closing at 40c.; July 40⅛ to 40½c., closing at 40⅝c., a decline of ⅛ to ¼c., compared with Saturday. On Thursday prices advanced ⅜ on May, but other months showed practically no net change. For the week there is hardly any variation from the prices of last Friday.

Rye advanced at one time with at least a little export business and with other grain firm or higher including wheat. But there was not much business either for home or foreign account at first. Later exporters took hold. Maximum estimates of their purchases were 400,000 bushels. Early in the week 200,000 to 250,000 bushels were sold to Germany, which was said to be in the market for further supplies, and asking offers on both rye and wheat. Otherwise trading has been light. The United Kingdom bought 250,000 bushels of Canadian barley, it is said. Scattered selling has been a feature. A lack of snap and life in the speculation has been very plain. The American visible supply decreased last week 528,000 bushels, against 1,293,000 in the same week last year. This left the total 19,260,000 bushels, against 16,694,000 a year ago. On Wednesday further export sales, supposedly to Germany, were estimated at 50,000 to 100,000 bushels. It was also said that 50,000 bushels more of Canadian barley had been sold for export. But later on there was some liquidation on the eve of the holiday and prices eased off. On Thursday prices declined and for the week there is a net fall of ⅞ to 1½c., the latter on May.

WORLD WINTER WHEAT AREA CUT.—The Department of Agriculture at Washington has made public a statement as to the acreage of winter wheat planted throughout the world, which is as follows:

Acreage planted to winter wheat in Europe last fall appears to be slightly in excess of last year's acreage, but the decrease in the United States more than offsets the increases in Europe, reports the United States Department of Agriculture in its monthly review of world crop conditions issued to-day. Rye acreage outside Germany, so far as reported, is a little larger than last year. The area sown in Germany has not yet been estimated.

Spring planting on the whole in Europe is about two weeks late, the department says. Winter cereals have been damaged somewhat in a few sections, but for the most part have not been seriously damaged by cold, wet weather during April. Condition of winter cereals in Europe generally is about average.

Details for crops and countries as reported to the department by the International Institute of Agriculture at Rome are as follows:

Spain.—There was some flood damage to cereal crops in the minor producing regions, but the more important regions report crops in good condition.

Italy.—Notwithstanding backward growth of spring crops, the condition of winter cereals is average. Corn acreage is estimated at 3,756,000 acres, compared with 3,786,000 acres last year. Rice acreage is 309,000 acres, compared with 303,000 acres last year.

Balkan States.—Bulgaria reports all crops in excellent condition. The acreage figures compared with last year are as follows: Wheat, 2,160,000 acres, compared with 2,303,000 acres; rye, 361,000 acres, compared with 425,000; barley, 600,000 acres, compared with 544,000; oats, 341,000 acres, compared with 370,000. Czechoslovakia acreage figures compared with last year are as follows: Wheat, 1,515,000 acres, compared with 1,507,000 acres; rye, 2,123,000 acres, compared with 2,124,000; barley, 1,680,000 acres, compared with 1,697,000; oats, 2,083,000 acres, compared with 2,081,000 acres.

Hungary.—Both winter and spring crops are backward because of cold, rainy weather during April. Spring planting well under way during the last few days of the month.

Austria.—All winter cereals above average.

Northern Europe.—Germany reports condition of crops May 1 below average for wheat, rye and barley. Meadow crops were average. Acreage planted to winter cereals has not been estimated in absolute figures by the German Ministry of Agriculture. Abandonment due to winter killing is estimated as follows: Wheat, 5½%; spelt, 2½%; rye, 9½%; barley, 7%. This is an unusually heavy abandonment for Germany. In 1923 abandonment due to winter killing was less than 1% in all cases.

Crop conditions in Poland slightly below average. Condition of wheat and rye in Lithuania is also below average. In Belgium the weather has been damp and cold, though not unfavorable for winter crops. Spring cereals about two weeks late. Rye condition is average, but wheat is 5 points below average. In the Netherlands the weather has been unfavorable to winter crops and spring crops are very late. Condition is below average.

England and Wales report winter cereals backward, especially cereals planted late. Early planted wheat in fair condition. Spring planting progressing well. Scotland reports slow growth for wheat, but oats and barley are in vigorous, healthy condition. In the Irish Free State most of April was cold and dry. Rain on the 23d improved the cereal situation. Flax planting was progressing at the end of April and an increased acreage is expected. Acres of wheat in France is estimated at 13,462,000 acres, compared with 13,656,000 acres last year; rye, 2,157,000 acres, compared with 2,171,000; barley, 1,631,000 acres, compared with 1,745,000; oats, 8,599,000, compared with 8,545,000 acres.

Condition of wheat and barley in Japan is reported as fairly good.

WEATHER BULLETIN FOR THE WEEK ENDING MAY 27.—The general summary of the weather bulletin issued by the Department of Agriculture, indicating the influence of the weather for the week ending May 27 is as follows:

The barometric pressure was relatively low over Southern and Eastern States during the first part of the week and cloudy, showery weather prevailed in these areas. The most pronounced storm during the week was central over Iowa on the morning of the 23d, and moved thence northeastward, accompanied by precipitation generally from the Mississippi Valley eastward. High pressure succeeded this storm over the interior of the country, with a sharp drop in temperature.

The weather was persistently cool in practically all sections east of the Rocky Mountains, making the fourth consecutive week with temperatures below normal over most of this section of the country. Chart I, page 3, shows that the week as a whole was especially cool in Central and Northern States where the mean temperatures ranged from 9 to 14 degrees below the seasonal average. In the immediate Gulf Coast districts the average temperature was about normal, while west of the Rocky Mountains warm weather prevailed, as during several preceding weeks. Freezing was general in central-northern districts and the interior of the Northeast.

Chart II shows that rainfall was moderate to rather heavy in nearly all central and southern portions of the country east of the Rocky Mountains. Showers were frequent also from the Lake region eastward, but in most cases the total falls were rather small. Beneficial rains fell in much of the interior valleys, but there was little relief from the droughty condition in the more western States. There was a moderate amount of sunshine in the extreme Southeast, but much cloudy weather prevailed throughout most of the central and northern portions of the country.

Because of the continued cool weather, the week was decidedly unfavorable for the germination and growth of spring crops in practically all sections east of the Rocky Mountains, though it was rather favorable for spring grains in Central-Northern States. There was considerable damage from frost in the northern Ohio Valley States, the Lake region, the upper Mississippi Valley, and the northern Great Plains, especially to garden and vegetable crops. Somewhat warmer weather than during the two preceding weeks prevailed in the Gulf Coast sections, and crops made better advance, as a rule, in that area, though it continued too cool in general for warm-weather plants.

Showers were beneficial in the lower Missouri and parts of the Ohio Valleys, while local rains were helpful in the central and northern Great Plains, though more rain was needed at the close of the week in much of the upper Mississippi Valley and the Plains area. West of the Rocky Mountains, the warm weather was beneficial for irrigated crops, though the continued warmth and absence of rain caused heavy drainage on the water supply. The drought has become serious to dry-land crops and ranges in nearly all of the more western States.

The week was very favorable for farm work in the western half of the country, and rather favorable between the Mississippi River and Rocky Mountains. In Central and Northern States east of the Mississippi, however, it was decidedly unfavorable, and spring planting was further delayed. The seeding of spring oats is reported as the latest in many years in parts of the Northeast, while corn planting is much behind from the Ohio Valley eastward.

SMALL GRAINS.—Winter wheat made fairly good growth under the influence of the cool, moist weather, quite generally east of the Mississippi River. The crop was beginning to head in the southern portions of the northern Ohio Valley States. Growth was slow, however, in the western portion of the Wheat Belt, because of the generally cool weather and, in many places, deficient moisture. The crop is showing drought damage in western and northern Missouri, though beneficial rains occurred in most of that State, while the straw is short for the season in Iowa and Nebraska. Further deterioration of wheat was reported from Kansas, except in those parts of the State where rains fell during the week, principally in the east. Fair progress was reported in Oklahoma, though moisture was needed in the western portion of that State. West of the Rocky Mountains the weather continued decidedly unfavorable for the winter wheat crop, because of droughty conditions.

The growth of spring wheat was slow because of the cool weather, but the general condition of this crop remains satisfactory. It was reported as mostly excellent in North Dakota, as having a good color and stooling well in South Dakota, and showing a satisfactory stand in Minnesota. Oats are generally late and have been unfavorably affected by weather conditions in some of the heavy producing areas. Seeding is very backward

from the Lake region eastward, and there are complaints of seed rotting in the ground in parts of the upper Mississippi Valley. Flax was damaged by frost in South Dakota, but the early-seeded was up to a good stand in North Dakota, though there was considerable yet to be sown. Rice was favorably affected in California and the recent rains have benefited this crop in Louisiana, while favorable reports come from Arkansas.

CORN.—The decidedly unfavorable weather for corn planting for several weeks has resulted in very late seeding of this crop throughout the Central States east of the Mississippi River. Much remains to be planted in the Ohio Valley, and germination of that planted is being delayed by the cool, wet weather. Seeding is better advanced in the trans-Mississippi area, while the rains during the week improved germination in the lower Missouri Valley, though complaints of poor stand continue from Kansas. Germination is very slow and unsatisfactory in Iowa, though most of the crop has been planted; reports of seed in the ground two weeks and still ungerminated come from this State. Somewhat better weather prevailed for corn in the Southern States, especially in the west Gulf area, where the crop made very good progress. Growth was slow in the extreme lower Great Plains, but stands are mostly good.

COTTON.—Rainfall was moderate in amount and well distributed throughout the Cotton Belt, though rather heavy in some sections. It was somewhat warmer than during the preceding week in immediate Gulf Coast districts, but in the northern portions of the belt unseasonably cool weather continued. The week was fairly favorable for cotton in the southern portions of the belt, but the low temperatures in the northern portions were decidedly unfavorable.

The crop made very good progress in central and southern Texas, but poor to only fair in the northern portion; the general condition is very good in the south, fair in the central, but poor in the northern portion of the State. Growth was slow in Oklahoma where stands are very irregular, while the late-planted is coming up to mostly poor stands in Arkansas where the crop is very uneven. The warmer weather the latter part of the week was favorable in Louisiana, though the crop is generally backward and stands poor in the northern portion of the State. Progress was poor in Mississippi, poor to fair in Alabama, and growth and condition were generally poor in Tennessee.

The weather was somewhat more favorable for cotton in Georgia, though it was still too wet in many places; the stands range from poor in the north to very good in the south, and the crop is very well cultivated; there was considerable complaint of lice, but weevil are reported from only a few places. Cotton made fair progress in Florida, but the nights were too cool for satisfactory growth in South Carolina where the stands are only fair, with considerable replanting. The cool, wet weather was decidedly unfavorable in North Carolina and Virginia, with plants small and off color, while damage was reported in southern Illinois. Conditions were favorable for cotton in the more western States, though the crop is backward in the Imperial Valley of California.

The weather Bureau also furnishes the following resume of the conditions in the different States:

Virginia.—Richmond: Not much farm work accomplished during week. Very unfavorable for corn and cotton; early plantings of these crops very poor stand and much replanting necessary. Some tobacco set out. Small grains, pastures, and meadows very good. Fruit prospects excellent all sections.

North Carolina.—Raleigh: Mostly unfavorable, due to cold, rain, and wet soil. Progress of cotton ppor; persistent cold retarding growth and plants small and off in color, except in parts of southeast where fair. Early corn growing slowly; late planting in progress, except where soil too wet. Wheat, potatoes, pastures, and fruit doing well.

South Carolina.—Columbia: Rains beneficial, but nights too cool for satisfactory growth of cotton and corn. Stands of cotton only fair and considerable replanting; few weevil in scattered sections; cultivation well advanced. Cereal harvests begun with fair results, except winter oats poor. Tobacco materially improved by rains. Potato harvest progressing with fair returns; sweet potatoes and minor crops improved.

Georgia.—Atlanta: Warmer weather caused appreciable and general improvement in crops, but warmer nights would be beneficial. Replanting cotton practically completed; chopping general over central and northern divisions and completed in south. Stands poor in north to very good in south; fairly well cultivated. Lice numerous, but weevil have appeared at very few places. Growth this week fair to very good. Planting bottom land to corn under way. Oat harvest begun; wheat heading.

Florida.—Jacksonville: Progress of cotton fair; condition fair and locally very good; fair to good stands, but some complaint of grass and lice; rain needed on some uplands. Corn made good progress, but uplands dry. Melon crop fair to good; cane, peanuts, and tobacco doing well. Dry weather favorable, except uplands need moderate rains. Groves doing well, although complaints of aphis continue.

Alabama.—Montgomery: Cool weather retarding growth of vegetation, but showers mostly beneficial. Corn fairly good stand and condition, but worms damaging locally. Potatoes doing well and transplanting sweets general. Oats, truck, minor crops, and most fruits mostly fair to good condition. Progress of cotton mostly poor to fair; many reports of dying in north, where much replanting necessary. Stands and condition poor to very good.

Mississippi.—Vicksburg: Nights cool, with frequent rains. Progress and condition of cotton and corn mostly poor, though corn fair in places. Cultivation of cotton generally very good, while corn replanting continues.

Louisiana.—New Orleans: Rains generally beneficial, especially in south, but unfavorable for crops in northwest. Cool nights first part unfavorable for cotton, but warmth latter part caused improved growth, stands poor in north and backward generally. Cotton plowed up and replanted in few northwestern localities. Corn, pastures, fruits, and meadows generally good. Potatoes yielding well, except locally. Sugar cane backward; stands spotted.

Texas.—Houston: Weather generally favorable for plant growth and farm work, although local rains and hail closing days did some damage to matured oats and spring crops. Progress of ranges, truck, corn, rice, and minor crops very good and condition mostly good. Progress of cotton very good in central and south, but poor to only fair in north due to cool nights. General condition very good in south; fair in central and poor in north. Insect damage slight, but army worms appearing in extreme south. Stands of cotton irregular with planting and replanting still progressing from south-central counties northward. Amarillo: Ranges and livestock fair to good condition.

Oklahoma.—Oklahoma City: Favorable for farm work. Too cool for corn and cotton, but other crops made fairly good progress. Progress of winter wheat fair; headed or heading and needs rain in most west portion; condition fair to excellent. Chinch bugs numerous in northeast, but damage moderate. Corn late and small, but generally good stand and well cultivated. Cotton made slow growth; too cool and stand very irregular; planting and replanting continues.

Arkansas.—Little Rock: Rains favorable for cotton, but progress poor to fair due to cold; last planting coming up in most places, but stands poor and very uneven. Chopping some fields while planting others near by; well-cultivated where up; condition early fair, but late poor to fair. Progress and condition of corn fair to very good; most portions well cultivated. Wheat and oats improving; well headed. Rice good. Favorable all other crops.

Tennessee.—Nashville: Germination and growth slow. Progress and condition of cotton generally poor; wheat and corn poor to good, while wheat developing late. Spring oats and potatoes fair to good, but tobacco late; transplanting slowly with some rust.

Kentucky.—Louisville: Plowing and planting possible only two days. Corn planting half done in north and three-fourths in south. Stand bad and germination slow and irregular depending on soil and exposure. Cutworms damaging with much replanting; early yellow and scarcely growing. Tobacco setting commenced in south. Condition and progress of winter wheat fair to very good; some improvement and heading in south. Pastures good.

THE DRY GOODS TRADE

Friday Night, May 30 1924.

While woolens and worsteds continued quiet. other textile markets developed more activity and a steadier undertone during the past week. This condition was notably true in regard to cotton goods. Buying of the latter was encouraged to a large extent by the unfavorable outlook for the new cotton crop, owing to the late start and adverse weather conditions in many sections of the belt. Another stimulating influence was the fact that the dwindling stocks of staple fabrics of a standard character are beginning to be more appreciated throughout the wholesale markets, where buyers are finding it difficult to obtain prompt deliveries of certain lines. Some of the largest mills throughout the country have been running their stocks down very low as a result of cotton conservation and quiet demand for contract goods. Gray goods markets have displayed a firmer tone, due to increased sales of drills, sheetings and print cloths, as well as some convertibles. Some of the wholesalers who were in the market during the current week were credited with stating that if they were to depend upon a normal trade during the coming fall they would have many hundreds of thousands of dollars' worth of goods to purchase. They confirmed that their stocks were low, and particularly on a number of lines of staple goods. Jobbers from the Middle West who visited the market expressed the opinion that the agricultural sections have seen the worst of the depression so far as it will affect the purchasing of dry goods. Consequently, they were inclined to be more optimistic in regard to the future. Many agreed that goods appeared to be very cheap at prevailing price levels, and they were tempted to buy for that reason, but were restrained from doing so by the possibility of slow spending during the summer months and the lack of desire to anticipate on the part of country retailers until crops are better assured.

DOMESTIC COTTON GOODS: There has been an improved demand for certain lines of cotton goods during the week, though buying as a rule has been of small volume except in print cloths. Bidding for the latter for the account of a few cotton speculators has been a feature. Purchases by the latter, however, were much restricted, as several large houses were not in favor of selling for other than consumption purposes. They refuse to sell to buyers not taking goods for actual consumption, as they fear the troubles that may follow any attempt to liquidate the goods and the effect that the knowledge of an accumulated stock in speculative hands would have upon regular consumers. Gray goods markets were also firmer, owing to larger sales of drills and sheetings. On the other hand, no change worthy of mention was reported in finished goods, demand for wash goods being exceptionally slow on account of the backward season. Flock dot voiles, black and white voiles and some of the suiting fabrics were the best sellers in wash goods lines. While stocks of staple goods in the hands of wholesalers are comparatively low, supplies of novelties in all fabrics are larger than usual, partly because there has been an abnormal demand for such goods, and because the production has exceeded normal quantities. One of the reasons which is said to have contributed in part to the inactivity in a number of directions during the week is the fact that an unusually large number of cotton goods manufacturers and merchants are absent attending a convention in Atlantic City, where the abnormal conditions of the industry are under discussion. A fow good inquiries were noted in the cotton duck market during the week. A number of fair inquiries were also reported for ginghams, and one of the largest handlers of ginghams in the country was said to be surprised to find after hunting about the markets that the mills making the choice brands have very small stocks on hand, and would not be able to renew assortments on many numbers within six weeks. Print cloths, 28-inch, 64 x 64's construction, are quoted at 7¼c., and 27-inch, 64 x 60's, at 6¾c. Gray goods in the 39-inch, 68 x 72's, are quoted at 10¼c., and 39-inch, 80 x 80's, at 13½c.

WOOLEN GOODS: All interest in the markets for woolens and worsteds during the week was overshadowed by the impending strike of garment workers which threatens to tie up the entire women's wear division beginning with next week. This, it is said, will directly affect 50,000 workers and indirectly 250,000 people in allied industries, such as embroidery workers, etc. Garment manufacturers who are facing the impending strike stoically are said to be preparing to take their work out of the city to thwart efforts of the union in forcing assent to its demands. Cleveland and Baltimore are said to be the centres under consideration, while some may be diverted to Chicago. Seasonal lines of knitted goods, particularly light weight underwear, are moving very slowly on account of continued cool weather. There has been a little more activity in the men's wear division.

FOREIGN DRY GOODS: Linens were more active during the week, although more or less irregular. The dress linen division was in a better position owing to requests from cutters-up for reinstatement of their commitments who had previously canceled orders. Retailers were also in the market for additional quantities of goods. On the other hand, trade in household linens was slow despite the fact that prices are attractive. Burlaps have been quiet throughout the week. The small April shipments failed to stimulate prices or demand, which is taken to indicate a falling off in consumption. Light weights are quoted at 5.55c. and heavies at 7.70 to 7.75c.

State and City Department

NEWS ITEMS.

Ohio (State of).—*Three Constitution Amendments to Be Voted Upon This November.*—Three taxational proposals as amendments to the State constitution have been prepared for submission to the voters, probably at the November election, it is stated, by the Advisory Committee of the Ohio Tax Association, it was announced, May 14, following the final meeting of the committee, says the Cincinnati Enquirer which speaks of the amendments as follows:

One amendment would provide for limited classification of property; another would prohibit the issuance of bonds for current running expenses, and the third would provide for a system of budgeting by all taxing districts.

The most important of the three probably is that providing for limited classification of property for taxation. Automobiles and intangible property would be exempt from taxation under the uniform rule, the Legislature being empowered to provide for the licensing and taxing of motor vehicles and also to set a minimum rate of not less than three mills for taxation of intangible property.

The bond limitation now is a part of the Griswold taxation law, which the committee would have written into the basic law, thereby providing against repeal by the Legislature.

The provision of the Griswold law requiring that bonds issued for public structures, roads, streets, &c., shall not run longer than the life of the improvement also is recommended to be incorporated in the debt limitation proposal.

Pennsylvania (State of).—*Soldier Bonus Amendment Carried to the State Supreme Court.*—The $35,000,000 soldier bonus amendment is now in the State Supreme Court, having been brought there on appeal from a decision of the Dauphin County Court, where it was held that the Secretary of the Commonwealth has the right to advertise the amendment and submit it to the voters this November (see V. 118, p. 2217, for remarks regarding the decision). Allan D. Miller, attorney representing the State Grange, the appellant, contends that the amendment is faulty because it covers two subjects and he quotes Article 18 of the Constitution, which provides that if two or more subjects are to be passed by the voters each must be voted upon separately. The same point was raised by Mr. Miller in his application for an injunction in the lower court. On the other hand, State Attorney-General George Woodruff and William A. Schnader, Deputy Attorney-General, say: "We contend that there is but one amendment and the State Secretary has said that in publishing the advertisement of the amendment he would publish an explanation." A special dispatch from Harrisburg, given in the Pittsburgh "Post" and dated May 27, said regarding the case:

Argument of the soldier bonus question before the State Supreme Court to-day was unusual in that most of the seven members of the tribunal asked numerous questions of counsel for the opposing sides. The case, carried to the State's highest Court on appeal from a decision of the Dauphin County Court, which held that the Secretary of the Commonwealth has the right to advertise the proposed $35,000,000 bonus amendment and submit it to the voters in November, must be decided prior to a three-month period before the general election as the amendment, if found to be in proper form, must be advertised three months prior to the election, according to constitutional requirements.

The State Grange, which is the appellant, was represented by Allan D. Miller and Walter L. Miller, while Attorney-General George Woodruff and William A. Schnader, a deputy attorney-general, represented the State.

Measure Held Unchangeable.

Mr. Miller contended that the proposed amendment, which states that the road bond issue is $50,000,000, whereas since the vote of the people in 1923 it is in fact $100,000,000, and that the bonus bond issued, to be $35,000,000, must be submitted to the people in the form in which it passed the Legislatures of 1921 and 1923 and that, if passed, it must be incorporated into the Constitution in that form.

"And obliterate everything not in agreement with it in the Constitution?" asked Judge William I. Schaffer.

Miller said this was his understanding, as there are in reality two amendments in the proposed provision that will be voted upon at the same time. If the proposed amendment is adopted by the people, he said, it will reverse the vote of the people in 1923 and reduce the road bond issue to the $50,000,000 maximum voted for by the people in 1918. He quoted Article 18 of the Constitution to show that the amendment is faulty in that it covers two subjects and the article provides that if two or more subjects are to be passed upon by the electors each must be voted upon separately.

Would Change Wording.

When Mr. Schnader began his argument, Justice Schaffer asked if the amendment were adopted how it would appear in the Constitution. The Deputy Attorney-General said that a provision would be made showing that $100,000,000 has been authorized for roads and $35,000,000 for a bonus.

"We contend that there is but one amendment said Schnader and Secretary of the Commonwealth King has said that in publishing the advertisement of the amendment he would publish an explanation."

"By whose authority would you change the words of a measure as passed by the Legislature?" asked Chief Justice Robert Vonmoschzisker.

"By the court's authority," was the reply.

"The courts can construe words," said the Chief Justice, "but can they cut out words? Can they cut out words before the question is submitted to the people?"

Justice Walling asked what becomes of the $100,000,000 if the additional bond issue is authorized and Schnader said it would not be affected as the intent of the Legislature to increase the original $50,000,000 for roads was to make the amendment provide for a total of $100,000,000.

Connecticut.—*List of Legal Investments for Savings Banks.*—Complying with Section, 3976 General Statutes, Revision of 1918, the Bank Commissioner on May 1 1924 issued a list of bonds and obligations which he finds upon investigation are legal investments for savings banks. This list, as previously explained, is revised each six months; that is, during the first week of May and November. The Commissioner again calls attention to the wording of the law which discriminates against the "Special Assessment" or "Improvement" bonds, or other bonds or obligations which are not the direct obligation of the city issuing the same, and for which the faith and credit of the issuing city are not pledged. The list issued on Nov. 1 1923 was printed in full in the "Chronicle" of Dec. 29 1923, p. 2910. We print the May 1924 list herewith in full, indicating by means of an asterisk (*) the securities added since Nov. 1 1923, while those that have been dropped are placed in full-face brackets.

The following table shows the State and municipal bonds which are considered legal investments:

First.—Bonds of the United States, or those for which the faith of the United States is pledged, including the bonds of the District of Columbia.

United States Bonds	2s,	1930
" " "	3s,	1918
" " "	4s,	1925
U. S. Panama Canal	2s,	1936
U. S. Panama Canal	3s,	1961
District of Columbia	3.65s,	1924
Liberty and Victory bonds	All issues	
Treasury bonds	4¼s,	1947-1952

Second.—Legally issued bonds and interest-bearing obligations of the following States:

California	Nevada
Colorado	New Hampshire
Connecticut	New Jersey
Delaware	New York
Florida	North Dakota
Idaho	Ohio
Illinois	Oregon
Indiana	Pennsylvania
*Iowa	Rhode Island
Kansas	South Dakota
Kentucky	Tennessee
Maine	Texas
Maryland	Vermont
Massachusetts	Washington
Michigan	West Virginia
Minnesota	Wisconsin
Missouri	Wyoming
Montana	

Third.—Legally issued bonds and obligations of any county, town, city, borough, school district, fire district, or sewer district in the State of Connecticut.

Fourth.—Legally authorized bonds of the following cities outside of Connecticut and which are the direct obligations of the city issuing the same. "Special Assessment" and "Improvement" bonds which are not the direct obligations of the city and for which its faith and credit are not pledged are not allowable.

x These notes are legal under Section 32 and savings banks may invest not to exceed 2% therein.

Railroad bonds which are at present not legal under the general provisions of the law but which are legal investments under Section 29 (given below) are as follows:

Sec. 29. The provisions of this Act shall not render illegal the investment in nor the investment hereafter in, any bonds or interest-bearing obligations issued or assumed by a railroad corporation, which were a legal investment on May 28 1913, so long as such bonds or interest-bearing obligations continue to comply with the laws in force prior to said date; but no such bond or interest-bearing obligation that ails subsequent to said date, to comply with such laws shall again be a legal investment unless such bonds or interest-bearing obligations comply with the provisions of this section.

Port Arthur, Jefferson County, Tex.—*District Court Judge Refuses to Make Temporary Writ Permanent—Bonds On Market Again.*—Judge George C. O'Brien of the Fifty-Eight District Court at Beaumont on May 20 refused to make permanent a temporary writ restraining the city officials from selling the several issues of 5% 40-year serial bonds, aggregating $1,030,500, which bonds had been offered for sale on April 15 but not sold on that date (V. 118, p. 2095). The Houston "Post" on May 21 said on the matter:

The case had come before him [Judge O'Brien] on the application of one man who had the suit brought attacking the issue of the bonds on several counts and also bringing in the question of the legality of the last territory brought into the city limits.

The bonds have been printed and signed and are now in the hands of the attorney general at Austin for his signature. They had been offered for sale, but on account of the legal tangle that might involve the purchasers no bid was made that the commission could accept. However, now as the case has been dismissed and an appeal can not be taken for some time, the bonds are again on the market.

BOND CALLS AND REDEMPTIONS.

Cheyenne, Laramie County, Wyo.—*Bond Call.*—All water works extension bonds numbered 101 to 250 incl., dated May 1 1909, maturing May 1 1939, with privilege of redemption May 1 1924, have been called for payment by W. W. Busselle, City Treasurer, and will be redeemed for cash upon presentation at the National Bank of Commerce, N. Y. City, on June 1 on which day interest ceases.

JERSEY CITY, Hudson County, N. J.—*BOND OFFERING.*—Sealed proposals will be received by John Saul, Director of the Department of Revenue and Finance, on June 9 at 12 m. (daylight saving time) in the Assembly Chamber of the City Hall for the purchase of the following issues of 4¾% bonds, the amount of the issue stated in each case being the authorized amount of bonds and the sum required to be obtained at the sale of such issue:

$2,062,000 water gold bonds, maturing $52,000 on June 1 in each of the years 1925 to 1929, both incl., and $53,000 on June 1 in each of the years 1930 to 1963, both incl.

698,000 general improvement gold bonds, maturing $25,000 on June 1 in each of the years 1925 to 1928, both incl., and $26,000 on June 1 in each of the years 1929 to 1951, both incl.

The bonds will be dated June 1 1924 and will be of the denomination of $1,000 each. Both principal and semi-ann. int. (J. & D.) will be payable in gold coin of the United States of America of or equal to the present standard of weight and fineness at the office of the City Treasurer. The bonds will be coupon bonds, with the privilege of registration as to principal only or as to both principal and interest. No more bonds of each issue will be sold than will produce a sum equal to the authorized amount of such issue and an additional sum of less than $1,000. In addition to the amount bid the purchaser must pay accrued interest at the rate borne by the bonds from the date of the bonds to the date of payment of the purchase price. Any bidder may condition his bid on the award to him of both of the issues, but in that case if there is a more favorable bidder for any one of the issues for which he bids his bid will be rejected. The successful bidder will be furnished with the opinion of Hawkins, Delafield & Longfellow of N. Y. City that the bonds are binding and legal obligations of the city. The bonds will be prepared under the supervision of the U. S. Mtge. & Trust Co., which will certify as to the genuineness of the signatures of the officials and the seal impressed thereon. All bidders are required to deposit a certified check payable to the order of the city of Jersey City for 2% of the amount of bonds bid for, drawn upon an incorporated bank or trust company. Checks of unsuccessful bidders will be returned upon the award of the bonds. Interest at the rate borne by the bonds from the date of award will be allowed upon the amount of the check of a successful bidder, and such check will be retained to be applied in part payment for the bonds or to secure the city against any loss resulting from the failure of the bidder to comply with the terms of his bid.

Bray, Caron & Dube, Ltd	99.63	Provincial Securities, Ltd	99.17
Rene T. Leclerc, Inc	99.53	Credit Anglo Francais, Ltd	98.80

MANITOBA (Province of).—*BOND SALE.*—A New York syndicate composed of Redmond & Co., Rutter & Co., Blodgett & Co. and Paine, Webber & Co. on May 28 purchased $2,600,000 5% 20-Year refunding bonds at 97.07. Date June 2 1924. Prin. and semi-ann. int. (J. & D. 2), payable in U. S. gold coin in New York City, Toronto, Montreal, St. John, Vancouver and Regina. Due June 2 1944. This is the issue arrangements for which were made and completed by the Provincial Treasurer and the proceeds from which will be used to refund an issue coming due next month. Previous remarks regarding this appeared in last week's issue, page 2610.

NORTH VANCOUVER, B. C.—*BOND SALE.*—On May 19 an issue of $8,372 10 7% local impt. bonds was sold to Gillispie, Hart & Todd, Ltd., of Vancouver, at 100.18. Date Jan. 10 1924. Int. J. & J. 10. Due on Jan. 10 from 1925 to 1929.

PEMBROKE, Ont.—*BOND SALE.*—Reports state that an issue of $110,710 97 5½% bonds, repayable in 5, 10, 20 and 30 equal annual installments, has been awarded to McLeod, Young, Weir & Co. on a bid of 99.48. The other tenders included: A. E. Ames & Co., 99.06; Bain, Snowball & Co., 99.03; Housser, Wood & Co., 99.31; C. H. Burgess & Co., 99.13; Gairdner, Clarke & Co., 98.80; Wood, Gundy & Co., 98.59; and Macneill, Graham & Co., 97.76.

PETERBOROUGH COUNTY, Ont.—*BOND OFFERING.*—Bids are asked for up to 12 m. June 17 1924 for the purchase of $20,000 5½% 20-installment bridge debentures. E. M. Elliott, County Clerk (P. O. Peterborough).

ST. JEROME, Que.—*BOND OFFERING.*—Bids are called for up to 4 p. m. June 2 for the purchase of $80,000 5½% 30-year school bonds, dated June 1 1924, and payable at Montreal or St. Jerome. Bonds are in denominations of $100, $500 and $1,000 each. C. Viau, Secretary-Treasurer.

ST. LAMBERT, Que.—*BOND SALE.*—A. E. Ames & Co. have purchased $100,000 5½% 28½-year bonds at 98.50, the money costing 5.60%.

SAULT STE MARIE, Ont.—*BOND SALE.*—Issues of $61,000 30-inst. $10,000 20-inst. and $4,000 10-inst. 5½% bonds have been sold to A. E. Ames & Co. of Toronto at 99.10—a basis of about 5.57%.

Bids were as follows:

A. E. Ames & Co	99.10	R. A. Daly & Co	96.84
Dyment, Anderson & Co	98.88	Wood, Gundy & Co	96.81
Nesbitt, Thomson & Co	98.34	C. H. Burgess & Co	96.51
Mackay-Mackay	97.60		

SOREL, Que.—*RULING OF PROVINCIAL GOVERNMENT CHANGES AWARD OF BONDS.*—In our issue of May 17, page 2481, we reported the sale of $160,000 bonds to the Credit Canadien, Ltd.

According to the "Monetary Times" of recent date, these bonds although originally purchased by this firm which offered ten cents per $100 better than the highest bid, have now been awarded to the Credit Anglo-Francais, Ltd., due to a ruling of the Provincial Government.

THREE RIVERS, Que.—*BOND SALE.*—The following two issues of 5½% bonds offered on May 26 (V. 118, p. 2481) have been sold to Versailles, Vidrianne & Boulais of Montreal at 99.21:

$335,000 "A", By-Law No. 451, payable in a series of 30 years.
55,000 "B," By-Law No. 452, payable in a series of 20 years.
Date May 1 1924.

WALKERVILLE, Ont.—*BOND SALE.*—An issue of $273,000 5½% 15-installment and $44,389 5½% 10-installment bonds, it is reported, has been purchased by Dominion Securities Corp. at 99.333. Wood, Gundy & Co. bid 99.16.

TOWN OF LE ROY

Genesee County, New York

BRIDGE BONDS

SEALED PROPOSALS will be received by the undersigned, at the office of the Town Clerk, in the village and town of Le Roy, Genesee County, New York, until the hour of Eight o'clock in the afternoon (8 p. m.) Eastern Standard Time, of

JUNE 12TH, 1924,

for the purchase of the following described Bonds.

$60,000.00 of Bridge Bonds of the Town of Le Roy, to be dated as of the 1st day of June, 1924; $4,000.00 of the principal thereof to mature on the First day of June in each year of the years 1925 to 1939, both inclusive; to bear interest at the rate of Four and One-half Per Centum (4½%) per annum, payable semi-annually on the First days of December and June in each and every year.

Said bonds may be issued in denominations of $1,000 or $500, to be numbered consecutively; may be in registered or coupon form; may be payable, both as to principal and interest, in New York exchange, at any incorporated bank or trust company in the City of New York, Rochester or Buffalo, New York, at the option of the purchaser.

Said bonds will not be sold for less than par value and accrued interest to date of delivery.

Each proposal must be accompanied with a certified check, drawn upon an incorporated bank or trust company, payable to the order of the Town of Le Roy, for the sum of $3,000.00.

Any bid not complying with this notice will be rejected, and the right is hereby reserved to reject any or all bids.

Each proposal should be enclosed in a sealed envelope, addressed to the Town Clerk of the Town of Le Roy, and marked on the outside thereof "Proposal for Bridge Bonds."

The successful bidder will be furnished with the approving opinion of Messrs. Clay and Dillon, attorneys, of New York City, without charge.

The estimated population of the said Town of Le Roy is 6,000; the assessed valuation of the real property of said town, subject to State and County taxes, as appeared on the last preceding completed assessment roll of said town is $6,172,100.00, and there is no indebtedness of said town at the present date.

Dated Le Roy, N. Y., May 22nd, 1924.

WM. F. HUYCK,
Supervisor.
CARLOS A. CHAPMAN,
Town Clerk.

General Gas & Electric Corporation

THE group of companies in the General Gas & Electric system (map and description of which appear on pages 176 and 177 of this issue) number nearly fifty, are located in eight states and serve hundreds of rapidly growing industrial communities with electric light and power, gas and interurban and street electric railway service. Among the subsidiaries are such well known utilities as Metropolitan Edison Company, New Jersey Power & Light Company, Reading Transit & Light Company, Sandusky Gas & Electric Company, Binghamton Light, Heat & Power Company, Vermont Hydro-Electric Corporation, North Carolina Public Service Company, Inc., and Rutland Railway, Light & Power Company. The service is mainly electric light and power, about 85% of the operating income being derived from electric sales.

The remarkable growth and the uninterrupted increase in earnings has placed General Gas & Electric Corporation in the front rank of public utilities, and has given to its securities an established investment position.

We specialize in the bonds and stocks of General Gas & Electric Corporation and subsidiary companies. Information and quotations furnished upon request.

THE TRANSPORTATION ACT OF 1920.

On March 1 1920 the railroads of the United States, which on Jan. 1 1918, as a war measure, had been taken over for operation as one system by the United States Railroad Administration, were, in so far as still under its control (the short lines having previously been surrendered), restored to their owners. Federal control was terminated pursuant to a proclamation issued on Dec. 24 1919 by the President of the United States and subject to the terms of the Transportation Act of 1920, approved by the President on Feb. 28 1920. The complete text of the Act was printed in the "Chronicle" of Feb. 21 1920, pages 715 to 732, with an amendment in V. 110, p. 2250.

On Sept. 1 1920 the Government guaranty of income which was granted to assenting roads for the six months following the end of Federal control expired by limitation.

On March 1 1922, two further provisions of the Transportation Act expired by limitation, namely: (1) The provision of Section 15 (*a*) making it incumbent on the Inter-State Commerce Commission when adjusting freight and passenger rates during the two years beginning March 1, to aim at establishing such rates for the railroads of the country as a whole or in districts as should afford "as a fair return" on the tentative valuation which was fixed by the Commission in July 1920, a sum equal to 5½% per annum and in addition at the discretion of the Commission an additional ½ of 1% to make provision for improvements, betterments or equipment; (2) The provision in Section 210 (*a*) permitting the carriers to apply for loans from the Federal Revolving Fund, within two years from the termination of Federal control.

On May 24 1922 the Inter-State Commerce Commission, as required by the Act, made known its decision as to what would be a new reasonable rate of return on the investment of the roads, for use when fixing rates for passenger and freight transportation. The decision of the Commission was reached in considering the question of rate reductions, and the full text of the Commission's report and opinion in that case, in which a horizontal cut of 10% in freight rates was made, was given in the "Chronicle" of May 27 1922, pages 2317 to 2329; the conclusions as to the rate of return will be found on page 2327. The Commission ruled: "That on and after March 1 1922 a fair return on the aggregate value of the railway property of the carriers defined in Section 15a of the Inter-State Commerce Act, determined as therein provided, will be 5.75% of such aggregate property value as a uniform percentage for all rate groups or territories designated by this Commission."

Following a decision handed down March 17 1923 by the Federal Court at New Orleans upholding the constitutionality of the provision in the Transportation Act generally known as the "recapture" clause, which was regarded as a test case (see V. 116, p. 1723), the Inter-State Commerce Commission on Mar. 23 1923 issued an order requiring all railroads to report by May 1 1923 as to their earnings during the year 1922 and to pay over to the Government under the Transportation Act one-half of the amount by which such earnings exceeded a 6% return on the value of the investment (V. 116, p. 1243). On Jan. 7 1924 (V. 118, p. 163) the United States Supreme Court also upheld the constitutionality of the "recapture" clause. The proceedings attacking the constitutionality of this clause were brought by the Dayton-Goose Creek Ry. of Texas, but when the action reached the U. S. Supreme Court, nineteen trunk lines had become parties to the brief filed in behalf of the road. (See V. 117, pages 2176-2179.)

The Inter-State Commerce Commission on April 4 1924 issued an order requiring all railroads whose net railway operating income exceeds 6% of the value of the property for the calendar year 1923 to file with the Commission, before May 1 1924, a report in the matter. The Commission also announced that pursuant to a ruling of the Comptroller-General of the United States, interest on amounts of excess railway operating income payable to the United States under the Transportation Act will be required at the rate of 6%, beginning four months after the termination of the period for which the excess income is computed. The newspapers, however, at the time stated that few, if any, of the railroads would pay any of their income for 1923 into the Treasury of the United States, since in almost every instance the railroads would use their own valuations of their property, which are sufficiently higher than any tentative valuations which have been made to date, to save them from making any payment of excess earnings (V. 118, p. 1868, 1869, 2142).

The Transportation Act of 1920 was designed to enable the railroads as a whole to meet their financial problems caused by the war and Federal operation, and to assist them in their future financing by giving them a reasonable, though extremely moderate, return on their investment. Operating costs had enormously increased under Federal control and big advances in transportation rates were necessary to place the roads on a solvent footing. Furthermore, on July 20 1920 the U. S. Railroad Labor Board awarded wage increases aggregating over $625,000,000 a year. Accordingly, on July 31 1920 the Inter-State Commerce Commission authorized advances in rates calculated to add $1,500,000,000 to the yearly revenues of the roads. The immediate effect was most disappointing, owing to a precipitate decline in railroad traffic (V. 113, p. 1732 to 1734). The railroads were therefore obliged as one of their first steps to curtail their expenses drastically and to seek a reduction in the wages of their employees. Comparative statistics show the following results for Class I railroads (those with annual operating revenues above $1,000,000), exclusive of switching and terminal companies (see also data in V. 113, p. 1852 to 1854, 1739 to 1742; V. 114, p. 1492). The figures have been compiled by the Association of Railway Executives from the records of the Inter-State Commerce Commission:

Calendar Year.	*Average Yearly Wage.*	*Total Labor Cost.*	*Gross Operating Revenue.*	*Net Operating Income.*	*Return on Prop. Value.*
1916	$892	$1,468,576,394	$3,596,865,766	$1,040,084,517	6.16%
1917	1,004	1,739,482,142	4,014,142,747	934,068,770	5.26%
1918	1,419	2,613,813,351	4,880,953,480	638,568,603	3.51%
1919	1,486	2,843,128,432	5,144,795,154	454,984,953	2.46%
1920	1,829	3,681,801,193	6,178,438,459	17,226,902	0.09%
1921	1,666	2,765,218,079	5,516,798,242	600,937,356	3.07%
1922	1,623	2,640,738,182	5,559,092,708	760,187,305	3.83%
1923	1,617	3,004,659,673	6,290,153,622	961,236,657	4.65%

These figures show the return on the investment in road and equipment without any reference to materials and supplies on hand or to working capital.

In April 1921 the Railroad Labor Board ordered the abolition on July 1 1921 of some of the provisions of the "National Agreements" which the railroad managers claimed had cost the railroads of the United States $300,000,000 per annum, but laid down 16 cardinal principles that must be maintained (V. 112, p. 1580, 1581; V. 113, p. 34, 805, 893, 915, 916, 1326, 1429, 1644, 1731, 1732).

Subsequently, in 1921-22, the national agreements were revised by the Labor Board, removing some of their most burdensome features in the case of railroad labor other than trainmen's brotherhoods. See below.

In May and June 1921 the Labor Board announced its decision that the exigencies of the situation demanded a substantial decrease in railroad expenses, and for that reason railroad wages on the larger roads should be reduced on the average 12%. A strike against this decrease and to forestall

any further changes in wages and working conditions was ordered by the four trainmen's brotherhoods and the switchmen's union; but on Oct. 27 1921, on the eve of its becoming effective, was declared off, as below stated.

In Nov. 1921, after many reductions in freight rates had been made (since Aug. 1920), the railway executives, in order to be able to further decrease these rates as demanded by the public, posted notices of a proposed additional wage cut of about 10% with the intent of wiping out the remainder of the wage advance of 1920. The railroads agreed to pass on all benefit from this further wage cut to the public, and in anticipation of same put in effect on Jan. 7 1922 an experimental reduction of 10% on agricultural products for all parts of the country, this reduction to stand during the six months in which the plan to reduce wages would come before the Labor Board. See also V. 113, p. 2153, 2470, 2876. It was not until May 1922 that the Labor Board announced its decision as to further wage reductions, and it then promulgated decreases in the pay of the shop craft employees, maintenance of way men, freight car men, signal men, clerks, &c., effective July 1 1922, which it was computed would effect a saving to the carriers of $135,000,000 per year. This led to a prolonged strike, as noted further on in the article on Railroad Wages. V. 114, p. 2432, 2541, 2784. The maintenance of way men, who did not join in the strike, had a portion of the decrease remitted to them on a rehearing, the remission amounting to 2 cents an hour. In 1923 and 1924 wage increases of one kind or another again became common, not as a result of orders of the Railroad Labor Board, but as a result of the action of many different roads.

Late in 1921 and early in 1922 the Federal Government sold a large amount of its holdings of equipment trusts (see below), and used the proceeds to settle its accounts with the railroads.

The sale of these equipment trusts and the improved financial outlook late in 1921 led the Federal Administration to withdraw their support of the so-called Funding Bill, which, as an amendment to the Transportation Act of 1920, would have permitted the settlement of the large amounts due by the Government to the railroads on account of compensation, guaranty, &c., and the funding of $500,000,000 of indebtedness due by them to the Government for expenditures made during Federal control on additions and improvement account. Compare V. 113, p. 2371, 2043, 2042, 1730, 1115, 910 to 914, 805, 696, 488, 487, 149.

For tentative valuations of 150 roads filed in 1921, see V. 113, p. 1008, 1011, 1539. Further tentative valuations have been noted in subsequent issues of the "Chronicle" in our "General Investment News" department. See also V. 115, p. 1798. To date the I.-S. C. Commission has set a final valuation on only three roads, (*a*) the Atlanta Birmirgham & Atlantic RR. (V. 117, p. 1235); (*b*) the San Pedro Los Angeles & Salt Lake RR. (V. 117, p. 1236, and (*c*) the Florida East Coast Ry. (V. 118, p. 2179). A petition presented by the National Conference on Valuation of American Railroads, of which Senator La Follette is head, to have the proceedings of the Inter-State Commerce Commission in the physical valuation of the railroads of the country recommitted to the Bureau of Valuation, was denied by the Commission on Dec. 3 1923 (V. 117, p. 2617). The Conference sought to have the Commission establish the original cost of property investment and labor in railroads, as well as other data. All the existing valuation work of the Commission was attacked as unsound. The Commission held that its procedure in ascertaining information with respect to aids, gifts, grants or donations, was in substantial compliance with the Valuation Act, and that analysis of method of arriving at final value was not required by the law.

The Transportation Act of 1920 contemplates the ultimate consolidation of all the railroads of the United States into a limited number of competing systems, and under one of the provisions of the Act the Inter-State Commerce Commission is directed to prepare a plan to that end. The provision is not compulsory as far as the roads are concerned. In the process of carrying out the requirement, the Commerce Commission directed Prof. William Z. Ripley of Harvard University to prepare a plan of consolidation, and with that as a basis, the Commission prepared a tentative plan which was put forward in September 1921 "in order to elicit a full record upon which the plan to be ultimately adopted can rest." The plan was outlined in V. 113, p. 1429 to 1431, 1950 to 1952. Hearings were held on the different systems proposed, principally the Northern Pacific-Burlington, the Great Northern-St. Paul, the Union Pacific-Northwestern, the Frisco-Katy-Cotton Belt, The Baltimore & Ohio-Reading, the New England-Great Lakes, the Pennsylvania and the New York Central Systems, but a final determination has not yet been made. The hearings terminated Dec. 4 1923. Oral arguments on the proposed consolidations were concluded Jan. 12 1924.

The following outlines the Transportation Act of 1920, which was published in full in the "Chronicle" of Feb. 21 1920, p. 715 to 732, with an amendment in V. 110, p. 2250:

RATES MUST BE ADJUSTED SO AS TO YIELD A FAIR RETURN.—The Commission is from time to time to determine and make public what percentage of the aggregate property value constitutes a fair return thereon. Such percentage must be uniform for all rate groups or territories which may be designated by the Commission. In making such determination it shall give due consideration, among other things, to the transportation needs of the country and the necessity (under honest, efficient and economical management of existing transportation facilities), of enlarging such facilities in order to provide the people of the United States with adequate transportation: *Provided*, That during the two years beginning March 1 1920 the Commission shall take as such fair return a sum equal to 5½% of such aggregate value, but may, in its discretion, add thereto a sum not exceeding ½ of 1% of such aggregate value to make provision in whole or in part for improvements, betterments or equipment, which, according to the accounting system prescribed by the Commission, are chargeable to capital account.

The Commission in a decision handed down in May 1922, as noted on the preceding page (bottom of first column) stated "that on and after March 1 1922 a fair return upon the aggregate value of the railway property will be 5¾%."

Pending the completion of its valuation of the railway properties in the United States, the Commission is required to make tentative valuations of the several roads as a basis for rate-making.

DISTRIBUTION OF EARNINGS IN EXCESS OF 6%.—Net railway operating income in any year in excess of 6% of the value of the property shall be utilized as follows: (*a*) One-half of such excess shall be placed in a *Reserve Fund* maintained by the railroad: (*b*) the remaining one-half shall go into a *General Railroad Contingent Fund* (see also page 3 of this publication).

REFUNDING OF CARRIERS' INDEBTEDNESS TO THE UNITED STATES.—The net indebtedness of each carrier to the United States for additions or betterments may be funded for a period of ten years (or less at option of company) from the termination of Federal control, with interest at 6% per annum, subject to the right of the carrier to anticipate the payment of the whole or any part of the indebtedness. Any remaining debt to U. S. to be evidenced by 6% notes running one year or less.

CONSOLIDATION OF RAILROAD PROPERTIES—STOCK CONTROL, &c.—The Inter-State Commerce Commission is directed to prepare and adopt a plan for the consolidation of railroad properties into a limited number of competing systems, and consolidations are authorized when in harmony with the plan as adopted and approved by the Comission. See remarks above and plans as proposed in 1921, V. 113, p. 1429 to 1431, and 1950.

The Commission shall also pass on any proposed measures for the control of one road by another by consolidation, lease, stock ownership or otherwise. In any consolidation the total amount of outstanding stock and bonds of the consolidating company shall not exceed the value of the consolidated properties as determined by the Commission.

JOINT USE OF TERMINALS.—The Inter-State Commerce Commission whenever in its opinion there exists an emergnecy may require such joint or common use of terminals, including main-line tracks for a reasonable distance outside of such terminals, as in its opinion will best meet the emergency and serve the public interest.

INTER-STATE COMMERCE COMMISSION MAY INITIATE RATES.—In the exercise of its power to prescribe just and reasonable rates, the Commission can initiate as well as modify and establish rates.

CONTROL OVER SECURITY ISSUES.—The Inter-State Commerce Commission is given exclusive control over the issuance of all railroad securities, except notes maturing in less than two years, when the total issues of said notes of the railroad amounts to less than 5% of its capitalization. See regulations, V. 111, p. 1814, 1049, 587.

LABOR BOARDS TO ARBITRATE DISPUTES BETWEEN WAGE-EARNERS AND EMPLOYERS.—The law authorizes a system of labor boards of adjustment to be established by employers and employees. A central railroad labor board of appeal is created with power to hear disputes and initiate investigations.

The members of this board, three of whom are to represent labor, three railroad managers, and three the public, to be appointed by the President and confirmed by the Senate. There are no penal provisions for the enforcement of the decisions of this board. [See list of members on page 255.]

Federal Control—Standard Return.

The proclamation of President Wilson assuming control of the roads was dated Dec. 26 1917. See V. 105, p. 2509; V. 106, p. 35; V. 108, p. 2081.

CONTRACTS FOR GOVERNMENT CONTROL—RENTAL PAYMENTS.—The form of contract which the Government executed, with slight variations, with the railroads, will be found in V. 107, p. 1157, 956.

The Act of Congress approved March 21 1918 (cited in V. 106, p. 1421) authorized the President "to agree with and to guarantee' to any carrier "that during the period of such Federal control it shall receive as just compensation an annual sum (herein called standard return) for each year . . . not exceeding a sum equivalent as nearly as may be to its average annual railway operating income for the three years ended June 30 1917." In a few cases for special reasons extra compensation was granted. Disputes however, arose, and when Federal control was terminated Feb. 29 1920 there still remained a number of roads concerning which the question of compensation, whether the standard return or a larger sum, was still to be determined.

Out of the aforesaid compensation as supplemented by the company's non-operating income, including interest and dividends on any bonds or stock owned, and other outside items each company was required to pay all Federal (war) taxes, interest and other fixed charges, and also any dividends allowed on their capital stock.

A list of the compensation contracts finally executed up to Sept. 15 1920 will be found, with the amounts of the compensation agreed upon, on pages 6, 7 and 252 of the issue of this Section for Nov. 27 1920. Others have been noted from week to week in subsequent issues of the "Chronicle."

United States Railroad Administration.

Director-General of Railroads and Agent of the President, James C. Davis; Chief Clerk, A. W. Stoll; Comptroller, L. J. Tracy. Division of Finance: D. C. Porteous, Director; C. L. Stryker, Treasurer; Division of Liquidation Claims, Geo. N. De Guire, Mgr., Dept. of Equipment; Short Line Section, Sidney F. Andrews, Chairman; H. W. Tweed; W. G. Goodrich, Secretary. Headquarters, Hurley-Wright Bldg., 18th and Pennsylvania Aves., N. W., Washington, D. C.

GOVERNMENT'S SETTLEMENT OF WAR TIME CLAIMS OF CARRIERS AGAINST RAILROAD ADMINISTRATION—FINAL COST TO GOVERNMENT $1,696,000,000.

In a report submitted by Director-General of Railroads James C. Davis to President Coolidge on Jan. 3 1924, it is shown that of the claims arising out of Government war time control of railroads, settlements covering 99% of all the mileage taken over had been effected. The total cost to the Government of the 26 months of Federal control and the six months guarantee period is shown to have been $1,696,000,000. Claims amounting to $1,014,397,447 were filed by the carriers against the Railroad Administration; during the investigation of these claims, sundry voluntary reductions were made and the Administration paid to carriers sums on account; this reduced the aggregate amount of claims as finally presented for adjustment to $769,974,783. Up to Dec. 31 1923, according to the report, $763,106,521 of these claims had been finally adjusted, or definite tentative agreements made looking to final adjustment. For full text of report see "Chronicle" of Jan. 12 1924, p. 164.

INCREASES AND DECREASES IN RAILROAD RATES.

During the period of Government control operating costs had been so enormously increased that the roads fell far short of meeting their expenses and charges, leaving a heavy deficit for the Government to make good. With the return of the roads to private control, therefore, it hence became necessary to arrange for increasing rates for the transportation of both passengers and freight. The extension of the guaranty period for six months after the roads had been turned back to their owners was for the purpose of

allowing time in which to make the adjustment. Just as the Inter-State Commerce Commission was ready to announce its decision, there came the decision of the RR. Labor Board on July 20 1920 awarding increases in wages aggregating $625,000,000 or more per year. The roads had asked for increases in rates to yield additional revenue of $1,017,766,000 per annum. Following the award of the Labor Board the roads petitioned the Commission for further additions to revenue in the amount of the increase. On July 31 1920 the Commission having placed a valuation of $18,900,000,000 upon the railroad properties, against a book value of $20,040,572,611, undertook to allow them 6% upon the property investment, which would mean a total of $1,134,000,000 with which to cover the increased cost of wages and supplies and to pay for improvements, &c. (compare V. 111, p. 653, 549, 459, 347 to 350, 329). The decision of July 1920 increased:

(*a*) *Freight Rates.*—40% in the East, 25% in the South, 35% in the West and 25% in Mountain-Pacific territory. (*b*) *Passenger Rates*—20%, the amount asked by the railroads, or about ½ of 1 cent additional per mile. (*c*) *Pullman Rates*—A surcharge to the roads of 50% on rates. (*d*) *Excess Baggage Rates*—20% advance. (*e*) *Milk Tariffs*—20% advance. (*f*) Coastwise and inland steamship lines and electric railway companies were permitted to increase their freight rates in proportion to the increases of the railroads in the same territory. (V. 111, p. 848.)

These increases in rates were expected to add $1,500,000,000 to the yearly revenues of the roads. But, unfortunately, a sudden decline in traffic caused an alarming falling off in railway operating income, notwithstanding the higher rates received. (V. 113, p. 2155.) It then became necessary to reduce both rates and wages.

On Nov. 17 1921 the Railroad Executives, in anticipation of a wage cut of 10%, announced a 10% reduction in rates on farm products for all parts of the country, except New England (and in New England also it was voluntarily accepted by most of the railroads), the old rates to be restored at the end of six months in case the expected lowering of railroad wages had not been accomplished. (V. 113, p. 2154, 2470, 2786.) This move followed numerous and important rate reductions on many products since Aug. 26 1920, when the general advance mentioned above was ordered. The 10% reduction in rates on farm products it was estimated would save shippers about $55,000,000.

In May 1922 the Inter-State Commerce Commission ordered a horizontal reduction of 10% in rates, effective July 1 1922. For full text of decision see "Chronicle" of May 27 1922, pages 2317 to 2329. In the case of grain, grain products and hay in Western territory the Commission had the previous autumn ordered a freight rate reduction of 16½%, which went into effect Jan. 1 1922. That reduction was allowed to stand without change, the 10% cut not in any way affecting it.

On April 17 1923 reductions were made in freight rates to meet Panama Canal competition on certain heavy commodities to Pacific Coast and intermediate points. The reductions apply to all Western lines, including those like the Atchison and Southern Pacific, that reach the coast by the Southern route, and the Union Pacific that goes by the Central route, as well as the Northwestern roads. Some time before the Inter-State Commerce Commission had refused to permit those lines to charge a higher rate to intermediate than to Pacific Coast points. Further reductions by the same lines were ordered to become effective June 1 1923. The latter ran as high as 50%, it was stated, on some commodities. (V. 116, p. 2089, 1014.)

Railroads operating through the Southwest and the lower Mississippi Valley were ordered by the Inter-State Commerce Commission on March 15 1923 to make a general revision of commodity freight rate schedules, effective June 30 1923. (V. 116, p. 1138.)

Because of the relatively disadvantageous position of the New England group of roads under the rate increase, a readjustment of the basis for division of through rates was authorized by the Inter-State Commerce Commission on Feb. 14 1922, effective March 1 1922, by which the New England roads other than the Bangor & Aroostook were to receive an increase of about 15% in the amount coming to them from the division of revenue derived from most classes of traffic interchanged with the lines west of the Hudson River. (V. 114, p. 702, and V. 111, p. 1942; V. 112, p. 744, 987.) Compare remarks in Oldham merger plan, V. 113, p. 1950, 1951. In the suit brought in April 1922 against the Commission to prevent the carrying out of this increase as discriminatory, the United States Supreme Court on Feb. 19 1923 handed down a decision upholding the order of the Commission. (V. 114, p. 917, 1253.) Certain carriers have filed applications for rehearings. The case was to have been reopened in May 1924.

CHANGES IN RAILROAD WAGES.

On July 20 1920 the U. S. RR. Labor Board, acting under Transportation Act of 1920, granted wage increases to the 2,000,000 railway employees of the United States, retroactive to May 1 1920, which the Board estimated would add approximately $600,000,000 to the pay-roll, but which the Association of Railway Executives estimated at $625,921,085, or 21%, and which appears to have aggregated possibly $720,000,000. Increases aggregating about a billion had been demanded. See V. 111, p. 347 to 350, 459, 460; V. 110, p. 2252, 2254, 2624.

On July 1 1921, after careful investigation, the U. S. Labor Board permitted the railroads, aside from the so-called short lines (which are in a class by themselves), to make a wage decrease of about 12%, as against the aforesaid wage advance of May 1 1920. It was estimated that this would effect a saving in the yearly pay-rolls of the roads of $375,000,000. (Compare V. 112, p. 2143 to 2150, 2377; V. 113, p. 33.) While the decrease was duly put in effect, the question whether it should be accepted or should be opposed by a strike was referred by the leaders of the 16 railroad unions to their local organizations (V. 113, p. 149), which, it appears, were quite generally in favor of a strike, both to recover the lost wages and prevent further unfavorable changes in wage or labor conditions.

When, however, it came to the actual declaring of a strike only the four trainmen's brotherhoods and the switchmen's union were prepared to take this step in the face of a strongly adverse sentiment on the part of the public and the Federal Government, and even in the case of these unions, on a number of roads, notably the Pennsylvania Eastern Lines, the necessary 66 2-3% vote was lacking (V. 113, p. 1326, 1706, 1718, 1730 to 1738).

The strike was scheduled to begin in the various sections of the country Oct. 30 to Nov. 5 1921 (V. 113, p. 1735), but it was called off on Oct. 27 1921 after a hearing before the Labor Board, in view of the vote by the latter that it would not take up the matter of wage decreases until all the questions relating to national rules and regulations had been disposed of by it. (V. 113, p. 1849 to 1852, 1943.)

In 1921-22 the national rules were rewritten by the Labor Board on a somewhat more satisfactory basis for the shop crafts and maintenance of way men, clerks and station employees, signal men, supervisors, firemen and oilers, train dispatchers, railway express employees, &c., but not for the Brotherhood of Locomotive Engineers, Brotherhood of Locomotive Firemen and Enginemen, Order of Railroad Conductors, Brotherhood of Railroad Trainmen and Switchmen's Union of North America. The efforts of the railroads to get these latter bodies to agree to a further wage reduction of about 10% and to submit to various changes in the rules failed in April 1922.

Reductions in wages of shopmen, maintenance of way men, freight car men, signal men, clerks, &c., aggregating approximately $135,000,000 per annum, were announced by the United States Railroad Labor Board in May and June 1922, effective July 1 1922. V. 114, p. 2432, 2541, 2784.

Following the wage reduction, the shop craft organizations went on strike July 1 1922, and for three months thereafter the railroads of the country were seriously handicapped in their operations. V. 115, p. 139. On July 17 1922 about 8,000 stationary firemen, engineers and oilers also were called out. President Harding made strenuous efforts to get the strikers to return to work and held numerous conferences with representatives of the unions and with railway executives. But his proposals for the settlement of the strike of railway shopmen, though accepted Aug. 2 1922 by the employees, fell through, because the carriers rejected the recommendation that the men return to work with their former seniority and other rights unimpaired (V. 115, p. 611, 612). Later in the month, however, many of the roads made individual agreements with their men on the basis of the so-called Baltimore plan or other separate arrangements, and where this was not done the strikers in large numbers gradually drifted back, so that by the end of September 1922 the strike ceased to be much of a disturbing influence. V. 115, p. 2123, 1596, 1282, 1283.

A temporary injunction restraining the officials of the Federated Railway Shop Crafts from interfering in any way with the operation of the railroads was granted at Chicago Oct. 5 1922 by Federal District Judge James H. Wilkerson, and later was continued in force. This was an additional aid in breaking up the strike. (V. 115, p. 1495, 2123.) On May 1 1923 leaders of the strike of railroad shopmen abandoned their case in defense against this injunction and announced that their principal contentions in the case had been upheld. (V. 116, p. 2086.) A final decree making permanent the temporary injunction was entered July 12 1923 by Judge Wilkerson. The decree affected about 400,000 railroad employees and officers of the shop crafts concerned in the strike. (V. 117, p. 169.)

The threatened strike of 400,000 maintenance of way men had meanwhile been stayed, E. F. Grable, President of the United Brotherhood of Maintenance of Way Employees and Railway Shop Laborers, having reached an agreement with the Railroad Labor Board to withhold any strike order until the Board could arrange for a rehearing (V. 115, p. 139, 395). After the rehearing the Labor Board (Oct. 14 1922) granted the employees, represented by the United Brotherhood of Maintenance of Way Employees and Railway Shop Laborers, an increase, effective Oct. 16 1922, of 2 cents an hour over the reduced schedule put in force on July 1 1922 (V. 115, p. 1790).

The rules as revised for the other unions in general add from one to two hours to the eight hours that must be worked at the regular pro rata rate before the punitive extra pay becomes operative.

An increase totaling over $3,000,000, together with the eight hour day and time and-one-half for overtime, was granted to approximately 65,048 members (freight employees and common laborers) of the Brotherhood of Railway and Steamship Clerks, Freight Handlers, Express and Station Employees, effective March 1 1923. V. 116, p. 898; V. 115, p. 2446, 2343.

ABBREVIATIONS USED IN THIS SECTION

EXPLANATORY.—This Supplement is expressly intended for use in connection with the investment news and official reports published from week to week in the "Chronicle." Frequent reference is made, therefore, to the volume and page of the "Chronicle" (as V. 118, p. 000), where fuller information may be found. Following each statement also is given a reference to the latest news item in the "Chronicle" respecting the company. As every such item has appended a reference to the last preceding item, the reader can run back at pleasure.

Dividends.—The *dividends* ("divs.") in the text are in general those actually *paid* during the calendar years named, irrespective of when *earned*.

Net Earnings are given after deducting operating expenses and frequently taxes, but not interest or other fixed charges.

Securities.—These are described in table at head of page (except the stock, for lack of space, sometimes only in text below) as follows:

Miles of Road.—Opposite bonds, this means the miles of road covered by the mortgage.

Size or Par Value.—Shows (in dollars unless otherwise marked), the denominations or par value, "100, &c.," signifying $100 and larger.

Rate Per Cent.—The interest and dividend rate *per annum* is here shown: g, gold; cur, currency; x, extra; s, stock or scrip.

When Payable.—J & J stands for January and July; F & A, February and August; M & S, March and September; A & O, April and October; M & N, May and November; J & D, June and December; Q-J, quarterly from January; Q-F, quarterly from February; Q-M, quarterly from March.

Bonds, Principal When Due, &c.—This column shows for bonds the date when they mature; for stocks the amount and date of the *last* dividend paid or declared.

Other Abbreviations: M for mortgage"; Gen M for "general mortgage"; Con M or consol M for "consolidated mortgage"; inc M for "income mortgage"; g for gold; c or cur for "currency"; guar p & i for "guaranteed principal and interest"; cum for "cumulative"; non-cum for "non-cumulative"; conv for "convertible into stock at holder's option"; pref for "preferred"; pref a & d for "preferred as to assets and dividends"; s f for "sinking fund"; lgr for "land grant"; r "fully registered (no coupons)"; c "coupon"; c* "coupon, but may be registered as to principal"; r* "registered" and "coupon" interchangeable; br "branch"; end "endorsed"; red "redeemable"; dr'n or drawn; by lot call, "subject to call"; p m "per mile"; ass'd, "assumed."

Taxes.—The position as regards deductions for taxes (deductible at source) is indicated in the table as follows: "*x*" The bonds so marked contain the broad tax-exemption clause that the company will pay the interest thereon without deduction for any tax. The Federal Acts approved Oct. 3 1917 and Feb. 24 1919 provide, however, that only one normal 2% income tax shall be deducted at the source and that all further Federal income taxes shall be met by the recipient of the income. See V. 108, p. 521. *xx* "Company was paying at last advices so much of the normal income tax as company is required to deduct as withholding agent" (V. 104, p. 699). *xxx* "Free from U. S. income tax up to 2%, deductible at source." *xxxx* "Free from U. S. income tax up to 4%, deductible at source." *y* "Free from taxes except Federal income tax." *yy* "Free from all taxes except Federal and State income tax." *z* "No provision as to exemption from taxes." *zz* "Payable with deduction of normal Federal income tax." *k* "Free from Pennsylvania State tax." *kk* "Free from New York State tax." *r* "Free from U. S. taxes, deductible at source." *rr* "Payable without deduction for taxes, except succession, inheritance and income taxes." *rrr* Payable without deduction for Federal, State, &c., taxes deductible at source other than Federal 2% income tax. *rrrr* Same with the exception also of inheritance taxes. *rrrrr* Payable without deduction of U. S. (or Governmental) taxes other than successive inheritance and income taxes.

(*Continued from Page 5.*)

The United States Railroad Labor Board on March 10 1923 refused to reopen the case under which 11,000 telegraphers on eleven Western roads suffered wage reductions (said to total $1,500,000 annually) in a decision handed down by the Board in December 1922 (V. 115, p. 2755), and which became effective Jan. 1 1923. (V. 116, p. 1138.) Increases in wages affecting about 5,500 telegraphers and station agents and aggregating approximately $364,432, were, however, granted by the Board in Nov. 1923 on a number of roads. (V. 117, p. 2400.)

On April 24 1923 the Brotherhood of Maintenance of Way Employees, &c., filed a request with the Labor Board for a return to wages in effect prior to July 1 1921 (V. 116, p. 1856). The petition affected 28 railroads and 175,000 employees. On June 30 1923 the Board remanded the case back to the roads for individual settlements. Failing this, the Board on Dec. 3 1923 awarded a wage increase of 1 to 2 cents an hour, retroactive to June 1 1923, to approximately 22,612 maintenance of way men of the Boston & Maine RR., the Fort Smith & Western Ry., the Louisville & Nashville RR., the Louisville Henderson & St. Louis Ry., the Nashville Chattanooga & St. Louis Ry., the San Antonio Uvalde & Gulf RR., and the Trinity & Brazos Valley Ry. These roads had failed to reach individual settlements with their men. A number of other carriers involved in the original controversy had settled. (V. 117, p. 2508; V. 116, p. 1969.)

In Oct. 1923 the firemen, trainmen, conductors and engineers, represented by the Big Four Brotherhoods, asked for wage increases averaging approximately 12½%. This increase, it was computed, would cost the railroads about $100,000,000 additional a year and bring wages up to the schedules in effect as of May 1 1920. (V. 117, p. 2848, 1740, 1524, 750, 636.)

The first settlement growing out of negotiations with the railroad brotherhoods over wage increases asked in Oct. 1923 was announced by the New York Central RR. on Jan. 22 1924, when the road made known that it had reached an agreement with engineers and firemen on practically all divisions and subsidiary lines providing for an increase in wages of approximately 5% and changes in certain working conditions. The agreement which will run for one year will affect, it is estimated, about 15,000 men, including engineers, firemen, hostlers and hostler's helpers. This settlement was then used by the labor organizations as a basis for attempted agreements on all American roads. The increase, when applied to the 160,000 engineers and firemen employed by all Class I. railroads, would cost, it was figured, about $25,000,000. (V. 118, p. 394, 627.) An increase of approximately 5%, affecting 44 Western railroads and about 50 subsidiaries, was granted on April 8 1924 to approximately 80,000 conductors and trainmen. (V. 118, p. 2003.)

The U. S. Railroad Labor Board handed down a decision on Oct. 21 1923 awarding increases of 1 to 2 cents an hour to clerks, station forces, dock, warehouse and platform freight handlers and similar employees of 65 carriers. The opinion found that 29 carriers and employees of the class involved had negotiated agreements increasing pay for some of the groups, but that there was no uniformity in the agreements. The employees affected by the decision were represented by the Brotherhood of Railway and Steamship Clerks, freight handlers, express and station employees, by the Brotherhood of Railway Station Employees, and by the International Longshoremen's Association. (V. 117, p. 1849.) This decision followed close upon another denying an increase to signalmen. The wage increases asked by signalmen on 45 carriers ranged from 13 to 23 cents an hour. This class of employee had been granted an increase of 13 cents an hour by decision No. 2 in July 1920. On July 1 1921 their wages were cut from 6 to 8 cents an hour and a further decrease in July 1922 of from 5 to 6 cents an hour brought the rates of pay to approximately what they were under the Federal Administration prior to decision No. 2. The Board decided in denying the request that the cost of living and other elements entering into consideration of the case had not changed sufficiently since the last decision of 1922 to justify an increase (V. 117, p. 1741).

Since March 1 1923 wage increases of one kind or another have been made by many individual roads to their employees. The Pennsylvania RR. on March 12 1924 increased wages of about 22,000 engineers, firemen, hostlers and hostler helpers by 5%, retroactive to Jan. 16 1924; the Pennsylvania RR. also granted a wage increase of about 6% to 32,000 conductors, baggagemen, brakemen and switch tenders. Early this year an increase of about 5% was granted to engineers and firemen of the following roads: The Pittsburgh & West Virginia Ry., the New York Chicago & St. Louis Ry., the Erie RR., the Chesapeake & Ohio Ry. and the New York New Haven & Hartford RR.; this increase followed close upon the announcement of the New York Central RR. of similar wage adjustments, referred to further above. Increases of 5% have also been granted during 1924 to conductors and motormen of a number of roads, including the New York New Haven & Hartford RR., the Louisville & Nashville RR., the Lehigh Valley RR. and the Southern Ry. These illustrations might be multiplied almost indefinitely.

Following a test suit brought by the Atchison Topeka & Santa Fe Ry., the Federal District Court at Chicago in April 1924 handed down a decision upholding the nine-hour day ruling of the I.-S. C. Commission for yardmasters. This order affected between 8,000 and 9,000 yardmasters on roads in all parts of the United States, who formerly worked 12 hours per day (V. 118, p. 2040).

The U. S. RR. Labor Board asserted in an opinion on June 27 1923 that the Pennsylvania RR. system (which had ignored the decision of the Board in refusing to acknowledge the elected representatives of the clerks' organization) "has persisted in such violation in contempt of the unanimous decision of the U. S. Supreme Court," which sustained the

* Includes oper. income for 10 mos. (March-Dec.), $2,057,518; Federal comp., 2 mos. (Jan.-Feb.), $283,863; other income, $236,193.

For latest earnings, see "Railway Earnings Section" (issued monthly).

Pres., Fairfax Harrison; Sec., C. E. A. McCarthy; Treas., Charles Patton. Office, Birmingham, Ala.—(V. 118, p. 2302.)

ALABAMA TENNESSEE & NORTHERN RR. CORP.—Owns and operates 186 miles main track, extending from Calvert, Ala., at junction with Southern Ry. System, north to Reform, Ala., on Mobile & Ohio RR. Also terminal tracks and valuable harbor frontage in Mobile, Ala., formerly owned by Mobile Terminal & Ry.

ORGANIZATION.—Incorp. in Alabama Oct. 12 1918 as successor of the A. T. & N. *Railway*, foreclosed and reorganized per plan in V. 106, p. 2558; V. 107, p. 290, 400, 1286, 1579; V. 108, p. 1720.

STOCK VOTING TRUST.—The new common stock is held in a voting trust, with George C. Van Tuyl Jr., Louis V. Bright, George E. Warren, James C. Colgate, John T. Cochrane and H. A. Smith as voting trustees.

BONDS.—The only fixed charge for the first five years is the $950,000 6% prior lien bonds, which were issued for cash per plan.

Of the remainder of the $3,500,000 issue, $1,400,000 is reserved for use under restrictions in extending the line if found desirable, northerly 50 miles to connection with the St. Louis-San Francisco Ry., and southerly to Mobile, 30 miles, with necessary improvements, and the final $1,150,000 will be restricted to future impts. and extens. and the refunding of equip. obligations, new or old.

The gen. lien (2d mtge.) 6% gold bonds were on an income basis up to Dec. 31 1923 (no interest having been paid), but from Jan. 1 1924 were entitled to 6% per annum. The holders of the bonds in June 1923 received a communication asking them to consent to the reduction of the interest rate from 6% to 2% annually. The company made a payment at the rate of $20 for each $1,000 bond to all holders of General Mortgage bonds who became parties to the agreement and deposited their bonds with the Irving Bank-Columbia Trust Co., New York. The plan was declared operative in Oct. 1923. Compare V. 116, p. 2880; V. 117, p. 1662.

Government loan, V. 113, p. 2612.

EARNINGS.—For calendar year 1923: Gross, $988,684; net oper. income, $9,552; other income, $51,296; int., rentals, &c., $106,126; bal., def., $45,279.

OFFICERS.—John T. Cochrane, Pres., Mobile; Louis V. Bright, V.-P., New York; E. A. Carstens, Sec., and K. R. Guthrie Treas. Mobile.

DIRECTORS.—Louis V. Bright and I. H. Lehman, New York; John T. Cochrane and John T. Cochrane Jr., Mobile; H. A. Smith, Hartford; David Taylor, F. J. Lisman and George C. Van Tuyl Jr., New York.—(V. 117, p. 1662.)

ALABAMA AND VICKSBURG RY. CO. (THE).—Owns Vicksburg to Meridian, Miss., and branch, 141 miles. Controlled by Sterling Trust Ltd. of London. V. 104, p. 1263, 663.

DIVS.—

Stock---------%	5	50	--	--	--	100 in '10	--	-----	----

Paid in 1924: April 16, 3½%.

BONDS.—The first mtge. Series "B" gold bonds are redeemable as an entirety on any interest date upon 90 days' notice at 107½ and int. on or prior to May 1 1929, at 105 and int. after May 1 1929 and on or prior to May 1 1964, and at ½ of 1% less than 105 and int. for each succeeding year.

Of the $2,500,000 Series "A" bonds, $1,936,900 were used to retire a like amount of 6% Gold notes which were issued to take up maturing bonds in 1921, and the proceeds from the remaining $563,100 of bonds were used to reimburse the treasury for expenditures made prior to May 1 1924 for additions and betterments.—V. 118, p. 2040.

REPORT.—For 1923, in V. 118, p. 1765, showed:

Calendar Years—	*Gross Earnings.*	*Net after Taxes.*	*Gross Income.*	*Interest, Rents, &c.*	*Dividends Paid.*	*Balance, Surplus.*
1923	$3,464,104	$466,306	$666,528	$175,296	$147,000	$344,232

1920	3,645,603	146,873	174,393	93,274	147,000	------

For latest earnings see "Railway Earnings Section" (issued monthly).

OFFICERS.—Larz A. Jones, Pres. & Gen. Mgr.; Udolpho Wolfe, Sec. & Treas. Office, Jackson, Miss.—(V. 118, p. 2040.)

ALASKA ANTHRACITE RR.—(V. 118, p. 905.)

ALASKA GOVERNMENT ROAD.—(V. 117, p. 1991.)

ALBANY & SUSQUEHANNA RR.—*(See Map Delaware & Hudson.).*—ROAD.—Owns Albany to Binghamton, N. Y., 142 miles.

LEASED for term of charter, viz., 150 years from April 19 1851, to Del. & Hudson Co.; rental was 9% per annum on stock (4½% J. & J.) (V. 56, p. 774), but the courts having held that the stock was entitled to the benefit of refunding effected in 1906, $120,750 additional rental was paid in Jan. yearly beginning 1910, making 3.45% available for corporate purposes. Jan. 1914 to Jan. 1918, 20 cents was deducted yearly for co.'s Federal income tax. A special dividend of 30% ($1,050,000) was paid Nov. 16 1909 from the proceeds of the judgment for back rentals due by reason of refunding. A special dividend of 3.25% was paid Jan. 10 1916 and again Jan. 6 1917 and Jan. 4 1918, but no special payment was declared in Dec. 1918, owing to Federal taxation. In Jan. 1920 paid 1½% extra and in Jan. 1921, 1922, 1923 and 1924 paid 2% extra. V. 107, p. 2374; V. 89, p. 1141, 1666; V. 90, p. 913.

BONDS.—The bonds are guar. p. & l. and until Apr. 1 1916 were convertible into D. & H. stock—$500 stock for $1,000 bonds; $3,556,000 were so converted ($3,500,000 pledged by D. & H.; V. 105, p. 389). V. 80, p. 1174, 1362, 2343. Guaranty, V. 82, p. 989.

REPORT.—For 1923 total income, $791,034; interest, $350,000; other deductions, $2,096; dividends, $385,000; bal., def., $477.

Arthur W. Butler, Pres.; George Welwood Murray, V.-P.; C. F. Coaney, Sec. & Treas.; Arthur A. Gammell, Asst. Sec. & Asst. Treas. Office, 24 Broad Street, New York.—(V. 117, p. 2651.)

ALBANY & VERMONT RR.—Owns road from Albany to Waterford Jct., N. Y., 12 m. Leased to Rensselaer & Saratoga in 1860 and now operated by Del. & Hudson Co. Annual rental, $20,000.—(V. 106, p. 923.)

ALGOMA CENTRAL & HUDSON BAY RY.—Owns from Sault Ste. Marie, Ont., and Michipicoten Harbor to a connection with the Can. Northern Ry., 272 miles; branch to Helen Mine, 12 m.; extension to Hearst on Grand Trunk Pacific Ry., 50 m.; total, 334 miles. Cash subsidy, $6,400 per mile. Land grant, 2,137,144 acres. V. 103, p. 2076; V. 99, p. 1671; V. 101, p. 772. Lake Superior Corp. guarantees, see that company under "Industrials."

Owns stock and leases for 999 years Algoma Central Terminals, Ltd., with bonds secured on terminal properties and on $900,000 1st M. 5% bonds and $99,300 stock of Algoma Eastern Terminals, Ltd. V. 95, p. 1540; V. 96, p. 651, 1020, 1491; V. 99, p. 268, 536; V. 100, p. 702; V. 104, p. 1700; V. 105, p. 71.

PLAN.—In 1916 a reorganization plan was put into effect (V. 102, p. 885, 1058, 2076; V. 103, p. 843; V. 104, p. 1700, 2341; V. 105, p. 908).

Under this plan a committee including C. B. B. Smith-Bingham and J. C. Dalton, for the Railway bonds, and A. F. P. Roger and Andrew Williamson for the Terminals bonds, vote the common stock of both cos.

The interest on the Railway 1st M. from June 1 1914, and interest and sinking fund on the Terminals bonds to be paid only if and to the extent that the joint net earnings available for the purpose permit (except as indicated below), but the interest to be cumulative up to 5%, with right to 6% per annum, if earned, in the following priority (*a*) Terminals bonds for current and all prior years 3% p. a., said payment, however, to be a fixed obligation for each year after Aug. 1 1921. (*b*) Both issues pari passu as though one issue, 2%. (*c*) Railway bonds, 3%. (*d*) Any arrears up to 5% on either issue. (*e*) Terminals sinking fund. (*f*) Railway bonds, 1% and Terminals bonds, ½ of 1%. While the guaranty of the Lake Superior Corporation remains, the committee alone can enforce it. V. 105, p. 1998.

Holders of the 5% bonds of Algoma Central Terminals received in April 1917, 3% for the year to Aug. 1915; April 30 1918 interest at 3% per ann. for period from Aug. 1 1915 to June 30 1917; Nov. 1 1918 5% for year 1917-1918; Nov. 1 1919, 4% for year to June 1919; May 1 1922, 1½% for six months from Aug. 1 1921; Nov. 1 1922, 1½% for six months from Feb. 1 1922; May 1 1923, 1½% for six months from Aug. 1 1922; Nov. 1 1923, 1½% for the six months from Feb. 1 1923. Railway 5s Nov. 1 1918 re-

1920-21	2,715,679	79,691	594,210

Pres., R. Home Smith; Sec., Alex. Taylor, Toronto: Treas., J. M. Alton; Comp., E. B. Barber, Sault Ste. Marie, Ont.—(V. 118, p. 1909.)

ALGOMA EASTERN RY (THE).—Owns from Sudbury, Ont., to Little Current (Manitoulin Island) through nickel and copper districts, 86 m., completed Jan. 1 1913; branches, 3 m. Land grant 682,692 acres in Ontario and cash subsidies from Province and Dominion of Canada. V. 92, p. 265; V. 95, p. 748. Sale of land, V. 117, p. 1014. Leases for 999 years Algoma Eastern Terminals, Ltd., rental covering interest and sinking fund on $900,000 1st M. 5% bonds. See Algoma Central Terminals, Ltd., mortgage under Algoma Central & Hudson Bay Ry. above.

Common stock, $2,000,000, all issued, and pref. 5% non-cum., $1,000,000, all issued, all pref. and $1,000,000 common owned by Lake Superior Corporation. Bonds (Man. & No. Shore Ry.) auth., $3,000,000, issuable at $30,000 per mile (issued, $2,500,000), guar., prin. & int., by Lake Superior Corp. They are subject to call as a whole at par or may be drawn at 105. V. 92, p. 105, 396, 462, 527, 1032; V. 93, p. 227, 406; V. 94, p. 1382; V. 116, p. 1048.

REPORT.—For year ended June 30 1923 in V. 117, p. 1014, showed: Net earnings, $194 398; interest and rentals, $237,921; net income, def., $43,523. Pres., G. A. Montgomery, S. S. Marie, Ont.; Sec., Alex. Taylor, Toronto; Treas., J. M. Alton, Sault Ste. Marie.—(V. 117, p. 1016.)

ALLEGHENY & WESTERN RY.—(*See Map Buff. Roch. & Pitts.*)—Punxsutawney to Butler, Pa., 60 m. and br. 3 m. An extension of Buff. Roch. & Pittsb., to which leased in perpetuity for guar. of bonds, taxes and 6% on stock. Uses B. & O from Butler to New Castle and Pittsburgh under a trackage arrangement, making in all 144 m. V. 70, p. 849.—V. 106, p. 600.

ALLENTOWN RR.—Topton to Kutztown, Pa., 4.39 m. Stock, $1,268,884 (par $50), incl. $1,071,400 pledged under Reading Co. gen.M. No bonds.

ALLENTOWN TERMINAL RR.—Owns 3.27 miles of railroad in Allentown, Pa., connecting the East Penn. (Phila. & Reading) with the Cent. of N. J. Leased for 999 years to Phila. & Read. and Cent. of N. J. (by assignment from Lehigh Coal & Navigation Co.) at int. on bonds and 5% on $450,000 stock (par $50) taxes and corporate expenses.

Bonds were extended from July 1 1919 to July 1 1929, the interest rate being raised from 4% to 6%; the mortgage security remains unimpaired but the guaranty of P. & R. Ry. and Lehigh Coal & Nav. Co. was canceled. Callable after July 1 1920 at 102½ and int.—(V. 50, p. 422; V. 108, p. 2628.)

AMADOR CENTRAL RR.—Ione to Martell, Cal., 12 m. Stock, $400,000, par $100. Mtge., see V. 88, p. 156. Year ending Dec. 31 1923, gross, $65,696; def., after taxes, $570; bal. after int., rentals, &c., def. $18,655. Divs. 1911-12, 6 2-3%, $25,000 from accumulated surplus, 1918 and 1919, 1% each yr. Pres., Meta J. Erickson, San Francisco.—(V. 88, p. 156.)

AMERICAN NIAGARA RR.—(V. 117, p. 1883.)

ANN ARBOR RR.—Owns from Toledo, O., to Frankfort, on Lake Mich., 294 miles; operates car ferries between Frankfort, Mich., Kewaunee and Manitowoc, Wis., and Menominee and Manistique, Mich.

Owns capital stock of Manistique & Lake Superior, Manistique, Mich., to Evelyn, 42 miles (with branch, 13 miles). V. 92, p. 1108; V. 107, p. 1344, 2156 V 106, p. 2194, 2410. Tentative valuation, V. 113, p. 1052.

STOCK, &c.—Common, $3,250,000; pref., $4,000,000; 5% non-cum. par $100. Pref. stock cert., see issue Oct. 30 1897, p. 3. V. 94, p. 205.

BONDS.—The company in May 1921 received authority to issue $2,000,000 6% Impt. & Ext. bonds in lieu of similar 5% bonds, and for permission to retire $500,000 of its outstanding $2,500,000 5% bonds.

Equipment trusts issued to Director-General for rolling stock allocated to this company. See article on page 3 and V. 114, p. 1764. Equip. trusts Series A, V. 118, p. 430, 1266.

Government loan, V. 111, p. 1369; V. 112, p. 256, 371.

REPORT.—For calendar year 1923, gross oper. revenue, $5,602,575; oper. income, $805,893; other income, $117,532; deductions, $843,416; bal., sur., $80,009. V. 117, p. 1460, 1552.

For latest earnings, see "Railway Earnings Section" (issued monthly).

DIRECTORS.—Newman Erb, J. S. Bache, F Kingsbury Curtis, S. E. Summerfield, H. B. Blanchard, W. J. Wollman, all of New York; M. A. Taylor, Boston; Frederick Hertenstein, Cincinnati; E. F. Blomeyer, Toledo; W. D. Hutton. Pres., Newman Erb; V.-Pres., J. S. Bache and E. F. Blomeyer; Treas., J. F. Cress; Sec., H. B. Blanchard. New York office, 42 Broadway.—(V. 118, p. 2178.)

ANTHONY & NORTHERN RR.—Reorganized in 1919 as the Wichita Northwestern RR., which see.

APALACHICOLA NORTHERN RR.—River Junction to Port St. Joe, 95.62 miles; Franklin Junction to Apalachicola, 3.06 miles; total main line owned, 98.68 miles. Main line leased from Atlantic Coast line, 0.44 miles and side tracks owned, 9.02 miles. V 87, p. 935. Capital stock, $1,000,000.

Bonds, $2,000,000 (Ill. State Tr. Co., E. St. Louis, trustee), all held by committee, A. T. Perkins, St. Louis, Chairman; S. N. Kirby, T. S. Moffit, W. C. Fordyce and Wm. E. Bates, which collects interest only as earned. Mar. 1913 and subsequent coupons were not paid at maturity; in Dec. 1917, $37,600, and in Dec. 1918, $17,400 was paid on past due coupons; none thereafter to Dec. 1921, when $14,800 was paid.

For cal. year 1923, gross, $360,059; net, $95,188; other income, $17,198; interest, rentals, &c., $125,842; bal., def., $13,456. A. T. Perkins, Chairman and President, St. Louis; Bryan Snyder, V.-P. & Gen. Mgr.; R. J. Lockwood, V.-P., St. Louis; R. R. Tompkins, Sec. & Treas., St. Louis; B. W. Eells, Asst. Sec. & Asst. Treas., Port St. Joe, Fla.—(V. 104, p. 763.)

ARIZONA EASTERN RR. CO.—Owns Maricopa to Hassayampa, Ariz., 74 miles; Bowie to Miami, Ariz., 136 m.; Cochise to Gleeson, 35 m.; Tempe to Mesa, 8 m.; other, 36 m.; leases Phoenix, Ariz., to Winkelman, 92 m.; other, 1 m.; total, 383 miles. Stock auth., $40,000,000, of which $9,000,000 outstanding Dec. 31 1923, $8,999,100 owned by Southern Pacific Co. Calendar year 1923, gross, $3,699,759; net oper. income, $907,364; other income, $116,595; deductions, $852,713; bal., sur., $171,256. For latest earnings, see "Railway Earnings Section" (issued monthly).—V. 118, p. 1266.)

ARKANSAS & LOUISIANA MISSOURI RY.—Incorporated in Louisiana in Aug. 1920 as successor to Arkansas & Louisiana Midland RR. Compare V. 111, p. 790, 895, 1369; V. 112, p. 1143; V. 113, p. 69, 291.

ARKANSAS & MEMPHIS RAILWAY, BRIDGE & TERMINAL CO.—Owns double-track bridge (with wagon-way) across the Mississippi River at Memphis, Tenn.; opened for traffic July 15 1916. V. 103, p. 321.

Stock outstanding $2,520,000 owned one-third each by the St. Louis Southwestern Ry., Chicago Rock Island & Pacific Ry. and Missouri Pacific RR., which use the road under a 50-year operating agreement. These roads jointly and severally guarantee the 1st M. bonds, prin. and int., by endorsement. Of the $7,500,000 1st M. bonds, $3,750,000 are owned by the three proprietary companies. Of the remainder $2,250,000 are in the company's treasury subject to the indenture of Dec. 21 1917. $3,603,000 are outstanding; $183,000 have been retired through sinking fund and $1,500,000 are unissued. V. 108, p. 1721.

Pres., W. S. Martin; Sec. & Treas., Carl Nyquist.

ATCHISON & EASTERN BRIDGE.—Owns railroad and wagon bridge at Atchison, Kan., connecting with the union station. Used by the Atch. Top. & Santa Fe, the Chic. R. I. & P., the Mo. Pac. and the Chic. Burl. & Quincy. Stock, $700,000; par $100 per share. Pres., H. A. Kelley, Treas., H. P. Eells Jr.; Sec., W. P. Kelly, Cleveland, O.—(V. 67, p. 578.

ATCHISON TOPEKA & SANTA FE RY. CO. (THE).—On Jan. 1 1924 comprised 11,757 miles of railroad (11,557 m. owned, including an unbroken line from Chicago, Ill., via Kansas City, Mo., and Albuquerque, N. M., to the Pacific Ocean; also to Galveston, Tex., and the Gulf of Mexico. For operating purposes the 11,757 miles were divided as follows:

Atchison Topeka & S. F	8,931	Panhandle & Santa Fe	853
Gulf Colorado & Santa Fe	1,909	Grand Canyon	64

Also controls jointly with Southern Pacific Co. (Northwestern Pacific RR.—which see &c.). 518 miles; Sunset Ry., 50 miles V. 109, p. 1987

The shareholders voted Oct. 25 1917 to acquire several subsidiaries. V. 105, p. 908; V. 106, p. 2343. See V. 106, p. 2130.

In April 1915 the St. Louis Rocky Mt. & Pacific Ry., extending from Des Moines, N. M., west to Raton, with branches, 106 miles, was purchased for $3,000,000 Rocky Mtn. Div. 1st M. 50-yr. 4s. See V. 97, p. 363, 442; V. 95, p. 543, 1771; V. 97, p. 666; V. 100, p. 1169, 1591.

The Oklahoma Central RR., Lehigh, Okla., to Chickasha, 133 miles, was leased for 5 years from Aug. 1 1914, with privilege of renewal for 5 years. An option to purchase the $1,500,000 stock and $1,500,000 income bonds for $800,000 was exercised in 1917, about 80% of the $1,200,000 1st Mtge. 5% bonds due Aug. 1 1934 being also acquired. V. 106, p. 2130. V. 98, p. 1844; V. 99, p. 406; V. 101, p. 845.

In April 1921 was authorized to operate, pursuant to a lease dated April 7 1920, the Buffalo (Okla.) Northwestern RR., which includes 51 miles of road, extending from a point of connection with its main line at Waynoka, Okla., to Buffalo. V. 112, p. 1616. The stockholders in May 1921 also approved the leases of the Osage County & Santa Fe and the Barton County & Santa Fe. In Oct. 1921 received authority to lease the California Southern RR. V 113, p. 1771. In April 1923 was authorized to lease the Rio Grande, El Paso & Santa Fe RR. V. 116, p. 1759.

ORGANIZATION.—Organized Dec. 12 1895 under laws of Kansas, as successor of Atch. Top. & S. Fe RR. Co., foreclosed. V. 60, p. 658.

STOCK.—The preferred stock has preference as to assets and non-cumulative dividends not exceeding 5% per ann.

The company has applied to the Kansas P. U. Commission for permission to increase the authorized capital stock by $100,000,000 to a total of $481,486,000. See V. 118, p. 2040.

V. 90, p. 913, 1043, 1612; V. 92, p. 393, 593, 1700; V. 116, p. 2635.

The several issues of convertibles must be secured by any future mtge. covering the lines owned at time the convertible issue was made, and are callable at 110

The California-Arizona Lines 1st and Ref. mtge of 1912 ($50,000,000 auth. issue) of which $18,521,284 4½s are outstanding, covers 804 miles of road including the line from Needles to Mojave, 242 miles, which was acquired from the Southern Pacific Co., on which there are outstanding $4,127,500 Sou. Pac. bonds due Nov. 1 1937. The latter also cover over 1,000 miles of Sou. Pac. Co., which has agreed to indemnify the Cal. Ariz & Santa Fe Ry against any claim on account thereof.

Of the remaining Cal.-Ariz. bonds, $26,297,117 are issuable for not exceeding the actual cash expenditures for betterments, improvements and additions on and after Jan. 1 1912 and $5,167,000 are reserved to refund the underlying bonds, $4,940,000 Santa Fe Prescott & Phoenix 5s, $224,000 Prescott & Eastern 5s and $3,000 on the line from Goffs to Ivanpah, Cal., 45 miles. V. 94, p. 649, 896, 766; V. 95, p. 543.

Of the Rocky Mtn. Div. 1st 4s of 1915 ($20,000,000 auth. issue), $3,000,000, redeemable at 105, were issued to purchase the St. Louis Rocky Mtn. & Pac. Co., Des Moines to Raton, N. M., &c., 91 miles. The remainder may be issued for extensions. V. 100, p. 1593; V. 102, p. 250.

REPORT.—For 1923, in V. 118, p. 2062, showed:

	1923.	1922.	1921.
Operating Revenues—	$	$	$
Freight	166,332,196	158,026,370	160,217,450

For latest earnings, see "Railway Earnings Section" (issued monthly).

OFFICERS.—W. B. Storey, Pres.; E. J. Engel, W. E. Hodges, A. G. Wells and Edw. Chambers, V.-P.; L. C. Deming, Compt.; E. L. Copeland, Sec. & Treas.; C. K. Cooper, Asst. Treas.; J. W. MacLachlan, Asst. Sec.

DIRECTORS.—Charles Steele, Edward J. Berwind, Henry S. Pritchett Myron C. Taylor, Ogden L. Mills, John W. Davis, W. C. Potter, New York; S. T. Bledsoe, W. B. Storey, Chicago; Andrew C. Jobes, Merriam, Kan.; Howel Jones, Topeka; W. E. Brown, Wichita, Kan.; Arthur T. Hadley, New Haven; J. E. Otis, Chicago. Offices, 5 Nassau St., New York and 80 East Jackson Blvd., Chicago.—(V. 118, p. 2178.)

ATHENS TERMINAL CO.—Owns freight terminals and approaches in Athens, Ga. Stock, $25,000, equally owned by Seaboard Air Line and Gainesville Midland, which agree to pay operating expenses and interest charges in proportion to tonnage used. Bonds ($250,000 auth. issue), see table above. Pres. & Treas., Gordon C. Carson, Savannah, Ga.; Sec., W. B. Veazey, Gainesville, Ga.

ATLANTA BIRMINGHAM & ATLANTIC RY. CO.—Owns Brunswick, Ga., to Birmingham, Ala., 455 m.; Sessoms to Waycross, Ga., 26 m.; Fitzgerald to Thomasville, Ga., 80 m.; Atlanta to Manchester, 76 m. total, 637 m. See V. 103, p. 405. Proposed extension from Waycross, Ga., to Jacksonville, Fla., 75 miles. V. 104, p. 2116.

Pres. B. L. Bugg was appointed receiver on Feb. 25 1921. V. 112, p. 931. In July 1921 Albert G. Foster, Madison, Ga., was appointed special master in receivership. In March 1921 was authorized to borrow $125,000 to pay past due wages. V. 112, p. 1398. Wage decision, V. 112, p. 1739. Tentative valuation, V. 113, p. 1052. Foreclosure suit filed, V. 114, p. 1177.

ORGANIZATION.—On Jan. 1 1916 succeeded to foreclosed properties of the A. B. & A. *RR.* Co., Georgia Terminal Co. and Alabama Terminal Ry., per plan in V. 101, p. 2143. Valuation, V. 103, p. 1887; V. 117, p. 1235. Government loan, V. 111, p. 492.

STOCK.—$30,000,000 in $100 shares was underwritten at $12 a share to discharge equipment obligations ($1,266,366), &c. V. 102, p. 344, 885.

BONDS.—*First and Refunding Bonds.*—When issued will be a first mortgage on 336 miles of main-line track and second mortgage on 301 miles, and upon the terminal properties in Birmingham and Atlanta. To be issued only (*a*) to retire, at or before maturity, Atlantic & Birmingham Ry. $4,090,000 1st 5s due 1934. (*b*) For future improvements, extensions and acquisitions under restrictions. Int. rate to be fixed at time of issue, not to exceed 6%. V. 103, p. 405. Callable at 110 & int. Nov. 1920 to 1925; at 105 & int. 1925 to 1935, and thereafter at 102½

On Dec. 31 1923, $405,000 First & Ref. Mtge. bonds had been issued, $420,000 had been pledged and $599,000 were in treasury, and $295,000 and $400,000 incomes pledged to secure notes of $200,000

Income Bonds.—Entitled to non-cum. interest (paid semi-annually) at such rate, not exceeding 5% per annum, as may be declared. (V. 101, p. 2143). The mortgage provides that net income, as defined by the I.-S. Comm. Commission, as available for that purpose, shall be so declared by the Board. The board may, however, reserve in any year from such "net income" not in excess of 20% thereof, (but not to exceed $100,000 in any year), until the total amount so reserved, exclusive of interest, shall reach $300,000. This "Income Bond Reserve Fund," carrying interest at 6%, may be distributed to the income bonds at any time and in any amount, and any balance at the maturity of the bonds shall be paid over to the trustee for the benefit of the bondholders. Total authorized issue, $5,200,000; held by or for company, $256,093; pledged as collateral, $400,000; outstanding, $4,543,907. V. 105, p. 68.

The first installment of interest on the 15-yr. 5% income M. bonds at the full rate of 5% per annum, from Nov. 1 1915 to June 30 1916, $33 33 per $1,000 bonds was paid Sept. 1 1916, but only as to 2½ % from earnings; Mar. 1917 to Mar. 1918 incl., 2½ % (s.-a.) was paid on the incomes; on Jan. 12 1920 interest was paid at the rate of 5% per ann. on the coupons due Sept. 1 1918, Mar. 1 1919 and Sept. 1 1919. V. 110, p. 260. Mar. 1 1920 paid 2½ %. Sept. 1 1920 interest was deferred. V. 111, p. 989.

In view of the default on the Atl. & Birm. 1st mtge. bonds, a protective committee was formed for the income bonds in Dec. 1921, with George E. Warren, Chairman, and A. W. Hutchins, Sec.; depositary, Columbia Trust Co., New York (V. 113, p. 2404), and also for the A. & B. 1st mtge. bonds, with Francis R. Hart, Chairman, and Walter F. Wyeth, Sec., 17 Court St., Boston; depositaries, Old Colony Trust Co., Boston, and Farmers Loan & Trust Co., New York (V. 113, p. 2718; V. 115, p. 72.)

As to Atl. & Birm. Ry. $4,090,000 1st M. 5s, see V. 80, p. 710, 115; V. 113, p. 2503.

Equipment trusts ($917,000) issued to Director-General for rolling stock allocated to this company. See article on page 3 and V. 114, p. 1061. U. S. Govt. long-term notes due $20,000 annually to 1930, $180,000.

REPORT.—For year ending Dec. 31 1923, showing:

Calendar Year—	Gross Earnings.	Net, after Taxes	Other Income.	Interest, Rents, &c.	Balance, Sur. or Def.

DIRECTORS.—Brooks Morgan, B. L. Bugg, W. W. Banks, T. K. Glenn, J. L. Edwards and W. E. Paschall, of Atlanta; A. H. Woodward, Birmingham, Ala.; Galen L. Stone, Boston; Percy R. Pyne and George C. Clark Jr., N. Y. City; W. G. Brantley, Washington, D. C.; F. D. M. Strachan, Brunswick, Ga.; W. C. Vereen, Moultrie, Ga.

Pres., ---------; V.-Pres., J. L. Edwards; Treas., W. E. Paschall, Sec., A. V. B. Gilbert.—(V. 117, p. 1235.)

ATLANTA & CHARLOTTE AIR LINE RY.—Owns Charlotte, N. C., to Armour, Ga., 263 miles.

In 1914 it was agreed to modify the operating contract made with the Richmond & Danville RR., under which the dividend to be paid will be 9% yearly without regard to earnings, instead of a maximum of 7%, dependent upon gross earnings, the Southern Ry. to have an option to purchase the stock on any dividend date at $250 per share in cash. V. 98, p. 1458, 1765, 1918; V. 98, p. 1991; V. 99, p. 195, 536, 608; V. 106, p. 2758 (So. Ry.). The final $4,000,000 1st M. 5s was sold in 1917 on account of double-tracking, &c. V. 104, p. 1044. V. 102, p. 1058, 1162; V. 101, p. 286, 368; V. 103, p. 577, 664.

Pres., C. S. Fairchild, N. Y.—(V. 104, p. 1044, 1898; V. 105, p. 388.)

ATLANTA & ST. ANDREWS BAY RY.—Owns Dothan, Ala., to Panama City, Fla., on Gulf of Mexico, 82 miles. Stock auth., $1,000,000; outstanding, $300,000; par, $100. Central Bank & Trust Corp. of Atlanta, trustee of first mtge. V. 98, p. 391, 1460; V. 88, p. 685; V. 83, p. 270. Gov't award, V. 112, p. 256. For year ending Dec. 31 1922, gross, $271,021; net, after taxes, $48,097; other income, $143,173; interest and rentals, $69,672; bal., sur., $121,598. Pres., Minor C. Keith; Sec., H. H. Hanson, both of New York.—(V. 115, p. 72.)

ATLANTA TERMINAL CO.—Owns union passenger station opened May 14 1905, with approaches, used by Southern Ry., Central of Georgia Ry., Atlanta & West Point RR., Atlanta Birmingham & Atlantic Ry. and Seaboard Air Line Ry. Stock, $150,000, owned in equal proportions by the first three companies named. The stock receives 4% p. a., payable Mar. 1 of each year, charges and expenses being paid by the five using companies on car basis. The $1,000,000 Series "A" 6% bonds are guaranteed p. & i. by the three companies owning the stock. They were issued to

retire the $1,500,000 1st mtge. 4s, due July 1 1953. Secured on entire terminal property. V. 109, p. 577, 1271. President, R. B. Pegram.—(V. 105, p. 2093; V. 107, p. 904; V. 109, p. 476, 577, 271.)

ATLANTA AND WEST POINT RR. CO.—Atlanta, Ga., to West Point, Ga., 93.19 miles. The Georgia Railroad & Banking Co. owned $936,100 stock, but sold same in 1910-11 to the lessees at $135 per share with option of repurchase at same price.

In Mar. 1920 announced that the Georgia RR., the Atlanta & West Point and the Western Ry. of Ala. would in future be operated in close organization independently. The three properties will be directed as to operation from Atlanta, Ga.

DIVIDENDS.—From July 1 1884 to July 1901, inclusive, 6% yearly, J. & J.; Oct. 1 1899, 25% extra; 1902 to Dec. 1923, 6% yearly; June 30 1924 paid 3½%.

Year ended Dec. 31 1923, gross, $2,950,513; net, $193,932; other income, $249,729; interest, rentals, $394,627; divs. (6%), $147,816; bal., sur., $201,217. V. 118, p. 2178. For latest earnings, see "Railway Earnings" Section (issued monthly). Pres., C. A. Wickersham. Office, Atlanta, Ga.—(V. 118, p. 2178.)

ATLANTIC CITY RR.—Camden to Atlantic City, 58.23 miles; branches Winslow Junction to Cape May, N. J., 55.61 miles; Williamstown, 22.65 miles; Gloucester, 10.86 miles; Sea Isle City, 12.33 miles; Ocean City, 10.14 miles; total, 169.82 miles. V. 72, p. 1278.

STOCK.—Common, $2,625,000; pref., $1,000,000 (par $50). Reading Co. owns over 99% of stock, and guarantees consol. 4s, prin. & int. Form of guaranty, V. 75, p. 1398. Of the latter, $2,649,000 are reserves to retire prior lien bonds. V. 73, p. 81. There are $22,800 Sea Coast "A" 5s; $1,200 "B" 5s.

The 1st 5s due May 1 1919 were extended at 5½% interest until May 1 1929 (subject to call at 105 on and after May 1 1924), and unconditionally guaranteed, principal and interest, by the Reading Co. V. 108, p. 1721

For 1923, gross, $4,850,619; net oper. income, $322,701; other income, $92,940; interest, rentals, &c., $787,127; bal., def., $371,486.

For latest earnings see "Railway Earnings Section" (issued monthly).

ATLANTIC COAST LINE CO.—Organized May 29 1899 in Connecticut and owned June 30 1923 $19,930,827 common stock and a large amount of bonds of Atlantic Coast Line RR.; also stocks and bonds of other companies.

STOCK, &c.—Reduced in 1914 to $8,820,000. V. 98, p. 234, 609.

As to the certificates of indebtedness, see editorial Oct. 1897, Supplement, p. 3; V. 65, p. 564; V. 71, p. 1310. In 1898 $5,000,000 stock was distributed as a 100% dividend (V. 67, p. 954), and in 1900 $10,000,000 4% certificates of indebtedness (including $2,500,000 of Atlantic Coast Line RR. Co.) as a 100% dividend. (V. 71, p. 697; V. 73, p. 493.)

Jesup, Ga., to Montgomery, Ala.	355	Central RR. of So. Carolina—	
		Lanes to Sumter, S. C.	40
		Other lines	12
		Tot. miles oper. Dec. 31 1923	4,866

Also owns one-sixth interest in the Richmond-Washington Co. Leases, jointly with the Louisville & Nashville RR., the Georgia RR., 571 miles.

Joint lease of Carolina Clinchfield & Ohio RR., V. 116, p. 2881.

In 1918 opened a line from Sebring, Fla., to Moore Haven, 59.70 miles. V. 103, p. 577. New station in Richmond, Va. V. 108, p. 266.

The Tampa Southern RR. Co., an auxiliary company, in 1917 let contracts for a 50-m. line from Tampa, via Orient, to Palmetto, and in April 1919 was operating from Uceta to Palmetto, 35.6 miles. In Jan. 1920 the line between Palmetto and Bradentown, Fla., was completed and placed in service. V. 105, p. 2457. Property operated by agreement with owner, James River to Acca (R. F. & P. RR.), 3.56 miles.

ORGANIZATION.—On April 18 1900 absorbed by consolidation (V. 70 p. 840, 893), Wilmington & Weldon RR., Atlantic Coast Line RRs. of S. C. and Va. and Norf. & Car. RR. On April 10 1902 absorbed the Savannah Fla. & Western Ry. Co. The St. Johns & Lake Eustis Ry. Co. was merged June 12 1902. Florida Southern and Sanford & St. Petersburg were merged April 1903. V. 76, p. 918, 971. Jacksonville & South Western was merged July 28 1904, the Winston & Bone Valley RR. Co. Feb. 18 1909, and the Conway Coast & Western RR. Co. on July 1 1912. In Oct. 1913 the railroad of the Sanford & Everglades RR. Co. was purchased by and conveyed to this company. In July 1922 acquired control of the Rockingham RR. V. 115, p. 307. The Atlantic Coast Line Co. (of Conn.) June 30 1923 owned $19,930,827 common stock, $17,640,000 having been distributed March 10 1914 among its stockholders. See that company above. V. 70, p. 893; V. 71, p. 1116, 1310; V. 83, p. 560.

In Oct. 1902 acquired $30,600,000 of the $60,000,000 Louisville & Nash. RR. stock and in 1913 an additional $6,120,000. On May 1 1923 the L. & N. paid a stock div. of 62½%, increasing this company's holdings to $59,670,000. On Dec. 31 1923 this $59,670,000 stock was on deposit along with $306,000 stock of Louisville Property Co., as security for the company's $35,000,000 collateral trust 4s of 1902. V. 75, p. 733, 792, 905; V. 79, p. 785. The L. & N. on May 1 1923 paid a stock div. of 62½%.

STOCK.—Atl. Coast Line of Va. class A (Rich. & Pet. ctfs.) tax-exempt stock was assumed as so much of the com. stock of the new company.

Paid in 1924: Jan. 10, 3½%; July 10, 3½% and 1% extra.
V. 81, p. 1558. *b* Includes 3% paid in Jan. in Atlantic Coast Line RR. 4% certificates of indebtedness.

BONDS.—In April 1914 the Unified Mortgage of 1909 was closed and a new $200,000,000 General Unified Mortgage was made permitting (unlike the mortgage of 1909) the issuing of bonds in series at various rates of interest. The old Unified 4s held by the RR. Co. and the Atlantic Coast Line Co. $21,330,000 and $3,008,000) were exchanged at once for new Series A 4½s, $ for $. V. 98, p. 761, 1070, 1154, 1243; V. 100, p. 1916. Listing, see V. 103, p. 2237. The Unified Mtge. was cancelled in 1920. V. 110, p. 2386. Of the $58,670,125 general unified bonds issued to Dec. 31 1923, $23,029,000 were on that date in hands of public ($22,920,000 at 4½% and $100,000 at 4%) and $17,012,683 at 4½% and $8,637,441 at 6% were held in the treasury, while $10,000,000 4½s were pledged as collateral. V. 106, p. 2235.

Purposes for which the $200,000,000 *General Unified Bonds were or are issuable.*

Issuable as Series A 4½s to refund $30,847,484 Unified 4s	$30,847,484
Reserved to retire 4% certificates of indebtedness, pref. stock and debenture bonds	4,963,960
Reserved to retire underlying bonds	84,438,750
Reserved (along with any bonds not issued to retire certificates of indebtedness) for future construction, improvements, &c.	79,749,806

The 10-year secured notes of 1920 are redeemable on and after May 15 1923 at 100 and int. plus a premium of 1% for each year to maturity. Secured by pledge of $10,000,000 Gen. Unified 4½s, 1964. V. 110, p. 2075

The 4% convertible debentures are redeemable at 105 and were convertible into common stock at $135 a share to Jan. 1920. V. 97, p. 1513.

As to the $35,000,000 collateral trust 4s of 1902, see "Organization" above. They are subject to call at 105 in amounts not less than $100,000

The Washington & Vandemere 4½s ($1,500,000 authorized, of which $720,000 outstanding) are guar., p. & i., by endorsement. V. 84, p. 1246. As to Winston-Salem South Bound RR. guar. 4s, see that company.

Equipment bonds, Series "D," V. 112, p. 60.

Equipment trusts issued to Director-General for rolling stock allocated to this company. See article on page 3 and V. 113, p. 1359, 1469.

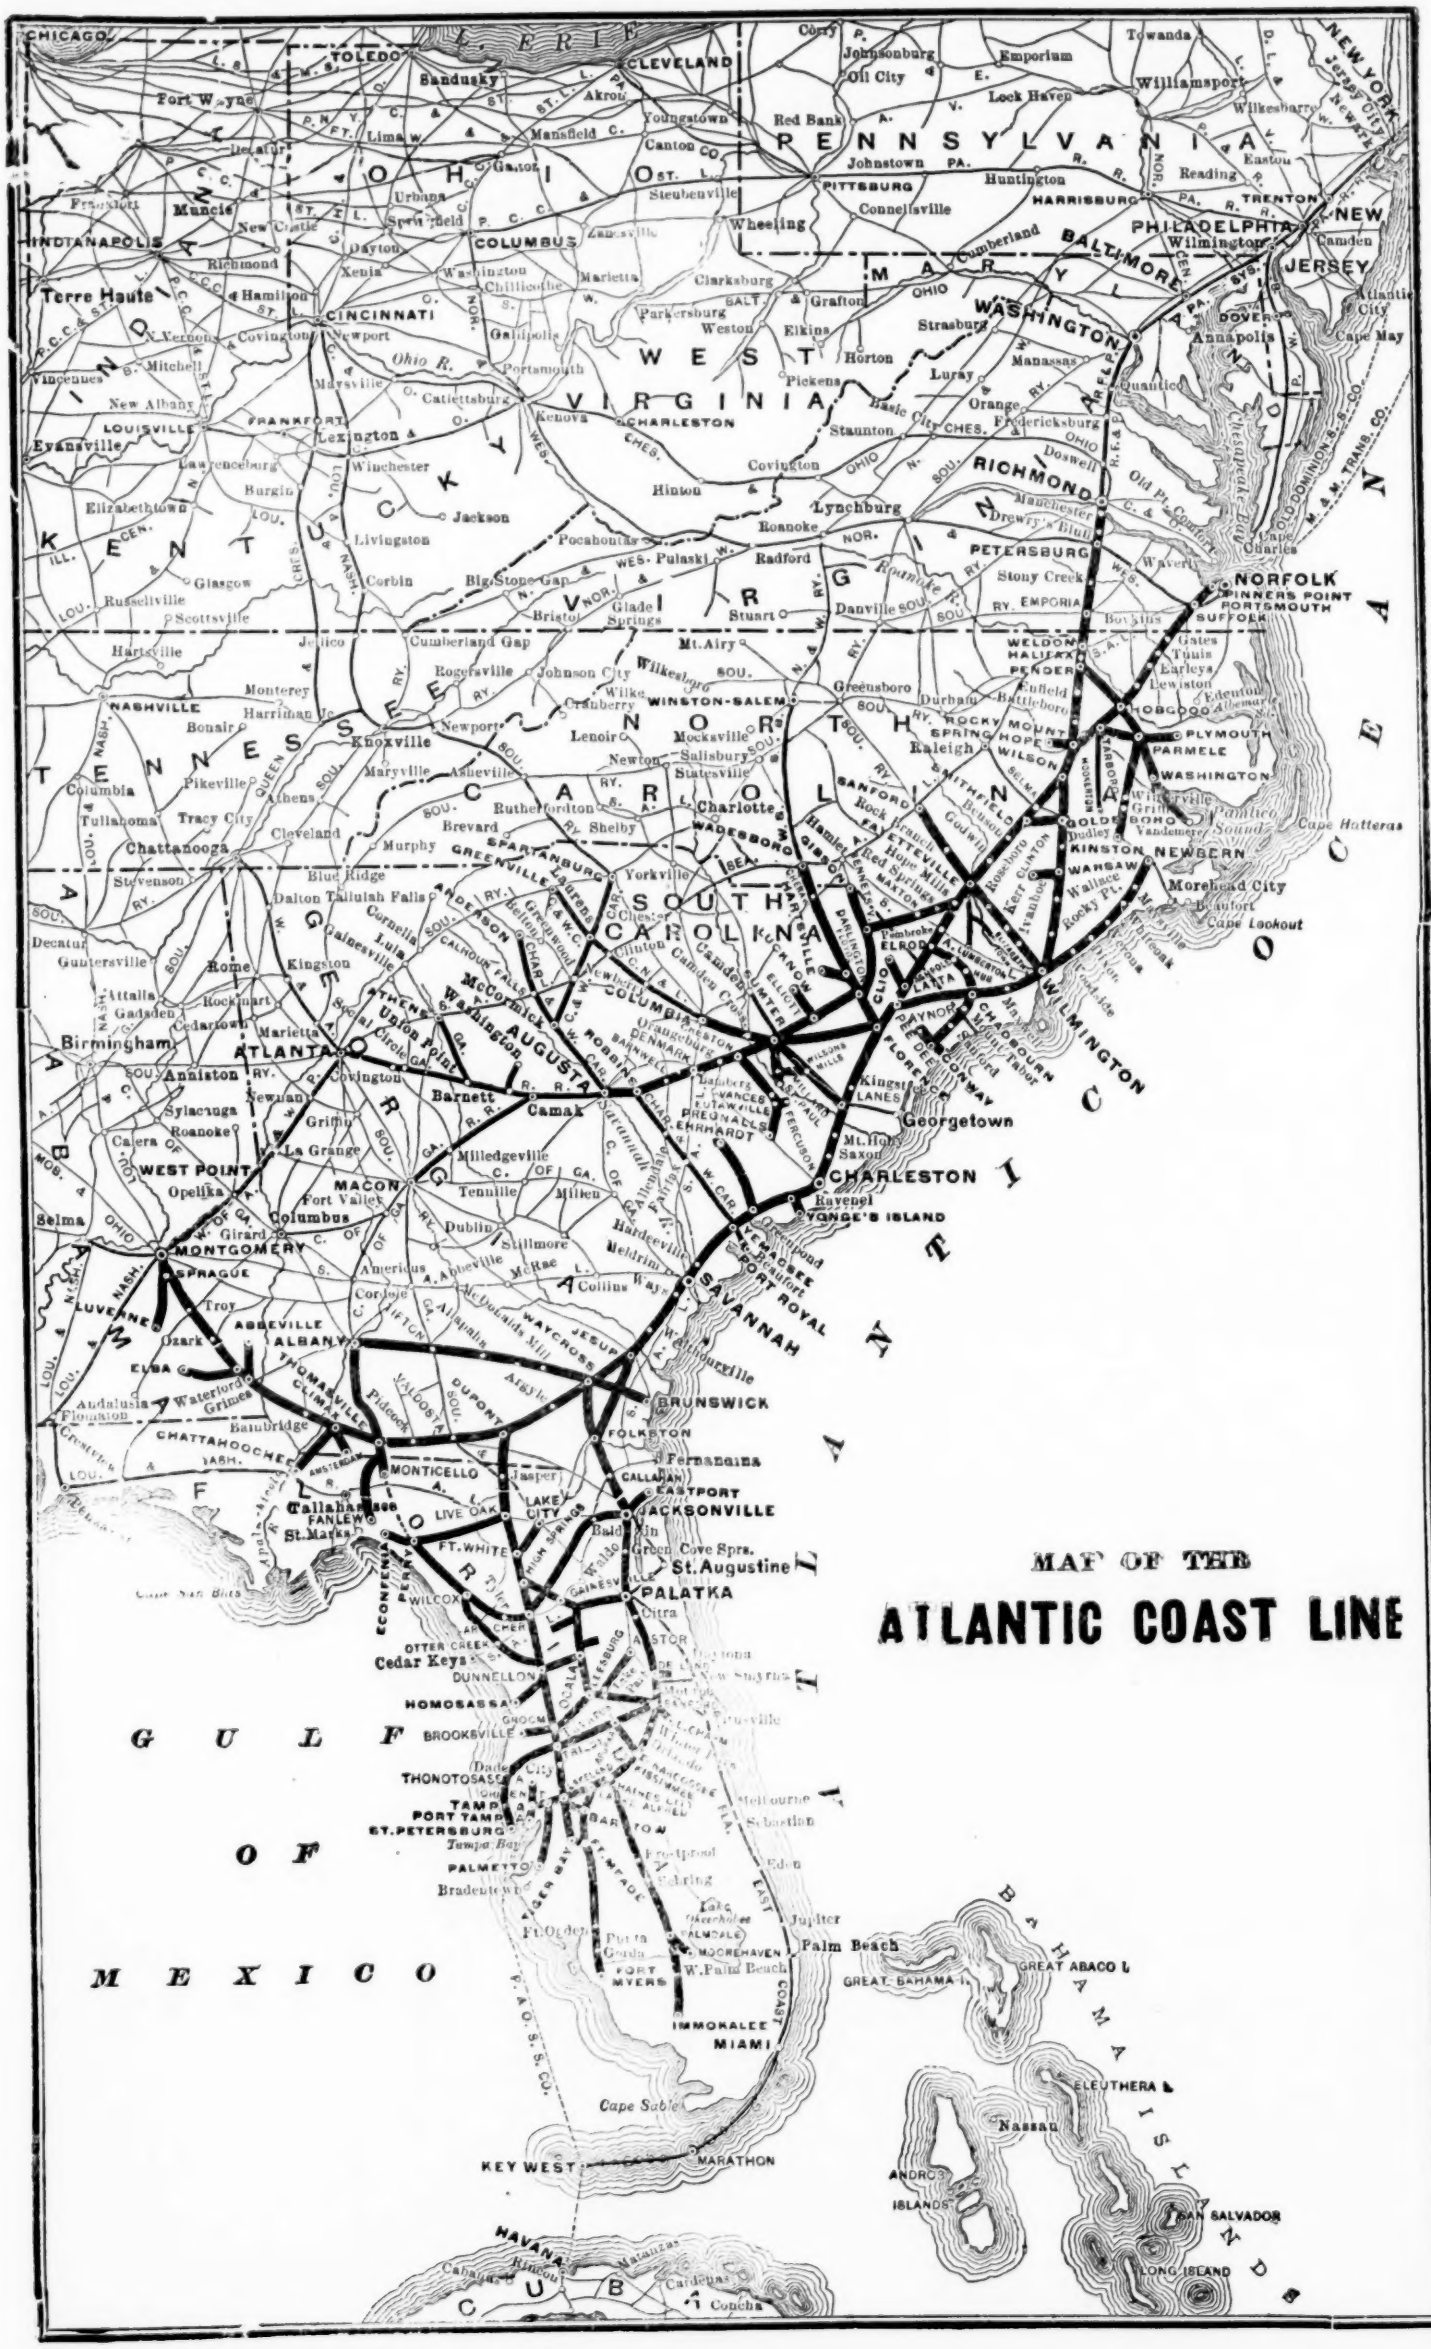
earnings, see "Railway Earnings Section" (issued monthly).

OFFICERS.—Chairman, Henry Walters; Pres., J. R. Kenly; Exec. V.-Pres., Lyman Delano; V.-P., R. A. Brand; V.-P. & Gen. Counsel, Geo. B. Elliott; V.-P. & Gen. Mgr., P. R. Albright; V.-P. & Sec., Herbert L. Borden; V.-P., T. F. Darden; Treas., John T. Reid; Comp., H. C. Prince.—(V. 118, p. 2436.)

ATLANTIC & DANVILLE RY. CO. (THE).—West Norfolk to Danville, Va., 205.1 miles; three branches, 22.25 miles; James River Jct. to Claremont (3-ft. gauge), 50.36 miles; total, 277 miles. Leased to Southern Ry. from Sept. 1 1899 to July 1 1949 for taxes, repairs, maintenance and cash rental sufficient to cover int. charges, with privilege of renewals for terms of 99 years. In addition the Southern Ry. agrees to pay the same rate of dividends on com. stock as paid on its own com. stock. V. 71, p. 447; V. 79, p. 625. Suit to enforce provisions of lease, V. 95, p. 1606.

BONDS.—Of the $4,425,000 4s of 1900, $500,000 can be issued only for improvements upon request of Southern Ry., interest charges to be covered by increased rental.—(V. 89, p. 1410; V. 95, p. 1606.)



ATLANTIC & NORTH CAROLINA RR.—Morehead City to Goldsboro, N. C., 96 miles. State of North Carolina Aug. 1917 owned $1,266,500 of $1,797,200 stock. V. 96, p. 862, 1088. Leased from Sept. 1904 to Jan. 1 1996 to Atlantic & North Carolina Co. (the lease being later transferred to Norfolk Southern RR.) for int. on bonds, taxes, &c., and divs. at 3% for 20 years, then increasing ½% every 10 years till 5% is reached; thereafter 6%.

DIVS.—1893. 1894 1895 1896 1897 1898 1899. 1900-04. Under lease
Per cent. 2 2 0 2 2 2 2 0 as above.

The $325,000 1st mtge. 6% bonds due July 1 1922 were paid off and new 20-year bonds were sold to take place of same. V. 115, p. 2683.

Pres., Ernest M. Green; Sec. & Treas., W. Stamps Howard.—(V. 117, p. 781.)

ATLANTIC QUEBEC & WESTERN RY.—Paspebiac to Gaspe, Quebec, 102¾ miles; trackage, 1¾ miles. Stock, $2,000,000 in $100 shares. The interest due July 1 1917 on 1st M. 5% debenture bonds was not paid, and the bondholders agreed to forego all interest during the war except in so far as earned. See V. 105, p. 1616, 2007; V. 91, p. 1253. Unpaid

Interest, V 109, p. 1985; V. 111, p. 2422. A 5% Second Mtge. Debenture amounting to $2,050,000, dated June 30 1919, due Jan. 1940, filed Sept. 30 1919. V. 109, p. 1460. Chairman & Pres., Earl of Ranfurly, London, Eng.—(V. 109, p. 1985; V. 111, p. 2422.)

ATLANTIC & WESTERN RR.—Sanford to Lillington, N. C., 24 m. Stock, $303,000; par, $100. Bonds issuable; at $12,000 per mile See table above. For year 1922, gross, $73,625 net, $19,663; other income, $235; deductions, $26,534; bal., def., $6,636 Pres., H. C. Huffer Jr., 366 Madison Ave., New York; Sec. & Treas., W. R. Sullivan, 33 Pine St., New York.—(V. 95, p. 1038; V. 108, p. 2021; V. 110, p. 2386.)

AUGUSTA & SAVANNAH RR.—Millen to Augusta, Ga., 53 miles. In 1895 re-leased to Cent. of Ga. for 101 years at 5% on stock.—(V. 106, p.709.)

AUGUSTA SOUTHERN RR.—See Georgia & Florida Ry.

AUGUSTA UNION STATION CO.—Owns union passenger station at Augusta, Ga., used by all roads entering the city, the latter under their operating contract providing for interest on the bonds and 4% dividends on stock. Stock, $75,000 (25% paid in), held equally by Southern Ry., Atlantic Coast Line RR. and lessees of Georgia RR. V. 78, p. 2333; V. 79, p. 500. Pres., Chas. A. Wickersham; Sec., W. H. Vincent.—(V. 82, p. 48.)

AVON GENESEO & MT. MORRIS RR.—Mt. Morris to Avon, N. Y., 17.7 miles. Leased to Erie RR. Feb. 26 1896 in perpetuity; rental (after 1911), 3½% on stock. (See V. 63, p. 512; V. 62, p. 318, 589.)

BALTIMORE CHESAPEAKE AND ATLANTIC RY. CO.—Owns Claiborne to Ocean City, Md., 87.06 miles; Salisbury, Md., to Fulton, 0.55 miles; total, 87.61; steamer lines owned, 884 miles. The Pennsylvania and allied companies own all the $1,000,000 common and 95% of the $1,500,000 5% cum. pref. stocks. V. 92, p. 525, 593. Div. on pref., 2% Mar. 1 1905; in 1906, Mar., 3%; Oct., 2%; in 1907, Mar., 3%; Sept., 2%; in 1908, Oct., 2%; 1910, Jan., 5%; Sept., 2%; 1911, Jan. 31, 3%; Mar. 31, 2%; Oct. 2, 3%; 1912, July 1, 2½%; none since. The interest on the first mtge. bonds due Mar. 1 1922 and subsequent semi-annual dates was not paid; Pennsylvania RR. purchased coupons due on thoes dates. See V. 116, p. 2128.

For 1923, gross, $1,570,494; net oper., deficit, $158,855; other income, $31,991; deductions, $163,812; bal., def., $290,676.

For latest earnings, see "Railway Earnings Section" (issued monthly). Pres., Turnbull Murdoch; V.-P., A. J. County; Sec., Lewis Neilson; Treas., Jas. F. Fahnestock.—(V. 118, p. 1770.)

BALTIMORE & CUMBERLAND VALLEY RR. EXTEN.—Waynesboro to Shippensburg, Pa., 26.52 miles. Leased to Western Maryland RR. for 50 years from July 1 1881, with privilege of renewal, for int. on bonds and dividend on stock, amounting in all to $38,730.—(V. 75, p. 665.)

BALTIMORE & EASTERN RR. (OF MD.).—This company has been organized in Maryland as successor to the Maryland Delaware & Virginia Ry., the property of which was sold under foreclosure. The new company took charge on Feb. 1 1924 and now operates trains, as did the old company, between Love Point, Md., and Greenwood, Del. See V. 118, p. 905.

BALTIMORE & OHIO RR. CO.—(*See Map.*)—Operates from Baltimore to Philadelphia and Baltimore to Chicago, Cincinnati and St. Louis; total mileage leased, owned and operated on Dec. 31 1923, 5,304 miles. Access is had to New York via the Phila. & Reading Ry., Central RR. of N. J. and the Pennsylvania RR.

The system embraces, subject to mortgages, the following lines:

	Miles.		
Pr. lien 3½% M.—(1,091 m.)		West Virginia Short Line Br....	59

Owns B. & O. Chic. Term. RR., $8,000,000 stock and $32,000,000 of its 4% bonds. See below. Sandy Valley & Elkhorn Ry. See V. 100, p. 307. Also controls S. I. R. T. Ry. Co. and Long Fork Ry. Co.

Effective April 28 1918, was ordered by Director-General of Railroads to use the Penn. RR. passenger station in N. Y. City, and in Sept. 1921 completed contracts with the Pennsylvania RR. for the permanent use of the Pennsylvania station as the Eastern terminus for its passenger trains V. 113, p. 1154, 2184.

HISTORY.—Receivers were appointed in Feb. 1896, but in 1899 reorganized without foreclosure, per plan in V. 66, p. 1235. See also V. 67, p. 688, 1206, 1356; V. 95, p. 681, 1121, 1744; V. 96, p. 134; V. 97, p. 363.

The purchase of the Cin. Ham. & Dayton (now Toledo & Cinc. RR.) on July 19 1917 added 391 miles to road operated (see "Bonds" below; also V. 103, p. 1991; V. 107, p. 1283.) On Feb. 1 1917 also acquired entire capital stock of Coal & Coke Ry. Purchased the Morgantown & Kingwood RR. in Feb. 1920.—V. 110, p. 969.

READING CO., &c.—In 1901 $68,565,000 (virtual control) of the $140,000,000 Reading Co. stock, consisting of $12,130,000 1st pref., $28,530,000 2d pref. and $27,905,000 com., was acquired jointly with the New York Central RR., each co. taking one-half, but in 1904 each sold $3,950,000 of the common. V. 76, p. 101; V. 80, p. 1856.

STOCK.—Pref. stock, see V. 71, p. 1166, 1143; V. 72, p. 1186.
Union Pacific RR. in '22 owned $3,594,035 common and $1,805,992 pref.

DIVS.— 1901-04. 1905. 1906. 1907-14. 1915-17. 1918-23. 1924.
Common...(%) 4 yrly. 4½ 5½ 6 yrly. 5 yrly. Text See
Preferred...(%) 4 yrly. 4 4 4 yrly. 4 yrly. text

The pref. dividend has been regularly paid to and including June 1924. but owing to delay in the signing of the contract for Government operation the common dividend due Sept. 1 1918 was not paid until Feb. 1 1919, when only 2% was distributed. On Mar. 1 1919 the common again received 2% then none until Dec. 1 1923, when 1¼% quarterly was paid; same amount paid quarterly to June 2 1924.

In June 1919 the directors decided temporarily to suspend dividend payments on the Common shares in order to set aside part of the road's income for capital expenditures so that the company's credit should not be extended under existing conditions. V. 108, p. 2628; V. 109, p. 269.

BONDS.—(1) *Prior Lien* 3½%, a first lien on main line and branches Parkersburg branch and Pittsburgh division, about 1,091 miles of first track and 1,773 miles of second, third and fourth tracks and sidings, and also all the equipment now or hereafter acquired. Total auth., $75,000,000. See application to list, V. 69, p. 30; V. 78, p. 1906; V. 86, p. 1528; V. 86, p. 36.

(2) *First M.* 4% *Bonds, due July* 1 1948; a first lien on the Philadelphia, Chicago and Akron divisions and branches and the Fairmont Morgantown & Pittsburgh RR., covering about 595 miles of first track and about 898 miles of second, third and fourth tracks and sidings; also on the properties covered by the B. & O. Term. Mtge. of 1894, all owned by the B. & O. and Baltimore Belt RR. Also a lien, subject to prior mtge., upon main line, &c. V. 69, p. 30; V. 79, p. 211; V. 97, p. 297, 594; V. 102, p. 1435.

Total issue closed at $82,000,000 (V. 104, p. 1044), except for $75,000,000 reserved to retire prior lien bonds in 1925.

(3) *Southwestern Division 1st M.* 3½*s*. A first collateral lien upon former B. & O. S. W. system, 920 miles of 1st track and 562 miles of 2d track and sidings. All issued.....$45,000,000

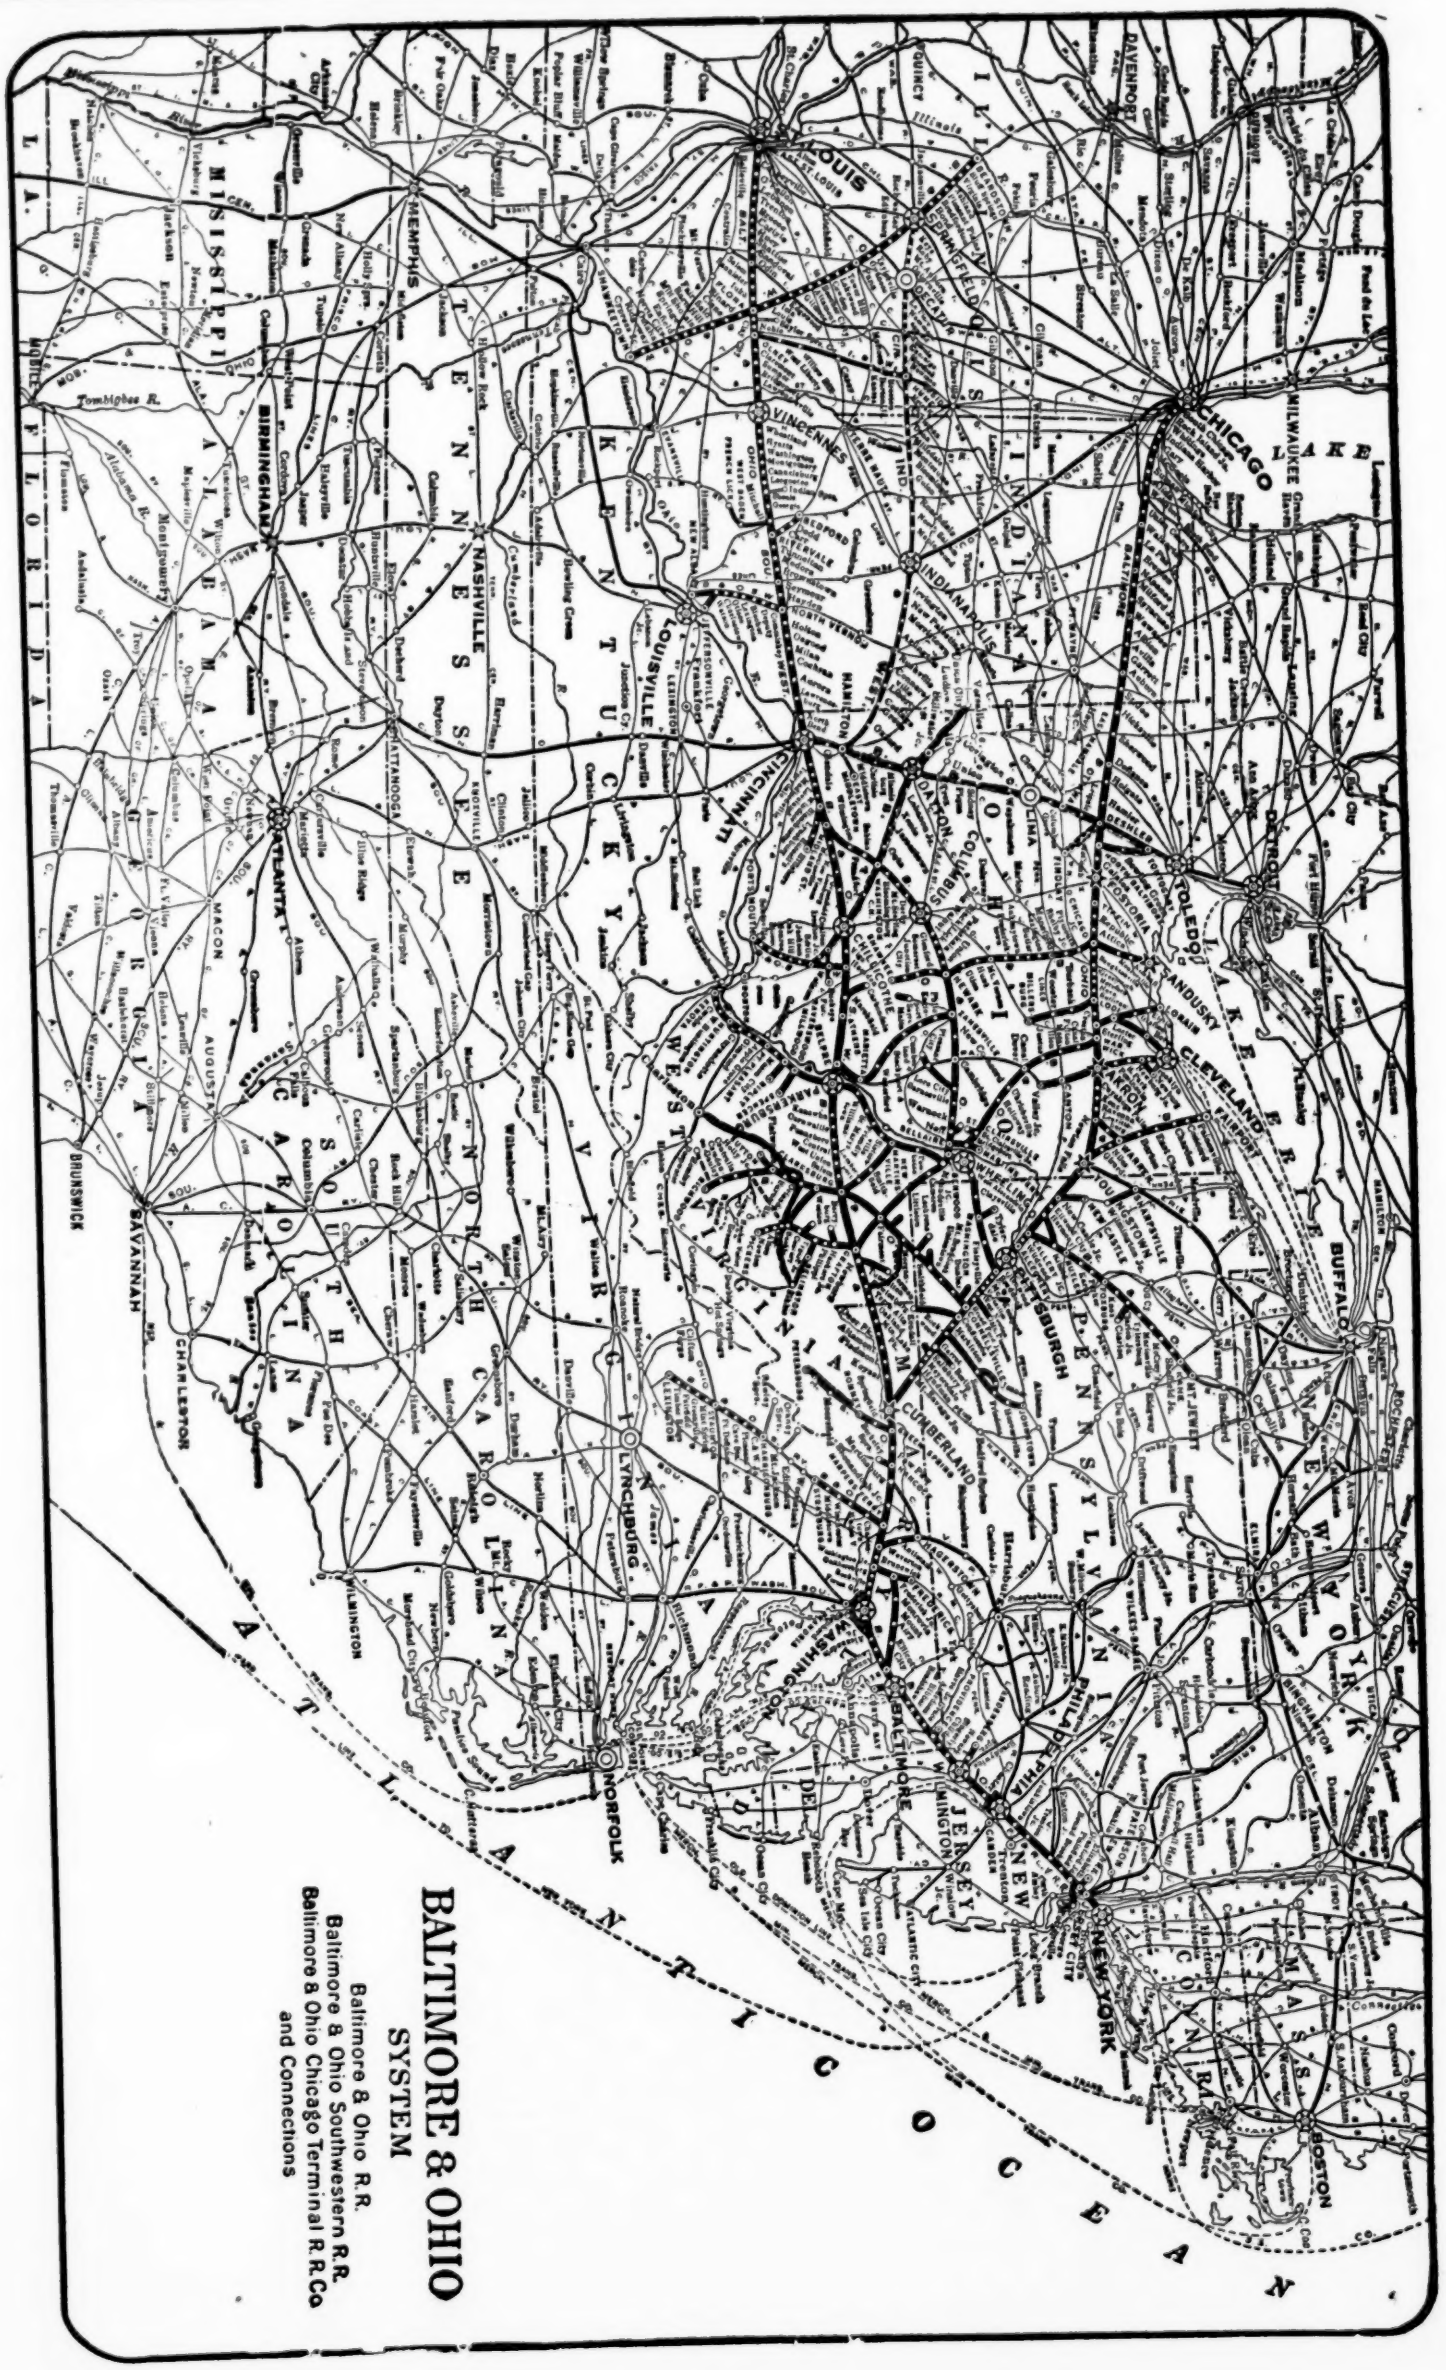
(4) *B. & O., Pittsb. Jct. & Mid. Div.* 3½*s*. Expected to be ultimately a first lien upon the railroads of the Central Ohio system and Pitts. Jct. RR. Co., 379 miles in all. Total.....$20,000,000 $6,124,500 is in hands of the public and $9,889,550 pledged under Pitts. Lake Erie & W. Va. 4*s*. Closed except to retire underlying bonds, see table.

(5) *Pittsburgh Lake Erie & West Virginia System* mtge. refunding 4% gold bonds (authorized amount $75,000,000) are a lien on 1,628 miles, forming a direct connection with Pittsburgh, Cleveland, Fairport, Lorain and Sandusky, subject to underlying bonds outstanding thereon (see table above). The unissued bonds are reserved to retire underlying bonds. V. 74, p. 266; V. 79, p. 2793; V. 80, p. 1423; V. 86, p. 479, 1528; V. 87, p. 36; V. 88, p. 451, 685; V. 105, p. 715.

(7) *Convertible 20-year* 4½*s* $63,250,000, dated March 1 1913, were convertible into common stock up to Feb. 28 1923 at $110 per share and redeemable beginning March 1 1923 at 102½. These 4½s are secured by the new blanket mortgage below described pari passu with the new bonds. See V. 96, p. 134, 200, 651, 715, 1088, 1421; V. 97, p. 727.

Schuylkill River East Side 4*s*. V. 77, p. 1745; V. 81, p. 727.

(8) *Refunding & General Mortgage of* 1915 *due Dec.* 1 1995 (V. 101, p. 1884). The initial $60,000,000 5% bonds of this issue was brought out in Dec. 1915. See below; also V. 101, p. 1884; V. 102, p. 975; V. 103, p. 1989. On Dec. 31 1923 $10,000,000 Series "A" and $27,500,000 Series "B" bonds were pledged as collateral for long-term debt and $13,701,000 Series "B" bonds were in treasury, insurance and sinking funds.



Security.—Secured on practically entire system, 4,502 miles of first track, and equipment or interest therein, having in 1921 a net value of over $118,833,629. Also covers the passenger and freight terminals in Philadelphia, Baltimore, Pittsburgh and Chicago and the freight terminals on Staten Island, N. Y., in Cincinnati and Washington, as well as one-half stock interest in the Washington Terminal Co. and one-half ownership of joint yards at Washington. A direct lien upon about 2,289 miles of first track, and a lien, through the deposit of bonds, and in most cases all, and in no case less than 96% of stock, of the co. owning remaining mileage.

***Reservation of Bonds.*—The mortgage reserves bonds to retire about $282,000,000 prior liens on various parts of the system and the $63,250,000 convertible gold bonds [these last being secured by the new mortgage pari passu with the bonds issued thereunder] and provides for the reservation of bonds for construction, improvements, new equipment and the acquisition, directly or indirectly, of properties and securities. The right is reserved to refund the Prior Lien 3½s into 1st M. 4s of 1898 due 1948, and to extend the due date of the S. W. Div. 3½s to date not later than July 1 1950.**

The authorized issue is limited to an amount which, together with all the prior debts of the Railroad Co., after deducting therefrom the bonds reserved under the provisions of the mortgage to retire prior debts at maturity, shall not exceed 3 times the then outstanding capital stock, with the additional limitation that when the aggregate amount of the bonds outstanding and the bonds reserved to retire prior debts shall be $600,000,000, no additional amount of bonds shall thereafter be issued, except the bonds so reserved to retire prior debt, without the further consent of the stockholders of the railroad company, and such additional bonds may be issued only to an amount not exceeding 80% of cost of work done or property acquired.

(9) *Toledo-Cincinnati Div. Bonds.*—**In July 1917, following foreclosure sales, 391 miles of the former Cincinnati Hamilton & Dayton Ry. System was reorganized per plan in V. 102, p. 1059; V. 105, p. 715, 908, as the Toledo & Cincinnati RR. Co., whose outstanding securities ($5,000,000 capital stock, $16,250,500 First & Ref. Mtge. bonds and $20,000,000 Adjustment & Improvement bonds) were then acquired by the B. & O. RR. The aforesaid 391 miles embrace: Main line Cincinnati to Toledo, 201 miles, including 141 miles leased from Dayton & Michigan RR. (a very profitable lease; see caption of that company); Tontogany to North Baltimore, 19 miles; Deshler to Findlay, 18 miles; Hamilton to East Middleton, 13 miles; Piqua to Troy, 9 miles; Dayton to Ironton Jct., 123 miles; other. 8 miles.**

The B. & O. RR. having acquired all the securities issued by the Toledo & Cincinnati RR., made a deed of trust covering the same to secure not exceeding $35,000,000 collateral bonds, which are intended ultimately to be made as far as possible a direct lien on this division. Of these new B. & O. bonds, $11,250,500 of 4% and $5,000,000 of 5% were issued forthwith under the plan. In addition, $2,447,000 Series "C" bonds have been issued for capital expenditures. The remainder were reserved to retire at

maturity or earlier the bonds undisturbed by the plan as shown in table above, or for acquisition of underlying stocks, branch lines, branch lin bonds, aid for refunding additions and betterments, or to acquire First & Ref. Mtge. bonds of new company issued therefor. V. 105, p. 2364.

(10) The $35,000,000 6% *Secured Bonas* dated July 1 1919 have as se curity: $6,065,000 Reading Co. First Pref. stock; $14,265,000 Reading Co Second Pref. stock; $10,002,500 Reading Co. Common stock; $15,000,000 B. & O. Ref. & Gen. Mtge. 6% bonds, Series "B," and $2,000,000 Series "A," due Dec. 1 1995. The trust indenture provides that the aggregate value of the collateral deposited shall always be maintained at least equa- to 125% of bonds outstanding. V 108, p. 2628; V. 109, p. 71

The trust indenture provides that the company in each year, beginning July 1 1919, after providing for its fixed charges, will set aside out of net income accruing after that date, not less than $3,500,000 p. ann. until a total of $17,500,000 has been set aside, such sums to be used, from time to time, solely for capital expenditur s theretofore made, to pay loans incurred or maturing funded obligations. Moneys set aside in any year in excess of $3,500,000 may be credited against moneys required to be set aside in subsequent years. Balance of total set aside in 1923. V. 108, p. 2628.

Promissory Note.—The company has issued a promissory note for $9,000,000 dated March 1 1920, payable to the Director-General of Railroads ten years after date with interest at 6% p. a., payable semi-annually. The following collateral has been pledged as security: $9,250,000 Ref. & Gen. Mtge. Series "B" 6% bonds, $3,000,000 Ref. & Gen. Mtge. Series "A" 5% bonds V. 112, p. 468.

EQUIPMENT BONDS.—Equipment trusts of 1917, V. 104, p. 1386. Equip. trusts of 1922, V. 115, p. 434. Equip. trusts of 1923, V. 116, p. 175. Equipment trusts, Series A, V. 117, p. 2431.

Equipment trusts issued to Director-General for rolling stock allocated to this company. See article on page 3 and V. 114, p. 737; V. 118, p. 549.

REPORT.—For 1923 showed:

	1923.	1922.	1921.
Average miles operated	5,303.58	5,212.05	5,235.08
Railway Operating Revenues—	$	$	$

For latest earnings, see "Railway Earnings Section" (issued monthly).

OFFICERS.—Daniel Willard, Pres.; Geo. M. Shriver, F. C. Batchelder, C. W. Galloway, Archibald Fries, V.-Pres.; C. W. Woolford, Sec.; E. M. Devereux, Treas.

DIRECTORS.—R. Brent Keyser, Robert Garrett, John J. Cornwell and George M. Shriver, Baltimore; F. H. Rawson, Chicago; Paul M. Warburg, Charles A. Peabody, John R. Morron, Newton D. Baker, John F. Stevens, Henry Ruhlender, New York; Joseph E. Widener, Philadelphia. Offices, Baltimore, Md, and 2 Wall St., New York.—(V. 118, p. 1770.)

BALTIMORE & OHIO CHICAGO TERMINAL RR.—Property consists of passenger and freight terminals in city of Chicago, lines of railway leading thereto and a belt line around the city; also 760 acres of land in and adjacent to the city, of which 50 acres are in the centre of the business district; also includes 7,500 ft. of dock property on Chicago River. Total *track* operated, 300 miles, of which 250.56 is owned, 91.46 of the latter being first track. Total first track including trackage, 80.79 miles.

HISTORY.—Successor to Chicago Terminal Transfer RR., forclosed in 1910. V. 90, p. 166, 108, 235, 625. Stock, $8,000,000, all owned by B. & O.

TENANTS.—Balt. & Ohio, Chicago Great Western, Chicago Hammond & Western Ry. (Indiana Harbor Belt), Suburban RR. (Chic. Milw. & St. Paul RR.), (Chicago & West Towns), Pere Marquette, Wabash Ry. and Minneapolis St. Paul & Sault Ste. Marie. V. 77, p. 948, 2158; V. 79, p. 901; V. 96, p. 486. Total minimum rentals from tenants: Joint facility rent income, $1,281,313; income from lease of road, $502,223; total, $1,783,535. V. 79, p. 2084.

BONDS.—Of the 1st M. bonds of 1910, the $32,000,000 outstanding are owned by B. & O. RR. and pledged under its mtge. V. 90, p. 1295.

EARNINGS.—For 1923, gross, $3,767,983; net oper. income, $20,856; other income, $1,908,570; interest, rentals, &c., $2,030,166.

For latest earnings, see "Railway Earnings Section" (issued monthly).

BANGOR & AROOSTOOK RR. CO.—(*See Map.*)—Stockton Harbor, Me., to Van Buren, with branches; Dec. 31 1923, 616.22 miles; second track, 30.29 miles; spurs, 34.11 miles; yard tracks and sidings, 190.11 miles; owned but not operated, 8.85 miles.

ORGANIZATION.—Incorporated under laws of Maine Feb. 13 1891, and under its charter it constructed its railroad from Brownville to Caribou with branches to Fort Fairfield and Ashland (1891 to 1895), with extension Caribou to Van Buren (1899). During the same period it acquired the Bangor & Piscataquis RR., Old Town to Greenville, and Bangor & Katahdin Iron Works Ry., Milo (Derby) to Katahdin Iron Works. It also acquired by purchase the Patten & Sherman RR., Patten to Sherman, and Aroostook Northern RR., Caribou to Limestone, both of which railroads had been organized and constructed independently of this company.

It has since constructed as extension or by separate organization with later acquisition: Fish River RR., Ashland to Fort Kent (1902); Northern Maine Seaport RR., South Lagrange to Searsport (1904); Schoodic Stream RR., to the paper mills at East Millinocket (1906); Medford Extension, South Lagrange to Packard via Medford (1907); St. John River Extension, Van Buren to St. Francis (1909-1910); Washburn Extension, Squa Pan to Stockholm, via Washburn with branch, Mapleton to Presque Isle (1909-1910), and extension to Van Buren Bridge (1915).

Owns all of the capital stock of Van Buren Bridge Co. which connects its system with Canadian National Railways by international bridge between Van Buren, Me., and St. Leonard, Province of New Brunswick, Canada.

It also owns all the capital stock (except seven directors' qualifying shares) of the Northern Telegraph Co.

Government loan, V. 111, p. 293; V. 112, p. 256. Tentative valuation, V. 113, p. 729, 1573.

DIVIDEND.—

	1905.	1906.	'07-'12.	'13.	'14.	'15.	'16.	'17.	'18-'22.	'23.
Common %	1½	2	4 yrly.	3	3½	3	3	5	4 yrly.	4½
Preferred %	———First authorized in 1917———								7 yrly.	7

Paid on common: 1924, Jan. 1, 1¼%.

BONDS, &c.—Piscataquis Div. 5s, see V. 67, p. 1159; V. 68, p. 84, 329

Of the Consol. Ref. 4s, $12,500,000 were reserved to pay off outstanding bonds, including those of controlled roads, car trusts and pref. stock, and to acquire such controlled roads; $3,000,000 for improvements over a series of years and $4,500,000 for extensions at $25 000 per mile, including equipment. V. 73, p. 286, 896; V. 74, p. 93. All the 2d M. bonds were retired in 1918, leaving the 4s a second lien on main line and a first lien on several branches. V. 108, p. 2235. The Northern Maine Seaport bonds ($5,000,000 auth.). V. 81, p. 265; V. 82, p. 392; V. 84, p. 391, 692; form of guar., V. 81, p. 727. Van Buren Bridge Co. bonds are callable at 110 and int. V. 100, p. 311; V. 109, p. 1460.

The St. John River Extension 1st 5s of 1909 ($1,800,000 auth. issue), guaranteed, prin. & int., were issued at $30,000 per mile. V. 93, p. 939.

Equipment trusts Series "H," V. 116, p. 175; Series "I," V. 117, p. 2768. There were also outstanding Dec. 31 1923, Series "F," ($15,000) due $7,000 in 1924 and $8,000 in 1925; Series "G" ($116,000), all pledged, dated Jan. 1 1921, and due $8,000 annually for 5 years and $10,000 annually for 10 years; National Railway Service Corp. ($166,298), due semi-annually to April 28 1936.

REPORT.—For 1923, in V. 118, p. 1768, showed:

Cal. Year—	Operating Revenue.	Total Net Income.	Interest, Rents, &c.	Pref. Div.	Common Dividends.	Balance
1923	$6,769,803	$1,661,755	$1,066,844	$243,600	$221,950	sur$129,361
1922	$7,436,969	$1,713,406	$1,035,638	$243 600	$154,400	sur$279.768

BELT RAILWAY (OF CHATTANOOGA).—Owns 49 miles of belt railroad in Chattanooga, Tenn. V. 67, p. 72.

Leased till July 1 1945 to The Alabama Great Southern RR. Co.; rental guaranteed to meet interest on $300,000 1st Mtge. 5% bonds and $24,000 2d Mtge. 4% bonds, taxes and maintenance. STOCK, $300,000, owned by The Ala. Great So. RR. Co. Bonds are tax-free, due 1945; red. at par.

BELVIDERE DELAWARE RR.—Owns from Trenton, N. J., to Manunka Chunk, N. J., 67 miles; branches, 13 miles; total operated, 80 miles Leased to United Companies, and, March 7 1876, transferred to Penn. RR. which owns $244,600 of the stock. Net earnings paid as rental.

Dividends.—1897 to 1905, 5% yearly; 1906 to 1911, 10% yearly; 1912, 7%; 1913, 6%; 1914, none; 1915 to 1922, 4% yearly; 1923, 6%.

BONDS.—All of the outstanding bonds are secured by the consolidated mortgage of 1875 for $4,000,000; sinking fund, 1% of outstanding bonds if earned. The issues of 1885, 1887 and 1903 are guaranteed by the United New Jersey RR. & Canal Co. Guaranty, V. 76, p. 918.

EARNINGS.—In 1923, gross income, $854,111; deductions, $122,491 dividends paid (6%), $75,180; bal., sur., $656,432.—(V. 118, p. 430.)

BENNETTSVILLE & CHERAW RR.—Owns Kollocks, S. C., on Seaboard Air Line, via Bennettsville and Brownsville, to Sellers on Atlantic Coast Line, 45 miles. In Sept. 1921 was authorized to abandon 10.44 miles of its lines. V. 113, p. 1154. Stock, $250,000. Dividends in 1912, 6%; 1913, 3%; 1914 and 1915, 5%; 1916, 9%; 1917-18 (?); 1919, 6%. Bond sinking fund, $3,000 yearly. V. 92, p. 116.

Pres., J. J. Heckart; Gen. Mgr., W. J. Posner.—V. 113, p. 1154

BESSEMER & LAKE ERIE RR.—Kremis to Osgood (K. C. Junction) Pa., 8.81 miles; leased (Pittsb. Bess. & L. E. RR. Co., 176.40 miles; Meadville Conneaut Lake & Linesville RR. Co., 21.61 miles), 198.01 miles; total, 206.82 miles; trackage (N. Y. Chic. & St. L. RR., Cascade to Wallace Junction, Pa., 12.20 miles; Baltimore & Ohio RR., Pittsburgh Junction to Standard Junction, Pa., 0.97 miles), 13.17 miles; total operated Dec. 31 1922, 219.99 miles. Second track (owned), 8.05 miles (leased), 134.66 miles; total, 142.71 miles. Branches and spurs (owned), 0.29 miles; (leased), 32.86 miles, total 33.15 miles. Yard tracks and sidings (owned), 8.62 miles; (leased), 179.29 miles; trackage, 4.86 miles; total, 192.77 miles. In addition the Bessemer & Lake Erie RR. Co. leases the following from the Pitts. Bess. & L. E. RR. Co., and in turn subleases to the Union RR., reserving trackage rights for passenger trains, 8.04 miles from North Bessemer to East Pittsburgh, Pa., 8.04 miles of second track, and 86.88 miles of yard tracks and sidings; gauge 4 ft. 8½ in.; rail, 130 lbs.

Stock auth., $500,000. Dividends paid: In 1904, 100%; 1905, 50%; 1906, 40%; 1909, 200%; 1910, 150%; 1911, 150%; 1912, 200%; 1913, 200%; 1914, 275%; 1915 and 1916, 150%; 1917, 100%; 1918, 190%; 1919, 150%, 1920, 200%; 1921, 150%. Controlled by U. S. Steel Corp. Guaranty on 1920, 200%; 1921, 150%; 1922, 200%. Controlled by U. S. Steel Corp. Guaranty on Marquette & Bessemer Dock & Navigation bonds, V. 77, p. 1228; V. 76, p. 1358; V. 82, p. 160.

For year ending Dec. 31 1922, gross, $14,511,803; net, $4,432,208; other income, $1,313,741; taxes, $559,086; interest charges, $518,225; rentals, &c., $1,148,598; other deductions, $23,925; dividends, $1,000,000; bal., sur., $2,496,115. For latest earnings see "Railway Earnings Section", (issued monthly). President, J. H. Reed.—(V. 110, p. 1088.)

BIRMINGHAM & NORTHWESTERN RY.—Jackson, Tenn., northwesterly to Dyersburg, 49 miles. The I.-S. C. Commission in Mar. 1922 authorized the company to issue $400,000 1st Mtge. 6% bonds, due Mar. 1 1927, for the purpose of refunding or retiring an equal amount of 1st Mtge. bonds maturing Mar. 1 1922. The new bonds are dated Mar. 1 1922 and mature Mar. 1 1927. V. 114, p. 1061.

Pres., I. B. Tigrett; Vice-Pres., C. W. McNear; Sec., R. F. Spragins; Treas., J. E. Edenton. Office, Jackson, Tenn.—(V. 115, p. 182, 1209.)

BIRMINGHAM & SOUTHEASTERN RY.—Owns Union Springs to Eclectic, Ala., 48 miles. V. 94, p. 1316. Interest on the 1st M. bonds having been defaulted Nov. 1 1916, a protective committee with George C. Van Tuyl Jr. as Chairman and H. M. DeLanoie, 66 Broadway, N. Y., as Secretary, asked for deposits with Central Trust as depositary. V. 103, p. 1887; V. 103, p. 2340. A receiver was appointed in July 1920. V. 111, p. 492, 791. Stock, $700,000. First 6s of 1911. V. 93, p. 43; V. 94, p. 1316. Cal. year 1922, oper. income, $34,202; other income, $1,571; deductions, $11,490; net income, $24,283. Office, Union Springs, Ala.—(V. 94, p. 1316; V. 103, p. 1887, 2340; V. 111, p. 492, 791.)

BIRMINGHAM TERMINAL.—Owns passenger terminals at Birmingham, Ala. Stock all owned by the Illinois Central, Southern Ry., Seaboard Air Line, Central of Georgia, St. Louis & San Francisco and Alabama Great Southern, which lease the property and pay all expenses, charges and 4% dividends on the stock and jointly guarantee the bonds. Of the bonds ($3,000,000 authorized), $1,060,000 are reserved for additional properties. V. 83, p. 1227; V. 85, p. 404. Guaranty, V. 90, p. 848.—(V. 90, p. 848.)

BLOOMSBURG & SULLIVAN RR.—Owns Bloomsburg to Jamison City, Pa., 29 miles. Stock is $600,000; par, $50. V. 66, p. 80, 952. —(V. 66, p. 952.)

BOONVILLE ST. LOUIS & SOUTHERN RY.—Boonville to Versailles, Mo., 44 miles. Stock auth., $1,000,000; outstanding, $250,000 (owned by Missouri Pacific RR. Co.); par, $125.

Lease.—Operated by Mo. Pac. RR. Co. under new lease, dated Aug. 1 1917, and running until Aug. 1 1955. Consideration, payment of maintenance expenses, taxes and an annual rental of $12,500, being the interest on the new outstanding bonds plus $30 annually to corporate trustee.

Under financial readjustment in Feb. 1918 the holders of the $500,000 1st mtge. bonds of 1911 (coupon of Feb. 1916 unpaid) were offered in exchange pro rata $250,000 new First Mtge. 5% gold bonds of Boonville Co. under new mtge., dated Aug. 1 1917, payable Aug. 1 1951; and also $250,000 pref. stock v. t. c. of Missouri Pacific RR. Co., together with a cash adjustment of $50,000, equal to the defaulted interest. Trustees, the Spitzer-Rorick Trust & Sav. Bank, Toledo, Ohio, and Lewis C. Nelson. Pres., A. Robertson; Treas., F. M. Hickman; Sec., F. W. Irland, St. Louis, Mo.—(V. 95, p. 968.)

BOSTON & ALBANY RR.—Owns Boston, Mass., to Albany, N. Y., 200 miles; branches, 104 m.; leased lines, 90 m.; total, 394 miles.

Leased in 1900 for 99 years to the New York Central & Hudson River RR. for guaranteed rental of 8% per annum on the $25,000,000 stock, payable quarterly (Mar. 31, &c.), organization expenses, interest on bonds, taxes, expenses of maintenance, &c. The B. & A. received for certain property not included in the lease $5,500,000 in N. Y. Central 3½% 100-year debentures, thus adding .77% per annum to 8% guaranteed on stock. See lease in V. 69, p. 282, 1031, 1102, 1246; V. 70, p. 74; V. 71, p. 645, 963; V. 107, p. 1918. Lease assumed by N. Y. Central RR. Dec. 23 1914.

BONDS.—The $13,500,000 25-year 4% impt. bonds are guar. prin. and int. by New York Central & Hudson River RR. No mortgages can be placed on the property without jointly including the bonds in the lien. V. 86, p. 1099; V. 89, p. 102; V. 91, p. 393. V. 94, p. 277, 1055, 1316, 1625. The 4% bonds mature $7,000,000 in 1933, $4,500,000 in 1934 and $2,000,000 in 1935. V. 96, p. 553, 651, 946, 1365, 1489, 1838; V. 97, p. 1838.

In June 1916 all bonds issued since the lease to the N. Y. C. & H. R. RR. Co. had been guaranteed (prin. & int.) by the lessee. In Aug. 1917 sold $1,000,000 guar. 25-year 5s for additions, &c. V. 105, p. 715.

DIVIDENDS.—Since 1900, 8¼%, viz., 2% each in March and Sept., 2½% in June and 2¼% in Dec.

Calendar Year—	Operating Revenues.	Oper. Inc. (after Taxes.)	Other Income.	Interest, Rentals, &c.	Balance, Sur. or Def.

a Includes trackage rights, 21.29 miles. *b* Incl. trackage rights, .99 mile.

Reorganization.—On Aug. 29 1916 the Boston & Maine RR. was placed in temporary receivership on account of inability to pay its maturing obligation of nearly $20,000,000. Pres. James H. Hustis was appointed temporary receiver and continued in this position until reorganization and consolidation of the system on Dec. 1 1919.

The reorganization plan (V. 107, p. 1918, 2375, 2474), which became effective Dec. 1 1919, provided as follows:

(1) Consolidation of the Boston & Maine RR. with its seven directly leased lines and the assumption by the consolidated company of all subleases and other obligations.

(2) Payment in cash of principal and back interest of all matured obligations of the eight consolidating companies.

(3) Payment in cash of back interest on unmatured bonds and debentures of the consolidating companies, these being left as original or assumed obligations of the Boston & Maine RR.

(4) Exchange of stock of consolidating leased lines on which dividends had been paid as rentals for like amounts of Boston & Maine Cumulative First Preferred stocks, the latter to be issued in series with dividends corresponding to the dividends on the old leased line stocks, but for a period of 5 years these dividends to be paid at 20% less than the normal rates.

(5) Preferred stock of the Boston & Maine remains undisturbed, except that it is subordinated as to dividends but not as to principal to the First Preferred stock, and the regular 6% rate reduced to 4% for the period of 5 years. However, it has been stipulated that the dividend on this stock must be paid if earned.

(6) The Common stock of the Boston & Maine is undisturbed, but is to receive no dividends for a period of 5 years, except under conditions mentioned below. In case of liquidation all three classes of stock are to share

equally in assets after providing for obligations and accumulated dividends on the First Preferred and Preferred stocks.

(7) The money necessary to pay off the matured obligations was obtained by the selling of $19,879,000 bonds to the U. S. Govt., these bonds being secured by the consolidated properties under a mortgage which equally secures all the outstanding bonds of the consolidated companies, except that $8,338,000 bonds of the consolidated companies which previously have been secured by mortgages retain these mortgages, which are senior in lien on the divisions covered to the lien of the new general mortgage.

(8) The agreement in respect to the reduction of Preferred dividends and non-payment of Common dividends during 5 years is modified by the provision that if during the period of 5 years the company shall sell $12,000,000 6% First Preferred stock at par and apply the proceeds in the reduction of debt to the Government, restrictions in respect to Boston & Maine Pref and Common stocks shall lapse, but curtailment of dividends on the First Preferred stocks shall continue.

(9) The amounts earned for the stocks and not paid out on account of the reduction in dividend on the Pref. stock and the omitting of dividends on the Common are to be paid to a trustee to be applied in the purchase from the Government of the bonds it takes for its advances or invested in impts. V. 107, p. 1918, 2375, 2474.

Report of Joint New England Railroad Committee suggesting plans to rehabilitate the New England roads. V. 117, p. 85.

CAPITAL STOCK.—First Pref., authorized, $50,817,900, of which $12,000,000 is reserved to retire $12,000,000 of new bonds. Issued, $38,817,900. Pref. only as to divs. (see paragraph 4 above). Preferred and Common stocks (see paragraphs 5 and 6 above). The Boston RR. Holding Co. held $21,918,900 Common and $654,300 Preferred stock, and this was ordered by the Court to be sold by Oct. 1 1923. V. 108, p. 2122. The Court, on June 4 1923, modified the decree of Oct. 17 1914, the modification restoring to the New Haven its investment in the B. & M. V. 116, p. 2635. Voting trust agreement, V. 116, p. 1176, 2515.

BONDS.—In exchange for the $19,879,000 advanced by the Government the company issued $17,606,000 5% bonds payable July 1 1920 and $2,273,000 6% bonds payable Jan. 1 1929. The 5% bonds due July 1 1920 were refunded by a like amount of 6% bonds payable Jan. 1 1929, purchased by the Director General of Railroads.

The new 1st & ref. mtge. secures all of the consolidated company's bonds equally with the bonds given to the Government, and will cover all the property owned or hereafter acquired, subject only to the following divisional mortgage bonds: Portsmouth Great Falls & Conway RR., due June 1 1937, $1,000,000; Worcester Nashua & Rochester RR., $1,265,000 ($735,000 due Jan. 1 1930, $380,000 due Oct. 1 1934, $150,000 due Jan. 1 1935); Troy & Boston RR., due July 1 1924, $573,000. Bonds are to be issued in series. (See table at head of page.)

Proceeds of the $4,000,000 mortgage gold 6% bonds sold in Nov. 1922 were used toward the retirement of obligations maturing in January and May 1923, amounting to $3,991,000, viz.; $2,000,000 Boston & Maine RR. 3½s, due January 1923; $969,000 Connecticut River RR. 3½s, due January 1923; $250,000 Boston & Lowell RR. 3½s, due May 1923; $772,000 Vermont & Massachusetts 3½s, due May 1923. V. 115, p. 2158.

Leased Lines.—Leases assumed by the consolidated company are:

	Stock Outstanding.	Div. Rate.		Stock Outstanding.	Div. Rate.
Vermont & Mass.	$3,193,000	6	New Boston RR.	$60,000	4
Troy & Bennington	150,800	10	Con. & Portsmouth	350,000	7

Balance	def$4,420,234	def$716,246	def$7367,236	def$1364,693

Note A.—"For the years 1918 to 1923 inclusive the corporate and Federal income accounts are combined, and in order that balances carried to profit and loss may agree with corporate accounts, an adjustment is made eliminating Federal income transactions and clearance accounts, 'Revenues and expenses prior to Jan. 1 1918.'"

b Includes certificates amounting to $11,500,000 issued by the I.-S. C. Comm. account of the guaranty period claim. Final settlement was made in 1923 for $11,220,615 and the difference of $279,385 charged to profit and loss.

For latest earnings, see "Railway Earnings Section" (issued monthly).

OFFICERS.—James H. Hustis, Pres.; H. R. Wheeler, Treas.; A. B. Nichols, Clerk.

DIRECTORS.—Norman L. Bassett, Charles W. Bosworth, Frank P. Carpenter, Charles Sumner Cook, James Duncan Upham, J. H. Hustis, Richard Billings, H. H. Dudley, Geo. von L. Meyer, Alba M. Ide, W. M. Parker, Harry G. Stoddard, E. M. Hopkins, Wm. D. Woolson, George L. Batchelder, Walter C. Baylies, T. Jefferson Coolidge, Louis K. Liggett, Homer Loring, W. Rodman Peabody and Thomas Nelson Perkins.—(V. 118, p. 1909.)

BOSTON & PROVIDENCE RR.—Owns Boston, Mass., to Providence, R. I., 43 miles; branches, 20 miles. Leased 99 years April 1 1888 to Old Colony RR.; rental 10% yearly on stock, lease being modified in 1912. V. 95, p. 235. The New York N. H. & Hartford on Dec. 31 1923 owned $524,600 stock. The company issued in May 1923 $2,170,000 15-year 5% gold debentures to refund the 6s due July 1 1923. Endorsed on the bond and signed both by lessee and lessor is a statement to the effect that the bonds are issued under provisions of lease of 1888. Interest payable at the office of J. P. Morgan & Co., New York, National Shawmut Bank or First National Bank, Boston. The company in April 1923 applied to the I.-S. C. Commission for authority to issue $2,710,000 of 5% 15-Year Debenture bonds with which to refund these bonds.—(V. 116, p. 2255.)

BOSTON RAILROAD HOLDING CO.—Incorporated in Massachusetts June 18 1909 under special Act with power to hold securities of Boston & Maine. The N. Y. N. H. & Hartford transferred its holdings of $27,600,400 pref. and com. stock to trustees appointed by the U. S. District Court, and as guarantor paid pref. divs. which Co. could not meet.

Owned $21,918,900 common and $654,300 pref. stock of the Boston & Maine, for which was issued $27,293,900 non-voting 4% cum. pref. stock, redeemable at 110, guar., prin. & divs., by endorsement by the N. Y. N. H. & H. RR. Co. The latter company also owns the entire $3,106,500 com. stock of the Boston RR. Holding Co. V. 93, p. 870, 1461; V. 94, p. 205; V. 95, p. 968.

In March 1914, under order of court to divorce the system, the B. & M. stock was transferred to five trustees, viz.: George W. Anderson and James L. Doherty of Springfield, Mass.; Henry P. Day and Charles P. Hall of Boston; Frank P. Carpenter of Manchester, N. H., with orders to sell the same on or before Feb. 1 1909, but the U. S. Dist. Court extended order to Oct. 1 1923. In accordance with the decision of the U. S. Court for the Southern District of New York modifying the New Haven dissolution decree (V. 116, p. 2637), the trusteeship of New Haven's Boston & Maine stock has been dissolved and Boston Railroad Holding Co. stock was returned to the New Haven June 14 1923.—(V. 117, p. 2108.)

BOSTON REVERE BEACH & LYNN RR. CO.—Owns narrow-gauge road from Lynn to East Boston, Mass., 9 miles, connecting with Boston by company's ferryboats; East Boston to Winthrop, 9 miles; also Winthrop to Point Shirley, 1 mile. V. 94, p. 982; V. 95, p. 1121, 1402.

DIVS.—	'97-05.	'06.	'07.	'08-'10.	'11.	1912.-'19.	'20.	'21.	'22.	'23

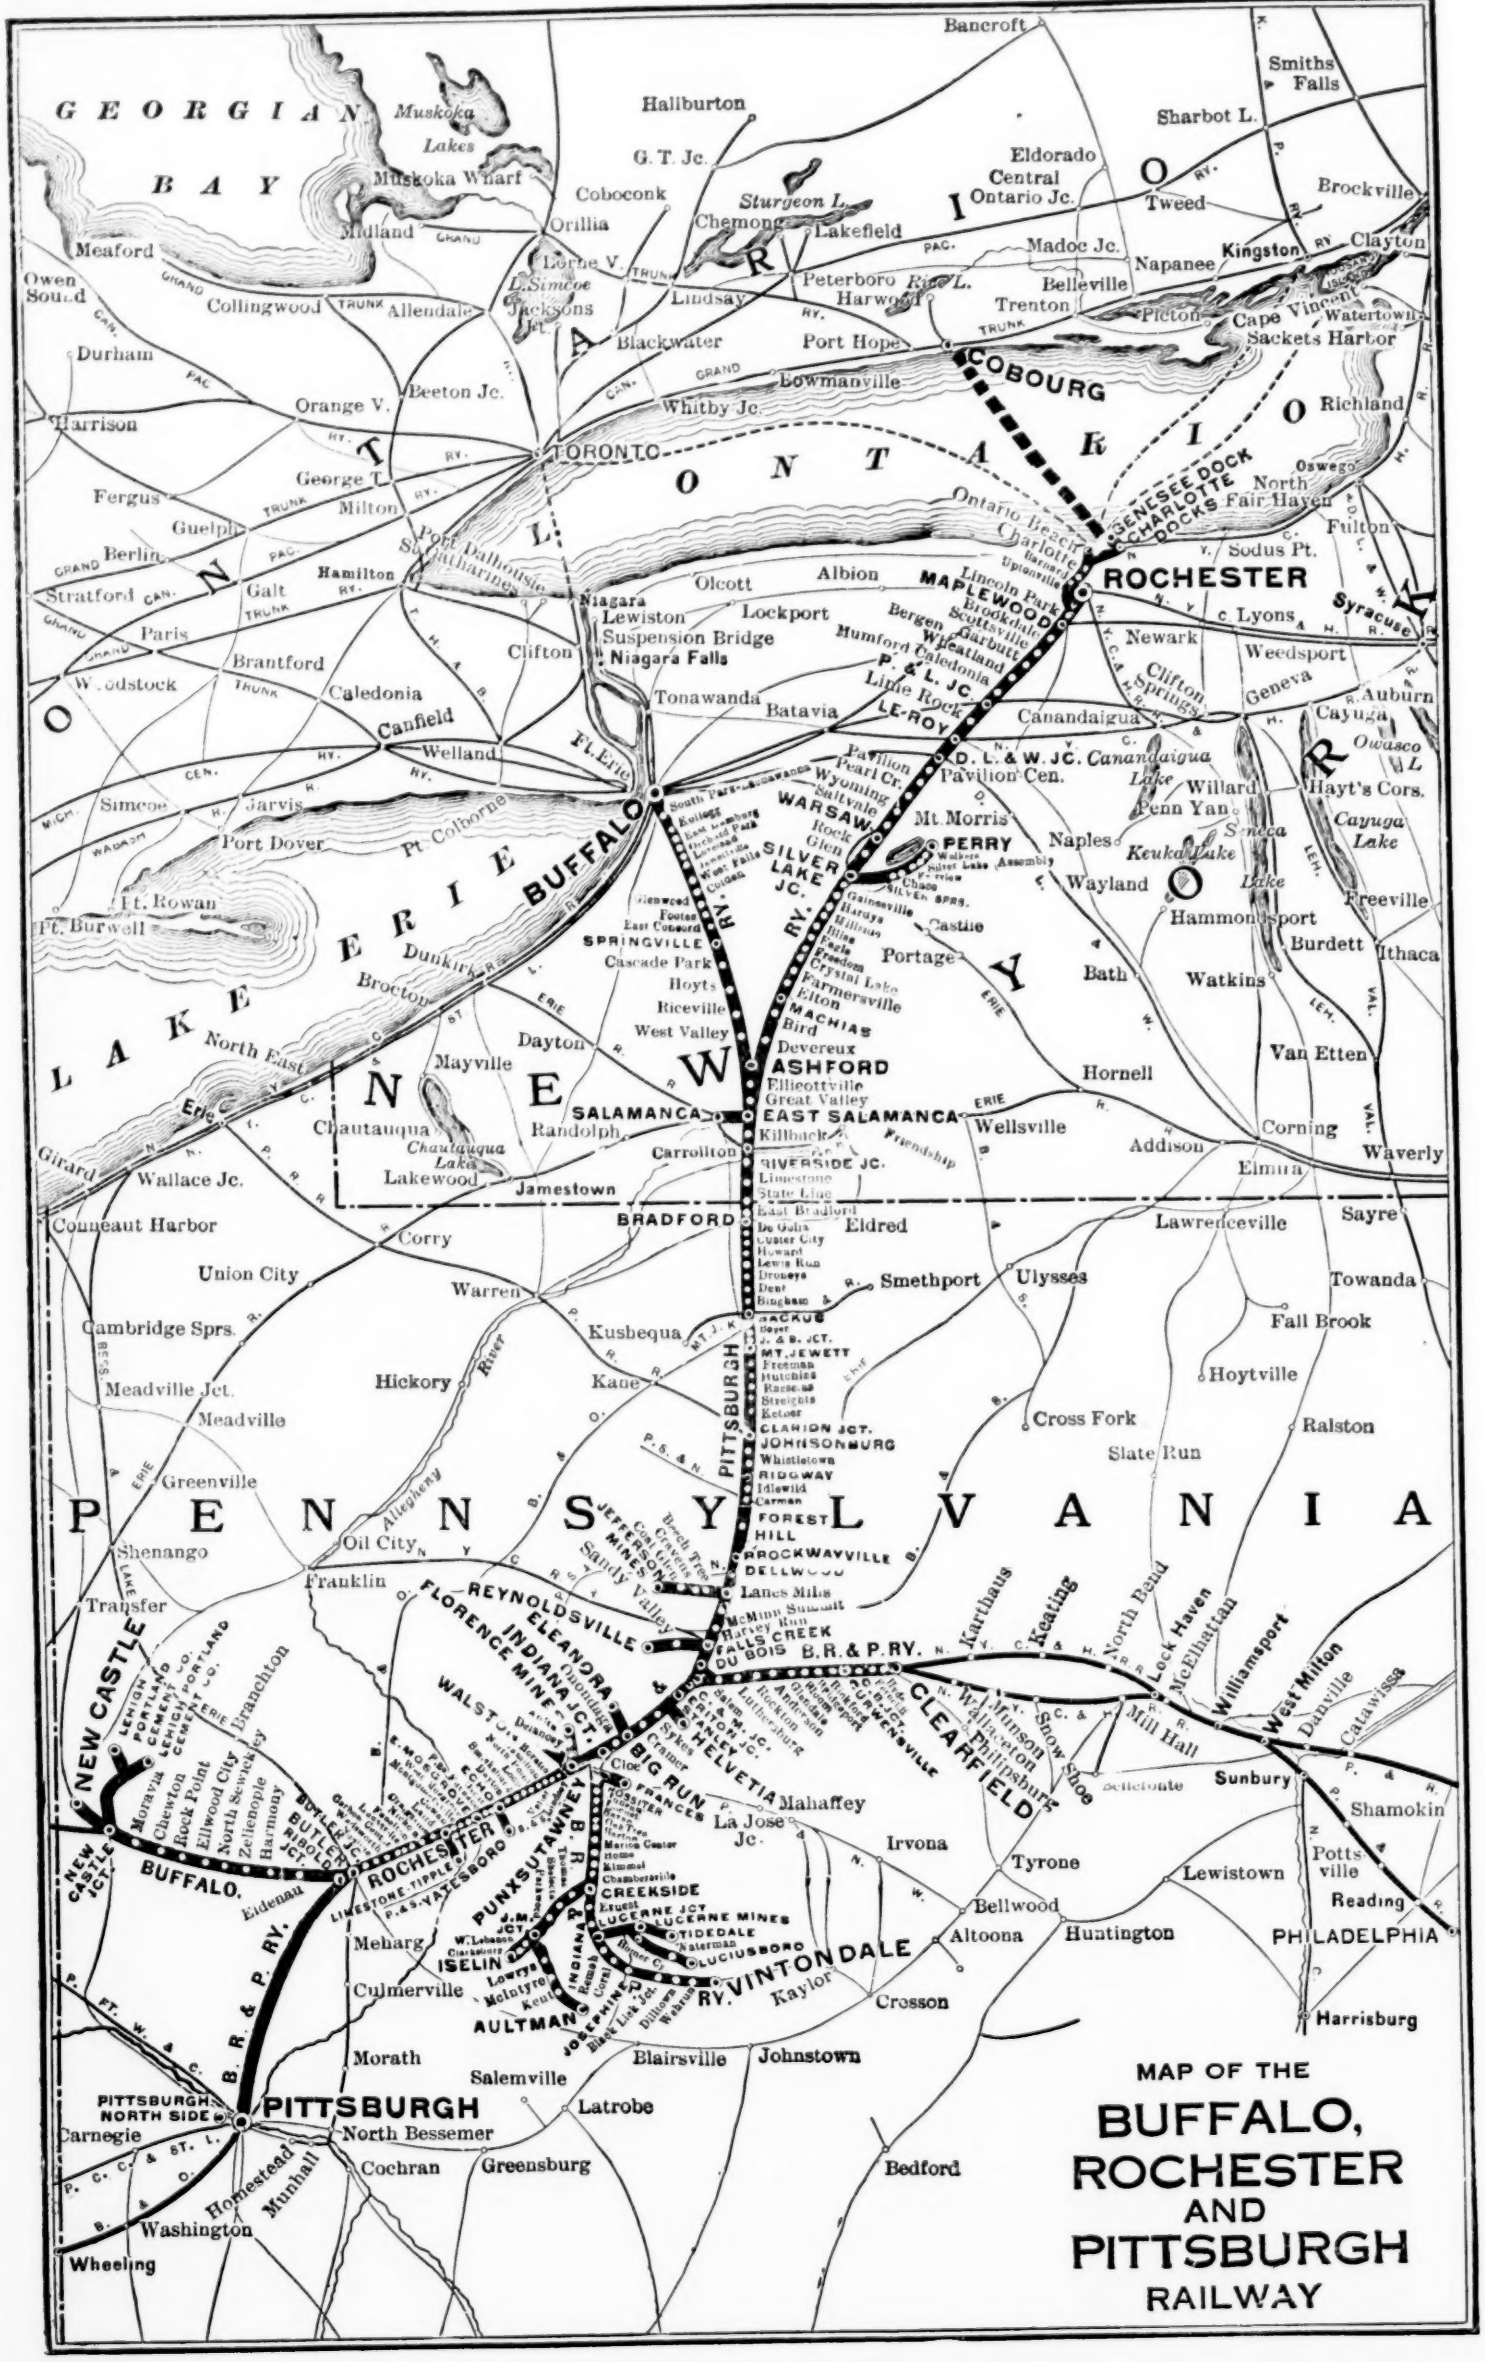
—(V. 116, p. 1531.)

BOSTON TERMINAL CO.—Owns Southern Union Depot in Boston, opened in 1899. V. 68, p. 40; V. 69, p. 591. N. Y. Central (Boston & Albany), Boston & Prov., Old Colony and N. Y. N. H. & Hartford RR. cos. own the $500,000 capital stock and pay as rental in monthly installments sums sufficient to pay all expenses, charges, interest on bonds and 4% on stock. These companies are jointly liable for any deficiency in case of foreclosure. Reg. int. Q.-F.; coup., F. & A.—(V. 93, p. 1598.)



BOYNE CITY GAYLORD & ALPENA RR.—Operates Boyne City to Alpena, Mich., with branches, a total of 136 miles, forming a cross-State line from Lake Michigan to Lake Huron. Capital stock, authorized, $1,000,000; outstanding, $669,300. An issue of $800,000 1st M. 20-year 5s was sold in 1917. For 1922, gross, $476,715; net oper. income, $86,179; other income, $4,983; int. & rentals, $92,270; bal., def., $1,109.—(V.112, p. 743.)

BRAZIL RAILWAY.—(V. 113, p. 2818.)

BROWNSVILLE & MATAMOROS BRIDGE CO.—Owns international steel bridge over the Rio Grande River between Brownsville, Tex., and Matamoros, Mex., connecting St. Louis Brownsville & Mexico Ry. (New Orleans Texas & Mexico) and National Rys. of Mexico. Stock, $650,000, one-half (except directors' shares) owned by each of said companies, which jointly guarantee both classes of bonds. 1st M., $333,000 auth. Year ended Dec. 31 1923, gross, $60,104; net, $25,573; other income, $16,706 interest, $18,996; taxes, &c., $5,957; net income, $17,337. See National Rys., V. 94, p. 277.

BUFFALO CREEK RR.—Owns 6 miles of terminal road in Buffalo, N. Y. In Dec. 1889 leased for term of charter less one day to the Lehigh Valley and the Erie RR., which together own entire capital stock of $250,000. Rental is int. on bonds, 7% on stock and organ. expenses. First ref. bonds are issuable to retire old 5s. V. 108, p. 1610; V. 118, p. 1664. Pres., C. A. Brunn, Buffalo, N. Y.; V.-P., F. H. Silvernail, N. Y.; Sec. & Treas., E. A. Albright, N.Y.—(V. 118, p. 1664.

BUFFALO ROCHESTER & PITTSBURGH RY.—(*See Map.*)—Operates from Buffalo and Rochester, N. Y., to bituminous coal regions.

OFFICERS.—Pres., Wm. T. Noonan, Rochester; V.-P., Adrian Iselin, W. Emlen Roosevelt, N. Y., Thos. F. Brennan, Rochester; Treas., J. F. Dinkey, Rochester; Sec., Ernest Iselin, New York.

Directors.—Henry G. Barbey, A. Iselin, William E. Iselin, J. Herbert Johnston, C. O'D. Iselin, W. T. Noonan, George E. Roosevelt, W. Emlen Roosevelt, Ernest Iselin, O'Donnell Iselin, Oscar Grisch, Samuel Woolverton, Hamilton F. Kean. N. Y office, 36 Wall St.—(V. 118, p. 1128.)

BUFFALO & SUSQUEHANNA RAILROAD CORPORATION.—Owns from Sagamore, Pa., to Wellsville, N. Y., with several branch lines incl. 15.44 m. trackage. Total mileage Dec. 31 1923, 253.54. Incorp. in Pennsylvania and succeeded Dec. 31 1913, per plan in V. 98, p. 1503, the B. & S. *RR.*, foreclosed Dec. 5 1913. V. 97, p. 1582; V. 93, p. 1596. For description of property see V. 108, p. 1828, 1830; V. 100, p. 1007, 980. Connects at Driftwood Jct. with Pennsylvania RR. for Buffalo.

STOCK.—Authorized (par $100), common, $3,000,000; 4% pref. (p. & d.), cumulative after Jan. 1 1915, $4,000,000. Listed on N. Y. Stock Exchange. Voting trust expired Jan. 1 1924.

DIVIDENDS.—	1916.	1917.	1918.	1919.	1920.	1921.	1922.	1923.
On common stock	5	7	7	7	10	7	17	17

On pref. stock in full to date. On com. in 1924: Mar. 31, 1¼% quar. and 2½% extra.

BONDS.—The 1st mtge. bonds ($10,000,000 auth.) are secured on the entire property and further by deposits of mortgages aggregating $830,773 on coal lands of the Powhatan Coal & Coke Co. and of a mtge. for $1,000,000 on the properties of the Buffalo & Susquehanna Coal & Coke Co. and of all the stock of the Addison & Susquehanna RR. and all the stock and bonds of the Wellsville Coudersport & Pine Creek RR. and of all the stock of the Keystone Store Co. V. 73, p. 619, 899; V. 84, p. 748.

Of the bonds, $6,959,000 have been issued. The remaining $3,041,000 bonds, or any of them, may bear not to exceed 5% interest and can be issued only for additions, extensions, improvements, acquisitions of property or acquiring or discharging liens on property of corporations in which 90% of stock is owned. Sinking fund for redemption of bonds at not to exceed par and int., $50,000 per ann. for 35 years; also all sums in excess of $50,000 per ann. received on account of principal of any mortgages held as collateral under such mortgage and any further payments authorized in case of issue of further bonds or otherwise. Bonds retired through operation of the sinking fund to be held alive. To May 1 1924, $1,537,900 had been retired, while $368,500 were held in treasury and $5,052,600 were outstanding, V. 97, p. 1503; V. 98, p. 1765; V. 100, p. 980, 1006; V. 108, p. 2329, 2240.

BUFFALO & SUSQUEHANNA COAL & COKE CO.—This company the $1,000,000 5% M. bonds of which are owned by the B. & S. *RR.* Corp., owns coal lands at Du Bois, Onondaga and Sagamore, Pa. Six mines in operation. V. 77, p. 1301; V. 79, p. 2091-92; V. 82, p. 1322; V. 85, p. 1266. 1st M. 5% bonds have been paid off.

POWHATAN COAL & COKE CO.—This company, all of whose bonds are owned by the B. & S. *RR.* Corp., owns coal lands at Tyler and at Sykes. Its coking plants have a capacity of 1,800 tons of coke daily. Keystone Store Co., stock $50,000, all owned by RR. Corp

REPORT.—For 1923, in V. 118, p. 2036, showed:

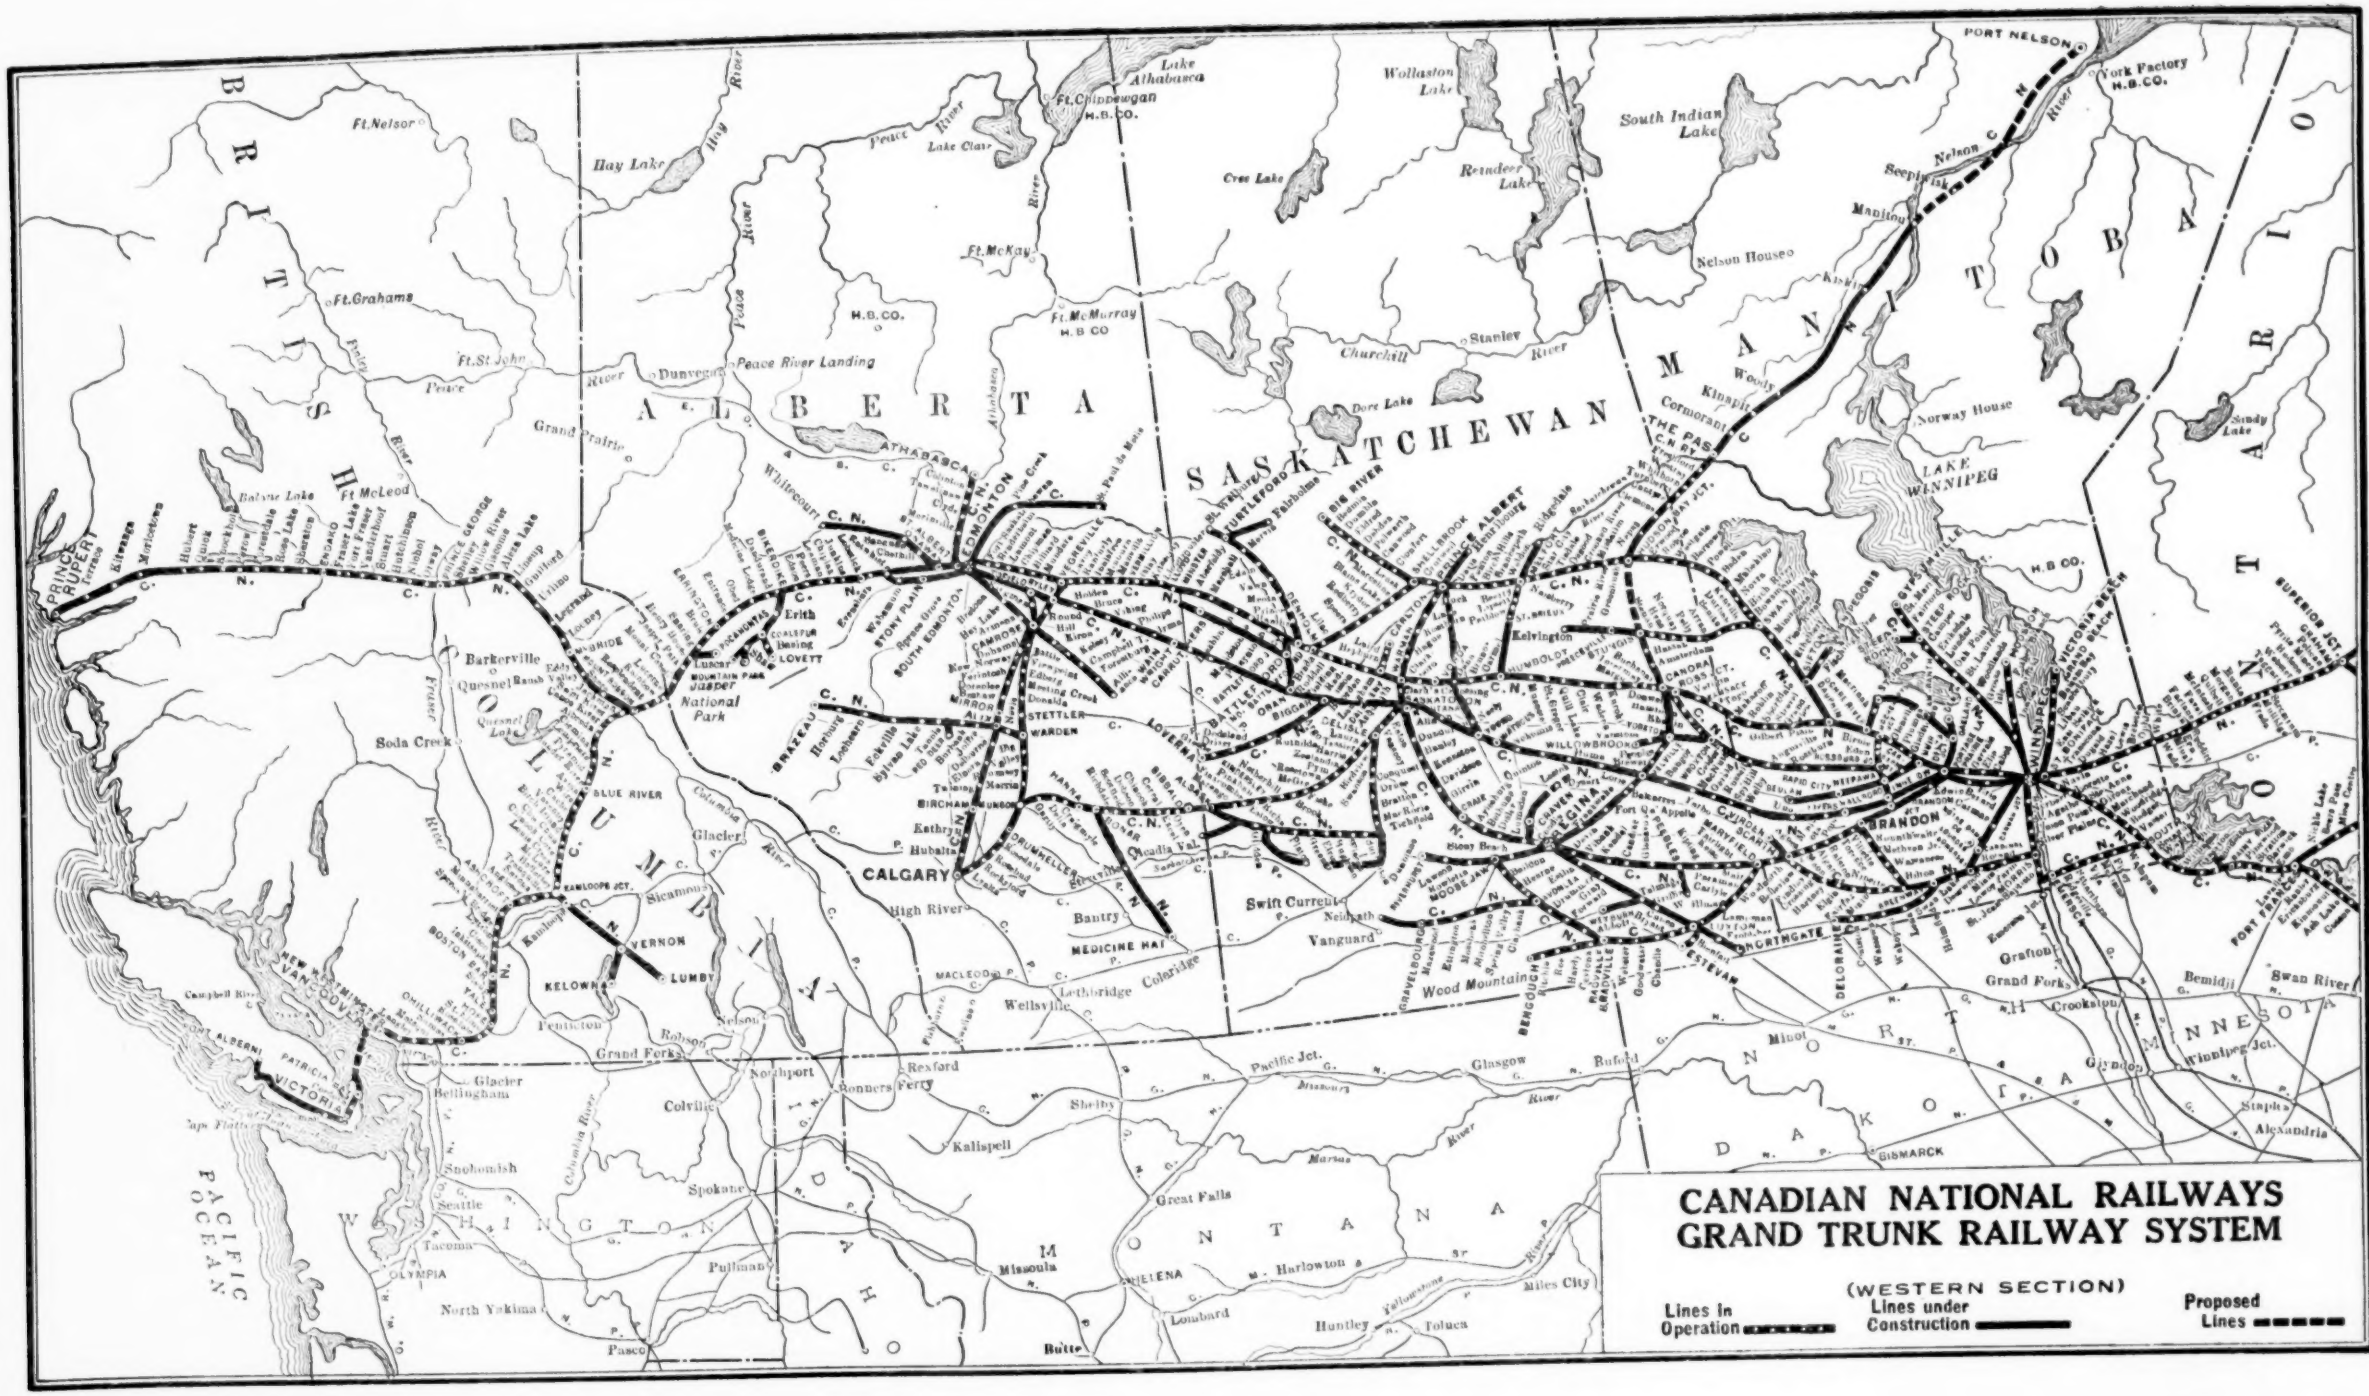
For latest earnings, see "Railway Earnings Section" (issued monthly).



DIRECTORS.—E. R. Darlow (Pres.), A. A. Jackson, P. G. Bartlett, Herbert H. Dean, J. S. Farlee, James R. McKee, Julius F. Workum, Charlton Yarnall, Albert L. Smith, J. Rutherford McAllister and F. E. Hall (Sec.-Treas.); Gen. Mgr., A. M. Darlow; Gen. Aud., T. J. Elmer, 986 Ellicott Sq., Buffalo.—(V. 118, p. 892.)

BULL FROG-GOLDFIELD RR.—Beatty, Nev., to Goldfield, Nev., 80 miles. In June 1914 control was obtained by Las Vegas & Tonopah RR., duplicate lines being abandoned, but in 1918 that company went out of business and this road has since been operated in connection with Tonopah & Tidewater RR. and Death Valley RR. V. 99, p. 1536. During the latter part of 1919 Messrs. Althause and La Grange purchased a majority of the $1,628,463 outstanding stock, and in the spring of 1920 announced that they proposed to scrap the road, pay off the bonds and divide the remainder of the proceeds among the stockholders. Opposition to this plan developed, and Tonopah & Tidewater RR. purchased the stock held by Althause and La Grange at the price paid by them, plus 6% int. for the period during which they held the stock. W. A. Clark, Montana, the holder of the outstanding bonds, agreed to take $148,000 in new 1st Mtge. bonds in exchange for the old 1st and 2d Mtge. bonds held and in partial satisfaction of unpaid accrued int. on outstanding bonds. Officers: R. C. Baker, Pres.; C. B. Zabriskie, V.-P. & Treas.; N. S. Miller, Sec., 523 Pacific Electric Bldg., Los Angeles, Calif.—(V. 113, p. 1052.)

BUTTE ANACONDA & PACIFIC RY.—Owns Butte to Anaconda, Mont., and west to Southern Cross, 47 miles; spurs, 36 m.; 2d track, 2 m.; sidings, 65 m.; total, 150 m.; also leases Stuart to Anaconda, 9 m.; sidings, 5 m.; total, 165 miles, of which 114 miles operated electrically. V. 97, p. 1114; V. 96, p. 135. Stock, $2,500,000, of which Anaconda Copper Co. owns 51% and Chic. Milw. & St. Paul Ry. 49%. Dividends: 1910 & 1911, 6%; 1912, 3% and 150% in stock; 1914, 4½%; 1915, 6%; 1916, 1917 & 1918, 12%; 1919, 6%; 1920-23, none. Bonds ($5,000,000 auth. issue), of which $2,628,000 are outstanding, are guar., p. & i., by Anaconda Copper Mining Co. V. 98, p. 837. For year ending Dec. 31 1923, gross, $1,555,164; net, $68,492; charges, $167,296; bal., def., $96,790.—(V. 118, p. 793.)

CAIRO & THEBES RR.—Owns Cairo, Ill., to the bridge across the Mississippi River at Thebes, Ill., 25 miles. Leased to St. L. I. M. & So. Ry. (now Mo. Pac. RR.) for 99 years from Mar. 1 1911, rental covering int. on an authorized issue of $2,000,000 4% bonds, of which $1,699,000 are issued and outstanding, all owned by L. & N. V. 95, p. 1121. Columbia Trust Co. of Louisville, Ky., trustee. Stock (all owned by Mo. Pac. RR. Co.), $10,000; par, $100. Pres., A. Robertson; Treas., F. M. Hickman; Sec., F. W. Irland, St. Louis.—(V. 95, p. 1121.)

Bonds, $900,000 authorized and issued; sinking fund, 2c. per gross ton on coal originating on the line; minimum, $16,000.

Authorized issue of 1st M. 5s of 1911, $900,000, of which on Dec. 31 1922 $900,000 had been issued, and of these $270,000 had been retired; $75,000 held in treasury.

Gen. M. bonds, 6% Series "A," auth., $4,000,000; nominal date of issue, Aug. 1 1919; date of maturity, Aug. 1 1944, of which par value outstanding as of Dec. 31 1922 is $1,719,000. Of this amount $89,000 are in treasury.

Equip. trusts Dec. 31 1922, $75,000 "B" 5s, due ann. to Mar. 1 1927; $120,000 "C" 5s, due ann. to Feb. 1 1928; $168,000 Series "E" 5s, due part ann. to May 1 1929, and $792,000 "F" 4½s, due ann. to Dec. 1 1931.

In April 1923 sold $1,700,000 Series "G" 5½s, due ann. to May 1 1938.

EARNINGS.—For cal. year 1922, gross, $824,040; net, def., $43,143; other income, $530,795; int., rentals, &c., $178,562; bal., sur., $309,090.

Vice-Pres., F. E. Herriman; Sec., S. B. Wixom; Treas., L. G. Ball. Office, 246 S. 15th St., Philadelphia, Pa.

CAMDEN & BURLINGTON COUNTY RY.—Owns from Pavonia, N. J., to Pemberton, N. J., 22.34 miles; branch, Burlington, N. J., to Mt. Holly, 7.12 m.; connection with P. & A. RR. at Birmingham, N. J., 0.12 m.; other branches, 8.82 m.; total, 38.40 m. Organized in 1915 as a consolidation. Auth. capital stock, $800,000. V. 101, p. 46, 1092; V. 102, p. 65. Operated under lease by Penn. RR., which guarantees 6% on stock. —(V. 101, p. 46, 1092.)

CAMPBELL'S CREEK RR.—(V. 117, p. 2541.)

CANADA & GULF TERMINAL RY.—Owns Ste. Favie to Hammermill, Que., 38½ miles. Stock authorized, $4,000,000; par, $100. Bonds, see table. For 1922, gross, $134,596; net, $42,202; int., rentals, &c., $122,262; bal., def., $80,060. Pres., M. J. O'Brien, Ottawa, Ont.; V.-Pres., Hugh Doheny, Montreal, Que.; Sec.-Treas., E. M. Hoctor, Montreal, Que.

CANADA SOUTHERN RY.—(*See Maps New York Central Lines.*)—**ROAD.**—Main line from Suspension Bridge station, including the Cantilever Bridge, to Windsor, Ont., 226 m.; branches to Courtright, Ont., &c., and controlled lines, 154 m.; total, 380 m.; Canada So. Bridge, 2¼ m. Trackage, St. Thomas to London, Ont., 15 m. Double track, 242 miles.

ORGANIZATION, &c.—The company was chartered in Canada Feb. 28 1868 and debt readjusted in 1878. In 1903 made a new lease to Michigan Central for 999 years, the latter, which owns $7,810,000 stock, guaranteeing divs.; rate since Jan. 1 1911, 3% yearly. V. 76, p. 1191, 1247.

The Mich. Cent. guarantees prin. and int. of $40,000,000 50-year bonds; remaining $17,500,000 are reserved to refund the $130,000 divisional bonds and for additions, extensions, improvements and additions at not over $3,000,000 yearly. Bonds are free of Canadian taxes. V. 95, p. 1607, 1744; V. 96, p. 134, 200, 789, 1421. Report for 1922, gross, $21,465,99[illegible], net. oper. income, $5,825,379; other income, $374,193; interest, rentals, &c., $5,663,536; bal., sur., $1,536,036.—(V. 116, p. 2636.)

CANADIAN NATIONAL RAILWAYS.—(*See Map.*)—In 1919 a company under the name of "Canadian National Railway Company" was incorporated by the Dominion Government with the intention of having that company take over and operate the railways owned or controlled by the Government. This company was organized in October 1922.

In Jan. 1923 an amalgamation was effected between the above company and the Grand Trunk Ry. of Canada, the result being a new company with the name "Canadian National Ry. Co." and which new company became vested with the properties of the two amalgamating companies and became liable for the obligations of said companies. Pursuant to the agreement between the Dominion of Canada and the Grand Trunk Ry. Co. all the capital stock of the Grand Trunk Co. became vested in His Majesty the King on behalf of the Dominion of Canada and as a result of this and of the above amalgamation there was issued in favor of the Minister of Finance of the Dominion of Canada in trust for His Majesty as above $180,424,327 70 of capital stock of the new Canadian National Ry. Co. This amount represented the previously outstanding capital stock of the Grand Trunk Co., there being no capital stock outstanding of the previous Canadian National Rys. Co. The Canadian National Rys. now operates about 22,000 miles of railway all under control of the same directors and the same general and executive officers, whether acting respectively as directors or officers of one or another of the companies included in the Canadian National Rys. System.

In May 1920 Wm. A. Read & Co., New York, offered $15,000,000 7% equipment trust gold certificates, dated May, 1920, and due May 1 1935.

Semi-annual payments of $500,000 each beginning Nov. 1 1920 must be used by the trustee to purchase certificates at or under par, if obtainable. At the end of each six months any unexpended balance must be used at the direction of the railway to purchase either certificates or Canadian Government obligations due before the maturity date of the certificates. Certificates may be purchased at a premium and tendered by the railway company to the trustee, under the foregoing provisions.

Serial equipment bonds of 1923, V. 117, p. 552.

The 30-year 5% bonds of 1924 are secured by the full credit and taxing power of the Dominion of Canada equally with its Victory bonds and other direct obligations. The Dominion of Canada guarantees unconditionally the payment of principal and interest, the guaranty being endorsed on each bonds. V. 118, p. 430.

REPORT.—For 1922, in V. 116, p. 2877, showed:

Calendar Years.	1922.	1921.	1920.
Gross operating revenues	$120,135,957	$126,691,456	$125,641,752
Net after taxes	def11,085,081	df17,677,931	df38,074,092
Other income	5,567,639	4,439,888	5,421,415
Deductions	4,344,602	2,657,976	1,658,138
Fixed charges	41,241,252	40,777,915	33,194,244
Balance, deficit	$51,103,297	$56,673,934	$67,505,059

Note.—The foregoing figures are the combined results of the Canadian Northern Ry. System, Canadian Govt. Rys. and Grand Trunk System.

OFFICERS.—Pres., Sir Henry Thornton; Sec., R. P. Ormsby; Treas., J. A. Yates. General offices, Montreal.—(V. 118, p. 2436.)

CANADIAN NORTHERN RAILWAY SYSTEM.—(*See Map Canadian Nat. Rys.*)—The Canadian Northern Ry. System, with a maximum grade of practically ½ of 1%, on Dec. 31 1920 had in operation 9,868.9 miles of road extending from Quebec, Montreal and Toronto to Vancouver, British Columbia, with many branches and intersecting lines in the provinces of Quebec, Ontario, Manitoba, Saskatchewan and Alberta. V. 105, p. 1207, 1103; V. 107, p. 1286.

Mileage	
Central Division—West of Port Arthur	1,954.3 miles
Prairie Division	2,5[illegible].8 "
Western Division—West of Port Arthur	1,428.2 "
Pacific Division—West of Edmonton	709.0 "
Ontario Division—East of Port Arthur	1,798.9 "
Quebec Division	781.8 "
Lines in Nova Scotia	378.1 "
Minnesota Division	172.6 "
Electric lines in Ontario	126.2 "
Total	9,868.9 miles

In Nov. 1918 an Order-in-Council was passed transferring the management and operation of all the other Government railways in Canada to the board of directors which had been appointed to manage the Canadian Northern Ry. system.

In June 1919 the Canadian National Ry. was incorporated at the instance of the Canadian Government, which owns its entire capital stock, to operate all the Government-owned lines. On June 30 1919 the title to the physical property of the Canadian Northern Ry. Co. and its subsidiaries was still vested in the several original companies, and they were directly liable for their bonds though Hon. J. D. Reid, Minister of Railway, on June 30 informed the Canadian House of Commons that if the net earnings of the Canadian Northern Ry. are insufficient to pay the bond interest the Government had arranged to provide for such interest for the current fiscal year.

DOMINION CONTROL AND LOANS.—In 1914 the Canadian Government guaranteed $45,000,000 of 4% debentures and took over additional $33,000,000 of the capital stock over the $7,000,000 previously acquired. In 1918 the balance of the $100,000,000 was acquired. The total capital stock is now $100,000,500 of which $500 is outstanding in the hands of the public. V. 106, p. 2344; V. 107, p. 1191; V. 108, p. 1822; V. 98, p. 1600, 1607, 1918.

In 1917, under Act of the Canadian Parliament, the Government advanced to the roads of the system $25,000,000 with which to meet coupons and other maturing obligations (V. 105, p. 496, 996, 1207, 2271, 2364; V. 106, p. 2344. In 1918 further agreed to assist the company by guaranty of principal and interest, in renewing or postponing maturing obligations of the system. V. 106, p. 1796, 2223. Also in 1918 voted to grant a further loan of $25,000,000. Compare V. 106, p. 2559, 2344, 2336, 2223.

CAPITAL STOCK.—Of the $125,000,000 cap. stock as increased in 1914, $25,000,000 was issuable only in exchange for Income Charge stock, the right to exchange expiring Jan. 1 1922. V. 98, p. 1600; V. 100, p. 393; V. 105, p. 996.

DEBT.—The $45,000,000 debenture stock was guaranteed in 1914, prin-1600, 1607, 1918. See also V. 102, p. 1982; V. 99, p. 269, 341, 536, 747, 1129, 1450; V. 100, p. 307, 1591.

Particulars regarding various of the securities issued were given in V. 106, p. 2223, 2336; V. 105, p. 1304; (*a*) perpetual consol. deben. stock, V. 76, p. 1247; V. 77, p. 87; V. 80, p. 996; V. 81, p. 1609; V. 86, p. 1099; V. 87, p. 36; V. 89, p. 1279; V. 90, p. 770, 1424, 1489; V. 93, p. 406; V. 94, p. 1695; V. 98, p. 1601. (*b*) 3% 1st M. debenture stock, *guaranteed by Dominion Government*, dated July 29 1903, V. 80, p. 1234; V. 76, p. 1299. CANADIAN NORTHERN ONTARIO RY.—Owns: Montreal to Por. Arthur, 1,010.94 miles; Toronto to Capreol, 276.43 miles; Toronto to Ottawa, 250.25 miles; total, 1,537.62 miles. V. 92, p. 162; V. 97, p. 1023. Owns modern ore-handling plant at Key Harbor, 80 miles from mines. Respecting securities see Canadian Northern Ry. above and V. 87, p. 96; V. 88, p. 1060; V. 93, p. 1190, 1667; V. 92, p. 1635.)

CANADIAN NORTHERN PACIFIC RY.—Yellowhead Pass to Vancouver and Pacific tidewater, about 500 miles; also 15 miles, Victoria Co., Patricia Bay (in operation). Also under construction a 159-mile line to the east coast of Vancouver Island and a 145-mile line to Vernon, and thence via Long Lake to Kelowna and to Okanagan Lake. V. 92, p. 1309; V. 93, p. 526; V. 101, p. 46; V. 103, p. 2078; V. 105, p. 1207. Has trackage rights between New Westminster and Vancouver, B. C., 12.67 miles. V. 105, p. 1207; V. 93, p. 1461; V. 94, p. 1565; V. 91, p. 37, 93; V. 90, p. 696; V. 89, p. 1141; V. 97, p. 80; V. 96, p. 651, 1838; V. 97, p. 297, 364; V. 100, p. 1591.—(V. 105, p. 1207.)

CANADIAN NORTHERN QUEBEC RY.—Owns Montreal to Quebec and branches, in all 405.11 miles. See V. 95, p. 1402; V. 97, p. 1023.

Capital stock, $9,550,000 common and $3,000,000 statutory stock; outstanding, $9,550,000. In Dec. 1920 the Canadian Northern Ry. owned $2,000,000 of the company's stock and also 71.9% stock in Northern Consol. Holding Co., Ltd., which owns $5,144,600 of C. N. Quebec Ry. stock; total so controlled, $7,144,600, or 74.7%. V. 95, p. 1471; V. 96, p. 201; V. 97, p. 951.

SECURITIES.—Regarding 4% perpetual debenture stock, see Canadian Northern Ry. above and V. 84, p. 968. V. 84, p. 693, 748.

There are $3,505,750 4% bonds of the Great Nor. Ry. of Canada, guar. as to prin. and int. by Canadian Nor. Ry.; Central Trust Co. of N. Y. Office, Toronto, Ont.—(V. 96, p. 201; V. 97, p. 950; V. 107, p. 2187.)

CANADIAN PACIFIC RY.—(*See Maps.*)—Owns a trans-continental railway from Montreal to the Pacific Ocean, made up as follows Dec. 31 1923

Montreal to Vancouver	2,895	Also controlled but oper. sep.—	
Branches, leased lines, &c.	10,762	*a*Minn. St. P. & Sault Ste. M.	4,402
Total in traffic returns	13,657	*a*Duluth South Shore & Atlantic	615
Mileage of other lines worked	992	*a*Mineral Range	98
Lines under construction	356	*a* See each company's statement.	
		Steamships, see V. 116, p. 1435.	

The 5-mile tunnel through the Selkirk Mts. was put in use in Dec. 1916.

HISTORY, &C.—Incorporated Feb. 17 1881 under charter from Dominion of Canada, receiving $25,000,000 in cash as a subsidy; also 25,000,000 acres of land, all to be fit for settlement.

Full financial resume by Chairman in May 1918 with statement as to company's $253,000,000 of outside assets was in V. 106, p. 1906. Kaslo & Slocan Ry. lease and bonds, see V. 107, p. 2097. In July 1920 assumed operation for a period of 5 years of the Edmonton Dunvegan & British Columbia and Central Canada Railway Cos. See V. 112, p. 1408.

STOCK.—The issue of preferred must never exceed one-half the common.

COMMON DIVS.—	'03.	'04-'06.	'07-'09.	'10.	'11.	'12 to June 30 1924.
RR. earnings since 1902	5½	6 yrly.	6 yrly.	6½	7	7 yrly.	2½% quar.
Land sales, interest, &c.	--	------	1 yrly.	1	2½	3 yrly.	

BONDS, DEBENTURE STOCK, GUARANTEED BONDS, &C.—List of securities owned Dec. 31 1921, V. 114, p. 1426.

The shareholders on May 4 1921 gave the directors blanket authority to issue any form of security for any purpose, provided it is junior to the Consolidated Debenture 4% stock, and does not exceed the amount of this stock.

Late in 1916 $40,000,000 4% Consolidated debenture stock over and above the $176,284,882 (£35,611,124) then listed on the London Stock Exchange, was issued and loaned to the Imperial Treasury for a maximum period of five years, at a premium of ½% per annum, over the interest payable on the stock. Provision is made in the agreement for the sale to the British Treasury of this stock in annual installments, should the company require money for any of its purposes in Great Britain, and the Treasury reserves the right to purchase all or any of the stock during the five years at 80% of face value. V. 104, p. 1604, 1388; V. 106, p. 1241. The balance sheet of Dec. 31 1923 showed $254,244,882 Consol. debenture stock outstanding. V. 108, p. 1280.

In June 1890 company *guaranteed* the principal and interest of $20,000,000 4% bonds issued by the Dul. So. Sh. & Atl.; also 4% int. on Consolidated bonds of the Minn. St. P. & S. Ste. M., and in 1899 interest on the 2d mtge. 4s of the latter. Owns Dul. So. Sh. & Atl. consols, $15,107,000, &c.

Collateral Trust Bonds.—The 5% collateral trust gold bonds are secured by deposit of $15,000,000 4% Consol. Deb. stock. The bonds are redeemable, all or part, at 102½ and int. after April 15 1926. V. 118, p. 1909.

St. Lawrence & Ottawa bonds are endorsed with the Canadian Pacific's acceptance of a 999-year lease at a rental sufficient to pay 4% int. on bonds; and the bondholders' agreement to accept int. at 4% (instead of 6%) and to refrain from demanding principal (due 1910) during lease. V. 90, p. 1361.

The *New Brunswick Railway* consolidated debenture stock has interest guaranteed by Canadian Pacific; interest on the first mtge. bonds, though not guaranteed, is paid out of rental under 999-year lease of 1890.

The *Calgary & Edmonton Ry.* debenture stock is guaranteed interest at 4% under new lease of 1903. V. 76, p. 435; V. 77, p. 636.

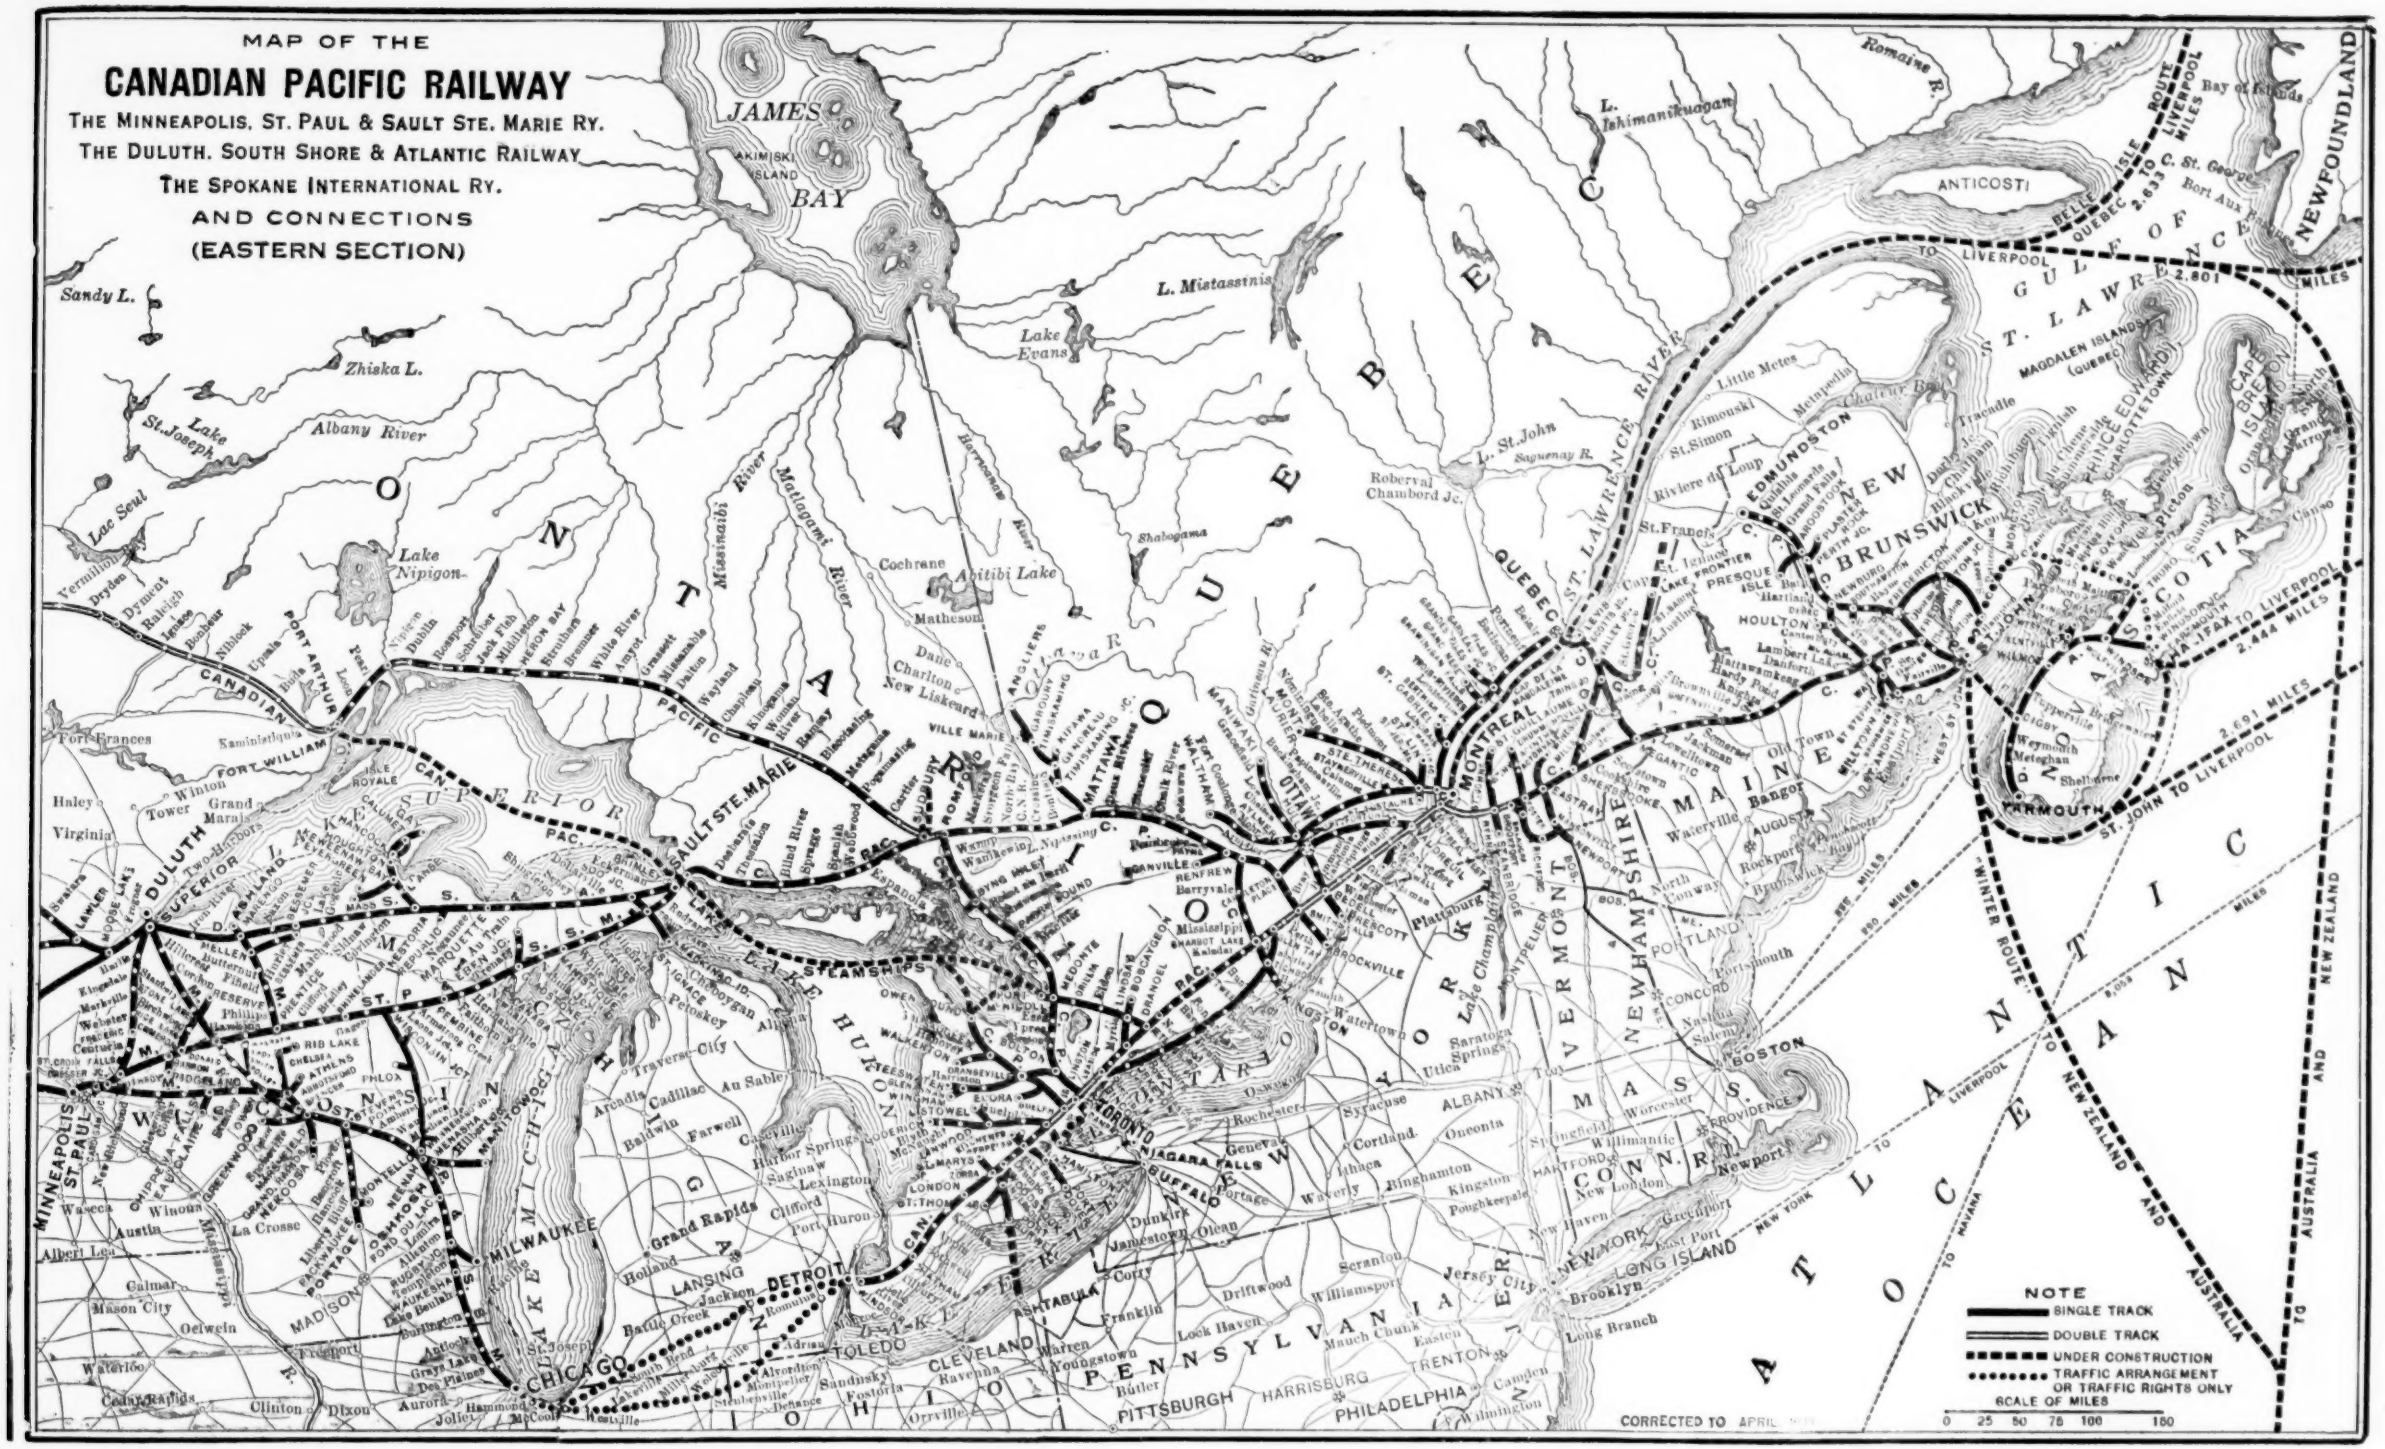
The *Lindsay Bobcaygeon & Pontypool Ry.* bonds are issued under a 99-year lease covering the interest. V. 77, p. 1225; V. 79, p. 2085.

The First & Ref. M. 4½s of the Aroostook Vy. (electric) RR. are issuable at rate of $25,000 per mile. Denom. £100 or $500. Sinking fund, ½ of 1% yearly of issued and outstanding bonds from Feb. 1 1916-20, 1% thereafter. Callable for sinking fund at 105. V. 89, p. 846; V. 90, p. 107; V. 92, p. 259.

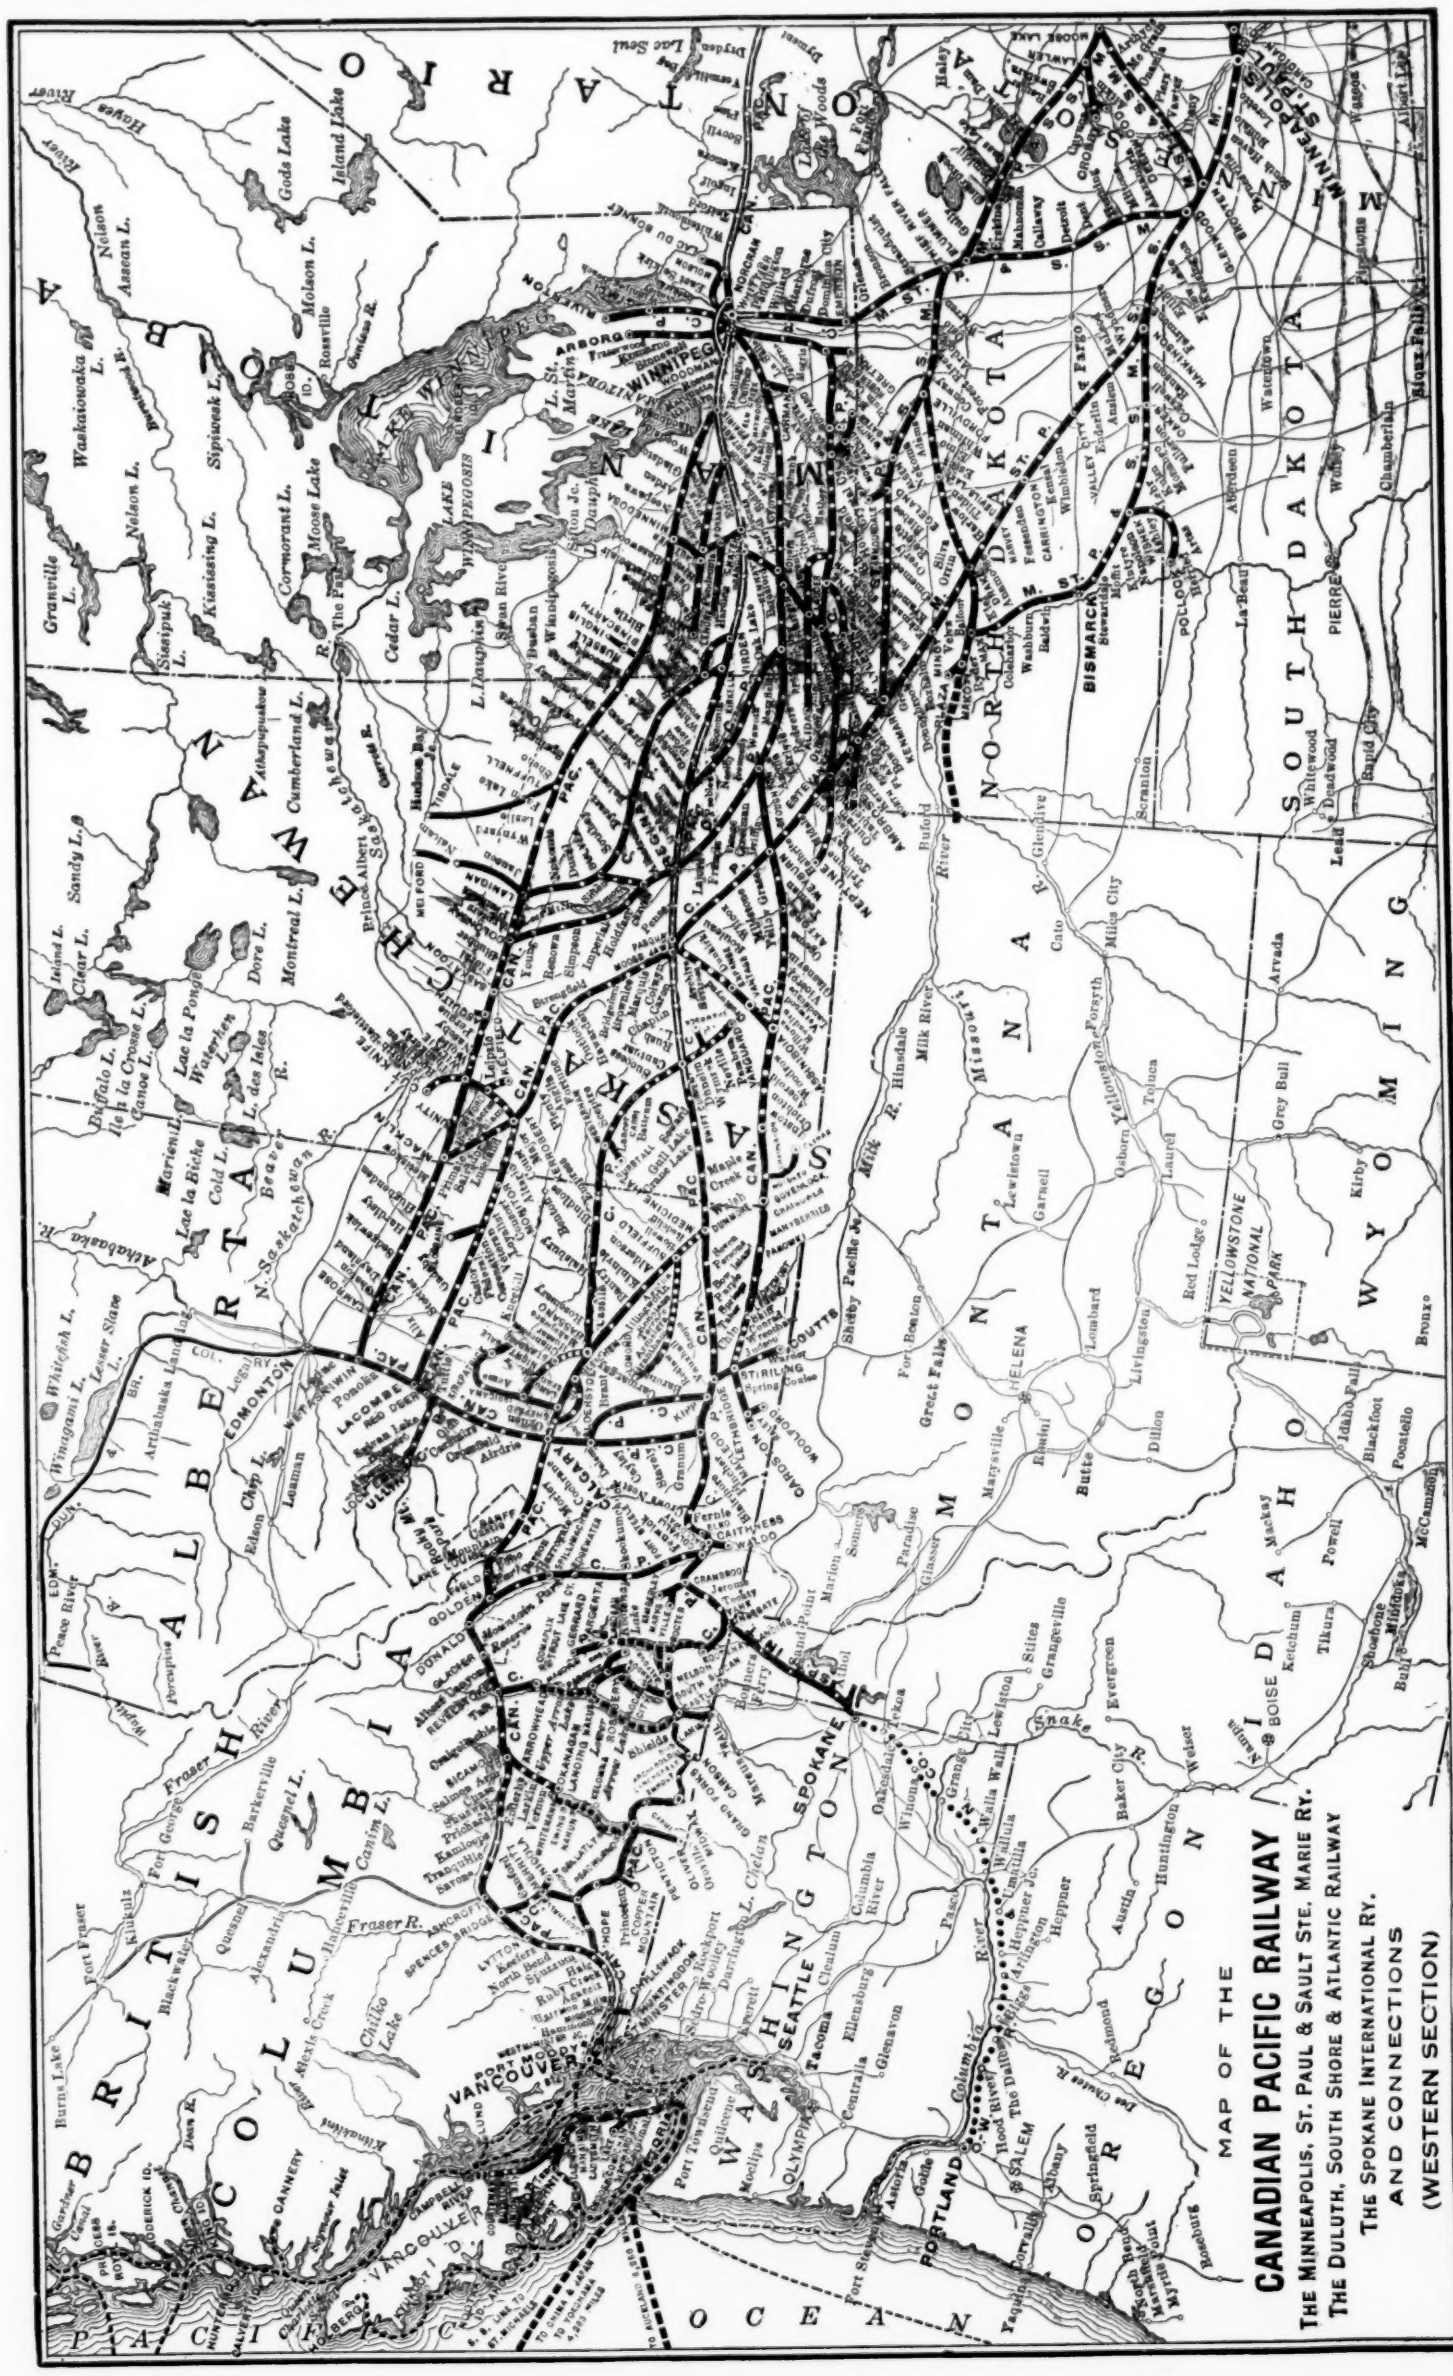
Kettle Valley Ry.—See V. 108, p. 1721, 1282.
Victoria Rolling Stock & Realty 4½%. V. 99, p. 1672, 543; V. 100, p.139
In March 1920 sold $12,000,000 6% equip. trust certifs. V. 110, p. 1288.

Lands.—Lands unsold Dec. 31 1923 were 138,645 acres in Manitoba (book value $1,386,450), 1,295,892 acres in Saskatchewan (book value $16,846,596), 2,751,194 acres in Alberta (book value $45,275,513), 1,043,342 acres in British Columbia (book value $5,123,542), &c. Total of all lands owned Dec. 31 1923, 5,832,679 acres (book value $96,767,346).

SUB. COS.—Dominion Atlantic Ry., Yarmouth to Truro, with branches, total 247 miles, with 45 miles trackage to Halifax, is leased for 999 years from 1912. V. 91, p. 728; V. 90, p. 1490, 1424; V. 93, p. 1461; V. 94, p. 278. Alberta Ry. & Irrigation Co., see V. 92, p. 955; V. 93, p. 593; V. 94, p. 1316; V. 95, p. 617. Quebec Central Ry,. see V. 93, p. 667, 1106; V. 94, p. 1625; V. 96, p. 361, 715.



REPORT.—For 1923, in V. 118, p. 1556, showed:



Calendar Years—	1923.	1922.	1921.	1920.
(1) *Revenues*—	$	$	$	$
Passenger	36,315,818	35,331,525	41,565,885	49,125,739
Freight	134,299,556	128,918,137	128,849,446	145,303,400
Mail, express, &c.	25,221,716	22,425,374	22,606,524	22,212,210
Total earnings	195,837,090	186,675,036	193,021,854	216,641,349
